Annual Report of the Medical Officer of Health

For the Year 1940.

1941

Public Health Department,
Cornhill House,
Alfreton,

June, 1942.

*To the Chairman and Members of the Urban District Council
of Alfreton.*

Ladies and Gentlemen,

I have the honour to present to you my Annual Report for the year 1941, and those of the Chief Sanitary Inspector and Surveyor.

I have been instructed by the Ministry of Health to omit certain information given in previous Reports on grounds of national safety, and to confine the Report to essential and urgent matters which have affected the public health during the year. Selection of suitable matter is not easy, but I trust that I have been able to give you useful information within the scope of my instructions.

SECTION A.

Statistics and Social Conditions.

Area in acres: Land, 4,947; Water, 49; Total, 4,996.

Rateable Value: Alfreton, £88,443; Codnor Park, £3,355; Total, £91,798.

Sum represented by a Penny Rate, £355 (net))

Vital Statistics.

	For Infant Mortality, etc.			For Birth Rate.		
	M.	F.	Total.	M.	F.	Total.
Live Births—Total ...	199	151	350	199	150	349
Legitimate	193	145	338	193	144	337
Illegitimate	6	6	12	6	6	12
Still Births—Total ...	7	9	16	7	9	16
Legitimate	7	9	16	7	9	16
Illegitimate	0	0	0	0	0	0

Deaths of Infants under one year of age:

	M.	F.	Total.
Total ...	8	6	14
Legitimate ...	8	6	14
Illegitimate ...	0	0	0
Deaths, all ages ...	119	118	237

						Rate per 1,000 total (live and still) births.
Puerperal cases	6			24.17
Deaths from Cancer	Deaths. 35
" " Measles	0
" " Whooping Cough	2
" " Diarrhoea (under two years of age)	1

The number of births has fallen from 312 to 237.

The number of deaths under one year has fallen from 21 to 14.

The population is estimated to have increased.

Social Conditions of the Area.

Chief Industries:—Coal Mining, Iron Foundries, Chemical Works, Agriculture, Textiles, Railways.

SECTION B.

General Provision of Health Services for the Area.

No change.

SECTION C.

Sanitary Circumstances of the Area.

These matters are dealt with in the Reports of the Sanitary Inspector and Surveyor.

SECTION D.

Housing ; Housing Statistics.

SECTION E.

Inspection and Supervision of Food.

See Sanitary Inspector's Report.

SECTION F.

Prevalence of, and control over, Infectious and other Diseases.

Except that 31 cases of Measles instead of 650 were reported, the incidence of Infectious Diseases does not suggest any marked change or suggest the effects of any abnormal influences.

There was an increase of Whooping Cough—part of the epidemic which has since been general.

Cerebro Spinal Fever: 6 notifications represent a total of 21 less than in 1940, with no deaths.

Pneumonia increased from 29 to 43, with 8 deaths, figures which are of an order similar to those of previous years.

Diphtheria: 28 cases, with one death. No significant change.

Tuberculosis: 15 cases were reported—8 Pulmonary, 7 other forms, with one death from Pulmonary causes.

During the year the following number of children were immunised against Diphtheria:—

Age under 5 years.	Age 5 years and over but under 15.	Total.
333	1,425	1,758

Infectious Diseases.

SURVEYOR'S REPORT.

The following particulars relate to the year 1941:—

Water Supply.				Gallons.
Supplied by the Derwent Valley Water Board ...				90,988,000
Pumped from Lea Hall Borehole	86,938,000
„ „ Lindway „	9,428,000
Supplied from impounding reservoirs	60,644,000
Total ...				247,998,000

The daily average was 679,447 gallons, or 15,393 more than the average of the year before.

