compared with 15.6 for the year 1936. Of the total births
7 were illegitimate- 5 males and 2 females - compared with
8 for the previous year.

The Birth Rate for England and Wales
was 14.9.

There were 6 still-births as against
15 last year.

There were 197 Deaths giving a Death
Rate of 16.8 a decrease of .9 on the figure for the year
1936 when it was 17.7.

BOROUGH OF PEMBOROX

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1937.

TO HIS WORSHIP THE MAYOR AND CORPORATION OF THE

BOROUGH OF PEMBOROX.

Gentlemen,

I beg to submit my Annual Report on

the health of the Borough for the year 1937.

GENERAL STATISTICS.

The area of the Borough is a little

over 8 square miles.

Estimated population 11,800.

Number of inhabited houses .. 5,823.

Rateable Value £55,184.

Sum represented by a Penny Rate £182.13.7.

EXTRACT OF VITAL STATISTICS.

There were 173 births in the Borough -

85 Males and 88 Females - giving a birth rate of 14.8

compared with 16.5 for the year 1936. Of the total births

7 were illegitimate - 3 males and 4 females - compared with

8 for the previous year.

The Birth Rate for England and Wales

was 14.9.

There were 6 still-births as against

15 last year.

There were 197 Deaths giving a Death

Rate of 16.8 a decrease of 2 on the figure for the year

1936 when it was 17.7.

INFANTILE MORTALITY.

The Death Rate of Infants under one year of age was 69.3 per 1,000 births as compared with 29.24 for the previous year.

The number of deaths from diarrhoea amongst infants under two years of age was one.

TUBERCULOSIS.

The King Edward VII Welsh National Memorial Association is responsible for the examination and treatment of Tuberculosis.

The Resident Tuberculosis Physician attends weekly at the Nurses Home and Meyrick Hospital, Pembroke Dock, and examines all cases referred to him.

Digitized by the Internet Archive

It was not necessary to take any action under the Public Health (Prevention of Tuberculosis) Regulations 1925 nor under Section 62 of the Public Health Act 1925.

The notification of tuberculosis within the Borough continues to be satisfactorily carried out.

The Public Health Office is situate in Bush Street.

There is a part-time Medical Officer of Health and one whole-time Sanitary Inspector. Both these Officers act as Inspectors.

General Nursing is carried out by 3 District Nurses provided by two voluntary District Nursing Associations subsidised by the County Council. These Nurses also act as Midwives togetherwith four other trained Midwives in the area.

Total	12	12	12	12

It was not necessary to take any action under the Public Health (Prevention of Tuberculosis) Regulations 1925 nor under Section 64 of the Public Health Act 1925.

The notification of tuberculosis within the Borough continued to be satisfactorily carried out.

The Public Health Office is situated in Bush Street.

There is a part-time Medical Officer of Health and one whole-time Sanitary Inspector. Both these Officers act as Inspectors.

General Nursing is carried out by 2 District Nurses provided by two voluntary District Nursing Associations subsidised by the County Council. These Nurses also act as Midwives together with four other trained Midwives in the area.

WATER SUPPLY.

The Water Supply is drawn from two sources viz., (1) Milton New Spring which is situated outside the Borough boundary and (2) a number of springs inside that line.

The supply is quite satisfactory.

MILK SUPPLY.

The Food and Drugs Acts are administered by the Police.

The Milk supplied within the Borough is analysed periodically and maintains a high standard of purity.

HOSPITALS.

Hospitals provided or subsidised by the County Council :-

(1) TUBERCULOSIS- Sealyham Hospital for advanced pulmonary cases and Kensington Hospital, St., Brides, for surgical tuberculosis; the former has provision for 30 beds and the latter 110.

These Hospitals are directly under the control of the Welsh National Memorial Association.

There are two Hospitals in the area - The Nurses Home and Meyrick Hospital, Pembroke Dock, and the Cottage Hospital, Pembroke where general medical and surgical treatment are carried out.

There is also the Public Assistance Institution available.

There are no private Nursing Homes.

Four Beds are available at the Nurses Home and Meyrick Hospital for maternity cases.

WATER SUPPLY

The Water Supply is drawn from two sources viz., (1) Milton Low Spring which is situated inside the Borough boundary and (2) a number of springs outside the line.
The supply is quite satisfactory.

FOOD SUPPLY

The Food and Drink Acts are administered by the Police.
The Milk supplied within the Borough is analysed periodically and maintains a high standard of purity.

