Rural District Council Offices,  
South Street,  
Ashby-de-la-Zouch,  
Leicestershire.

August, 1961.

To the Chairman and Members of  
the Rural District Council of  
Ashby-de-la-Zouch.

Mr. Chairman, Ladies and Gentlemen,

I beg to present my Report for the year 1960.

According to the Registrar General's estimate, the population has increased from 14,030 to 14,050.

The birth rate (14.2) is lower than last year (14.5) and lower than that for England and Wales (17.1).

The death rate (12.9) is higher than last year (12.2) and higher than that for England and Wales (11.5). The death rate of infants under one year is 29.8 compared with 19.7 in 1959, and England and Wales 21.7 and the still birth rate is 14.7 compared with 19.7 for England and Wales.

Of the 164 deaths during the year there were 7 deaths from all accidents and suicide. The chief causes of death, as has been the case for some years past, were from diseases associated with elderly people.

It will be noted that all the parishes, with the exception of Bardon have a piped supply of water. The scheme for boosting the existing supply to Farm Town area of Coleorton was carried out and chlorinating apparatus installed at Heather and Acresford was brought into operation.

There are 352 cesspools in the district and 17 cesspools were constructed and 4 abolished during the year. 38 closets were converted to the water carriage system during the year. During the year a Public Inquiry was held into the sewerage scheme for Newton Burgoland and Swepstone and approval obtained for the Atherstone Road scheme at Measham.

28 houses were completed during the year making a total of 959 houses completed in the post-war period, of which 672 houses were completed by the local authority.

United States  
Department of  
Agriculture  
Washington

August 1941

To the Director, Bureau of  
Plant Industry  
Washington, D.C.

Mr. C. G. Smith, Director

I beg to present to you the following

report on the progress of the work of the  
Bureau of Plant Industry during the year 1940.

The Bureau has been very busy during the year 1940, and has  
been able to complete a large amount of work.

The Bureau has been very busy during the year 1940, and has  
been able to complete a large amount of work. The Bureau has  
been able to complete a large amount of work during the year 1940.

The Bureau has been very busy during the year 1940, and has  
been able to complete a large amount of work. The Bureau has  
been able to complete a large amount of work during the year 1940.

The Bureau has been very busy during the year 1940, and has  
been able to complete a large amount of work. The Bureau has  
been able to complete a large amount of work during the year 1940.

The Bureau has been very busy during the year 1940, and has  
been able to complete a large amount of work. The Bureau has  
been able to complete a large amount of work during the year 1940.

The Bureau has been very busy during the year 1940, and has  
been able to complete a large amount of work. The Bureau has  
been able to complete a large amount of work during the year 1940.

The total number of applicants for Council houses at the end of the year was 267 and the number of applications received during the year was 64.

Implementation of the Food Hygiene Regulations, 1955 proceeded satisfactorily and no formal action has been necessary.

During the year 70 cases of infectious diseases were notified, Scarlet Fever 2, Whooping Cough 6, Dysentery 6, Measles 33, Pneumonia 17, Erysipelas 4, and Food Poisoning 2. There were 5 deaths from Pneumonia. The Dysentery, which was Sonnei was not severe, but occasioned a good deal of investigation. The 2 cases of Food Poisoning were probably not Food Poisoning but Salmonella Infection and investigations involved a tremendous amount of extra work which was most willingly done by Mr. Curtis and Mr. Batteson.

I am pleased to record that the number of children being immunised against Diphtheria still remains high and has increased during the year.

No new cases of Tuberculosis were notified during the year but there was one death from Pulmonary Tuberculosis. Of the 15 cases removed from the Tuberculosis Register 10 were cured.

To the Staff of the Public Health Department of the County Council and to Doctor Mair, Director of the Public Health Laboratory, I wish to extend my thanks for their willing help and co-operation.

Finally I wish to thank Mr. C. S. Curtis, Surveyor and Public Health Inspector and Mr. H. Batteson, Additional Public Health Inspector, for their invaluable help during the year and you, Ladies and Gentlemen, for your kindness and co-operation.

