Rural District Council Offices,
South Street,
Ashby-de-la-Zouch,
Leicester. LE6 5BU.

September, 1969.

To the Chairman and Members of
the Rural District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Ladies and Gentlemen,

I beg to present the Report of the Medical Officer of Health concerning the sanitary circumstances, sanitary administration and vital statistics of the district for the year 1968. This has been prepared so far as possible according to the lines indicated in Circular 1/69, dated 1st January, 1969, from the Ministry of Health.

Dr. Segerdal, who had acted as your Medical Officer of Health for many years, continued in office until 31st March, 1968, and died the following month. Thereafter I was appointed to succeed him as from 14th May, 1968. I have to thank the members of the Council and the staff generally for their kindness and consideration, and, in particular, I would like sincerely to thank all the members of the Public Health Department for their co-operation and assistance since my appointment.

I have the honour to remain,

Your obedient servant,

ANDREW HAMILTON.

Medical Officer of Health.

Private Residence.

Barony,
15, Neville Drive,
Coalville,
Leicester. LE6 3DX.

Telephone Number.

Coalville 3723.

Deaths.

	<u>M.</u> 88	<u>F.</u> 69	<u>Total.</u> 157			
				157	136	
Crude death rate per 1,000 population.				11.5	9.9	
Adjusted death rate per 1,000 population.				12.3	10.7	11.9
Ratio of local adjusted death rate to national rate.				1.03	.95	

(The area comparability factors are : Births - 1.02 and Deaths - 1.07 These figures have been used where applicable in calculating the rate given above).

Births.

196 births - 101 males and 95 females - were registered during the year. Of these, 32 births - 15 males and 17 females, occurred within the district, so that 164 births took place outside the area. The adjusted birth rate at 14.5 was lower than last year, (16.2), and lower than that for England and Wales, (16.9). The percentage of illegitimate live births was 2, compared with 3.2 for 1967, and is much lower than that for the country as a whole. Unfortunately there was an appreciable rise in the number of still births, and the local rate, (29.7), compares unfavourably with that for last year, (9), and with that for England and Wales, (14).

Deaths.

In 1967 there were 136 deaths in the district, this year 157. The death rate this year is 12.3, higher than that for 1967, (10.7), and higher than that for England and Wales, (11.9),

Maternal Mortality (exclusive of stillbirths)		1967	1968	1969
Number of deaths		0	0	0
Rate per 1,000 total live and stillbirths		0	0	0

Deaths		M.	F.	Total
Crude death rate per 1,000 population		11.5	11.5	11.5
Adjusted death rate per 1,000 population		11.5	11.5	11.5
Ratio of local adjusted death rate to national rate		1.07	1.07	1.07

(The same comparability factors are: Births - 1.07 and Deaths - 1.07. These figures have been used where applicable in calculating the rate given above).

Births

196 Births - 101 males and 97 females - were registered during the year. Of these, 35 births - 15 males and 20 females - occurred within the district, so that 66 births took place outside the area. The adjusted birth rate at 11.5 was lower than last year, (12.2), and lower than that for England and Wales, (12.2). The percentage of slightly premature live births was 2, compared with 3.2 for 1967, and is much lower than that for the country as a whole. Unfortunately there was an appreciable rise in the number of still births, and the local rate, (23.7), compares unfavourably with that for last year, (9), and with that for England and Wales, (12).

Deaths

In 1967 there were 115 deaths in the district, this year 127. The death rate this year is 11.5, higher than that for 1967, (10.7), and higher than that for England and Wales, (11.3).

97 deaths - 49 males and 48 females, were registered as having taken place within the Rural District and of these 6 - 3 males and 3 females - were of persons not normally resident in the area. 66 people - 42 males and 24 females - resident in the area died outside the area. The table below summarises the position.

	<u>M.</u>	<u>F.</u>	<u>Total.</u>
Registered in Rural District.	49	48	97
Transferred out.	<u>3</u>	<u>3</u>	<u>6</u>
	46	45	91
Transferred in.	<u>42</u>	<u>24</u>	<u>66</u>
Totals.	<u>88</u>	<u>69</u>	<u>157</u>

The deaths of those who died outside the district occurred mainly in Burton-on-Trent General Hospital; Markfield Hospital; The General Hospital, Leicester; Ashby and District Hospital; and Groby Road Hospital, Leicester. 4 were actually dead on arrival at hospital.

Infantile Mortality.

