BOROUGH OF ASHTON-UNDER-LYNE

ANNUAL REPORT

of the Medical Officer
of Health

For the Year
1942

Borough of Ashton-under-Lyne

NOVEMBER, 1942

PUBLIC HEALTH COMMITTEE

Chairman: Alderman Sheard, J.P.

Deputy-Chairman: Councillor Hague.

The Mayor, Alderman Massey, J.P., Councillors Arnold, Flowers,
Green, J.P., Hannan, Hilton, J.P., Ibbotson,
and Mrs. Mamourian, J.P.

MATERNITY AND CHILD WELFARE COMMITTEE

Chairman: Councillor Farley.

Deputy-Chairman: Councillor Mrs. Mamourian, J.P.

The Mayor, Councillors Arnold, Flowers, Hall, Hannan, Oldham,
Townesley, Mrs. Wild, J.P., and Mr. Ralphs.

TOWN HALL CHAMBERS,
ASHTON-UNDER-LYNE.

TO THE MAYOR AND COUNCIL OF THE BOROUGH OF
ASHTON-UNDER-LYNE.

MR. MAYOR, MR. CHAIRMAN, LADIES AND GENTLEMEN,

I beg to submit a short report on the health of the borough for the year 1942. The necessity for brevity has been pointed out in previous reports and a preservation of all records made in case they should be required for future reference.

No outbreak of serious disease has occurred during the year.

The incidence of measles increased from ~~January~~ ^{JUNE} to the end of the year, reaching a peak in July. Scarlet Fever was prevalent during the latter part of the year, but the cases were mild and scattered throughout the borough.

The Diphtheria Immunisation Campaign was continued. The percentage of the child population immunised at the end of 1942 was:—

55% of the children between the ages of 5 and 15 years.

38% of children under 5 years of age.

Two War-time Nurseries were opened during the year—the West End Nursery in February, and the Hurst Nursery in November.

The incidence of Scabies was higher. The powers given under the Scabies Order, 1941, were valuable in dealing with difficult cases.

The Maternal Mortality rate of 1.4 is the lowest recorded in the Borough, as also is the Infantile Mortality Rate of 39.

In February, arrangements were made in conjunction with the Labour Exchange for adopting the Daily Guardians Scheme, whereby children under 5 are cared for during the day. The Register of Daily Guardians is kept at the W.V.S. Office.

For the various rates I would refer you to the appropriate sections of the report.

Commending this report to your notice,

I have the honour to be,

Your obedient servant,

MARY EVANS,

Acting Medical Officer of Health.

Staff of the Health Department

Medical.

Alan S. Simpson, M.B., B.S. (Lond.), M.R.C.S., D.P.H., Medical Officer of Health, School Medical Officer, Maternity and Child Welfare Officer, Superintendent of Infectious Diseases Hospital. (Now serving with H.M. Forces.)

Mary Evans, M.B., Ch.B., D.P.H., Acting Medical Officer of Health, School Medical Officer, and Medical Officer for Maternity and Child Welfare.

David Halpern, B.Sc., M.B., Ch.B., Temporary Assistant Medical Officer of Health and Assistant School Medical Officer. (Resigned, 27th June, 1942. Now serving with H.M. Forces).

John Edward Dovey, M.B., Ch.B., D.T.M., & H., Temporary Assistant Medical Officer of Health and Assistant School Medical Officer. (Appointed 20/6/1942).

Sanitary Inspectors.

C. Sykes Handforth, M.S.I.A., C.R.S.I., M.Inst.P.C., Chief Sanitary Inspector, Inspector of Meat and Other Foods, etc.

Herbert Hunter, M.S.I.A., C.R.S.I., Deputy Chief Sanitary Inspector, Inspector of Meat and Other Foods, etc.

