1964

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

and the

SURVEYOR AND PUBLIC HEALTH INSPECTOR

CHAIRMAN OF THE COUNCIL

Councillor D.E. Davies, J.P.

VICE-CHAIRMAN

Councillor J.F. Lee.

PUBLIC HEALTH AND PLANS COMMITTEE

Chairman : Councillor H. Fern.

Vice-Chairman : Councillor J.F. Lee.

HOUSING COMMITTEE

Chairman : Alderman H. Wileman, J.P.

Vice-Chairman : Councillor A.J. Forrester.

WATER SUPPLY COMMITTEE

Chairman : Councillor H.R. Birkenhead.

Vice-Chairman : Councillor A. Hart.

CLERK OF THE COUNCIL

J.E.R. Wilkinson.

ACCOUNTANT AND DEPUTY CLERK

C.M. Taylor, A.I.M.T.A.

MEDICAL OFFICER OF HEALTH

A. McM. W. Segerdal, M.D., D.P.H.

SURVEYOR AND PUBLIC HEALTH INSPECTOR

C.S. Curtis, M.A.P.H.I., C.R.S.H., D.P.H.H.(Hons).

ASSISTANT SURVEYOR AND ADDITIONAL PUBLIC HEALTH
INSPECTOR.

H. Batteson, A.R.S.H., M.A.P.H.I.

ADDITIONAL PUBLIC HEALTH INSPECTOR

W.E. Farley, M.A.P.H.I., M.Inst.P.C.

Rural District Council Offices,
South Street,
Ashby-de-la-Zouch,
Leicestershire.
September, 1965.

To the Chairman and Members of
the Rural District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Mrs. Sumnall, Gentlemen,

I beg to present my Report for the year 1964.

According to the Registrar General's estimate the
population has decreased from 13,680 to 13,650.

The birth rate 17.7 is higher than last year (14.9),
and lower than that for England and Wales (18.4).

The death rate (13.7) is higher than last year (11.4),
and higher than that for England and Wales (11.3). The
death rate of infants under one year is 4.5 compared with
5.0 in 1963 and England and Wales (20.0) and the still birth
rate is 20.8 compared with 16.3 for England and Wales.

The chief causes of death, as has been the case for
some years past, were from diseases associated with elderly
people.

It will be noted that all the parishes, with the
exception of Bardon have a piped supply of water.

There are 371 septic tanks in the district, 15
septic tanks were constructed and 14 abolished during the
year. 54 closets were converted to the water carriage
system during the year.

10 houses were completed during the year making a
total of 1,272 houses completed in the post-war period.

The total number of applicants for Council houses
at the end of the year was 271 and the number of applications
received during the year was 80.

Implementation of the Food Hygiene Regulations, 1955,
proceeded satisfactorily and no formal action has been
necessary.

<https://archive.org/details/b28810648>

233 cases of infectious diseases were notified during the year, of which 218 were Measles, 5 Whooping Cough, 4 Scarlet Fever, 2 Pneumonia and 3 Erysipelas. Measles were prevalent over the whole district from January to September. There were 11 Pneumonia deaths. The Whooping Cough and Scarlet Fever cases were mild.

In October, 1963, a woman, aged 56, a cleaner in a nearby hospital just outside your district was found to be a carrier of Paratyphoid B. This condition remained at the end of 1964.

I am pleased to record that the number of children being immunised against Diphtheria, Whooping Cough and Tetanus still remains high.

During the year 3 cases of Tuberculosis were notified, all male Pulmonary, elderly and not severe. There were no Tuberculosis deaths.

To the Staff of the Public Health Department of the County Council and to Doctor Mair, Director of the Public Health Laboratory, I wish to extend my thanks for their willing help and co-operation.

Finally, I wish to thank Mr. C.S. Curtis, Surveyor and Public Health Inspector, and Mr. H. Batteson and Mr. W.E. Farley, Additional Public Health Inspectors, for their invaluable help during the year, and you, Mr. Chairman, Mrs. Sumnall and Gentlemen for your kindness and co-operation.

