ANNUAL REPORT

To the Rural District Council of Basford

MR. CHAIRMAN AND GENTLEMEN,

I have the honour to present to you my fourth Annual Report on the various activities of the Health Department and on the sanitary circumstances, health and vital statistics of your District throughout the year 1939.

This Report is again an Ordinary Report, and is written in conformity with the suggestions contained in the Ministry of Health Circular No. 1961, dealing with Annual Reports, but owing to the prevailing war conditions and in the interests of economy, the report has been abbreviated. The essential statistics necessary for maintaining continuity of records have been preserved.

During the year the following change took place in the clerical staff of the department.

Mr. R. E. T. Chinnery, Sanitary Inspector for No. 2 District, resigned his duties on the 11th February, 1939, on being appointed Chief Sanitary Inspector to the Tarvin Rural District Council. In his place Mr. T. Allwood was appointed and commenced his duties on the 11th April, 1939.

Throughout this most difficult year and particularly during the Crisis period which culminated in the Declaration of War on the 3rd September, the staff of the Health Department, by their co-operation, vigilance and hard work, have assisted in the improvement of the Public Health and Hygiene of your District and made possible the efficient Air Raid Precautions Services, To them I am grateful.

I desire to thank my colleagues in the other Departments for their advice and expert opinion which has proved so valuable during the year, and also the Council, for its ever ready assistance and untiring interest in the work of the Health Department.

I am indebted to Dr. A. C. Tibbits, County Medical Officer of Health, Mr. J. J. G. Ellis, Engineer, Surveyor and Housing Architect, Mr. G. T. Belton, Rating and Valuation Officer, and Mr. V. V. Yates, Senior Sanitary Inspector and Cleansing Superintendent, for information and assistance in compiling the statistics in the preparation of this Report.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area	71,571 acres
POPULATION :—Estimated by Registrar-General	44,890
Number of Inhabited Houses (April 1st, 1939)	13,101
Rateable Value (1st January, 1939)	£195,720
			(31st December, 1939)	£207,198
Product of Penny Rate (1st January, 1939)	£688
			(31st December, 1939)	£728

During the year the area remained as constituted on 1st April, 1935, when the Nottinghamshire County Review Order, 1934, came into force.

The following table compares various Rates in your area with those of England and Wales and selected groups of towns:—

BIRTH-RATES, DEATH-RATES and ANALYSIS of MORTALITY { England and Wales, 126 County Boroughs and Great
in the year, 1939. Towns, and 148 Smaller Towns.

(Provisional Figures based on Weekly and Quarterly Returns).

	RATE PER 1,000 POPULATION.		ANNUAL DEATH-RATE PER 1,000 POPULATION.								RATE PER 1,000 LIVE BIRTHS.	
	Live Births.	Still-births.	All Causes.	Typhoid and Paratyphoid	Small-pox.	Measles.	Scarlet Fever.	Whooping Cough.	Diphtheria.	Influenza.	Diphtheria and Enteritis (under Two years).	Total Deaths under One year.
England and Wales	15.0	0.59	12.1	—	—	0.01	0.01	0.03	0.05	0.21	4.6	50
126 County Boroughs and Great Towns, including London ...	14.8	0.59	12.0	—	—	0.01	0.00	0.03	0.05	0.19	6.3	53
148 Smaller Towns (estimated Resident Populations 25,000 to 50,000 at Census 1931) ...	15.6	0.57	11.2	—	—	0.01	0.00	0.02	0.04	0.20	3.0	40
London	12.3	0.44	11.9	—	—	0.00	0.00	0.03	0.02	0.18	8.2	48
Basford	17.29	0.65	11.66	—	—	0.00	0.02	0.02	0.18	0.24	1.05	39.72

EXTRACTS FROM VITAL STATISTICS OF THE YEAR.

Births.

LIVE BIRTHS.			<i>Total.</i>	<i>Male.</i>	<i>Female.</i>
Legitimate	738	360	378
Illegitimate	23	9	14
			<hr/>	<hr/>	<hr/>
			761	369	392

STILL BIRTHS.			<i>Total.</i>	<i>Male.</i>	<i>Female.</i>
Legitimate	28	13	15
Illegitimate	1	—	1
			<hr/>	<hr/>	<hr/>
			29	13	16

			<i>Total.</i>	<i>Males.</i>	<i>Females.</i>
Deaths	525	288	237

Natural increase of population (excess of births over deaths) : 236

Number of persons dying in, or in consequence of Childbirth :
 From Puerperal Sepsis Nil.

