Rural District Council Offices,
South Street,
Ashby-de-la-Zouch,
Leicestershire.

September, 1967.

To the Chairman and Members of
the Rural District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Mrs. Sumnall, Gentlemen,

I beg to present my Report for the year 1966.

According to the Registrar General's estimate the population has remained the same at 13,700.

The birth rate, 14.8, is lower than last year, 16.6, and lower than that for England and Wales, 17.7.

The death rate, 11.6, is slightly higher than last year, 11.5, and slightly lower than that for England and Wales, 11.7. The death rate of infants under one year is 15.2 compared with 13.9 in 1965, and England and Wales, 19.0, and the still birth rate is 10.0 compared with 15.4 for England and Wales.

The chief causes of death, as has been the case for some years past, were from diseases associated with elderly people.

There are 445 septic tanks in the district, 41 septic tanks were constructed and 4 abolished during the year. 6 closets were converted to the water carriage system during the year.

182 houses were completed during the year making a total of 1,504 houses completed in the post-war period. 134 houses are in the course of construction.

The total number of applicants for Council houses at the end of the year was 214, and the number of applications received during the year was 112.

Local Health Council Offices,
Health Street,
Kandy-4-1-2000,
Ceylon.
September, 1957.

To the Chairman and Members of
the Local Health Council of
Kandy-4-1-2000.

Mr. Chairman, Sir, Members, Gentlemen,

I am so pleased to report to you that the

work done by the Health Council in the year 1956
has resulted in the sum of Rs. 15,000.

The total sum of Rs. 15,000 was spent in the year 1956
and I am sure that the Council and the people

will be satisfied with the results of the year 1956.
The Council has done a lot of work in the year 1956
and I am sure that the Council and the people
will be satisfied with the results of the year 1956.
The Council has done a lot of work in the year 1956
and I am sure that the Council and the people
will be satisfied with the results of the year 1956.

The total sum of Rs. 15,000 was spent in the year 1956
and I am sure that the Council and the people
will be satisfied with the results of the year 1956.

There are a few more things that I would like to mention
and I am sure that the Council and the people
will be satisfied with the results of the year 1956.

The Council has done a lot of work in the year 1956
and I am sure that the Council and the people
will be satisfied with the results of the year 1956.

The total sum of Rs. 15,000 was spent in the year 1956
and I am sure that the Council and the people
will be satisfied with the results of the year 1956.

Implementation of the Food Hygiene Regulations, 1955, proceeded satisfactorily and no formal action has been necessary.

115 cases of infectious diseases were notified during the year, of which 104 were Measles, 5 Whooping Cough, 3 Scarlet Fever, 2 Pneumonia and 1 Puerperal Pyrexia. Measles were prevalent over the whole district during the year, but most of the cases occurred in January. There were 9 Pneumonia deaths. The Whooping Cough and Scarlet Fever cases were mild.

The woman carrier of Paratyphoid B remained unchanged at the end of the year.

During the year 1 case of Pulmonary Tuberculosis was notified, an elderly male. The Tuberculosis was not severe. There were no Tuberculosis deaths. 4 cases were removed from the Register, leaving 16 people on the Register, which is the lowest ever. Most of these people are either ambulatory or at work.

To the staff of the Public Health Department of the County Council, and to Doctor Mair, Director of the Public Health Laboratory, I wish to extend my thanks for their willing help and co-operation.

Finally, I wish to thank Mr. C.S. Curtis, Surveyor and Public Health Inspector, and Mr. H. Batteson and Mr. W.E. Farley, Additional Public Health Inspectors, for their invaluable help during the year, and, you, Mr. Chairman, Mrs. Sumnall, Gentlemen, for your kindness and co-operation:

I remain,

Mr. Chairman, Mrs. Sumnall, Gentlemen,

Your obedient servant,

A.McM.W. SEGERDAL.

SECTION B.
GENERAL PROVISIONS OF HEALTH SERVICES FOR
THE AREA.

