Sanitary Inspector:

EDWARD E. JONES, Esq., M.B., F.R.C.S., D.L.S.,
25, Victoria Street, Newport, Wales.

Treasurer:

JAMES JONES, Esq.,
25, Victoria Street, Newport, Wales.

To the Chairman and Members of the
Vaynor and Penderyn Rural
District Council.

Gentlemen,

I have the honour to present the Annual Report on the Health and Sanitary Conditions, and the Vital Statistics relating to the Rural District for 1952. The Report is submitted in accordance with the Circular issued by the Ministry of Health.

I wish to tender my thanks to the Members of the Council for their helpful consideration and co-operation in all matters affecting Public Health; and also the Officers of the Council for their help in all matters appertaining to the duties of the Health Department.

The housing problem is still a very serious matter. A large percentage of the existing houses, particularly in the Cefn Coed area, are occupied by more than one family, and there are a large number of sub-standard houses which should be considered for demolition action when conditions permit.

The Council is energetically pressing on with the building of new houses; the chief difficulties being the shortage of skilled labour and building materials. The number of post-war houses erected in the area to the end of 1952 is 351, of these, 39 were erected during 1952. The number under construction at the end of the year being 26.

The factories and coal-mines of the adjoining County of Glamorgan absorb the majority of our work-people, but a number are employed in factories or work-places within the boundaries of this Rural District. The work-people in the more agricultural part of the District are mainly employed in farming, forestry or quarrying.

To the Chairman and Members of the

Vanner and Tondaryn Rural

Medical Council.

Gentlemen,

I have the honor to present
the Annual Report on the Health and Sanitary Conditions, and
the Vital Statistics relative to the Rural District for 1922.
The report is submitted in accordance with the Circular
issued by the Ministry of Health.

I wish to thank my friends to
the Members of the Council for their helpful contribution
and co-operation in all matters relating to the Health and
Sanitary Conditions of the District. I also wish to thank
the Officers of the Council for their help in all matters
appertaining to the duties of the Medical Council.

Digitized by the Internet Archive
in 2016 with funding from
Wellcome Library

The Council is extremely
pleased to note the falling of the number of deaths
in the District during the year 1922. The number of deaths
in the year 1922 was 1,100, as compared with 1,150 in
the year 1921. The number of deaths in the year 1922
was 1,100, as compared with 1,150 in the year 1921.

The following are the names of
the persons who have died in the District during the year 1922.
The names are arranged in alphabetical order. The names
of the persons who have died in the District during the year 1922
are given in the following list.

The health of the District during the year has, on the whole, been good. No outbreaks of food poisoning have been notified and there has also been an absence of any serious outbreaks of infectious diseases. The majority of deaths during the year were again in the higher age groups.

The incidence of Pulmonary Tuberculosis has been low and infectious cases have been promptly isolated by the Chest Physicians of the Welsh Regional Hospital Board, chiefly at Cimla and Pontsarn Sanatoria.

It has not during 1952, been found necessary to take action under Section 47 of the National Assistance Act, 1948.

I am,

Yours faithfully,

J. TATE,

Medical Officer of Health.

The health of the District
during the year has, on the whole, been good. No out-
breaks of any kind have been notified and there has
also been an absence of any serious outbreaks of infectious
diseases. The majority of deaths during the year were again
in the infant and young groups.

The incidence of infectious
diseases has been low and infectious cases have been
generally limited by the Great Epidemics of the year.
Infectious Hospital cases, chiefly of Cholera and Typhoid
fever, have been few.

It has not been necessary to take action under Section 19 of the
Infectious Diseases Act, 1912.

I am,

Yours faithfully,

J. E. H.

Medical Officer of Health.

BOUNDARIES.

PARISH OF VAYNOR - East Side. The Taf Fechan River from its junction with the Taf Fawr River as far as the junction with the Car Brook.

North Side. From the Car Brook to the junction of the Llysiog Brook with the Taf Fawr River.

West Side. The Taf Fawr River from its junction with the Taf Fechan River to the junction of the Llysiog Brook and the Taf Fawr River.