INFANT MORTALITY.

Deaths of Infants under One year of age.

				<i>Male.</i>	<i>Female.</i>
Legitimate	29	12
Illegitimate	—	2
				<hr/>	<hr/>
Total	<u>29</u>	<u>14</u>

Infant Mortality Rates (i.e. Deaths of Infants under one year per 1,000 births) :

Legitimate only	31.20
Illegitimate	86.96
General	39.72

The very satisfactory character of these rates is obvious when compared with the corresponding one for England and Wales : 50.

DEATHS FROM CERTAIN SELECTED CAUSES.

						Deaths No.
Enteric Fever	0
Small Pox	0
Measles	0
Scarlet Fever	1
Whooping Cough	1
Diphtheria	8
Influenza	11
Violence	32
Diarrhoea (under 2 years)	2
Tuberculosis of Respiratory system	20
Tuberculosis (other forms)	1
Cancer	68

The District Birth Rate, 17.29 is the highest recorded since 1926.

The annual variations of the Birth and Death Rates in the District are shown in the following table :—

		Birth Rate.		Death Rate.		Infant Mort. Rate.	
BASFORD	1924	...	18.45	...	11.03	...	78.81
	1925	...	19.13	...	11.98	...	76.75
	1926	...	18.08	...	10.89	...	61.83
	1927	...	17.19	...	10.95	...	55.9
	1928	...	16.14	...	10.50	...	46.03
	1929	...	16.48	...	10.55	...	65.93
	1930	...	16.58	...	10.26	...	59.47
	1931	...	17.23	...	10.6	...	68.16
	1932	...	16.4	...	10.07	...	68.97
	1933	...	14.28	...	11.4	...	66.03
	1934	...	14.18	...	11.4	...	37.37
	1935	...	16.08	...	11.8	...	41.85
	1936	...	15.03	...	11.9	...	47.54
	1937	...	16.35	...	10.50	...	57.47
1938	...	16.00	...	10.79	...	36.43	
	1939	...	17.29	...	11.66	...	39.72

Comparative figures for England and Wales read as follows :—

England & Wales	1924	...	18.8	...	12.2	...	75
	1925	...	18.3	...	12.2	...	70
	1926	...	17.8	...	11.6	...	70
	1927	...	16.7	...	12.3	...	69
	1928	...	16.7	...	11.7	...	65
	1929	...	16.3	...	13.4	...	74
	1930	...	16.3	...	11.4	...	60
	1931	...	15.8	...	12.3	...	66
	1932	...	15.3	...	12.0	...	65

	1935	...	14.7	...	11.7	...	57
	1936	...	14.8	...	12.1	...	59
	1937	...	14.9	...	12.4	...	58
1938	...	15.1	...	11.6	...	53	
	1939	...	15.0	...	12.1	...	50

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

Public Health Officers of the Authority.

A list giving their names and duties appears at the commencement of this Report.

Laboratory Facilities.

These remain unchanged. The number of types of specimens dealt with by the County Laboratories was as follows :—

	Number submitted.	Number Positive.	Number Negative.
Stools for Typhoid	—	—	—
Throat swabs for Streptococci :			
Bosford Infirmary	—	—	—
Other	2	—	2
Widal Test	—	—	—
Fæces for Typhoid	—	—	—
Sputa :			
Bosford Infirmary	18	9	9
Other	46	6	40
Throat Swabs :			
Bosford Sanatorium	477	83	394
Other	334	21	313
Total	<u>877</u>	<u>119</u>	<u>758</u>

Ambulance Facilities.

An arrangement was made during 1935, with the Nottingham Corps of the St. John Ambulance Brigade, and is now in operation.

The Scheme provides for the rapid transport to the nearest Hospital for the following classes of case :—

1. Persons seriously injured as the result of road or other accident.
2. Persons who have suddenly developed a grave illness and are urgently in need of Hospital treatment.

The Scheme is NOT intended for the conveyance of the following :

1. Cases of infectious disease, for whom the Council have made other provision.
2. Those persons who have been ill for a considerable time—unless some acute emergency supervenes.
3. Maternity Cases.
4. Accidents occurring in Collieries, except in very special circumstances.

The service will be rendered free to persons living in the Council's Area, and to victims of accidents occurring in the Area, but those in a position to do so, will be required to re-imburse the Council, wholly, or in part, at a later date.

