The Urban District Council of Tredegar

Annual Report

of the

Medical Officer of Health

and

Senior Public Health Inspector

for the Year

1957

ANNUAL REPORT
OF THE
MEDICAL OFFICER of HEALTH

Dr. M. J. DONELAN, M.B., B.Ch., D.P.H.

Tredegar Urban District Council

Chairman (1957) : Councillor W. R. Phillips, J.P.

Chairman (1957) Public Health Committee : Councillor G. Tuffin

MEMBERS :

West Ward.

Councillor W. R. Phillips
Councillor D. T. J. Richards
Councillor J. Stockton
Councillor R. Williams

Georgetown Ward.

Councillor A. L. Coombes
Councillor R. G. Jones
Councillor J. B. McPherson
Councillor (Mrs.) I. Powell

Central Ward.

Councillor E. Davies
Councillor E. Jones, M.B.E., J.P.
Councillor G. H. Tuffin
Councillor J. H. D. Williams

Sirhowy Ward.

Councillor R. I. Davies
Councillor T. James, J.P.
Councillor E. Meyrick
Councillor D. R. Perry

PUBLIC HEALTH OFFICERS OF THE LOCAL AUTHORITY.

Medical Officer of Health :

Dr. M. J. Donelan, M.B., B.Ch., D.P.H.

Senior Public Health Inspector :

O. Griffiths, M.R.S.H.

Certificated Public Health Inspector, The Royal Society of Health and Association of Public Health Inspectors Examination Joint Board, 1937.

Diploma of the Royal Institute of Public Health and Hygiene, 1938.

Certificated Inspector of Meat and Other Foods, The Royal Society of Health, 1939.

Certificate of Food Hygiene, The Royal Sanitary Institute, 1939.

Second Public Health Inspector :

K. O. Batten, C.R.S.H., M.A.P.H.I.,

Certificated Public Health Inspector, The Royal Society of Health and Association of Public Health Inspectors Examination Joint Board, 1937.

Certificated Inspector of Meat and Other Foods, The Royal Society of Health, 1939.

Senior Clerk : Miss E. G. Wright.

Junior Clerk : Miss M. B. Penny.

Pupil Public Health Inspector : Mr. D. A. Cole.

Cleansing Foreman : Mr. C. Brace.

MEDICAL OFFICER'S REPORT.

Bedwellty House,
TREDEGAR Mon.
April, 1958

To the Chairman and Members of the Tredegar Urban District Council.

Mrs. Powell and Gentlemen,

It is with much pleasure that I submit to you my Annual Report for the Year 1957, which has been drawn up on the lines indicated in Circular (M.O.H.) No. 3/1958 issued by the Welsh Board of Health.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area of the District :—

Parish of Tredegar	4,360 acres
Parish of Dukestown	3,788 acres
					<hr/>
					8,148 acres
					<hr/>
Rateable Value of the District	£110,940
Estimated Product of Id. Rate	£400 0s. 0d.
Amount per Pound of Rates Levied for the District					
(Year Ended 31/3/58)					£1 4s. 0d.
Number of Dwelling Houses	5,616

The population of the district reached its peak in the years 1924-25 when the figure given was 26,380. The depression during the years that followed brought a gradual exodus, especially of the younger people to more prosperous areas, resulting in a steady decline, leaving in 1939 an estimated population figure of 20,600. This drop continued somewhat during the war years, but an upward trend is again noted for the post war years and the Registrar General's estimate for 1957 is 20,210.

The natural and social conditions of the area fully described in earlier reports altered little during the year.

Geographically situated at the Northern entrance or gateway of the head of the Sirhowy Valley and lying on either side of the river Howy almost at its source, the district has an altitude of between 800 feet above sea level at Bedwellty Pits Village on the Southern extremity to 1,350 feet at Trefil Quarries in the North.

Physically, the upper portion of the district lies above the outcrop of the South Wales Coalfield upon the Farewell Rock or Millstone Grit and Limestone Rocks which still continue to give employment to a considerable number of workmen at the Quarries, feeding the limestone for use at the Ebbw Vale Steelworks. The lower portion of the district have on either side of the valley mountainous ridges, formed of Sandstone overlying the coal measures.

In shape, the map of the district resembles the form of a "kite" being over seven miles in its length through which the river Howy traverses, the mountain moorland in the northern limits stretching to a width of about three miles, tapering along the valley to a few furlongs in width at the southern extremity.

