Abertillery Urban District Council.

REPORT

OF THE MEDICAL OFFICER OF HEALTH TO THE URBAN DISTRICT COUNCIL OF ABERTILLERY FOR THE YEAR ENDING DECEMBER 31st, 1952.

*To the Chairman and Members of
Abertillery Urban District Council.*

Mr. Chairman, Ladies and Gentlemen,

The Abertillery Urban District is situated in the Western Valleys of Monmouthshire, 13 miles north-west of Newport, and 20 miles south-west of Monmouth.

Its greatest length, north to south is $6\frac{1}{2}$ miles, while it varies in breadth, east to west, from $\frac{1}{2}$ to $2\frac{1}{2}$ miles. It has an area of $10\frac{1}{4}$ square miles, being one of the largest Urban Districts in the County. The population is 27,320, and the rateable value is £96,776, (Abertillery £51,621, Llanhilleth £25,155). The estimated product of a penny rate is £349.

The Urban Area is divided into 5 wards :

Ward 1. Llanhilleth—This includes that part of Llanhilleth south-east of the Nant-Cuffin, with the portions of Crumlin and Hafodyrynys which are within the district. Members on Council, 2. Area, 894 acres. Electors, 2,464.

Ward 2. Aberbeeg.—Comprises Aberbeeg and that portion of Llanhilleth N.W. of the Nant Cuffin. Members on Council, 3. Area, 927 acres. Electors, 2,735.

Ward 3. Six Bells.—Comprises Warm Turn, Six Bells, and that portion of Abertillery south of Cwm Road and the Vivian Pit. Members on Council, 2. Area, 1,092 acres. Electors, 3,193.

Ward 4. Abertillery.—Comprises the township of Abertillery, with the exception of the portions included in Wards 3 and 5. Members on Council, 5. Area, 1,151 acres. Electors, 4,660.

Ward 5. Cwmtillery.—Consists of Cwmtillery with Penybont, Blaenau Gwent, and Brynteg. Members on Council, 6. Area, 2,400 acres. Electors, 5,989.

The chief centres of population are :—Cwmtillery, in the Blaentillery Valley to the north; Abertillery, at the junction of the Blaentillery and Ebbw Fach Valleys; Six Bells, in the Ebbw Fach Valley to the South of Abertillery; Aberbeeg, at the junction of the Ebbw with the Ebbw Fach; and Llanhilleth and Crumlin in the Ebbw Valley to the south.

The Upper Coal Measures have been almost wholly denuded, but the Pennant Series form a moorland plateau from 1,200 to 1,600 feet above sea-level, through which valleys, deep, narrow, and confluent, run from north to south regardless of the geological formation. The whole of the Blaentillery Valley and portions of the Valleys of the River Ebbw and its tributary, the Ebbw Fach, are within the area. The Tillery coal vein, at the base of the Pennant Series, outcrops in long lines on the sides of the valley north of Aberbeeg, and has been worked by levels.

Births.

	1952	1951	1950	1949	1948
Number of Births ..	487	446	474	508	530
Birth Rate per 1,000—					
Abertillery	17.07	16.2	16.9	18.09	18.8
England and Wales ..	15.3	15.5	15.8	16.7	17.9
Small Towns ..	15.5	16.7	16.7	18.7	19.2

The total number of births registered locally during 1952 as belonging to the district was 157, of which 73 were males and 84 females.

The number of births registered outside the District was 330, (males 183, females 147).

The Registrar General's return of births is 487. Of this number, 256 were males and 231 females.

The number of legitimate births was 252 males and 219 females.

The total number of illegitimate births from the Registrar General's return is 16 (4 males, 12 females).

The number of births during the year 1952 is 41 less than was recorded for 1951.

The Infant Mortality Rate is 49.2.

TABLE I. Showing the Vital Statistics for England and Wales, etc., the Administrative County of Monmouthshire and Abertillery Urban District for the years 1951 and 1952.

There were 15 inquests during the year.

The circumstances of the deaths are analysed and are as follows :—

	<i>Male</i>	<i>Female</i>	<i>Total</i>
1. Asphyxia due to overlaying	1	—	1
2. Shock to Electrocution	1	—	1
3. Bronchial Pneumonia	1	—	1
4. Asphyxia due to Coal Gas poisoning, accidentally caused by stepping on a gas tap	1	—	1
5. Suicide	—	1	1
6. Uraemia following fracture	1	—	1
7. Peritonitis	1	—	1
8. Uraemia due to retention of Urine ..	1	—	1
9. Hypostatic Pneumonia	1	—	1
10. Shock following fractured ribs	1	—	1
11. Thrombosis	1	—	1
12. Accidentally drowned	1	—	1
13. Accidents in the Coal Mines	3	—	3
Total ..	14	1	15

Zymotic Diseases.

Table No. V shows the notifiable diseases which were notified in the area during 1952.

Diphtheria.

No cases of Diphtheria were notified during the year.