The service is a 24 hour one, and the ambulance when required, can be summoned by applying to the undermentioned :—

A. Between 9.0 a.m. and 6.0 p.m.

The St. John Ambulance Brigade Headquarters,
45, Park Row, Nottingham. Telephone, Nottingham
42409.

B. Nights and Sundays.

Ambulance Officer Longstaffe,
7, Wilford Grove, Nottingham.
Telephone, Nottingham 84670.

The following is the record of service rendered by this Ambulance Service in the District :—

Total number of cases removed	72
Road accidents	12
Cases of sudden illness ...	60

In addition to the above Ambulance Service there is an Infectious Diseases Ambulance stationed at the Basford Sanatorium. This ambulance not only transports cases of infectious disease in the Basford Rural District, but also, when available, transports similar cases in neighbouring Urban and Rural Districts where no such ambulance facility exists.

The work performed by the Infectious Diseases Ambulance during 1939, is as follows :—

Total cases removed	354
Cases from Basford Rural District ...	289
Cases from other Local Authorities ...	65

These ambulances are supplemented by the ambulances of the Colliery Companies which are reserved solely for the transport of victims of Colliery accidents. Poor Law Cases are removed in the Poor Law Ambulances of the Nottinghamshire County Council.

All these ambulances meet adequately the needs of this District.

Nursing in the Home.

The general nursing of the sick in their houses is undertaken by district nurses provided by voluntary organisations. This Council does not pay or subsidise these nurses or associations. These nurses do not undertake the home nursing of notifiable infectious disease as provision for the treatment of these cases has been made at the Infectious Diseases Hospital of this Council.

Midwives.

No. practising in the Basford Rural District during 1939 ...	30
No. residing in the Basford Rural District ...	19
No. residing outside the Basford Rural District ...	11

Hospitals.

The facilities in the District remain the same as last year. Arrangements are in force for the reception of cases of small pox in the Small Pox Hospital of the Nottingham Corporation, whilst cases of cerebro-spinal meningitis occurring in your area are treated at the Lodge Moor Infectious Hospital, Sheffield. During the year the services of Lodge Moor Infectious Hospital were not called upon.

Facilities are offered at your own Infectious Hospital for the isolation and treatment of all cases of scarlet fever, diphtheria and enteric fever occurring in the District, and agreements exist with most of the surrounding Districts for the reception of cases of the same diseases, when accommodation is available.

Three hundred and fifty-eight cases were admitted into your Infectious Hospital during 1939, as compared with 353 last year, and 270, 276, 253, 220 and 232, in the preceding five years. These 358 cases constitute the largest number of cases ever admitted into the Infectious Diseases Hospital in one year. These were made up as follows :—

	From Basford District.	From Outside Districts.	Totals.
Scarlet Fever ...	159	42	201
Diphtheria ...	124	27	151
Infantile Paralysis ...	1	—	1
Whooping Cough ...	4	—	4
Chicken Pox ...	1	—	1
	289	69	358
	289	69	358

The number of cases admitted into hospital from outside areas emphasises the service being rendered by your hospital to your neighbours, and the desirability of the existing arrangements not being disturbed.

The various parishes from which the Basford cases came are set out in Table 6.

The distribution of the outside cases was as follows :—

	Scarlet Fever.	Diph- theria.	Total.
Arnold	1	2	3
Beeston	—	1	1
Bingham	1	2	3
Carlton	4	4	8
Eastwood	3	7	10
Hucknall	4	—	4
Stapleford	21	5	26
Sutton	4	4	8
West Bridgford ...	3	2	5
Basford Institution	1	—	1
	<u>42</u>	<u>27</u>	<u>69</u>

The monthly admissions are indicated in the following table :—

	BASFORD.					OUT- SIDE.		TOTAL.					ALL CASES.
	Scarlet Fever.	Diphtheria.	Whooping Cough.	Infantile Paralysis.	Chicken Pox.	Scarlet Fever.	Diphtheria.	Scarlet Fever.	Diphtheria.	Whooping Cough.	Infantile Paralysis.	Chicken Pox.	
January	12	4	—	—	—	—	7	12	13	—	—	—	25
February	10	7	—	—	—	6	2	16	9	—	—	—	25
March	17	6	—	—	—	1	—	18	6	—	—	—	24
April	8	7	—	—	—	3	2	11	9	—	—	—	20

25-11-39	M.F.	F.	6	Kimberley	do.	40 "

SANITARY CIRCUMSTANCES OF THE AREA.