EXTRACTS FROM VITAL STATISTICS FOR THE YEAR.

BIRTH RATE.

			Males.	Females.	Total.
Live Births (Legitimate)	194	160	354
(Illegitimate)	4	4	5
			<hr/> 198	<hr/> 164	<hr/> 362

Producing a birth rate of 17.9 per 1,000 population as compared with 16.6 for 1956 ; 13.75 for 1955 ; 16.39 for 1954 ; 17.14 for 1953 ; 16.14 for 1952 ; 17.82 for 1951, 19.05 for 1950 ; 19.67 for 1948 and 21.35 for 1947.
Rate for County ... 17.07.

Rate for England and Wales, 16..1

Still Births (Legitimate)	9	1	10
(Illegitimate)	—	—	—
			<hr/> 9	<hr/> 1	<hr/> 10

Rate for County ... 0.51.

Rate for England and Wales ... 22.4.

Which gives a rate of 0.49 per 1,000 population as against .74 for 1956 ; .75 for 1955 ; .34 for 1954 ; 0.48 for 1953 ; 0.83 for 1952 ; 0.49 for 1951 and 0.88 for 1950 and 0.29 for 1949.

The still-birth rate per 1,000 total births (live and still) is as follows :

1957	27.6
1956	42.61
1955	51.72
1954	21.08
1953	27.77
1952	49.27
1951	26.88
1950	44.33
1949	15.26
1948	22.44
1939	57.69

DEATH RATE.

After correction for inward and outward transfers as furnished by the Registrar General, the number of deaths during 1957 was :—

Males.	Females.	Total.
173	102	275

Resulting in a death rate per 1,000 population of 13.6.

Rate for County ... 11.96.

Rate for England and Wales ... 11.5.

Comparable figures for earlier years were :—

1946	...	11.77 ;	1945	...	10.74 ;	1944	...	11.54
1930	...	10.37 ;	1914	...	17.90 ;	1901	...	19.33

MATERNAL DEATH RATE.

There were no maternal deaths in the district during the year.

The rate for 1957 per 1,000 (live and still) births is as follows :—

Mon. Admins. County	0.70
TREDEGAR U.D.	0.00

For the earlier ten years the number of maternal deaths for the district were :—

1956	...	Nil	1950	...	1
1955	...	Nil	1949	...	1
1954	...	1	1948	...	Nil.
1953	...	Nil	1947	...	1
1952	...	Nil	1946	...	Nil.
1951	...	1	1945	...	1

INFANTILE MORTALITY.

Deaths of infants under one month :

	Males	Females	Total
Legitimate	7	3	10
Illegitimate	Nil.	Nil.	Nil.

Neo-natal death rate per 1,000 live births, 27.6. Rate for County, 21.97.

Deaths of infants under one year :—

	Males	Females	Total,
Legitimate	12	4	16
Illegitimate	0	0	0

Giving a rate per 1,000 live births of 44.2.

Rate for County, 30.98.

Rate for England and Wales, 23.0.

A few comparative figures for past years are given below :—

1956	...	20.7	1944	...	58.08
1955	...	51.66	1942	...	62.03
1954	...	47.2	1941	...	78.88
1953	...	50.00	1924	...	73.4
1952	...	48.78	1914	...	125.00
1947	...	47.28	1904	...	190.00

The rate of legitimate infant deaths per 1,000 legitimate live births was 45.2.

Statistical Tables appertaining to your district are appended to the Report.

A comparison of the vital statistics of the district with those for England and Wales also for the County for 1957 are set out in the accompanying tabulation :—

	BIRTH RATE.		DEATH RATE.	
	Live births per 1,000 population.	Still births per 1,000 population.	All ages per 1,000 population.	Under 1 yr. per 1,000 population
England and Wales	16.1	0.36	11.5	23.0
Monmouthshire	17.07	0.51	11.96	30.98
TREDEGAR U.D.	17.91	0.49	13.6	44.2

Comparability Factors : Births, 1.00 Deaths, 1.16

The average age at death for the year :—

Males 65.6 years (as against 64.3 for 1956).

Females 68.8 yrs. (as against 69.0 for 1956).

PREVALENCE OF, AND CONTROL OVER INFECTIOUS AND OTHER DISEASES.

Notifications.