W. L. Barnsley, M.S.I.A., C.R.S.I., Additional Sanitary Inspector, Inspector of Meat and Other Foods, etc.

J. Sagar, M.S.I.A., C.R.S.I., Additional Sanitary Inspector, Inspector of Meat and Other Foods, etc. (Resigned 30/4/42).

J. Kay, M.S.I.A., C.R.S.I., Additional Sanitary Inspector, Inspector of Meat and Other Foods, etc. (Appointed 15/6/42).

Health Visitors.

Nurse Parkinson, S.R.N., S.C.M., H.V. Certificate
(Superintendent).

„ **Chamberlain, S.R.N., S.C.M., H.V. Certificate.**

„ **Weir, S.R.N., S.C.M., H.V. Certificate.**

„ **Brett, S.R.N., S.C.M., H.V. Certificate.**

„ **Cleary, S.R.N., S.C.M., H.V. Certificate.**

„ **Micklethwaite, S.R.N., S.C.M., H.V. Certificate.**

Clerks.

C. Sharples, A. Hartley, E. McCabe, P. Crook.

Notification of Births

(Public Health Act, 1936, Section 203).

The Act requires that all births occurring in the area of Ashton-under-Lyne (after the 28th week of pregnancy, whether alive or still) shall be sent to the Medical Officer of Health within 36 hours of the birth. All births occurring within the area are, therefore, notified to me whether the parent is a resident or a non-resident of Ashton-under-Lyne.

			Total Notified	Ashton Residents
Number of Live Births...	Notified	Male 823 Female ... 789	1612	687
Number of Still Births ...	Notified	Male 37 Female ... 31	68	28
By Institutions:—				
		Lake Hospital	1083	
		District Infirmary ...	291	
		Nursing Homes	48	
		Midwives	256	
		Doctors	2	
			<hr/> 1680 <hr/>	

Notifications received by Department included above, but transferred elsewhere 965.

Total Notified Births allocated to Ashton-under-Lyne ... 715

Percentage of Total Notified Births (Live and Still) received from	(a) Institutions and Nursing Homes	85%
	(b) Municipal Midwives	15%

Midwives Practising in the Area.

There were five midwives practising in the area during 1942, and all five were Municipal Midwives appointed by the Lancashire County Council.

Maternal Mortality.

ASHTON-UNDER-LYNE.

Maternal Mortality Rate (per 1,000 Total Births i.e., Live and Still).	Puerperal Sepsis	0.00
	Other Puerperal Causes	1.40
	Total ...	1.40

The cause of the one Maternal Death was a very early abortion.

Ante-Natal Clinic.

This Clinic is held every Friday afternoon, one week at the Richmond Street Centre, and the following week at Enville House Centre.

Fifty-one sessions were held during 1942, and 236 expectant mothers made 1,098 attendances.

This figure of 236 represents an attendance of 42 per cent. of the total notified (live and still) births.

Post-Natal Clinics.

This Clinic is held on the first Thursday afternoon in the month at Enville House Centre.

There were 10 sessions in the year and the number of patients who attended was 72. This figure shows an increase over the previous year of 25.

War-Time Nurseries

Two whole-time War-time Nurseries were opened during the year—one at the West End Council School and the other at Hurst. They are provided for children from 1 to 5 years of age whose parents are on work of National Importance. The parents pay a shilling a day for each child.

The hours of attendance are 6-30 a.m. to 9 p.m., and 6-30 a.m. to 4 p.m. on Saturdays. Breakfast, dinner and tea are provided. The dinner is brought in from the School Canteen Kitchen.

1. The West End Nursery was opened in February, 1942, for the reception of children, and was formally opened by Lady Jowitt, on the 14th March, 1942.

The maximum number of children accommodated in groups is:—

19 in 1 to 2 years group;
26 in 2 to 5 years group.

