AND

DAILY MEMORANDA

FOR

1848,

BOUND UP WITH THEIR ALMANACK.

PRICE THREE SHILLINGS.

LONDON :

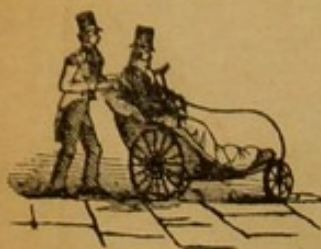

PUBLISHED BY DIETRICHSEN AND HANNAY,

Patent Medicine Vendors, Perfumers, Chymists, and Druggists,
63, OXFORD STREET;

And may be had of all Booksellers, Postmasters, Newsmen, and Letter Carriers.

IMPORTANT CAUTION.—A. ROWLAND AND SON, 20, HATTON GARDEN,
LONDON, beg to caution the Nobility and Gentry against being misled by the attempts of some Shopkeepers, who, to compounds of their own manufacture, give the titles of "Macassar Oil," "Kalydor," and "Odonto;" some under the implied sanction of Royalty and the Government Departments, with similar attempts at deception; while they copy the Labels, Bills, Advertisements, and Testimonials (substituting fictitious names and addresses for the real,) of the original preparations.

The only genuine "Macassar Oil," "Kalydor," and "Odonto" are "ROWLANDS';" and the Wrapper of each bears the name of "ROWLANDS'" preceding that of the article, with their Signature at the foot, in *Red Ink*, thus, "A. ROWLAND & SON." Sold by them, and by all Chemists and Perfumers.

THE AFFLICTED WITH RHEUMATISM, GOUT,

PARALYSIS, TIC DOLOREUX, SPINAL AFFECTIONS, PAINS AND WEAKNESS IN THE LIMBS, JOINTS, &c., should read a Pamphlet which may be obtained by forwarding a paid letter inclosing three Postage Stamps, addressed to Mr. CABBURN'S Dispensary, King's Cross, wherein indisputable proofs are adduced that in many instances a complete victory has been obtained over the above afflictions, and that for a few shillings, or even pence in some cases, alleviation from pain may be effected, and in a short time a perfect restoration. Persons about to take the benefit of change, as to air, &c., should peruse this Pamphlet, it being the Fourth Edition of 400,000.

WILLIAM ALLEN'S REGISTERED PHILOSOPHICAL CORN SHIELD,
and No. 1, Large, and No. 2, Small Size BUNION SHIELD, perforated (with holes in the centre) for Hard Corns and Bunions.

WILLIAM ALLEN'S Registered Philosophical Corn Shield, and No. 1, Large, and No. 2, Small Size Bunion Shield, not perforated (without holes in the centre), for Soft Corns and Bunions.

Invented and Prepared by the Proprietor, WILLIAM ALLEN, Chemist, (Member of the Pharmaceutical Society of Great Britain,) No. 2, Morgan's Place, Liverpool Road, Islington, London. Sold, wholesale, (by his appointment) by DIETRICHSEN and HANNAY, 63, Oxford Street, London, and may be had of all Druggists and Medicine Venders in the Kingdom.

N.B. The Corn and Bunion Shields are sold separate, in boxes at 1s. 1½d. each.

RHEUMATISM.—All those suffering from Rheumatism, Chilblains, Lumbago, Tic Doloreux, Cramp, Sprains, &c., will find immediate relief and a speedy cure by using CORRALL'S EMBROCATION. The great and increasing demand for this novel Embrocation induces the Proprietor to introduce it more generally to the Public, satisfied that one trial alone will be sufficient to convince the most sceptical of its superiority over all other articles offered for similar purposes.

Sold in bottles at 1s. 1½d., and 2s. 9d. each, by the Sole Proprietor, GEORGE RICHARDSON, 12, Norland Place, Notting Hill; and by his appointment by BARCLAY and SONS, 95, Farringdon Street, and J. SANGER, 150, Oxford Street, and through any Chemist or Dealer in Patent Medicines throughout the Kingdom. Orders, by post, directed to the Proprietor, promptly attended to.

SIR JAMES MURRAY'S FLUID MAGNESIA. Prepared under the immediate care of the Inventor, and established for upwards of thirty years by the PROFESSION, for removing BILE, ACIDITIES, and INDIGESTION, restoring APPETITE, preserving a moderate state of the Bowels, and dissolving Uric Acid in GRAVEL and GOUT; also as an easy remedy for SEA SICKNESS, and for the febrile affection incident to childhood it is invaluable.—On the value of Magnesia as a remedial agent it is unnecessary to enlarge; but the Fluid preparation of Sir James Murray is now the most valued by the Profession, as it entirely avoids the possibility of those dangerous concretions usually resulting from the use of the article in powder, and in the over-dosed liquids of detected imitators.

Sold by the sole Consignee, Mr. BAILEY, of North Street, Wolverhampton; and by all Wholesale and Retail Druggists and Medicine Agents throughout the British Empire, in bottles, 1s., 2s. 6d., 3s. 6d., 5s. 6d., 11s., and 21s. each.

The Acidulated Syrup in Bottles, 2s. each.

N.B.—Be sure to ask for "Sir James Murray's Preparation," and to see that his name is stamped on each label in *green ink*, as follows:—"James Murray, Physician to the Lord Lieutenant."

DIETRICHSEN AND HANNAY beg to proffer their warmest thanks for the valuable and prompt corrections which have been most politely and kindly furnished them for the present number of their Almanack; and while they avail themselves of this opportunity of acknowledging these favours, they earnestly solicit a continuance of them in future years.

TO THEIR SUBSCRIBERS.

DIETRICHSEN and HANNAY beg to state that every effort has been made to render the present Almanack more worthy of public approbation; very great additions are given connected with the Calendar and astronomical calculations—the Chronology has been arranged with the utmost care, so as to furnish a concise history of all the leading events of the year 1846—various new and interesting matter is also given—and the Colonial Banks in correspondence with the metropolis, with the names of the gentlemen acting as managers, is also added to the banking list. Dietrichsen and Hannay therefore trust that the great attention, labour, and expense, which they bestow on their Almanack to render it of general utility, will suggest to the public the necessity of their continuing to honour them with their support in their general business of Chemists, Perfumers, and Patent Medicine Vendors.

The following Correction came too late to be made in its proper place:—

ASCENSION.

Governor, Captain Frederick Hutton, R.N.
Commanding the Garrison, Captain Geo. Evans Hunt, Royal
Marines.
Adjutant Lieutenant, G. Byng Payne, R.M.
Master Attendant, Philip C. D. Bean, Esq., R.N.

Agent Victualler, Benjamin Wickham, Esq., R.N.
Chaplain, Rev. William Bell.
Civil Engineer, George Bathgate, Esq.
Surgeon, John Sloan, M.D.
Assistant Surgeon, John Andrews, M.D.

The only Cure for Corns and Bunions.

RAMSBOTTOM'S CORN AND BUNION SOLVENT.

By the use of this valuable remedy, immediate relief from pain is obtained, and by its successive application for a short period, the most obstinate Corns are removed, without recourse to the dangerous operations of cutting or filing. The proprietor pledges himself that it does not contain caustic, or any other article that will inflame the skin; being white, it will not stain the stocking; and the advantage it has over plaister is manifest, and fully appreciated, as the very high recommendation bestowed upon it by every individual that has used it testifies.—Price 1s. 1½d. and 2s.

The various counterfeits that are attempted to be imposed upon the public in lieu of this invaluable remedy, render it imperatively necessary for purchasers to ask for S. Ramsbottom's Corn and Bunion Solvent, and to see that it has the signature of "S. Ramsbottom" written upon the label that is pasted on the outside of the wrapper of every genuine bottle, in addition to the name of the article, and the words "**HANNAY & DIETRICHSEN, 63, Oxford Street,**" printed in white letters in the Government Stamp affixed to each bottle, who will forward a Bottle, free of carriage, to any part of the Kingdom, in return for one Shilling and two Fourpenny pieces, remitted free of postage.

GRAHAM'S

ANTI-CONSUMPTIVE LINIMENT!

The advantages of counter-irritant and other applications in PULMONARY CONSUMPTION, &c., have long been admitted on the Continent, and are now acknowledged by the most eminent medical men in England, but in consequence of the inconvenience and danger produced by their sudden and unequal action giving rise to extensive inflammation, they could not be used for a sufficient period to afford permanent benefit—for, just as the patients experience some relief, the parts become too tender to continue the application, and thus are all their expectations blighted, and they return to their former state. The Anti-Consumptive Liniment has none of these objections—it excites the skin, without causing the least tenderness or other inconvenience; relieves speedily and permanently all diseases of the Lungs, more especially that sadly fatal one CONSUMPTION, which it not only removes, but by timely application will prevent in those persons who are predisposed thereto. The chest, spine, &c., being rubbed with it, its astonishing powers are evinced by the relief of the most distressing symptoms, such as the difficulty of breathing, cough, pain, &c., also by Healing the Soreness and Restoring Strength to the Lungs and whole system; it requires no confinement or the least restraint, is perfectly safe, and may be used by the most delicate of either sex—indeed, for the more delicate patients, this remedy is peculiarly adapted, quickly relieving that irritability of the Stomach, and the various Affections of the Liver, Stomach, and Lungs, to which they are more especially subject. Sold at Hannay and Dietrichsen's Patent Medicine Warehouse, 63, Oxford Street, in Bottles at 4s. 6d. and 11s.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Venus is a splendid object in the mornings during this month, in the south-eastern part of the heavens. Saturn appears in the south-west after sun-set, and Mars in the south-east. The brilliant planet Jupiter being in opposition to the sun, is to be seen near the eastern horizon early in the evenings; near the meridian, or full south, at midnight; and adorning the western part of the heavens in the mornings. Persons who are in possession of good telescopes, may now be highly entertained with his belts and four satellites.

This is by no means an unimportant month to farmers: whatever winter ploughing may remain to be done should be no longer delayed, that the land may have the advantage of the frost naturally to be expected at this season. As in warm climates the soil is mellowed by the sun, it is no less benefited by frost in cold ones. Its action on clay soils is remarkable in rendering them loose and friable. Cattle of all sorts require much attention during this generally severely cold month. Ewes, especially those forward in lamb, require turnips. Cows, well kept, will pay for what they eat, their milk in consequence being in greater proportion and better in quality.

Prepare for all sowing and planting, as regards the kitchen garden; if this had been done in December it would have been better. If you choose to sow peas, though it is a bad practice, sow them early enough. You will get snow in January, which March seldom brings, and February never to stop on the ground, which is the great virtue of snow. Snow is the best covering for a garden we are acquainted with for the winter months. Ridge your land, and do that which few do—let your manure be mixed up with it as you ridge it.

The larks congregate, and the redbreast, the wren, and the missle-thrush sing; fieldfares and finches are now seen in flocks, and rooks resort to their nest-trees. The snow-drop and yellow crocus bloom at the end of this month, and a few flowers of the primrose and polyanthus are seen in sheltered places. The wild daisy blows in every month of the year.

The Latitude of London may be roughly taken at $51^{\circ} 30'$ North.

NOTE.—In all places of high north Latitude, like Great Britain, when the Moon is due south, or, in other words, passes the meridian, she is at her greatest elevation from the horizon, and her light the brightest. The Moon appears the most interesting through a telescope when she is about ten or twenty days old.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Saturn appears near the western horizon after sun-set during the first week, after which he becomes invisible. Mars exhibits his ruddy disc in the south and south-west during the evening part; at which time Jupiter appears very brilliant in the eastern skies. Venus is a beautiful object in the mornings.

Frost being a powerful agent in obtaining mould for covering seeds, plough grass and other lands intended to produce a crop. In mild weather dress thorn hedges, and plant new ones. Lay up stores of seed corn, put implements into working trim, and execute many little jobs, that no interruption may be experienced in sowing time. Animals about to bring forth require particular attention. Keep calves warm, clean, and dry; give hay and sliced roots in addition to liquid food to such as are rearing.

Sow cucumbers, melons, kidney beans, and cauliflowers in hot-beds. Sow cabbages and savoys; onions or leeks for the main crop. Plant out early cabbages, and strike dahlias from roots in hot-beds. Prune apples, pears, plums, and cherries against walls or espaliers, and flowering shrubs in nursery grounds.

The redbreast warbles near our dwellings, and the wren tunes its sprightly notes. Rooks now revisit their breeding trees, and arrange the stations of their future nests. Turkey-cocks strut and gobble: partridges begin to pair, and house-pigeons have young. Bulfinches appear at this time in our gardens, and though timid half the year, are now fearless and persevering.

Not many plants are to be seen in blow during this month: the principal are the snow-drop, the common

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Venus, at the beginning of this month, is to be seen before sun-rise, being yet the morning star. Mars is in the south-west in the evenings, and Jupiter appears very splendid in the south-eastern part of the heavens after sun-set.

This is now the time for sowing oats, clover, trefoil, sainfoin, peas, and tares. The live stock requires still to be well kept, particularly the ewes, or the lambs will show the consequences of neglect. Spread ant and mole hills, and roll meadow land.

Sow now the various esculents in common use, each fortnight this month, particularly if your winter crops have failed, the seeds sown now being always looked to as furnishing the principal crops of the year. Plant slips or cuttings of rosemary, rue, lavender, &c. This is the best time to graft fruit-trees, acacias, thorns, &c., and varieties of the China, perpetual, moss, and rosette roses, on the common briar of blush China rose, and to propagate them by layers.

The melody of birds now gradually swells upon the ear. The thrush, not much inferior to the nightingale in song, charms us with the sweetness and variety of its lays. The skylark sings delightfully as he soars towards the clouds. The blackbird and turkey lay, and house-pigeons sit. The bat is seen flitting about in mild evenings, and some insects make their appearance, such as black ants, &c.

The leaves of honeysuckles are now nearly expanded; in our gardens the buds of the cherry-tree, the peach, the nectarine, the apricot, and the almond, are fully opened in this month. The common whitlow grass on old walls; the yellow Alpine whitlow grass on maritime rocks; and the mountain pepperwort among limestone rocks, flower in March.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Mars is to be seen in the south-western part of the heavens every clear evening: the beautiful planet Jupiter to the south of Mars, and higher in the skies, will attract every person's attention; his belts and satellites afford ample amusement to those who are in possession of good telescopes.

Dry weather is still acceptable to the farmer, who is employed in sowing various kinds of grain, and seeds for fodder, as buck-wheat, lucern, sainfoin, clover, &c. The young corn and springing grass, however, are materially benefited by occasional showers. The important task of weeding now begins with the farmer; and every thistle cut down, every plant of charlock pulled up, may be said to be not only an advantage to himself, but a national benefit.

All principal sowing and planting of natural or full crops, pot-herbs, eatable plants, &c., omitted last month, should be finished early in this.

Sow lettuce, radishes, and small salad at two or three different times. Shelter your choice auriculars from all extremes of weather. Stocks and wall-flowers may be planted out in the open ground.

During this month a great variety of birds arrive on our shores from the south, such as the nightingale, the blackcap, the redstart, the whitethroat, the swallow, the cuckoo, &c. Our stationary birds are busy constructing their nests, and insects are making their appearance in every direction.

The progress of vegetation is general and rapid in this month. The blackthorn or sloe puts forth its elegant flowers; a host of others follow, among which may be named the ash, ground-ivy, and the box-tree. The apricot, the peach, the nectarine, the wild and garden cherry, the plum, gooseberry, and currant trees, the hawthorn, and the sycamore are now in flower. The blossoms of the apple and pear present to the eye a most agreeable spectacle, particularly in those counties which abound with orchards. The beech and the larch are now in full leaf: the horse-chestnut now displays its green leaves and its handsome white and red flowers. The laurel is in bloom, and the little violet opens its modest, but exquisitely sweet flowers.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Mars and Jupiter appear near each other throughout this month, in the evenings; at the beginning of the month Jupiter will appear above Mars, at the end he will appear below Mars; on the 17th they are in conjunction. Venus is now a morning star, but too much in the rays of the sun to be seen by the naked eye.

On arable ground preparation for turnips, and working naked summer fallows, where they have been adopted, are the principal operations of this month. Potatoes omitted in April must now be planted without delay. The dairy is at this time in full operation.

Sow carrots, lettuce, capsicums, cauliflowers, spinach, Knight's marrow-fat peas, &c. Propagate wall-flowers, rockets, &c., by cutting off the stalks: sow annuals in succession, and keep the *primula* tribe rather dry at this time. Evergreens may still be transplanted with balls of earth to the roots. Stir up the earth round your carnations, and clear them from dead leaves.

The migratory birds finish their arrival at this season, among which the most conspicuous are the fern-owl, the swift, the reed-sparrow, and the garden warbler. The nightingale sings all night throughout this month; this bird is the most celebrated of all the feathered race for its song. The busy bee is now to be found actively engaged from flower to flower, and butterflies begin to show themselves.

The garden now assumes a cheerful appearance. The lily of the valley, the laurel and China roses, London pride, lilac, broom, rough comfrey, globe flower, yellow asphodel, and various other plants, are now in full flower. In the fields we find the wild germander exhibiting its fine blue blossoms. Wild geraniums, some of simple colours, others delicately pencilled, decorate the banks and hedge-rows.

Newcastle-upon-Tyne.—High Water daily exactly two hours earlier than Hull.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Mercury appears about the middle of this month in the evenings. Mars is to be seen in the western skies after sun-set, and Jupiter shines out below him with brighter lustre.

Hoe potatoes and beans, and mow clover; about new Midsummer-day sow the common field-turnip seed, and provide pits for the rating of flax. Wash and shear sheep. Fleeces are found proportionate to the treatment of the animals.

Sow radishes, cabbages, peas, cucumbers, carrots, French beans, broccoli, &c. Cut herbs for drying, propagate roses and evergreen shrubs by layers and cuttings, and take up all those bulbs that have done flowering. Plant out cucumbers and pumpkins, previously raised from seed, and if not done in the preceding month, on pits filled with stable dung, or any green weeds, as nettles, &c., which will ferment. Both these are useful in cottage cookery, and with an onion and salt make a fine stew. The pumpkin bakes well with a few apples or pears.

The common jay frequents our gardens, and makes great havoc in the bean-rows. The fern-owl appears. Young birds begin to show themselves on every bush. The nightingale ceases to pour forth his melodious airs, but the blackcap and garden-warbler continue in song throughout this month. Mackerel are at this time taken in abundance. The May-fly appears; the golden green beetle, and the large stag-beetle present themselves to notice.

The fields and hedge-sides teem with wild flowers, while brooklime and forget-me-not spread their blue blossoms along the edges of streams, rivulets, &c. The plants chiefly in blow in our gardens are the moss Provence rose; the double yellow, and the yellow rose; also the garden and the Indian pink, dwarf larkspur, sweet William, turk's-cap lily, pinks, carnations, &c.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

The planets of our system are now unfavourably situated for observation; Mars, at the beginning of the month, may be perceived near the western horizon after sun-set, and Saturn in the south-east, early in the morning.