I remain,

Ladies and Gentlemen,

Your obedient servant,

A. McM. W. Segerdal  
M.D., D.P.H.

## SECTION A

### Statistics and Social Conditions

Area (in acres)	28,267
Resident Population (R.G's. estimate)	14,050
Number of inhabited houses	4,540
Rateable Value (1st. April 1960)	£ 156,106
Sum represented by a penny rate	£ 604
Comparability factor - Births	1.00
Deaths	1.11

The chief industries in the area are agriculture; coal mining; brickmaking; stoneware and pipemaking and stone quarrying. There are also small textile works and light engineering works.

No particular industry was noted as having a specially injurious effect on health during the year.

### Vital Statistics

	<u>Rural</u> <u>District</u>	<u>England</u> <u>&amp; Wales</u>
Live Births	201	
Live Birth rate	14.2	17.1
Still Births	3	
Still Birth rate per 1000 (live & still)	14.7	19.7
Total Births	204	
Infant Deaths	6	
Infantile Mortality rate per 1000 live Births	29.8	21.7
Infantile Mortality rate per 1000 legitimate Births	29.8	
Infantile Mortality rate per 1000 illegitimate Births	.0	
Neo-Natal Mortality rate (first four weeks) per 1000 related live births	19.9	15.6
Early Neo-Natal Mortality rate (first week) per 1000 related live births	19.9	
Perinatal Mortality rate (first week combined with still birth rate) per 1000 total live and still births	34.3	

# RESULTS

## Statistical Analysis

From the results of the statistical analysis, it was found that the differences between the groups were highly significant. The results of the statistical analysis are presented in Table 1. The results of the statistical analysis are presented in Table 1. The results of the statistical analysis are presented in Table 1.

The results of the statistical analysis are presented in Table 1. The results of the statistical analysis are presented in Table 1. The results of the statistical analysis are presented in Table 1.

## SECTION B

### GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA

#### Hospitals

All hospitals, except some private maternity and nursing homes are under the Sheffield Regional Hospital Board.

The County Homes for the aged and destitute are under the County Council. When the inmates take ill they become the responsibility of the Regional Hospital Board.

#### Cheshire Home for the Sick

The home is the largest of the Cheshire Homes and is entirely voluntary and not under the Regional Hospital Board.

At the end of the year there were 42 patients, all chronic sick. During the year there were two deaths, but no deaths from Influenza.

#### Treatment Centres and Clinics

There are none actually in the district. Infant welfare clinics are held every Thursday afternoon at the Baptist School, Ashby-de-la-Zouch and every second and fourth Thursday afternoon at the Centenary Methodist Church, Donisthorpe Road, Moira. At the Health Centre, Bridge Road, Coalville an Ante-Natal clinic is available. The Chest clinic is held at Markfield Sanatorium under the auspices of the Sheffield Regional Hospital Board.

#### Ambulance Facilities

The County Council is responsible for all facilities in the County. Colliery accidents are removed by ambulances provided by the National Coal Board stationed at Nailstone Colliery and at Bath Yard, Moira.

#### Nursing in the Home

All district nursing and midwifery in the home is under the Leicester County Council.

## ARTICLE I

### SECTION 1. SHORT TITLE AND PURPOSE

#### Section 1.1

All hospitals, except those which are exempted by the Secretary of Health and Human Services, shall be subject to the provisions of this Act.

The Secretary shall, for the purpose of this Act, determine the extent to which the provisions of this Act shall apply to the hospitals of the several States.

#### Section 1.2

The term "hospital" as used in this Act shall mean any institution which is organized and operated as a hospital, whether or not it is a corporation.

At the end of the year 1965, there were 4,100 hospitals in the United States. During the year 1965, there were 1,000 hospitals in the United States.

#### Section 1.3

There are now several hundred hospitals in the United States. These hospitals are organized and operated as corporations, partnerships, or sole proprietorships. At the present time, there are approximately 4,100 hospitals in the United States. At the present time, there are approximately 1,000 hospitals in the United States. The term "hospital" as used in this Act shall mean any institution which is organized and operated as a hospital, whether or not it is a corporation.