A Table of the case rates per 1,000 Home Population of corrected notifications received during the year 1957 for the district with corresponding figures for 1956 for comparison is set out below.

Maybe there were a number of "missed" or non-notified cases of the commoner infectious diseases, even so, allowing for a reasonable margin in this respect, the incidence of infectious diseases was fairly low. Reference to Table I I will give further details of age groups.

	<i>Tredegar Urban Area</i>	
	1956	1957
Typhoid Fever	—	—
Paratyphoid Fever	—	—
Meningococcal Infection	—	—
Scarlet Fever25	.14
Whooping Cough1	.19
Diphtheria	—	—
Erysipelas	—	—
Smallpox	—	—
Measles9	3.2
Pneumonia05	—
Ac. Poliomyelitis (inc. Pol. encephalitis) :		
Paralytic05	.04
Non-Paralytic	—	—
Food Poisoning2	0.9
Puerperal Pyrexia05	—
Ophthalmia Neonatorum1	—

TUBERCULOSIS

The state of the Tuberculosis Register for the district at the commencement and at the close of 1957 was as follows :

	Males.		Females.		Total
	Pul.	Non-Pul.	Pul.	Non-Pul.	
1st Jan., 1957 ...	111	73	136	47	367
31st Dec., 1957 ...	113	71	143	46	373

Statistics showing the number of new cases and mortality during the year, arranged in age groups, are given in Table III at the end of the Report. For comparison, the figures for 1956 and several previous years are given below :

Year	New Cases.		Deaths.	
	Pulmonary	Non-Pulmonary	Pulmonary	Non-Pulm'ry
1957 ...	26	—	7	—
1956 ...	13	1	1	—
1955 ...	30	3	4	2
1954 ...	29	4	5	—
1953 ...	23	3	13	1
1952 ...	20	5	8	2
1951 ...	26	11	9	2
1950 ...	38	10	6	2
1949 ...	25	10	12	5
1948 ...	33	4	13	2

The total number of notifications of admission to (Form 1) and discharge from (Form 2) Institutions during the year were :—

	Males.		Females.	
	Pulmonary	Non-Pulmonary	Pulmonary	Non-Pulm'ry
Admissions ...	21	—	6	—
Discharges ...	16	2	21	—

No action was taken during the year under the Public Health (Prevention of Tuberculosis) Regulations 1926 Relating to persons employed in the Milk Trade or Section 172 of the Public Health Act, 1936 (relating to the compulsory removal to Hospital of persons suffering from Tuberculosis).

It was found necessary for the Council to arrange for the destruction of soiled bedding.

In conclusion, I again take the opportunity to express my appreciation of the continued and willing support of the Council and the loyal service rendered the Department by the Officers and all the members of the staff through the year.

I am, Lady and Gentlemen,
Yours faithfully,

M. J. DONELAN, M.B., B.Ch., D.P.H.

TABLE I.

CAUSES OF DEATH.

(Registrar General's Return)

	1957

REPORT

OF THE

SENIOR PUBLIC HEALTH INSPECTOR

(O. GRIFFITHS, M.R.S.H.)

PUBLIC HEALTH INSPECTOR'S REPORT.

Public Health Department,

Bedwellty House,

TREDEGAR, Mon.

April, 1958

*To the Chairman and Members of the Tredegar Urban District Council.**Mrs. Powell and Gentlemen,*

I have much pleasure in submitting to you my Annual Report for the year 1957.

SANITARY CIRCUMSTANCES IN THE AREA.**Section I.****WATER.**

The water area of the authority has been well supplied and every effort made to maintain a high standard of purity.

The total quantity of water filtered during the year was :—

At the Nantybwlch Filtration Plant ... 419,969,000 galls.

At the Georgetown Filtration Plant ... 92,589,000 galls.

Of this amount :—

130,866,000 galls were supplied in bulk to the BEDWELLTY U.D.C.

2,728,492 galls. were supplied in bulk to the RHYMNEY U.D.C.

Approximate number of dwelling houses and population supplied from public water mains :—

			<i>Dwelling houses.</i>		<i>Population.</i>
(a) Total in District	5,600	...	20,210
(b) Direct service to houses	5,487	...	20,158
(c) Standpipes	13	...	52

BACTERIOLOGICAL EXAMINATION OF WATER SUPPLIES.

