URBAN DISTRICT COUNCIL OF ADWICK-LE-STREET

Public Health Department,
Council Offices,
Village Street,
Adwick-le-Street,
July, 1961.

To the Chairman and Members of the Adwick-le-Street
Urban District Council.

Mr. Chairman and Gentlemen,

I have pleasure in submitting my Annual Report on the health of the inhabitants and the work of the Health Department for the year 1960.

As in previous years, I have included a shortened report on the personal health services carried out in the district under my supervision on behalf of the West Riding County Council and added explanatory comments.

I would like to express my appreciation to Mr. Senior, the Public Health Inspector, who has been responsible for the writing of the second part of this report on the sanitary circumstances of the area, and the staff of the Health Department for their valued help and co-operation, and also to all members, professional and clerical, of the staff of the Divisional Office.

In conclusion, Mr. Chairman, may I thank you and all members of the Council for your help and courteous reception throughout the year.

I have the honour to be, Gentlemen,

Your obedient Servant,

J. FERGUSON,

Medical Officer of Health.

COMMENTS ON VITAL STATISTICS

Population and Birth Rate

The Registrar General's figures show a slight increase in the population, from 18,580 to 18,620.

The Birth Rate shows a very slight decrease compared with 1959.

There were 23 illegitimate births compared with 15 in 1959. The Moral Welfare Committee of the Archdeaconry of Doncaster and Rotherham continues to be most helpful in these cases and arranges, with financial assistance from the West Riding County Council, accommodation for unmarried mothers in their Church Homes, when requested.

Premature Births

A table is appended showing details of the premature infants born in the area.

| Birth Weight | Total Born | | | | No. who died under 28 days | | No. who Survived 28 days |
|--------------|------------|-------------|---------|-------------|----------------------------|-------------|--------------------------|
| | Dead | | Alive | | At Home | At Hospital | |
| | At Home | At Hospital | At Home | At Hospital | | | |
| Under 3 lbs | — | — | — | 1 | — | 1 | — |
| 3 - 4 lbs | — | — | 3 | 5 | 1 | 1 | 6 |
| 4 - 5½ lbs | — | 1 | 6 | 10 | — | — | 16 |
| Total | — | 1 | 9 | 16 | 1 | 2 | 22 |

Death Rate

The Infantile Mortality rate shows a decrease from 43.8 in 1959 to 28.4 in 1960 per 1,000 live births. The tables show that four occurred in the first week of life.

The number of deaths was decreased by 18 bringing the total deaths for 1960 to 190 giving a crude death rate of 10.2. There were 30 deaths from Cancer compared with 37 in 1959 and of these 7 males and 2 females compared with 4 males and 1 female in 1959 died from Cancer of the Lungs. Heart diseases and associated diseases continue to be the commonest cause of death, there being 64 such cases in 1960 compared with 50 in 1959. There were 2 deaths from Tuberculosis compared with 4 in 1959.

There was no death associated with childbirth.

2. MATERNITY SERVICE

As more General Practitioners book maternity cases and carry out ante-natal examinations in their own surgeries there is a corresponding reduction in the number of attendances at Local Authority clinics where a medical officer is in attendance.

Continued co-operation is maintained with General Practitioners and as each relaxation and health education class is commenced practitioners are now notified in addition to personal visits from Midwives and Health Visitors.

Where practitioners hold ante-natal sessions in their surgeries midwives are in attendance, if duty permits.

(e) **Maternity Home Accommodation**

There was an increase in the allocation of social bookings to twelve per month which enabled most requests for maternity home confinements to be satisfied. Almost all such bookings are given to women expecting a first baby and living in rooms.

3. **HOME NURSING**

The Home Nursing Service was fully staffed during the year, and is now adequate for all demands on this service. The nurses work under the direction of the general practitioners, and the tables show an increasing use of this service. Increasingly home nursing is required for the aged chronic sick, and this not only requires skilled nursing, but also taxes the physical strength of the nurses.

4. HOME HELPS

This division has been allocated the equivalent of 27.25 full time home helps, plus the equivalent of 0.5 full time home helps from the central pool. During the year 86 part time home helps were employed, and the accompanying table shows the work done. This service, together with the other health services, e.g., Home Nursing and visits by Health Visitors plus the increased provision by the Local Authority of aged persons bungalows and flats and the Wardens' Scheme (of which details appear in a later paragraph) result in many an aged sick person remaining in their own homes as they so earnestly desire to do.

