ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH1967To the Chairman and Members of the Alnwick Urban District Council

The report for the year 1967 includes the period covered by my predecessor who left to take up a position in general practice and subsequently by myself when I took up my appointment on 1st. July. The initial period has been one of getting to know first people and places and secondly detail. This latter is inevitably a slow and continuing process particularly in an extensive area with a scattered population.

The report is presented in its accustomed form and contains information on the vital statistics for the District and also on the sanitary circumstances which are included in the report of the Public Health Inspector.

Vital Statistics

There were 90 births compared with 113 in 1966 and the reduction was almost entirely accounted for by fewer female births. The crude birth rate was 12.0 live births per thousand population and the adjusted rate was 13.4 per thousand, the area comparability factor for births being 1.12. These rates compare with ones of 14.9 and 16.7 respectively in the District in 1966 and of 17.2 in England and Wales in 1967.

Total deaths numbered 89 compared with 86 in 1966. The crude death rate was 11.9 per thousand population and the adjusted 13.2 per thousand, the area comparability factor for deaths being 1.11. These rates compare with ones of 11.4 and 12.4 respectively in the District in 1966 and of 11.2 in England and Wales in 1967. Causes of death showed no abnormal distribution, the predominant factors being heart and vascular disease and malignant conditions.

There was one infant death compared with three in the previous year. The infant mortality rate was 11.1 infant deaths per thousand live births as opposed to 26.5 per thousand in 1966 and a national rate in 1967 of 18.3 per thousand. There were no maternal deaths.

#### Infectious Diseases

The measles epidemic which affected the District late in 1966 continued into the early months of 1967 and 156 cases were notified.

No new cases of tuberculosis occurred but there was one death in an elderly man who had not previously been notified as suffering from this disease.

#### Immunisation

The statistics for the area are shown in a modified table - by disease instead of by form of injection. The number of immunisations carried out in young children have been related to the number of births in 1967. The percentages shown are a reasonable index of the acceptance rates and can be considered to be very satisfactory.

#### Sanitary Circumstances

These are detailed by Mr. Moralee in his report. He has commented on the disappointing number of applications for improvement grants, three standard and two discretionary, which record the lowest yearly total since the inception of the scheme. There are still eleven houses that have only a stand-pipe water supply. The survey of housing on Alnwick Moor show that there are, in that area alone, 27 houses which are lacking in some basic amenities or which have only a limited life unless remedial action is taken.

Ian G.P. Fraser

Medical Officer of Health

### GENERAL STATISTICS

The area of the district was 4,778 acres.

The number of inhabited houses was 2,450 and the number of new houses completed during the year was 13.

The rateable value was £252,300 and the sum represented by a penny rate was £952.

The estimated mid-year population was 7,500 and this figure was taken when calculating the birth and death rate.

Improvement GrantsNumber of separate houses(a) Discretionary Grants

1. Applications submitted to Local Authority during the year	2
2. Applications rejected	-
3. Applications approved	2
4. Approximate average grant approved per house	£332
5. Total number of houses approved for grant since inception of scheme	131

(b) Standard GrantsDuring the Year      Total to Date

1. Number of separate houses for which grants have been made	3	47
2. Number of houses so provided with		
(a) Bath or shower	2	35
(b) Wash-hand basin	2	37
(c) Hot water supply	2	32
(d) Water closet	3	42
(e) Food store	1	29

(b) GENERAL

Excellent progress was made by Messrs. R. Bowey & Son, Ltd., on the clayport South West Area where 37 housing units are being constructed to the Parker Morris standards. These units comprise:-

5 two bedroom maisonettes  
 3 three bedroom maisonettes  
 25 one bedroom flats  
 4 bed sitting rooms  
 32 garages are also being constructed.

At the end of the year site works were 80% complete, drainage 90% complete and the garages completed.

Work progressed on the Shepherds Rest Housing Site, now known as Chapel Lands, and at the end of the year 12 private houses were completed and occupied. These comprise three bedroom type houses, and in addition fourteen three bedroom houses and six two bedroom bungalows were under construction. A total of 60 private houses are to be constructed on this estate by Messrs. R. Carse & Sons, Ltd.