#### Section 1.4

The Secretary shall, for the purpose of this Act, determine the extent to which the provisions of this Act shall apply to the hospitals of the several States. The Secretary shall, for the purpose of this Act, determine the extent to which the provisions of this Act shall apply to the hospitals of the several States.

#### Section 1.5

All hospitals subject to the provisions of this Act shall be subject to the provisions of this Act. All hospitals subject to the provisions of this Act shall be subject to the provisions of this Act.

## Health Visiting

This work is provided by the Leicester County Council and the work of Health Visitor, School Nurse and Tuberculosis Visitor is combined in a single appointment.

The Diabetic Health Visitor attends the Diabetic Clinic at the Leicester Royal Infirmary and visits the patients in their homes on request.

## Laboratory Facilities

Public Health Laboratory, Isolation  
Hospital, Groby Road, Leicester

The following examinations were made :

Vaginal and Cervical Swabs	1
Faeces and urine	76
Sputa	50
Water	11
Ice Cream	5
Miscellaneous	2
	<u>145</u>

Generally there is co-operation between the local authority and the services provided by the Executive Council and the hospital Board, and the tendency is towards closer integration.

This work is presented to the American people and the world of America's friends, and the American people are invited to consider it as a single document.

The American people are invited to consider it as a single document, and the American people are invited to consider it as a single document.

## SECTION E

### INSPECTION AND SUPERVISION OF FOOD

#### Ice Cream

Number of premises registered for manufacture and retail	...	Nil
Number of premises registered for manufacture only	...	Nil
Number of premises registered for retail only	...	56
Number of samples taken	...	4
Results of samples :	Grade 1 : 2      Grade 2 : 2	

Ice cream is purchased from National Manufacturers in all cases.

#### Milk Supply

##### Dairies (other than dairy farms) and distributors (Section 8 Milk & Dairies Regulations, 1949)

Number on Register :	Dairies	1
	Distributors	15
Number of Inspections :	Dairies	2
	Distributors	22

#### Biological Milk Samples

Number of routine bulk samples taken	...	44
Results satisfactory	...	44
Evidence of living Tubercule Bacilli	...	Nil
Evidence of Brucella Abortus	...	Nil

#### Bacteriological Milk Samples

44 samples of designated "Tuberculin Tested" milk were taken and all proved to be satisfactory.

December		3			2	1			6
Totals	2	3	2	3	17	3	2	1	33

## Food Poisoning

Two cases of Food Poisoning were notified and were probably Salmonella infection, not Food Poisoning.

Both these cases had been in hospital for other complaints, and it would appear that in the first case the Salmonella infection was acquired in hospital, and it is almost certain the second case was acquired in hospital.

## Sonnei Dysentery

A child was notified in another area as suffering from Sonnei Dysentery and the child attended a school in our district. This was about March. It was found that large numbers of children and teachers had been absent from the school with abdominal illness during the year, not only from this school but over a wide area, and this had been going on for some three months. It was decided to investigate the canteen staff as the numbers were so large. One of the members of the canteen staff, not resident in the district, was found incubating the disease. She was, of course, excluded from the canteen until she was absolutely clear.

Only two families of the two cases which were recurrent and severe were kept under observation. All cases eventually cleared.

Another case occurred early in the year. This probably had nothing to do with the earlier epidemic and was probably acquired while on holiday on the continent. This was a mild case.

Local Information

Two cases of acute poisoning were notified and were probably  
Salmagundi, and local poisoning.

Both cases were not seen in hospital for other symptoms,  
and it would appear that in the first case the Salmagundi  
intention was to poison, and it is almost certain the  
second case was intended to poison.

Local Information

I think the incident in question was a poisoning from  
Salmagundi and the child attended a school in the district.  
This was about 1940. It was found that there was a  
child in the district who had been about the school with  
Salmagundi. The child was not seen since that time but  
was a white child, and this had been going on for some time.  
It was decided to investigate the system of the district  
and to see if the children of the district were  
poisoned in the district, and found poisoning the children.  
The case of the child, and the children who were  
absolutely white.

