To the Chairman and Members of the  
Vaynor and Penderyn Rural  
District Council.

---

Gentlemen,

I have the honour to present the Annual Report on the Health and Sanitary Conditions, and the Vital Statistics relating to the Rural District for 1951. The Report is submitted in accordance with the Circular issued by the Ministry of Health.

I wish to tender my thanks to the Members of the Council for their helpful consideration and co-operation in all matters affecting Public Health; and also the Officers of the Council for their help in all matters appertaining to the duties of the Health Department.

The housing problem is still a very serious matter. A large percentage of the existing houses, particularly in the Cefn Coed area, are occupied by more than one family, and there are a large number of sub-standard houses which should be considered for demolition action when conditions permit.

The Council is energetically pressing on with the building of new houses; the chief difficulties being the shortage of skilled labour and building materials. The number of post-war houses erected in the area to the end of 1951 is 312, of these, 34 were erected during 1951. The number under construction at the end of the year being 65.

The factories and coal-mines of the adjoining County of Glamorgan absorb the majority of our work-people, but a number are employed in factories or work-places within the boundaries of this Rural District. The work-people in the more agricultural part of the District are mainly employed in farming, forestry or quarrying.

In the Chairman's report of the

Working Committee

dated 1951

1951

I have the honor to inform  
the members of the Council that the  
Annual Report for 1951 has been  
prepared and is being submitted  
to the Council for their consideration.

The report is divided into two  
parts: the first part deals with  
the financial results and the  
second part deals with the  
general activities of the Council  
during the year.

The financial results are  
shown in the accompanying  
statements and are satisfactory  
in view of the conditions  
prevailing during the year.

The Council is urged to  
approve the report and the  
statements and to authorize  
the Chairman to sign the  
report on behalf of the Council.

The Chairman's report is  
submitted for the Council's  
approval and is being  
submitted to the Council  
for their consideration.

The health of the District during the year has, on the whole, been good. No outbreaks of food-poisoning have been notified and there has also been an absence of any serious outbreaks of infectious diseases. The majority of deaths during the year were again in the higher age groups.

The incidence of Pulmonary Tuberculosis has been low and infectious cases have been promptly isolated by the Chest Physicians of the Welsh Regional Hospital Board, chiefly at Cimla and Pontsarn Sanitoria.

It has not, during 1951, been found necessary to take action under Section 47 of the National Assistance Act, 1948.

I am,

Yours faithfully,

J. TATE,

Medical Officer of Health.

## BOUNDARIES.

**PARISH OF VAYNOR - East Side.** The Taf Fechan River from its junction with the Taf Fawr River as far as the junction with the Car Brook.

**North Side.** From the Car Brook to the junction of the Llysiog Brook with the Taf Fawr River.

**West Side.** The Taf Fawr River from its junction with the Taf Fechan River to the junction of the Llysiog Brook and the Taf Fawr River.

**PARISH OF PENDERYN - East Side.** The Taf Fawr River from the Ffrwd Brook to Nantygourgan.

**North Side.** From Nantygourgan, where it joins the River Hepste, to the junction of the Rivers Hopste and Mollte, and from River Mollte to Dinas Rock.

**South Side.** From Dinas Rock, following Cwmnant Brook to the Cynon River near Lloty Rhys, and the Cynon River as far as the junction of Nant Hir at Cwm Ynys Mwm Tan, and following Nant Hir Brook to Nant Ffrwd Brook to its junction with the Taf Fawr River.

**PARISH OF YSTRADFELTE - North Side.** From Carn-yr-Onon to Nant-yr-Eira.

**South Side.** From Heol-las to Swd Eira, and along the Afon Mellte to the Bridge at Pontnoathvaughan.

**East Side.** From Nant-yr-Eira to Blaen Hopste and along the River Hopste to Heol-las.

**West Side.** Afon Nedd at Pontnoathvaughan Bridge to Nant-y-Bryn and Nant-y-Bryn to Carn-yr-Onon.

## TOPOGRAPHY.

The Rural District comprises the three Parishes of Vaynor, Penderyn and Ystradfellte, in the County of Brecon. The Parish of Ystradfellte, which had been administered by the Neath Rural District Council, was added to this Rural District by a Review Order of April 1st, 1934.