I remain,

Mr. Chairman, Mrs. Sumnall, Gentlemen,

Your obedient servant,

A.McM.W. SEGERDAL

M.D., D.P.H.

SECTION B.

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA.

Hospitals

All Hospitals, except some private maternity and nursing homes are under the Sheffield Regional Hospital Board.

The County Homes for the Aged and Destitute are under the County Council. When the inmates take ill they become the responsibility of the Regional Hospital Board.

Cheshire Home for the Sick (Staunton Harold Home).

Staunton Harold Cheshire Home was opened in 1955 and now provides for 42 disabled resident patients, 24 of whom are men and 18 women.

The Founder of the Cheshire Homes is Group Captain Cheshire, V.C., D.S.O., D.F.C. He has opened 35 Homes in the United Kingdom and a further 35 abroad for the care of disabled people. Staunton Harold was the 3rd such Home to be started and is the biggest in the Kingdom.

The purpose of the Cheshire Homes is to provide home-like accommodation for the young and middle-aged who are of sound mind but whose disabilities render it impossible for them to earn their own living and who have no other suitable place to go. The State does not provide such accommodation nor does it provide any finance towards the support of Cheshire Homes. The cost of running the Home is from the resident patient's own sickness benefit which is usually augmented by the local authority from which he or she originates. By this arrangement approximately two thirds of the cost of running the Home is provided. The remainder of the money comes from the voluntary contributions of the public.

The Home does not provide surgical or remedial treatment. It does aim to provide a safe and congenial retreat for life.

During the year three new patients were admitted, 6 received Hospital treatment and 3 patients died, one of them in the Home.

In May 18 patients were given a fortnight's holiday at Skegness and their places were taken by disabled people living in private houses, 12 patients were also given a holiday in North Wales and their places were also taken by patients living in private houses so that their attendants might have a holiday.

At the end of the year all 42 beds were filled.

Treatment Centres and Clinics.

There are none actually in the district. Infant Welfare Clinics are held every Thursday afternoon at the Baptist School, Ashby-de-la-Zouch, and every second and fourth Tuesday afternoon at the Centenary Methodist Church, Donisthorpe Road, Moira. At the Health Centre, Bridge Road, Coalville, an Ante-Natal Clinic is available. The Chest Clinic is held at Markfield Sanatorium under the auspices of the Sheffield Regional Hospital Board. Relaxation classes for pregnant mothers are held at the Ivanhoe Community College, Ashby-de-la-Zouch, on Wednesday mornings of each week except during school holidays.

Ambulance Facilities.

The Ambulance service throughout Leicestershire is provided by the County Council from eight Ambulance Stations. The whole fleet is equipped with two-way radio communication and all ambulance movements are controlled from the Ambulance Headquarters in Leicester.

Each two-stretcher ambulance, (of which there are three based at Coalville), is equipped to administer Oxygen to patients if required and a Brook airway is carried on all vehicles to facilitate direct artificial respiration. In addition a Minnteman and/or Novox resuscitator is available at each Ambulance Station, and it is taken out with calls where it is thought that its use might be necessary.

Colliery accidents are removed by ambulances provided by the National Coal Board stationed at Nailstone Colliery and at Bath Yard, Moira.

Nursing in the Home.

All district nursing and midwifery in the home is under the Leicestershire County Council.

Health Visiting.

This work is provided by the Leicestershire County Council and the work of Health Visitor, School Nurse, and Tuberculosis Visitor is combined in a single appointment.

The Diabetic Health Visitor attends the Diabetic Clinic at the Leicester Royal Infirmary and visits the patients in their homes on request.

Laboratory Facilities.

Public Health Laboratory, Isolation Hospital, Groby Road, Leicester.

The following examinations were made during the year :

Whooping Cough.	1
Milk.	1
Nose and throat swabs.	10
Faeces and urine.	190
Sputa.	103
Water.	5
Ice Cream.	18
Blood.	1
Vaginal cervical swabs.	10
Miscellaneous.	7
	<hr/>
	346
	<hr/>

Generally there is co-operation between the local authority and the services provided by the Executive Council and the Hospital Board and the tendency is towards closer integration.

Meals on Wheels.