6. **WELFARE OF THE AGED**

The main function of the Committee for the Welfare of the Aged, sponsored by the Adwick-le-Street Council, which consists of members of that authority together with persons interested in the aged, is the Chiropody Service.

Chiropody Service

This service is now held at Woodlands and Carcroft Child Welfare Centres and Highfields Welfare Hall, and is greatly appreciated by the old folks who are thus enabled to get about in comfort.

The attendances during the year are given below:—

| | Woodlands | Carcroft | Highfields |
|------------------------------|-----------|----------|------------|
| No. of clinics held ... | 77 | 52 | 5 |
| No. of persons attended ... | 190 | 105 | 39 |
| No. of treatments given ... | 591 | 374 | 39 |
| No of domiciliary treatments | 50. | | |

In addition to aged persons, this service has been extended to expectant mother and physically handicapped persons and is a free service to all.

Warden Scheme

Two wardens have been appointed to the Carcroft/Skellow area and two to the Woodlands area and these wardens continue to carry out their duties efficiently and conscientiously. Each warden has a list of duties and conditions and reports are submitted to the Health Department of anything required to improve the well being and comfort of these old people. In an emergency the warden can seek medical advice and each has a telephone installed in her home. A simple card index system is kept for each person, showing next of kin, religion and any special notes.

The County Council have now agreed to the erection of a recreation room with a wardens flat above to serve the aged of Carcroft and Skellow.

Cleanliness Inspections

During the year routine cleanliness inspections were carried out at every school in the Division by the School Nurses, and a total of 18,781 inspections and re-inspections were made 898 pupils were found to be infested, but in the majority of cases infestations were slight.

Treatment and advice is given by School Nurses; no Statutory Notices were issued during the year.

SPECIAL EXAMINATIONS

School Children

In accordance with the requirements of the Education Act, 1944, and the Children and Young Persons Act, a number of children were referred by the Education Department which necessitated special examination. During the year 336 such children were seen with the following recommendations:—

| | |
|---|-----|
| 1. Admission to Special School for Maladjusted Boys | 3 |
| 2. To remain on Register of handicapped pupils ... | 3 |

8. MENTAL HEALTH SERVICE

The Mental Health Act, 1959, came into operation in November, 1960.

The effect of this Act is:—

(a) To alter the classification of mental disorders and the methods of admission to hospital,

(b) to emphasize the importance of retaining within the general community, whenever possible, persons who are temporarily or even permanently disordered and

(c) to emphasize the importance of rehabilitation and after care.

Mental Welfare Officers

Three mental welfare officers have been appointed to this Division and Division No. 29 (Thorne) and General Practitioners have been notified as to their availability during the day and of the rota for night duty and weekends.

So far the scheme is working smoothly and the change over has caused very little difficulty.

Training Centre

The pupils at this centre are conveyed by three buses from the surrounding areas and a mid-day meal is provided through the school meals service.

The Christmas Concert and open days were well attended by parents and friends, and there was a general expression of appreciation of the work carried out at this centre by a very enthusiastic staff.

The main activities in the senior section are rug making, simple carpentry, gardening and basketwork. In the junior section the activities are in the main speech training, singing, music, dancing, handicrafts, physical training and table manners.

9. SPEECH THERAPY

The services of a Speech Therapist are available for this division one and a half days per week. There is a shortage of such teachers and in the limited time available for this area much important work is carried out.

10. AMBULANCE FACILITIES

This scheme is still operating satisfactorily. There is a free ambulance and sitting car 24 hour service for everyone. The vehicles are stationed at Yarborough Terrace, Bentley, and are available on request from doctors and nurses, or from the general public in emergency.

11. SPECIAL EXAMINATIONS

Throughout the year special examinations are carried out for the Council of all staff (officials and workmen) who commence work for the Council. Medical examinations and consultations are also held with members of the staff who have prolonged absence with sickness.

Similar examinations are carried out for the West Riding County Council, and also of intending teachers prior to admission to college.