The Education Committee generously loaned to the Maternity and Child Welfare Committee the use of the two existing schoolrooms, cloakroom, and toddlers' w.c.s, and the enclosed part of the playground and lawn. A new Maycrete Hut erected adjacent to and leading from the existing building provides a Kitchen, Milk Room, Store Room, Bathroom, Laundry, Staff Room, Matron's Room and Isolation Room. The cost of the alterations, new building and equipment was paid by the Ministry of Health. There is a staff of:—

Matron,
Deputy-Matron,
Teacher,
Nursery Nurse,

Five Nursery Assistants and one Part-time (Probationers or Child Care Reserves),

Two Domestic Helps and one Part-time.

2. The Hurst Nursery was opened in November. The maximum number of children accommodated in groups is:

14 in the 1 to 2 years group,
18 in the 2 to 5 years group.

The existing school building was adapted with the addition of a new building for Laundry, Staff Room and Toddlers' W.C.

The existing building is partitioned into a Toddlers' Room and a Babies' Nursery, Isolation Room, Matron's Room, Bathroom and Kitchen.

There is a Staff of:—

Matron,
Teacher,
Deputy-Matron,
Nursery Nurse,
2 Nursery Assistants (C.C.R.),
2 Domestic Helps,
1 Part-time Caretaker.

INFANT MORTALITY

The causes of the 27 deaths were as follows:—

Whooping Cough	1
Enteritis	1
Congenital Malformations	2
Premature Birth	3
Atrophy, Debility and Marasmus	4
Injury at Birth	1
Pneumonia (all forms)	4
Suffocation (overlying)	2
Other Causes	9
						—	27
						—	

Child Welfare Centres

The work at the Infant Welfare Centres has been well maintained during 1942, and the following figures show the number of sessions held, the number of consultations and the weighings carried out at the Centres:—

Consultations held	128
Attendances at Consultations	2213
Number of Weighings of Children	8416

Total number of attendances at all Centres during the year:

- (1) By children under 1 year of age 7176
- (2) By children between the ages of 1 and 5 ... 1862

Total number of children who attended at the Centres during the year and who, at the end of the year were:—

- (1) Under 1 year of age 507
Percentage of notified live births
represented by this figure, 73%.
- (2) Between the ages of 1 and 5 years 115

Total number of children who attended at the Centres during the year and who, at the end of the year were:—

- (1) Under 1 year of age 400
- (2) Between the ages of 1 and 5 years 530

The fact that 73% of the total notified births are brought to the Welfare Centres is an indication that the work is of value and appreciated by the parents.

Provision of Dried Milk

During 1942, 15,725 packets of dried milk were sold at the Centres.

1,193 were sold at half-price, and 3,582 were provided free, in accordance with the income scale adopted.

The net cost to the Council amounted to £222 11s. 1d.

Orthopædic Treatment

Number of pre-school children attending Clinic 93

A classification of the conditions for which the above 93 individual children were treated is set out below:—

1. Genu-Valgum (knock-knee)	35
2. Genu-Varum (bow-leg)	4
3. Torticollis (Wry-neck)	9
4. Infantile Paralysis	5
5. Traumatic or Inflammatory Conditions	4
6. Congenital Deformities	17
7. Other Conditions	10
8. Unclassified	9
				—
				93
				—

Two cases were referred to Biddulph Hospital for treatment on account of the following defects:—

Sub-Synovitis Right Hip Joint	1
Syndactyly Right Hand	1

Artificial Sunlight Clinic

Ninety-three children made 1,746 attendances.

Child Life Protection

PUBLIC HEALTH ACT, 1936.

Sections 206—220.

- | | | |
|-----|---|----------|
| (a) | Number of persons who were receiving children for reward at the end of the year | 7 |
| (b) | Number of children on the register at the and of the year | 7 |
| (c) | Number of Child Protection Visitors at the end of the year who were Health Visitors | 6 |
-

Nursing Homes

PUBLIC HEALTH ACT, 1936.

Sections 187—195.

The Lancashire County Council have delegated their powers under the above Act to the Ashton-under-Lyne Borough Council who are the supervising authority for this purpose.