Hospitals.

All Hospitals, except some private maternity and nursing homes are under the Sheffield Regional Hospital Board.

The County Homes for the elderly are under the County Council. When the residents take ill they become the responsibility of the Regional Hospital Board.

Cheshire Home for the Sick (Staunton Harold Home).

The State does not yet provide anything like enough accommodation for people who are over school leaving age and under retiring age who are so chronically disabled as to be unable to earn their own living. The Home is an attempt to provide such accommodation and to encourage all sorts of activities, some of which have commercial value, so that the resident patients on entering the Home start a new life useful to each other and useful to other people.

The capacity of this Home is 42. Twenty-four places are provided for males, and eighteen for females.

This Cheshire Home, in common with the others, provides safe accommodation and freedom from worry about day to day living. It does not provide remedial or surgical treatment, but just a place which is "Home".

Two thirds of the finance is provided by the State Benefit, (to which any sick person is entitled), and by the Local Authority from which the patient originally came. The remainder of the money is given by the general public, from whom the Home needs about £12,000 each year to keep open.

During the year some building improvement has been achieved by re-siting the kitchen, giving the cooks better facilities and more room. The Womens' Ablution Room has been re-designed and a free standing bath installed to make it easier for the staff to cope with disabled people.

ARTICLE II
GENERAL PROVISIONS OF HEALTH RELATIONS FOR
THE CITY OF ALBANY

Section 1.

All hospitals, sanatoria, nursing homes, asylums, and institutions for the insane, and all hospitals, sanatoria, nursing homes, asylums, and institutions for the insane, shall be subject to the provisions of this article.

The Board of Health of the City of Albany shall have the duty of enforcing the provisions of this article, and of reporting to the City Council the results of its enforcement.

Section 2.

The Board of Health of the City of Albany shall have the duty of enforcing the provisions of this article, and of reporting to the City Council the results of its enforcement. Treatment Centres and Clinics.

An Infant Welfare Clinic was instituted at Measham in October, 1964, and has proved a very popular innovation for the community.

It is held on the 1st and 3rd Friday of the month from 2.30 p.m. to 4.30 p.m., and is attended by the Measham Doctors and the Health Visitor.

The average attendance at the Clinic has been about 50 mothers with their infants.

Infant Welfare Clinics are held every Thursday afternoon at the Baptist School, Ashby-de-la-Zouch, and every 2nd and 4th Tuesday afternoon at the Centenary Methodist Church, Donisthorpe Road, Moira. The Chest Clinic is held at Markfield Sanatorium under the auspices of the Sheffield Regional Hospital Board. At the Health Centre, Bridge Road, Coalville, an Ante-Natal Clinic is available. Relaxation classes for pregnant mothers are held at the Ivanhoe Community College, Ashby-de-la-Zouch, on Wednesday mornings of each week except during the school holidays.

Ambulance Facilities.

The Ambulance service in North West Leicestershire is provided by the County Council from the Coalville Ambulance Station, where three Ambulances and five dual purpose vehicles are based, to give a 24 hour service.

During 1966 vehicles based at the Coalville Ambulance Station conveyed 24,532 patients a total of 223,278 miles.

Colliery accidents are removed by ambulances provided by the National Coal Board stationed at Nailstone Colliery and at Bath Yard, Moira.

Nursing in the Home.

All district nursing and midwifery in the home is under the Leicestershire County Council.

Health Visiting.

This work is provided by the Leicestershire County Council and the work of Health Visitor, School Nurse, and Tuberculosis Visitor is combined in a single appointment.

The Diabetic Health Visitor attends the Diabetic Clinic at the Leicester Royal Infirmary and visits the patients in their homes on request.

Laboratory Facilities.

This work is carried out by the Public Health Laboratory, Isolation Hospital, Groby Road, Leicester.

Generally, there is co-operation between the Local Authority and the services provided by the Executive Council and the Hospital Board and the tendency is towards closer integration.