Water.

The whole of the District Council's area, as constituted at 31st March, 1935, was included within the water limits of the Nottingham Corporation, and prior to that date the Corporation had provided piped supplies to the principal portions of every parish within this district.

The parishes of Stanford-on-Soar, East Leake, Normanton-on-Soar and Sutton Bonington, have piped supplies of water from the water undertaking of the Loughborough Corporation.

A few remaining parishes have no piped water supply but by the provisions of the Nottingham Corporation Act, 1938, they have been included within the water supply limits of that City, and in the near future a piped supply will be available.

Throughout the year the water supply has been adequate in quality and quantity.

During the year 9 samples of water were submitted for Chemical and Bacteriological analysis, and the results of these analyses together with the action taken are in the following table.

RESULTS OF ANALYSES

No.	Parish.	Source.	Chemical.	Bacteriological.	Action taken.
1	... Newstead	... Bore Hole	... Satisfactory	... Satisfactory	... ———
2	... "	... "	... "	... "	... ———

7	... East Leake Demolition order made.
8	... "	... "	... "	... "	... "
9	... "	... "	... "	... "	... "

Sewerage.

Plans for major schemes of sewerage and sewage disposal in the Parishes of Willoughby, Trowell and Calverton were prepared ready for submission to the Ministry of Health. These have been held in abeyance during the war period.

Sewerage and Sewage Disposal.

- (1) The work commenced in 1938, on the construction of sewers and Sewage Disposal Works in the Parish of Gotham at a cost of £13,313, proceeding during the year.
- (2) The work of constructing Sewers and Sewage Disposal Works in the Parishes of East Leake and Costock at a cost of £15,369, was commenced and proceeded during the year.
- (3) The work of laying Sewers in the Parish of Nuthall at a cost of £15,604, proceeded throughout the year.
- (4) A small sewer extension was carried out during the year at Cordy Lane, Selston.

Rivers and Streams.

The Nottinghamshire County Council carry out the duties under the Rivers, Prevention of Pollution Acts, and for this purpose retains the services of a special Rivers Inspector.

Supplied by the courtesy of the County Medical Officer of Health.

RESULTS OF THE ANALYSES OF SAMPLES OF FINAL EFFLUENTS TAKEN FROM THE SEWAGE DISPOSAL WORKS OF THE BASFORD RURAL DISTRICT COUNCIL DURING THE YEAR 1939.

Public Cleansing.

The Annual Report of your Cleansing Superintendent is reproduced below :—

ANNUAL CLEANSING REPORT, 1939.

1st March, 1940.

THE CHAIRMAN AND MEMBERS OF THE
HEALTH AND SANITARY COMMITTEE.

Gentlemen,

I beg to present to you my nineteenth Annual Report upon House Refuse Removal and Disposal for the year ended 31st December, 1939.

When I came to your Council twenty years ago, the removal of household refuse in parts of your Council's area was carried out by ten contractors, the major part of the refuse being wet.

A start was then made to undertake the work by "Direct Labour," commencing in the Parish of Selston, by horse haulage, this being gradually extended to other Parishes, until the Council owned 11 horses employed on Scavenging.

With the conversion of the houses throughout the district, wherever possible, to the water carriage system, most of the night work was abolished, and a change over from horses to Motor Lorries was made in 1932.

With the exception of one small contract for the partial removal of refuse all the District is now cleansed by the Council's own workmen.

During 1939, the whole of the refuse collection in the Parish of Sutton Bonington was taken over by the Council's staff, part of it having previously been done by contract. Your lorries also took over the collection of dry refuse in the Parish of Gotham. A weekly collection was also instituted at Trowell instead of fortnightly.

The Basford Rural District comprises 39 Parishes with approximately 13,000 houses, and 47,000 population. Of the population 39,198 have a weekly collection of refuse and 7,802 a monthly collection.

Collection. (Depots and Motor Vehicles).

Depots are situated at Selston, Nuthall and Ruddington, the one at Selston, together with a house occupied by the foreman, stands on 36 acres of land, all owned by the Council. The remaining depots are rented.

The five motor refuse collection vehicles in use are "Bedford" two-ton short wheel-base chassis, on which are mounted low-loading dust-proof bodies built to my specification and considered most suitable for the district and type of refuse to be removed.