Only one child of the two cases which was mentioned  
and there were about 100 children. All cases were  
checked.

Another case occurred early in the year. The child  
was about 10 or 12 years old, and was probably  
poisoned with the poison in the district. This was a white  
child.

IMMUNISATION AGAINST DIPHTHERIA

ANNUAL REPORT OF THE

SURVEYOR AND PUBLIC HEALTH INSPECTOR

Rural District Council Offices,  
South Street,  
Ashby-de-la-Zouch,  
Leicestershire.

August, 1961.

To the Chairman and Members of  
the Rural District Council of  
Ashby-de-la-Zouch.

Mr. Chairman, Ladies and Gentlemen,

It gives me pleasure to submit this my sixth Annual Report for your consideration. The Report covers the year ended 31st. December, 1960.

The year saw the introduction of one new Statute which was of great interest to the department. This was the Caravan Sites and Control of Development Act, 1960. For a long time the law relating to the stationing and use of caravans has been very unsatisfactory and has been difficult to enforce. The new Act places the responsibility on owners of land to obtain the necessary permissions and comply with conditions attached to licences granted by the local authority. The Act sets out model standards as a guide to local authorities, who can attach conditions to licences in order to ensure that satisfactory facilities exist for a supply of drinking water, sanitary accommodation, paving, drainage and fire prevention &c.

The "Standard Grant" provisions of the House Purchase and Housing Act, 1959 have served a very useful purpose. Many more applications have been made for this type of grant compared with applications for Discretionary Grants during previous years, and despite this, the number of applications for Discretionary Grants has not been really affected.

ANNALS OF THE

AMERICAN HISTORICAL ASSOCIATION

James H. Hargrave, Secretary  
1215 North 17th Street  
Lincoln, Nebraska  
June 15, 1900

To the Chairman and Members of  
the Board of Directors of  
the American Historical Association

My Dear Sirs:

It gives me pleasure to send you this report  
for your consideration. The report covers the year ended June  
30, 1900.

The year has been the most successful of the Association's history  
to date. In the first place, the Association has been able to  
secure the cooperation of the various departments of the Government  
and the various departments of the University. This has been  
achieved by the efforts of the Secretary and the various  
committees. The result has been a most successful year.  
The Association has been able to secure the cooperation of the  
various departments of the Government and the various  
departments of the University. This has been achieved by the  
efforts of the Secretary and the various committees. The  
result has been a most successful year. The Association has  
been able to secure the cooperation of the various departments  
of the Government and the various departments of the University.  
This has been achieved by the efforts of the Secretary and  
the various committees. The result has been a most successful  
year.

The "Standard Grant" Committee of the Board of Directors  
has also been very successful. It has been able to secure  
the cooperation of the various departments of the Government  
and the various departments of the University. This has been  
achieved by the efforts of the Secretary and the various  
committees. The result has been a most successful year.  
The Association has been able to secure the cooperation of the  
various departments of the Government and the various  
departments of the University. This has been achieved by the  
efforts of the Secretary and the various committees. The  
result has been a most successful year. The Association has  
been able to secure the cooperation of the various departments  
of the Government and the various departments of the University.  
This has been achieved by the efforts of the Secretary and  
the various committees. The result has been a most successful  
year.

Work in connection with sewers and works affected by mining subsidence continued to take up a considerable amount of time. During the year sewers at Donisthorpe and Swannington continued to have to be emptied by the cesspool emptying machine at very frequent intervals.

In Oakthorpe, sewers were relaid in the Canal Street/ Main Street area due to mining subsidence having caused "backfall" in existing sewers with the result that sewage was standing by the front doors of properties. In addition, preliminary steps in connection with relaying the sewers in Ashby Road, Measham were taken.

Although my department is not at the present time responsible for the erection of new houses, some time has been spent discussing with your private Architects sites at present being developed or about to be developed. In addition, numerous sites in the village of Heather have been investigated with a view to obtaining a site for some dozen houses and an old peoples dwelling. A site is badly needed in this village in order to enable the unfit properties in the parish to be dealt with, and it is hoped at the same time to improve the appearance of the Main Street which at the present time has a very dilapidated appearance due to very dilapidated occupied properties and untidy sites of houses demolished in the past.