As the hay harvest now becomes general, I would advise the farmer to be particular in noting his barometer, and when in a rising state, to make the best use of his time. Single out turnips, and constantly employ the hoe with an intention of improving the crops. Thoroughly work fallows with plough, harrow, and roller. Daily examine sheep, for now they are apt to be attacked by the fly and maggot.

Gather walnuts for pickling, pull full-grown onions, and prepare mushroom spawn. Plant out broccoli, cauliflower, savoys, leeks, and winter cabbages. Save seeds of annual, biennial, and perennial flowers, drying them first in the shade, and afterwards in the sun.

Young birds are now very numerous: the grasshopper is heard every sunny day in the meadows, where the nests of humble bees are plentiful. The death-watch is heard in houses of old standing.

Among the principal plants in flower during this month are the damask rose, the tulip tree, yellow lupin, African marygold, musk flower, sweet pea, African and white lily, &c., &c. The fruits of the earth, ripening in the solar rays, lead us to meditate on Divine benevolence.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

The only planet that arrests notice this month is Saturn, which appears nearly due south at day-break.

A winter supply of turnips may yet be sown, if former sowings have failed. The corn harvest now becomes general, and requires the husbandman's careful attention. Lambs not yet separated from their dams, must now be weaned, and put upon the best pastures. Apply manure to fallows, and immediately plough it into the soil.

Sow lettuces, spinach, broccoli, and cauliflowers to stand the winter; and onions, early cabbages, and parsley for the succeeding year. Sow carrots at this time, and they will be ready to draw in the spring. Sow the seed of auriculars, polyanthus, ranunculuses, and anemones.

The feathered tribes are now mute, as it is their moulting time. Insects are very numerous. Among butterflies the Papilio Io, Argus, and the Phleas, are seen in this month. Wasps now become troublesome, and flies abound, and torment both men and animals with their perpetual buzzing.

The gardens abound with lovely flowers, and the fields are also rich with vegetation. The common toad-flax, which is now in full flower, supplies food to a caterpillar, which in the June following produces a beautiful moth called Eupithecia linariata. The common blue passion-flower and the sweet scabious are in bloom. The geranium tribe is now very beautiful: the sun-flower, garden-rod, &c., arrest attention.

Newcastle-upon-Tyne.—High Water daily exactly two hours earlier than Hull.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Saturn appears in the south-east soon after sun-set, and Jupiter is to be seen in the eastern skies at the break of day.

Stack and thatch corn; pull seed hemp; pen in sheep to fatten on turnips; hop picking must now be actively carried on. At the end of the month commence sowing your winter wheat, and gather apples.

Prune vines and cover ripe grapes with bags of paper, and gather elderberries for wine. Sow early York and dwarf cabbages, endive, Welsh onions, spinach, and radishes. Plant fresh celery, and earth up that which was planted before. Sow annual flower-seeds, such as Adonis, larkspur, &c., to come up early in the spring.

Young robins commence their autumnal songs; young willow-wrens, whitethroats, blackcaps, &c., appear very busy in our gardens at the beginning of the month; they take their departure towards the end. Moths and butterflies are yet pretty numerous.

Flora is beginning to withdraw her favours from the earth; still the garden presents a cheerful appearance through the greater part of the month. Among the plants in flower is the Italian plimperl, golden star-lily, Michaelmas daisy, oval fleabane, golden and pendulous starwort, rose feverfew, amarella, harvest-bell, downy helenium, and others of equal beauty.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Jupiter is now a conspicuous object every clear morning; his brightness is such as renders him distinguishable from every other star. Saturn appears in the evenings, and is near the Moon on the 10th day.

Take up potatoes, and plant and repair quickset hedges. Sow vetches and scour ditches and water-courses. Prepare your farm-yard for the reception of cattle.

Quinces and medlars, now ripe, should be gathered and housed for keeping. Gather ripe barberries for preserving. Radishes may still be sown; also prickly spinach for spring use. Continue to transplant savoys, Jerusalem kale, and any other of this tribe which have a chance of succeeding. Plant at this time the cuttings of gooseberries, currants, and raspberries.

The redwing and fieldfare, which migrated in March, now return; and the ring-ouzel arrives from the Welsh and Scottish mountains, to winter in more sheltered situations. About the middle of the month the common martin disappears; and shortly afterwards, the smallest of the swallow-kind, the sand-martin, and the stone curlew, migrate. The woodcock returns, and is found on our northern coasts.

Dahlias, China asters, Michaelmas daisies, &c., now add an air of cheerfulness to our gardens. On almost every spot where vegetation can be sustained, the mosses are to be found; and in winter, when other plants are decayed, they enliven with verdure the black bosom of nature. They afford protection to the roots and seeds of many delicate vegetables, and by their spongy texture, they retain a moisture which preserves other plants from the withering drought of summer.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Venus now becomes visible in the evenings near the south-western horizon. Saturn appears in the south-east and south. Jupiter may be seen with great elevation in the south at day-break, when his belts and satellites will afford ample amusement for the telescopic observer.

Continue potato harvest, and finish the sowing of winter wheat. Drain soils intended for green crop and fallow. Sheep intended to be fatted should be folded on turnip, and allowed dry fodder. Turn cattle and horses into straw-yards, and spread mole hillocks.

Take up endive, broccolli, and cauliflower, and lay them flat in dry ground. Protect with litter or leaves potatoes or other edible roots left in the ground till wanted for use. Sow a little carrot-seed in a warm place, and cover the roots of newly planted trees with dung.

Larks, chaffinches, and other birds congregate, and insects become scarce. The trees drop their leaves, and the little flowers of autumn die away. The following passage, which seems to allude to the wintry garb of nature, is applicable at this time: "The earth mourneth and languisheth: Lebanon is ashamed, and withereth away: Sharon is like a wilderness: and Bashan and Carmel shake off their fruits."—Isaiah xxxiii. 9.

High Water daily at Dover Pier, three hours earlier than at London Bridge.

Astronomical, Agricultural, Horticultural, Zoological, and Botanical Notices.

Venus is now brilliant in the south-west after sun-set, when Saturn is on the meridian. Jupiter is a conspicuous object in the middle of the night. Mars may be seen rising at the break of day, but being now distant, appears only very small.

Kill hogs for bacon, and kill your winter beef. Fell coppices: provide timber for carts, ploughs, &c. Cattle of every description should now be in winter quarters, and receive winter fare.

Protect choice flowers from frost and wet. Tie up endive, cardoons and white beet.

Small birds, especially of the finch tribe, creep near our dwellings for shelter and food. The little wren sings amongst the snow; and our old friend robin is musical in all weathers. Very few insects are now to be seen.

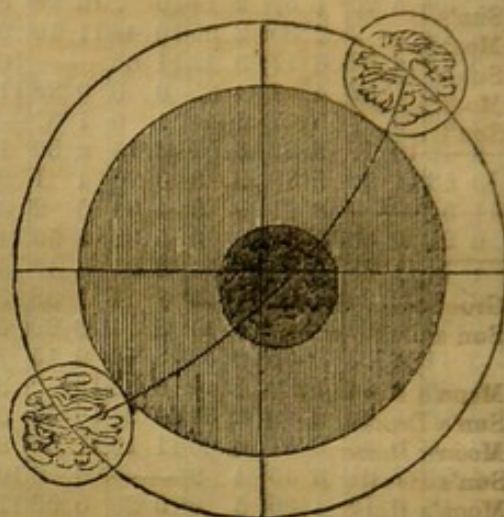

The vegetable kingdom affords but few charms at this season of the year, either in the fields or gardens. Plants screened from cold and placed in sunny windows appear still beautiful. The evergreen trees with their beautiful cones, such as firs and pines, are at this time highly valued; and the different species of everlasting flowers are sought after, for the purpose of decorating the parlour.

THE ECLIPSES OF THE SUN AND MOON IN THE YEAR 1848.

In the present year six eclipses will take place. The first is a partial eclipse of the Sun, on the 5th of March, invisible at Greenwich. The ecliptical conjunction takes place at 17 minutes past 1 o'clock in the afternoon. The second is a total and visible eclipse of the Moon, on the 19th of March, in the evening; the annexed representation of which, for Greenwich, will serve, without sensible error, for the whole kingdom. At the first contact of the Moon with the conical shadow of the Earth, she will be vertical in latitude north $0^{\circ} 26'$, and longitude east from Greenwich $72^{\circ} 6'$. At the Moon's last contact with the shadow, she will be in the zenith in latitude south $0^{\circ} 10'$, and longitude east $15^{\circ} 45'$.

The third is a partial eclipse of the Sun on the 3rd of April, in the night, invisible to Great Britain. The ecliptical conjunction takes place at 1 min. past 11 o'clock.

The fourth is another partial eclipse of the Sun, on the 28th of August, also invisible in these parts of the world. The ecliptical conjunction happens at 1 minute past 7 in the evening.

The fifth is a total eclipse of the Moon, on the morning of Wednesday the 13th of September, and partly visible at Greenwich, &c., where the eclipse begins at 31 minutes past 4; total immersion in the shadow at 30 minutes past 5; the Moon sets at 32 minutes after 4; middle of the eclipse 19 minutes past 6; Moon emerges from totality at 8 minutes past 7; and the eclipse ends at 7 minutes after 8. The annexed type is a representation of the Moon as she appears in the eclipse at London and neighbourhood at 5 o'clock.

The sixth and last is a partial eclipse of the Sun on the 27th of September, in the morning, but invisible to us. The ecliptical conjunction occurs at 35 minutes past 9.

TRANSIT OF MERCURY OVER THE SUN.

On the 9th of November a transit of the planet Mercury takes place, visible throughout Great Britain, &c. At Greenwich the transit begins at 2 minutes past 11 in the forenoon, and ends at 27 minutes after 4 in the afternoon, which is about 9 minutes after the setting of the Sun.

THE FOUR QUARTERS OF THE YEAR 1848.

The Spring Quarter begins March 20th, 11h. 19m. forenoon.

The Summer Quarter begins June 21st, 8h. 15m. morning.

The Autumn Quarter begins September 22nd, 10h. 19m. night.

The Winter Quarter begins December 21st, 4h. 0m. afternoon.

NOTE.—The Moon's Libration is here supposed to take place in the plane of her orbit; and by the time of the greatest libration of her apparent disc is to be understood the instant at which, to an observer at the centre of the earth, the variation of the disc from its mean state has attained its maximum.

The letters N.E., N.W., &c., indicate the quadrant of the Moon's disc in which the libration takes place, and in which the greatest change of the Moon's surface will become visible.

† Star below the horizon.

† A near approach.

ON NEW AND VARIABLE STARS.—Many of the Stars appear to be affected with variations arising from some peculiarities in their physical construction, or from some great changes going on upon their surface. Several stars have appeared in the heavens for a while, and then vanished. Several, whose positions are given in the ancient catalogues, can no longer be discovered, even by the powerful instruments of modern astronomers; while others are distinctly visible which do not appear to have been observed by the ancients. A few stars have gradually increased in brilliancy; some that have been formerly variable, now shine with steady light; others have been constantly diminishing in brightness; and a considerable number sustain a periodical variation in their lustre. The new star of 1572, which Tycho observed in the constellation Cassiopeia, exhibited very singular changes. Its brightness suddenly became so great, that it exceeded that of Venus and Mercury, and was visible on the meridian during the day. The intensity of its light gradually diminished, and it disappeared sixteen months after its first appearance. The new star in the constellation Serpentarius which was seen in 1603, exhibited phenomena nearly similar, and vanished after having been visible for some months. Astronomers have attempted to explain the remarkable changes, by supposing that portions of the surface of the stars are covered with large black spots, which, during the diurnal rotation of the star, present themselves under various angles, and thus produce a gradual variation in its brilliancy. These spots have been regarded as permanent, while others are of opinion that the luminous surface of the stars is subject to perpetual changes, which sometimes increase their light, and at other times extinguish it. M. Maupertuis has explained these phenomena with less plausibility, by supposing, that in consequence of a rapid rotation about their axis, the stars are reduced to flat circular planes, like mill-tones; and that the inclination of their axes may be varied by the attraction of their surrounding planets. Hence stars of this form will appear more or less brilliant, according to the inclination of their flat side to the eye of the observer. The periodical variation in the light of the stars has also been ascribed to the interposition of the planets which circulate around them; but it is by no means probable that these planets, even if they do exist, are sufficiently large to obstruct any large portion of their light. Even when seen from the earth, the light of our Sun is not sensibly impaired when Mercury and Venus are passing over his disc.

The Eclipses of Jupiter's Satellites are invisible to every part of the world, from the 27th day of June to the 20th day of August this year, in consequence of Jupiter being so near the Sun.

The time at which the Immersion or Emersion of any of the Satellites of Jupiter will take place at any other meridian than Greenwich, may be found by adding the difference of the Longitude (in time) to the time of the Eclipse at Greenwich, if the meridian be East of that place, or to subtract it, if it be West, and the difference will give the time required.

The Eclipses are visible, through moderately good telescopes, when the Sun is eight degrees below the horizon, and the planet not less than eight degrees above it.

The times of these Eclipses being adapted to the meridian of Greenwich, afford a good method to discover the longitude between that and any other place, which the following example will illustrate.

Suppose on the 31st of January of this year, the time of the Emersion of Jupiter's first Satellite be observed by a telescope in an unknown meridian to happen at 8h. 34m. 40s., I find by the table that the time of this Emersion will happen at 6h. 46m. 20s.—the difference is 1h. 48m. 20s., which being converted into degrees and minutes of the Equator, will make 27 degrees 5 minutes the Longitude of the place of observation to the East, because the time is more than that at Greenwich. If the time of the observation of any Immersion or Emersion of Jupiter's Satellites turns out to be earlier than at Greenwich, the amount of the time earlier, converted into degrees and minutes, is the amount of Longitude West of Greenwich, as may easily be known from the preceding remarks.

N.B.—Those Eclipses marked with an asterisk (*) in the table, are visible in the meridian of Greenwich. IM implies Immersion, or when the Satellite enters into Jupiter's shadow; and EM Emersion, or when the Satellite leaves the shadow of the planet, and of course becomes visible.

To convert Astronomical Mean Time into Mean, Civil, or Solar Time.

If the given hours exceed 12, add 1 to the number of days given for the day of the month, and the excess of the hours above 12, call A.M. (i.e., ante meridian), will be the civil mean time. If the hours do not exceed 12, reserve the number expressing the days for the day of the month, and call the given hours P.M. (i.e., post meridian). Thus January 1d. 14h. 40m. astronomical time, means January 2nd, at 2h. 40m. A.M. civil time, or 14h. 40m. after the noon of January 1. Again: thus January 15d. 22h. 15m. astronomical time, implies January 16th, at 10h. 15m. A.M. civil time, or 22h. 15m. after the noon of January 15. On the 1st of January the reader will find the southing of Venus stated to be at 20h. 50m. 24s., which, according to the above remark, implies 8h. 50m. 24s. in the morning of the 2nd day, according to civil time. On the 21st, Pallas is stated to south at 15h. 0m., which according to civil time is exactly at 3 o'clock in the morning of the 22nd day. Any further example is unnecessary, the whole being easy to be understood.

To find the Sidereal Time at Mean Noon.

If to the Right Ascension of the Sun at Mean Noon, you apply the Equation of Time as follows, the result will be the Sidereal Time at Mean Noon: namely, from the 1st of January to the 14th of April, subtract the Equation from the Sun's Right Ascension at Mean Noon; from the 15th of April to the 14th of June, add the Equation; from the 15th of June to the 31st of August, subtract the Equation; from the 1st of September to the 23rd of December, add the Equation; and subtract it from December 24th to the end of the year.

Example, March 1—	
Sun's Right Ascension at Mean Noon, according to this Almanack	h. m. s.
Subtract the Equation of Time	22 50 11
Sidereal Time at Mean Noon	12 32
Example, May 1—	
Sun's Right Ascension at Mean Noon	2 35 4
Add the Equation of Time	3 6
Sidereal Time at Mean Noon	2 38 9

TIDES TABLE OF SOME OF THE PRINCIPAL PORTS.

This Table exhibits the time of High Water at the Principal Ports, by adding or subtracting the numbers annexed, from those giving the time of High Water at London Bridge, given in columns two and three of the right hand page of the monthly calendar. EXAMPLE:—The time of High Water at London Bridge on the First of January is 43 minutes past 9 in the morning; to find the time of High Water at Aberdeen, subtract 56 minutes from that of London, and you will have the time of High Water at Aberdeen for the same day, 47 minutes past 8 in the morning.

OCCURRENCES DURING THE YEAR 1846.

JANUARY, 1846.

1. Consols close at 94½ to 1.—The subscription of the League quarter of a million fund, in one week from its commencement amounts to £71,773, averaging more than £10,000 daily.—Sir Horace Seymour is returned member for Antrim.—The "Papin," French war-steamer, is wrecked on the coast of Africa; 75 of the crew and passengers are lost.

2. The "Fury" steam-frigate is launched off Sheerness, also the "Birkenhead" iron steam-frigate, on the Mersey, in the presence of a host of nobility and gentry.—A poor woman, 84 years of age, living at Dudley Hill, is terrified into a fit, and in that state gnawed frightfully by rats.

3. Eight Arabian horses, a lioness, two ostriches, and three antelopes, sent by the Emperor of Morocco to the King of the French, arrive at Marseilles.—An inquest is held on the body of John Cunliffe, and a verdict of wilful murder returned against John Fairclough.—The Earl of St. Germans is inaugurated as Postmaster-General.

5. Sir M. A. Shee is unanimously re-elected to the chair of the Royal Academy, and £500 is voted to him, besides the royal pension of £200 per annum to Lady Shee.—The Rev. F. E. Say, for thirty years vicar of Braughton, and rector of Hatley St. George, Cambridge, dies.—The "Chilmark" is wrecked off Minorca—master, mate, and boy drowned; five men are saved.

6. A large free trade meeting takes place at Newcastle, at which Mr. Bright and Mr. Cobden are present.—Mr. L. Goldsmith, author of the "Statistics of France," dies at Paris.—A general meeting of the proprietors of the Colonial Bank is held, and a dividend at the rate of £1 per cent. for the half year is declared.

7. Intelligence is received of the death of Meléthius, the Greek patriarch, aged 72.—A caravan of wild beasts being upset in the neighbourhood of Yarmouth, a tiger makes his escape, and rushes to the fields, but is cleverly captured by means of a large hamper, in which a piece of flesh is placed; fortunately no one is injured.—A verdict of not guilty is pronounced in favour of G. J. Ford, a printer, accused of arson.—The Earl of Granville dies, after a protracted illness.

8. Sir Lawrence Jones and a dragoman are assassinated near Maeri, by the Zeybecks.—A letter from Bonn mentions that the valuable books, marginal notes, &c., of the late Augustus Schlegel, have been presented by his heirs to the Prussian Government, and by them divided between the Royal Library of Berlin, and those of the University of that city and of Bonn.