Towards the end of the year one of the Lorries which had been in use over seven years was replaced with a new one. The new vehicle is a Forward Control Bedford chassis, on which is fitted an eight cubit yard capacity body, built to specification.

It was also decided to have the old vehicle overhauled, and retain it for use as a spare.

Dustbin trucks are supplied to each vehicle and are found to be an advantage in the colliery districts, where the contents of the bins are very heavy, but in the residential and agricultural districts the workmen can and still prefer to shoulder the bins out.

Arrangements for Storage of Household Refuse.

No. of houses supplied with moveable receptacles (dustbins).	10,520
No. of houses supplied with fixed receptacles (dry ashpits, privy middens, and closet pails)	2,380

During 1939 the closet accommodation at 48 houses was converted from privy middens or pail closets to water-closets and dustbins.

This has been possible through the provision of sewers and short extensions of the sewers in several of the Parishes.

Twenty fixed dry ashpits were also replaced by dustbins.

Disposal.

Refuse is disposed of by controlled tipping on the undermentioned tips :—

<i>Parish.</i>	<i>Situation of Tip.</i>	
Annesley	... Byrom Road, Annesley	} Loaned free of charge to the Council.
Trowell	... Adjoining Trowell Colliery	
Selston	... Sandhole, Underwood	
Sutton Bonington	... Adjoining Midland Agricultural College	
Selston	... Holly Farm, Selston	} The property of the Council.
"	... Main Road, Jacksdale	
Greasley	... Rear of "Hill Top Farm," Hill Top	
East Leake	... Rempstone Road, East Leake	} Rented by the Council.
Cossall	... Adjoining sewage works, Ilkeston Junction	
Kimberley	... The Green	} Rented by the Council.
Bestwood	... Moor Lane	
Burton Joyce	... Chestnut Avenue	

During the year, arrangements were made with the L.M.S. Railway Company for increased tipping accommodation in the Parish of Burton Joyce.

Trade Refuse.

The charges for the removal of trade refuse instituted during 1938, have resulted in a less quantity of this class of refuse being collected by your Council's lorries.

Scavenging Powder.

The quantity of scavenging powder manufactured during the year amounted to four tons, and this is done at the Kimberley and Selston Depots, at a cost of approximately £1 per ton.

Workmen.

All the workmen are supplied with oilskin outfits and sets of green overalls.

National Safety First Association.

At the beginning of 1935 your Council entered all the lorry drivers in the National "Safe Driving" Competition held under the auspices of the Association, and all of them have qualified for a Diploma given by the Association, four years in succession.

I am glad to say that the work of Cleansing, was carried out satisfactorily and without complaint throughout the year, and the Public Cleansing arrangements as existing in your area have reached a very high state of efficiency and will bear comparison with any other district.

Salvage.

The question of collecting materials from refuse collected was under consideration at the end of the year, and at the time of writing this report, it has been decided to proceed with this work, the income from which, in my opinion, will make it worth while.

In conclusion, I wish to again express my thanks to the Chairman and Members of the Health and Sanitary Committee for their uniform courtesy and help that they have at all times accorded me.

I am, Gentlemen,

Your obedient Servant,

V. V. YATES.

Cleansing Superintendent.

Sanitary Inspection of the Area.

The Sanitary Officers Order, 1935, requires the Sanitary Inspectors, as soon as practicable after the 31st December in each year to furnish the Medical Officer of Health with reports upon their work during the year. These are reproduced herewith.

Sanitary Inspectors : Messrs. Yates Allwood, and Garrod.

Statutory Notices served :—

(a)	Under Section 39, Public Health Act, 1936	3
(b)	" " 9, Housing Act, 1936	35
	Preliminary Notices served	433
	Premises inspected and re-inspected	6,154
	Complaints received and investigated	303
	Personal interviews with owners and agents	730
	Samples of water taken for analysis	9
	Smoke observations taken	10