The immunisation of the pre-school child is now carried out at the Infant Welfare Centres by the various medical officers in attendance. Parents too may make private arrangements with their own general practitioner for such immunisation. To attain the maximum degree of protection by immunisation it is advisable that booster doses should be given when the child first attends school.

Scarlet Fever.

As will be seen from the table, 64 cases were notified of whom 13 were removed to hospital because of the impossibility of complete isolation at home, which is very necessary to prevent the spread of infection. All these cases were of a very mild character and were scattered throughout the district, there being no localised outbreaks.

Measles.

98 cases of Measles were notified during the year.

Whooping Cough.

41 cases were notified during the year.

TABLE VI.

Showing Monthly notification of Tuberculosis (all forms) for the year 1952, with Ward Distribution.

	18	19	14	14

All cases of suspected Tuberculosis are seen at the Chest Clinic run by the Regional Hospital Board.

The number of new cases examined from the Abertillery District during 1952 was 558 and of these the number of cases diagnosed as suffering from Pulmonary Tuberculosis and Non-Pulmonary Tuberculosis are as follows:—

Pulmonary Tuberculosis	12 males
	9 females
Non-Pulmonary Tuberculosis	4 male
	3 female

Total number of attendances during 1952 at the Clinic, (*i.e.*, new and old cases during 1952)—558.

TABLE IX. Showing the infant mortality rates for E. and W., the County Boroughs and Great Towns, the smaller towns, the Administrative County of Monmouthshire and Abertillery U.D. for 1951 and 1952.

Year	England and Wales	126 Co. Boroughs & Great Towns (Inc. London)	148 smaller towns (Resident Population 25,000-50,000 at 1931 Census)	Administrative County of Monmouthshire	Abertillery Urban District

Total hours of Sunshine, 647.9

Highest Temperature for Year, 84.0.

Lowest Temperature for Year, 18.8.

COLLECTION AND DISPOSAL OF HOUSE AND TRADE REFUSE.

The following report was kindly supplied by the Engineer and Surveyor, A. GORDON JONES, Esq., M.I.M.C.E.

The collection of Refuse in the Urban Area is carried out with Petrol-Driven Vehicles with covered bodies of semi-circular type so as to prevent, as far as possible, dust being blown about while the lorries are travelling.

Collections are made three times weekly, also collection of Trade Refuse from the Business Premises.

The method of disposal is by the well-known Bradford Method, described as "Controlled Tipping."

On the closing down of the Refuse Destructor at the end of 1928, the disposal of refuse was carried out by crude tipping which quickly resulted in complaints of obnoxious smells, vermin, fires, etc., especially on the Tip at Rose Heyworth Road. In 1932, however, the Council introduced the above described method of disposal by which the refuse was laid down to plan, properly consolidated, and covered over with earth at the end of each days' work. This method eliminates all the nuisances attendant on the old method, and is being used to provide facilities for recreation. The Council have formed Sports Grounds at Rose Heyworth Road for the Abertillery Grammar School, and the Ground, when completed by the School Authority, will include a Football Field, Hockey Pitch, Cricket Pitch and Tennis Courts.

Other Grounds completed are at the Walpole Field, Llanhilleth, (now being used as Railway Sidings), a Children's Playground and Recreation Ground at Aberbeeg, and another Recreation Ground is being formed at the Woodland Field, Cwmtillery. Considerable interest is being shewn in these activities by neighbouring Authorities, and several Councils have sent their Representatives to view the progress and method of the work.

THE ABERTILLERY & DISTRICT WATER BOARD.

The Engineer to the Board, W. CORY GODDARD, Esq., M.INST.C.E., M.INST.W.E., A.M.I.MECH.E., has supplied the following particulars.

The total rainfall for 1952, at Grwyne Fawr Reservoir, Breconshire, was 57.34 inches as compared with 65.63 inches in 1951, and 60.12 inches in 1950.

During 1952, the highest monthly rainfall recorded was 9.82 inches in August and the lowest was 1.11 inches in February.

The highest daily rainfall recorded was 2.90 inches on the 15th August. Rain fell on 205 days at the Reservoir during 1952.

New mains are laid to supply new housing sites as required.

The mains and service pipes in the Board's district are continually tested and inspected for leakages and many repairs are carried out to cracked and fractured pipes, caused mainly through subsidence.

Public Sanitary Conveniences.

ABERTILLERY.

Rose Heyworth Road

Royal Lane, Blaenau Gwent, (facing Blaenau Gwent Chapel).

Alma Street.

Foundry Bridge.

Tillery Road (below Club Row).

Bush Hill.

Ladies' convenience situate in Chapel Street with lady attendant.

Alexandra Road (Ladies and Gent's) opposite Cwm Hotel,

Market Street.

Near New Bridge End Inn, Penybont.

Cwmtillery.

SIX BELLS.

Near Six Bells Bridge.

Near Coach and Horses Inn.

ABERBEEG.

Near G.W.R. Station.

LLANHILLETH.

Opposite Ty'r Graig Schools.