9. The scene near the rivers Lugg and Wye, owing to the late floods, is such as has not been witnessed for fourteen years; thirty-five sheep, belonging to one man alone, are swept away.—Accounts are received of the death of Mr. Arthur Webber Smith, lieutenant of Her Majesty's 22nd Regiment, aged 25, who nobly sacrificing his own life to save that of one of his native servants, was drowned at Poonah, on the 17th of November.

10. The Bank of San Fernando, at Madrid, is constituted the Government Bank.—The "Swordfish" arrives at Liverpool, from Pernambuco, after an unprecedented short passage of twenty-two days, the shortest on record, and quicker probably than any steamer could have done it.—The linen and flax exported from Belfast in the year 1845 are valued at about \$3,000,000.—The Rouen and Havre Railway is destroyed, by a portion of the line of arches, each from 90 to 100 feet in height, which cross the valley, crumbling and falling to the ground.

12. The Emperor Nicholas orders the levy of conscripts for the year 1846, to be diminished one-third, in consequence of the extreme distress caused by a scarcity of corn and potatoes.—The Art-Union offers a prize for a sculpture figure, and for a cameo of the head of Minerva.—An envelope containing half of a £100 bank note is lodged at Ball's Bank, Dublin, for any person who can, by mesmerism, tell the date and number of it, and whence issued, and read a sentence contained in the envelope with the half note.

13. Intelligence is received of the death of General Hodgson, colonel of the 4th, "King's Own," Regiment.

14. Five needles and part of another are removed from the arm of a young woman, who does not remember having swallowed any; she recollects that seven years before, when she was about thirteen years of age, fifty needles and pieces of needles were extracted from one of her fingers in the course of fortnight.—Baron Lombard, Peer of France, dies, aged 61; he was the last of the members of the States of Dauphiné, who took so active a part in the movement of 1789.

15. The subscriptions of the Royal Humane Society amount to the half-yearly report to £2,346 2s. 1d.—The "Sémaphore de Marseilles" brings news from Algiers, that the cavalry Marshal Bugeaud had gained a victory over the troops of Abd-el-Kader.—The annexation of Texas is fully consummated.

16. Particulars are received of the shocking murder of a respectable farmer, named Lawrence Leahy, in the midst of his family.—A fearful explosion of fire-damp occurs at Newport, Monmouthshire, which occasions a sacrifice of thirty-five lives.

17. 31. Prince Albert opens the Albert dock, Liverpool.

AUGUST, 1846.

1. Baboo Dwarkanath Tagore expires, in his 52nd year. He is the first Bramin of any note, with the exception of the learned Rammohun Ray, who has visited Europe.—The metropolis and its suburbs for miles round are visited by one of the severest storms of thunder, lightning, and hail, accompanied by a heavy rain, that has been experienced for several years past.

2. The Duke de Poix, second son of the Prince de Poix, and grandson of Marshal de Mouchy, who was beheaded during the Revolution, dies, after a painful illness.

3. The communication between the port of Portsmouth and London by electric telegraph is stopped for the present, the lightning having taken such effect upon the wires as to preclude the possibility of working the telegraph.

4. The Pope acquires great popularity by paying the debts of all the poor debtors confined in the prison of St. Angelo; and this he did by borrowing money of his friends on his own private account, not having himself the means to perform this act of benevolence.—The mortal remains of the Baboo Dwarkanath Tagore are consigned to a vault in Kensall Green.

5. The news received from Mexico, dated June 29, states that on the 6th ult. General Paredes opened the new Congress with a speech replete with good sense and moderation.—News of the same date says that the greatest activity reigns in Matamoros; every day a steam-boat arrives there from New Orleans with reinforcements for the army, and emigrants of all nations and classes, anxious to try their fortune in this new land of promise.

6. The New Zealand papers to the 15th of March state that Governor Grey had returned from the Bay of Islands, where he had effectually subdued and brought to submission Heki and Kawiti. The two rebel chiefs throw themselves entirely at the mercy of his Excellency, resigning all their lands, leaving it entirely to him to dictate the terms on which peace and order are to be re-established at the northern part of the island. It is said that Governor Grey does not intend to deprive Heki and Kawiti of their lands, or to make them an appendage of the British crown.

7. The Indian mail brings word that the Rajah of Ladwa, who had been betrayed by the Sikh prime minister, Rajah Lal Singh, was coming as a prisoner into the British territory, to be detained for life; and that the garrison of Kote Kangra had surrendered at discretion to the British troops on the 28th of May.—The island of Bally is invaded by the Dutch.—Dr. Charles Dalrymple Lindsay, who presided for forty-two years over the see of Kildare, expires at Glasnevin house, near that city, in his 87th year.

28. A revolving light is established on Cape St. Vincent. The lighthouse stands on the western part of the Cape, in lat. 37° 2' 9" N., and in long. 9° West of Greenwich, and the light being 221 feet above the level of the sea, may be seen at the distance of about 19 miles. Each revolution of this light is performed in two minutes, in the course of which period a

brilliant light appears for a short time, and is then succeeded by darkness.—The brigantine "Samaritan," from Liverpool, is wrecked in a furious gale off St. Eval's head, and all hands but two perish; the loss of the vessel and cargo is reported to be upwards of £10,000.

30. Four poachers encounter a gamekeeper belonging to Mr. Dalton, at Fillingham; in the struggle the gun of one of the men goes off, and he dies almost immediately; the other three refuse to assist their companion, and go away, leaving him to the care of the keeper.

31. The shareholders of the Midland Railway Company authorise the directors to raise £2,567,000, for carrying out new branches, which increases their total capital to £11,000,000.

NOVEMBER, 1846.

5. Information is received that the whaling-ship named "Cape Packet," which has been missing two years, had fallen into the hands of the natives of the Sandwich Islands, and that all belonging to her, except four hands, were savagely murdered; her loss is estimated at between £18,000 and £20,000. The bark "Elizabeth," which brings this intelligence, having nearly shared the same fate.

4. The Hon. Edward Strutt, the Earl of Granville, Sir Edward Ryan, and Captain Brandreth, are appointed by Her Majesty Commissioners of Railways.

5. The Lords of the Treasury fix the future scale of wages for the General Post letter-carriers—60 men (seniors) at 30s. per week; 110 at 25s.; 130 at 23s.

6. A fearful accident takes place near Whitby, by the falling of several thousand tons of the cliff, which hurled down, to a distance of about 60 feet, several men engaged at work on the cliff. The poor sufferers on being extricated were all found alive.

7. Lieut. Wm. Pringle Green, of the Navy, dies in poverty at the age of 61, after having served his country with extraordinary zeal for nearly half a century.—The "Sirius" steamship, from Nieu Diepe, and the "City of London," from Brownshaven, bring cattle, for the first time, to England, from the Dutch ports.

8. The Protestant church of Panthemont, in Paris, opens for divine service. Panthemont was formerly a royal abbey of nuns of the order of St. Benedict.

9. The Senate of Cambridge assigns the annual stipend of £70 to James Breen, appointed Junior Assistant at the Observatory.—Colonel Wilde, Prince Albert's Equerry, arrives by the British war-steamer "Cyclops," at Lisbon, on a special mission.

10. The British Government, at the cost of £25,000, purchase a site on the angle of the junction between the London and Birmingham and Birmingham and Derby Railways, in order to erect a great central barracks for England. The barracks will be the largest yet built in the United Kingdom.

—A grand banquet is given at Cadiz to Mr. Cobden, M.P.
11. The "Augsburg Gazette" publishes the following, dated frontiers of Poland:—"By a resolution of the three protecting powers, Cracow has ceased to be an independent State. The three powers have formally agreed on the necessity of depriving it of its political existence. Austria had hesitated to accept the incorporation; but the firm attitude of another Cabinet obliged her to acquiesce in the measure."

13. A Parliamentary return is printed, showing the average effective strength of the army in each year from 1834 to 1843, specifying severally dragoon guards, dragoons, and foot guards, and infantry of the line. It hence appears that in 1834 there were 5,675 sergeants, 1,789 trumpeters and drummers, and 90,831 rank and file in the army; in 1835 there were 5,722 sergeants, 1,794 trumpeters and drummers, and 87,378 rank and file; in 1836, 5,730 sergeants, 1,794 trumpeters and drummers, and 86,523 rank and file; in 1837, 5,731 sergeants, 1,811 trumpeters and drummers, and 86,599 rank and file; in 1838, 5,779 sergeants, 1,814 trumpeters and drummers, and 89,314 rank and file; in 1839, 5,876 sergeants, 1,814 trumpeters and drummers, and 95,460 rank and file; in 1840, 6,217 sergeants, 1,840 trumpeters and drummers, and 104,597 rank and file; in 1841, 6,308 sergeants, 1,864 trumpeters and drummers, and 108,194 rank and file; in 1842, 6,530 sergeants, 1,950 trumpeters and drummers, and 111,851 rank and file; and in 1843, the effective strength of the army consisted of 6,760 sergeants, 2,064 trumpeters and drummers, and 115,124 rank and file.

16. Mr. John Morse, chemist and druggist, of Barnet, and the deputy post-master, absconds, it is supposed to America, after committing forgeries of post-office orders to the amount of between £3,000 and £4,000.—Viscount Palmerston, Her Majesty's Principal Secretary of State for Foreign

Affairs, receives from Mr. Southern, Her Majesty's Chargé d'Affaires at Lisbon, a despatch enclosing a note addressed to him by Marshal Saldanha, Secretary of State for Foreign Affairs of Her Most Faithful Majesty, announcing the establishment of an effective blockade of the river Douro, together with a copy of the decree declaring the said blockade. British ships-of-war were, however, to be allowed to enter the port unmolested, and the interests of British subjects to be maintained inviolate.—Fifty-two boys are expelled, for insubordination, from Heriot's Hospital.—A fatal collision takes place by the "City of London" steam-ship running down the "Albion," a vessel of about 120 tons.

17. M. Martinez de la Rosa, the Spanish ambassador, presents to Louis Philippe a letter from his sovereign, notifying her marriage with the Infante Don Francisco d'Assis; and another from the Queen Dowager, announcing the marriage of the Infanta Luisa with the Duke de Montpensier.—The annexation of the Republic of Cracow to the dominions of Austria is officially notified to the Marquis of Normanby by the Prussian Minister.

18. James Haywood, Esq., of Spencer-street, Leamington, recovers, in two verdicts, damages to the amount of £370 against the directors of the North-Western Railway Company, for injuries his wife had received in consequence of the negligence and want of skill of the Company's servants.—Thirty-one ladies of the highest nobility receive from the Queen of Spain the sash of Maria Luisa, on the occasion of the royal marriages.

19. Mr. Forsyth, the principal searcher of the customs, boards the "Glencelg," a fine ship of 1,200 tons, lying off Gravesend, and, after inspection, seizes her for a contemplated breach of the Foreign Enlistment and Equipment Act. The "Monarch" and "Neptune" steam-vessels are likewise seized on the same grounds. It is understood these vessels were to form part of an expedition which is being secretly fitted out in this country, with the intention, by hostile means, to effect a revolution of government in a State of South America with which we are on terms of friendship and amity.

20. An awful fire takes place at Gravesend, which consumes not less than forty houses, besides numerous other buildings. The total loss is estimated between £20,000 and £30,000.

22. The Count de Montemolín arrives in London, accompanied only by General Montenegro and his private secretary, Don Romualdo Mon.

23. Letters dated October 15, state that no fewer than 4,000 persons had died of the cholera in the city of Bagdad, out of a population reduced to 35,000 inhabitants by the emigration of most of the Europeans and a great number of natives. The Europeans lost the reverend father St. Alphonse, Vice-Prefect of the Latin Mission, and the Mussulmans, Reschid Effendi, brother of Fuad Effendi, late ambassador of Turkey in Spain.—The "True-love," the last of the whalers from Davis' Straits, arrives at Hull with two fish, about twenty tuns of oil, and reports that no intelligence had been heard during the season of the "Terror" and "Erebus," vessels sent out by the Admiralty in the spring of 1845 to seek a north-west passage.

24. A destructive fire occurs on the extensive premises occupied by Messrs. Palmer, patent candle manufacturers, Great Compton-street, Clerkenwell. The loss is estimated at £50,000.—The Bishop of Newfoundland delivers, in Queen's College Hall, Oxford, an address narrating his proceedings in his diocese since his departure from England two years before.

26. The King of France receives replies to the notifications of the marriage of the Duke de Montpensier with the Infanta Luisa, from the Kings of Hanover, Denmark, Saxony, and Bavaria, and from the Grand Dukes of Baden, Mecklenburg Schwerin, Saxe Weimar, Mecklenburg Strelitz, and Oldenburg.—Sheriff Laurie is presented, at Stone House, Lewisham, with a massive silver candelabrum, as a testimonial of the approbation of his friends and many other individuals for the humane manner in which he had discharged the duties of his difficult and painful office.

27. The Duchess of Gloucester gives a grand dinner and ball at Gloucester House, in honour of the natal day of Princess Mary of Cambridge, Her Royal Highness' niece and god-daughter.—The Society for the Propagation of the Gospel holds a very numerous meeting at the Town Hall, Oxford.

28. The sub-marine telegraph is laid across Portsmouth harbour, from the watering island in the dockyard to the steps at the Royal Clarence-yard.—The Venerable Walter Augustus Shirley, M.A., is nominated by the Queen to the bishoprick of the Isle of Man and Sodor.

30. The tenth anniversary meeting of the Botanical Society of London is held at the Society's rooms.—The anniversary meeting of the Royal Society is held at their apartments in Somerset House. The Copley gold medal is awarded to M. le Verrier. One of the royal gold medals and the Rumford gold

medal are awarded to Professor Faraday, and the second gold medal to Professor Owen, for his elaborate treatise on "the Belemnite."

DECEMBER, 1846.

1. The South-Eastern Company's branch line from Ramsgate to Margate opens for passenger traffic.

2. A fire of a most alarming nature breaks out at 81, Calcraft-terrace, New-cut, Lambeth, which causes the death of two persons.—83 Continental railways are at present in operation, 18 in France, 13 in Belgium, 13 on the borders of the Rhine, 24 in Prussia and the German States, 11 in Austria, 2 in Holland, 2 in Italy.—Lady Emma Pennant dies.

3. A letter from New York states that Santa Anna has seized 2,000,000 of dollars intended for English capitalists, which money was on its way to Tampico for shipment in two British steamers.

4. We learn from Trebizonde and Tiflis, that Schamyl, acting on the Fabian system, and refusing a general engagement, had harassed and completely defeated the Russian general.

7. The head-quarters of the 31st Regiment, which had fought at Moodkee, Ferozeshah, Buddewall, Aliwal, and Soobraon, and suffered so much in all these battles, debarks at Gravesend, bringing the four standards captured by them.—The Abbé Macpherson, for many years rector of the Scotch College on the Quirinal Hill, dies at Rome, aged 88. Macpherson was the agent employed by the British Government to effect, if possible, the rescue of Pope Pius VI., when a prisoner at Savona.

8. We learn from Lisbon the total rout of a body of insurgents, to the number of 2,000, under the command of the ex-Viscount Sá da Bandeira, by the columns under the command of Baron Casal and Viscount Vinhaes, on the 16th ultimo. Also, that on the 30th, when the Isturiz Ministry fell, that the ministerial offices (of Marine, War, &c.) were nearly consumed by fire; the building formerly occupied by the famous Godoy, Prince of Peace.

9. Intelligence arrives that the Mexican forces were preparing to leave Tampico on October 21st, in order to rally round Santa Anna, who was at St. Louis, concentrating his army, which amounted to 20,000 men, to march to Monterey to meet General Taylor. The Mexicans were at Vera Cruz, adopting every means to defend the city and the castle of St. Juan, which were still blockaded.

10. The Duke of Luca decrees that corn shall enter his state free of duty, during four months.—The demand for tea from 1st of July, 1845, to the 30th of June, 1846, is stated to be 797,818,733 lbs., of which 705,732,024 lbs. were used in China itself, and the following quantities were exported:—viz. 57,584,561 lbs. to Great Britain and Ireland; 18,502,148 lbs. to the United States of North America; 2,000,000 lbs. to Holland; 5,000,000 lbs. to Russia (by land); 3,000,000 lbs. to Hamburg, Bremen, Denmark, and Sweden; 4,000,000 lbs. to Sydney and South Australia, and 2,000,000 lbs. to Spain and France.

12. Lieutenant-General Count Roquet, one of the last commanders of the Imperial Guard at Waterloo, lately expires. He was a private in the regiment of Guienne in 1789, at the age of 18; captain in 1793, general of brigade in the year VII., lieutenant-general in 1811, and colonel of the 1st Regiment of the Imperial Foot Guards. He made all the Italian campaigns from 1793 to the year VIII., and all those of the Empire from 1805 to 1815. In 1812, during the retreat of Moscow, he was appointed to the command of the Imperial Foot Guards. He retained the command of that invincible phalanx during the campaigns of 1813 and 1814, and he was at his post when the last shot was fired at Waterloo.—Hixton-hall, Norfolk, the seat of Sir Sholto Adair, is totally destroyed by fire.

15. The 2nd battalion of the 12th Regiment of the line, and the three squadrons of Carbineers forming the garrison of Mons, are stated to have spontaneously placed at the disposal of the mayors of Mons, Saritte-Croix, and St. Pavins funds to supply 68 portions of soup and meat, to be distributed throughout the winter to the indigent of those districts.—Private letters from Constantinople, of the 27th ult., announce that Tahir Pasha, Governor of Mossoul, had defeated the rebels of Kurdistan.—Letters from Smyrna of the same date, state that 860 houses had been destroyed by fire at Salonica, on the 17th ult. reducing 1,500 families to indigence. The merchants speedily subscribe 70,000 piastres to relieve the wants of the sufferers, and the conduct of the Governor, Yaboub Pasha, is said to merit the highest praise.

16. Accounts from Merida, capital of Yucatan, state that all difficulties with Mexico had been removed, and that Yucatan consequently might now be considered permanently united to the republic.

18. There are in Ireland 74 towns, each with a minimum of 2,500 inhabitants, not one of which contains a bookseller.

Scotland, with a third of the population, has three times the number of booksellers. It is moreover affirmed that the six counties of Donegal, Kildare, Leitrim, Queen's, Westmeath, and Wicklow, cannot boast of even one bookseller, or a single circulating library.—An extraordinary meteor, in appearance larger than the setting sun, is seen at Lowell on the 25th of November last.

19. M. Guizot returns to the Bey of Tunis, jewels and diamonds, value £4,000, presented by the Bey to M. Guizot's daughters, with a letter couched in simple and noble terms, in which, after telling the Bey he never accepted such presents from any one, he requests him to hold him in his recollection and continue to him his friendship. Two months before M. Guizot refused a dukedom, offered him by the Queen of Spain.