Two deaths occurred in children under one year of age, and, in fact, both deaths occurred under one week. The infantile mortality rate was 10, a very satisfactory figure, and lower than the rate for last year, (18), and for the country as a whole this year, (18). The peri-natal mortality rate, however, which refers to deaths under one week and still births combined per 1,000 total live and still births, was well up on last year - 40 compared with 18 - and was much higher than the rate for England and Wales, (25). One death was due to prematurity and occurred in hospital, whilst the other, which occurred at home, was associated with multiple congenital deformities. Both babies were only a few hours old when they died.

97 deaths - 49 males and 48 females, were registered as having taken place within the Rural District and of these 6 - 3 males and 3 females - were of persons not normally resident in the area. 65 people - 42 males and 23 females - resident in the area died outside the area. The table below summarizes the position.

Registered in Rural District.		M.	F.	Total.
Transferred out.	3	3	48	51
Transferred in.	12	34	46	80
Totals.	15	37	94	109

The deaths of those who died outside the district occurred mainly in Burton-on-Trent General Hospital, Mather's Hospital, The General Hospital, Leicester; Ashby and Market Hospital, and Groby Road Hospital, Leicester. 4 were actually dead on arrival at hospital.

Infantile Mortality.

Two deaths occurred in children under one year of age, and in fact, both deaths occurred under one week. The infantile mortality rate was 10, a very satisfactory figure, and lower than the rate for last year, (18), and for the country as a whole this year, (18). The per-natal mortality rate, however, which refers to deaths under one week and still births combined per 1,000 total live and still births, was well up on last year - 40 compared with 18 - and was much higher than the rate for England and Wales, (25). One death was due to prematurity and occurred in hospital, whilst the other, which occurred at home, was associated with multiple congenital deformities. Both babies were only a few hours old when they died.

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA.

There are no hospitals in the area but one of the Cheshire Homes for the Sick is located at Staunton Harold and is substantially supported by voluntary contributions and assisted in various ways by voluntary organisations.

General medical, dental and ophthalmic services are administered by the Leicestershire and Rutland Executive Council, 130 Regent Road, Leicester. One of the practices in the area has established a purpose built health centre, where patients are seen by appointment, and where, in co-operation with the Leicestershire County Council, Child Welfare Clinics are held twice monthly, Health Visitors and district nurses are attached to the Centre, and Ante-natal Clinics are held frequently, as well as relaxation classes, etc. This is an interesting development in the Health Service field and a pointer to the increasing liaison which is taking place between the various branches of the National Health Service.

The County Council provides most of the other medical services, e.g. the Domestic Help Service, administered from an area office in Coalville; Home Nursing; Domiciliary Midwifery; and Ambulance services, with area headquarters in Coalville. Child Welfare Clinics are also held twice a month at the Centenary Methodist Church, Donisthorpe Road, Moira, and at the Baptist Chapel, Brook Street, Ashby-de-la-Zouch, on Thursday afternoons, whilst relaxation classes are conducted at the Ivanhoe Community College, Ashby-de-la-Zouch on most Wednesday mornings. The consultant ante-natal clinic previously available at Coalville has been discontinued owing to lack of demand.

Stocks of maternity packs are held at the Council Offices, South Street, Ashby-de-la-Zouch, and are available to residents of the surrounding areas generally on production of a doctor's or midwife's certificate.

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA.

There are no hospitals in the area but one of the Clinics known for the clinic is located at St. James Hospital and is substantially supported by voluntary organizations and assisted in various ways by voluntary organizations.

General medical, dental and ophthalmic services are administered by the International and National Executive Councils, the Regional Council, the Local Council. One of the provisions in the area has established a program with health service, where patients are seen by appointment, and where, in co-operation with the International Council, the Local Council and the Regional Council are held twice monthly. Health visitors and district nurses are attached to the Centre, and also to the Clinic are held frequently, as well as relaxation classes, etc. This is an interesting development in the health service field and a pointer to the increasing relation which is taking place between the various branches of the National Health Service.

The County Council provides most of the other medical services, e.g. the Domestic Help Service, administered from an area office in the County; Home Nursing; Maternity Hospital; and Ambulance Service, with area headquarters in the County. The Health Visitors are also held twice a month at the County Maternity Hospital. Postgraduate Study, Health, and at the Hospital Chapel, St. James Street. Ashby-de-la-Zouch, on Thursday afternoon, whilst relaxation classes are conducted at the Leicestershire Community College, Ashby-de-la-Zouch on most Wednesday evenings. The community nurse-aid clinic previously available at Coalville has been discontinued owing to lack of demand.

Books of voluntary books are held at the Council Offices, South Street, Ashby-de-la-Zouch, and are available to residents of the surrounding areas generally on production of a doctor's or midwife's certificate.