The following are the principal matters dealt with :—

Orders served to reconstruct, repair or cleanse drains	70
" " " repair sinks and waste-pipes	21
" " " provide or repair yard paving	57
" " " repair roofs and remedy dampness	78
" " " repair water closets or flushing cisterns	31
" " " provide proper sinks and waste pipes	42
" " " repair or provide eaves and fall pipes	57
" " " repair and cleanse cesspools	53
" " " repair external walls	48
" " " repair or provide washing boilers	33
" " " repair house windows and doors	84
" " " renew or repair fire-ranges	62
" " " repair chimney stacks	24
" " " repair internal walls or ceilings	158
" " " convert privies or pails into water closets	26
" " " renew sanitary pans	4
" " " remove offensive accumulations	5
" " " provide internal water supplies	22
" " " repair defective house floors	98
" " " remedy damp walls	53
" " " repair staircases, provide handrails, etc.	58
" " " convert privies to pails	10
" " " provide adequate light and ventilation to food store	41
Orders served to provide dustbins in lieu of ashpits	18
" " " reconstruct ashpits and privies	2
" " " provide and fix chimney pots	14
" " " provide additional closet accommodation	5
" " " provide adequate light and ventilation	8
" " " repair defective outbuildings	53
" " " renew dustbins	263
" " " cleanse dwelling-houses	10
" " " cleanse foul dykes	7
" " " abat smoke nuisances	2
" " " repair or provide proper coal store	5
" " " re animals improperly kept	1
" " " verminous premises	1
" " " to connect to public water supply	4
" " " miscellaneous	17

PETROLEUM INSPECTORS' ANNUAL REPORT
for 1939.

18th January, 1940.

TO THE CHAIRMAN AND MEMBERS OF THE
HEALTH AND SANITARY COMMITTEE.

Gentlemen,

Petroleum Acts, 1871 to 1928.

We beg to submit our Annual Report under the above Acts :—

Number of licences issued to store Petroleum during 1939	88
Number of licences issued to store Carbide of Calcium during 1939	6
Number of licences transferred during 1939 ...	Nil
Total storage capacity for Petroleum Spirit	89,365 galls.
Total storage capacity for Carbide of Calcium	37 cwts.
Total fees collected	£53 10s. 0d.

All new underground tanks are subjected to a pressure test of 5lbs. per square inch before approval.

Inspections of all the licensed premises have been made from time to time, and all were found to be kept in accordance with the conditions of the licence.

We are, Gentlemen,

Your obedient servants,

V. V. YATES,

T. ALLWOOD,

B. P. GARROD,

Petroleum Inspectors.

18th January, 1940.

Gentlemen,

Annual Report on Canal Boats, 1939.

We beg to submit to you our report under the above for the year ended 31st December, 1939.

Canals and waterways in the Council's area are now situate in the Parishes of Awsworth, Barton-in-Fabis, Brinsley, Burton Joyce, Clifton, Cossall, Greasley, Kimberley, Normanton-on-Soar, Stoke Bardolph and Sutton Bonington.

As in former years, numerous visits have been made to the canals, towpaths, locks and river banks, but the number of boats inspected still remains small.

The number of Canal Boats inspected during the year was two, at Sutton Bonington, they were in clean condition and no person appeared to be suffering from infectious disease. The boats were registered for ten adults and two children, and were occupied by two adults and six children. Other boats were stopped and examined and found to have no living accommodation and were therefore outside the scope of the Act.

It is anticipated that traffic on the canals and waterways will be increased owing to the restriction of road transport.

We are, Gentlemen,

Yours obediently,

V. V. YATES,

T. ALLWOOD,

B. P. GARROD,

Canal Boats Inspectors.

Shops Act, 1934.

Action was taken during the year under the provisions of the Shops Act, 1934, relating to ventilation and temperature of shops and to sanitary conveniences under the following headings :—

No. of complaints received	Nil
No. of inspections made	23
No. of unsatisfactory conditions found :—			
(a) Insufficient sanitary conveniences	.		Nil
(b) Inadequate heating arrangements	.		Nil
(c) Defective or insufficient ventilation			Nil
(d) Other	2
No. of unsatisfactory conditions remedied :—			
(a) Insufficient sanitary conveniences	.		Nil
(b) Inadequate heating arrangements	.		Nil
(c) Defective or insufficient ventilation			Nil
(d) Other	2

Smoke Abatement.

It has not been necessary to take any statutory action during the year for the abatement of smoke nuisances.

A number of observations have been taken which have necessitated the serving of informal notices on firms emitting smoke in such volumes as to cause serious atmospheric pollution ; these have had the desired effect.

Camping Sites.

During the year at three sites in the district attempts were made to use them for camping purposes, but strong representations made by the Health Department were effective in having the campers removed and the use of the sites discontinued.

1. Number of sites used for camping purposes during 1939 ... 3
2. Number of camping sites licensed by Local Authorities under Section 269 of the Public Health Act, 1936 ... 0
3. Estimated maximum number of campers resident at one time during the summer season 1939 ... 0

Swimming Baths and Pools.