—The French Government have completed in Philippeville, a mosque for the Arabs.—The excavators on the Caledonian Railway working in Avon Valley, discover a copper sword, and under a stone trough inverted, a brazen case, two feet in length and six inches in diameter, containing a vellum book in rolls. The Romans entered England by Annandale.

22. Her Majesty, by a warrant of the 31st October, 1846, grants a pension of £50 per annum to Margaret Turnbull, widow of the late James Turnbull, in consequence of the literary merits of her brother, the late Dr. Leyden; and by another of the same date, a pension of £50 yearly to Mrs. Fanny Gurwood, in consequence of the literary merits of her husband, the late Colonel Gurwood.

23. Intelligence is received that an African chief having 2,000 slaves on his hands and being unable to dispose of them, had caused them all to be killed in his presence. It is affirmed that the Cabinets of London and Paris will interfere to punish this cruel chief.—The "Frankfort Journal," under the date of Karlsruhe, December 10, announces the death of the Landgrave of Hesse that evening; he was born in 1779.

24. A labourer employed a few days since in cutting drains on the farm of Connage, in the Moas of Petty, turned up from a depth of about three feet, three bronze relics of the olden time. They resemble hatchet heads.

25. A letter from the frontiers of Galicia, dated the 11th, states that notwithstanding the massacres, an elderly lady remained on her estate near Tarnow without molestation. The population on the lands amount to 1,000, one only of whom joined the bands that carried devastation through the province. He having returned was lately attacked by seven companions in crime, who hanged him to obtain his treasure; this deed being discovered before life was extinct, the peasants formed a tribunal, executed six of the banditti, and sent their bodies to the authorities of Tarnow.

26. Letters from Rome, of the 12th, mention that half the city was under water, caused by the overflow of the Tiber. In the Corso it was five feet deep; the Ghetto or Israelite quarter had particularly suffered. The Pope had subscribed 8,000 florins for the victims out of his own private purse.—Her Majesty grants a new charter for the government of New Zealand.

27. From Monte Video, October 10, we have the most sickening accounts of barbarities committed against the unfortunate beings who have fallen into Oribe's power. At Maldonado also a "blanco" butchery took place; Colonel Fortunato Silva and twenty of his comrades were murdered in cold blood by Oribe's party; Silva having vainly betrayed his companions to ensure his own safety, thus tarnishing the hard-earned glory of fifteen years. The ferocity of Rosas' soldiery is described as without parallel.

28. A letter from Breslau, of the 16th, states that the Archbishop of Breslau visited the convent of the Brothers of Mercy, and finding them negligent and indulging in worldly ease, he ordered all the sofas, carpets, furs, and other luxuries to be sold by auction, and the rules of the order to be enforced by his chaplain-inspector.—Commander Patten is fully acquitted at the court-martial of all blame in regard to the loss of the "Osprey," on the western coast of New Zealand, and further they declare their opinion that every exertion was made by him and the officers and ship's company under his command to save the said ship.

29. Sidi Abdallah, a most celebrated marabout, dies at Algiers, aged 110.—Intelligence is received from Syria, of the 6th, that the Turkish Government is rebuilding the sea-wall of St. Jean d'Acre.—From Lisbon, Dec. 20th, we learn that the bulk of Saldanha's army had marched from Santarem northward, to meet Bomfin, who with his own and a number of Das Antas's troops had occupied Caldas. Oporto is strongly invested by Casal, but he is obliged to retreat.

30. The "Frankfort Journal" of the 27th publishes a letter from Berlin, stating that the fate of Poland is decided. It is to receive the title of New Russia, and is to be divided into two governments—that of Warsaw and that of Lublin. Prince Paskiewitch is to be replaced by Prince Gortschakoff.

THE HOUSE OF PEERS.

The list of the House of Peers is this year given alphabetically, with the date of their creation, and their town and country residences. In the Almanack for 1844, the Peers were given in the order of precedence in which they rank in the House, together with the Christian and surnames, and title by courtesy of the eldest son. The mottos of the Peers, as emblazoned on their armorial bearings were given in this Almanack for the year 1840, and English translations of the mottos in the Almanack for 1841.

According to the usage of Parliament, when the House appoints a Select Committee, the Lords chosen to serve upon it are named in the order of their rank, beginning with the highest; and so when the House sends a Committee to a conference with the Commons, the Lord highest in rank is called first, and the rest go forth in like order; but when the whole House is called over for any purpose within the House, or to proceed to Westminster Hall, or upon any public solemnity, the call begins invariably with the Junior Baron. The sixteen Representative Peers for Scotland are elected every Parliament; the twenty-eight Representative Peers for Ireland are elected for life.

The date preceding the title of the Peer is the period of the creation of the title.

A List of all the Fairs in the United Kingdom.

It must be obvious that in a List of Fairs of the magnitude of the following, and many of which are being annually altered, that some inaccuracies may occur; but Dietrichsen and Hannay beg to observe it will be an essential favour conferred upon them if the Town Clerk, Clerks of the Markets, or Lessees of the Tolls, will advise them of any error, or of any alteration that may hereafter take place, but the earlier the information is sent them the more acceptable it will be, on account of the large number of the Almanack that it is requisite to print to be ready for publication, but no correction can be received unless authenticated by the writer's name and address.

In the Lists of Fairs the distance from London and the day upon which the market is held are given (in parentheses) after the name of the place; thus it will be found Beaumaris is 250 miles from London, and that the market day is Saturday, and that the fairs are held upon the 13th of February, Holy Thursday, the 19th of September, and the 19th of December.

Fairs, Cattle Markets, and Trysts in Scotland.

When the appointed day happens to fall on Saturday, Sunday, or Monday, the fair is generally deferred till the Tuesday following. Fairs which are held according to the Old Style, are distinguished by the letters *o s* placed after the day indicated. In some parts of the country the difference between the Old and New Styles is computed to be *eleven*, in others *twelve* days,—the Old being reckoned to be so much later than the New Style.

WINDSOR CASTLE.

By Command of Her Majesty the Queen, the State Apartments at Windsor Castle will in future be open for inspection of visitors without any fee. Tickets of admission to be obtained gratis of Messrs. P. and D. Colnaghi, 14, Pall Mall East; Mr. Moon, 20, Threadneedle Street; Mr. Mitchell, Old Bond Street; and Messrs. Ackerman, 96, Strand.

The Days of Admission are Tuesdays, Thursdays, and Fridays, during the hours of eleven to four o'clock from April to October, and from eleven to three from October to April.

INCOME TAX.

From April 5th, 1842, the Duties mentioned in the following Schedules are to be levied:—

SCHEDULE A.—For all lands, tenements, and hereditaments in Great Britain, in respect of the property thereof, for every 20s. of annual value, the sum of 7d. By annual value is to be understood, except in cases specified in the act, the annual rack-rent.

SCHEDULE B.—For all lands, tenements, and in respect of the occupation thereof, for every 20s. of annual value, the sum of 3d. In Scotland, 2d.

SCHEDULE C.—Upon all profits arising from annuities or dividends, payable out of any public revenue, for every 20s. of the amount thereof, the sum of 7d.

SCHEDULE D.—Upon the annual profits accruing to any person residing in Great Britain, from any kind of property whatever, or from any profession, trade, employment, or vacation, whether in Great Britain or elsewhere, for every 20s. the sum of 7d. The same is to be levied upon the annual profits arising to any person not residing in Great Britain, whether a subject of Her Majesty or not, from any property situated in Great Britain, or from any trade, &c., carried on therein. The duty to be computed upon an average of the profits in the three preceding years of assessment.

SCHEDULE E.—Upon every public officer or employment of profit. And upon every annuity, pension, or stipend, payable by Her Majesty, or out of the public revenue (except annuities charged in Schedule C.) for every 20s. the sum of 7d.

Exemptions.

UNDER SCHEDULE B.—Duty not chargeable on warehouses, &c., occupied in trade; or on dwelling-houses, unless under the same demise, with a farm of land or tithes.

UNDER SCHEDULE C.—Persons whose incomes do not amount to £150 per annum, the stock of savings' banks, friendly societies, and charitable institutions; or of the minister of a foreign state.

UNDER SCHEDULE D.—Charitable institutions are exempted in respect of any annual payment under the Schedule.

When the total income of a person is less than £150, no tax is chargeable under either of the Schedules. Tenants having paid duties under Schedule A or B, are entitled to recover the same from their landowners.

ASSESSED TAXES.

N.B. By Act 3 Vict., cap. 17, an additional duty of two shillings per pound is payable on all assessments commencing 25th May, 1840, or any subsequent year, except on "Carriages kept to be let for hire."

FIRE.

Duty on each policy 1s. besides 3s. per cent. per annum on every insurance made or renewed.

Exemptions. Public hospitals; also agricultural produce, farming stock, and implements of husbandry, provided the insurance shall be effected by a separate and distinct policy.

POLICY OF SEA INSURANCE.

By the 7 of Victoria, cap. 21, the stamp duties on policies of sea insurance have been reduced to the following scale, and the distinction of coasting and foreign abolished:—

For and in respect of every policy of assurance or insurance, or other instrument, by whatever name the same shall be called, whereby any insurance shall be made upon any ship or vessel, or upon any goods, merchandize, or other property on board of any ship or vessel, or upon the freight of any ship or vessel, or upon any other interest in or relating to any ship or vessel which may lawfully be insured for or upon any voyage whatever, the following duties, where the whole sum insured shall not exceed one hundred pounds, and where the whole sum insured shall exceed one hundred pounds, then for every one hundred pounds, and also for any fractional part of one hundred pounds, whereof the same shall consist; (that is to say,) £. s. d.

Where the premium or consideration for such insurance, and bona fide paid, given, or contracted for, shall not exceed the rate of 10s. per cent. on the sum insured.....0 0 3

Exceeding the rate of 10s. per cent. and not exceeding the rate of 20s.0 0 6

Exceeding the rate of 20s. per cent., and not exceeding the rate of 30s.0 1 0

Exceeding the rate of 30s. per cent., and not exceeding the rate of 40s.0 2 0

Exceeding the rate of 40s. per cent., and not exceeding the rate of 50s.0 3 0

And where the same shall exceed the rate of 50s. per cent. on the sum insured.....0 4 0

But if the separate interests of two or more distinct persons shall be insured by one policy or instrument, then the said respective duties, as the case may require, shall be charged thereon in respect of each and every fractional part of one hundred pounds, as well as in respect of every full sum of one hundred pounds, which shall be thereby insured upon any separate and distinct interest.

And for and in respect of every policy of assurance or insurance, or other instrument whereby any such insurance as aforesaid shall be made for any certain term or period of time, the following rates or sums on every one hundred pounds, and also for any fractional part of one hundred pounds, whereof the same shall consist; (that is to say,) £. s. d.

Where any such insurance shall be made for any term or period not exceeding six calendar months.....0 2 6

Exceeding six calendar months.....0 4 0

And for and in respect of every policy of assurance or insurance, or other instrument by whatever name the same shall be called, whereby any insurance commonly called a mutual insurance, shall be made, or whereby divers persons shall insure or agree to insure one another, without any premium or pecuniary consideration, from any loss, damage, or misfortune that may happen of or to any ship or vessel, or any goods, merchandize, or other property on board of any ship or vessel, or the freight of any ship or vessel, or any other interest in or relating to any ship or vessel which may lawfully be

insured upon any voyage whatever, and not for any period of time. £ s. d.

Any duplicate of such settlement, the same duty.

Exemptions. Wills, testaments, and testamentary instruments, and dispositions *mortis causa* of every description.

The inventory-duty is paid, in the first place, on the whole succession without deduction of debts; but the act 55th Geo. III. c. 184, sec. 51, provides for a return being given on proof of the debts being paid, so as to confine the duty to the net balance. This repayment must be claimed within three years; but the time will be prolonged on cause shown. If there be any omission in the inventory, an additional one must be lodged.

Legacies, Annuities, Residues, &c.

To Duty
Children or their descendants, or lineal ancestors of the deceased £1 0 0
Brother or sister, or their descendants 3 0 0
Uncle or aunt, or their descendants 5 0 0
Grand uncle or aunt, or their descendants 6 0 0
All other relations or strangers 10 0 0
The husband or wife of the deceased is not chargeable with duty.

This duty is payable for every legacy out of the personal or moveable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any monies to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or moveable estate, whether

the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy. And also for the clear residue of the monies to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty by the Northampton table 4 per cent.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

GENERAL EXEMPTIONS FROM ALL DUTIES.

ADDRESS

DIETRICHSEN & HANNAY avail themselves of the opportunity, on presenting a new Catalogue to the Public, to return thanks to their numerous patrons and friends for the distinguished patronage they have enjoyed during a long series of years, and to assure them that the invariable practice pursued at their establishment, of selling none but genuine Patent Medicines, procured direct from the original Makers, which has given such universal satisfaction, will always be continued, (*the deviation from which at many shops where profit is estimated rather than reputation, is frequently a source of disappointment to the customer.*)

To their Patrons residing in the Country their gratitude is particularly due, and DIETRICHSEN and HANNAY assure them that the utmost punctuality will always be used in executing their commands; and they beg to observe, that when wishing to remit money for articles ordered, the best mode is to pay the amount to the Post Office in the Locality, when for the charge of three pence, an order payable at the General Post Office in London will be given in exchange, which can be enclosed in a letter with perfect safety as the amount can only be received under the signature of the party it is made payable to; which order, enclosed in a letter with a penny stamp affixed, will be delivered free; to prevent disappointment DIETRICHSEN and HANNAY beg to observe, that they never take in any letters the postage of which is unpaid (*coin enclosed in letters is unsafe if sent by the post, and costs more than a Post Office Order.*) If a check on a London Banker be sent it may have "RANSOM & Co.," written across the face of it, and it will be safe; Bank Notes should be cut in half, and sent on successive days.

DIETRICHSEN & HANNAY wish to call attention to a practice that persons residing in the Country frequently adopt, of sending Postage Stamps in lieu of money, instead of procuring a Post Office Order. The Public should be made aware, that sending Postage Stamps as payment, is strictly illegal, and subjects the senders to a heavy penalty for each offence. DIETRICHSEN & HANNAY therefore beg to state that they cannot accept Postage Stamps as payment under any consideration. They also inform their correspondents, that those articles which they forward free, are sent at the same price as if bought in their shop, no additional charge being made beyond the cost of the carriage. The immense number of applications soliciting advice, have become of late so very onerous, that D. & H. find it impossible to answer them gratuitously, they therefore beg to say, that no letter asking advice, will in future be replied to, unless the customary fee of a sovereign, or a Post Office Order for that amount, be enclosed.

In conclusion, DIETRICHSEN and HANNAY assure their numerous patrons, that the constant superintendence of the Principal will continue to ensure attention to their commands; and they request, to prevent mistakes, when sending servants or messengers, particular instructions may be given that their shop is Number Sixty-three, Oxford Street, which, since the re-building of their extensive premises, is the largest establishment of the kind in the Metropolis, and the one longest established.

DIETRICHSEN'S
CELEBRATED ESSENCE OF
RONDELETIA,
FOR THE TOILET OR HANDKERCHIEF,

ORIGINALLY PREPARED FOR THE EXPRESS USE OF
HER MOST GRACIOUS MAJESTY, AND THE ROYAL FAMILY,
AND NOW ADOPTED AT EVERY EUROPEAN COURT.

An entirely new, elegant, and refreshing Perfume for the Toilet or Handkerchief, superior to any other yet offered for public patronage, retaining its delightful fragrance for days, even after being washed, without smelling faint or unpleasant, (the universal complaint against all other Essences,) five drops of which are equal in power to half an ounce of Lavender.

The lovers of elegant perfumes are solicited (when in London) to call and try it on their handkerchiefs, for which purpose a specimen bottle is always open free, and which handkerchiefs so perfumed, surpass in odour the combined fragrance of the choicest conservatory.

Caution.—The great satisfaction DIETRICHSEN'S RONDELETIA* has given those who have made use of it, and the consequent large sale it obtains, has produced a host of counterfeits. Perfumers, whose appearance of respectability would induce a belief that they would not sell a counterfeit article, are even guilty of it. DIETRICHSEN and HANNAY therefore beg to inform their customers, that their RONDELETIA cannot be obtained genuine in London any where but at their own Shop; and they beg particularly to draw attention to the fact that they are alone the makers of this celebrated Perfume, although several Perfumers at the West-end have been dishonest enough to appropriate the title, and attach it to trashy compositions of their own, possessing little or no fragrance; by which means, parties, who have been deceived by having these fraudulent compositions sold them, have been induced to condemn the original, without being aware of its beauties.

DIETRICHSEN and HANNAY therefore request, that if purchased in the country, it may be obtained of some respectable Perfumer or Bookseller, care being taken to observe that their names and address are on the label, on the side of the bottle, and on the seal.

DIETRICHSEN and HANNAY will deliver Six 3s. 6d. Bottles of the RONDELETIA, free of carriage, to any part of England, upon receipt of a Post-office Order for One Guinea.

DIETRICHSEN'S RONDELETIA SOAP.

This agreeable Toilet Soap, so much approved for softening and beautifying the skin, is perfumed with the admired fragrance of the Essence of RONDELETIA, and has acquired the unqualified approbation and patronage of almost every lady of fashion. For perfuming the Portmanteau or Wardrobe, this Soap is preferable to the perfumed packets, which lose their fragrance, while this retains its odour for months, and may be eventually used as a highly scented Soap. Price One Shilling the Square.

* This was the Perfume so much admired and invariably used by his late Majesty King William the Fourth.

DIETRICHSEN AND HANNAY'S

ORIENTAL OIL,

UNEQUALLED FOR PROMOTING THE GROWTH OF THE HAIR,

Preserving it from Decay, and restoring it if injured or destroyed, rendering it of a fine soft silky appearance, and sustaining it in curl under the different varieties of atmosphere.

PREPARED AND SOLD BY

DIETRICHSEN AND HANNAY,

Perfumers to Her Majesty the Queen, and the Royal Family,

63, OXFORD STREET, LONDON.

ALTHOUGH long possessed of the secret, DIETRICHSEN and HANNAY were precluded from submitting this invaluable addition to the Toilet for public patronage during the lifetime of the individual who divulged it to them, or whose head would inevitably have paid the forfeit of its disclosure, the parties successively employed in its preparation being bound under the most solemn oaths of secrecy; and it had been kept inviolate upwards of three centuries.

A fine Head of Hair has, from the remotest ages, been esteemed the greatest ornament of Female Beauty, and in the rudest and most uncivilized countries great value is set upon a fine Head of Hair. The great care is proverbial, that is paid to the cultivation of the luxuriant tresses of the fair captives of the Harem, and art is there well known to succeed in outrivalling the far-famed beauties of Circassia.

The ORIENTAL OIL has been employed for the purpose during the period of three centuries, and has been found undeviatingly successful in producing that object of all desires, a fine, long, soft, silky, Head of Hair.