PARISH OF PENDERYN - East Side. The Taf Fawr River from the Ffrwd Brook to Nantygourgan.

North Side. From Nantygourgan, where it joins the River Hopsto, to the junction of the Rivers Hopsto and Mollto, and from the River Mollto to Dinas Rock.

South Side. From Dinas Rock, following Cwmnant Brook to the Cynon River near Llety Rhys, and the Cynon River as far as the junction of Nant Hir at Cwm Ynys Mwn Tan, and following Nant Hir Brook to Nant Ffrwd Brook to its junction with the Taf Fawr River.

PARISH OF YSTRADFELLTE - North Side. From Carn-yr-Onon to Nant-yr-Eira.

South Side. From Hool-las to Sewd Eira, and along the Afon Mollto to the Bridge at Pontnoathvaughan.

East Side. From Nant-yr-Eira to Blaen Hopsto and along the River Hopsto to Hool-las.

West Side. Afon Nodd at Pontnoathvaughan Bridge to Nant-yr-Bryn and Nant-yr-Bryn to Carn-yr-Onon.

TOPOGRAPHY.

The Rural District comprises the three Parishes of Vaynor, Penderyn and Ystradfellte, in the County of Brecon. The Parish of Ystradfellte, which had been administered by the Noath Rural District Council, was added to this Rural District by a Review Order of April 1st., 1934.

The three Parishes comprised in this Rural District are of considerable extent. The total area being 39,271 acres, or over 61 square miles, with an average length of 8 miles and a width of about 12 miles. They are situated on the Southern Boundary of the County of Brecon, and adjoin the districts of Neath, Abordare and Morthyr Tydfil, in the County of Glamorgan. They form four valleys in the foothills of the South escarpment of the Brecknockshire Beacons, with high table-lands between.

THE PARISH OF VAYNOR comprises two valleys running northwards towards two spurs of the Brecknock Beacons, and the PARISH OF PENDERYN consists of high table-land adjoining and emerging towards the same mountainous area. These Rural Parishes are only separated by the narrow streams already mentioned from the County of Glamorgan, and the important populous Urban Districts of Abordare and Morthyr Tydfil on the South. The PARISH OF YSTRADFELLTE presents similar physical features extending from the rugged Van Mountains to the north, covering a rough hilly table-land intersected by two very narrow valleys converging towards an apex at Pontnoathvaughan.

ELEVATION.

The district, as a whole, is at a great elevation above sea level, varying from 263 feet to no less than 2,250 feet; it will be realised that the nearly 40,000 acres contained in the area includes a considerable amount of sparsely inhabited mountain land. In the Parish of Vaynor, the levels extend from 645 feet near Cefn Bridge to 1,612 feet at Twyn-y-Croes on the mountain above Cwm Glais. Penderyn Parish presents levels varying from 588 feet at Cynon Bridge, Hirwaun, to 1,376 feet at the top of Twyn, Cadlan, while the Parish of Ystradfellte contains such extreme variations of level as 263 feet at the Bridge at Pontnoathvaughan, and 2,250 feet near the top of Fan Fawr, which is partly in the Parish.

CLIMATE.

The proximity of the well-known range of mountains known as the Brecknock Beacons, accounts for the rather heavy rainfall that prevails. Some of the largest reservoirs in Wales are partly in the Rural District.

ACREAGE.

V I T A L S T A T I S T I C S .

BIRTHS. The Births registered in the District in 1952 numbered 86 (male 52 and female 34). The Annual Birth Rate for 1952 was 14.75 per thousand of the population, compared with 14.66 in 1951 and 16.28 in 1950. The County Birth Rate in 1952 was 14.64, compared with 15.58 in 1951, and 16.2 in 1950. The Annual Birth Rate for England and Wales for 1952 was 15.3 compared with 15.5 for 1951 and 15.8 for 1950.

STILL BIRTHS. Four male and one female still births were registered during the year. The rate per thousand of the population being 0.857, compared with 0.872 for 1951 and 0.177 for 1950. The County rate for 1952 was 0.6 compared with 0.46 for 1951 and 0.1 for 1950. The rate for England and Wales for 1952 being 0.35.

