Report of the Medical Officer of Health

1959

Mr. Chairman and Gentlemen,

I beg to submit my annual report on the sanitary conditions and the state of the public health in the Llanwrtyd Wells Urban District during the year 1959.

In the preparation of this report I have endeavoured to deal briefly with all matters within my responsibility regarding public health and preventive medicine and I have included all the statistics specifically requested in Circular 1/50(Wales) by the Welsh Board of Health.

Section 1. General and Vital Statistics.

Area.....1,573 acres.

The Urban District of Llanwrtyd Wells is a constituent of the County of Brecon and is situated in the south-western part of the county. The surrounding country is mainly agricultural. The Urban District is a well known holiday resort where the waters of the medicinal springs in the locality.

Llanwrtyd Wells Urban District

Report

of the

Medical Officer of Health

for the year 1959.

Population estimates during the last 10 years.

Officials.

Medical Officer of Health.....T.C.R. George, M.R.C.S.,
Guildhall, Brecon. L.R.C.P.,
T.N. Brecon 26. D.P.H.

Public Health Inspector.....Mr. J.C. Bowen, M.P.P.H.I.
Inspector of Meat and Other Food.

Number of inhabited houses.....180. This gives an average number of 8.8 persons per house.

Live Births	Males	Females	Total	Crude Rate per 1000 pop.
Legitimate	1	1	2	1.3
Illegitimate	1	1	2	1.3
Total	2	2	4	2.6

Corrected Birthrate.....7.5

The corresponding rate for England and Wales was 16.5. The district rate was therefore lower than the national average and, as will be seen, was also much lower than the district birthrate.

Deaths	Males	Females	Total	Crude Rate per 1000 pop.
Male	1	1	2	1.3
Female	1	1	2	1.3
Total	2	2	4	2.6

The corrected death rate was 12.5

The corresponding rate for England and Wales was 15.4. The district rate was therefore lower than the national average, but slightly higher than the district birthrate.

All Births	Males	Females	Total	Rate per 1000 live & still births
Legitimate	1	1	2	1.3
Illegitimate	1	1	2	1.3
Total	2	2	4	2.6

The corresponding rate for England and Wales was 20.7. The district rate was therefore lower than the national average.

Llanwrtyd Wells Urban District Council

Report of the Medical Officer of Health

1959

Mr. Chairman and Gentlemen,

I beg to submit my annual report on the sanitary conditions and the state of the public health in the Llanwrtyd Wells Urban District during the year 1959.

In the preparation of this report I have endeavoured to deal briefly with all matters within my responsibility regarding public health and preventive medicine and I have included all the subjects specifically requested in Circular 1/60(Wales) by the Welsh Board of Health.

Section 1. General and Vital Statistics.

Area.....1673 acres.

The Urban District of Llanwrtyd Wells forms part of the County of Brecon and is situated in the northern part of the County. The surrounding country is agricultural in nature and farming is the predominant occupation of the inhabitants. The Urban District is a well known holiday resort where advantage is taken of the medicinal springs in the locality.

Population.

Census 1931.....742.
Census 1951.....560.
Estimated at Midsummer 1959.....490.

Population estimated during the last 10 years.

1950. 1951. 1952. 1953. 1954. 1955. 1956. 1957. 1958. 1959.
660. 562. 552. 546. 530. 520. 520. 510. 500. 490.

As will be seen from the above, the population in the district is slowly but surely dropping.

Number of inhabited houses.....198. This gives an average number of 2.4 persons per house.

<u>Live Births.</u>	<u>Males.</u>	<u>Females.</u>	<u>Total.</u>	<u>Crude Rate per 1000 Pop.</u>
Legitimate	2	1	3	
Illegitimate	0	0	0	
	2	1	3	6.1

Corrected birthrate.....7.3

The corresponding rate for England and Wales was 16.5. The district rate was therefore lower than the national average and, as will be seen, was also much lower than the district deathrate.

<u>Deaths.</u>	<u>Males.</u>	<u>Females.</u>	<u>Total.</u>	<u>Crude Rate per 1000 Pop.</u>
	6	6	12	24.4

The corrected death rate was 15.8

The corresponding rate for England and Wales was 11.6. The district rate was therefore higher than the national average, and regrettably also much higher than the district birthrate.

<u>Still Births.</u>	<u>Males.</u>	<u>Females.</u>	<u>Total.</u>	<u>Rate per 1000 live & still births</u>
	0	0	0	0

The corresponding rate for England and Wales was 20.7. The district rate was therefore lower than the national average.

Illegitimacy. There were no illegitimate births registered during the year

Total Live and still births. For the year, this number was three.

Infantile Mortality. This is the number of deaths occurring in children of under one year of age. No such death occurred in the district during the year whereas the national average was 22.0 per 1000 live births.