## COMPLAINTS

Set out below are details of the various complaints which have been received together with a table showing repairs and improvements carried out.

Dwellings rendered fit or defects remedied	60
Complaints received	83
Premises Inspected	107
Groundless complaints	11
Revisits to work in hand	145
Miscellaneous visits	36
Premises at which nuisances abated	93
Informal Notices served	96
Statutory Notices served	3
Damp proof courses inserted	2
Water closets repaired	1
Pan closets repaired	3
Drains relaid, repaired, trapped or ventilated or cleared (does not include sewers)	39
Cesspools cleansed or repaired	5
Chimneys repaired	4
Damp walls remedied	8
Ditches cleaned out	3
Yard paving renewed	15
Food stores provided	2
Sinks renewed	6
Hot water systems repaired	1
Doors repaired	1
Windows repaired or renewed	27
Fireplaces repaired, or new ones provided	7
Plastering repaired	4
Obstructed footpaths cleared	4
Roofs repaired	5
Eaves gutters repaired or renewed	8
Floors repaired	10
Smoke nuisances abated	5
Walls repaired	4
Flooding abated	2
Dirty houses cleansed	1
Offensive accumulations removed	6
Miscellaneous nuisances abated	6
Dangerous well top made safe	1

# APPENDIX

The following table shows the results of the various experiments which have been conducted to determine the effect of the various factors on the rate of reaction.

Experiment No.	Concentration of Reactants	Temperature (°C)	Time (min)	Rate of Reaction (mol/lit. sec)
1	0.1	25	10	0.001
2	0.2	25	10	0.002

30	0.5	50	10	0.160

## PREVENTION OF DAMAGE BY PESTS ACT, 1949

Rodent control has continued to be carried out by your Rodent Operator who works every other week on these duties. Free treatments have continued at domestic premises and a charge made at business and agricultural holdings.

A total of 538 premises were inspected during the year and 154 premises treated, necessitating a total of 1,154 visits.

### FOOD INSPECTION

Work continued in connection with the improvement of food premises and the conditions under which food is sold. Four public houses were modernised, hot water systems, washing facilities, sanitary accommodation, new floors, wall surfaces and ceilings being provided. In addition notices are outstanding on two public houses for hot water supply, washing facilities, improved ventilation etc. One cafe has been modernised, one new works canteen erected and one school canteen improved. Six shops have been improved by provision of hot water etc., and one shop completely modernised.

### Slaughterhouses

Further meetings were held in connection with the work necessary to improve slaughterhouses at present in use. Finally following a meeting between the Council and local butchers and representatives from other organisations, it was agreed that only one existing slaughterhouse (at Swannington) would be renovated in addition to the new premises to be constructed at Measham. At the year end the premises at Measham had been completed and were in use.

### Ice Cream

Number of premises registered : 56

Number of samples taken : 4

Grade 1 : 2

Grade 2 : 2

All ice cream is purchased by the dealers from large wholesalers of this commodity.

The Board of Directors has pleasure in presenting to you the report of the management for the year 1921. The year has been marked by unusual conditions and a change in the management of the company.

A total of 100 shares were purchased during the year and the company received a total of \$1,100,000.

## FINANCIAL STATEMENT

The statement of the company for the year 1921 shows a net income of \$1,100,000. The statement also shows the company's assets and liabilities. The company's assets consist of cash, accounts receivable, and property. The company's liabilities consist of accounts payable and long-term debt. The company's net income is the difference between its total revenue and its total expenses. The company's assets are the resources it owns, and its liabilities are the obligations it owes. The company's net income is the profit it has earned after all expenses have been paid. The company's assets are the resources it owns, and its liabilities are the obligations it owes.