DEATHS. There were 74 deaths assigned to this area during 1952; of these 40 were males and 34 were females. This figure takes into account 28 inward transferable deaths. There were no outward transferable deaths. The death rate for 1952 was 12.69 per thousand of the population, compared with 15.53 for 1951 and 15.58 for 1950. The County death rate for 1952 was 11.81, compared with 13.3 for 1951 and 15.5 for 1950. The death rate for England and Wales for 1952 was 11.3 per 1,000 of the population; 12.5 for 1951 and 11.6 for 1950.

DEATHS OF INFANTS UNDER ONE YEAR OF AGE. Two male and one female infants under the age of one year died during 1952, in this district. The causes of deaths were as follows :-

- | | |
|--------------------------------------|--|
| Under one week | (i) 1(a) Premature Birth. |
| Over one month and under two months. | (ii) 1(a) Asphyxia caused by the air passages becoming accidentally obstructed by the bodclothes |
| | (iii) 1(a) Acute Laryngo-trachoo bronchitis. |

The number of deaths recorded under this heading is two less than last year, and the infant mortality rate has fallen from 59.52 for 1951 to 34.88 per 1,000 live births during this year. The rate for England and Wales per 1,000 live births for this year is 27.6 compared with 29.6 for 1951. The County rate per 1,000 live births is 27.94.

DEATHS UNDER ONE YEAR FROM
DIARRHOEA. No deaths were recorded under this heading during the year.

DEATHS FROM PUERPERAL SEPSIS, ETC.
There were no deaths notified from a Puerperal cause during the year.

DEATHS FROM CANCER. The number of deaths from all forms of cancer decreased from 20 last year to 9 in 1952. Of these five were male and four female. The percentage of total deaths being 12.16 compared with 22.47 for 1951 and 9.09 for 1950.

DEATHS FROM TUBERCULOSIS. One male death was notified from this cause during the year. The percentage of total deaths being 1.35 compared with 1.12 for 1951 and 2.27 for 1950.

DEATHS FROM HEART AND ARTERIAL DISEASES. There were thirty-nine notifications of death under this heading during the year; of these 20 were male and 19 female. These diseases accounted for 52.7 per cent of the total deaths during the year, compared with 42.7 for 1951 and 46.59 for 1950.

DEATHS FROM BRONCHITIS. Three male and two female deaths were recorded under this heading during the year. The percentage of total deaths being 6.76 compared with 12.36 for 1951 and 6.82 for 1950.

The report of the committee on the subject of the proposed amendment to the constitution of the State of New York, which was introduced in the Senate on the 10th of January, 1892, and in the Assembly on the 12th of the same month, and which was passed by the Senate on the 15th of February, 1892, and by the Assembly on the 17th of the same month, is hereby published.

REPORT OF THE COMMITTEE ON THE PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF NEW YORK, PASSED BY THE SENATE ON THE 15TH OF FEBRUARY, 1892, AND BY THE ASSEMBLY ON THE 17TH OF THE SAME MONTH.

THE COMMITTEE ON THE PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF NEW YORK, PASSED BY THE SENATE ON THE 15TH OF FEBRUARY, 1892, AND BY THE ASSEMBLY ON THE 17TH OF THE SAME MONTH, HAS THE HONOR TO REPORT THAT THE SAME HAS BEEN PASSED BY THE SENATE ON THE 15TH OF FEBRUARY, 1892, AND BY THE ASSEMBLY ON THE 17TH OF THE SAME MONTH.

HEALTH SERVICES FOR THE AREA.

AMBULANCE FACILITIES. The Brecon County Council administer the ambulance services of the area under the National Health Act, 1946. The Health Department of the County Council have made arrangements with neighbouring authorities to provide ambulance facilities for our area as follows :-

Parish of Vaynor.	The Morthyr Hospital Board.
Hirwaun, Penderyn & Ystradfollyte.	The Glamorgan Hospital Board.
Pontneathvaughan.	The Neath Hospital Board.