	<i>Satisfactory.</i>		<i>Unsatisfactory.</i>		<i>Total</i>
	<i>Raw</i>	<i>Treated</i>	<i>Raw</i>	<i>Treated</i>	
TREDEGAR U.D.	11	52	21	5	89

All samples are submitted to the Public Health Laboratory Newport..

CLIMATOLOGICAL STATION.

Latitude	51° 46' North.
Longitude	3° 22' West.
Height above m.s.l.	1028 feet.
Grid Reference	31/141087
Air Ministry Ref. No. (M.O.)	4007/5.

The Council embarked on this scientific work in January, 1949, and observations were commenced in January, 1950. The main difficulty was in siting the instruments satisfactorily, but in June, 1951, an ideal site was obtained in the swimming bath enclosure and the equipment was set up here towards the end of 1951. The station was inspected by a Meteorological Officer of the Air Ministry in the following month.

All the instruments are of standard design and carry certificates of correction by the National Physical Laboratory or the Meteorological Office. Observations of maximum and minimum temperature, wet and dry bulb temperature, humidity, vapour pressure, dew point, grass minimum temperature, rainfall, barometric pressure and sunshine are taken daily throughout the year at 09.00 hours, G.M.T.

All temperatures, except grass minimum, are taken from thermometers exposed in Stevensons Screens standing 4 feet above a grass plot, and are expressed in degrees F. Pressure readings are expressed in millibars and the readings are corrected for temperature, height above m.s.l. latitude and Index Error.

The station barometer is a Kew pattern and only reads correctly at a temperature of 285 deg. A. on 52 deg. N latitude at m.s.l. Any deviations from these conditions must be corrected. Rainfall is measured in inches and collected in a standard 5-inch raingauge.

Instruments in use at present consist of :—

Maximum Thermometer, solid stem	No. M.O.215950
Minimum Thermometer, solid stem	No. M.O.66104/49
Wet Bulb Thermometer, Glass sheathed	No. M.O.72135/42
Dry Bulb Thermometer, Glass sheathed	No. M.O.72634/45
Grass Minimum Thermometer, Glass sheathed	No. M.O.33511/58
Kew pattern Station Barometer	No. 3412/49
M.O. pattern Thermograph	No. M.O.1384/50
M.O. pattern Hygrograph	No. M.O.954/45
M.O. pattern Open Scale Barograph	No. M.O. 146/44
B.R.O. pattern 5-inch Raingauge	No. M.O.7093/58
M.O. pattern-taper measure	No. M.O.13955/58
Campbell Stokes pattern Sunshine—Recorder	
	Bowl	...	No. M.O.367/50
	Sphere	...	No. M.O. 1988/58
Dynes Tilting Syphon Rain Gauge	No. M.O. 651
Direct Reading Anemometer Mk.IB.	M.O.200/44/50/51
Remote Indicating Indicator	M.O. 9355/11
	Wind Vane	...	M.O. 1641/51
	Indicator	...	M.O. 2841

Thermometers and autographic instruments housed in two-Standard Stevenson Screens.

Summaries of observations are published each month in the "Monthly Weather Report" and each year in the "General Table" of British Rainfall, both of the Air Ministry.

The Station was visited and inspected by a Scientific Officer of the Air Ministry in October.

Towards the end of the year a handbook was prepared and published which describe in detail the instruments in use at the Station and the scientific work carried on. This is on sale in Tredegar.

The following addition to the equipment was made in October :—

- (1) Remote indicating wind vane mark IIIA.
- (2) Cup generator anemometer mark IB.

Open Air Swimming Bath.

The Pool, which is situated in beautiful surroundings within Bedwellty Park, was opened in July 1932, at a total cost of £10,000. The Pool is constructed of 7-ft. reinforced concrete at the deep end and 5-ft. reinforced concrete at the shallow end with a 4-inch raft of plain concrete under the whole floor. Its length is 200 feet and 50 feet wide with a capacity of 257,000 gallons. It is 8-ft. 6-ins. at the deep end and 2-ft. 6-ins. at the shallow end.

The purification plant consists of two pressure filters 8-ft. in diameter by 10-ft. long. After being filtered the water is dosed with liquid chlorine.

Regular samples of water are taken and submitted to the Public Health Laboratory Service at Newport. All samples were found satisfactory.

Drainage and Sewerage.