## MANAGEMENT

The management of the company for the year 1921 has been successful in maintaining the company's financial position. The management has also been successful in increasing the company's production and sales. The management has also been successful in improving the company's efficiency and reducing its costs. The management has also been successful in maintaining the company's reputation and increasing its market share. The management has also been successful in improving the company's relations with its customers and suppliers. The management has also been successful in improving the company's relations with the community and the government. The management has also been successful in improving the company's relations with the stockholders. The management has also been successful in improving the company's relations with the press. The management has also been successful in improving the company's relations with the public. The management has also been successful in improving the company's relations with the world.

## CONCLUSION

The Board of Directors is pleased to report that the company has achieved a successful year.

The Board of Directors is also pleased to report that the company has achieved a successful year.

The Board of Directors is also pleased to report that the company has achieved a successful year.

The Board of Directors is also pleased to report that the company has achieved a successful year.

All the work of the company for the year 1921 has been completed.

The Board of Directors is pleased to report that the company has achieved a successful year.

## Milk and Dairies Regulations, 1949

During the year licences as follows were issued :

### Supplementary Licences to sell

"Tuberculin Tested" milk	...	8
--------------------------	-----	---

### Dealer's Licences to sell

"Tuberculin Tested" milk	...	6
--------------------------	-----	---

### Supplementary Licences to use special designation "Pasteurised"

...	7
-----	---

### Dealer's Licences to use special designation "Pasteurised"

...	6
-----	---

### Dealer's Licence to open and cool

"Tuberculin Tested" milk	...	1
--------------------------	-----	---

Routine inspections of distributing vehicles have again continued to be carried out.

During the year the results of 44 samples of milk taken for biological examination and 44 samples for bacteriological examination were received.

## PUBLIC CLEANSING

The diesel engined vehicle has continued to give very satisfactory service and as a result of 18 months experience I am more than ever convinced that it will be to the Council's advantage to turn over to diesel equipped vehicles as and when existing vehicles require replacement.

## FACTORIES ACT, 1937

Number of inspections of factories	:	31
------------------------------------	---	----

## NAMING OF STREETS

The houses in the village of Swannington have been numbered and street name plates erected throughout the parish. In addition, street name plates were erected in the parishes of Oakthorpe and Donisthorpe, and Ravenstone.

Published weekly, except during the summer months, when it is published bi-weekly.

Subscription price, \$5.00 per annum in advance.

Single copies, 15 cents.

Entered as second-class matter, May 2, 1912.

Postpaid by mail, \$6.00 per annum.

Acceptance for mailing at special rate of postage provided for in Act of October 3, 1917.

Postmaster: Please send address changes to:

### CONTENTS

The Journal of the American Medical Association is published weekly, except during the summer months, when it is published bi-weekly. It contains original articles, reviews, and news items of interest to the medical profession.

### ORIGINAL ARTICLES

Editorial: The Importance of the Medical Profession in the Community.

### REPORTS OF THE AMERICAN MEDICAL ASSOCIATION

The purpose of the American Medical Association is to promote the highest standards of medical practice and to protect the public interest. It does this by publishing the Journal, by holding annual conventions, and by advocating legislation that will benefit the medical profession and the community.

## TENTS, VANS AND SHEDS

As a result of the new Act dealing with moveable dwellings, all vans in the district were visited with a view to determining to what extent they failed to comply with the provisions of the new Act. The Council decided on standard conditions which are to be applicable to all vans in their district, the conditions to be varied in minor respects as individual cases require. Licences in respect of twelve vans were in possession of occupiers at the year end. During the year 35 visits had been made to vans.

## NEW DRAINAGE AND CLOSET CONVERSIONS

The policy of giving grants of not more than £10. 0. 0. per closet converted to encourage owners to convert to the water carriage system has continued.

As in previous years a small number of closet conversions together with the provision of septic tanks have been carried out. There has been a slowing down of the number converted in sewered parishes over previous years due to the fact that most of the work in these parishes has now been completed.

New drainage systems laid to the sewer	...	13
New water closets constructed to replace pan closets		19
Additional W.C. accommodation provided	...	1
New drainage to septic tank	...	2
Septic tanks provided	...	2
Pail closets abolished	...	19
Visits of inspection	...	40

## SEWAGE DISPOSAL

By the end of the year the major alterations to the Measham Sewage Disposal Works were well under way despite the very wet weather which had made working conditions difficult. The Ravenstone Works continued to give cause for anxiety and measurements were taken of the flow with a view to your Consulting Engineers pushing ahead with the scheme for reconstructing these works.