HOSPITALS

Hospitals provided or subsidised by the County Council:-

- (1) WATERBURY - BATHURST HOSPITAL for advanced primary cancer and Bathurst Hospital, 200 Brides, for surgical treatment; the former has provision for 20 beds and the latter 110.
These hospitals are directly under the control of the Bathurst Memorial Association.
There are two hospitals in the area - The Nurse Home and Bathurst Hospital, Bathurst Dock, and the College Hospital, Bathurst where general medical and surgical treatment are carried out.

There is also the Public Assistance Institution at Bathurst.
There are no private hospitals in the area.
The Home and Hospital for the aged, Bathurst and Bathurst Hospital for children, Bathurst.

INFECTIOUS DISEASES.

The County Council is responsible for the treatment of Infectious Diseases, and the Isolation Hospital is in the Borough.

There is an Ambulance available for the removal of Patients.

The two School Clinics controlled by you are proving most useful.

There is a Maternity and Child Welfare Centre held at The Nurses Home and Meyrick Hospital on the first and third Fridays in each month, and is well attended.

The Local Authority under the Mental Deficiency Acts 1913-1927 is the County Council.

Cases of puerperal fever are treated in local Hospitals.

The legislation relative to Public Health services remains the same.

HOUSING.

Statistics are given in the Sanitary Inspector's Report.

RIVERS AND STREAMS.

No pollution has been recorded during the year.

SCHOOLS.

The sanitary conditions and the water supply to schools are satisfactory.

DRAINAGE AND SEWERAGE.

These matters are fully dealt with by the Sanitary Inspector in his Report.

INFECTIOUS DISEASES.

The County Council is responsible for the treatment of infectious diseases, and the isolation hospital is in the Borough. There is no laboratory available for the removal of bacteria.

The two school clinics operated by you are proving most useful. There is a Veterinary and Civil Service branch of the Public Health and Sanitary Department on the first and third floors in each month, and is well attended.

The Local Authority under the Sanitary Act 1913-14 is the County Council. Cases of infectious fever are treated in the Local Hospital. The registration relative to Public Health services remains the same.

HOUSING.

Statistics are given in the Sanitary Inspector's Report. RENTED AND OWNED.

No pollution has been recorded during the year.

SCHOOLS.

The sanitary conditions and the water supply to schools are satisfactory. DRAINAGE AND SEWERAGE.

These matters are dealt with by the Sanitary Inspector in his Report.

REFUSE COLLECTION.

This is dealt with in the Sanitary Inspector's Report.

I should like to take this opportunity of expressing my thanks to the Council for their courtesy and support, to the Town Clerk for his great help, and to the Sanitary Inspector for his able assistance.

I am, Gentlemen,

Your obedient servant,

D. STEWART.

Medical Officer of Health.

Municipal Offices,
PEMBROKE DOCK.
JUNE 1938.

RECEIVED COLLECTION

This is dealt with in the Sanitary

Inspector's Report.

I should like to take this opportunity

of expressing my thanks to the Council for their

courtesy and support, to the Town Clerk for his great

help, and to the Sanitary Inspector for his able

assistance.

I am, Gentlemen,

Your obedient servant,

P. STURMANT.

Medical Officer of Health.

Municipal Offices,
FARMER DOCK,
JUNE 1932.

TO HIS WORSHIP THE MAYOR AND CORPORATION.

MR. MAYOR AND GENTLEMEN,

I beg to submit the Annual Report for the year ending 31st December 1937.

COMPLAINTS AND NUISANCES.

During the year a number of complaints and nuisances were received and investigated and in all cases where a nuisance existed it was abated.

Attention has had to be paid to the removal of rubbish from back lanes. A number of people seem to regard their back lanes as a dumping ground for rubbish of all sorts, especially garden refuse. On various occasions notices have been sent to whole streets where this nuisance existed and although this has had a salutary effect for a period, the trouble arises again at a later date.

One recurring complaint is that of slop and dirty water being discharged into street gutters in certain districts which are not drained. I can only reiterate the opinion expressed in previous reports that the nuisance will not be entirely abated until some system of drainage is instituted in the districts concerned.

MARKETS AND SLAUGHTERHOUSES.

The number of slaughterhouses in the Borough is the same as in previous years viz., two public and three private - one public and one private in the Pembroke Ward and one public and two private in the Pater Ward. Inspections are regularly carried out and as much meat as possible examined.