The Infective Jaundice Regulations, 1968, came into force on 15th June, 1968, thus making this disease notifiable in the district for the first time. Arising out of this, if on enquiry, a patient suffering from the disease is found to be a blood donor, the Blood Transfusion Service is to be notified and that person will be resigned from the panel of donors. If a house contact of a case is a blood donor again the Blood Transfusion Service is to be notified and such a person will not be allowed to give blood for about 6 months thereafter and only then after thorough investigation into his subsequent health.

The Public Health (Infectious Diseases) Regulations, 1968, came into force on 1st October, 1968. As a result acute influenzal pneumonia, acute primary pneumonia, acute rheumatism, puerperal fever, erysipelas and membranous croup became no longer notifiable, but tetanus, leptospirosis and yellow fever became notifiable for the first time. In addition, the powers of a Local Authority to require a person to stop work in order to prevent spread of infection were extended to permit of action in cases of food poisoning.

SMALLPOX.

Towards the end of October a suspected case of minor smallpox in Measham was brought to my notice. A practitioner designated to assist Medical Officers of Health in the diagnosis of smallpox was called in in consultation and although he expressed the opinion that the patient was probably not suffering from smallpox all the usual steps in dealing with such a case were taken apart from embarking on vaccination.

Pathological specimens were submitted to the Virus Reference Laboratory, Colindale Avenue, London, and within five or six days these were finally reported on as negative. In the meantime, the patient and her family contacts were isolated at home, her parents, (both of whom went to work), were requested, by certificate, to exclude themselves from work and compensation was eventually paid to the father for loss of earnings.

On receipt of the final negative report all restrictions were removed and the patient shortly returned to work. The Ministry of Health were informed of the position on the first day of the alarm and close contact was maintained throughout with the County Medical Officer of Health.

The Infectious Diseases Regulations, 1958, came into force on 1st June, 1958, thus making this disease notifiable in the district for the first time. Arising out of this, it is anticipated that a patient suffering from the disease is found to be a blood donor, the Blood Transfusion Service is to be notified and that person will be required from the panel of donors. If a house contact of a case is a blood donor again the Blood Transfusion Service is to be notified and such a person will not be allowed to give blood for about 6 months thereafter and only then after thorough investigation into his subsequent health.

The Public Health (Infectious Diseases) Regulations, 1958, came into force on 1st October, 1958. As a result acute infectious pneumonia, acute primary pneumonia, acute rheumatism, purpura, fever, erysipelas and meningococcal group became no longer notifiable but tetanus, leptospirosis and yellow fever became notifiable for the first time. In addition, the power of a local authority to require a person to stop work in order to prevent spread of infection were extended to permit of action in cases of food poisoning.

EMALPOX

Towards the end of October a suspected case of acute emalpox in Mesman was brought to my notice. A practitioner designated to assist Medical Officers of Health in the diagnosis of emalpox was called in for consultation and although he expressed the opinion that the patient was probably not suffering from emalpox all the usual steps in dealing with such a case were taken apart from embarking on vaccination.

Pathological specimens were submitted to the Virus Reference Laboratory, Colindale Avenue, London, and within five or six days these were finally reported as negative. In the meantime, the patient and her family contacts were isolated at home, her parents (both of whom sent to work), were requested by certificate, to exclude themselves from work and compensation was eventually paid to the father for loss of earnings.

On receipt of the final negative report all restrictions were removed and the patient shortly returned to work. The Ministry of Health were informed of the position on the first day of the alarm and close contact was maintained throughout with the County Medical Officer of Health.

The actual diagnosis remains in some doubt - possibly a simple papular urticaria, but it is considered that, even so, all the extra work involved was well worth while.

TUBERCULOSIS.

3 cases of respiratory tuberculosis - 2 males and 1 female - all in the 55 - 64 age group, were notified, as well as one case of non-respiratory tuberculosis in a young male in the 20 - 24 age group. One death - a female in the 65 - 75 age group - occurred.

The Leicester Area Mass Radiography Unit carried out X-ray survey at local coal mines, and the results referable to this area are shown below :

	Initial X-Ray.			Cardiac.		Pneumo-coniosis.		Malignant Neoplasm.	
	M.	F.	Total.	M.	F.	M.	F.	M.	F.
New Lount.	191	5	196	1	-	1	-	1	-
Outwoods Repair Depot.	11	-	11	-	-	-	-	-	-
Coleorton Hall.	228	108	336	1	-	-	-	-	-
Totals.	430	113	543	2	-	1	-	1	-

No cases of tuberculosis, bronchiectasis, non-malignant neoplasm or sarcoid were detected.

Patients suspected to be suffering from respiratory tuberculosis are referred either to the Chest Clinic at Markfield Hospital by appointment or to the Outwoods Hospital, Burton-on-Trent.