Meals on Wheels.

There are two schemes, one serving Measham, Oakthorpe, Donisthorpe and Packington area, and the other serving Coleorton, Swannington, Ravenstone and Worthington area, some 24 meals being served twice weekly in each area.

This work is reported on the International Study Group
and the work of the Study Group, which has been
conducted in a similar manner.

The results of the Study Group are reported in the
International Study Group, which has been
conducted in a similar manner.

Abstract of the Study

This work is reported on the International Study Group
and the work of the Study Group, which has been
conducted in a similar manner.

Generally, there is no significant difference between the
results of the Study Group and the International Study Group,
which has been conducted in a similar manner.

Conclusions

There are two main conclusions, one relating to the
International Study Group, and the other relating to the
Study Group, which has been conducted in a similar manner.

Paratyphoid B Carrier.

In October, 1963, a woman was found to be a carrier of Salmonella Paratyphi B. She took all necessary precautions. She was still excreting bacilli at the end of the year. Thanks are due to her own doctor for helpful co-operation.

Measles.

Most of the cases occurred in January, the rest were scattered over the whole district for the rest of the year.

Salmonella Infection.

A woman had a mild attack of gastro-enteritis and was found to be infected with Salmonella Typhimurium. Fortunately, all bacteriological examinations were negative after the symptoms ceased, and all contacts were negative. This was not a case of food poisoning, nor was it possible to say where the infection came from.

Tuberculosis.

During the year only one case of Pulmonary Tuberculosis was notified, male and elderly.

Four cases were removed from the Register - two cured, (one male pulmonary and one male non-pulmonary), one female pulmonary and one male pulmonary left the district, leaving a total of sixteen cases in the Register. Most of these cases are either at work or ambulatory.

Sixteen cases on the Register is the lowest ever.

Cases attend for treatment at Markfield Hospital Chest Clinic and at the Outwoods Hospital, Burton-on-Trent, where there are also special clinics for contacts.

Paratyphoid B. Culture

In October, 1911, a woman was found to be a carrier of *Salmonella Paratyphi B*. She took all necessary precautions. She was still excreting bacilli at the end of the year. There are due to her two doctors for helpful cooperation.

Notes

Most of the cases occurred in January, the first year. Scattered over the whole district for the rest of the year.

Salmonella Infantis

A woman had a mild attack of gastro-enteritis and was found to be infected with *Salmonella Infantis*. Fortunately, all bacteriological examinations were negative after the typhoid season, and all cultures were negative. This was not a case of food poisoning, nor was it possible to say where the infection came from.

Tuberculosis

During the year only one case of Pulmonary Tuberculosis was notified, male and elderly.

Four cases were removed from the Register - two males, (one male pulmonary and one male non-pulmonary), one female pulmonary and one male pulmonary left the district, leaving a total of six cases in the Register. Most of these cases are either at work or unemployed.

Sixteen cases on the Register in the latest year.

Cases attend for treatment at Newcastle Hospital Chest Clinic and at the Newcastle Hospital, Dursley-on-Thames, where there are also special clinics for cancer.

ANNUAL REPORT
OF THE
SURVEYOR AND PUBLIC HEALTH INSPECTOR.

To the Chairman and Members of
the Rural District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Mrs. Sumnall, Gentlemen,

I beg to present this my Annual Report for the year 1966.

During this year the Building Regulations, 1965, came into operation. These Regulations will operate on all buildings, the plans of which were submitted after 1st February, 1966, and, in certain cases, to buildings erected before that date, should alterations be carried out. The result is that on one housing site it is at present possible for two dwellings to be in course of erection but subject to different Regulations. The Regulations are the same all over the Country so that builders know that all they have to do in any district is comply with one set of Regulations - if they can understand them. The Regulations give more freedom in some respects, but are much more stringent in others, particularly where fire is concerned.