Near Central Hotel (at foot of hill over railway bridge).

CRUMLIN.

Near Viaduct Hotel.

Common Lodging House.

There is only one registered common lodging house in the district and this is situate at Crumlin. The premises are kept in a clean condition and in good repair.

Pit-Head Baths.

Pit-head baths are now established in connection with the Rose Heyworth, Cwmtillery and Llanhilleth Collieries.

These establishments are working satisfactorily and are proving a great boon to those engaged in the industry.

Other pit-head baths are required, and plans at present are under consideration.

Swimming Baths.

There is one swimming bath in this area situated in the Park at Abertillery, and controlled by the Abertillery U.D.C.

This is an open-air bath, which was originally constructed in 1900, and measured 90 feet x 30 feet, with 88,594 gallons capacity. The bath was modernised in 1936 at a cost of £3,000, providing a bath 92 feet x 43 feet, with 125,000 gallons capacity. The special filtration plant is capable of "turning the water over" in six hours. There are 20 cubicles for men and 13 for women, with provision for sun-bathing on concrete promenades.

| 10. Any other dressing accommodation provided | None. |
| 11. Number of Staff engaged | One to Two. |
| 12. Duration of open period | April to September. |

In conclusion, I wish to thank the Sanitary Inspectors, and other Departments of the Council for their willing co-operation during the year.

Yours obediently,

J. WALTERS BOWEN,
Medical Officer of Health.

Abertillery
Urban District Council.

Chief Sanitary Inspector's

REPORT

For the Year

1952.

Public Health Department,
Oddfellows Hall,
Queen Street,
Abertillery, Mon.

The following is my report on work carried out by the Department for the year ending December 31st, 1952.

Defective and insufficient water supply	0
Miscellaneous nuisances	51
Defective ceilings	29
Defective walls (internal)	19
Defective floors	18

Many and varied were the nuisances discovered. In some cases the owners and occupiers were interviewed and the nuisances abated at once, and in other cases legal notices were served.

Foods.

MILK SUPPLY.

Number of persons registered under the Milk and Dairies Regulations, 1950.

Number on Register in 1952	39
Licensed to sell Pasteurised Milk	39
Licensed to sell Sterilised Milk	20
Licensed to sell Tuberculin Tested Milk	21

Supplementary Licences to sell—

Sterilised Milk	2
Pasteurised Milk	3
T.T. Milk	2

The number of inspections made last year was 208.

4 samples of milk were tested in the area during the year ended 31st December, 1952.

ICE CREAM.

Number of premises registered during the year	5
Number of premises registered	60
Number of registered persons producing	3
Number of inspections of premises and vehicles	114

MEAT AND OTHER FOODS.

The following particulars show the amount of attention given to securing a wholesome supply of food.

Visits to Premises :—

Fish, fruit and vegetable shops	357
Meat shops	602
Fried fish and chip shops	143
Bakehouses	215
Fishmongers	237
Premises registered for the preparation of food				..	170
Other premises where food is prepared, sold or stored				..	328
Cafes and Hotels	27

STORES AND VEHICLES.

Attention is being given to the cleanliness of vehicles, wrappers, etc., used for bringing meat into the district and for conveying meat to the shops, and the conditions are satisfactory.

The men who handle such meat are compelled to wear clean overalls.

There is no public abattoir.

All slaughtering is now centralised at Brynmawr.

FRIED FISH AND CHIP SHOPS.

There are 19 registered shops in the area which are kept in a satisfactory condition.

143 inspections of these premises were carried out.

OTHER FOODS.

Meat, fish and fruit shops are regularly visited, and the food exposed for sale or stored is examined.

Pork butchers' premises, where sausage meat and small goods are prepared, receive great and constant attention.

Bakehouses are regularly inspected, and the sanitary conditions are noted and dealt with as required.

Two cases of food poisoning were recorded in the district during 1952.

The Sale of Food and Drugs Act is administered by the Monmouthshire County Council.

Food Inspection.

The following show the variety of Food Stuffs condemned :—

Tomatoes	846 tins
Peas	143 „

NOTES.

Note 1 (a) With the exception of agricultural properties, a property means one which is entered separately in the Valuation Roll for the area. (b) Only properties devoted to agricultural or horticultural production, in respect of which returns are made under the Agriculture Act, 1947, should be entered as agricultural properties.

Note 2 (a) Council houses should be entered in Column (2).

(b) Premises used by the Local Authority for the purposes of trade should be entered in Column (4).

(c) Sewers should not be included.

(d) Combined dwelling and business premises where occupied by the same person should be regarded as business premises and should be entered in Column (4). Where the dwelling and business parts of the premises are in separate occupation, separate entries should be made in Columns (2) and (4).

Note 3. For the purpose of completing Sections II, III, IV and V, each property should be entered **once only** in respect of inspections, infestations or treatments.

In conclusion, I wish to thank all Departments of the Council for their willing co-operation during the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

G. A. PARRY,
Senior Inspector.