Practically the whole of the district is provided with subsidiary stone-ware sewers, which are linked up to the main sewers, laid along the river bed. The Western Valley's (Mon.) Sewerage Board (of which the Council is a constituent authority) have control of the trunk sewers.

The cleansing and repair of choked or defective drainage systems, both public and private is pressed immediately upon receipt of complaint or noted during inspection.

Rivers and Streams.

The river Howy, with a small number of tributaries, traverses the length of the district. Every vigilance is exercised to prevent the dumping of refuse along its banks.

Closet Accommodation.

The water carriage system is almost universal throughout the area. An estimate of the number of each type of closet is as follows :—

(1) Number of pail or privy closets (including several of the chemical type) to isolated farms, cottages and other premises where no sewer is available	47
(2) Number of closets with fixed receptacles	7
(3) Number of closets with moveable receptacles	5
(4) Number of closets with flushing apparatus	4085
(5) Number of closets (hand flushed)	2457

Section 2.

PUBLIC CLEANSING.

Refuse Collection and Disposal.

Throughout the year this vital Sanitary and Public Health Service was regularly maintained, the frequency of which is shown in the accompanying table.

Two pounds are now in use each dealing with a specific district and a full time shepherd is employed. The following animals were impounded during the year under review :—

	Horses.	Sheep.	Cows.	Calves.
West Hill	399	11	13	2
Rhyd Terrace	50	98	—	—
	<u>449</u>	<u>109</u>	<u>13</u>	<u>2</u>

During the year refuse has been deposited on the modified controlled tips at the north and south ends of the district. A labourer is employed at each tip to ensure proper control and there have been no serious complaints of nuisance or rodents.

DETAILS OF REFUSE COLLECTION.

The district is divided into five areas for refuse collection with a driver and two loaders allocated to each vehicle, a sixth vehicle being held in reserve.

Area.	Streets	Days per Week
GEORGETOWN	Fields Rd., Ashville, Villas, Hill View, Oakfield Rd., Lower and Upper James St., Walter St., Southend, Georgetown Schools, Gladstone Place, Poplar Place, Rhyd Villas and Troedrhiwgwair	5

Vehicles :

No additions were made to the refuse collecting fleet during the year. The present fleet consists of :—

- 2 Austin, 10 cubic yard freighters.
- 1 Bedford, 10 cubic yard freighter.
- 2 Karrier Bantam, 8 cubic yard freighters.
- 1 Fordson 10 cubic yard freighter.
- 1 Fordson 10 h.p. 2 cubic yard freighter.
- 1 Karrier Gully Emptier and Street Cleaner.

Six vehicles are on the road daily, one being kept at the yard for maintenance and as a spare. The 2 cubic yard Fordson is used for collecting at points which are inaccessible to the larger vehicles and for the weekly collection of boiler ashes from St. James Hospital.

The garage staff under the direction of the chief mechanic are to be congratulated on the manner in which they have maintained the vehicles. On no occasion during the year has a vehicle failed to complete its particular beat owing to mechanical fault.

Sickness.

The high incidence of sickness continues to throw a heavy burden on the Department. The following table shows the time lost per month in days throughout the year.

Jan.	Feb.	Mar.	Apr.	May	June	July and Aug.	Sept.	Oct.	Nov.	Dec.

COST STATEMENT 1957—1958.
REFUSE COLLECTION AND DISPOSAL.

Items	Particulars	Totals		
		£	s.	d.
1	Gross Expenditure :			
	(1) Labour	9,660	0	0
	(2) Transport	3,015	0	0
	(3) Plant Buildings Land	25	0	0
	(4) Other items	—		
	Total gross expenditure ...	12,700	0	0
2	Gross Income	204	0	0
3	Net Cost	12,496	0	0

Street and Gully Cleansing.

Item.	Particulars.	Total		
		£	s.	d.
1	Gross Expenditure :			
	(1) Labour	2,523	0	0
	(2) Transport	541	0	0
	(3) Plant, Equipment and Buildings	278	0	0
	(4) Other Items	1,172	0	0
	(5) Gross Expenditure ...	4,514	0	0
2	Gross Income : (Excluding reimbursements)	10	0	0
3	Net Cost	4,504	0	0

Street Cleansing.

Every effort has been made to man all sweeping beats throughout the year, but the high incidence of sickness has made this part of the service extremely difficult to carry out fully.

Refuse Collection and Disposal and Public Cleansing.