DIETRICHSEN & HANNAY do not profess (as is done in some instances) that the properties of the ORIENTAL OIL will produce Hair upon cast-iron; it will do no such thing, but if regularly applied it will re-produce the Hair where nature ordained its existence, if lost from causes to which baldness is referable; it will promote the growth of the Hair generally,

PREVENT ITS FALLING OFF,

sustain it in curl, render it fine and soft as silk, and impart a brilliant lustre, for which it has no equal. The ORIENTAL OIL is a pure,

LIMPID, WHITE, VEGETABLE SUBSTANCE,

unsophisticated with the deleterious articles usually applied to dye Oils red, which are equally injurious to the Skin as to the Hair; and although an oily substance, the

ORIENTAL OIL DOES NOT RENDER THE HAIR GREASY,

and is therefore free from the general complaint against every other article in present use for the same purpose, including those filthy substances misnamed Bear's Grease, which in many instances are neither more nor less than a composition of Hog's Lard and Whale Oil, submitted to various manipulations to divest them of the fetid animal smell.

The laws of nature throughout creation exhibit one uniform principle; vegetation, it is well-known, derives from the dews of the atmosphere a great portion of its support, and deprive it of which, it soon withers and dies; so the Hair, unless properly nourished, becomes weak and gradually drops off; for minute as a single Hair appears, if examined with a microscope, the human Hair will be found a perfectly hollow tube, with the surface covered with minute and innumerable pores resembling the Skin, and which if allowed to absorb anything of an injurious tendency the Hair is destroyed thereby; thus it will be observed that those persons subject to profuse perspiration, become bald early in life, which is merely caused by the acid caustic nature of the perspiration settling on the Hair and being absorbed, which entirely destroys it; but if the ORIENTAL OIL be daily applied, it will prevent this taking place, and preserve the Hair free from injury; and if regularly applied to the heads of Infants, it entirely removes the scurf, without the assistance of the dandruff combs, an operation so distressing to the heads of Children. It is particularly recommended for the use of Ladies, as, although an oil and imparting to the hair a brilliant lustre, it is not greasy, and will not soil the lightest head-dress.

Price 3s. 6d. in $\frac{1}{2}$ -Pints, 6s. 6d. in $\frac{1}{4}$ -Pints, and in Pint Bottles, with Glass Stoppers, 12s. each.

DIETRICHSEN & HANNAY'S ORIENTAL OIL is particularly recommended to the notice of Merchants and Shippers, as well as Families proceeding to the East, being the only article in use for the Hair that will sustain a voyage across the Equator without becoming rancid.

DIETRICHSEN AND HANNAY'S IMPERIAL LIP SALVE,

IN CHINA BOXES AT ONE SHILLING EACH, is much approved, and will keep good for a great length of time.

DIETRICHSEN'S ROYAL KENSINGTON SOAP.

This Soap is a great improvement on the Old Brown Windsor Soap; and is sold at the same price, viz., in Packets containing three squares, at One Shilling.

APPROVED ARTICLES FOR THE TOILET.

Sold by DIETRICHSEN & HANNAY, Perfumers to the Queen, 63, Oxford Street, London.

GENUINE RUSSIAN BEAR'S GREASE.

Bear's Grease being supposed to possess the properties of nourishing and preserving the Hair, has induced numerous articles to be sold under the denomination of Bear's Grease, which are neither more nor less than hog's lard and whale oil, submitted to various manipulations to divest them of the offensive smell, whereby purchasers are perpetually disappointed and disgusted with the nauseous effluvia emitted from the hair when the whale oil becomes warm by the parties taking exercise. DIETRICHSEN and HANNAY are convinced that if there is any efficacy in the use of Bear's Grease, it can only be when procured from the animal in its natural state, and having relations resident at Petersburg, are enabled to import it direct from Russia (where it can alone be obtained in any considerable quantity,) and they warrant that the Bear's Grease sold by them is exactly in the same state they receive it from abroad without the addition of any article whatever, but a little perfume to render it more agreeable. It is put up for sale in pots at 1s., 2s. 6d., and 5s., for exportation to warm climates, in glass jars with stoppers, at 4s. and 8s. each.

DIETRICHSEN & HANNAY'S POMADE,

For embellishing the appearance, and promoting the growth of the Hair.

This Pomade is recommended as possessing all the properties that are essential to the elegant appearance of the Hair; it renders it beautifully soft and glossy, and surprisingly encourages its growth; it will not prevent the Hair falling off, as that is a provision of Nature which takes place annually, but it will promote a more rapid growth of the new hair than any other article offered to the Public for Sale. DIETRICHSEN & HANNAY, however, do not recommend its use to Ladies with auburn or light hair, as the application of this Pomade tends to darken the colour.—In Pots at 1s., 2s. 6d., 3s. 6d., and 5s.

FOR THE HEAD-ACHE.

DIETRICHSEN AND HANNAY'S CONCENTRATED SMELLING SALTS.

The extreme pungency of these Salts proves them to be in a higher state of concentration than those heretofore in use, with the desirable advantage of being in bottles with air-tight stoppers, which prevent their decay, and are found to be a most useful appendage to the apartments of Invalids. In Cut Bottles, with Glass Stoppers, 2s. each.

DIETRICHSEN AND HANNAY'S NEW VEGETABLE SOAP.

To those Ladies whose refined tastes value the appearance of delicacy and health, DIETRICHSEN AND HANNAY, Perfumers to the Queen and Royal Family, beg to recommend their NEW SOAP, prepared entirely from Vegetable Oils, as a most invaluable improvement in Toilet Soaps; it possesses all the detergent properties of the common Alkaline Soaps heretofore in use, without any of their injurious properties; it renders the Skin beautifully soft, smooth, and delicately white; removes all Redness, Freckles, Tan, and Sunburn, and justly ranks as the most agreeable, efficient, and harmless improver of the complexion in present use, and retains its agreeable perfume to the last. Sold in Packets of Three Squares at 1s. 6d., Six Squares, 3s.

DIETRICHSEN'S RONDELETIA SOAP.

This agreeable Toilet Soap, so much approved for softening and beautifying the skin, is perfumed with the admired fragrance of the Essence of Rondeletia, and has acquired the unqualified approbation and patronage of almost every lady of fashion. For perfuming the Portmanteau or Wardrobe, this Soap is preferable to the perfumed packets, which lose their fragrance, while this retains its odour for months, and may be eventually used as a highly scented Soap. Price One Shilling the Cake.

DIETRICHSEN'S OLD BROWN WINDSOR SOAP.

This Soap, which has for a long series of years enjoyed the approbation of their customers, continues to be sold as heretofore in Packets of Three Squares at 1s.; Six Squares at 2s.; or Six two shilling Packets 10s.

DIETRICHSEN AND HANNAY'S ROYAL KENSINGTON SOAP.

This agreeable Soap is strongly recommended as a great improvement on the Old Brown Windsor, lathering more freely, and possessing more detergent qualities, yet leaving the skin soft and pleasant, as it contains much less alkali than the Old Brown Windsor; it is, notwithstanding, sold in Packets at the same price, viz:—Three Squares, One Shilling, Six Squares, Two Shillings.

SHAVING TABLETS.

For using without a Box, 1s. each.

GENUINE NAPLES SOAP.

In Pots of various sizes, from One Shilling.

HANNAY AND DIETRICHSEN'S SHAVING CAKE.

Is universally approved for producing a soft oleaginous and permanent lather for shaving, equally lasting and far more agreeable than that produced by Naples Soap, and to gentlemen whose chins are tender, or who experience difficulty in shaving, it will be found a desideratum, enabling the operation to be performed with equal facility with cold water as with hot. Price 2s., 1s. 6d., and 1s., and in Pots at 2s. 6d., and can be fitted into gentlemen's glasses of any size; it is also cut into Tablets for rubbing on the chin, at 1s. each.

DIETRICHSEN AND HANNAY'S IMPERIAL LIP SALVE.

In China Boxes at 1s., is an article much approved, and will keep good any length of time.

O'KELLY'S HAIR DYE.

This Dye will be found (in affording a more permanent dye, and more natural colour) superior to every other dye at present in use, it does not contain any article prejudicial to the growth of the hair, and it will not stain either the skin or the linen, and does not require any of the usual mess rubbed on the hair previous to using it.

Prepared by THOMAS O'KELLY, late Valet to his Excellency Sadi Bey, formerly Persian Minister to the Court of England. Price, with directions, Six Shillings the Bottle.

THE PARISIAN FLUID.

A clear mucilaginous Liquid Preparation, for giving permanent smoothness to the hair when dressed. Price 2s. 6d.

VIOLET POWDER,

Dietrichsen and Hannay pay the greatest attention to the manufacture of this Article for the use of the nursery, and their customers are pleased to approve it highly, it is sold in packets at 6d., 1s., and 2s. each.

FOR CHAPPED HANDS.

DIETRICHSEN & HANNAY'S SUPERIOR COLD CREAM,

The most efficacious and delightful Cosmetic ever offered to the Public.

The admirable qualities of this elegant article, in clearing, softening, and preserving the Skin, and in rendering the complexion delicately fair and beautiful, have occasioned it to supersede all others. Experience has increased its character—opposition more clearly shows its superiority. Its cooling balsamic qualities render it excellent for infants, as it keeps the Skin soft, cool, and free from dryness. It is highly recommended for the above purposes by most families and persons of distinction, who have experienced its pleasing effects.—In Pots at 1s. and 2s. 6d.

DIETRICHSEN & HANNAY'S STICKING PLAISTER.

This useful article is a great improvement on the old Court Plaister, as it will adhere until a cut is healed up, and does not come off when washing the hands.—Price Sixpence.

DIETRICHSEN & HANNAY'S

ROYAL EXTRACT OF LAVENDER

Is a pure extract of the Finest English Cultivated Lavender, unalloyed with the sickly additions so generally employed to perfume or rather spoil Lavender Water.

Yielding at all seasons of the year the Fragrant Odour of a Fresh Boquet of Lavender.

Those persons who prefer the fragrance of pure Lavender, by using this Extract may have it in its finest state, and it is nearly four times the strength of common Lavender Water.

Price, in quarter-pints, 2s. 6d., half-pints, 4s., and pint bottles, 7s.

DIETRICHSEN & HANNAY'S TOOTH BRUSHES.

These Tooth Brushes are manufactured on an improved method, which enables D. and H. to undertake that the hairs will not come out (an evil so generally complained of,) and if in any instance it should occur, it is occasioned by some neglect of the workmen, and it would be a favour conferred upon D. and H. by their customer returning it, and selecting a perfect one instead, for which no charge will be made. D. and H.'s assortment of Tooth Brushes is of a very extensive description—and they will be happy to make for inspection any other variety that can be suggested. *Price One Shilling each.*

THE TRUE POMADE DIVINE,

As prepared for many years for the use of Her late Majesty Queen Charlotte.

The great usefulness of this excellent remedy is so well known to all who have applied it, that no encomium is necessary; and to those who are unacquainted with its virtues, a trial in the following cases will be its best recommendation:

It is useful for all sorts of Swellings and Bruises, occasioned by Falls or otherwise, and will prevent the many bad consequences of such accidents. For a Cancer before it is broke, and for sore Breasts, particularly in Lying-in. For a stiff neck, and for Swellings occasioned by the Evil. For the Piles, and will prevent a Fistula. For Gangrene, melting a little into the wound. For pains in the Stomach, rubbing it before the fire. If a little be well rubbed in for a few minutes on a Bruise or Pinch, it will prevent all blackness. Will also cure Scalds or Burns, applied directly.

If Gentlemen whose chins are tender, or after being exposed to the wind in riding or hunting, were to rub their chins with a little of this Pomade, they would be able to shave in the course of a quarter of an hour afterwards with the greatest ease.

Price 2s. 9d. the Glass.

. As there are numerous counterfeits of this valuable Pomade in circulation, it is requisite to observe that this, which is the only genuine preparation, prepared from the original recipe, has the words "Hannay and Dietrichsen, 3, Oxford Street," engraved in and printed on the Government Stamp attached to each glass.

DIETRICHSEN & HANNAY'S

MUCH APPROVED SEIDLITZ POWDERS

These Powders, prepared according to the formula of that eminent chymist, the late Sir Samuel Hannay, Bart., after making an elaborate analysis on the spot, of the waters from the far-famed Seidlitz Spring in Germany, will be found to contain all the medicinal properties of this celebrated water when in the recent state of being drawn from the earth, justly held in such high estimation, where Indigestion, Heartburn, or Bilious Affections prevail, and particularly beneficial to persons residing in hot climates.

These Powders being nearly tasteless may be administered with ease where salts in any other form could not be taken.

As an Alterative they should be taken before breakfast; but for Heartburn or Acidity of the Stomach they may be taken at any time, being as refreshing as Soda Water, more efficacious, and their effect certain, and as a mild aperient are unequalled, with this peculiar advantage, that unlike all other purgatives the power is increased by frequent repetition.

Sold in Boxes at 2s. each, containing twelve doses, being the cheapest and most efficient preparation in present use.

SIR CHARLES SCARBOROUGH'S LOTION,

FOR BEAUTIFYING AND PRESERVING THE SKIN AND COMPLEXION.

DIETRICHSEN and HANNAY congratulate themselves upon having rescued from oblivion, and being enabled again to lay before the World of Fashion, that inestimable treasure, the LOTION FOR THE COMPLEXION, as prepared by that eminent Physician, SIR CHARLES SCARBOROUGH,* in days of yore.

Having lately purchased of his descendants the whole of the valuable manuscripts left by the learned Doctor, DIETRICHSEN and HANNAY were delighted at discovering the recipe by which Sir Charles prepared the unrivalled charm so justly celebrated by contemporary Poets, as adding such brilliance to the

PEERLESS BEAUTIES OF KING CHARLES'S COURT.

But which, after the death of his first Royal Master, Sir Charles could not again be prevailed upon to make up, when the

SURPASSING LUSTRE OF ENGLAND'S GRACES SENSIBLY DIMINISHED,

Until renewed by the happy discovery of this valued Lotion, by a few applications of which those personal Disfigurements, Eruptions, Blotches, and Pimples on the Skin, are quickly banished, and the "human face divine" again shines forth in all its native loveliness. Ladies after travelling in the sun or wind will find all the irritation of the skin effectually removed by this Lotion. Gentlemen whose Chins are tender, will find it invaluable applied after the operation of Shaving.

The Lotion is sold in Bottles at 2s. 9d., at DIETRICHSEN AND HANNAY'S Perfumery, Drug, Chemical and Patent Medicine Warehouse, 63, Oxford Street, London.

DIETRICHSEN AND HANNAY'S

VEGETABLE, ASTRINGENT, ANTISEPTIC TOOTH-POWDER,

Will be found superior to and more agreeable in use than any other Dentifrice, for beautifying and preserving the Teeth and Gums, its deterative qualities removing those Tartarous Substances which adhere to the interstices of the Teeth, without injuring the Enamel, and restoring them, however much discoloured by neglect, to a beautiful Transparent and Pearly appearance; by operating as an Anti-scorbutic, it gives a firmness and healthy appearance to the Gums, imparting the sweetest fragrance to the Breath, and by a continued use will preserve the Teeth firm and entire, prevent their decay, and fix them in the socket to the latest period.

Ladies and Gentlemen who had been previously much subject to the Tooth-Ache, find that by the continued use of DIETRICHSEN AND HANNAY'S TOOTH-POWDER they become entirely free from it.

DIETRICHSEN AND HANNAY'S VEGETABLE ANTISEPTIC TOOTH-POWDER, *not* containing either Mineral or Vegetable Acid, and being perfectly impalpable, renders the Teeth beautifully transparent, smooth, and highly polished.

The very distinguished Patronage bestowed upon this truly elegant Dentific preparation has so established its reputation that it is now considered an indispensable requisite at the Toilet of every Lady of Rank and Fashion.

Price 2s. 9d. each Box, or six boxes at one purchase, Fifteen shillings.

If purchased in the country observe it has the words "HANNAY AND DIETRICHSEN, 63, Oxford Street," printed in the Government Stamp, pasted round each Box, or it will not be genuine. D. & H. will forward a Box, free of carriage, to any part of the Kingdom, on receipt of a Post Office order for Three shillings and three pence.

* Sir Charles Scarborough was Court Physician to King Charles the Second, and to the two succeeding Monarchs; he was eminent as a Physician, as an Astronomer, and celebrated for his graces as a Courtier; he discovered the star Cor Caroli, so denominated in memory of our Charles the First, and having attained the reputation of the ablest Physician of his day, died in 1693, and was buried at Cranford.

ASHLEY COOPER'S BOTANICAL PURIFYING PILLS.

ESTABLISHED by upwards of forty years' experience, are prescribed by most of the eminent Physicians and Surgeons in London, and are always administered at several public Hospitals, as the only certain remedy for Gonorrhoea, Gleet, Strictures, and all other forms of Venereal Disease, in either sex, curing in a few days, by one small Pill for a dose, with ease, secrecy, and safety. Their operation is imperceptible; they do not require the slightest confinement, or any alteration of diet, beverage, or exercise. They do not disagree with the stomach, nor cause any offensive smell to the breath, as is the case with all other medicines in use for these complaints, and after a cure effected by the use of these Pills, the parties will not experience any return of the complaint, as generally occurs after taking Balsam of Copaiba, and other drugs of the like nature, which only possessing a local action, merely suppressed the complaint for a time without eradicating it from the constitution, and the Patients on undergoing a little more fatigue than ordinary, find all the symptoms return, and that they are suffering under the complaint as much as at first, and are at last constrained to have recourse to these Pills as the only certain cure. They are likewise a most efficient remedy for Pimpled Faces, Scurf, Scorbatic Affections, and all Eruptions of the Skin. Captains of vessels should make a point of always taking them to sea, their unrivalled efficacy in curing Scurvy being known throughout the world.

The following letter, selected from numerous other professional recommendations forwarded to the Proprietor, when he first offered these Pills to the Public, may be considered interesting.

From that eminent Surgeon, the late Joshua Brookes, Esq., F.R.S., Professor of Anatomy, &c. &c.

DEAR COOPER,

Theatre of Anatomy, Blenheim-street.

I have tried your Pills in numerous instances, and my candid opinion is, that they are a most improved system of treatment for those peculiar complaints for which you recommend them, curing with rapidity, and with a certainty that I had never before witnessed; but what I consider their most invaluable property is, that they entirely eradicate the complaint, and never leave those distressing secondary symptoms (that harass the patient for life) which usually arise after the use of those uncertain remedies, Mercury and Copaiba. I think you cannot fail to have a very large sale for them.

Believe me, yours, very truly,

JOSHUA BROOKES.

