BOROUGH OF NEATH

PUBLIC HEALTH DEPARTMENT,
CIVIC CENTRE,
NEATH, GLAM.
JULY, 1966.

Mr. Mayor, Ladies and Gentlemen,

I have the honour to submit the Annual Report of the Health Department for the year 1964. During this year your Medical Officer of Health was my predecessor, Dr. H. R. Stubbins, M.D.

There are no unusual trends in the vital statistics. But it should be noted that the infant mortality rate (33.53) and the perinatal mortality rate (34.95) continue to be high. The figures for Glamorgan are always higher than those for England and Wales, and the most northerly and westerly districts of Glamorgan tend to be highest. These figures reflect in general the social conditions and standard of living of a population, and probably the most useful thing that a district council can do to lower these figures is to improve housing in all its aspects, i.e. both in numbers and quality.

The Department was without a public health inspector for the last two months of the year, a continuation of a chronic inability to maintain a full establishment of officers. This situation unfortunately is reflected in the amount of work that is possible for the department to cover.

The Neath and District Spastic and Handicapped Persons Fund distributed over £980 during the year, and the John Taylor Charity allocated £250 for distribution at Christmas.

I am,

Yours faithfully,

A. G. ALEXANDER,

Medical Officer of Health.

RENT ACT, 1957.

There were no certificates of disrepair issued under the above Act during the year.

DISINFECTIONS DURING THE YEAR

No disinfections of houses were done during the year following illness.

An arrangement has been made with the Pontardawe Rural District Council for the cleansing of persons at their Cleansing Station, at an agreed charge per case. Similarly, with the Mid-Glamorgan Hospital Board for the steam disinfection of bedding and clothing.

SEWERAGE AND SEWAGE DISPOSAL

All areas are sewered except outlying farms, and one small semi-rural development of 7 bungalows. Existing sewerage system is not adequate and proposals for new outfalls, etc., have been prepared in draft and are awaiting Ministry of Housing and Local Government permission to proceed with first section. Disposal is by outfall into tidal waters and the present proposals for new outfalls include for sewage purification works at a later stage.

COMMON LODGING HOUSES

Re-Registration of this premises was requested by the keeper of the under-mentioned Common Lodging House:

Name of Keeper	Address	No of Reg. Rooms	No. of Reg. Lodgers
Mr. H. T. Rosser 68 Water Street, Neath ...	3	15

On the 31st December, 1964, 5 men were staying in these premises. The majority of these lodgers were resident rather than casual.

Particulars are given below of the number of lodgers staying in common lodging houses on the 31st December for the past six years: ...

Year	No. of Lodgers
1959	51
1960	37
1961	40
1962	25
1963	8
1964	5

A total of 7 visits were made to this Common Lodging House during the year to ensure the maintenance of cleanliness and good state of repair.

Registration of premises formerly in use as a Common Lodging House, 1 Cattle Street, Neath, was refused by reason of the bad condition of the premises. A Demolition Order was made on the building in October, 1964. The premises continued to be occupied, and the Council instituted proceedings against the Owner to have the property vacated.

BOROUGH ANALYST

L. E. Coles, B.Pharm., Ph.D., F.P.S., F.R.I.C., County Public Analyst, was appointed Public Analyst for the Borough on the 24th September, 1963.

UNSATISFACTORY SAMPLES**FORMAL SAMPLES**

Article	Reason
1lb. Chipolata Pork Sausages	Deficient in meat content.

INFORMAL SAMPLES

Article	Reason
Bottle Syrup of Figs	Labelled incorrectly.
$\frac{1}{2}$ lb. Beef Sausages	Excess amount of sulphur dioxide.

FORMAL SAMPLE: The Council decided not to take proceedings as there is no legal standard for sausages. They also instructed the Senior Public Health Inspector to discuss this matter with local trade organisations.

INFORMAL SAMPLE: The bottle of Syrup of Figs with Senna was unsatisfactory by reason of being labelled incorrectly in that it did not show a list and quantitative particulars of the active constituents or ingredients.

The $\frac{1}{2}$ lb. of beef sausages was unsatisfactory by reason that it contained an excess amount of sulphur dioxide preservative without an accompanying declaration or notice. Subsequent enquiries showed that the notice was normally exhibited but had been moved during decoration of the premises. The attention of the retailer was drawn to this matter, and he has been warned that this must in future be clearly displayed.

ARTIFICIAL CREAM

All artificial cream sold in the Borough was in unopened receptacles, as received from the manufacturers. It is mainly used in the preparation of cakes, fancy pastries and trifles.

CONDENSED AND DRIED MILK REGULATIONS

On inspection of stocks held in various food premises no case of incorrect description was found.

MERCHANDISE MARKS ACT, 1926

The Marking Orders under the above Act are operative and apply to imported eggs, bacon, dried fruit, meat and poultry, butter and margarine, apples, tomatoes, chilled salmon, honey, oats and malt products. Routine inspections were made to ensure compliance with the provisions of the Act.