Infantile Mortality Rates.

Total Rate.....	0.
Legitimate rate.....	0.
Illegitimate rate.....	0.
Neo-natal rate.....	0.
Early neo-natal rate.....	0.
Peri-natal mortality rate.....	0.

Illegitimate live births per cent of total live births.....0%

Maternal Deaths. No deaths occurred which could be attributed to childbirth. This is a very satisfactory feature.

Maternal Mortality Rate.....0.

Deaths from Special Causes.

Infectious Disease.....	Nil.
Respiratory Tuberculosis.....	Nil.
Other tuberculous disease.....	Nil.
Cancer.....	Four.

Analysis of Causes of Deaths. Males.....6. Females.....6.

	<u>Males.</u>	<u>Females.</u>
Malignant neoplasm, breast.....	0.....	2.....
Other malignant neoplasms.....	2.....	0.....
Coronary disease.....	3.....	2.....
Other heart disease.....	1.....	1.....
Other defined causes.....	0.....	1.....

The deaths are classified under the headings given in the new Abridged List of Causes of Deaths.

Section 2. General Provisions of Health Services.

There were no changes in your Public Health Officers during the year. Mr. J. C. Bowen, the Public Health Inspector for the adjoining Rural District of Builth, continued to act as your Inspector on a part time basis.

There are no Committees, as such, dealing with health matters. The full Council deal with all Council affairs.

Laboratory Facilities. During the year laboratory facilities were available at Cardiff, Newport, Carmarthen, Swansea and Aberystwyth. The laboratory of the Public Analyst for the County of Carmarthen was available for water samples whilst any investigation required in the control of infectious disease was performed by the Public Health Laboratory at Carmarthen.

Nursing Facilities etc. The County Council are responsible for the provision of ambulance facilities, home nursing, maternity and child welfare, immunisation, and the treatment of minor ailments, dental, eye and orthopaedic defects.

Hospitals.The hospital needs of the residents of the district, for all diseases apart from infectious disease, are provided by the local hospital at Builth Wells.

The arrangements for the treatment of infectious disease remain the same as in previous years. Merthyr Borough Council treat the patients from the district suffering from infectious disease and these are conveyed to Merthyr in ambulances maintained by Merthyr. These arrangements are proving extremely satisfactory.

For the treatment of smallpox cases arrangements have been made by the Welsh Board of Health for beds to be available at the Penrhys Hospital, Rhondda.

Hereford Fever Hospital also is able to take cases of infectious disease.

Disinfection.The methods used for any required disinfection have been fumigation and spraying.

During the year this was carried out in one house.

Section 3. Sanitary Circumstances.

Water Supplies. The water supplies to the district are now administered by the Council as agent for the Builth and District Water Board. During the year work was commenced on stage two of the comprehensive water scheme. The work in this stage of the contract includes the relaying of mains in Llanwrtyd Wells and the provision of treatment works.

With the long period of dry weather during the summer additional work was carried out at the emergency intake at Cil Garnant. In order to provide an adequate supply to Beulah Road a new polythene pipe line was laid. It was then possible to provide a reasonable supply to all properties in the district.

Number of inspections made.....34.
Number of samples examined.....10.
One of these was satisfactory and nine unsatisfactory.

The water still undergoes no treatment and the new supply from the major scheme will be a great advantage to the district.

Drainage and Sewerage.The drainage of the district and the excellent sewage disposal works continued to function satisfactorily during the year. No new work was done in this disposal unit during the year.

Number of inspections made.....12.

Public Cleansing. There was no change in the methods adopted for the collection and disposal of house refuse. This is collected twice weekly by a Contractor in the district and disposed of by tipping. It was found necessary to display notices regarding the provision of satisfactory dustbins.

Sanitary Inspection of the Area.The sanitary inspection of the area was undertaken by the Public Health Inspector. All details relating to inspections, notices served, visits and samples taken in the whole of the report give information relating to the work of the Public Health Inspector during the year.

Nuisances.

Number of complaints received.....9.
Number of complaints investigated.....9.
Number of premises inspected.....9.
Number of premises revisited.....5.
Number of preliminary notice served.....3.
Number of abatement notices served.....0.

Offensive Trades. There are no offensive trades in the district.

Common Lodging Houses. No common lodging houses exist in the district.

Shops.

Number of inspections made by Public Health Inspector.....16
Number of notices served.....0.

Licensed Premises.

Number of inspections made by Public Health Inspector.....4.
Number of notices served.....0.

Factories.

Number of factories in the district.....4.
Number of visits of inspection made.....6.
Number of notices served.....0.
Number of defects found.....0.

Camping Sites. There are no recognised camping sites in the district.

Eradication of bed bugs and steps taken to combat infestation.