MAYOR AND CORPORATION.

I beg to submit the Annual Report for the

year ending 31st December 1937.

COMPLAINTS AND REMEDIES.

During the year a number of complaints

and nuisances were received and investigated and in all

cases where a nuisance existed it was abated.

Attention has had to be paid to the

removal of rubbish from back lanes. A number of people

seem to regard their back lanes as a dumping ground for

rubbish of all sorts, especially garden refuse. On various

occasions notices have been sent to those persons who

this nuisance existed and although this has had a

salutary effect for a period, the trouble arises again at

a later date.

The recurring complaint is that of stop

and dirty water being discharged into street gutters in

certain districts which are not abated. I can only

reiterate the opinion expressed in previous reports that

the nuisance will not be entirely abated until some system

of drainage is instituted in the districts concerned.

MARKETS AND SANITATION.

The number of slaughterhouses in the

Borough is the same as in previous years viz., two public

and three private - one public and one private in the

Forbrook Ward and one public and two private in the

Ward. Inspections are regularly carried out and as much

work as possible examined.

DAIRIES COWSHEDS AND MILKSHOPS.

The number of cowkeepers, dairymen and retailers registered in the Borough is 83. Of this number 57 are producer retailers, 6 are retailers, and 20 are producers only. Only 2 of the 20 producers sell their milk wholesale. 39 of the producer retailers are situated in the Borough, and 18 have their premises outside. Of the six retailers 5 are resident in the Borough and one enters from outside. Accredited Milk is retailed by 3 Vendors and Tuberculin Tested Milk by one Vendor.

During the year 13 samples of milk were taken for bacteriological examination and 6 for examination of tubercle bacilli. 10 of the bacteriological samples were below Accredited Standard. Of the 6 samples taken for tuberculosis all proved negative.

All premises in the Borough have been regularly inspected, and little cause for complaint has been found.

INFECTIOUS DISEASES, DISINFECTIONS ETC.,

The usual precautions have been taken to restrict the spread of infectious disease, and where patients have been isolated at home a leaflet has been sent containing instructions.

During the year 62 disinfections were carried out in the Borough.

COLLECTION AND DISPOSAL OF REFUSE.

Refuse is collected in both wards and disposed of by tipping as in former years. There are five refuse tips in the Borough - 3 in the Pater Ward and 2 in the Pembroke Ward. In both Wards this service is done by contract.

The number of dairies, creameries and milkworks registered in the Borough is 22. Of this number 17 are producer dairies, 5 are retailers, and 2 are producer dairies. Only 2 of the 22 producer dairies sell their milk wholesale. 20 of the producer dairies are situated in the Borough, and 2 have their premises outside. Of the 5 retailers 2 are resident in the Borough and one enters from outside. Accredited milk is retailed by 2 vendors and 1 dealer. Sterilized milk is sold by one vendor.

During the year 15 samples of milk were taken for bacteriological examination and 6 for examination of tubercle bacilli. 10 of the bacteriological samples were below accredited standard. Of the 6 samples taken for tubercle bacilli all proved negative. All dairies in the Borough have been regularly inspected, and little cause for complaint has been found.

INFECTIOUS DISEASES, DISTURBANCES, ETC.

The usual precautions have been taken to restrict the spread of infectious diseases, and where patients have been isolated at home a doctor has been sent containing instructions.

During the year 22 distillations were carried out in the Borough.

COLLECTION AND DISPOSAL OF REFUSE.

Refuse is collected in both wards and disposed of by tipping in former years. There are five refuse tips in the Borough - 2 in the Parish Ward and 3 in the Town Ward. In both wards this service is done by contract.

FACTORIES AND WORKSHOPS.

The number of Factories within the meaning of the Act is 37, there being 25 in the Pater Ward, and 12 in the Pembroke Ward. The number of Workshops in the Borough is 36, there being 18 in the Pater Ward and 18 in the Pembroke Ward.

The number of Bakehouses in the Borough is 14, and of this number 6 are Factories within the meaning of the Act, and 8 Workshops.

Inspections have been made during the year of all Factories and Workshops in the Borough and only two complaints were found and these were remedied when attention was called to them.

COMMON LODGING HOUSES.

There is one Common Lodging House in the Borough situated in Pembroke. Inspections have been regularly carried out and no contravention of the Bye-Laws was found.