The three Parishes comprised in this Rural District are of considerable extent. The total area being 39,271 acres, or over 61 square miles with an average length of 8 miles and a width of about 12 miles. They are situated on the Southern Boundary of the County of Brecon, and adjoin the districts of Neath, Aberdare and Merthyr Tydfil, in the County of Glamorgan. They form four valleys in the foothills of the South escarpment of the Brecknockshire Beacons, with high table-lands between.

THE PARISH OF VAYNOR comprises two valleys running northwards two spurs of the Brecknock Beacons, and the PARISH OF HENDERYN consists of high table-land adjoining and emerging towards the same mountainous area. These Rural Parishes are only separated by the narrow streams already mentioned from the County of Glamorgan, and the important populous Urban Districts of Aberdare and Merthyr Tydfil on the South. The PARISH OF YSTRADFELLTE presents similar physical features extending from the rugged Van Mountains to the north, covering a rough hilly table-land intersected by two very narrow valleys converging towards an apex at Pontneathvaughan.

#### ELEVATION.

The district, as a whole, is at a great elevation above sea level, varying from 263 feet to no less than 2,250 feet; it will be realised that the nearly 40,000 acres contained in the area includes a considerable amount of sparsely inhabited mountain land. In the Parish of Vaynor, the levels extend from 645 feet near Cefn Bridge to 1,612 feet at Twyn-y-Croes on the mountain above Gwm Glais. Henderyn Parish presents levels varying from 588 feet at Cynon Bridge, Hirwaun, to 1,376 feet at the top of Twyn, Cadlan, while the Parish of Ystradfellte contains such extreme variations of level as 263 feet at the Bridge at Pontneathvaughan, and 2,250 feet near the top of Fan Fawr, which mountain is partly in the Parish.

#### CLIMATE.

The proximity of the well-known range of mountains known as the Brecknock Beacons, accounts for the rather heavy rainfall that prevails. Some of the largest reservoirs in Wales are partly in the Rural District

## V I T A L   S T A T I S T I C S .

**BIRTHS.** The Births registered in the District in 1951 numbered 84 (male 51 and female 33). The Annual Birth Rate for 1951 was 14.66 per thousand of the population, compared with 16.28 in 1950 and 19.56 in 1949. The County Birth Rate in 1951 was 15.58 compared with 16.2 in 1950 and 17.3 in 1949. The Annual Birth Rate for England and Wales for 1951 was 15.5 compared with 15.8 for 1950 and 16.7 for 1949.

**STILL BIRTHS.** Three male and two female still-births were registered during the year. The rate per thousand of the population being 0.872, compared with 0.177 for 1950 and 0.906 for 1949. The County rate for 1951 was 0.46 compared with 0.1 for 1950 and 0.48 for 1949. The rate for England and Wales for 1951 being 0.36.

**DEATHS.** There were 89 deaths assigned to this area during 1951; of these 51 were male and 38 were female. This figure takes into account 25 inward transferable deaths. There were no outward transferable deaths. The death rate for 1951 was 15.53 per thousand of the population, compared with 15.58 for 1950 and 14.67 for 1949. The County death rate for 1951 was 13.30, compared with 15.5 for 1950 and 12.46 for 1949. The death rate for England and Wales for 1951 was 12.5 per 1,000 of the population; 11.6 for 1950 and 11.7 for 1949.

**DEATHS OF INFANTS UNDER ONE YEAR OF AGE.** Five male infants under the age of one year died during 1951, in this district. The causes of deaths were as follows :-

Under one week	(i) 1(a) Atelectasis pulmonum (ii) 1(a) Microcephaly (iii) 1(a) Molaena neonatorum.
Over one week and under one month.	(iv) 1(a) Brocho-pneumonia (b) Acute bronchitis.
Over three months and under six months	(v) 1(a) Gastro-Enteritis.

TABLE I. The State's population in the District in 1922 compared with the State's population in 1920. The number of males for 1922 was 1,000,000 and for 1920 was 950,000. The number of females for 1922 was 1,000,000 and for 1920 was 950,000. The number of children for 1922 was 1,000,000 and for 1920 was 950,000.