This Urban Area is unique in having a daily collection of refuse for the greater portion of the town, all refuse being disposed of by modified controlled tipping at a distance of about 2 miles from the town centre.

Street gullies are cleansed by a modern gully cleanser and during periods of dry weather all main road are regularly sprayed and washed.

Snow Clearance.

The Department's vehicles were again made available to the Surveyor's Department in assisting in the clearance of snow and this cooperation resulted in a minimum delay in transport.

Operational Statistics.

Mileage of streets cleansed	50
Frequency of cleansing :—						
At least once daily	7%
Three to five times weekly		90%
Twice weekly	2%
Once weekly	1%
Less than once weekly	—

Salvage and Other Income.

During the year under review 44 tons 17 cwts. 2 qrs. of mixed waste paper was collected which realised £34l 18s. 1d.

A contract is in force with the Fatstock Marketing Corporation whereby all manure is removed weekly from the Slaughterhouse at a charge of 10/- per week. This manure is then sold locally at 7/6d. per load. The amount realised for disposal and sale of manure was £5l 2s. 6d.

Other income for hire of gully emptier and fixing litter bins amounted to £43 6s. 7d.

Income from all sources amounted to £435 7s. 2d.

Beat.	SUMMER						WINTER					
	Heavy. Day			Light Day			Hvy. Day			Light Day		
	t.	s.	q.	t.	c.	q.	t.	c.	q.	t.	c.	q.
Georgetown ...	7	3	0	5	0	0	11	15	0	8	4	2

TOTALS ...	38	15	2	27	0	0	51	7	2	32	2	3

From these weighings it can be assumed that 37 tons are collected daily. Calculating on a 52 day week the yearly total amounts to 10,582 tons. Further statistics are as follows :—

	Tons.	Cwts.	Qrs.
Weight of refuse removed per vehicle :			
Light day ...	5	18	0
Heavy day ...	8	18	0
Weight of refuse removed per 1,000 population per week ...	10	3	0
Weight of refuse removed per 1,000 population per day... ..	1	17	0
Weight of refuse removed per 1,000 properties per week ...	33	16	0
Weight of refuse removed per 1,000 properties per day ...	6	3	0

Test weighings are carried out twice yearly during the summer and winter periods.

Public Conveniences.

These are situated as follows :—

Male Conveniences :		Waterclosets.	Urinals.
The Crown, Nantybwh	...	Nil.	1
Beaufort Road, Sirhowy	...	Nil.	1
Church Street	...	1	1
Commercial Street	...	3	1
Park Row	...	2	1
Vale Terrace	...	Nil.	1

Female Conveniences :

Morgan Street	...	3
Castle Street	...	2
Park Row	...	2

Washing facilities are provided in the female conveniences at Morgan St.

Roads and Highways.

Of the total or approximately 43 miles of roads in the district, 13 240 miles are classified as under :—

(a) TRUNK ROAD A.465 :

Merthyr—Abergavenny Road. From Waenpound to the boundary of Rhymney U.D. at Princetown ... 2.50 miles

(b) CLASS I ROAD A.4048 :

From Sirhowy Bridge to Pochin (Northern Boundary of Bedwellty U.D. ... 4.01 miles

(c) CLASS II ROAD B.4256 :

From Queen Victoria Street to the Rhymney U.D. boundary at Heath Cock ... 1.39 miles

(d) CLASS III ROADS.

From A.465 near Crown Inn, Nantybwh to Quarrymen's Arms, Trefil ... 1.85 miles.
 From A.465 near Railway Hotel to Station Road near Crown Inn, Nantybwh ... 1.21 miles.
 From A.4048 at Morgan Street via Shop Row to Ebbw Vale U.D. Boundary near Mountain Air Gate ... 1.11 miles.
 From B.4256 near Cefn Golau Cemetery to U.D. Boundary South of Mountain Ash Inn ... 1.13 miles.
 From A.465 along mountain to Groespenmaen via. Manmoel 2.88 miles.

Section 3.

Housing.

The major part of the duties of the Public Health Department has been concerned with housing in its various aspects and its consequent problems.

The Slum Clearance Programme continues smoothly and considerable effort has been made by the Authority to improve housing conditions by Improvement Grants and the lending of money for the purchase and repair of houses considered to be fit.