The following figures relate to the year ended 30th September, 1941, and are based on the assumption that the population supplied by the Council is 18,570. This figure is calculated from the Registrar General's Estimate:—

	Gallons per head per day.
For domestic and public purposes ...	23.66
For trade purposes ...	11.17
As compensation ...	1.28
For all purposes ...	36.11

As compared with the previous year, there was an increase of one-half a gallon under the domestic heading and of three-quarters of a gallon under the trade heading.

The total rainfall last year was 35.00 inches; this was 1.24 inches more than the average of the previous years. Measurable rain was recorded on 161 days. January, March, July and August were wet months, April, May, June, September and December were dry months. More than one inch of rain was recorded on two occasions. Thunderstorms were few in number and comparatively light.

The necessary apparatus for the addition of "Chloros" to the water supplied from Lindway Reservoir was installed and sterilization after filtration is now the normal process.

R. F. WARD.

Annual Report of the Chief Sanitary Inspector.

*To the Chairman and Members of the Urban District Council
of Alfreton.*

Ladies and Gentlemen,

I have the honour to present my Annual Report on the work of your Sanitary Inspectors for the year 1941.

The Report is compiled in accordance with directions contained in a Memorandum issued by the Ministry of Health and as required by the Sanitary Officer's Order, 1926.

Sanitary Inspection of the Area.

The sanitary improvements and repairs effected during the year are as follows:—

Defective pail closets	1
Conversion of pail closets to water closets				24
Defective water closets	13
Provision of portable ash bins	126
Conversion of 141 ashpits to 226 ashbins.				
Defective drains, etc.	83
Choked drains, etc.	52
Defective pavings	33
Roofs, eaves gutters, etc.	170
Sinks	32
Insufficient ventilation	11
Windows	69
Dampness	38
Water in cellars	6
Water supply	10
Foul condition of houses	3
Offensive accumulation	1
Animals improperly kept	7
Smoke Nuisances	1
Nuisances not specified	816

The following visits were made:—

Slaughterhouses	114
Food preparing and retailing places	442
Butchers' shops	631
Offensive trades	51
Interviews	491

Visits to works in progress	457
„ „ factories with mechanical power	78
„ „ „ „ non-mechanical power	19
„ „ workplaces	3
Nuisances visited	788
„ abated	583
Housing inspections	27
Houses made fit	22
Infectious diseases visited	94
Premises disinfected	109
Dairies, etc., visited	94
Visits to petrol and carbide stores	25
„ „ common lodging houses	2
„ „ entertainment places	64
Drains tested by water, colour or smoke ...	113
Visits to bakehouses	62
„ „ overcrowding	4
Houses made fit under Housing Acts ...	14
Miscellaneous visits	3,059

Meat and Other Foods.

Animals inspected:—

Beasts	1
Pigs	79

Meat and other foods condemned during the year:—

2 Pigs' heads	T.B.	lbs.
1 „ Pluck	„	40
1 „ Midgeon	„	10
1 „ Lungs	Cysts	1
Beef	Bone Taint	8
Cake	Decomposition	10½
Bacon	„	32
Sausages	„	58
Butter	„	31
53 doz. Eggs	„	11
98 Oranges	„	
24 Pork Pies	„	18
430 tins goods	„	464

Total: 6 cwts. 9½lbs.

683½

Food and Drugs Adulteration Act, 1938.

The following information is obtained by the courtesy of the County Analyst:—

156 samples were taken during the year; 54 of milk and 102 of other foods. Of milk samples 7 were classed as unsatisfactory. One sample was fat deficient to the extent of 23 per cent.; proceedings were instituted and the vendor fined £7 including costs. Another sample was 19 per cent. deficient in fat; the vendor was fined 5/- together with £7 costs. In the remaining samples the deficiencies were not excessive and letters of caution were sent to the vendors concerned.

No serious irregularities were disclosed on the analysis of the samples other than milk. A sample of Red Plum Jam was somewhat deficient in fruit: exception was taken to the labelling on a sample sold as "Prepared Pepper Compound" and two samples of Sal Volatile were slightly below the Pharmacopœial standards. One sample of Sucrex Sugar Substitute was classed as unsatisfactory since it had not been made under licence from the Ministry of Food. The facts were reported to the Ministry of Food for their further action.