The actual diagnosis remains in some doubt - possibly a tubercular arthritis, but it is considered that, even so, all the extra work involved are well worth while.

TUBERCULOSIS.

3 cases of respiratory tuberculosis - 2 males and 1 female - all in the 25 - 64 age group, were notified, as well as one case of non-respiratory tuberculosis in a young male in the 15 - 24 age group. One death - a female in the 65 - 75 age group - occurred.

The Leicester Area Health Photography Unit carried out X-ray survey at local clubs, and the results tabulated in this area are shown below:

	Initial X-ray.		Cardiac.		Pneumo-constrictive.		Malignant.	
	N.	% Total.	N.	%	N.	%	N.	%
New Town.	191	5	136	1	-	-	1	-
Outwood Health Depot.	11	-	11	-	-	-	-	-
Colston Hall.	228	108	336	1	-	-	-	-
Total.	430	113	543	2	-	1	1	-

No cases of subcutaneous, bronchiectatic, non-alignant neoplasms or sarcoma were detected.

Patients suspected to be suffering from respiratory tuberculosis are referred either to the Chest Clinic at Leicester Hospital by appointment or to the Outwood Health Depot on request.

INTERNATIONAL CERTIFICATES OF VACCINATION.

So many people are going abroad now on holiday or on business that a word in season may not be out of place to those who intend doing so.

Different countries have different regulations as to immunisation procedures to be undertaken by intending visitors so it is most desirable that people intending to travel to foreign countries should ascertain from their travel agents, in good time, what immunisations are required. This information, if conveyed to their general practitioner, gives him a reasonable chance to carry out the necessary programme at the proper intervals. "Crash" programmes are never so reliable and the patient is more likely to suffer unpleasant reactions whilst the immunity afforded will probably be less than is desirable.

An International Certificate of Vaccination is required to be signed by the doctor carrying out the treatment - stocks of the necessary forms should be held by the practitioner - and once signed by him should be submitted to the Medical Officer of Health of the area in which the practitioner practices for authentication of his signature by an approved stamp. Failure to do so, or to see that the certificate is otherwise properly completed, may result in difficulty at the point of embarkation and perhaps, more surprisingly, in difficulty in re-entering Britain.

No record of certificates submitted for stamping has been kept, but the number dealt with is regarded as fairly considerable.

NATIONAL ASSISTANCE ACTS, 1948 AND 1951.

No formal action was found to be necessary under the above Acts, but some informal supervision was undertaken in a few cases, usually in co-operation with the patient's own doctor.

MEALS ON WHEELS.

This service continues to function satisfactorily. Applications are vetted and for this purpose 13 visits, involving 15 persons were made, whilst 6 follow-up visits, involving 6 persons, were paid in an attempt to assess the actual need of these persons, and in all cases the need was confirmed. Not all applicants are considered suitable for participation, but the criteria of need seems to be gradually changing and must be kept under review.

INTERNATIONAL CERTIFICATE OF VACCINATION.

So many people are going abroad now on holiday or for business that a word is needed not only to place the stamp, but also to do so.

Different countries have different regulations as to vaccination procedures to be undertaken by incoming visitors as to the health of people intending to travel to foreign countries. It is therefore from their travel agents, in good time, that the necessary information is required. This information is conveyed to the local health officer, who then issues a certificate to carry out the necessary procedure at the proper intervals. "Crash" vaccination is not reliable and the patient is more likely to suffer unpleasant consequences than if the immunity afforded will probably be less than is desirable.

An International Certificate of Vaccination is required to be issued by the doctor carrying out the treatment - a form of the certificate should be held by the practitioner - and once signed it should be submitted to the Medical Officer of Health of the district in which the practitioner practices for authentication of his signature by an approved stamp. Failure to do so, or to use the certificate in otherwise properly completed, may result in the certificate being invalid at the point of vaccination and perhaps more seriously, if it is re-entering Britain.

The record of certificates submitted for stamping has been kept, and many cases with it regarded as fairly considerable.

NATIONAL RESISTANCE ACTS, 1948 AND 1951.

No formal action was found to be necessary under the above Acts, but some informal supervision was undertaken in a few cases, and in co-operation with the patient's own doctor.

MEALS ON WHEELS.

This service continued to function satisfactorily. The service was visited and for this purpose 1) visits, involving 15 visits were made, whilst 6 follow-up visits, involving 6 persons, were made in an attempt to assess the actual need of these persons. All cases the need was confirmed. Not all requests are met, but the service is satisfactory, and the officers of need were gradually changing and must be kept under review.