In conjunction with this, the building of new homes has proceeded as vigorously as conditions will permit and although a considerable number of applicants remain on the housing lists it is encouraging to note that the solution to the housing problems is being energetically and earnestly pursued by the Local Authority.

MEAT AND OTHER FOODS INSPECTION.

There are two slaughterhouses in the area, one leased from the Local Authority by the Fatstock Marketing Corporation and one licenced as a private slaughterhouse at Highfield, Nantybwlch. The latter slaughterhouse is in excellent condition and complies fully with all regulations.

The slaughterhouse occupied by the Fatstock Marketing Corporation requires considerable improvements and these matters are still being considered by the Council. However, with all these difficulties, the Corporation have conducted themselves in a satisfactory manner. Ante mortem inspection of all animals is carried out as far as practicable and post mortem inspection of all animals is ensured by regular attendance during the slaughtering periods.

Meat is distributed from the slaughterhouse in modern transport vans which are always kept in a hygienic condition and adequate facilities are provided for the staff in the way of overalls to ensure clean handling of meat.

During the year minor items of repair were carried out and owing to continual complaints from smoke nuisances the coal fired boiler was converted to gas.

Food and Drugs Sampling by Monmouthshire County Council.

Milk, 38. Other foods, 26. Ice-cream, 3. Beer, 2.

Two samples of milk contained added water and the farmer concerned was fined a total of £20 on two charges. All other samples complied with the legal standard.

Heating Appliances (Fireguards) Act, 1952.

This Act makes it an offence to sell any heating appliance unless fitted with a guard that conforms to the standard set out in the Heating Appliance (Fireguards) Regulations, 1953.

Retailers of Heating Appliances are regularly visited and all heating appliances are examined to ensure that they conform to the regulation.

Public Health Acts Amendments Act, 1907, Section 86.

By the Old Metal Dealers (No. 7) Order made on the 25th October, 1952, the Home Secretary declared Section 86 of the Public Health Acts Amendments Act, 1907 to be in force in this district.

The number of Old Metal Dealers in the register on the 31st December, 1957 was three.

Public Offices, Bedwellty House.

The Caretaker and Cleansing staff consists of two part time female cleaners and one full time caretaker, Mr. William Lewis. During the year the entire heating system boiler was converted from coke to gas firing. Mr. Lewis is responsible to me for the cleanliness of the Council Offices and this duty he performs admirably. Mr. T. J. Jenkins, the Housing Estates Manager carries out all necessary repairs and decorations.

The Councils sewers were treated twice during the year and all business premises surveyed and suitably treated where found necessary.

Warfarin is used for routine treatments and Zinc Phosphide and Arsenious Oxide for the treatment of sewers.

The use of Warfarin has had a profound effect on the extent and severity of Rodent Infestation, a fact which has been noticed and commented upon throughout the country. No one, of course, can disregard the valuable work done by local authorities in conjunction with the infestation division of the Ministry of Agriculture and Fisheries in the early years of the divisions formation under the Ministry of Food and despite the efficacy of Warfarin as a rodenticide, this early work has no doubt been the biggest factor in reducing the country's rat population to the figure that obtains today.

Comparison of the records of previous years shows a considerable diminishing of the number of treatments required for rodent infestation.

STAFF.

Again it gives me pleasure to pay a well deserved tribute to the entire staff of my Department.

The year under review has not been an easy one by any means and it is only because every member has pulled his or her weight that so much has been accomplished.

We in the Health Department pride ourselves on always being "on the ball" and great efforts are made by all to have an answer ready for a question even before it is asked.

Mr. Batten, my Deputy, an officer of exceptional ability and common sense, a quality which is far from being common, is my right hand man. His opinions are always sound and considered and his knowledge of Public Health Law and Practice is a great asset to this Authority.

The office is run admirably by Miss Edwina Wright, the Senior Clerk, assisted by her Junior, Miss Beryl Penny. Together they have their fingers on everything concerning the administration of the Department and as a consequence relieve me of a great deal of routine paper work.

The Public Cleansing section is looked after by Mr. Crad. Brace the Public Cleansing Foreman. "Crad" as he is known throughout the town has all matters relating to this section at his finger tips and is indispensable.

I should also like to thank all members of the Council for their support throughout the year and particularly my Chairman, Councillor Tuffin, who devoted a great deal of his spare time to affairs of this Department.

I remain,

Yours obediently,

O. GRIFFITHS,
Senior Public Health Inspector.