In the Basford Rural District there is one open-air swimming pool, which is emptied weekly, and the water treated with chloride of lime.

Housing (Rural Workers) Acts, 1926 to 1939.

The administration of the above Acts devolves upon the Nottinghamshire County Council, your Health Department co-operating with that Authority in endeavouring to persuade owners of all suitable properties to take advantage of the facilities which they offer. To this end, circulars which set out clearly the provisions of the Acts are forwarded or handed to owners upon whom notices are served to carry out repairs.

It is much to be regretted that greater use is not made of them, but it would appear that the attendant restrictions as to permissible rent increases after the work is carried out prove to be deterrents.

The particulars of the assistance afforded under the above Acts during 1939, are as follows :—

Grants approved during 1939.

<i>Property.</i>	<i>Grant.</i>
	£
2 Cottages, Sutton Bonington	200
4 Cottages, Burton Joyce	400

Housing.

The re-building and re-housing of tenants from condemned houses proceeded satisfactorily until brought to an abrupt termination by circular 1866. With the rising costs and increasing scarcity of building materials only repairs to keep out the weather can be carried out on condemned property. This has condemned families to live for an indefinite period in unfit and unsuitable houses. In order to improve the housing situation, tenants from condemned houses are being re-housed in existing Council houses whenever a vacancy occurs. To re-house families living in condemned houses, plans were completed and tenders obtained for thirty houses at East Leake and 22 houses at Selston, but the work was not proceeded with owing to the national emergency.

A.—STATISTICS

No. of plans for new houses submitted during the year ... 754

Number of houses erected during the year :—

(a) Total (including numbers given separately under (b)	563
(b) With State assistance under the Housing Acts :—	
(1) By the Local Authority	146
Awsorth ... 22	
Greasley ... 48	
Gotham ... 16	
Kimberley ... 4	
Selston ... 44	
Woodborough ... 12	
(2) By other Local Authorities	—
(3) By other bodies or persons	417

1.—Inspection of Dwelling-houses during the year :

(1) (a) Total Number of dwelling-houses inspected for housing defects (under Public Health or Housing Acts)	1,072
(b) Number of inspections made for the purpose	2,100

(2)	(a)	Number of dwelling-houses (included under sub-heading (1) above), which were inspected and recorded under the Housing Consolidated Regulations, 1936	101
	(b)	Number of inspections made for the purpose	272
(3)		Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	24
(4)		Number of dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	971

2.—Remedy of Defects during the year without service of formal Notice :—

		Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their officers	768
--	--	---	-----

3.—Action under Statutory Powers during the Year :—

A.—Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936 :

(1)		Number of dwelling-houses in respect of which notices were served requiring repairs	35
(2)		Number of dwelling houses which were rendered fit after service of formal notices :—	
	(a)	By owners	35
	(b)	By Local Authority in default of owners	8

B.—Proceedings under Public Health Acts :—

(1)		Number of dwelling-houses in respect of which notices were served requiring defects to be remedied	0
(2)		Number of dwelling-houses in which defects were remedied after service of formal notices :	
	(a)	By owners	6
	(b)	By Local Authority in default of owners	0

C.—Proceedings under Sections 11 and 13 of the Housing Act, 1936 :—

(1)		Number of dwelling-houses in respect of which Demolition Orders were made	17
(2)		Number of dwelling-houses demolished in pursuance of Demolition Orders	13

D.—Proceedings under Section 12 of the Housing Act, 1936 :

(1)		Number of separate tenements or underground rooms in respect of which Closing Orders were made	Nil
-----	--	--	-----

(2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit	Nil
---	--------	-----

4.— Housing Act, 1936.—Part IV.—Overcrowding.

(a) (1) Number of dwellings overcrowded at the end of the year	92
(2) Number of families dwelling therein	...	109
(3) Number of persons dwelling therein	...	462
(b) Number of new cases of overcrowding reported during the year	Nil
(c) (1) Number of cases of overcrowding relieved during the year	51
(2) Number of persons concerned in such cases	...	398
(d) Particulars of any cases in which dwelling-houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding	Nil
(e) Any other particulars with respect to overcrowding conditions upon which the Medical Officer of Health may consider it desirable to report	Nil

Bed-bugs :

The control and eradication of bed-bugs is actively undertaken in this district. The methods adopted are as reported in the 1938 report.

Slum Clearance.

During the year 79 tenants were removed from slum properties and on subsequent inspection the disinfection carried out proved to be complete.