Two districts are served embracing the villages of Measham, Oakthorpe, Donisthorpe and Packington on the one hand, and Ravenstone, Swannington, Coleorton and Worthington on the other. 24 meals are available to each area twice a week and thanks are due to the members of the WRVS for their continued help in administering the scheme, delivering the meals, and, perhaps most of all, for the kindness and cheerfulness shown by them to the recipients - a much appreciated visit. Thanks are also extended to those who give facilities for the preparation of the meals - in all, a very worthy joint effort.

I have pleasure in presenting my Annual Report for the year 1965.

There was no new legislation during the year which had any immediate effect upon the Department, and routine work continued.

The Family Allowance Survey of 1965, was continued as under the effects of rising prices, and it was necessary to prepare a scheme for the re-rating of rates and fuel grants on this estate, and, in addition, a new rating system was to be built. The total cost was about £12,000. The majority of the work was completed by the end of the year, but the estate had suffered very considerable inconvenience.

The new housing development at Ashington Road, Middlesbrough, was completed, including the completion of the district heating plant - the first plant to deal with such a comparatively small number of houses, and throughout the country all over the country visited the site to inspect the plant and obtain information regarding its operation - it was given to understand that, as a result of these visits, a number of authorities decided to go ahead with similar schemes.

Two districts are served including the village of Haddon,
Okehampton, Buntingford and Buntingford on the one hand, and
Haverstock, Buntingford, Colyton and Buntingford on the other.
In meals are available as well as twice a week and there are
due to the members of the NVA for their continued help in
administering the scheme, delivering the meals, and, perhaps
most of all, for the kindness and cheerfulness shown by them to
the recipients - a much appreciated visit. There are also
extended to those who give facilities for the preparation of
the meals - in all, a very worthy joint effort.

ANNUAL REPORT
OF THE
SURVEYOR AND PUBLIC HEALTH INSPECTOR.

To the Chairman and Members of
the Rural District Council of
Ashby-de-la-Zouch.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my Annual Report for
the year 1968.

There was no new legislation during the year which
had any immediate effect upon the department, and routine
work continued.

The Ramscliff Avenue area of Donisthorpe continued to
suffer the effects of mining subsidence, and it was necessary
to prepare a scheme for the re-laying of storm and foul sewers
on this estate, and, in addition, a new pumping station had
to be built. The total cost was about £22,000. The majority
of the work was completed by the end of the year, but the
tenants had suffered very considerable inconvenience.

The new housing development off Atherstone Road,
Measham, was completed, including the provision of the district
heating plant - the first plant to deal with such a compara-
tively small number of houses, and delegations from Councils
all over the country visited the site to inspect the plant
and obtain information regarding its operation - I am given
to understand that, as a result of these visits, a number of
Authorities decided to go ahead with similar schemes.

ANNUAL REPORT
OF THE
SURVEYOR AND PUBLIC HEALTH INSPECTOR.

To the Chairman and Members of
the Rural District Council at
Ashe-de-la-Trench.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my Annual Report for
the year 1903.

There was no new legislation during the year which
had any immediate effect upon the department, and routine
work continued.

The Bannelliff Avenue area of Pontefract was assigned to
after the efforts of visiting authorities, and it was necessary
to prepare a scheme for the re-laying of roads and foot paths
on this estate, and, in addition, a new pumping station had
to be built. The total cost was about £15,000. The majority
of the work was completed by the end of the year, but the
tenders had not yet been received.

The new housing development off Listerstone Road,
Hemsworth, was completed, including the provision of the district
sewerage plant - the first plant to deal with such a large
number of houses, and a large number of houses have been
built. The country visited the site to inspect the plant
and obtain information regarding its operation - I am glad
to understand that, as a result of these visits, a number of
authorities decided to go ahead with similar schemes.

For the first time planning applications for the erection of dwellings on single plots in various villages were refused by the Council because of lack of capacity at sewage disposal works - the Council had no alternative. One can appreciate that, should there be a considerable number of single plots in a village, then the cumulative effect of allowing these to be built upon would be equal to permitting a housing estate to be developed, but where only a handful of "singles" exist in a village, it appears to me that there would be no harm in allowing development, as a very minor amount of infilling could have little effect on the sewage works, and, at the year end, arrangements were being made to have a meeting with the Trent River Authority to discuss this.

SEWAGE DISPOSAL.