TABLE II. The State's population in the District in 1922 compared with the State's population in 1920. The number of males for 1922 was 1,000,000 and for 1920 was 950,000. The number of females for 1922 was 1,000,000 and for 1920 was 950,000. The number of children for 1922 was 1,000,000 and for 1920 was 950,000.

TABLE III. The State's population in the District in 1922 compared with the State's population in 1920. The number of males for 1922 was 1,000,000 and for 1920 was 950,000. The number of females for 1922 was 1,000,000 and for 1920 was 950,000. The number of children for 1922 was 1,000,000 and for 1920 was 950,000.

TABLE IV. The State's population in the District in 1922 compared with the State's population in 1920. The number of males for 1922 was 1,000,000 and for 1920 was 950,000. The number of females for 1922 was 1,000,000 and for 1920 was 950,000. The number of children for 1922 was 1,000,000 and for 1920 was 950,000.

The number of deaths under this heading was one less than last year, and the infant mortality rate has fallen from 65.22 for 1950 to 59.52 for 1951 per 1,000 live births. The rate for England and Wales per 1,000 live births for this year was 29.6 compared with 29.8 for 1950.

DEATHS UNDER ONE YEAR FROM DIARRHOEA. One male death was recorded under this heading during the year. The percentage of total deaths being 1.12. No deaths were recorded from this cause during 1950.

DEATHS FROM PUERPERAL SEPSIS, ETC. There were no deaths notified from a Puerperal cause during the year.

DEATHS FROM CANCER. The number of deaths from all forms of cancer increased from 8 last year to 20 in 1951. Of these 10 were male and 10 female. The percentage of total deaths being 22.47 compared with 9.09 for 1950 and 17.28 for 1949.

DEATHS FROM TUBERCULOSIS. One female death was notified from this cause during the year. The percentage of total deaths being 1.12 compared with 2.27 for 1950 and 7.4 for 1949.

DEATHS FROM HEART AND ARTERIAL DISEASES. There were 38 notifications of death under this heading during the year; of these 21 were male and 17 female. These diseases accounted for 42.7 per cent of the total deaths during the year, compared with 46.59 for 1950 and 29.62 for 1949.

DEATHS FROM BRONCHITIS. Eight male and three female deaths were recorded under this heading during the year. The percentage of total deaths being 12.36, compared with 6.82 for 1950. No deaths were recorded from this cause during 1949.

The number of deaths which have occurred during the year 1950, and the number of deaths which have occurred during the year 1949, are as follows: 1950, 1,000; 1949, 1,000. The ratio for 1950 is 1.00 and for 1949 is 1.00. The ratio for 1950 is 1.00 and for 1949 is 1.00.

On the other hand, the number of deaths which have occurred during the year 1950, and the number of deaths which have occurred during the year 1949, are as follows: 1950, 1,000; 1949, 1,000. The ratio for 1950 is 1.00 and for 1949 is 1.00. The ratio for 1950 is 1.00 and for 1949 is 1.00.

The number of deaths which have occurred during the year 1950, and the number of deaths which have occurred during the year 1949, are as follows: 1950, 1,000; 1949, 1,000. The ratio for 1950 is 1.00 and for 1949 is 1.00. The ratio for 1950 is 1.00 and for 1949 is 1.00.

The number of deaths which have occurred during the year 1950, and the number of deaths which have occurred during the year 1949, are as follows: 1950, 1,000; 1949, 1,000. The ratio for 1950 is 1.00 and for 1949 is 1.00. The ratio for 1950 is 1.00 and for 1949 is 1.00.

## HEALTH SERVICES FOR THE AREA.

**AMBULANCE FACILITIES.** The Brecon County Council administer the ambulance services of the area under the National Health Act, 1946. The Health Department of the County Council have made arrangements with neighbouring authorities to provide ambulance facilities for our area as follows :-

Parish of Vaynor.	The Merthyr Hospital Board.
Hirwaun, Penderyn & Ystradfellte.	The Glamorgan Hospital Board.
Pontneathvaughan.	The Neath Hospital Board.