SECTION C

SANITARY CIRCUMSTANCES OF THE AREA

1. Water.

This District has representatives on the Don Valley Water Board. The water supplied to the whole of the area is sufficient and wholesome.

2. Rivers and Streams

The Mill Stream and the Ea Beck flow through the area.

3. Drainage and Sewerage.

The effluent from the sewage works continues to be classified as satisfactory. With the erection of the new Council Houses, the capacity of the existing sewage works is now reaching its maximum.

4. Scavenging.

This is carried out by the Council's Acting Surveyor. Refuse is tipped on land adjoining the Sewage Works, the Ea Beck at Bentley Moor Lane and Crossfield Lane.

5. Rainfall and Temperature.

Your Acting Surveyor, E. A. Daubney, Esq., has kindly supplied me with a copy of the recording of rainfall and temperature throughout the year.

| Month | RAINFALL | | TEMPERATURE | | | |
|------------------|-----------------|-----------------|-------------|------|------|------|

The wettest day of the year was Friday 29th January, with a rainfall of 1.7 inches, the hottest days were Monday 6th June and Wednesday 22nd June, with a temperature of 88 deg. F and the coldest days were Thursday 14th January and Thursday 18th February, with a temperature of 20 deg. F.

6. **Offensive Trades.**

Fish Frying — There are 11 shops in this area and 15 inspections were made.

Knackers Yard — None in the area.

Common Lodging Houses — None in the area.

7. **Schools**

There are seven primary school departments, two secondary modern schools, and one grammar school. In addition, the R.C. school is an all department school.

No schools were closed during the year.

There are five school canteens in the area.

HOUSING

One hundred and thirty-two houses were built in this district during 1960, and seventeen demolished (Slum Clearance). The number of houses in the various wards are:—

Tuberculosis.

No action was taken under the Public Health (Prevention of Tuberculosis) Regulations, 1953 or under Section 172 of the Public Health Act, 1936.

There were 2 deaths attributed to Tuberculosis during the year, giving a death rate of 0.11 per 1,000 population.

The number of cases in the Tuberculosis Register at the 31st December, 1960, compared with the previous year was:—

| | 1960 | | 1959 | |

Care and After Care of Tuberculosis.

A special Committee for this purpose has been established for some years. The Committee consists of lay members and representatives of the Medical Officer of Health in Doncaster and District. Financial assistance is given to the Committee by the West Riding County Council and the Doncaster County Borough.

It has been possible to help many cases with clothing, bedding, etc. This Committee carries out most useful work, and the advice of the special Health Visitors for Tuberculosis is always available.

The Tuberculosis Health Visitor continues to prove a most valuable link between the Consultant at the Chest Clinic and the Medical Officer of Health. Background reports are submitted to each officer, and this home visiting enables the Chest Physician to be assured that his advice is being carried out.

The County Council also provide free milk up to two pints per day to cases recommended by the Tuberculosis Officer.

J. FERGUSON,

Medical Officer of Health.

URBAN DISTRICT COUNCIL OF ADWICK-LE-STREET
ANNUAL REPORT OF THE PUBLIC HEALTH INSPECTOR
W. SENIOR, M.A.P.H.I.
FOR THE YEAR 1960

To the Chairman and Members of the Urban District Council of
Adwick-le-Street.

Gentlemen,

I have pleasure in submitting my annual report for 1960, in which are set out details of inspections made and notices served, both informal and formal, under the provisions of the several Acts of Parliament, and ministerial Regulations, which empower Local Authorities to carry out their duties. Details of work carried out as a result of services of notices are also recorded.

HOUSING

(a) **Slum Clearance** — of the twenty two houses in the six confirmed Clearance Areas fifteen are now demolished.

With regard to the four houses in the two unconfirmed Clearance Areas one has been demolished and three reconditioned.

One individually unfit house was demolished.

(b) **Repair of Defective Dwelling Houses** — During the year fifty-six houses have been repaired of which fifty were repaired as a result of informal representations.

One of the difficulties encountered in getting repair work carried out is the scarcity of certain materials and tradesmen. The District is widely affected with coal mining subsidence.

(c) **Overcrowding** — Although a large number of houses have been built since the war and the population is not as large as it was before the war there still remains a few individual cases of overcrowded dwelling-houses.