MILK (SPECIAL DESIGNATIONS) REGULATIONS, 1960

During the year two licences were issued under the above regulations.

TUBERCULOSIS (AREA ERADICATION) ORDER 1954

No animals were brought under licence into the Abattoir under the above Order.

INSPECTION OF DAIRY CATTLE

Routine inspection of dairy cattle in the Borough is the responsibility of the Animal Health Division of the Ministry of Agriculture, Fisheries and Food. Any matters of particular interest, including information relating to carcasses found during inspection at the Borough Abattoir to be affected with tuberculosis, are reported to the Divisional Veterinary Officer.

EXAMINATION OF MILK FOR TUBERCLE BACILLI

During the year 4 samples of milk were taken and submitted to the public Health Laboratory, Swansea, for examination for Tubercle Bacilli and for the presence of *Brucella Abortus*. There were 4 negative *Brucella Abortus* results, and 4 T.B. negative results.

BACTERIOLOGICAL EXAMINATION OF MILK

During the year 95 samples of milk were taken and submitted for examination to the Public Health Laboratory, Cardiff, as follows:

Description	No. Submitted	No. Satisfactory	No. Unsatis- factory
Pasteurised	15	15	0
Sterilised	19	19	0
Pasteurised (Channel Islands) ...	17	17	0

The following table will indicate the percentage of unsatisfactory results of milk samples from 1959 to 1964:

Year	No of Samples examined	Number Unsatisfactory	Percentage Unsatisfactory
1959	143	0	0.00
1960	110	0	0.00
1961	134	0	0.00
1962	116	0	0.00
1963	69	0	0.00
1964	95	1	1.05

An analysis of the Quarterly Return shows:—

	Number Submitted	Number Satisfactory	Number Unsatisfactory
First Quarter	9	9	0
Second Quarter	25	24	1
Third Quarter	25	25	0
Fourth Quarter	36	36	0

WATER SUPPLY

Water samples were taken monthly over the year for bacteriological and chemical examination at the Public Health Laboratories, Cardiff and Swansea, and copies of the results were submitted to the Borough Engineer. They were taken from the town supplies which are drawn from the Gnoll, Briton Ferry and Ystradfellte Reservoirs, after treatment. The first two supplies are filtered and chlorinated, but the latter is only chlorinated.

Results of water sampling for the year are as follows:—

Period	Number of samples taken				Total
	Bacteriological		Chemical		
	Satisfactory	Unsatisfactory	Satisfactory	Unsatisfactory	
1st Quarter, 1964 ...	9	2	1	0	12
2nd Quarter, 1964 ...	9	2	0	0	11
3rd Quarter, 1964 ...	17	6	3	1	27
4th Quarter, 1964 ...	11	4	5	1	21

The unsatisfactory results were followed up and check samples taken with satisfactory results.

MEAT INSPECTION

Meat Inspection was regularly carried out in the Borough Slaughterhouse during the year and, when necessary, in the butchers' shops and stalls.

Complete inspection is maintained and one or other of your Public Health Inspectors is engaged on a full time basis on this work. It will be appreciated that this involves evening work, as well as Saturdays and Bank Holidays.

Some butchers brought their own animals in for slaughter, but the majority are obtaining their supplies from wholesale dealers.

Most of the stock slaughtered was for butchers' meat and proved of good quality.

Regulations for the prevention of cruelty to animals and the provisions of the Meat Inspection Regulations, 1963, were complied with.

Condemned carcasses, parts of carcasses and offal, were detained in the condemned room pending collection by the disposal contractors, and were coloured before being released.

The number of animals slaughtered in the Borough Slaughterhouse in 1964 was:

SLAUGHTER OF ANIMALS ACTS, 1933 TO 1954

Renewal of licences under the provisions of the above Act were granted to 5 licensed slaughtermen during the year.

FOOD HYGIENE REGULATIONS, 1955

Premises and vehicles are regularly inspected to ensure the proper handling of food, protection against contamination and to ensure compliance with these Regulations. Thirteen Notices were served during the year under these Regulations.

BUICHERS' SHOPS

There were 29 shops and 9 stalls, mostly owned by individual butchers.

All these shops and stalls are periodically visited, mainly to determine the general conditions of the premises, equipment, cleanliness and disposal of waste. The visits were also made to examine their products and issue certificates where unsound goods were voluntarily surrendered.

OTHER PREMISES WHERE FOOD IS SOLD, STORED OR PREPARED FOR SALE

1. BAKEHOUSES:

There were 9 premises used in the production of bread and flour confectionery. Major improvements were carried out in one establishment during the year and efforts were made to obtain a good standard of cleanliness in all premises. No complaint of vermin was received during the year in respect of any of these premises.

2. AERATED WATER WORKS:

Three factories were engaged in the production of soft drinks, vinegar and gravy browning.

Samples of their products and the water supplies were taken during the year, with satisfactory results.

3. ICE CREAM:

Ice cream production in the area was made by the Cold Mix Method and supplied to businesses associated with the producers.