The position at the year end was as follows :

<u>Appleby Magna.</u>	Main part of village sewered. Appleby Parva and Bowley's Lane area still require sewers.
<u>Acresford.</u>	Scheme in course of preparation. Negotiations in progress for purchase of land for pumping station.
<u>Bardon.</u>	Scattered area - impossible to sewer.
<u>Chilcote.</u>	Scheme in course of preparation.
<u>Coleorton.</u>	Levels being taken to determine possible line of sewers with a view to the area being drained to Worthington.
<u>Donisthorpe.</u>	Most of work of reconstruction of existing works completed. Scheme prepared and agreed with the National Coal Board for new pumping station at the bottom of Moira Road; re-laying of sewers in the cricket field area, and new pumping main to existing station at the bottom of The Hill, Donisthorpe. Majority of foul and surface water sewers re-laid in Ramscliff Avenue and new pumping station constructed.
<u>Heather.</u>	Enlargement of these works necessary to deal with new development. Works already overloaded.
<u>Measham and Oakthorpe.</u>	Emergency alterations completed to deal with new housing development in Atherstone Road and scheme being prepared for enlargement of works. New pumping station constructed in Tamworth Road to replace ejector station and so deal with effluent from the Atherstone Road area.

REMARKS BY THE BOARD

The position at the year end was as follows:

Applying Matters.

Main part of village sewerage.
Applying Parva and Hovley's land area
still requires sewerage.

Accretions.

Some in course of preparation.
Negotiations in progress for purchase
of land for pumping station.

Barrow.

Registered area - Japanese to sewer.

Chilcoff.

Some in course of preparation.

Collection.

Levels being taken to determine
possible line of sewer with a view
to the area being drained to Warrington.

Footpaths.

Most of work of reconstruction of
existing works completed. Some
proposed and agreed with the National
Coal Board for new pumping station at
the bottom of Hill's Road; re-laying
of sewer in the street (Hill's Road),
and new pumping station to existing
station at the bottom of Hill's
Road. Re-laying of sewer in
Hill's Road and new pumping
station completed.

Heather.

Arrangement of sewer works necessary
to deal with new developments. Works
already completed.

Messias and Oakthorpe.

Emergency alterations completed to
deal with new housing development in
Messias Road and adjacent being
proposed for enlargement of works.
New pumping station constructed in
Messias Road to replace existing station
and so deal with effluent from the
Messias Road area.

<u>Normanton-le-Heath.</u>	Detailed scheme in course of preparation in order to invite tenders for work.
<u>Osgathorpe.</u>	Pumped to Coalville Urban District Council.
<u>Packington.</u>	Scheme completed.
<u>Ravenstone.</u>	Detailed scheme in course of preparation in order to invite tenders for new replacement works.
<u>Snarestone.</u>	These works deal with effluent from Appleby Magna, Snarestone, Newton Burgoland and Swebstone, and are working to maximum capacity. A scheme for enlargement was submitted to the Ministry, but, after a public inquiry, the scheme was deferred - satisfactory samples are being obtained.
<u>Swannington.</u>	Pumped to Coalville Urban District Council.
<u>Swebstone and Newton Burgoland.</u>	Scheme completed.
<u>Worthington.</u>	Works overloaded - investigations being made.

ANIMAL BOARDING ESTABLISHMENT ACT,
1963.

An additional Animal Boarding Establishment was licensed during the year, making a total of four premises in the district.

Routine inspections were carried out to ensure that the standards laid down by the Act were maintained.

CARAVAN SITES AND MOVEABLE DWELLINGS.

There is little movement from the Appleby Magna site by residents, and the site has, in fact, become, in all but name, a small housing site, (although 2 plots have been vacant during part of the year).

Charges at the site are as follows :

Daily tenancy	: 5/- per day.
Weekly tenancy	: 25/- per week.
Electricity supply in van	: by 2/- meter.

No great difficulties were experienced in dealing with persons occupying vans in the district on unauthorised sites.

A total of 24 visits were made to caravan sites.

Total number of sites licensed : 24

PREVENTION OF DAMAGE BY PESTS
ACT, 1949.

The Council's Rodent Operator was employed full time during the year - although part of his actual working time was spent in the Ashby-de-la-Zouch Urban District - an average of 8 hours per week.

Infestations dealt with	: 388
Inspections by Rodent Operator	: 2,354

The sewers throughout the district were also treated for infestation. A representative of the Ministry of Agriculture, Fisheries and Food was present when this was carried out.

ANIMAL BOARDING ESTABLISHMENT ACT.
1967.

An additional Animal Boarding Establishment was licensed during the year, making a total of four premises in the district. Routine inspections were carried out to ensure that the standards laid down by the Act were maintained.

CANAWA RIVER AND WENTWORTH DISTRICTS.

There is little movement from the Ashby River site by residents, and the site has, in fact, become, in all but name, a small housing site, (although 2 plots have been vacant during part of the year).

Charges at the site are as follows:

Electricity supply	in van
Weekly rentancy	25/- per week
Daily rentancy	5/- per day
Electricity supply	by 2/- meter

No great difficulties were experienced in dealing with persons occupying vans in the district on unauthorised sites.