At the year end further steps were being taken in an effort to get the necessary permission to proceed with the sewerage of Atherstone Road, Measham, which is urgently needed.

During the year an enquiry was held into the proposed Swepstone/Newton Burgoland scheme and this was approved in principle. The scheme envisages sewage being pumped from Swepstone to Newton Burgoland and then from Newton Burgoland to the existing Snarestone Works.

Inspection of sewers and ditches and work in hand	51
Blocked sewers cleared	52
Inspections of sewage works and pumping stations	106

### WATER SUPPLY

Meetings continued to take place between the various local authorities in the North West part of Leicestershire in connection with the proposed re-grouping of water undertakings. Despite the objections of this and some other Councils, it became obvious that the majority of authorities were prepared to fall in with a scheme for a North West Leicestershire Water Board and very reluctantly the Council informed the Ministry of Health and Local Government that they would fall in with the scheme, although they pointed out that they were still of the opinion that the formation of the Board was not the best way of re-grouping the undertakings in this area.

Number of samples taken for analysis from wells	8
Number of samples satisfactory	1
Number of samples unsatisfactory	7
Number of visits	17

### HOUSING

#### New Buildings, Additions, Extensions, Improvements &c.

New houses by local authority	2
New houses by private enterprise (includes 12 bungalows)	26
New houses drained to sewer	14
New houses drained to septic tanks	12
New houses with water from public main	28

New houses with water closets	28
Garages completed	42
Workshops	9
Sports pavilions	1
Office accommodation	4
Farm buildings	2
Bathrooms and hot water systems	11
Bedrooms	4
Pails to water closets	5
Miscellaneous	17
Visits of inspection	261
Visits to Council property under construction/ or renovation	217
Two cottages converted to one	2
Alterations to public houses	5
House divided into two dwellings	1
Booster Station	1
Slaughter house	1

#### TOWN AND COUNTRY PLANNING ACT, 1947

Administration in connection with development under the Act is carried out by the Council in conjunction with the Western Area Sub-Committee of the Leicestershire County Council.

During the year 198 applications were made in respect of permission to develop.

#### BUILDING BYELAWS

During the year 197 plans were submitted for consideration under the Building Byelaws.

#### LOANS FOR HOUSE PURCHASE

34 properties were inspected during the year as a result of requests for loans in connection with house purchase, and in the majority of cases loans were approved.

#### IMPROVEMENT GRANTS

These grants are discretionary, Councils being themselves able to decide as a matter of policy whether to make grants or not.

It has been the Council's policy to give 50% towards the cost of work eligible for grant.

18 applications were approved as against 22 the previous year. Again the applicants were mainly owner/occupiers of property rather than owners of rented property.

Number of applications approved	18
Number of works completed	17
Total amount paid by way of grant	£3,656.
Bathrooms	15
Hot water systems	15
Bedrooms provided	2
Houses into two	1
Wash hand basin provided	15
Sinks provided	7
Water closets provided	15
Pails abolished	7
Drainage	15
Paving	6
New windows	32
Staircases	2
New floors	18
Fireplaces	16
New food stores	7
Septic tanks provided	7
Damp proof courses provided	7
Visits and revisits	198

#### STANDARD GRANTS

Standard Grants are not discretionary, all local authorities must make grants where the property has a life of not less than 15 years. The amounts which must be given are set out in the House Purchase and Housing Act, 1959, and grant can only be given in order to provide certain amenities, i.e., (a) a fixed bath or shower in a bathroom, (b) a wash hand basin, (c) a hot water supply, (d) a water closet in or contiguous to the dwelling, and (e) satisfactory facilities for the storage of food.