There is one Nursing Home registered in the Borough at:—
24, Villiers Street.

The Medical Officer of Health made 2 inspections during the year.

Housing Statistics

Number of new houses erected during the year:—

(a) Total (including numbers given separately under (b))

(1) By Local Authority ... Nil.

(2) By other Local Authorities ... Nil.

(3) By other bodies or persons ... Nil.

(b) With State assistance under the Housing Acts:—

(1) By the Local Authority (included under (a) (1) above) ... Nil.

(2) By other bodies or persons (included under (a) (3) above) ... Nil.

Inspection and Supervision of Food

Bacteriological Examination of Milk.

The following table shows the results of samples taken under this head:—

The Prevalence and Control over Infectious Diseases.

The cases of Infectious Diseases notified during the year were as follows:—

DISEASE	Total Cases at all Ages	Total Deaths	HOSPITAL	
			Total Cases removed to Hospital	Deaths in Hospital of persons belonging to district
Diphtheria and Membranous Croup	42	2	37	2
Erysipelas	20	—	7	—
Scarlet Fever	86	—	43	—
Enteric Fever (including Paratyphoid)	1	—	—	—
Puerperal Pyrexia	28	—	—	—
Cerebro-Spinal Meningitis	8	1	5	—
Ophthalmia Neonatorum	8	—	—	—
Acute Primary Pneumonia	80	20	—	—
Acute Influenzal Pneumonia	5	—	—	—
Pulmonary Tuberculosis	49	25	—	—
Other forms of Tuberculosis	27	5	—	—
Measles	521	—	—	—
Whooping Cough	39	1	—	—
Polio-Encephalitis	1	—	—	—
Totals	915	54	92	2

Diphtheria Immunisation.

Number of children immunised during the year:—

(a) Children under 5 years of age	415
(b) School Children	295
	710

Pneumonia.

Number of cases notified during the year 77

The Nurses from the Ashton and District Sick Nursing Association made 907 visits to 58 cases of Pneumonia.

Tuberculosis.

New cases and mortality during 1942:—

		New Cases.				Deaths.						
		Respiratory.		Non-Respiratory.		Respiratory.		Non-Respiratory.				
		M.	F.	M.	F.	M.	F.	M.	F.			
		30	19	...	12	15	...	16	9	...	2	3
Totals	...	49	...	27	...	25	...	5				

Venereal Disease

Public Health (Venereal Diseases) Regulations, 1916.

The Lancashire County Council, who administer these regulations, have a treatment centre at the Ashton-under-Lyne District Infirmary.

The following shows the work carried out at the Venereal Diseases Clinic at the Ashton-under-Lyne District Infirmary during the year 1942:—

Patients under treatment at 1st January, 1942	...	104
New cases admitted during 1942	...	166
Total attendances	...	2618
Patients receiving treatment at the end of 1942	...	125
Pathological examinations for V.D. patients	...	1155

Of the 166 new cases admitted during the year, 72 were Ashton residents. There is an increase in the incidence of Venereal Disease in the area due to war conditions.

Scabies

274 cases of Scabies were treated at the First-Aid Post. The clothing of persons attending was disinfected and in many instances the bedding was also treated. All known cases have been followed up and whole families treated.

Annual Report of the Chief Sanitary Inspector for the Year 1942

Details of Inspections Made and Work Carried Out During 1942.

Number of inspections (including housing)	3342
Number of nuisances abated	1011
Number of visits to premises re defective and choked W.C.s, W.W.C.s, slop sinks, waste and soil pipes ...	449
Number of visits to common lodging-houses, furnished rooms and dwelling vans	219
Number of visits to slaughter-houses	210
Number of visits to cowsheds, milk shops, refreshment houses, ice cream makers and bakehouses	499
Number of visits to factories and workshops	108
Number of visits to offensive trade premises	36
Number of visits re rat infestations	92
Number of samples taken under the Food and Drugs Act	91

FACTORIES ACT, 1937.
