ADVERTISEMENT:

This Catalogue has the same classes as the London Catalogue of 1800, but there is a difference in the prices of the books; for in the latter they are bound, in the common manner, at the prices affixed, and in this they are to be understood (unless otherwise mentioned) as sewed or in boards, which is now the most usual way that new publications are sold. When any of these are bound, the advance in price will be, in general, as follows: A volume of 18mo or 12mo, 6d more in sheep, and 1s in calf letd.—common 8vo, 1s more in sheep, and 1s 6d in calf letd.—royal 8vo, 2s more in calf letd.—4to, 4s to 6s, and folio 5s to 7s and upward, according to size, in calf and lettered.

There are some Additions and Corrections at the end, the latter of which had best be set right with the pen.

December 7, 1803.

To be had of all Booksellers,

Price 4s 6d half bound in the vellum manner,

The London Catalogue of Books, with their sizes and prices. Corrected to September 1799. To which is added an Appendix, continuing the same to the end of the Year 1800.

ADVERTISEMENT.

This Catalogue has the same classes as the London Catalogue of 1800, but in the prices of the books the method is different; for in the latter the books are *bound*, in the common way, at the prices affixed, and in this they are to be understood (unless otherwise mentioned) as *sewed* or *in boards*, being now the usual manner in which new publications are sold. When any of these are bound, the advance in price will be, in general, as follows: a volume 18mo or 12mo, 6d more in sheep, and 1s in calf—common 8vo, 1s more in sheep, and 1s 6d in calf—royal 8vo, 2s more in calf letd.—4to, 4s to 6s, and folio 5s to 8s and upward, according to size, in calf letd.

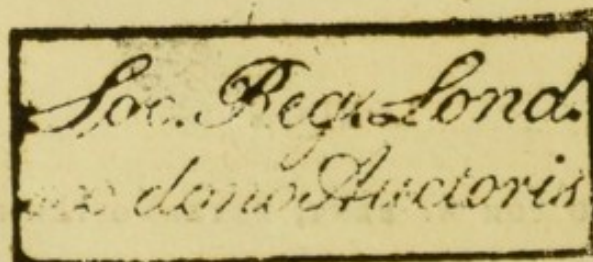

There are some Corrections at the end, which are recommended to be made with the pen; and information of any other errors, or omissions, will be thankfully received by