Mining subsidence continued to cause concern, both because of its effect on dwellings with resulting financial loss, and because of the discomfort and mental suffering - especially for housewives. As a local authority our own houses suffered as did our ~~services~~ - especially our sewers. The outfall sewer to Donisthorpe Works had to be relaid and a new Pumping Main and Station constructed to remedy mining subsidence damage, and at the end of the year a scheme was being hurriedly prepared to remedy serious further subsidence which was forecast by the National Coal Board in the Donisthorpe Area, arrangements being made for additional "lifting" capacity at Ramscliff Avenue Ejector Station. At the time of preparing this report it appears likely that two further Pumping Stations will be needed in Donisthorpe alone - 4 Pumping Stations in one small village.

ANNUAL REPORT
OF THE
COMMISSIONER OF PUBLIC HEALTH
FOR THE YEAR 1905

To the Governor and Council of
the State of New York
Albany, N. Y., 1906.

Mr. Chairman, Hon. Council, Gentlemen,

I beg to present to you my Annual Report for the year 1905.

During the year the Sanitary Department, 1905, was
into operation. These regulations will operate on all buildings,
the plans of which were submitted after the 1st January, 1905, and
in certain cases, to buildings erected before that date, should
alterations be carried out. The result is that on the opening
also it is at present possible for the buildings to be in compliance
of erection but subject to different regulations. The
regulations are the same all over the County as they were
before and all that have to do in any district is comply with the
act of Regulations - it may be understood that the Regulations
give more freedom in some respects, but are much more stringent in
others, particularly where fire is concerned.

During the year the Sanitary Department, 1905, was
of its effect on buildings with existing structural laws, and
because of the character and extent of the alterations - especially for
houses. As a local authority our own health officers are
did our duties - especially our own. The official report to
Donahoe House had to be revised and a new building plan and
Station constructed to comply with existing regulations, and at
the end of the year a scheme was being hurriedly prepared to
renew the existing building regulations which was forwarded by the
National Coal Board in the Donahoe House, arrangements being
made for additional "lifting" capacity of the existing
Station Station. At the time of preparing this report it appears
likely that the further building Station will be added in
Donahoe House alone - 5 building Station in the small village.

On the 1st April the North West Leicestershire Water Board started to operate in this Council's district; prior to this we had, for approximately 1 year, acted as Agents for the Board. During the past year the Board have laid many connection mains to link up villages in this Rural District with the Urban District Council's mains, and so enabled water to be pushed from one authority to another during times of emergency. This is something which we always wanted to do but never could do - had we been able to, it would have saved much worry during the previous 15 years and saved inconvenience to householders. From this point of view the formation of the Water Board is a very good thing.

During the year we were approached by the National Coal Board regarding the erection of about 200 houses for displaced miners from the North. A subsidy to be given by the National Coal Board. The Council, after investigation and discussion, decided to co-operate with the Board and land was purchased adjoining the Tamworth Road, Measham. Negotiations were entered into with Messrs. George Wimpey & Co. Ltd., for the erection of the houses, and at the end of the year a scheme had been prepared, received planning approval, and was being priced. The Council had agreed, in principle, that the dwellings be heated by means of a district heating scheme, and a scheme was in course of preparation at the year's end.

Efforts to encourage owners to take advantage of Standard and Improvement Grants continued, approaches being made to some 320 owners during the year.

On the 1st April the North West Lancashire Water Board started to operate in this Council's district. To this we had for approximately 1 year, acted as Agents for the Board. During the last year the Board have laid many connections and to link up villages in this Rural District with the Urban District Council's mains, and we anticipated to be guided from one authority to another during this emergency. This is something which we always wanted to do but never could do - had it been this way, it would have saved much worry during the previous 15 years and saved considerable in expenditure. From this point of view the formation of the North West is a very good thing.