DRAINAGE WORK SANITARY CONVENIENCE ETC.,

The number of Sanitary Conveniences in the Borough is approximately as follows:-

	<u>W.C's.</u>	<u>Pail Closets</u>	<u>Privies.</u>
Pembroke	316	527	201
Pembroke Dock	1627	689	69.

These figures show an increase of 10 W.C's in the Pater Ward, and no increase in the Pembroke Ward.

Apart from the drainage work involved in installing the W.C's alterations and additions to existing drainage work has been carried out at a further 5 houses in the Borough, making a total of 15 houses visited for the purpose of supervising drainage work. All the work has been carried out to my satisfaction and in accordance with the Bye-laws.

SHOPS.

No action was called for under the provisions of the Shops Acts, in respect of the ventilation and Temperature of shops, and sanitary conveniences.

The number of factories within the meaning of the Act is 37, there being 25 in the Peter Ward, and 12 in the Penryn Ward. The number of Workshops in the Borough is 58, there being 15 in the Peter Ward and 43 in the Penryn Ward.

The number of Workshops in the Borough is 14, and of this number 6 are factories within the meaning of the Act, and 8 Workshops.

Inspections have been made during the year at all factories and Workshops in the Borough and only two complaints were found and these were remedied when attention was called to them.

COMMON LODGING HOUSES.

There is one Common Lodging House in the Borough situated in Penryn. Inspections have been regularly carried out and no contravention of the bye-laws was found.

SEMI-ANNUAL WORK SHEDS AND CONVENIENCES.

The number of Semi-Annual Conveniences in the Borough is approximately as follows:-

W.C.s.	Self-Cleaning	Privies.
Penryn	315	301
Penryn Dock	157	68.

These figures show an increase of 10 W.C.s in the Peter Ward, and no increase in the Penryn Ward. Apart from the drainage work involved in

installing the W.C.s alterations and additions to existing drainage work has been carried out at a further 5 houses in the Borough, making a total of 15 houses visited for the purpose of supervising drainage work. All the work has been carried out to my satisfaction and in accordance with the

BYE-LAWS.

SHOPS.

No action was called for under the provisions of the Shops Act, in respect of the ventilation and temperature of shops, and sanitary conveniences.

SWIMMING BATHS AND POOLS.

There are no swimming baths or pools available in the Borough for the use of the public.

ERADICATION OF BED BUGS.

One house was found to be infested with bed bugs during the end of the year and the owners have arranged for the house to be treated with Cyanide Gas.

OVERCROWDING.

A further survey of all the houses found to be overcrowded during the last overcrowding survey was carried out during the year. I am pleased to report that the number of overcrowded houses in the Borough has been reduced from 92 to 65. The decrease has been due to 1. A change in the occupiers of the houses, and 2. To a member of the family leaving the district. No fresh cases of overcrowding were found during the year.

HOUSING.

During the year inspections of houses have been continued and altogether 293 were inspected and defects found at 83. The total number remedied during the year with and without formal notice was 64. Further details are included in the tabulated statement at the end of this report. Most of the repairs were carried out without undue pressure, and the Council did not find it necessary to perform any of the work themselves.

In conclusion, I should like to express my thanks to the Council for the consideration extended to my periodical reports and recommendations.

Your obedient Servant,

G. Wynne Rees,

Sanitary Inspector.

There are no swimming baths or pools

available in the Borough for the use of the public.

REGISTRATION OF BIRTHS.

One birth was found to be infected with diphtheria

during the year and the parents have arranged

for the house to be treated with formalin.

OVERCROWDING.

A further survey of all the houses found to be

overcrowded during the last overcrowding survey was carried

out during the year. It was found to report that the number

of overcrowded houses in the Borough has been reduced from

92 to 85. The decrease has been due to 1. A change in the

composition of the houses, and 2. To a number of the families

leaving the district. The first cases of overcrowding were

found during the year.

HOUSING.

During the year inspection of houses has

been continued and altogether 205 were inspected and 105

found to be overcrowded. The total number remained during the year at

and without formal notice was 85. Further details are included

in the tabulated statement at the end of this report.

Most of the repairs were carried out without undue expense,

and the Council did not find it necessary to borrow any of

the work themselves.

In conclusion, I should like to express my

thanks to the Council for the consideration extended to my

periodical reports and recommendations.

Your obedient servant,

G. W. H. H. H.

Sanitary Inspector.
