To the Mayor, Aldermen and Members of  
Lampeter Borough Council

PREFACE

I have pleasure in presenting the Annual Report of the Public Health Department for the year which ended on the 31 December, 1967.

The number of live births registered during the year was twenty-four, representing an increase of two over the figure for the previous year. There was one registered stillbirth, but no infant was registered as having died before reaching the first birthday. No woman died as a result of pregnancy, childbirth or abortion.

The number of registered deaths was forty-four, an increase of thirteen over the previous year. Eighteen people died of heart disease, eight of 'stroke' and three of cancer.

The only notifications of the occurrence of infectious disease received during 1967 related to twenty-two cases of measles. Three new cases of tuberculosis were notified but no person died of the disease.

In order to trace all contacts of a notified case of tuberculosis the Department works in conjunction with the local Chest Physician.

The Council is to be commended upon its progressive housing policy, and upon its accurate interpretation of the regulations regarding housing improvement and conversion.

A more detailed account of the work of the Public Health Department, including a section by the Public Health Inspector, will be found in the following pages.

To extend his authority, might act of  
the several county Comptrollers

### NOTES

All that follows is to repeat Linton's own phrasings as originally used. I  
will, however, add my notes to the many odd notations  
qualifying and varying odd phrasings already added by Linton, and  
add my own notes as I might add them out of courtesy as well as respect  
both private as historical uses that set out the author as well as  
youngster. I trust it will be clear what sort of additions are made  
and hope no difficulties will arise.

John R. Strickland

RHAGAIR

Mae'n bleser gennyf gyflwyno Adroddiad Blynnyddol yr Adran Iechyd Cyhoeddus an y flwyddyn a orffenodd ar 31 Rhagfyr, 1967.

Nifer y rhai a gefrestrwyd yn fyw ar eu genedigaith yn ystod y flwyddyn oedd dau-ddeg-pedwar, dau yn fwy na'r flwyddyn flaenorol. Cefrestrwyd un marw-anedig, ond ni bu farw un baben cyn cyrraedd un-nlwydd oed. Ni fu un fenyw farw oherwydd ei bed yn feichiog, nac wrth eni plentyn, na thrwy erthyliad.

Cefrestrwyd deugain a phedwar o farwolaethau; tri-ar-ddeg yn fwy na'r flwyddyn gynt. Bu farw deunaw o bobl o glefyd y galon, wyth oherwydd y strôc, a tri o'r cancer.

Yr unig ddigwyddiadau a nodwyd o glefyd heintus yn ystod 1967 oedd dau-ar-hugain o achosion y frech goch. Nodwyd dri ddigwyddiadau newydd o'r ddarfededigaeth yn ystod y flwyddyn, ond ni bu farw un person o'r clefyd hwn.

Er mwyn dod o hyd i bersonnau sydd mewn perygl o gael y darfededigaeth oherwydd iddynt fod mewn cyffyrddiad union-gyrchol a'r achosion a hysbyswyd y mae'r Adran mewn cysylltiad cyson a'r meddyg sy'n arbenigo ar y darfededigaeth.

Y mae'r Cyngor yn haeddu cymeradwyaeth ar ei balisi effeithiol ynglyn a thai, ac ar ei ddehongliad cywir o'r rheolau sy'n ymuneud a gwella a chyfaddasu tei.

Ceir manylion pellach o waith yr Adran Iechyd Cyhoeddus yn cynnwys cyfran gan yr Archwiliwr Iechyd Cyhoeddus yn y tudalenau canlynol.

ANNUAL REPORT OF THE PUBLIC HEALTH INSPECTOR  
FOR THE YEAR 1967

1. SEWERAGE

The sewerage system is designed on the partially separate system. Wherever possible rainwater is excluded from the general sewerage system and is disposed of through soakaways. Most of the sewers were relaid in the late 1950's in stoneware, concrete, and cast-iron in diameter ranging from 6" to 21". Flows in excess of 6 times dry weather flow are discharged through storm overflows into watercourses. During the year the 6" sewer at Maestir Road was extended by 56 yards to accommodate new development in that area, and a new 6" diameter sewer of 117 yards length was laid in Station Terrace.