Tents, Vans and Sheds.

Action was taken under Section 269 of the Public Health Act, 1936, in respect of the Brewers Croft, "Four Horse Shoes" Inn, Alfreton. The site was cleared of tents and vans, with the exception of Finney's Van, which was licensed in accordance with the Act.

Water Supply.

Legal proceedings were taken under Section 138 of the Public Health Act, 1936, for the provision of a sufficient water supply to the premises and outbuildings at 21, High Street, Swanwick. A Court Order was made for a sufficient water service to be provided within 28 days.

Railings Survey.

The survey was undertaken by the Department. 1,468 inspections were made for the purpose. The Schedules were prepared and despatched by the appointed day, 23rd October, 1941.

Food Treatment Squads.

During the year two squads of four men have been trained. A Decontamination Depot for contaminated food has been selected, together with airing sheds, and these have been approved by the Ministry.

Traders' Mutual Assistance Scheme.

A scheme for mutual aid for traders, following enemy action, has been arranged during the year and 56 traders have enrolled in the scheme and have expressed their willingness to place premises, staff and vehicles at the disposal of the less fortunate traders in an emergency. Stores have been earmarked for storage of blitzed goods.

Milk Samples.

During the year, one sample of milk was taken for bacteriological examination, and the result was:—

Number of bacteria per c.c., 37,000. Presence of *Bacillus Coli* in 1/100 c.c., T.B. Negative.

Shops Acts.

The following information is supplied by the Shops Acts Inspector:—

64 visits were made under the Young Persons Act, 1934, and 190 visits under the Shops Closing Act, 1928.

12 verbal warnings were given under the Closing Act and in no case was further proceedings necessary.

In 4 instances the heating arrangements were found not to be up to the required standard and they have now been remedied.

COSTING REPORT ON SERVICES.

Stables Account.

		426	7		£1,348	6	2
1940:—		356	1		£1,168	8	0

Nightsoil Collection and Disposal Account.

Collection:—

					£	s.	d.
Loaders' Wages	677	10	1
Lorry Hire	381	13	1
Lamp Oil	5	11	3
Disinfectant Powder	3	19	0
Sundries	1	18	8
					£1,070	12	1

1940:—£955 17s. 8d.

Disposal:—

					£	s.	d.
Rent of Bullock Lane Tip	3	0	0
Wages	10	5	9
					£13	5	9

1940:—£29 12s.

865 tons of nightsoil were collected at a cost of £1 4s. 9d. per ton and disposed of at 3 $\frac{3}{4}$ d. per ton, giving a combined figure of £1 5s. 0 $\frac{3}{4}$ d. per ton, as compared with £1 1s. 4 $\frac{1}{4}$ d. per ton in 1940.

Combined Costing.

Collections of wet and dry refuse:—

	Tons.		£	s.	d.
Motors ...	9,641	at a cost of	3,508	16	2
Nightsoil ...	865	„	1,070	12	1
Trade Refuse ...	711	„	212	19	10
	11,217		4,792	8	1
1940:—	11,382		4,970	19	1

This gives a figure of 8s. 6 $\frac{1}{2}$ d. per ton, as compared with 8s. 8 $\frac{3}{4}$ d. per ton in 1940.

Disposal;—

				£	s.	d.
Cost of dry refuse	950	2	9
Cost of wet refuse	13	5	9
				<hr/>		
				£963	8	6

1940:—£870 17s. 11d.

This gives a figure of 1s. 8½d. per ton, as compared with 1s. 6½d. per ton in 1940. This combined cost of collection and disposal is 10s. 3d. per ton.

I am,

Ladies and Gentlemen,

Your Obedient Servant,

CHARLES TINGLE.