This was started in January, 1964. There are two Schemes, one serving Measham, Oakthorpe and Donisthorpe, and the other serving Ravenstone, Swannington and Coleorton, each supplying 12 meals twice weekly. Later, on one side, the scheme was extended. Preparations are being carried out to make a Survey of the District and ascertain the needs of the whole District for the service.

Paratyphoid B Carrier.

In October, 1963, a woman, aged 56, a cleaner at a nearby hospital just out of your area, was found to be a carrier of Salmonella Paratyphi B. She was the only case found and all the others in her house were clear. She took all necessary precautions and had several treatments at home but refused to go away to hospital. She was still excreting bacilli at the end of the year. Thanks are due to her own doctor for helpful co-operation.

Measles.

Measles was prevalent during the first 8 months of the year being spread over the whole district.

Visitors to an area where Smallpox is endemic.

Three people who had been on holiday cruises and had visited an area in North Africa where smallpox is endemic were kept under observation, but developed no illness. They were also given advice.

IMMUNIZATION AGAINST DIPHTHERIA.

ANNUAL REPORT
OF THE
SURVEYOR AND PUBLIC HEALTH INSPECTOR

To the Chairman and Members of
the Rural District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Mrs. Sumnall, Gentlemen,

I have pleasure in presenting my Annual Report for
the year 1964.

The Housing Act, 1964, came into force during the
year under review. The chief provisions related to the
making of Improvement Areas and alterations to the payments
which can be made where Standard Grants are given, in an
effort to make these more equitable. Where it is necessary
to build on, construct septic tanks, or bring water into the
property for the first time, additional grant aid can now be
given.

The Offices, Shops and Railway Premises Act became
law and a considerable amount of work in connection with
this Act has been carried out.

The North West Leicestershire Water Board has been
formed, but I imagine some 6 or 9 months will elapse before
it will be actually functioning as a working authority.

It was gratifying to be able to report to Committee
that possible sites for houses had been found in the villages
of Newton Burgoland, Swepstone and Snarestone; as great
difficulty had been experienced in obtaining land in these
villages.

WATER SUPPLY.

Increased consumption (both domestic and non-
domestic) coupled with the loss of water from major bursts,
due to mining subsidence, put a considerable strain on the
supply and distribution network.

On the Measham side of the district the "draw-off" from the mains is such that even with the auxiliary well pump augmenting the borehole pump no water reaches the reservoir during the daytime and the No. 2 Borehole is pumped for 24 hours per day.

To safeguard supplies various trials and experiments were carried out with some success. It was found possible to transfer water from the Heather side of the district to the Measham side during the night and this has been done when the Willesley reservoir was emptied due to mining subsidence bursts.

The standby pump was fitted with a pressure switch and trials showed that should the need arise both borehole pumps could be run together and water pumped to the reservoir during the daytime. The extra K.V.A. required, however, makes this an uneconomical proposition and this method would only be used if for some reason it was not possible to transfer water from the Heather side.

On the Heather side the No. 2 Borehole again caused much concern, and during dry spells the water level fell to 120 feet and cut off the pumps. The pump is now running throttled down and pumping over a longer period per day. Since this method of pumping was introduced the pumping level has not fallen below 110 feet provided the total daily extraction does not exceed approximately 135,000 gallons per day.

A permanent connection has been made between the Swadlincote and Ashby's Joint Water Board 12" Main at Worthington and this Council's 4" Main. This is capable of feeding in excess of 100,000 gallons per day into our Mains. The average taken per day through this connection has, in fact, been about 60,000 gallons, but on occasion, due to mining subsidence bursts, breakdowns, etc. this has been increased to 90,000 gallons per day.

It is interesting to note that water consumption throughout the County shows a progressive increase each year. This can partly be attributed to a more affluent society consuming more water due to more washing machines, flush toilets, bathrooms, hot water installations, houses connected to sewage schemes, car washing, etc., and, of course, an increased use of water in trade processing.

Particulars of water supplies to dwelling houses :

Internal Mains Water supply		Mains water from External standpipes.		Well water supply.	
No. of dwelling houses.	Population.	No. of dwelling houses.	Population.	No. of dwelling houses.	Population.

