Public Health Inspector:-

D.H. Jones, M.R.S.I., A.M.I.S.E.

To the Chairman and Members of the
Health Committee,
Twrccelyn Rural District Council.

Mr. Chairman and Gentlemen,

I have the honour to present to you the Annual
Report upon the Health of your District for the year 1956.

The Registrar General's mid year estimates show
virtually no population change (actually a diminution of but
30 from 8,500). The Rateable value on 1.4.56 was £52,772 with
a Penny Rate production of £206.16.9 as compared with £120.17.3
of the former year. The number of Rateable Premises has
increased by 67 to 3,783.

The Corrected Birth Rate has increased by 0.9 to 19.1
making this, the seventh successive year (excepting 1951) in
which the figure relative to this District has been higher than
that reflected by England & Wales as a whole. It is also the
fifth time that it has been higher than the overall County figure
(19.1 as to 16.0).

Death occurrences have dropped slightly from 135 to
120 but no particular Hygienic factor can be detected as
producing this change. The Corrected Death Rate shows very
slight variation (12.1 as to the earlier 12.6 and as to the
current figures of 12.0 for the County and 11.7 for England
and Wales). A study of the Main Causes of Death reveals no
significant variation; - Tuberculosis having accounted for two
deaths in each year, and various forms of Cancer 16 in the
current year as to 19 in its predecessor. The much publicised
"Lung Cancer" has produced but 3 deaths as to the former two.

There have been no Epidemics of Infectious Diseases.
Measles having produced 233 cases in 1955 was not expected to
recur in any appreciable degree in the following year. Most
fortunately, that juvenile scourge - whooping cough has remained
significantly unproductive of notifications, no doubt very
largely due to the public taking advantage of the Health
Authority's Immunisation schemes.

Unfortunately, Tuberculosis has appreciably increased
in number (10 as to 3), although admittedly three of those ten
notifications were non-pulmonary, and as such might very possibly
be of milk borne origin. B.C.G. vaccination of contacts
against tuberculosis was carried out in 18 number of cases as
compared with 9 such protections given in the former year.

It is as pleasing, at last, to record the commencement
in the last month of the year under review, of the long awaited
Cemaes sewerage scheme as it is (to say the least) disappointing
to note that similar schemes for Benllech and Moelfre have shown
no visible evidence of coming to fruition, although, the Council,
having accepted the advisability of such schemes (as also for
Llanerchymedd) - action had already been long taken under the
Ministry of Housing & Local Government Circular 54/52 (Wales).
The need for Sewerage Schemes for Moelfre and Benllech remain as
was that for Cemaes. That need is compounded, briefly of three
main factors, namely the present existence of water schemes, the

increasing summer tourist traffic on our coastline (in terms not only of visitors staying but of private car and char-a-banc-visitors), and the fact that town dweller visitors, accustomed as they are to the use of an abundance of water, understandably do not consider the problem of the disposal of that used water. The lack of these schemes is as much a Public Health risk to the Resident population as it is to those others, but fortunately no outbreak of such Epidemic disease has occurred as would gain such well merited adverse publicity as to have unpleasant economic sequelae.

It is pleasing to note that further progress has been made in the year by the County Water Authority towards providing more communities in the District with a sufficiency of treated water to replace the multiplicity of shallow well supplies which are notoriously liable to pollution, apart from the fact that as has already been proved within the District (and others within the County) the Ministry may reject outright, or may drastically curtail any much needed re-Housing schemes, where the water supply is deficient in amount or in purity. There are now 16 communities supplied with Mains Water, a figure that will increase with progressive completion of the Clorach-Rhosybol contract. It is regrettable that Ministerial grant withholding is understood to be the principle limiting factor to the County Water Authority's further ambitions.

It is regrettable that in view of the number of out-moded habitations in the area, that only twelve new Council Houses were completed within the year and that on the last day of the year, there were, in fact, none undergoing construction.

The Public Health Inspector's figures relative to the amount of disease discovered at the three licensed slaughter-houses are interesting in comparison with the figures reflected by the earlier year. For instance, under the heading of "Disease other than Tuberculosis" it will be seen that 100% of cows were diseased as compared with the earlier 60%, cattle (excluding cows) 17.4% as to 22%, sheep & lambs 1.6% as to 7.5% and pigs 1.0% as to 3.6%. The percentages of tuberculosis carcasses were as follows:- Cattle (excluding cows) 0.6% as to 2.4%, pigs 6% as to 3.6%. In cows, calves and sheep no tuberculosis was found in either year.

Action under Section 20 of the Milk & Dairies Regulations of 1949 had to be taken on six occasions where it was reported to me that Abortus Fever had been detected in milk; - in one instance, notices had to be served on one milk producer twice within six months.

In conclusion, I should, yet again, like to thank the Chairman and Members for their interest, and the Clerk, Public Health Inspector and Officers of the Council for their will co-operation and help.

I am, Gentlemen,

Yours faithfully,

G.H.B. Roberts.

57	M	"

VACCINATION AND IMMUNISATION

These services are provided by the County Council and by General Practitioners in the District. The following figures are quoted by courtesy of the County Medical Officer.

Vaccination against Smallpox.

A total number of 79 children were vaccinated for the first time during the year and 8 others were re-vaccinated.

Vaccination against Tuberculosis

B.C.G. vaccination is carried out by the Chest Physician in collaboration with the County Medical Officer and his staff. The scheme provides for the vaccination of new born infants born into tuberculous households and of tuberculin negative contacts of known cases. During 1956, 18 such cases were carried out in the District.