Infectious Disease cases in our area utilise the services of the Mardy Isolation Hospital, Morthyr Tydfil, and the Cimla Hospital, Neath.

NURSING AT HOME. This work, which was undertaken by Voluntary Nursing Associations until 5th July, 1948, is now carried out by the County Council.

CLINICS. Clinics are still administered by the County Council, and clinics for expectant mothers and Infant Welfare are held at Cofn Cood and Hirwaun.

HOSPITALS. There are no hospitals in the Council's area, but we are fortunate in having hospital facilities in the adjoining urban areas of Morthyr Tydfil, Abertawe and Neath.

LABORATORY SERVICES. An arrangement has been made for the services of the Public Health Laboratories of the Institute of Preventative Medicine, The Parade, Cardiff, to be utilised for all chemical and bacteriological analyses and examinations required by this Authority.

WATER SUPPLY. The district, which has several supplies of piped water, has, on the whole, been satisfactorily supplied with water. Cofn Cood, in the Vaynor Parish, is supplied from the mains of the Taf Fechan Water Supply Board, as is the greater part of the Vaynor Parish.

In the Parish of Pondoryn, Hirwaun is supplied by the Mains of the Abordare Urban District Council. At Pondoryn, the water is pumped from the Cadlan and Ogof Fawr regions. This supply is chlorinated at the Cadlan pump-house by means of a semi-automatic apparatus installed in 1944.

During the year 1951, an alternative supply from the Llygad Cynon Dorcholo was connected up to the existing mains at Pondoryn, thus ensuring a clean and wholesome supply of water during periods of drought.

Pontnoathvaughan, in the Parish of Ystradfellto, is supplied by the mains of the Noath Rural District Council. Unfortunately, however, the upper portion of the Parish, which includes the small hamlet of Ystradfellto, a school, and some 45 scattered farms, has no main piped water supply. A scheme has now been prepared to provide subsidiary mains connected to the existing Noath Rural District Council's mains, which will provide a suitable and satisfactory supply to the farms and houses in the Ystradfellto area. An extension of the Noath main will also be provided in the Coelbron district of our area.

It is essential that a piped supply be brought into these areas, to ensure that a wholesome supply of water be available to milk producing farms, as well as to farm-houses and cottages. In the past year some six farms have been connected to these mains.

During the year, samples of water were taken for bacteriological and chemical examination from Council mains and also from farms. One set of samples failed to pass the tests owing to a breakdown on the Council's mains. Subsequent samples taken immediately afterwards on the completion of the repairs showed that the water was again satisfactory.

DRAINAGE AND SEWAGE DISPOSAL WORKS. The Council has provided efficient drainage and sewage disposal works for the whole of the area with the exception of the small hamlet of Ystradfellto. The disposal of sewage from the Hirwaun district is undertaken by the Abordare U.D.C. under a joint scheme, and five other separate systems of sewage disposal are operated by this Council.

REFUSE COLLECTION. Refuse is collected in the Cefn Coed, Hirwaun, Trofodan, Penderyn and Pontneathvaughan districts three times a week; twice weekly at Pontsticill; and once a week at Ystradfolly.

REFUSE DISPOSAL. The refuse collected in the area is tipped at Gilsanws, Cefn Coed, the Upper Pandy, Hirwaun, and at Dinas Bark, Pontneathvaughan. At the present time refuse is being tipped in the old quarry at Gilsanws, Cefn Coed, and the tip is being built up to conform with the slope of the mountain. Care is being taken to ensure that the refuse deposited does not become a breeding place for vermin. The surface of the tip is dressed regularly.

The tipping of refuse at the Upper Pandy, Hirwaun, (jointly with other Authorities), fills in the gaps and holes in the tips of the Old Pandy Iron Works. It will be necessary, in the near future, to obtain a new tipping site for the Hirwaun area.

SLAUGHTER-HOUSES. There are no slaughter-houses in the Council's area. All meat for human consumption in this area is supplied from the Government Central Slaughter-Houses situated in adjoining areas.

COTTAGE PIGS. The slaughter of cottage pigs for home consumption is still permitted, under the Regulations, to be carried out on owners' premises.