No premises were found to be verminous during the year.

Rodent Control. This work is performed by a Council Workman.

Number of premises inspected.....21.
Number of re-visits.....34.
Number found infested.....17.
Number of premises treated by Rodent Operator.....17.
Number of premises treated by occupier.....0.

The sewers were also treated during March of the year. Ten per cent of manholes were baited and there were no bait takes at any of the manholes.

Legal Proceedings. No legal action was taken during the year.

Tents, Vans and Sheds.

Number of visits.....2.
Number of notices.....0.

Section 4. Housing. No Council or private houses were built during the year. Judging by the applications received for tenancies of the Council houses, the housing need of the district is not great.

Housing Consolidated Regulations, 1925, Article 31. At the request of the Welsh Board of Health, details of action under these regulations are reintroduced. Two unoccupied unfit houses known as Nos. 1 and 2 Irfona were demolished during the year.

Section 5. Inspection and Supervision of Food.

In connection with clean food no educational activity occurred during the year. The number of food premises, by type, in the district were: 6 Licensed Premises, 2 Bakehouses, 3, Butchers, 1 Cafe and 7 others carrying on a "mixed" business.

Food & Drugs Act, 1955, Section 16. The premises registered under this section were 5 ice cream premises and 3 butchers.

Milk. Since the coming into operation of the Milk & Dairies Act, 1944, the Council is left with the registration and supervision of milk distributors. The results of samples taken during the year are shown below.

Number of visits made to cowsheds and dairies.....7.
Number of samples taken during the year.....1.
Number of samples reported as satisfactory.....1.
Number of samples reported as unsatisfactory.....0.

This sample was examined for presence of tuberculosis and abortus and found negative.

Meat. There is no slaughterhouse in the district, and meat is supplied to the district from the slaughterhouses at Builth Wells and Brecon.

Other Foods.

Food Preparation Rooms (including bakehouses).

Number of inspections made by public health inspector.....10.
Number of notices served.....0.

Ice Cream. The producer retailer in the district has now discontinued the manufacture of ice cream.

Number of producer retailers.....0.
Number of retailers only.....4.
The samples taken were three and the results were:
Category 1.....1.
Category 2.....1.
Category 4.....1.

Preserved Food Premises.

Number of inspections.....9.

Fried Fish Shops. There was no fried fish shop in the district during the year.

Food Condemned. No food was found to be unfit for human consumption during the year.

Section 6. Prevalence and Control of Infectious Disease.

The following cases of notifiable infectious disease were notified during the year:

Whooping Cough.....14 cases.
Influenzal Pneumonia.....1 case.

All these cases were mild and all were nursed at home. No deaths were caused by infectious disease during the year.

Venereal Disease. The County Council has an agreement with the General and Eye Hospital, Swansea, for the treatment of such cases. The tracing of contacts and the following up of defaulters is the responsibility of the County Council.

Tuberculosis. The following details show the position as regards tuberculosis in recent years.

Number of cases on register at commencement of year.....8.
Number of cases entered during the year.....2.
Number of cases removed as deceased.....0.
Number of cases removed as recovered.....0.
Number of cases removed as left district.....1.
Number of cases remaining on register at end of year.....9.
Contacts of cases are now offered prophylactic treatment by B.C.C.

The number of notifications in recent years is shown below:

1950. 1951. 1952. 1953. 1954. 1955. 1956. 1957. 1958. 1959.

2. 0. 1. 0. 4. 2. 3. 0. 2. 2.

Both of the fresh cases were transfers from other districts.

Diphtheria Immunisation.

As a result of the National Health Service Act, 1946, the County Council were responsible for the immunisation of children against diphtheria and details for the district will be found in the annual report of the County Medical Officer of Health.

Facilities for immunisation are now available at the ordinary Maternity and Child Welfare Clinics, at the schools during the school medical inspections, and also by the general practitioners.

It is pleasing to see that the incidence of diphtheria continues to fall. The object of the immunisation campaign, however, remains the same: to secure the immunisation of not less than 75% of babies before their first birthday. It must be remembered that diphtheria still kills and that elimination of the disease is conditional upon an adequate level of immunisation being maintained. If parents leave their children unprotected there may be a return of diphtheria outbreaks.

No cases of diphtheria were notified during the year.

APPENDIXFactories Acts, 1937 to 1959

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH IN RESPECT OF THE YEAR 1959 FOR THE URBAN DISTRICT OF LLANWRTYD WELLS IN THE COUNTY OF BRECONSHIRE

PART 1 OF THE ACT

1. - INSPECTIONS for purposes of provisions as to health (including inspections made by Public Health Inspectors).

Premises (1)	Number on Register (2)	Number of		
		Inspect- ions (3)	Written notices (4)	Occupiers prosecuted (5)