A total of 24 visits were made to various sites.

Total number of sites licensed : 24

PREVENTION OF DAMAGE BY PESTS
ACT, 1952.

The Council's Robert Operator was employed full time during the year - although part of his actual working time was spent in the Ashby-de-la-Zouch Urban District - an average of 2 hours per week.

Inspections dealt with : 388
Inspections by Robert Operator : 2,354

The reports throughout the district were also presented for information. A representative of the Ministry of Agriculture, Fisheries and Food was present when this was carried out.

OFFICES, SHOPS AND RAILWAY PREMISES
ACT, 1963.

Routine inspections have been maintained throughout the year, and, where necessary, steps were taken to ensure that the premises complied with the provisions laid down by the Act.

When employers engage staff for a period of over 21 hours per week they should notify the Local Authority, but, despite a certain amount of publicity when the Act came into force, notification to the Authority concerned has never been very successful, and it is only when visits are made to premises and employers are warned, that notifications are made.

Four accidents were returned during the year - one female and three males, respectively, being involved. These occurred in a warehouse premise, and, whilst the injuries were not serious, the firm in question were written to and requested to take steps to improve discipline and impress upon the employees the need for greater care in carrying out their respective duties.

A circular was received from the Ministry of Labour indicating a suggested lighting standard for premises and, whilst the general standard of lighting in the offices and shops, etc. in the district is reasonable, steps are being taken to bring it up to the standard laid down, where necessary.

OFFICE NOTES AND BULLETIN
NOV. 1931.

Revisions in regulations have been maintained throughout the year, and, where necessary, steps were taken to ensure that the provisions complied with the provisions laid down by the Act.

When employers engage staff for a period of over 21 hours per week they should notify the local Authority, but, despite a certain amount of publicity when the Act came into force, notification to the Authority concerned has never been very successful, and it is only when visits are made to premises and employers are warned, that notifications are made.

Four accidents were reported during the year - one female and three males, respectively, being involved. These occurred in a warehouse premises, and, whilst the injuries were not serious, the time in question was wasted in and prevented in taking steps to improve discipline and improve upon the employees the need for greater care in carrying out their respective duties.

A circular was received from the Ministry of Labour indicating a suggested lighting standard for premises and whilst the general standard of lighting in the offices and shops, etc., in the district is reasonable, steps are being taken to bring it up to the standard laid down, where necessary.

The River Way housing site was completed during the year, 181 dwellings were erected on this site. The site was originally developed at the request of the National Coal Board to house miners who were to be transferred to this area from the North, but, during the year, there was a change of National Coal Board policy and only 69 nominees of the National Coal Board were rehoused, the remaining houses being let by this Council to people from slum clearance property and in general need.

STANDARD GRANTS.

Standard Grants are not discretionary, all Local Authorities must make a grant where the property has a life of not less than 15 years. The amounts which must be given are set out in the House Purchase and Housing Act, 1959, as amended by the Housing Act, 1961, and grant can only be given in order to provide certain amenities, i.e. (a) a fixed bath or shower in a bathroom; (b) a wash hand basin; (c) a hot water system; (d) a water closet in the dwelling; and (e) satisfactory facilities for the storage of food.

Applications approved.	owner/occupied.	48
	tenanted.	15

FOOD HYGIENE (GENERAL) REGULATIONS, 1960.

- Whilst there was no new food hygiene legislation during the year efforts were continued in an attempt to improve the standard of hygiene in shops, cafes, etc.

In this kind of work progress is somewhat slow since it often means persuading a person to abandon food handling habits which may have been practised over a long period. Despite the difficulties it is encouraging to feel that progress is being made in this field.

SLAUGHTERHOUSES (HYGIENE) (AMENDMENT) REGULATIONS, 1966.

The above Regulations provided that as from November this year the use of wiping cloths for the purpose of wiping an animal carcass during the process of dressing should be discontinued. The butchers who carry out slaughtering in the district were notified of this, and water sprays have been provided in place of the cloths.

MEAT INSPECTION - CARCASSES INSPECTED AND CONDEMNED.

The reduction in the number of animals slaughtered in the district has continued until almost the year end, when there was a slight increase in numbers. The reduction is partly due to staffing difficulties with one of the butchers, the outbreak of Foot and Mouth Disease, and the need for locally purchased animals to be graded at a Grading Centre.

Both slaughterhouses in the district received visits from the Veterinary Surgeon employed by the Ministry of Agriculture, Fisheries and Food.

charge of the Act in
Section 111 (a).

Working apparatus, etc.

REFUSE COLLECTION AND DISPOSAL.