"Dr. BORRAGAN presents his compliments to Messrs. Hannay and Co., and writes to say, that having for some years prescribed Ashley Cooper's Pills to his patients, with the most successful results, he feels called upon to add his testimony to their great efficacy in curing sexual diseases, and they deserve well of the public and the profession. The Purifying Drops are also a most invaluable Anti-Scorbatic Medicine. Dr. B. has found them to be a decided specific for those eruptions of the skin which frequently appear at the rise and fall of the year."

GENTLEMEN,

London, — Street, June 12th, 1838.

I cannot express the feelings which induce me to forward you my name in addition to those who have gratefully returned their thanks for a complete cure of Gonorrhoea, by the use of Ashley Cooper's Botanical Pills. I beg merely to say, that I have experienced an entire cure from the small quantity of six boxes of those invaluable Pills, of a very urgent and distressing species of the above disorder, and my gratitude shall ever be evinced, in my strongest recommendation of them to all I may hereafter meet, suffering in the same manner. If this recommendation can be of the least service to you, I beg you will accept of it, merely reminding you that, if made public, my residence may be omitted.

I am, Gentlemen,

Your much obliged and very obedient Servant,

JOHN HARRISON.

ASHLEY COOPER'S BOTANICAL PURIFYING PILLS are sold in Boxes at 2s. 9d., and 4s. 6d. each, at DIETRICHSEN & HANNAY'S General Patent Medicine Warehouse, 63, OXFORD STREET, LONDON, who will forward a 2s. 9d. box, carefully packed, to avoid observation, free of carriage, to any part of the Kingdom, in return for a Post Office Order for Three Shillings, remitted post free, or any larger quantity at the like rate.

HEALTH RESTORED AND PRESERVED BY DYSON'S DIGESTIVE ANTIBILIOUS PILLS.

A Specific for the Prevention and Cure of Disorders of the Digestive Organs, (with the train of Calamities attending thereon,) for Bilious and Nervous Diseases.

It is an established fact, that almost all the diseases to which the human frame is subject, owe their origin to some derangements of those parts of the body usually denominated "Digestive Organs." These consist of the Stomach, Liver, and Bowels, and their duty is respectively to receive the food, to prepare it for its especial purpose—a supply of new blood to nourish the system—and when this is effected, to carry off the useless residue. It must therefore be evident to the most ordinary mind, that if any of these operations be impeded, derangement of function must take place; there will either be Sickness of Stomach, accompanied with an inordinate secretion of Bile, Relaxation of the Bowels, or Costiveness; these give rise to Head-aches, Palpitation of the Heart, Cough, and Difficulty of Breathing, General Fever, and a long catalogue of diseases not usually described, but well known under the expressive terms "Bilious" and "Nervous." To prevent the occurrence of these maladies is an undoubted desideratum, but to cure them when existing, is a matter of much greater importance. Both, however, may be effected by remedies that will stimulate the organs to a proper performance of their functions—thus: to give tone to the Stomach; to excite the Liver to a healthy secretion of Bile; and to regulate the action of the Bowels. It is allowed by all that "Prevention is better than cure;" to preserve the Digestive Organs, therefore, in a healthy working condition, is a sure way to prevent disease. To effect this, a dose of the Digestive Pills, taken once or twice a week, is all that is necessary; and when disease has already set in, the more frequent use of them will perform a cure. Dyson's Digestive Pills are adapted to all ages and both sexes. The most delicate females may take them under any circumstances. They are sold in boxes at 1s. 1½d. and 2s. 9d. each, by appointment of the Proprietors, at Dietrichsen and Hannay's Patent Medicine Warehouse, 63, Oxford Street, London, only, whose name and address is printed in the Government Stamp round each box, without which they are not genuine.

DR. DE SANCTIS'S
RHEUMATIC AND GOUT PILLS,
PREPARED BY BARTHOLOMEW DE SANCTIS, M.D.
LICENTIATE of the ROYAL COLLEGE of PHYSICIANS, LONDON

THE unfailing efficacy of DR. DE SANCTIS'S Pills for the cure of Gout and Rheumatism, has been tried in an extensive Practice, and their uniform success fully warrants Dr. De Sanctis in offering them for general use, as a specific, and the only one, for the cure of Gout, Rheumatism, Rheumatic Gout, Lumbago, &c.

Suffice it to say that these Pills do not contain Colchicum or any other deleterious Drug; they are perfectly innocent, and may be administered to the most delicate individuals. The Dose is one Pill every eight hours until cured: the first dose will begin to mitigate the most violent attack within four hours of its administration; and a Patient writhing under the most malignant attack of Gout or Rheumatism, may rely on its removal within forty-eight hours.

Dr. De Sanctis lays before the Public the following letters from some of his Patients, which speak a higher eulogium of the efficacy of the Medicine than any representation he could make himself.

Cheltenham.

"Dear Sir,—When your name was mentioned to me by a friend, I certainly was sceptical of your being able to afford me any more relief than such as I had before obtained; but your most invaluable Pills have certainly cured me, and had I not obtained them, I as certainly should have been before this a corpse. I have been for five and forty years a martyr to the horrid complaint of Gout, which in sufferings must be equal to the torments of hell, and during this long period I have tried every Remedy that money could procure or the most eminent Medical talent could suggest. I have taken Colchicum in every form, and in very large doses, both with and without Opium, but unfortunately found the more Medicine I took the more frequently the attacks returned, increasing in violence every time, and each attack becoming of longer duration (frequently of late from six weeks to two months), the most powerful remedies having at last failed to exert any influence on the complaint. The delay that occurred in consequence of my having to write to you ere I could obtain the Pills, allowed the complaint to increase more than it had ever done before, for both my legs, which of late years have been attacked simultaneously, and swelled to the size of my head, on the last occasion swelled up my thighs, and but for the timely arrival of your Pills no doubt would have got into my Stomach, and then, as our immortal poet says, "In a coffin I'd popp'd off," instead of being here to return you my most grateful, sincere, and heartfelt thanks; the effect produced by your most inestimable Pills was wonderful; in a short time after taking the first dose I fancied myself easier, but made up my mind to refer it only to a false confidence; but my astonishment was excessive when at the end of six hours I found the swelling begin to diminish, and in five days I found myself completely cured, and without any of those symptoms of lassitude and debility being left behind, which have always lasted for many days after every previous attack for the last ten years. I am, Dear Sir,

"Your most sincere Well-wisher, and Resuscitated Patient,

"WM. LAMBERT."

"To DR. DE SANCTIS."

Dublin.

"Sir,—I think that, without a single exception, I have suffered more from Gout than any other individual ever endured, the pain has been so intense (without the slightest diminution) for three and four weeks at a time, that I have frequently been obliged to have a nurse by me day and night, striking my foot with a stick, to moderate the pain by inflicting another, until I have sometimes had my foot so black that it has not recovered its colour for months; at the commencement of the last attack I procured some of your Pills, and to my very great satisfaction they immediately relieved me and prevented its further inroad, and I have now been free from it for eighteen months.

"I am, yours very truly,

"To DR. DE SANCTIS."

"FRANCIS HEATH."

Brighton.

"Sir,—The wonderful efficacy of your wonderful medicines is almost incredible; fifteen years ago I was attacked with acute Rheumatism, from having slept in a damp bed while travelling in Flanders, the torture arising from which has been of the most agonising description, for although at intervals I have been free from pain (had it been incessant I must have put an end to my existence) I have been more or less subject to it ever since, and when the attacks came on, I felt as though I was being torn asunder. In fifteen hours from the first dose of your Pills (but mind I took two of them) I was materially relieved, and at the expiration of a week I had not the slightest trace of my enemy left; as you decline to let me have the prescription in consequence of your intention of introducing it as a Patent Medicine, you are free to publish this communication if you think proper, for the Pills deserve to be generally known.

"I am, Sir, your obedient Servant,

"To DR. DE SANCTIS."

"W. WEST."

"Sir,—Your Rheumatic and Gout Pills are certainly a most efficacious Medicine; I have been a severe sufferer from Cold Rheumatism, which the Faculty have told me was always difficult of cure; it certainly has been difficult with me, for, for fifteen years, I have fluctuated from bad to worse and worse to better. I have placed myself in the hands of twenty-five Medical Men who pursued as many different modes of treatment without any permanent effect; a fortunate circumstance introduced some of your Pills to me a few months since, which entirely cured me, and thank God I have not had a relapse since; I therefore think it but justice to you, to offer you my testimony of their efficacy, and I recommend all Gouty and Rheumatic subjects never to be without them. Yours, &c.

"To DR. DE SANCTIS."

"JACOB JOHNSON."

"MR. WENTWORTH presents his compliments to DR. DE SANCTIS and writes to say that he considers his Pills a harmless but most efficacious remedy, and shall have great pleasure in recommending them to the notice of his friends; the particular complaint Mr. Wentworth took them for was Rheumatic Gout in the right hand, which he is very subject to, but which he finds DR. DE SANCTIS'S Pills immediately remove."

"MISS WILKINS has been entirely cured of a Rheumatic affection in the hip, which Miss W. had long been a sufferer from, by the use of DR. DE SANCTIS'S Pills, after several other remedies she tried had failed."

"MR. SMITH'S compliments to DR. DE SANCTIS and begs to communicate to him that he found the most speedy relief from the use of his Pills, and was entirely cured in three days."

DR. DE SANCTIS'S PILLS are Sold in Boxes at 2s. 9d. each, by HANNAY and DIETRICHSEN, 63, OXFORD STREET, LONDON, who will forward a Box, free of carriage, to any part of the Kingdom, on receipt of a Post-Office Order for Three Shillings.

By the Queen's Royal Letters Patent.

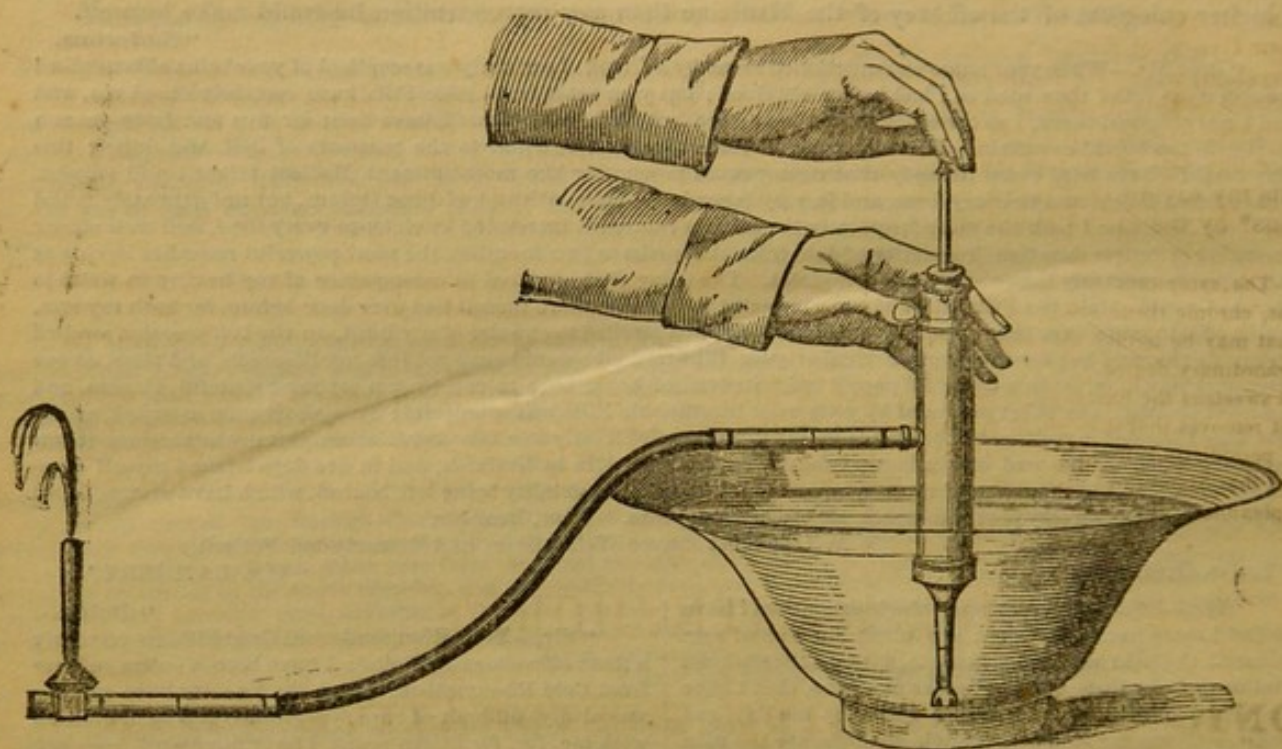

DIETRICHSEN'S

NEW PORTABLE

PATENT CONTINUOUS-STREAM ENEMA,

Contained in a small Mahogany Case, that may be carried in the Pocket,

PRICE THIRTY SHILLINGS.

THE use of Warm Water being frequently recommended as an Injection, for the relief of Constipation, it becomes a matter of moment to be provided with an Instrument by which, in case of necessity, the operation may be performed with facility. MR. DIETRICHSEN having long paid considerable attention to arrive at an improved method of raising and forcing fluids, has succeeded in producing and Patenting the important principle upon which the above most perfect Enema is constructed, being a Double Action, ejecting a continuous stream of water by both the upward and downward stroke of the Piston, without throwing air into the bowel, or water into the face of the operator, as is the case with all others. MR. DIETRICHSEN'S New Patent Continuous-Stream Enema has received the unqualified approbation of all the Eminent Medical Practitioners in London who have examined it. Travellers will find the possession of one of these instruments frequently the means of saving life during a journey through the Desert. The flexible tube being made of silvered wire will not corrode and break off the mounts, as those of other makers are liable to. MR. DIETRICHSEN'S Patent Enemas are made of turned brass, beautifully tinned inside to prevent corrosion, they are so simple that they can be taken to pieces and wiped, if used for oil or gruel, and put together again without being put out of order.

D. & H. will forward one of these Instruments enclosed in a deal packing case, carriage free, to any part of the Kingdom, on receipt of a Post Office Order for Thirty-three Shillings.

To prevent the public being deceived with counterfeits of this invaluable Instrument it can only be obtained at the Patentees' own shop, 63, Oxford Street, London

DIETRICHSEN & HANNAY'S
CONCENTRATED DECOCTION,
OR
FLUID EXTRACT OF THE FINEST
JAMAICA SARSAPARILLA.

THIS most efficient and agreeable preparation of that well known and valuable alterative, Jamaica Sarsaparilla, is prepared by a peculiar and scientific method, suggested many years ago by our respected predecessor, that eminent Chymist the late SIR SAMUEL HANNAY, Bart., by which the whole of the aromatic and volatile parts are preserved, which in the common decoction are dissipated in the boiling; and the experience of many years has fully established the reputation of this medicine as containing more of the virtues of the root from which it is procured than the decoction made in the ordinary way over the fire. It has been strongly recommended at various periods by Sir William Fordyce, Dr. Hunter, Mr. Pearson, Dr. Graham, Dr. Hancock, Sir Benjamin Brodie, and other eminent Medical Practitioners. Professor Green, of King's College, when Lecturing on Sarsaparilla, said "It increases the tone and vigour of the system, without quickening the pulse; produces increase of tone, without increase of action. The good effects of this Medicine are so obvious in many cases that it was supposed at one time to possess a specific effect over many diseases. Amongst the remedies we possess, I should say it stands first; and there are but few good practitioners in London who do not attribute much efficacy to it. Experience warrants my saying that you will effect your object in completely restoring patients labouring under these affections* by the exhibition of this remedy." It is sold in Bottles at 4s. 6d., 7s., and 12s. each.

* The symptoms alluded to are, nocturnal pains in the limbs, scrofulous enlargement of the glands, cutaneous eruptions, chronic rheumatism, painful enlargements of the joints, membranous nodes, &c.; and in freeing the system from what may be termed the sequelæ of a Mercurial Course, its beneficial effects have been exemplified in a powerful and extraordinary degree.

It sweetens the blood, improves a bad habit of body, and by giving the cutaneous vessels a healthy and regular action, it removes that disposition to Erysipelatous Inflammation, and those affections resembling it, from which so many persons, periodically suffer; and when taken in the Spring and Fall of the Year, as an *alterative medicine*, will be found to impart that Stamina to the Constitution, which is indicated by firmness of flesh, regularity of appetite, and freshness of complexion.

DR. GARTHSHORE'S
TONIC INVIGORATING RESTORATIVE PILLS

*For Nervous Weakness and Debility, Low Spirits, Hypochondriac
and Hysterical Disorders, Faintings, &c., &c.*

THESE Pills prepared from an invaluable prescription of that eminent Physician, the late celebrated DR. GARTHSHORE, are singularly efficacious in disorders and indispositions where the strength is impaired, where the viscera and other parts are too much relaxed and deprived of their proper tone, exerting their influence over the whole nervous system, promoting and restoring the secretion of nature into proper order, and re-establishing good health, however much debilitated; whether arising from natural causes, the consequence of hot climates, immoderate use of tea, or ardent spirits, sedentary employment, improper administration of mercury, dissipated pleasure, indulgence, solitary vice, intense study, grief, disappointment, anxiety of mind, and other causes; gradually and agreeably relieving and curing those distressing symptoms of lowness of spirits, nervous debility, loss of appetite, wind on the Stomach, swimming of the Head, palpitation of the Heart, impotence, barrenness, inward decay, muscular imbecility, seminal weakness, atrophy, defect of memory, impaired vision, trembling of the hands, oppression of the breast, restless nights, with dreams and horrors of the mind, and other symptoms of those disorders, which, Proteus-like, are continually varying, and upon every fresh attack of which, the Patients imagine themselves assailed by disorders that they never felt before, which not only affect the body, but frequently the mind, rendering the party fretful and peevish, putting them in continual fear of death; in short, nervous disorders, from whatever cause arising, give way before the effects of this inestimable Medicine, and all that train of symptoms that so dreadfully affect the human frame, will in a short time be succeeded by cheerfulness and lasting health.

Dr. GARTHSHORE'S Pills are sold in Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d. each (the 4s. 6d. Box contains the same quantity as six Boxes at 1s. 1½d.), by appointment, at Messrs. Dietrichsen & Hannay's Patent Medicine Warehouse, 63, Oxford Street, the corner of Wells Street, London, who will forward a 9d. Box, free of carriage, to any part of the Kingdom, on receipt of a Post-office Order for 3s. 1d., or 4s. 6d. Box, on receipt of a Post-office Order for 4s. 10d.

DIETRICHSEN & HANNAY'S OPHTHALMIC OINTMENT,

For the actual Cure of Sore Eyelids and Specks of the Cornea.