During the year we were approached by the National Coal Board regarding the extension of about 100 houses for displaced persons from the North. A subsidy to be given by the National Coal Board. The Council, after investigation and discussion, decided to co-operate with the Board and land was purchased adjoining the Burnley Road, Burnley. Legislation was entered into with Messrs George Wray & Co. Ltd. for the erection of the houses, and at the end of the year a scheme had been prepared, received planning approval, and was being carried out. The Council had agreed in principle, that the building be carried by means of a district housing scheme, and a scheme was in course of preparation at the year's end.

Efforts to encourage owners to take advantage of Standards and Improvement Grants continued, approaches being made to some 175 owners during the year.

SEWAGE DISPOSAL.

The position at the year end was as follows :

<u>Appleby Magna.</u>	Scheme completed for main part of village. Scheme for enlargement of Pumping Station deferred as this forms part of Snarestone Sewage Works extension scheme.
<u>Bardon.</u>	Scattered area - impossible to sewer.
<u>Chilcote.</u>	Scheme being prepared.
<u>Coleorton.</u>	Deferred indefinitely because of mining subsidence.
<u>Donisthorpe.</u>	Works over-loaded - work of re-construction commenced. Pumping main to replace outfall sewer and new Pumping Station constructed. Enlargement of works commenced.
<u>Heather.</u>	Scheme completed some 10 years ago - a very strong effluent caused treatment difficulties and a re-circulation scheme has been installed, and has proved satisfactory.
<u>Measham and Oakthorpe.</u>	Works modernised and enlarged some 5 years ago, but very strong effluent led to a suspicion that the Works were still over-loaded and investigations were carried out, confirming this suspicion. As a first step Banks Clarifiers are being installed on the Humus tanks to deal with this and additional effluent which is to be pumped from the new housing development off Atherstone Road. A scheme is to be prepared for the enlargement of the Works and for the relaying of the over-loaded flat outfall sewer.

<u>Normanton-le-Heath.</u>	Scheme being prepared for pumping to Ravenstone.
<u>Osgathorpe.</u>	Scheme completed.
<u>Packington.</u>	Scheme completed.
<u>Ravenstone.</u>	Works badly over-loaded - scheme for complete reconstruction in hand.
<u>Snarestone.</u>	These Works deal with effluent from Appleby Magna, Snarestone, Newton Burgoland and Swepstone and are over-loaded. A scheme for enlargement was submitted to the Ministry, but after a public enquiry the scheme was deferred. The effluent at these Works improved very considerably during the year once farm effluent from Appleby Magna was taken out of the sewers.
<u>Swannington.</u>	New Pumping Station constructed to pump sewage to Coalville Urban District Council's Works. This Pumping Station was burnt to the ground following an electricity fault.
<u>Swepstone and Newton Burgoland.</u>	Scheme completed.
<u>Worthington.</u>	Scheme completed.

There are now eleven Pumping Stations in use in the Rural District, with a further one under construction at Mill House Estate, in the parish of Osgathorpe.

The scheme for the cleaning out of the Appleby Magna Brook Course was approved by the Ministry, and was commenced. The work included cleaning out approximately $1\frac{1}{2}$ miles of brook, some re-alignment, and the construction of 5 new sleeper bridges to replace old arched brick bridges which impeded the flow. The scheme was half completed by the end of the year; some difficulty was being experienced due to rock in the bed of the stream.

ANIMAL BOARDING ESTABLISHMENT ACT, 1963.

Routine inspections of the three licensed establishments were carried out throughout the year, and some improvements were found to have been made to the layout and the buildings at two of the premises. Generally speaking, the operation of the establishments has been such that the standards laid down by the Act have been maintained.

In the case of this Authority a standard was decided upon in consultation with an Inspector of the R.S.P.C.A.

11 visits of inspection have been made to the three Animal Boarding Establishments.

CARAVAN SITES AND MOVEABLE DWELLINGS.

As anticipated it became necessary to instal meters to govern the electricity supply to the individual caravans at the Appleby Magna Site; it was found that there was considerable wastage as long as the tenants were on a fixed charge and consumption fell immediately the meters were fixed.