Tipping of refuse has continued in the old railway cutting off Stoney Lane, Coleorton, and in the canal bed at Measham. There has been no tipping of house refuse at the Donisthorpe tip during the year.

The search for additional tipping land continued and we were successful in finding land at Lount which will be suitable, both for this Authority and for Ashby-de-la-Zouch Urban District Council. Planning permission has been obtained and loan sanction for purchase of the land has been approved. A tree planting scheme, which is to be provided for screening purposes, has been agreed with the County Council. Unfortunately the haul for the majority of this Council's refuse will be very considerably increased when this tip is brought into use.

The Council agreed that a $5\frac{1}{2}$ working day refuse collection be provided where possible to replace the existing $6\frac{1}{4}$ working day collection. This is now carried out over about $2\frac{1}{3}$ of the district. Steps were also taken to minimise the dislocation caused by refuse collector's holidays. Where the refuse collection teams are not responsible for pan emptying the men take their holidays at the same time, and then work overtime on their return to work to get the service back to normal; the men employed in the team who have to empty pans weekly stagger their holidays, but delays are kept to a minimum by overtime and assistance from the sewage works staff. It is hoped, ultimately, to improve the service over the whole of the district.

PETROLEUM.

Visits were made in respect of all new installations; excavations for tanks inspected; the tanks, pipe lines, etc. inspected and tested before a license to use is issued.

REFUSE COLLECTION AND DISPOSAL.

Tipping of refuse has continued in the old railway cutting off
Gloucester Lane, Colchester, and in the canal bed at Macclesfield. There
has been no tipping of house refuse at the Bonhill Works tip during
the year.

The search for additional tipping land continued and we were
unsuccessful in finding land at least which will be suitable, both
for this Authority and for Ashby-de-la-Zouch Urban District Council.
Planning permission has been obtained and loan sanction for purchase
of the land has been approved. A tree planting scheme, which is to
be provided for engineering purposes, has been agreed with the County
Council. Unfortunately the land for the majority of this Council's
refuse will be very considerably increased when this tip is brought
into use.

The Council agreed that a $\frac{1}{2}$ working day refuse collection be
provided where possible to replace the existing $\frac{1}{2}$ working day
collection. This is now carried out over about 2 1/2 days of the
district. Steps were also taken to minimize the disturbance
caused by refuse collector's holidays. Where the refuse collection
teams are not responsible for men carrying the men take their
holidays at the same time, and then work overtime on their return
to work to get the service back to normal. The men employed in the
teams who have to carry heavy loads weekly stagger their holidays, but delays
are kept to a minimum by overtime and assistance from the reserve works
staff. It is hoped, ultimately, to improve the service over the
whole of the district.

HYDROGRAPHY.

Visits were made in respect of all new installations
proposals for tanks, lagoons, etc. The tanks, pipe lines, etc.
inspected and tested before a licence to use is issued.

PUBLIC CONVENIENCES.

46 visits of inspection were made. There had been further minor damage throughout the year, especially during the darker evenings.

STREET LIGHTING.

Vandalism continued to be a source of nuisance, the police being notified in each instance.

Agreement was entered into with the Leicestershire County Council regarding the lamps which should be automatically transferred to that Authority following the Street Lighting Local Government Act, 1966. A scheme was being prepared for consideration by the Council in order that a decision could be made as to whether or not to bring lighting generally throughout the district up to full street lighting standards with a view to the County Council taking over the whole of the lighting throughout the Rural District.

Thank you, Mr. Chairman, and members of the Council, for the consideration you have shown to myself and my staff during the year under review.

I wish to thank the Clerk of the Council, Dr. Hamilton, the Accountant and Housing Manager for help and advice, and the members of my own staff for their support and conscientious work during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient servant,

C.S. CURTIS.

PUBLIC CONVENIENCES.

As visits of inspection were made, there had been further minor damage throughout the year, especially during the winter evenings.

STREET LIGHTING.

Vandalism continued to be a source of annoyance, the police being notified in each instance.

Agreement was entered into with the Leicestershire County Council regarding the lamps which should be automatically transferred to that Authority following the Street Lighting Local Government Act, 1956. A scheme was being prepared for consultation by the Council in order that a decision could be made as to whether or not to bring lighting generally throughout the district up to full street lighting standards with a view to the County Council taking over the whole of the lighting throughout the Rural District.

Thank you, Mr. Chairman, and members of the Council, for the consideration you have shown to myself and my staff during the year under review.

I wish to thank the Clerk of the Council, Mr. Hamilton, the Assistant and Housing Manager for help and advice, and the members of my own staff for their support and conscientious work during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Yours obedient servant,

G. S. SMITH.