The majority of the carcasses of pigs slaughtered during the year were examined, and all were found to be satisfactory.

FOOD AND DRUGS ACT, 1938. A close inspection is made of meat and other foods sold in retail establishments in the area. Two hundred and twenty visits were made to butcher shops, food retailers, fried fish shops, ice-cream premises, cafes and public houses during the year.

Condemnation certificates are issued in respect of foodstuffs condemned in our area, in accordance with the various Food Regulations issued by the Ministries of Food and Health. The following articles of food were condemned during the year, as being unfit for human consumption :-

LICENSED PREMISES. Visits have been paid to all the licensed premises in our area, and it is pleasing to note that improvements are being made to raise the standard of these premises in every possible manner.

Every house is endeavouring to utilise the provision of proper facilities for cleansing glasses and utensils, and serving refreshments in an hygienic manner.

The sanitary accommodation of these premises has been improved, and it is hoped that in the near future all will have suitable and sufficient sanitary accommodation and a constant supply of hot and cold water.

FARMS, DAIRIES & COWSHEDS. Since the 1st October, 1949, the Ministry of Agriculture & Fisheries has been responsible for Farms, Dairies & Cowsheds, under the Milk & Dairies Regulations, 1949. The Local Authority, therefore, have no control in the inspection of these premises, other than under the Infectious Diseases Regulations and the Tuberculosis Acts. The Local Authority is, however, responsible in dealing with the water supply to the farms and, in this connection, the County Agricultural Executive Committee has co-operated in endeavouring to supply a piped water supply to the farms.

MILK SAMPLING. The milk produced in the area is mainly collected and transported to milk factories, where it is pasteurised. This milk is tested and examined on arrival at the factories by the laboratories attached.

During the year twenty-nine samples were taken from retailers and producers for bacteriological examination and keeping qualities. Two of these samples failed the keeping quality test.

It is to be hoped that with the provisions of the Milk & Dairies Regulations, 1949, being enforced, that the standard of the milk supply will be raised to an even higher level.

PREVENTION OF DAMAGE BY PESTS

ACT, 1949. Under this Act, the Local Authority is responsible for the survey of the whole area in relation to infestation by rats and mice. These duties include the inspection and survey of farm lands and agricultural undertakings. It is to be noted that in relation to the actual work on agricultural holdings, that the dis-infestation is carried out by the Pest Control Department of the County Agricultural Executive Committee. It is an obligation on the part of occupiers of lands to notify the Local Authority of the presence of vermin. This is an unwieldy procedure and, to my mind, could be simplified by giving the Local Authority the power to deal with agricultural land in the same manner as they deal with other public and private properties within the area.

The work of surveying and inspecting the district has been carried out, under the supervision and direction of the Sanitary Inspector. A full-time Rodent Operator is employed in the Sanitary Inspector's Department and he is, at certain times of the year, assisted by temporary employees.

The sewer systems in the Local Authority's area have, in accordance with the provisions made by the Ministry of Agriculture & Fisheries, been treated twice during the year. These maintenance treatments have been carried out in conjunction with surface properties.

This area, being of a rural character, has necessitated a close watch being kept on infestation of river banks and culverts near villages. The refuse tips in the area have been dealt with at regular intervals and are inspected weekly to prevent any infestation occurring or remaining on these lands. This work, on refuse tips, is also maintained in the region of the Sewage Disposal Works, where no major infestations have been found during the past year.

During the year, special attention has been paid to premises where food is stored or prepared for human consumption. These premises are visited regularly, and it is pleasing to note that few complaints are received, or evidence found, of infestation in such premises. The occupiers of these premises are aware of the damage likely to be caused by rodent infestation and have taken great care to keep their premises in a satisfactory manner.

FOOD & DRUGS ACT, 1938 -

SECTION 15. Byo-laws, under Section 15 of this Act, have been adopted and brought into operation by this Council.

FOR A LIST OF THE
SOURCES OF THE INFORMATION
ON WHICH THIS REPORT IS BASED,
SEE THE APPENDIX.