Number of parishes without a piped supply : one (part) - Bardon.

Water Supply from Wells.

Number of samples taken for analysis.			
Satisfactory.		Unsatisfactory.	
Chemical.	Bacteriological.	Chemical.	Bacteriological.
Nil	1	Nil	4

SEWAGE DISPOSAL.

Damage continued to occur to sewers due to mining subsidence. The sewer recently relaid as an emergency measure in Ashby Road, Measham, was again damaged, as were sewers in Leicester Road, Measham, and sewage ceased on occasion to reach Swannington Works. The new pumping station which is to be used to pump the sewage from Swannington to Coalville U.D.C. Snarrow Works was 95% completed at the year end. The recirculatory scheme at the Worthington works was brought into operation. Manholes on the outfall sewer to Donisthorpe works were built up as an emergency measure in order to keep the sewer running because of mining subsidence damage.

The question of costs for dealing with farm effluent and the making of charges to farmers was under consideration and a draft scheme had been prepared by the year end.

The position at the year end was as follows :

<u>Appleby Magna.</u>	Scheme completed for main part of village. Appleby Parva - extension scheme deferred because of cost.
<u>Bardon.</u>	Scattered area - impossible to sewer.
<u>Chilcote.</u>	Scheme being prepared.
<u>Coleorton.</u>	Deferred indefinitely because of mining subsidence.
<u>Donisthorpe.</u>	Works over-loaded - scheme for enlargement and improvement in course of preparation in conjunction with Ashby Woulds U.D.C.
<u>Heather.</u>	Scheme completed some 10 years ago - very strong effluent causing treatment difficulties - recirculation scheme prepared.
<u>Measham and Oakthorpe.</u>	Works recently modernised and enlarged, very strong effluent suspected and further investigations into necessity for further enlargement in hand.
<u>Normanton-le-Heath.</u>	Scheme in course of preparation.
<u>Osgathorpe.</u>	Scheme completed.
<u>Packington.</u>	Scheme completed.
<u>Ravenstone.</u>	Works badly overloaded - scheme for complete reconstruction in hand.
<u>Snarestone.</u>	Scheme completed - these works deal with effluent from Appleby Magna, Snarestone, Newton Burgoland and Swepstone and they are overloaded and a scheme for enlargement is in hand.
<u>Stretton-en-le-Field.</u>	Scattered area - impossible to sewer.
<u>Swannington.</u>	New pumping station being constructed to pump sewage to Coalville U.D.C.'s works.
<u>Swepstone and Newton Burgoland.</u>	Scheme completed.
<u>Worthington.</u>	Scheme completed.

A draft scheme was prepared for the cleaning out of about $1\frac{1}{2}$ miles of brookcourse at Appleby Magna to alleviate flooding which takes place and to allow further development of housing sites to be carried out. This will require Ministry approval as it is hoped to obtain Grant Aid.

Inspection of sewers and ditches and work in hand.	159
Blocked sewers.	15
Inspections of sewage works and pumping stations.	215
Ditches cleaned out.	4
Brookcourse cleaned out.	1
Number of septic tanks constructed during the year.	15
Number of cesspools abolished during the year.	14
Number of septic tanks/cesspools in the district at 31st December, 1964.	371
Sewers relaid.	3

NEW DRAINAGE AND CLOSET CONVERSIONS.

(other than work connected with Improvement Grants/
Standard Grants).

New drainage systems laid to sewer.	19
New water closets constructed to replace pan closets.	19
Pail closets abolished.	19
Visits of inspection.	79

A grant of not more than £10. 0. 0. is given to encourage the conversion of pails, privies, etc. to water closets. This amount is now totally inadequate, the cost of closet conversions is such that £10. 0. 0. is only a fraction of the cost, especially where no sewer is available.

Closet accommodation.

Total number in district at 31st December, 1964 :

Privies : 1 Pail Closets : 538 Water Closets : 4,055

COMPLAINTS.

Set out below are details of the various complaints which have been received together with a table showing repairs and improvements carried out.