Charges at the site are as follows :

Daily tenancy :	- 5/- per day.
Weekly tenancy :	- 25/- per week.
Electricity supply in van	- by 2/- meter.

At the year end a number of unauthorised sites had come into use, and after the failure to ensure removal of the vans following visits and warning letters the Council authorised legal proceedings to be taken.

55 visits were made in connection with caravan sites.

PREVENTION OF DAMAGE BY PESTS ACT, 1949.

The Council's Rodent Operator was employed full time during the year - although part of his actual working time was spent in the Ashby-de-la-Zouch Urban District - an average of 8 hours per week.

OFFICES, SHOPS AND RAILWAY PREMISES
ACT, 1963.

Visits have continued throughout the year concerning the requirements of the above Act relating to the offices and shops in the district. It is noticeable that whilst this Authority has not a great number of offices and shops no accidents were reported during the year.

Gradually the problem of obtaining and fitting guards to meat slicing machines is being overcome, though some difficulty is being experienced, particularly in the case of the older type of machines.

Despite the fact that this Act has been in force for some considerable time notification of intention to employ persons is rarely received and it is only when the employers' attention is drawn to this that steps are taken to rectify the matter.

TOWN AND COUNTRY PLANNING ACT, 1947.

Applications for planning permission have continued at last year's high rate, 216 applications being dealt with.

BUILDING REGULATIONS.

During the year 296 plans were submitted for consideration under the Building Regulations.

LOANS FOR HOUSE PURCHASE.

50 properties were inspected during the year as a result of requests for loans in connection with house purchase, and, in the majority of cases, loans were approved. 55 visits of inspection were made.

IMPROVEMENT GRANTS.

These grants are discretionary, Councils being themselves able to decide as a matter of policy whether to make grants or not.

It has been the Council's policy to give 50% towards the cost of work eligible for grant. Almost all of the applications are from owner/occupiers.

PUBLIC CLEANSING.

Tipping continued in the old cutting off Stoney Lane, Coleorton; in the Canal bed at Measham, and off Measham Road, Donisthorpe.

Although old railway sleepers are used for the 30'0" or so immediately adjoining the tip faces to support the vehicles, the tips are moving rapidly forward, particularly on the disused canal at Measham, and this causes considerable difficulty in maintaining a satisfactory access to the face. Very wet weather at the beginning and end of the year aggravated the situation.

We have about 3 years tipping space left and will then be in serious difficulty unless we find additional means of disposal.

The cesspool emptying vehicle has continued to be employed each morning of the week emptying pans and three afternoons each week emptying cesspools. In addition a side loading refuse collection vehicle spends two mornings each week emptying pans by means of a portable night soil tank.

271 visits were made during the year in connection with public cleansing.

PETROLEUM.

Visits were made in respect of all new installations; excavations for tanks inspected; the tanks, pipe lines, etc. inspected and tested before a license to use is issued.

PUBLIC CONVENIENCES.

Routine inspections are made. There has been further minor damage throughout the year, especially during the darker evenings, but, if anything, slightly less than in previous years.

THEORY OF THE CASE

The first question is the one which the jury has to decide. It is the question of the facts, and it is the question of the law.

STREET LIGHTING.

The whole of the Rural District street lighting has now been re-organised, and appears to be very satisfactory. There has been some damage due to vandalism. 61 visits of inspection have been made.

I wish to again express to you Mr. Chairman, and to Members of the Rural District Council, my thanks for the understanding and support you have shown to my Department during the year.

I am most grateful to Dr. Segerdal, the Clerk and the Accountant for their advice and help, and to the members of my staff for their conscientious work during the year.

I am,

Mr. Chairman, Mrs. Sumnall, Gentlemen,

Your obedient servant,

C.S. CURTIS.

STREET LIGHTS

The report of the Royal Commission on the subject of the street lighting of London is a most valuable and important document. It is a document which should be read by every citizen of London. It is a document which should be read by every citizen of London.