RENT ACT, 1957

Two applications were received for Certificates of Disrepair and in each case the Owners agreed to carry out the work within the time allowed.

TENTS, VANS, SHEDS AND SIMILAR STRUCTURES

We have been fairly successful in keeping the district clear of this kind of dwelling. There are times when itinerant van dwellers camp on grass verges on the outskirts of the district for a few days and create a nuisance because of lack of sanitary accommodation.

AIR RAID SHELTERS

Throughout the year a continuous stream of complaints are received about domestic, communal and underground, air raid shelters. It is complained that the shelters are used as public conveniences and as refuse dumps, that they are unsightly and detrimental to the amenities of the district, and that they obstruct natural lighting. All these allegations have been verified.

At times the tenants of houses, in whose gardens the shelters were constructed, have themselves demolished or partially demolished the shelters in self-defence. It is only then that authority can be obtained to complete demolition and re-instate the site.

RODENT CONTROL

This service has continued satisfactorily throughout the year and is much appreciated. All the sewers have been tested and found clear of rats.

Infestations discovered on survey or as result of a complaint have been treated. There has been a large increase in rat population in the neighbourhood of the road reconstruction works which has called for special measures.

The number of inspection and treatments is set out on the last page of this report.

WATER SUPPLY

Although the water supply is obtained from the Don Valley Water Board, water samples are taken from each District on occasions for examination.

During the past year 19 samples were taken and all were found to be satisfactory.

COLLIERY SPOILBANKS

The Selby Road Spoilbank was found to be on fire during the year and the National Coal Board were asked to bring the fire under control. The problem was aggravated by the development of a coal bank in close proximity to it, which also showed signs of heating.

MEANS OF ESCAPE IN CASE OF FIRE

In the report for 1958 reference was made to the Councils responsibilities, under the Factories Acts, with regard to means of escape in case of fire in factories, also, to section 59 of the Public Health Act, 1936, which deals with Exits and entrances etc., in the case of certain public and other buildings and to Section 60 of the same Act, which deals with means of escape from fire in the case of certain high buildings.

All the outstanding matters in connection with this work have now been dealt with.

AGRICULTURE

(SAFETY, HEALTH & WELFARE PROVISIONS) Act, 1956

During the past year a survey of agriculture holdings with regard to sanitary conveniences, washing facilities and first aid equipment, was carried out.

There are nine farms and eight smallholdings in the district. The eight smallholdings being under the control of the West Riding County Council.

The Act refers to agricultural units on which workers are employed. In the case of the smallholdings no workers, other than the occupiers, are employed. The dwelling-house in connection with each smallholding is provided with an outside water closet and inside washing facilities.

With regard to the nine farms it was found that six of them had closet accommodation additional to the accommodation provided for the farmhouse. In four of these six cases the accommodation consisted of an outside water closet and in the other two cases an outside pail closet. In the remaining three farms one male worker only is employed in each case and a water closet is available either at the farm or at the agricultural workers homestead which is quite near in two instances.

As regards washing facilities it was found that these were available in outside wash houses in three cases and in farm kitchens in six cases.

It was found that at all farms where agricultural workers are employed first aid equipment was provided. It would appear that this matter has been discussed at a farmers union meeting because the equipment provided is identical in each case.

ICE CREAM (Heat Treatment Etc.) REGULATIONS, 1947-52.

The Regulations broadly require that, subject to certain qualifications, the ingredients of ice-cream shall be heat-treated after being mixed, and that the mixture shall then be cooled until the freezing process has begun. After freezing, the ice-cream must not be sold unless it has been kept at a temperature of not more than 28°F, or if its temperature has risen above 28°F, unless it has again been heat treated and then kept at not more than 28°F after being frozen.

In the circular accompanying the regulations it is stated that as yet no test has been devised, the reliability of which is sufficiently established to justify its use as a statutory test, non-compliance with which would constitute an offence. However, attention is being drawn to a form of methylene blue test, and it is suggested that if out of the four grades recommended ice-cream consistently fails to reach Grades 1 and 2, it would be reasonable to regard this as indicating defects of manufacture or of handling which calls for further investigation.

Of the 88 ice-cream samples taken:—

74 or 84.09% samples were in Grade I—Satisfactory.

14 or 15.90% samples were in Grade II—Satisfactory.