Dwellings rendered fit or defects remedied.	25
Complaints received.	86
Premises inspected.	93
Groundless complaints.	4
Revisits to work in hand.	420
Premises at which nuisances abated.	59
Informal notices served.	82
Drains relaid, repaired, trapped or ventilated or cleared, (does not include sewers).	42
Cesspools cleansed or repaired.	2
Chimney stacks repaired.	4
Damp walls remedied.	4
Ditches cleaned out.	4
Fireplaces repaired or new ones provided.	2
Plastering repaired.	1
Footpaths cleared.	3
Roofs repaired.	8
Eaves gutters repaired or renewed.	4
Floors repaired.	1
Offensive accumulations removed.	9
Miscellaneous nuisances abated.	5
Dangerous walls made safe.	1
Cellar flooding abated.	3
Fly nuisances abated.	4
Windows repaired.	6
Skirting Board repaired.	1
Dirty houses cleansed.	2
Fish and Chip shops offensive smell abated.	1

ANIMAL BOARDING ESTABLISHMENT
ACT, 1963.

This Act came into operation on January 1st, 1964, and provided for the licensing and inspection by local authorities of any establishment which provided accommodation for the boarding of cats and dogs as the main business. The object was to raise the standard of accommodation throughout the country. This has produced no problem in the district since only three small establishments have been licensed and these are used mainly in the Summer months. The Act lays down a minimum standard for the care and the accommodation of the animals but as these can be widely interpreted it will be appreciated that standards will vary between Authorities.

In the case of this Authority a standard was decided upon in consultation with an Inspector of the R.S.P.C.A.

22 visits of inspection have been made.

CARAVAN SITES.

There are 31 licensed caravan sites in the district but a number of these are not now occupied - 128 visits have been made.

The Council's own site at Appleby Magna has now been completed - this site is for 15 vans. The site comprises a central ablution block with laundry, toilets, wash hand basins, showers, hot water system, etc., centrally sited with tarmac footpaths radiating to an 8'0" tarmac road. Vans stand on concrete bases with slab surrounds. Three standpipes are provided and tenants can have cold water laid on into their vans at their own cost. Electricity is hld on to a wooden hut provided at the side of each van, it being the tenants responsibility to bear the cost of taking the electricity from this point into the van. A car park is sited at the entrance. A 5/- charge is made for a daily tenancy and application can be made for a weekly tenancy at 25/- per week. If electricity is taken into the van there is an additional charge of 7/- per week.

PREVENTION OF DAMAGE BY PESTS ACT, 1949.

Prior to the year under review the Rodent Operator was employed by the Council on these duties every other week. It has been possible during the present year for him to spend something approaching three quarters of his time on these duties with much more satisfactory results, specially at refuse tips, etc.

A total of 1,721 visits to premises were made by him during the year and 238 premises treated.

OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963.

The above Act came into operation in 1964, and was designed to improve conditions in respect of Health, Welfare, Safety and Fire Precautions, etc., for persons employed in Offices, Shops and certain premises of Railway Undertakings. The Act required that if a person employed or was intending to employ people at such premises notice must be given to the enforcing Authority. Authorities responsible for the administering of the Act are the Local Authority, H.M. Inspector of Factories and H.M. Inspector of Mines and Quarries.

A series of Memoranda concerning the operation of the Act was received from the Ministry of Labour from time to time. These were helpful, but some difficulty was experienced in obtaining guards of the type recommended for meat slicing machines.

The National publicity given to the Act did not appear to have been completely successful. There were many cases of persons who were responsible for notifying the Enforcing Authorities who were unaware of their duty in this respect.

The Cross Street, Measham, development has been completed. This consists of two 3-bedroomed houses, a bungalow and an old peoples' block consisting of a warden's flat, 11 bed/sittingroom flatlets, 4 flatlets with bedroom and sittingroom, communal room, together with bathrooms, water closets, etc. The tenants appear to be very satisfied with the old peoples' flatlets, and the scheme can be looked upon as being very successful.

At Packington the construction of three 3-bedroomed houses, one 4-bedroomed house and two 2-bedroomed flats was completed, as was work at Appleby Magna on sixteen 3-bedroomed houses and four 2-bedroomed flats on the Parkfield Crescent site.