Infectious disease cases in our area utilise the services of the Mardy Isolation Hospital, Merthyr Tydfil, and the Cinla Hospital, Neath.

**NURSING AT HOME.** This work, which was undertaken by Voluntary Nursing Associations until 5th July, 1948, is now carried out by the County Council.

**CLINICS.** Clinics are still administered by the County Council, and clinics for expectant mothers and Infant Welfare are held at Cofn Coed and Hirwaun.

**HOSPITALS.** There are no hospitals in the Council's area, but we are fortunate in having hospital facilities in the adjoining urban areas of Merthyr Tydfil, Aberdare and Neath.

**LABORATORY SERVICES.** An arrangement has been made for the services of the Public Health Laboratories of the Institute of Preventative Medicine, The Parade, Cardiff, to be utilised for all chemical and bacteriological analyses and examinations required by this Authority.

**WATER SUPPLY.** The district, which has several supplies of piped water, has, on the whole, been satisfactorily supplied with water. Cofn Coed, in the Vaynor Parish, is supplied from the mains of the Taf Fochan Water Supply Board, as is the greater part of the Vaynor Parish.

HEALTH SERVICES FOR THE CITY

ADMINISTRATIVE ACTIVITIES

Under the direction of the Health Officer, the various departments of the County Council have made arrangements for coordinating activities to provide efficient service to the community as follows:

- Division of Hygiene, The Health Department
- Division of Sanitation, The Health Department
- Division of Public Health, The Health Department

Information is given to the public through the various departments of the Health Department, including the Health Officer, the Health Department, and the Health Department, Inc.

It is the policy of the County Council to provide for the health of the community through the various departments of the Health Department, including the Health Officer, the Health Department, and the Health Department, Inc.

The Health Department is organized to provide for the health of the community through the various departments of the Health Department, including the Health Officer, the Health Department, and the Health Department, Inc.

The Health Department is organized to provide for the health of the community through the various departments of the Health Department, including the Health Officer, the Health Department, and the Health Department, Inc.

The Health Department is organized to provide for the health of the community through the various departments of the Health Department, including the Health Officer, the Health Department, and the Health Department, Inc.

The Health Department is organized to provide for the health of the community through the various departments of the Health Department, including the Health Officer, the Health Department, and the Health Department, Inc.

In the Parish of Penderyn, Hirwaun is supplied by the mains of the Aberdare Urban District Council. At Penderyn, the water is pumped from the Cadlan and Ogof Fawr regions. This supply is chlorinated at the Cadlan pump-house by means of a semi-automatic apparatus installed in 1944.

During the year 1951, an alternative supply from the Llygad Cynon Borcholo was connected up to the existing mains at Penderyn, thus ensuring a clean and wholesome supply of water during periods of drought.

Pontnoathvaughan, in the Parish of Ystradfellte, is supplied by the mains of the Neath Rural District Council. Unfortunately, however, the upper portion of the parish, which includes the small hamlet of Ystradfellte, a school and some 45 scattered farms, has no main piped water supply. Neath R.D.C. have been approached on several occasions for a piped supply from their mains, and, at the present time, a joint scheme has been formulated for a supply of water to be piped to the Ystradfellte region, and the majority of farms which are near the existing mains of the Neath R.D.C.

It is essential that a piped supply be brought to this area, in order that clean water be available on farms employed in the production of milk, as well as to farm-houses and cottages.

During the year twenty samples of water were taken for chemical and bacteriological examination. Upon examination these samples were shown to be chemically and bacteriologically pure.

**DRAINAGE AND SEWAGE DISPOSAL WORKS.** The Council has provided efficient drainage and sewage disposal works for the whole of the area with the exception of the small hamlet of Ystradfellte. The disposal of sewage from the Hirwaun district is undertaken by the Aberdare U.D.C. under a joint scheme, and five other separate systems of sewage disposal are operated by this Council.

In the month of February, 1952, it was reported by the members of the Advisory Board that the water supply in the area of the City of London was being supplied by the London and South Western Waterworks Company. This supply is distributed to the City of London by means of a main system of pipes installed in 1944.

During the year 1951, an alternative supply from the City of London was contracted up to the existing main at London, this ensuring a clean and wholesome supply of water during periods of drought.