2. SEWAGE DISPOSAL

The Sewage Disposal Works were constructed in 1960 and are designed to treat a dry weather flow of 115,000 gallons per day. The plant operates on the activated sludge principle and experience has shown that constant care is required in its daily operation in order to produce an effluent of Royal Commission Standards. The average daily flow of sewage passing through the plant was 127,606 gallons with a maximum of 504,000 gallons and a minimum of 21,000 gallons. The maximum flow of storm water occurred on 2nd November when a flow of 1,258,000 gallons was recorded.

Effluent sampling is regularly carried out both by officers of the South West Wales Rivers Authority and by myself for analysis by the Public Analyst. Generally good results are achieved.

One of the difficulties at the plant concerns the sludge drying beds which are entirely unprotected so that in a wet year a bottle-neck occurs due to the protracted drying period. During the year a mechanical barrow was purchased which materially assists in the removal of partially dried sludge and it is light enough not to cause damage to the drainage tiles of the beds.

Also during the year, in an effort to alleviate complaints of objectionable odour, a de-odourising system was installed. This installation has proved successful and is effective and economic in operation.

Sewage disposal from dwellings isolated from the sewerage system is to cesspools which are emptied on request by a vehicle owned by an adjoining authority. A charge is made for this service.

### 3. WATER SUPPLY

The Cardiganshire Water Board supplies and distributes water throughout the area. The supply is adequate as regards quality and quantity. During the year five samples were taken for bacteriological examination and were reported to be satisfactory.

### 4. DRAINAGE AND NEW BUILDINGS

Number of plans submitted under Building Regulations	...	...	42
Number of plans approved under Building Regulations	...	...	42
Number with drainage	...	...	13
Number tested and approved	...	...	13

### 5. PUBLIC CLEANSING

Domestic refuse is collected once weekly from all parts of the area and disposed of at the Council's tip at Cwm Rhys Quarry. Control is effected by the regular use of a bulldozer when the refuse is compacted and covered with inert quarry waste. Trade refuse is collected weekly; a charge of 2s. Od. per bin being made. In addition, extraordinary items of refuse are collected by arrangement on a rechargeable basis. The year saw the coming into force of the Civic Amenities Act 1967 which has proved of great use in dealing with derelict road vehicles.

### 6. STREET CLEANSING

My remarks of last year are still valid for this year.

### 7. VERMINOUS PREMISES

Again no cases were reported.

### 8. PUBLIC CONVENIENCES

The Council maintains seven conveniences, viz., 4 for males and 3 for females. All are cleaned daily, but as they are small and scattered throughout the area, serious overcrowding sometimes occurs with its consequent difficulties. It must be admitted that on such occasions complaints are sometimes received and I would again recommend that a central well-designed toilet block be erected which could be continually manned.

### 9. OFFENSIVE TRADES

There are none registered within the Borough.

10. SCRAP METAL DEALERS ACT, 1964

One dealer in the area was registered under this Act. However, there is no depot in the area and no problems have arisen.

11. INFECTIOUS DISEASES

The Medical Officer of Health did not require action to be taken in any case.

12. FOOD POISONING

No cases occurred during the year.

13. ICE-CREAM

There is one manufacturer in the area. Five samples were submitted to the Public Health Laboratory and all were reported to be Grade 1. Three other samples were also submitted with the same result.

14. MILK

There is one registered producer/retailer in the area. Four samples were taken from his supply and submitted for examination for Brucella Abortus. All proved negative.

15. SLAUGHTERHOUSE

The Council owned slaughterhouse at Llanfair Road supplies the needs of the Borough as well as a large part of the surrounding area.