Tenders were invited for the erection of 6 bungalows, wardens house and offices together with the improvement of 10 existing flats at Augur Flats. The tender of Messrs. R. Carse & Sons, Ltd., was accepted.

Inspections were made of houses on Alnwick Moor, and a report submitted of conditions found. Houses were classified into four categories as follows:-

Class 1 Houses fit in all respects and which includes houses improved by grant aid.	Total No. 24
Class 11 Fit houses, but lacking some of the standard amenities	Total No. 13
Class 111 Houses with estimated life of 5/10 years unless action taken to improve	Total No. 14
Class 1V Houses considered unfit and not repairable at reasonable cost	Total No. 17

A meeting was arranged with members of the Freeman's Council to discuss the report and the future housing policy of the Moor. It was decided that 'Notice of Time and Place' be served on all owners of Class 1V property with a view to obtaining demolition of these houses.

The number of applications for Improvement Grants was again disappointing and was the lowest on record, other than for the year 1961, since Standard Grants came into operation.

(c) REGISTERED COMMON LODGING HOUSES

There are none in the district

(d) HOUSES ERECTED HOUSES DEMOLISHED OR CLOSED

Year	By Private Persons	By Local Authority	By other Housing Authorities	Total	Demolished	Houses or Parts closed	Total	
1957	7	64	-	71	5	3	8	N.B.
1958	4	-	-	4	12	2	14	11 dwellings

1966	-	2	-	2	7	6	13	closing orders
1967	12	-	1	13	10	1	11	revoked
Total	104	181	5	290	144	40	184	

WATER SUPPLY

The area is served by the Newcastle and Gateshead Water Company, who maintain a plentiful and wholesome supply throughout the year.

The service is adequate and satisfactory.

The company invariably readily investigate any complaint, and effect a remedy.

Cottages on Alnwick Moor are supplied by the Freemans Council and this water is untreated.

RESULTS OF WATER SAMPLES (BACTERIOLOGICAL)

Source of Supply	Whether water treated or untreated	Satisfactory		Suspicious Class 111	Unsatisfactory Class 1V
		Class 1	Class 11		
Alnwick Low Supply (C.W.B.)	Treated	6	-	-	-
Alnwick High Supply	Untreated	13	-	-	-
Freemen's Supply	Untreated	1	1	-	-

The number of dwelling houses, and the number of the population supplied from public water mains are as follows:-

	<u>Number of Dwelling Houses</u>	<u>Populations Supplied</u>
(a) Direct to Houses	2361	7372
(b) By means of stand pipes	11	20

#### FOOD AND DRUGS ACT, 1955

##### (a) MILK

Dealers licences are granted by the Northumberland County Council as the food and drugs authority, and regular sampling was carried out by the County Public Health Inspector.

#### RESULTS OF SAMPLES (BACTERIOLOGICAL)

<u>Designation</u>	<u>Satisfactory</u>	<u>Unsatisfactory</u>
Untreated	1	-
Treated	36	1

Since Messrs. Laidler Bros. disposed of their milk business early in the year there is no untreated milk bottled in the district. There are no producers in the area selling raw milk, consequently there were no samples of raw milk examined for *Brucella Abortus*.

##### (b) ICE CREAM

28 premises are registered for the sale of ice cream and two for manufacture and sale of ice cream. One such manufacturer uses the "complete cold mix". 5 samples were taken from manufacturers and the results are as follows:-

<u>Number of Samples</u>	<u>Time taken to reduce methylene blue</u>	<u>Prov. Grade</u>
3	Not decolourised at the end of 4 hours	1
2	Decolourised at the end of 3½ hours	2

##### (c) THE LIQUID EGG (PASTEURISATION) REGULATIONS 1963

There are no egg pasteurisation plants in the district, and no samples of liquid egg were submitted to the Alpha-Amylase test.