Diphtheria Immunisation.

A total number of 115 children were immunised during the year, of these, 96 were also immunised against Whooping Cough.

NATIONAL ASSISTANCE ACT, 1948.

No action was taken in respect of any individual under Section 47 of this Act.

TWRCGLYN RURAL DISTRICT COUNCIL.
=====

D. H. Jones, M.A.P.H.I., A.M.I.P.H.E.

Council Offices,
Llanerchymedd,

Public Health Inspector
and Surveyor.

20th December, 1957.

ANNUAL REPORT 1956.

Mr. Chairman and Gentlemen,

I beg to submit my report for 1956.

It is pleasing to report that at least one of the planned sewerage and sewage disposal schemes was commenced during the year, namely that for Cemaes Bay. This scheme is scheduled to be completed by the end of 1957.

No progress was made during the year with the schemes for Llanerchymedd, Mochdre and Benllech. Due to the fact that private septic tanks which have functioned for many years are now causing nuisance and calling for frequent attention, together with the continued increase in the number of visitors to the district, efforts should be made to press on with these schemes.

I should like to take this opportunity to thank the Chairman and members of the Council, the Clerk of the Council and the Medical Officer of Health for their help and co-operation, also for the assistance received from the other members of the Council's staff.

I have the honour to be

Your obedient Servant,

D. H. Jones.

Public Health Inspector and
Surveyor.

PROBATION DEPARTMENT

General Office,
Washington, D.C.

D. H. Jones, M.A., M.I., A.M., F.R.S.

27th December, 1937.

Public Health Inspector
and Surgeon.

ANNUAL REPORT 1937.

Mr. G. H. Jones and Mr. G. H. Jones.

I am in receipt of your report for 1937.

It is pleasing to report that at least one of the
planned reports has been received and was received during
the year, namely that for the District. This report is expected
to be completed by the end of 1937.

The progress made during the year with the submission
of the annual reports is a matter of interest to the Probation
Department and it is hoped that the reports will be submitted
in the future in a more regular manner. It is also hoped that
the reports will be more complete and that they will be submitted
in a more timely manner.

I should like to see a representative of the
District and Probation Department, the Chief of the District and the
District Officer of Health for their help and co-operation, also for
the assistance received from the other members of the District staff.

I am, Sir, very truly,
Yours faithfully,
D. H. Jones.

Public Health Inspector and
Surgeon.

WATER SUPPLIES.

Further progress was made during the year by the Anglesey County Council under the County Scheme. The Rhosmeirch - Talwrn main was laid and Part of Contract 26 (Clorach to Rhosybol) was commenced.

The following villages and hamlets are now supplied with a mains water supply:-

Cemaes Bay, Tregelo, Llanfechell, Llanerchymedd, Benllech Bay, Moolfre, Llanbedrgoch, Red Wharf Bay, Brynteg, Marianglas, Maenaddfryn, Parc, Penysarn, Capel Coch, Talwrn and Rhosybol.

On December 31st 1956 - 961 properties were served by mains, an increase of 210 over the preceding year.

It is estimated that the population receiving a mains supply is about 4,000.

Water Samples for Bacteriological Examination taken during the year

	<u>Satisfactory</u>	<u>Unsatisfactory</u>	<u>Total</u>
Private Wells	3	9	12

One sample of Stored Rain Water taken following a case of suspected dysentery was found to be satisfactory - no Pathogenic organs found.

SEWERAGE AND SEWAGE DISPOSAL.

Visits in connection with drainage, sewerage and sewage disposal during the year - 97.

Number of septic tanks and cesspools emptied by the Department

Council Properties	57
Private Properties	<u>74</u>
Total	<u>131</u>

Sewerage Schemes

Cemaes Bay: The tenders of the Trinidad Lake Asphalt Co. (North Western) Ltd., India Buildings, Water Street, Liverpool, were approved and work commenced on the scheme on December 3rd, 1956, the amounts being £35,885 and £9,498.

Benllech, Moolfre and Llanerchymedd: No progress was made with these schemes during the year.

REFUSE COLLECTION.

Refuse collection is carried out by direct labour. One Bedford Diesel "Derby" body vehicle with a crew of driver and two loaders cover the work. This vehicle came into use in August 1956 replacing the Austin - 7 cubic yard side loading vehicle. Weekly collections are made in 15 parishes, and fortnightly collections in 5 parishes.

Disposal is by tipping in two dumps, viz

Bryngwallen Rhodogaidio
Penlon Llanbedrig.

Inspections and visits relating to collection and disposal - 32.

Name of the person who is the member at large of the fund - \$

Once again I would like to thank Mr. H. A. Thomas, the County Food and Drugs Officer for his co-operation in assisting with the collection of samples.

Food Hygiene Regulations

All food premises were circularised with pamphlets explaining the requirements of the regulations. Follow up visits were slow due to pressure of work in other spheres.

Meat Inspection

Number of slaughterhouses licenced	3
Number of visits to slaughterhouses for inspection of meat	308

I would like to state that the animals slaughtered for human consumption are all of excellent quality and is to the credit of the butchers.

Under the provisions of the Act, the Secretary of the Interior is authorized to acquire and hold land for the purpose of establishing a national monument.

Section 1

All lands owned by the United States and situated within the boundaries of the monument shall be subject to the same laws and regulations as other lands owned by the United States.

Section 2

The Secretary of the Interior is authorized to acquire and hold land for the purpose of establishing a national monument.

I hereby certify that the above is a true and correct copy of the original as the same appears in the records of the Department of the Interior.

DATE Year ending 31st December 1956.