The following table shows the through-put for the past five years. It will be seen that the continual increase of the past few years now appears to have levelled off:-

	<u>Steers</u>	<u>Cows and Heifers</u>	<u>Calves</u>	<u>Sheep</u>	<u>Pigs</u>	<u>TOTAL</u>
1963	1,064		16	6,872	1,364	9,316
1964	929		12	7,429	1,157	9,527
1965	923		19	9,276	2,271	12,489
1966	965		15	10,818	2,138	13,936
1967	991		12	10,514	1,935	13,452

PROBLEMS RELATED TO THE SCAFFOLD .21

and general, i.e., which makes it possible now to see all the local and  
general and specific actions now all in such an ef-

GENERAL SUPPORTS .21

and makes it possible to have a local to nothing local or  
none you

GENERAL GROPS .21

and all groups become one all

GENERAL SETS .21

and from one system will then not be maintained and each  
of which is a separate one like the individual distinct objects all of  
which are all the different sets of relations that exist

SETS .21

and one set of relationships between elements or at most  
all except the relationships in the system has unique and most particular  
relations between the individual elements

GENERAL GROUPS .21

and all groups form a total to maintain their forms. Second all  
sets of elements will be true sets so the sets as defining, and the  
groups will also all true groups will be made after particular and  
the others not being all the common factors of each other

Number of dwellings in the area .....	686
Number o f Council owned dwellings .....	137
Number of Houses completed during the year	
(a) Council .....	12
(b) Private .....	0
Number of Houses under construction at end of year	
(a) Council .....	0
(b) Private .....	16

#### Housing Need

During the year 26 Families from the waiting list were allocated houses. At the end of the year 49 names remained on the waiting list.

#### Improvement Grants

##### (a) Discretionary

Number of applications received.....	3
Number of applications approved.....	3
Number of applications completed.....	2
Amount paid in grant.....	£593:10:0.

##### (b) Standard

Number of applications received.....	0
Number of applications approved.....	0
Number of applications completed.....	0
Amount paid in grant.....	£-

Up-to-date the Borough Council has paid in grant the total sum of £18, 167.

DISCUSSION ON SECURITY DOCS . VI

and you can now tell him as follows over telephone or teletype or telex  
- that you have been given this information.

ALL BS .....	will be held
CAL .....	until he comes
CL .....	until he comes
SI .....	will be destroyed
SE .....	apply the safekeeping rule

DISCUSSION ON SECURITY DOCS . VI

With a lot of trouble at doing nothing but the following a new license will  
allow operators to release the material to him on behalf of another organization to  
serve as well as to others which may be a family or friend or colleague  
and not do it themselves and if so, holding it forever will be guaranteed.

DISCUSSION . VI

BB .....	will not be classified to reduce
VCI .....	classified down to level C or reduce
..... any old papers belonging even if in reduced	
SI .....	level C (a)
O .....	any old paper to performance levels down to the reduced
O .....	level C (a)
OF .....	any old paper to performance levels down to the reduced

last sentence

before this was told you will classify as many old papers  
will probably not be longer than the date of the document

REVIEW OF INFORMATION  
REVIEW OF INFORMATION (a)

E .....	before you can keep them to reduce
S .....	before you can keep them to reduce
..... before you can keep them to reduce	
0:05:3982 .....	any old paper to the reduced

Information (f)

O .....	before you can keep them to reduce
O .....	before you can keep them to reduce
O .....	before you can keep them to reduce
AS .....	any old paper to the reduced

you know what they are doing and they are doing something else

TEL 382 to

20. MOVABLE DWELLINGS

There is one authorised caravan site in the area which is licensed for twelve caravans.

21. OFFICES, SHOPS AND RAILWAY PREMISES ACT, 1963

The following table shows the work carried out to the end of the year:-

Class of Premises	Number of premises registered during the year	Total number registered at end of year	Number of registered premises receiving a general inspection during the year
Offices	5	36	10
Retail Shops	-	50	34
Wholesale Shops, Warehouses	Nil	Nil	Nil
Catering establish- ments open to the public, canteens	-	9	3
Fuel storage depots	Nil	Nil	Nil

Number of Exemptions..... Nil

Number of Prosecutions..... Nil

22. RODENT CONTROL

No full-time operator is employed, this work being carried out on a part-time basis by one designated member of the Council's manual staff.

Sewerage System

Two treatments of the sewers were carried out with generally negative results.