(d) FOOD HYGIENE (GENERAL) REGULATIONS, 1960FOOD PREMISES SUBJECT TO FOOD HYGIENE (GEN) REGULATIONS 1960CATEGORIES OF TRADE PREMISES

	Number of Premises	Number fitted to comply with Reg. 16	Number to which Reg. 19 applies	Number fitted to comply with Reg. 19
Grocers, Self Service Stores General Dealers and Confectioners	35	34	10	10
Cafes, Snack Bars, School Kitchens, Boarding House, Hospital Kitchens	26	26	26	26
Public Houses, Hotels and Social Clubs	21	19	21	21
Butchers and Fishmongers	8	8	8	8

Fried Fish and Chips	3	3	3	3
Bakeries	3	3	3	3
Off Licence Premises	2	2	-	-
Ice Cream Manufacturers	1	1	1	1
Totals	109	105	72	72

46 visits were made to the 109 food premises and contraventions or deficiencies found were brought to the notice of the food traders concerned.

There were no prosecutions during the year under the Regulations

(e) POULTRY INSPECTION

There are no poultry processing premises within the district.

(f) FOOD INSPECTION (OTHER THAN FRESH CARCASE MEAT AT SLAUGHTERHOUSES)

14 visits were made to food premises for the primary purpose of food inspection. The following were voluntarily surrendered and destroyed at the East Cawledge Park Refuse Tip:-

Bacon	34lbs.	Canned meat & fish	68lbs.
Canned Fruit	52 "	Canned Vegetables	16 "
Canned milk & milk products	8 "		

SLAUGHTERHOUSES

There are two private slaughterhouses in the district. 19 slaughtering licences were issued to slaughtermen. Refuse from the slaughterhouses is removed by the Council twice weekly. The fixed charge of 30/- per week was increased to £2 2s. -1. per week as from 1st July, to cover increased costs.

Under the Meat Inspections Regulations a total sum of £105 15s. -d. was paid by the butchers for meat inspection, as against a total of £98 9s. 3d. for the previous year. 100% inspection of all carcasses was again achieved which necessitated 234 visits to slaughterhouses.

No cysticereosis was found, and localised tuberculosis was found only in one pigs head.

CARCASSES AND OFFAL INSPECTED AND CONDEMNED IN WHOLE OR PART

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed	470	5	21	1495	219
Number inspected	470	5	21	1495	219
<u>All diseases</u>					
Whole carcasses condemned	1	1	-	4	-
Part " "	4	-	-	6	1
Offal condemned	99	2	1	53	21
Percentage of number inspected affected with disease	22.1	60.0	4.8	4.2	10.0

SEWERAGE AND SEWAGE DISPOSAL

There were no major works carried out to the existing sewers, or to the Sewage Disposal Plant.

RODENT CONTROL

The Prevention of Damage by Pests Act 1949, imposes on a Local Authority the duty of keeping its district free from rats and mice, and for this purpose a part time rodent operator is employed for approximately 20/22 hours per week.

All treatments are given free of charge.

There was a small increase in the number of notifications, but all notifications were minor infestations, the big majority where an odd rat had been seen.

All building sites were inspected and two treatments were carried out

for rat infestation. In both cases uneaten sandwiches and food had been discarded by workmen.

One sewer treatment was carried out and two manholes were found to be infested.

Properties other than Sewers	Type of Property	
	Non-Agricultural	Agricultural
1. Number of properties in district	3057	23
2. (a) Total number of properties (including nearby premises) inspected following notification	206	3
(b) Number infested by (1) Rats	58	3
(11) Mice	7	-
3. (a) Total number of properties inspected for rats and/or mice for reasons other than notification	42	1
(b) Number infested by (1) Rats	2	1
(11) Mice	1	-

#### PIGEONS

251 pigeons were caught and humanely destroyed, from the trap in Fenkle Street. In addition 30 eggs were also destroyed.

#### OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

##### REGISTRATION, GENERAL INSPECTIONS AND PERSONS EMPLOYED

Class of Premises	Number of Premises Registered during the year	Total Number of Registered premises at end of year	General Inspections carried out	Persons Employed