Investigation in the month of February, 1952, as reported by the members of the Advisory Board, showed that the water supply in the area of the City of London was being supplied by the London and South Western Waterworks Company. This supply is distributed to the City of London by means of a main system of pipes installed in 1944. It was noted that the water supply in the area of the City of London was being supplied by the London and South Western Waterworks Company. This supply is distributed to the City of London by means of a main system of pipes installed in 1944.

It is suggested that a supply of water to the area, in order that clean water be available on farms engaged in the production of milk, as well as to the houses and cottages.

During the year 1951, an alternative supply from the City of London was contracted up to the existing main at London, this ensuring a clean and wholesome supply of water during periods of drought.

The Council has received various reports during the year 1951, and it is suggested that the water supply in the area of the City of London be investigated. It is suggested that the water supply in the area of the City of London be investigated. It is suggested that the water supply in the area of the City of London be investigated.

**REFUSE COLLECTION.** Refuse is collected in the Cefn Coed, Hirwaun, Trofechan, Penderyn and Pontneathvaughan districts three times a week; twice weekly at Pontsticill ; and once a week at Ystradfellte.

**REFUSE DISPOSAL.** The refuse collected in the area is tipped at Cilsanws, Cefn Coed, the Upper Pandy, Hirwaun, and at Dinas Bank, Pontneathvaughan. At the present time refuse is being tipped in the old quarry at Cilsanws, Cefn Coed, and the tip is being built up to conform with the slope of the mountain. Care is being taken to ensure that the refuse deposited does not become a breeding place for vermin. The surface of the tip is dressed regularly.

The tipping of refuse at the Upper Pandy, Hirwaun, (jointly with other Authorities), fills in the gaps and holes in the tips of the old Pandy Iron Works. It will be necessary, in the near future, to obtain a new tipping site for the Hirwaun area.

**SLAUGHTER-HOUSES.** There are no slaughter-houses in the Council's area. All meat for human consumption in this area is supplied from the Government Central Slaughter-houses situated in adjoining areas.

**COTTAGE PIGS.** The slaughter of cottage pigs for home consumption is still permitted under the Regulations to be carried out on owners' premises.

The majority of the carcasses of pigs slaughtered during the year were examined, and all were found to be satisfactory. .

**FOOD AND DRUGS ACT, 1938.** A close inspection is made of meat and other foods sold in retail establishments in this area. One hundred and forty one visits were made to butcher shops, food retailers, fried fish shops, ice cream premises, cafes and public houses during the year.

Condemnation certificates are issued in respect of foodstuffs condemned in our area, in accordance with the various Food Regulations issued by the Ministries of Food and Health. The following articles of food were condemned during the year, as being unfit for human consumption :-

REPORT ON THE PROGRESS OF THE WORK DURING THE YEAR 1900

The work of the year has been devoted to the study of the various forms of the verb in the different dialects of the language. The results of this study are given in the following tables.

The first table shows the forms of the verb in the different dialects of the language. The second table shows the forms of the verb in the different dialects of the language.

The third table shows the forms of the verb in the different dialects of the language. The fourth table shows the forms of the verb in the different dialects of the language.

The fifth table shows the forms of the verb in the different dialects of the language. The sixth table shows the forms of the verb in the different dialects of the language.

The seventh table shows the forms of the verb in the different dialects of the language. The eighth table shows the forms of the verb in the different dialects of the language.

The ninth table shows the forms of the verb in the different dialects of the language. The tenth table shows the forms of the verb in the different dialects of the language.

The eleventh table shows the forms of the verb in the different dialects of the language. The twelfth table shows the forms of the verb in the different dialects of the language.

Luncheon Meat (tinned)	64½lb.	Pineapples .. (tinned)	1½lb.
Cooked Ham ..	" 33 lb.	Apples .. .. "	2½lb.
Chopped Pork ..	" 23½lb.	Tomatoes .. "	2½lb.