The main ice cream supply in the Borough is obtained from national firms but small quantities are procured from suppliers in neighbouring towns.

Seven samples were collected and submitted for examination in the Public Health Laboratory, Cardiff, and the results given as follows:

4. FISH FRYING BUSINESSES :

Eighteen premises were used in the sale of fresh fish and chipped potatoes. No change in the structure or major alterations to equipment was noticed, but they were kept clean, waste was suitably stored and disposed of and no complaints received.

5. FISH SHOPS AND HAWKERS :

There were 6 premises used for the sale of fresh fish. Conditions were satisfactory and no complaint was received.

Four persons used their vehicles for hawking fresh fish in the Borough, two of them being residents in the Area.

6. HOTELS, RESTAURANTS, CAFES AND CANTEENS:

There were 51 hotels, restaurants and cafes catering for the needs of the public. On inspection some minor improvements and redecoration were carried out in some of these premises. No complaints were received during the year in the Borough.

Canteens are provided in the schools and factories and are equipped with modern equipment and appliances. Eighteen canteens operated during the year in the Borough.

7. HOSPITALS:

Periodical visits were made to Neath General Hospital in order to carry out examination of foodstuff, so as to ascertain its fitness for human consumption.

FOOD AND DRUGS ACT, 1955

The following foodstuffs were surrendered as unfit for human consumption at various shops, stores and warehouses in the Borough during 1964:

EXEMPTIONS:

No applications for exemptions from any provision of the Act have been received.

ACCIDENTS:

Two non-fatal accidents have been reported and these were fully investigated. No negligence or contraventions were evident in these cases, and no further action was required.

In commenting on the general working of the first few months of this Act, it has been our experience that despite the great amount of publicity given to its introduction and the need for Employers to register their premises, the results were disappointing. Letters sent to occupiers of premises also brought poor results so that it became necessary for your Officers to call personally at many premises and numerous visits of this kind have been made. It is estimated that there still remain some thirty to forty premises which are as yet unregistered, and these are still being visited as possible.

The work involved in this legislation is considerable if it is to be done properly and effectively, and the Council have agreed that an additional Officer be appointed in this Department as a Technical Assistant, and this Officer will be primarily engaged on this work. An appointment has since been made.

Finally, experience shows that whilst many Employers have made provision for improving their premises and the required facilities, others have made little effort and it is expected that in the months ahead we must pursue these matters with vigour in order to ensure compliance with the Act.

2. HAIRDRESSER'S ESTABLISHMENTS:

Inspections of these premises were carried out during the year to determine the conditions of the premises, cleanliness and removal of waste. Conditions were found to be satisfactory and no complaints were received. There are 30 of the premises used, 8 gentlemen, 20 ladies and 2 for mixed sexes.

3. OFFENSIVE TRADES:

Applications were received from Two persons to continue the established offensive trades in the Borough, and consent was given. These were for two Rag and Bone Dealers: Messrs. Foner and Co., The Latt, James Street; and Mr. Daniel Price, 5 Bankside.

Frequent visits are made to these premises and considering the nature of the trades they were found to be satisfactory.

4. TENTS, VANS AND SHEDS:

The New Fairfield was used by persons associated with the Fairs and Circus, and it is provided with adequate water supply and sanitary conveniences.

5. CINEMAS AND BILLIARD HALLS:

The one cinema in the Borough was inspected to determine the condition of the sanitary conveniences and the general state and cleanliness of the premises.

Inspections were made of the one Billiard Hall and one Billiard Club in the Borough. Each was found to be satisfactory as to cleanliness and general maintenance.

6. SCHOOLS AND NURSERIES:

Public Schools and Nurseries in the Borough are controlled by the Glamorgan County Council.

During the year 14 Milk Samples were taken for examination from these premises and were found satisfactory. The water supply which is obtained from the town mains was also tested at intervals.

7. LICENSED PREMISES:

There were 64 licensed premises and 24 registered clubs in 1964 situated within the Borough. On inspection conditions were found to be satisfactory.

8. PET ANIMALS ACT:

Four licences were granted under the above Act to persons trading in pet animals. The premises were visited and the conditions of the licences complied with.

9. THE RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951:

The re-registration of two premises under this Act was granted in 1964. On inspection of these premises the filling materials were found to have been obtained from licensed factories.

MEASUREMENT OF ATMOSPHERIC POLLUTION

Records of the Rainfall and deposited matter in the gauge kept on the roof of the Public Health Offices, Dyfed Road, Neath, as well as of the sulphation of the standard "lead peroxide candles" exposed in the approved louvred box placed near the gauge, were kept during the year. Examination was carried out by the Public Analyst in Cardiff, and the result recorded on the standard forms supplied by the Department of Scientific and Industrial Research who summarise the results from various parts of the country and circulate them to the Co-operating Bodies.

The Council is a Member of the two national bodies in this field, the Department of Scientific and Industrial Research and the National Society for Clean Air.