Applications approved	49
Works completed	32
Total paid by way of grant	£3,077. 15. 11.
New bathrooms	23
Hot water systems	26
Water closets	11
Wash hand basins	27
Food stores	4
Pails abolished	7
Visits and revisits	186

It has been the Committee's policy to give the members the

of the Committee were approved in regard to the provision

## SLUM CLEARANCE

Steady progress continued with the representation of unfit properties, 94 visits of inspection being made.

THE PROCEEDINGS OF THE

1 The first of the proceedings of the  
2 committee was the consideration of  
3 the report of the committee on the  
4 subject of the proposed amendment  
5 to the constitution of the  
6 association. The committee reported  
7 that they had received many  
8 suggestions from the members of  
9 the association and had considered  
10 them carefully. They had decided  
11 to recommend the adoption of the  
12 proposed amendment, with the  
13 following modifications:

14 1. That the committee be authorized  
15 to make such changes in the  
16 constitution as may be deemed  
17 advisable.

18 2. That the committee be authorized  
19 to make such changes in the  
20 constitution as may be deemed  
21 advisable.

22 3. That the committee be authorized  
23 to make such changes in the  
24 constitution as may be deemed  
25 advisable.

26 4. That the committee be authorized  
27 to make such changes in the  
28 constitution as may be deemed  
29 advisable.

30 5. That the committee be authorized  
31 to make such changes in the  
32 constitution as may be deemed  
33 advisable.

34 6. That the committee be authorized  
35 to make such changes in the  
36 constitution as may be deemed  
37 advisable.

38 7. That the committee be authorized  
39 to make such changes in the  
40 constitution as may be deemed  
41 advisable.

42 8. That the committee be authorized  
43 to make such changes in the  
44 constitution as may be deemed  
45 advisable.

46 9. That the committee be authorized  
47 to make such changes in the  
48 constitution as may be deemed  
49 advisable.

50 10. That the committee be authorized  
51 to make such changes in the  
52 constitution as may be deemed  
53 advisable.

54 11. That the committee be authorized  
55 to make such changes in the  
56 constitution as may be deemed  
57 advisable.

58 12. That the committee be authorized  
59 to make such changes in the  
60 constitution as may be deemed  
61 advisable.

62 13. That the committee be authorized  
63 to make such changes in the  
64 constitution as may be deemed  
65 advisable.

66 14. That the committee be authorized  
67 to make such changes in the  
68 constitution as may be deemed  
69 advisable.

70 15. That the committee be authorized  
71 to make such changes in the  
72 constitution as may be deemed  
73 advisable.

74 16. That the committee be authorized  
75 to make such changes in the  
76 constitution as may be deemed  
77 advisable.

78 17. That the committee be authorized  
79 to make such changes in the  
80 constitution as may be deemed  
81 advisable.

Dwellings demolished following unfit conditions	1
Number of persons rehoused	31
Dwellings where undertakings to renovate were accepted	-
Demolition Orders revoked	1
Closing Orders revoked and Demolition Orders made	1

### RECONDITIONING OF PROPERTY

Work in connection with which the Council are giving financial assistance proceeded slowly at the Almshouses at Ravenstone, Coleorton and Appleby Magna.

At Ravenstone a building comprising 26 houses is being reconstructed internally into 20 self-contained flats, each with bathroom, hot water system, internal water closet &c. The building is of historic interest and grant is also being made towards restoration works by the Ministry of Works.

At Appleby Magna, a block of five houses is being provided with modern amenities.

At Coleorton there were 6 flats completely lacking in modern amenities. The new scheme provides for 5 flats, 3 on the ground floor with a shared water closet and bathroom, and 2 upstairs with a shared water closet and bathroom; there will be a common wash house. Each flat is being provided with a sink with an electric water heater over, new floors, pantry &c., together with a new drainage system.

May I again express my thanks to you, Mr. Chairman and Members of the Council for the consideration you have shown during the year, my appreciation to Doctor Segerdal, the Clerk of the Council and the Accountant.

I would also thank the members of my department for their ever ready assistance and conscientiousness.

I am,  
Mr. Chairman, Ladies and Gentlemen,  
Your obedient servant,

C. S. Curtis

Prepared and printed in the  
offices of the  
Surveyor and Public Health Inspector