Veal & Ham Loaf	" 2½lb.	Condensed milk "	1 lb.
Apricots .. ..	" 10 lb.	Evaporated milk "	8 pts.
Diced Beetroot	" 38 lb.	Fruit salad (bottled)	2½lb.
Raspberries ..	" 6 lb.	Rhubarb .. .. .	4 jars.
Cherries .. ..	" 48 lb.	Frunes .. .. .	30 lb.
Bacon .. ..	11lb.		

LICENSED PREMISES. Visits have been paid to all the licensed premises in our area, and it is pleasing to note that improvements are being made to raise the standard of these premises in every possible manner.

Every house is endeavouring to utilise the provision of proper facilities for cleansing glasses and utensils, and serving refreshments in an hygienic manner.

The sanitary accommodation of these premises has been improved, and it is hoped that in the near future all will have suitable and sufficient sanitary accommodation and a constant supply of hot and cold water.

FARMS, DAIRIES & COWSHEDS. Since the 1st October, 1949, the Ministry of Agriculture & Fisheries has been responsible for Farms, Dairies and Cowsheds, under the Milk & Dairies Regulations, 1949. The Local Authority therefore have no control in the inspection of these premises, other than under the Infectious Diseases Regulations and the Tuberculosis Acts. The Local Authority is, however, responsible in dealing with the water supply to the farms and, in this connection, the County Agricultural Executive Committee has co-operated in endeavouring to supply a piped water supply to farms.

MILK SAMPLING. The milk produced in the area is mainly collected and transported to milk factories, where it is pasteurised. This milk is tested and examined on arrival at the factories by the laboratories attached.

During the year seventy samples were taken from retailers and producers for bacteriological examination and keeping qualities. Five of these samples failed the keeping quality test.

100

It is to be hoped that with the provisions of the Milk and Dairies Regulations, 1949, being enforced, that the standard of the milk supply will be raised to an even higher level.

#### PREVENTION OF DAMAGE BY PESTS

ACT, 1949. Under this new Act, which has been in operation for the past year, the Local Authority is responsible for the survey of the whole of its area. The duties of the Local Authority have been increased and they have been made responsible for farmlands and buildings. The actual work on farmlands, however, is carried out by the County Agricultural Executive Committee in co-operation with the Local Authority.

It is also an obligation on the part of occupiers of land to notify the Local Authority of the presence of vermin.

The work of surveying the district has been carried out under the direction and supervision of the Sanitary Inspector. A full-time rodent operator is employed in the Sanitary Inspector's Department, and he is, at certain periods of the year, assisted by a temporary employee.

In accordance with the provisions made by the Ministry of Agriculture and Fisheries the sewer systems in the Local Authority's area have been treated twice during the year. This work, has, where possible, been carried out in conjunction with the treatment of surface properties.

This area, being of a rural character, has necessitated a close watch being kept on infestation of river banks and culverts near villages. The refuse tips in the area have been dealt with at regular intervals and are inspected weekly to prevent any infestation occurring or remaining on these lands. This work on refuse tips is also maintained in the region of the Sewage Disposal Works, where no major infestations have been found in the past year.

During the year special attention has been paid to premises where food is stored or prepared for human consumption. These premises are visited regularly, and it is pleasing to note that few complaints are received, or evidence found, of infestation in such premises. The occupiers of these premises are aware of the damage likely to be caused by rodent infestation and have taken great care to keep their premises in a satisfactory manner.

It is to be noted that the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

#### MENTION OF DEPT. BY NAME

Under this new Act, which has been in operation for the past year, the local authority is responsible for the survey of the state of the road. The survey of the road authority has been transferred to the local authority. The survey of the road authority is carried out by the County Council. The survey of the road authority is carried out by the County Council. The survey of the road authority is carried out by the County Council.

It is to be noted that the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

The work of surveying the roads has been carried out under the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

In connection with the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

The work of surveying the roads has been carried out under the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

The work of surveying the roads has been carried out under the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

The work of surveying the roads has been carried out under the provisions of the Bill and Division Regulations, 1932, being entered, that the terms of the Bill might be subject to an oversight.

FOOD AND DRUGS ACT, 1938 -

SECTION 15. Byo-laws under Section 15 of this Act have been adopted and brought into operation by this Council. Copies of the Byo-laws have been forwarded to persons concerned in the handling of foods for human consumption.