THIS invaluable Ointment generally succeeds in effectually curing (in the space of a fortnight or three weeks) those diseases of the eye attended with sore eyelids and loss of the eyelash, frequently the after effects of the measles, even when other remedies have failed, and when some of the first Oculists in London have declared a cure hopeless. DIETRICHSEN & HANNAY having long and extensively used this ointment with the most favourable results, recommend it strenuously to their Customers and the Public as the best remedy for the above class of disease of the eye that has ever been brought forward for sale. It possesses an advantage peculiar to itself, viz., that it does not cause any smarting or other uneasiness not even at the moment of application, so much so, that no child will resist its application. If children, who are subject to styes on the eyelid, have a little of this Ointment applied to the eyelid for a few nights at going to rest, it will entirely remove the sty, and the patient will not be subject to them as before. It is sold in Pots at 2s. 9d. each, or will be forwarded carriage free, to any part of the Kingdom, in return for a Post-Office Order for 3s. 3d. The following are testimonials of the effect of the Ointment, from individuals who have made use of it.

*Regent Street, Westminster,
April 29, 1874.*

SIR,—After suffering dreadfully from a severe attack of acute Ophthalmia in both my eyes, attended with excessive pain and restlessness, I am again perfectly restored to sight by the use of your Ointment, which immediately gave me ease and rest, and in less than a fortnight most effectually removed the complaint. I am convinced the more general knowledge of your Ointment for Diseases of the Eye would be attended with the greatest good to the public, and you are at liberty to refer at all times to my case, as a proof of the benefit which may be expected from its application in similar attacks.

I remain, dear Sir,
Yours very truly,
F. RICHMAN.

SIR,—Being aware of the extraordinary efficacy of your Eye Ointment, I provided myself with a few Boxes on my visit to Brighton last Christmas, in order that, should I meet with any objects afflicted with Diseased Eyes, I might have the opportunity of alleviating their sufferings. I met with two cases, and the decided and speedy good effects arising from the application of your Ointment induces me to send you the particulars.

The first case was that of Margaret Lindridge aged twenty-two years, whose eyes had been bad about twelve years; the inflammation of the lids was extensive, and the Eyelash entirely removed, and attended with constant irritation and discharge. This woman had been under numerous medical men, and was considered incurable. The Ointment was applied for about a month, and effected a most complete cure. This was last Christmas, and the disease has in no respect re-appeared; the Eyelash is restored, and she is now in that respect perfectly well.

The second case was almost miraculous. The patient, John Hill, being a man upwards of sixty-seven years of age, and he did not recollect the time when his eyes were not bad. This man had had every advice. Your Ointment was applied, and the result was a perfect cure in about a month.

I cannot conclude these representations without expressing to you my entire confidence in the unerring good effects of this remedy.

I am, Sir,
Your obedient Servant,
ANNA FEATHERSTONHAUGH.

SIR,—I have the pleasure to inform you, that the Box of Ophthalmic Ointment has completely cured the eyes of a young Lady of this place. Her eyes had been violently affected with inflammation of the Lids, for more than ten years. She had tried various remedies, and had been under the care of many eminent Medical Practitioners, without any benefit. It is now gratifying to see her, her appearance is so much improved.

I should feel obliged by your sending me, by the first conveyance, a few boxes of the Ointment: there are two or three persons waiting for it.

I remain,
Yours respectfully,
ELIZ. HIGHMAN.

SIR,—Our daughter being perfectly restored to sight in a few weeks, by the use of your Remedies for Diseases of the Eye, after suffering severely from Acute Ophthalmia during

four months, two of which she attended at the Eye Infirmary, Warwick Street, without receiving any sensible benefit, we beg to acknowledge our decided opinion of the powerful efficacy of these preparations, and do strongly recommend their use to all persons afflicted with inflammation in the Eyes.

We remain, sir,
Your very obliged Servants,
JOSEPH & MARGARET ROOM.

*Belvidere Road, Lambeth,
April 18, 1837.*

GENTLEMEN,—I have the pleasure of communicating to you a most successful case of cure effected by the use of your Ophthalmic Ointment. My daughter, now fifteen years of age, has suffered from nine months old (at which time she had the measles) with sore eyes, of such a description as to be pitiable to contemplate; much light or the least wind so distressed her, that she was obliged to keep them bandaged up. She had been under the treatment of every respectable Oculist in London and I had had most of the private remedies on sale applied, but without success, all of which rendered her the worse, from the torturing effect they had, but which was not the case with your Ointment, which did not cause any smarting; and I am happy to say, by continuing its use for three weeks, she was completely cured. I consider the Ointment to be of so valuable a description, that you will be at liberty to publish this communication if you think proper.

I am, Gentlemen,
Your obedient Servant,
W. SHERWOOD,
Carpenter and Builder.

MRS BENNETT, of 28, James Street, Commercial Road East, had suffered from severe Eyelids (left by the measles) for upwards of eighteen years; was entirely cured by using one pot of DIETRICHSEN & HANNAY'S Ophthalmic Ointment, and has not experienced the least inconvenience since.

SAMUEL THOMAS SEYMOUR, 2, Castle Court, call-boy at the Princess's Theatre, 13 years old, had a speck on the cornea of the left eye, both eyelids sore, and entirely lost the eyelashes, arising in the first instance from severe cold; was cured in three weeks by the use of DIETRICHSEN & HANNAY'S Ophthalmic Ointment.

FREDERICK EARL, St. Clement's Danes School, 15 years of age, had been subject to sore Eyelids and loss of Eyelashes from infancy; at 10 years old was affected with Speck, and total loss of sight of the right eye; was entirely cured by using the Ointment for three months, during which time the Speck was entirely taken up, and the vision completely restored.

August, 1843.

March, 1844.

GENTLEMEN,—In reply to your enquiries, I have used your Ophthalmic Ointment, in several severe cases of inflamed Eyelids; also, in some instances, of Speck on the cornea, and have always found it successful; in addition to its effects being certain, I find it does not cause the least uneasiness or smarting; I can therefore recommend its use in such cases with the utmost confidence.

Your obedient Servant,
T. WRIGHT
Member of the Royal College of Surgeons.

C. S. CHEDDON'S FAMED HERBAL TONIC PILLS,

FOR THE CURE OF

Scrofula, Scurvy, Leprosy, Scorbatic Affections, Eruptions and Pimples on the Face, Swellings or Ulceration in the Neck, Sore Breasts, and all disorders attended with painful Swellings, or with Morbid and Irritating Eruptions of the Skin, Open Wounds, and Sores, etc.

Sold Wholesale and Retail by **HANNAY and DIETRICHSEN**,
Chemists and Druggists to the Royal Family, 63, Oxford Street, London

The daily increasing celebrity of CHEDDON'S PILLS is the most positive proof of their efficacy, and they are now adopted by the first Practitioners for the Cure of the above Disorders, which are well known to have baffled the most consummate Medical Skill, and which have hitherto always been considered incurable.

Of all diseases which affect the human body, there are none more severe, more dangerous, or more painful, than those of Scrofula, Scurvy, Leprosy, and Scorbatic Affections, with the endless variety of morbid and irritating eruptions of the skin concomitant thereto; indeed, there is scarcely a family in the universe, either rich or poor, that is not directly or indirectly affected with Scrofula, or where its latent effects are not occasionally visible, being apparently the visitation denounced against succeeding generations, and for which the faculty have hitherto considered there were no means of cure, and its increase to the present alarming extent is the consequence. Look around you and see how many individuals, in the prime of life, are daily falling victims to this complaint! who might have been so easily cured by one medicine, and by that medicine alone, namely, C. S. CHEDDON'S FAMED HERBAL TONIC PILLS, which have been the means of restoring hundreds to perfect health, after many of the most Scientific Medical Men in London, and elsewhere, have said nothing more could be done for them, and who were left to drag on a miserable existence from day to day until death should terminate their sufferings; many of these persons have been discharged from the Public Hospitals, and some from her Majesty's service, as incurable, and in a short space of time have been entirely cured by this Invaluable Medicine.

How many individuals there are seen daily with Scrofulous Tumours on different parts of the Body, Eruptions in the Skin, and Scrofulous Sores, which to every eye, is a great disfigurement; for these complaints the most eminent of the Faculty have tried nearly every remedy, without success—as a last resource, they recommend the sea side, which frequently increases the virulence of the disease! if it does otherwise, it only allays its progress for a short time, when it generally breaks out in a much more malignant form than it had previously appeared, and death ensues as the inevitable consequence!

The extraordinary efficacy of C. S. CHEDDON'S Invaluable Pills have been repeatedly proved in the most inveterate cases of Scrofula and Cutaneous Diseases, after many eminent Physicians and Surgeons had pronounced them incurable, and after numerous Surgical Operations had been performed without success, and, in many instances, after life was despaired of by the medical attendants.

To individuals suffering under attacks of GOUT, RHEUMATISM, or LUMBAGO, CHEDDON'S PILLS will be found to afford almost immediate and permanent relief, and those who are constitutionally predisposed to suffer from these tormenting complaints will find that by having occasional recourse to their use they will ward off their frequent attack; for it has been found that persons previously subject to four, five, or more attacks yearly, have by the use of this medicine, reduced them to two, and to one, and feel assured that by persevering they will eventually remove it entirely from the constitution.

Mr. CHEDDON, feeling convinced of the importance of this Medicine to the interest and welfare of society,

recommends no family to be without it, and assures them that there is not any ingredient of an injurious nature in their composition, and that their use cannot be detrimental in the slightest degree to the most delicate constitution, and Children of the most tender age may take them in half the usual quantities. It is not requisite to make any alteration in Diet during their use, or for the Patient to neglect his usual occupation.

Mr. CHEDDON submits for Public Inspection the following Copies of Letters received by him from eminent Physicians and Surgeons, who are in the habit of prescribing his Pills; also from individuals who have derived relief and cure from this Inestimable Medicine, the peculiar properties of which are, that it expels disease from the human frame, without having any visible action on the body, or purging in the slightest degree, but by its benign and certain influence, increases the Appetite, invigorates the Constitution, re-establishes Good Health, and literally creates the animal economy anew. They may be taken under any circumstances by the most delicate individual, without the slightest apprehension from taking cold, or the least necessity for the Patient to refrain from pursuing his usual avocations, nor is the slightest alteration in diet requisite, only observing to adopt that which the palate relishes.

They are sold in Boxes at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each, Wholesale and Retail, at HANNAY and DIETRICHSEN'S General Patent Medicine Warehouse, 63, Oxford Street, London, whose name and address will, in future, be printed in the government stamp affixed to each Box, without which they will not be genuine; persons in the country who experience any difficulty in obtaining them, can procure them direct by writing to HANNAY and DIETRICHSEN, 63, Oxford Street, London, who will forward a 1s. 1½d. Box free of Carriage to any part of the Kingdom, in return for 1s. and a four-penny piece, sent post free; a 2s. 9d. Box, free for a Post Office Order of 3s. 4d.; a 4s. 6d. Box, free for a Post Office Order of 5s.; and an 11s. Box, free to any part for a Post Office Order for 12s.

“To Mr. CHEDDON, Bond Street, Feb. 10, 1834.

“SIR,—I return you my sincere thanks for the cure your Medicine has lately performed upon me; I had been suffering from severe pains in my back and loins and left side for many months, and had become much emaciated; apparently my whole frame was entirely worn out; from having been above fourteen stone I sunk down to nine and a half, when I began to take your Pills, which I found relief from after taking a few days, and by continuing them they restored me to perfect health. I consider my life was entirely saved by your Medicine; three Medical Gentlemen, whom I had the greatest confidence in, rather advised me not to trouble myself with Medicine, as they considered it perfectly useless. You are at liberty to make what use you think proper of this.

“I remain, your obedient servant,

“SAMUEL DAWSON.”

FOR COUGHS, COLDS, ASTHMA, AND CONSUMPTION.

MULREADDY'S COUGH ELIXIR.

dose is sufficient to convince the most scrupulous of the invaluable and unfailing efficacy of MULREADDY'S COUGH ELIXIR, for the cure of Coughs, Colds, Hoarseness, Shortness of Breath, Asthma, Incipient Consumption, Difficulty of Breathing, Huskiness, and unpleasant Tickling in the Throat, Night Cough, with pain on the Chest, &c.

The paramount superiority of this Medicine over every other Medicine in use, for the cure of the above complaints, only requires to be known to prove the passport to its being ere long universally made use of for the cure of every description of Pulmonary Affection.

PREPARED BY THOMAS MULREADDY, LIVERPOOL; AND SOLD ONLY AT DIETRICHSEN AND HANNAY'S PATENT MEDICINE WAREHOUSE, 63, OXFORD STREET, CORNER OF WELLS STREET, LONDON.

To prevent spurious imitations of this Medicine, it is requisite to observe it has the name and address of my Agents, "HANNAY AND DIETRICHSEN, 63, Oxford Street," printed in white letters at one end of, and forming a part of the Government Stamp, pasted round the outside of the wrapper of every Bottle, and without which it is not genuine.

To those who are unacquainted with the invaluable properties of MULREADDY'S COUGH ELIXIR, the following letters will exhibit its efficacy:

MY DEAR SIR,

You most assuredly deserve the thanks of society for presenting it with such an invaluable cure for Coughs. For years past, during the winter months, and always on foggy days, have I heretofore been compelled to confine myself a close and solitary prisoner in my library, to prevent the possibility of being tempted to join in conversation, the excitement of which always produced such violent paroxysms of Coughing, that I have been in constant dread of sudden dissolution by bursting a blood-vessel; at the commencement of the present season by your kind liberality I commenced taking the Medicine you sent, and after I had taken three bottles I could breathe as vigorously as in the early part of life, and I now believe that I was then perfectly cured—a cure not to have been expected at my advanced age—80 years;—but I persevered in taking it until I had consumed the whole twelve bottles. Your situation in life I know places you beyond the necessity of preparing an article of the kind for sale, but it must and shall be done, and if you neglect to do it, my sincere wish is, that you may be absolutely lugged out of your retirement, and compelled to provide it in quantities equal to the boundless waters, and you may rely upon it, that I, a locomotive proof of its wonderful power, will spare neither time nor trouble to promulgate its efficacy, until you will find your cottage attacked by myriads of my former fellow sufferers, for a share of your bounty, and I myself now apply for the first, trusting that your goodness will not suffer you to refuse me a pretty considerable quantity, and I promise to distribute it most usefully; whenever you have made it up for sale, send me one thousand bottles.

T. MULREADDY, Esq.

Ever your sincere well-wisher,

W. HUGHES.

RESPECTED FRIEND,

Thou hast my sincere thanks for thy Samaritan present; thy Medicine hath had the promised effect, and completely cured my trying Cough; if thou wilt let me have a quantity in a large bottle, I will in return enter thy name to any Charitable Institution thou wilt fix on.

T. MULREADDY, Esq.

Chester, 12 Mo., 1834

Thine,

JACOB ROBERTS.

DEAR SIR,—The effect of your Medicine in curing our children of the Hooping Cough, has been like magic, for which I, and Mrs. Wilson in particular, return our grateful acknowledgements, and the little W.'s shall not fail ere long to thank you in person. Rely on it, in our family you will be styled Doctor in future.

Believe me, yours, very sincerely,

J. WILSON.

DEAR SIR,

Manchester, Jan 2nd, 1835.

The Cough Medicine you sent me is certainly a most surprising remedy; six days ago I was unable to breathe, unless with difficulty, attended with much coughing, which always kept my soft palate relaxed, and in a state of irritation, and the more I coughed, the worse it was, and it, in its own turn, produced a constant excitement of coughing. I am now about, to the wonder of my friends and neighbours, entirely free from Cough; one small phial of your inestimable medicine ten years back, would have saved me not less than £3000, in medical fees; but it would have done more, it would have saved my having had to swallow from time to time upwards of a hog'shead of their nauseous, and as they all proved, useless drugs. The agreeable flavour of the medicine is a great recommendation; I think you ought to put it up, and sell it to the public, and if any one should doubt its efficacy, refer them to me. I shall have the pleasure of being with you in a few days, when I shall press on your consideration the propriety of making it up for sale: it would prove an enormous fortune for your grand-children. If you make up your mind to do so, as I am what the world styles an idle man, you may enlist me in your service, in any way that you think would be useful. But I should advise you to place the management in the hands of one of the great Medicine houses in London; Hannay's in Oxford Street, are being advertised in all the papers here as wholesale agents for Ramsbottom's Corn Solvent—which, by the bye, my girls all say is really a cure,—and many other medicines. I should say this would be a very good house, Oxford Street being one of the most public situations in London. All join me in kind remembrance to yourself and Mrs. M.

THOS. MULREADDY, Esq.

Believe me, yours, very truly,

ROBERT GRANT

MR. MULREADDY begs to observe that to publish copies of the whole of the letters he has received of the above tenor, would require several volumes; the selection here presented he considers quite sufficient, but begs to say that upon trial of his COUGH ELIXIR, it will give itself the best recommendation. It will be sold by his appointment, wholesale and retail, by his Agents, Messrs. DIETRICHSEN & HANNAY, 63, Oxford Street, London; and retail by every respectable Vendor of Medicines, in the Country, in Bottles at 1s. 1d., 2s. 3d., and 4s. 6d. each.

Mr. Mulready desires to return his sincere thanks to the numerous Medical Gentlemen, who, having tried his Elixir, recommended it to their Patients as the best remedy for the lingering and troublesome Cough that was so prevalent during the winter of 1836, with all those who had suffered from Influenza; but more especially to those Gentlemen who, with great liberality, have forwarded him certificates of its efficacy, with permission to publish them, but which, in deference to the general wishes of the Profession, he refrains from doing.

Purchasers should observe that it is wrapped up in white paper, on which, in a blue label with white letters, is printed the words, "MULREADDY'S COUGH ELIXIR," prepared by THOMAS MULREADDY, Liverpool, and sold, by his appointment, at HANNAY & Co's. Patent Medicine Warehouse, 63, Oxford Street, London, by whom Country Booksellers and Druggists are supplied, at the usual Trade Prices.

"TO PREVENT IS BETTER THAN TO CURE."

HANNAY'S

INFALLIBLE PREVENTIVE;

OR,
ANTI-VENEREAL SPECIFIC,

Discovered in the Year 1750, by that Eminent Chemist the late

SIR SAMUEL HANNAY, BARONET, M.P.,

Which has never failed in a single instance to prevent the communication of the above highly Injurious Disorder if used as directed, within eight hours after an impure connexion, has now stood the test of Eighty Years' trial with increased and increasing honour to its discoverer, and cannot fail to render his name Immortal to the remotest ages, and upon whom the British Parliament proposed to confer a National Grant for having produced the greatest benefit that Science had ever bestowed on mankind, but which, upon the question being put by the Chairman, he rose, and magnanimously declined accepting.

Long experience in every part of the civilized World having firmly and incontrovertibly established the reputation of HANNAY'S SPECIFIC, its universal adoption throughout the Navy and all the Camps and Garrisons during the Continental War, and its undiminished celebrity both at home and abroad, down to the present period, is its best eulogium, and renders it unnecessary for the Proprietors to make further observation than insert the following document, which is a copy of SIR SAMUEL'S Original Address to the Public on the Baronet's first Promulgating his discovery to the World, the contents of which the test of time has declared unimpeached.