The erection of a block of old peoples' flatlets at Heather was commenced, together with eight 3-bedroomed houses and four 2-bedroomed flats.

At last a site for a small number of houses was found at Snarestone, and negotiations satisfactorily concluded with the owner. Similarly with small areas of land at Newton Burgoland and Sweptstone.

At the end of the year plans were being prepared for the dwellings at Snarestone and the site layout was being prepared for Newton Burgoland.

Plans were in course of preparation for development of part of the site at Osgathorpe already owned by the Council.

TOWN AND COUNTRY PLANNING ACT, 1947.

Applications for planning permission have continued to increase in number, more people than ever appear to wish to live in the country, and are either buying new, or renovating old houses.

During the year 278 applications were made in respect of permission to develop, an increase of 24.6% over the previous year.

BUILDING BYELAWS.

During the year 276 plans were submitted for consideration under the Building Byelaws, an increase of 13.6% over the previous year.

LOANS FOR HOUSE PURCHASE.

60 properties were inspected during the year as a result of requests for loans in connection with house purchase, and in the majority of cases loans were approved. 66 visits of inspection being made.

IMPROVEMENT GRANTS.

These grants are discretionary, Councils being themselves able to decide as a matter of policy whether to make grants or not.

It has been the Council's policy to give 50% towards the cost of work eligible for grant. Just over two-thirds of the applications are from owner/occupiers.

STANDARD GRANTS.

Standard Grants are not discretionary, all local authorities must make a grant where the property has a life of not less than 15 years. The amounts which must be given are set out in the House Purchase and Housing Act, 1959, as amended by the Housing Act, 1961, and grant can only be given in order to provide certain amenities, i.e. (a) a fixed bath or shower in a bathroom, (b) a wash hand basin, (c) a hot water system, (d) a water closet in the dwelling, and (e) satisfactory facilities for the storage of food.

Approximately three-quarters of the applications have been from owner/occupiers.

NAMING OF STREETS.

Street name plates have been fixed in the village of Normanton-le-Heath, and a survey has been carried out of the village of Measham with a view to name plates being renewed and additional ones provided.

PUBLIC CLEANSING.

The protracted negotiations with Inland Waterways for the use of the discontinued canal at Measham as a refuse tip were finally concluded and tipping was commenced towards the end of the year, following demolition of the canal bridge and renovations to the British Railways bridge, which the vehicles have to cross.

Coronet Tip is now no longer used, and a notice was erected warning people of this, in an effort to prevent the haphazard dumping of refuse which takes place on the roadside here.

The rear loading vehicle ordered for the Swannington side of the district was delivered and brought into use. By agreement with the workmen the Bonus period on this side was reduced from seven working days to six.

A new cesspool emptying vehicle was ordered. All the refuse collection vehicles now have diesel engines, and this has saved a considerable amount of money on fuel bills.

PETROLEUM.

Visits were made in respect of all new installations; excavations for tanks inspected; the tanks, pipe lines, etc., inspected and tested before a license to use is issued.

PUBLIC CONVENIENCES.

Routine inspections are made. Minor damage has continued to be caused throughout the year, especially during the darker evenings. Although the Police do their best, it is very difficult to catch the culprits.

STREET LIGHTING.

The second phase of the Council's scheme for the modernisation of street lighting throughout the district was commenced. An order was placed with the East Midlands Electricity Board for the erection of a further 185 street lights in the villages and by the 31st October approximately 80% of these had been erected.

The scheme for lighting the trunk road through the village of Measham has been carried out. Fifty 200 watt lanterns on 30'0" columns were erected to replace the 26 tungsten lamps. This has transformed the lighting along this trunk road.

May I again express to you, Mr. Chairman and Members of the Council, my thanks for your help and consideration, my appreciation to Doctor Segerdal, the Clerk of the Council and the Accountant for their help and advice, and I wish to express to the members of my own staff my thanks for the willing and conscientious way in which they have carried out their duties.

I am,

Mr. Chairman, Mrs. Sumnall, Gentlemen,

Your obedient servant,

C.S. CURTIS.