"TO THE PUBLIC,

London, October 7, 1762.

"Nothing but the absolute certainty arising from the experience of years could induce me to put my name to an invention, which, from its very great importance to mankind, may raise doubts in the minds of some, with regard to its efficacy. But the many, various, and undoubted proofs, which have arisen from experiments, made to ascertain the Preventive Powers of what I now offer to the Public, enable me to pledge myself to the world, that it is Infallible in its operation, and, instead of its being hurtful, Highly Friendly to the constitution. My profession having led me to researches of this kind, I think myself extremely happy in being the means of putting, in time, an entire end to that cruel disorder, which has been the scourge of the human race for several ages. The nature of the subject will not permit me to expatiate upon it in a public paper; but as I flatter myself that I have some character to lose, I hope no one will do me the injustice to suppose, that I would, from the prospect of any profit, attempt to impose an inefficacious invention upon the public. By its own merit the thing itself must stand or fall; and should the honesty of the Inventor be doubted, his common sense might be trusted in a matter where, in case of failure, detection must immediately follow.

"In a paper round each bottle, particular directions for using the Lotion are given. It is only necessary to observe here, that the application is external, and need be used but once, that it has no visible effect upon the part, though its power is infallible; and no change of climate, nor length of time, can alter its quality or diminish its efficacy.

"SAMUEL HANNAY."

The SPECIFIC is sold in Bottles at 9s., 11s., and 22s. sterling, each, duty included,

By Messrs. HANNAY & DIETRICHSEN,

Successors to the late Sir Samuel Hannay, Bart., M.P.,

By whom it is forwarded, securely packed, to all parts of the World, on receiving a Cash remittance, post paid.

THE FRIEND IN NEED OINTMENT,

SOLD ONLY BY DIETRICHSEN AND HANNAY, 63, OXFORD STREET.

Sanctioned and Recommended by the Nobility, Clergy, Gentry, and Numerous Eminent Medical Gentlemen.

THIS Invaluable Ointment, the discovery of that able and Scientific Surgeon, William Carpenter, Esq., of Bristol extensively used by the faculty and families, as the most certain remedy for the Cure of Ulcerated Sore Legs, Chills breaking out in Children's Heads and behind their Ears, Sore or Inflamed Eyes, Burns and Scalds, Chapped Hands, Eruptions of every description, Cancerous, Scrofulous, or Indolent Tumours, Enlargement of the Glands, White Swellings, Bruises, Ringworm, Scurvy, &c., &c.

The advantage possessed by this Ointment over all others is, that it will not heal up the surface of a wound, leaving it of matter; but it will first bring all the matter to the surface, and finally heal it without its breaking out again. The following certificates, selected from some hundreds, will satisfy every one of its decided superiority:

"Dr. Clarke has used the FRIEND IN NEED OINTMENT in about thirty-five cases that have come under his care, and is of opinion it will cure those Complaints for which it is recommended SOONER and with more certainty than any application he has ever tried or heard of; he can therefore confidently recommend it.

"London, Feb., 1837."

"Sir,

"I shall feel obliged by your sending me half a dozen pots of the Friend in Need Ointment; my little girl has received great benefit from it. The Scorbutic Humour, which she has been so long afflicted with, has entirely left her. I should certainly recommend you, as an act of justice to yourself and the public, to make it generally known, and as a cure for those terrible complaints, the Ringworm and Scorbutic Humours.

"I am, yours, &c.

"Carlisle Place, Lambeth."

"EDWARD DAY.

The Proprietors feel convinced the above are sufficient to satisfy the most incredulous of its extreme healing powers, when other remedies have failed, and will induce private families to keep a Stock of the Friend in Need by them.

The Friend in Need Ointment is sold only in Pots with covers, at 1s. 1½d. and 2s. 9d. each; but from the reputation it has acquired, it is imitated in various ways, it is therefore requested to observe, that unless it has the words "Hannay and Dietrichsen, 63, Oxford Street," printed in white letters in the Government Duty Stamp pasted on each pot, it is not genuine. H. and D. will forward a 1s. 1½d. Pot, carriage-free, upon a receipt of a remittance of 2s., or a 2s. Pot, carriage free, for 4s. 6d., to any part of the Kingdom.

Dr. Denman's Tonic Pills,

FOR immoderate secretions and female weaknesses, prepared from a prescription of the late Dr. Denman, an eminent physician accoucheur, and obstetric professor, need only a fair trial to convince the most sceptical of their efficacy in combating these formidable diseases, which, if not arrested as soon as the premonitory symptoms supervene, lay the foundation of that fatal malady consumption, so truly considered the "OPPROBRIUM ARS MEDICORUM."

Dr. Denman's Pills are a safe and elegant preparation; they give tone and vigour to the extremities of the secretory vessels; they do not require confinement during their administration, or restraint of living; on the contrary, the patient should be generous, but not stimulating, all vinous and fermented drinks being avoided.

It is universally acknowledged that immoderate secretions prove as injurious to the female constitution as permanent obstructions, consequently in cases which have not had early attention, and where there is great prostration of strength combined with general emaciation of the body, nothing has proved so efficacious in giving speedy relief to these distressing complaints, as Dr. Denman's Tonic Pills, and numerous instances might be given (by permission) but it is thought unnecessary to publish them. The symptoms usually attending these formidable complaints, are weakness and pain in the small of the back, attended with a paleness of the face, with, sometimes, a greenish tinge of the complexion, loss of appetite, indigestion, nausea, fainting, palpitation of the heart, and disturbed respiration, the eyelids becoming swollen and tumid.

This invaluable medicine may be administered to females of any age with perfect security; it allays all local irritation, gives tone and vigour to the constitution, purifies the system, and is particularly applicable in all cases of relaxation and debility of the system, being the only medicine on sale calculated successfully to combat the relaxation induced by residence in the East.

They are sold in boxes at 2s. 9d. each, and in bottles, for taking abroad, at 11s. and 22s., and no lady should this proceeding to a tropical climate without, at least, one bottle of this invaluable medicine.

Messrs. Hannay and Dietrichsen, 63, Oxford Street, London, are appointed the exclusive Agents for the sale of Dr. Denman's Tonic Pills, purchasers will therefore please to observe, that they cannot be obtained elsewhere. H. & D. will forward a box of them, free of carriage, to any part of the kingdom, on receipt of a post-office order for 3s.

Dr. Kitchener's Ginger Lozenges.

THESE Lozenges, faithfully prepared from a Receipt of the late Dr. Kitchener, so celebrated for his writings on Domestic Economy, are the strongest preparation of Ginger in a solid form extant, and will be found extremely beneficial in all cases of Nervous and Hypochondriacal Affections arising from Flatulence, attended with Cholice, Cramp, Spasm, Wind in the Stomach, &c., and they will be found a most valuable acquisition to Travellers; a few of these Lozenges taken occasionally will sustain nature a much longer period against the effect of cold than any other stimulant. The efficacy of Ginger is so well known, it is unnecessary to expatiate on its properties further than by observing that it is not productive of those ill effects consequent on the use of those spices whose virtues reside in an acrid oil.—In Boxes, price 1s. 1½d.

WEIR'S DIGESTION POWDERS For the cure of Indigestion in all its Forms, Bile, and Stomach complaints, Headache, Heartburn, Flatulency, and all other Consequences of Indigestion.

Indigestion is one of the most common diseases to which persons are liable. It consists in a want of appetite, flatulency, heartburn, pain in the region of the stomach, and several nervous symptoms, which vary much in different cases. The restoration of tone to the stomach, and the general system, and the immediate removal of the painful symptoms of the disease, are therefore the objects to be sought in its cure. These Powders, which have had an extensive and most successful trial, are confidently recommended for those purposes; they mix and assimilate with the food, and may be taken in any quantity without injury, as they contain no Calomel or other preparation of Mercury, Antimony, or any noxious material. Sold in Packets at 1s. 1½d., and Bottles at 10s. each, by Dietrichsen and Hannay, 63, Oxford Street, who purchased from the inventor the sole right of making this Powder; every Packet will therefore be authenticated by their name and address printed in the Government Stamp affixed to each.

ALBERT RAU'S CELEBRATED GERMAN OINTMENT

FOR THE CURE OF RHEUMATISM.

Prepared and Sold only by DIETRICHSEN & HANNAY, 63, Oxford Street, London, who have purchased the Recipe and the sole and exclusive right to compound and sell the same.

Of the various diseases which afflict the human body, none are more distressing or difficult to cure than the Rheumatism and Gout; and the Medical profession and others have in vain essayed to discover a curative process which shall subdue those painful maladies without making inroads on the constitution. The want of success in those essays is to be attributed principally to the mistaken notions formed as to the cause of the diseases; but at last the celebrated Albert Rau, of Germany, adopting the opinion of some of the most eminent professional men of his native country, invented an Ointment which rarely fails to eradicate both Rheumatism and Gout. The opinion alluded to is, that the diseases are produced by coagulated blood, occasioned by various causes, and which, having to pass through the small veins near the bony parts of the human frame, creates partial obstructions; and swelling in pain, varying in intensity, are the melancholy consequences. The internal use of the colchicum and other powerful drugs does sometimes effect cures, but taken in such a form they must get into the system before they can act on the particular seat of disease, and the effects are too frequently of a very serious nature. Rau's Ointment, which has long been in general use throughout Germany, and is now gaining great celebrity in Great Britain, is composed of the most harmless ingredients, and the mode of using it is simple and effectual, as it at once attacks the parts affected without interfering with the stomach or intestines. The Ointment is introduced by being rubbed in externally on the seat of pain, and goes directly to remove the evil by dissolving the obstruction, effecting a cure in a very short time, one or two pots being sufficient to produce the desired effect. Numberless testimonials of the efficacy of the remedy could be given, among which are the following;

"Writtle, near Chelmsford, 15th June, 1839.

"Sir,—For a number of years past I have suffered from Rheumatism to that degree, that I have been frequently confined to my bed, and hardly ever able to attend to my business. I have tried almost everything without any beneficial result. On Sunday morning last, I sent for a pot of your Ointment, and applied it on the same day, and in the afternoon of that day I found such relief, that I was utterly astonished, and was able to walk up stairs, which I had not been able to do without pain for many months. I have since continued the application, and am able to attend to my work, and, in fact I am not only relieved from pain in my limbs, but I feel much better in my constitution; and I do with gratitude tell you that I am entirely relieved, and feel anxious in giving the greatest publicity to this fact, that the world generally may be benefitted in the way that I have been, as it is the most astonishing cure that can possibly be communicated, my having used the Ointment only two days.

"I am, Sir, yours very gratefully,

"W. STOKER."

"Union Yard, Conduit-street, Chelmsford, 18th June, 1839.

"Sir,—After an affliction of five years with that dreadful disease the Rheumatic Gout, during which period I tried every thing recommended to me without effect, and as I grew older the disease increased till I was incapable of following my occupation, and about a fortnight since I was totally unable to move my feet from the chair without assistance. In this state I was advised to try your German Ointment, and not being very sanguine that I ever should discover a cure, I was astonished to find that in two days I got better, and have continued to improve daily; and have now the happiness to say that I am able to attend to my business again, and I feel so much indebted to you for being instrumental in my recovery, that I am bound by every tie of gratitude to offer my most sincere thanks and best wishes for your future welfare.

"I am, Sir, your obedient and very grateful servant,

"To Mr. ALBERT RAU."

"W. NEWCOMB, Carpenter."

"Chelmsford, June 22d, 1839.

"Sir,—I am induced to address you upon the subject of your truly valuable German Ointment, the efficacy of which I have so recently experienced, I have now been afflicted with that distressing complaint the Rheumatism for upwards of 18 months, and consequently incapable of work; I have also sought and obtained the advice of several medical men, but unfortunately without relief. Having been recommended to make trial of your Ointment, I was induced to use two pots, which have so far effected a cure as to admit of my resuming my avocation. I feel bound, sir, to make this acknowledgment of the virtues of your Ointment, and to subscribe myself,

"To Mr. ALBERT RAU."

"Your grateful Servant,

"FREDERICK PRENTICE."

"St. Alban's, 22nd April, 1839.

"Sir,—I feel it a duty to myself and mankind to certify the virtues of Albert Rau's celebrated German Remedy, for the Cure of Gout and Rheumatism. My niece, Miss Maria Wilkins, was a fortnight ago dreadfully afflicted with a Rheumatic Fever, so that we were obliged to carry her up and down stairs; yes, she was not able to move a limb! the use of your Ointment has entirely restored her, and she is quite cured now. Incredible is it to myself the benefit which resulted in such a short time. Three days ago I had a fit of the Gout, which obliged me to go to bed; I only applied the Ointment once, and I declare not to have had the least suffering since. I will be most happy to contribute as much as is in my power to give publicity to the above, that other sufferers may be enabled to be relieved of their complaints.

I remain, &c.

"To Mr. ALBERT RAU."

"C. BENNETT, Landlord of the Red Lion, St. Alban's."

"Redburn, 25th January, 1839.

"Sir,—I hasten to express my gratitude for your kind assistance in relieving me of the dreadful pain I was suffering for several years, after trying both medical advice and many medicines for Rheumatism. On the first application of your Ointment I found great relief, and am now quite relieved of the sufferings I had before endured. As I used the pot you gave me, and allowed me to apply as often as I should meet with poor people afflicted with Rheumatism, I pray you be so kind as to send me another pot; there is a poor man here who has lost entirely the use of his limbs, and I hope the use of your Ointment may do him as much good as it did to myself.

"To Mr. ALBERT RAU."

"I remain, &c.

"JOSEPH NELSON WARNER."

Portsmouth, September 11, 1839.

"Sir,—For four years I have been a sufferer from Rheumatism and Rheumatic Gout, and was totally unable to perform any work during that period. I have had the advice of several medical men in Portsmouth, but I experienced no relief from them. I was some time in the Hospital at Colchester, from which place I was discharged as incurable. Having been recommended to try your German Ointment, I procured a pot, from which I experienced much benefit, and in the course of eight days, I was able to return to my employment, and have continued well ever since. I am now able to procure my regular sleep at night, which blessing I have been for a long time deprived of, and for which I feel myself indebted to your valuable remedy.

"To Mr. ALBERT RAU."

"I remain, Sir, your obliged servant,

"THOMAS OVENHALL."

Composition Pedals 10.

This stupendous Instrument, when finally completed by the addition of the Choir Org Double Open Diapason (32 feet) and Contra Trombone (32 feet) on the Pedal Organ, will respect the largest in London.

The Organ erected last year in St. Michael's Church, Chester Square, by Messrs constructed upon the same principle as the above, consisting of three sets of Manual Stops, and separate Pedal Organ.

NEW ORGAN.

(From a Correspondent.)

On Friday evening the capabilities of a grand organ, built by Messrs Robson, the eminent organ builders of St. Martin's Lane, were tested by Mr. E. J. Hopkins, the talented organist of the Temple Church. The organ has been designed with a special object to embody as many of the finest features of the Continental and English instruments as could conveniently be introduced. There are two complete manual organs, and an independent pedal organ. The compass of both the former is from C to C in altissimo (sixty-one notes). The great organ contains sixteen stops; among which may be noticed a double open diapason in metal throughout, this being the first *complete* stop of the kind that has been made in London.

The largest pipes stand in the side towers of the case, and give to the instrument a most majestic appearance. The diapasons in the great organ, of which there are five, are full, sonorous, and of a particularly even quality; the mixtures (altogether eight ranks), are bright and ringing, without being cutting or *steely*, while the double open diapason is weighty, dignified, and impressive. Its pure and smooth sounds could be distinctly traced through the weight of the unison work, and the brilliance of the superstructure. The swell department of this instrument (containing twelve stops) is unusually successful. Subdued, yet broad and massive, as its tone is when perfectly closed, the flood of musical sound augments gradually, but very perceptibly as the *shades* of the swell-box are opened, or subsides by equally corresponding degrees as they close again. In the swell we again meet with a feature of which the like has not before been erected in London—namely, a double trumpet in metal down to the sixteen-foot note. This produces a most gorgeous effect when combined with the “full swell.” The solos on both manuals very closely resemble their prototypes, particularly the hautboy, clarionet, and flute, which forcibly reminded us of the corresponding stops of the apollonicon.

The pedal gam, however, is perhaps to be considered *the* feature of this instrument. This division (to quote from the printed account) “is too often limited, and consequently defective either in range, number of stops, or *both*.” In this instance, however, there are no less than *nine* stops disposed on this department, including reed stops of sixteen, eight, and four feet, as in the celebrated organ at Dresden. In addition to this, there is an octave coupler (the pedal organ being extended to forty-two notes), through the instrumentality of which an equivalent to eighteen pedal stops is gained. The effect of this in the pedal fugues of Bach and the “Polypheme” Chorus of Handel, was prodigious. In a word, the *tout ensemble* of the instrument is particularly grand, filling the ear with a rich, voluminous, and equally balanced volume of tone, free alike from

all metallic, woody, and harsh effects; and it may safely be pronounced to be one of the finest instruments produced, even in the present very advanced state of the art, and fully sustains the reputation of the Messrs. Robson's establishment. The selection chosen by Mr. C. Hopkins for displaying the varied powers of this noble organ, consisted of selections from the works of the great masters. We regret that want of space prevents our giving a detailed analysis of the performance; we cannot, however, refrain from noticing the interpretation of the two elaborate and florid pedal fugues of Sebastian Bach, particularly as the instrument at which Mr. Hopkins usually presides (that in Temple Church) is so very deficient in the two important particulars of pedals and pedal organ. The rendering of the Symphonies of Mozart and Weber's glorious Overture to Oberon (considered to be the gem of the evening, and which narrowly escaped an encore), is also worthy of note. In the performance of these Mr. Hopkins did not merely exercise a perfect mastery over the executive difficulties of these compositions, but also an intimate acquaintance with the instrumental scores of the works, as was evinced by the faithful portraiture of the leading features as they occurred. Handel's three charming songs—“Hush ye pretty warbling Choir,” “Verti Prati,” and “Who layeth the beams,” &c., gave good scope for the display of the stops. At the conclusion of the performance, Handel's “St. March” was called for, with which request Mr. Hopkins readily complied. Indeed, the whole performance clearly indicates Mr. Hopkins to be not only one of our first organists, but a true lover of the poetry of his art, and a musician of no ordinary stamp. The rooms were densely crowded by a highly respectable audience, who separated evidently much gratified with the evening's entertainment.

[We are enabled to supply the programme of the performance, which is well worth the space it occupies]

PART I.—Andante and Allegro (1st Symp.), Mozart.—Movement from the Concerto, Corelli.—Kyrie Eleison (2nd Mass). Haydn.—Prelude and Fugue, in D, S. Bach.—Hush, ye pretty warbling Choir (Hautboy and Flute); Wretched Lovers, Handel.—Verti Prati (Clarinet Solo), Handel.—Pignus Futuræ (Litaney), Mozart.