LOCAL AUTHORITY HOUSES :

(a) Number Infested	3
(b) Number Disinfested	3

OTHER HOUSES :

(a) Number Infested	22
(b) Number Disinfested	22

SECTION E.—INSPECTION AND SUPERVISION OF FOOD.**Milk Supply.**

Systematic inspections of farms, dairies and of cattle were carried out during the year, and various notices served as set out below in order to secure the remedy of various kinds of defects thus discovered :

Work under the Milk and Dairies Order, 1926.

	Number
Visits to Cowsheds	534
To provide light and ventilation	24
„ re-pave yards	15
„ provide proper drainage	8
„ limewash premises	101
„ re-construct cowsheds	15
„ remove accumulations of manure	19
„ repair or re-construct cowshed floor	13
„ provide proper dairy	24
„ provide or improve water supply	1
„ render internal walls	4
„ renew mangers	10
„ provide stall divisions	11
New Cowsheds erected	2

The duty of taking samples of milk for the purposes of determining the bacterial purity and the presence of tubercle bacilli is performed by the County Council.

There are 477 cowkeepers and purveyors of milk on the Registers ; these are classified as follows :—

Cowkeepers and Milk Purveyors	430
Milk Purveyors only	47

Licences under the Milk (Special Designations) Order, 1936, were issued as follows :—

Licences to sell "Pasteurised Milk"	18
„ „ produce and sell "Pasteurised Milk"	1

Accredited Milk Producers.

At the end of the year there were in your area 63 accredited milk producers and one producer of Tuberculin Tested milk.

It has not been found necessary to revoke or refuse any registrations under the Dairies Orders during the year.

Slaughterhouses.

The number of licensed slaughterhouses in your district is now 45. At these, slaughtering occurred on 2,015 occasions, and 2,568 visits were paid to them during the year by your Inspectors.

There are no knackers yards or public slaughterhouses in the District.

Slaughter of Animals Act, 1933.

This Act, which provides for the humane slaughtering or stunning of animals by mechanical or electrical means, applies to all animals, except sheep, which your Council have so far decided to exclude.

Seventy-nine persons were licensed as slaughterers under the provisions of the Act.

Meat and Food Inspection.

During the year, the following foods were surrendered as being unfit for human consumption :—

					lbs.
2	Beast carcasses and offals	Tuberculosis	1,638
1	Hind and part of forequarter of Beast	do.	182
6	Beast heads and tongues	do.	213
42	Beast offals (livers, hearts, spleen, lungs, mesenteric fats, etc.)	do.	670
1	Beast liver	Hydatid Cysts	8
6	Beast offals (lungs, livers)	Abscesses	68
18	Beast livers	Distomatosis	257
4	Beast livers	Cirrhosis	45
1	Beast liver	Necrosis	16
1	Beast head and whole side	Bruised	280
	Beef	do.	102
4	Cow carcasses and offals	Tuberculosis	4,004
2	Cow heads, side fore and part hindquarter	do.	952
25	Cow heads and tongues	do.	817
55	Cow offals (lungs, livers, hearts, spleens, mesenteric fats, etc.)	do.	1,079
9	Cow livers	Disomatosis	87
6	Cow livers	Abscesses	95
2	Cow offals	Congestion	70
1	Cow head and tongue	Actinomycosis	60
3	Cow hindquarters and liver	Fevered	364
4	Cow livers	Cirrhosis	38
1	Cow carcase and offals	Black Leg	640
1	Calf carcase and offals	Fevered	74
2	Sheep carcasses	Fevered	95
2	Sheep livers	Distomatosis	4
1	Sheep liver	Fatty Degeneration	4
1	Sheep liver	Necrosis	4
1	Sheep liver	Abscesses	4
1	Pig carcase and offals	Tuberculosis	224
59	Pig heads and tongues	do.	920
1	Pig head, tongue and pluck	do.	18
40	Pig offals	do.	300
3	Pig livers	Bacterial Necrosis	10
3	Pig lungs	Pneumonia	14
1	Pig liver	Cirrhosis	8
					<u>13,364</u>

Total weight :—5 tons, 19 cwts., 1 quarter, 8 lbs.

Other Foods :—

3	tins Corned Beef	Decomposition	19
7	tins Chicken and Ham Roll	do.	21
1	tin Corned Pork	do.	7

Carcases Inspected and Condemned.

	Cattle excluding Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed	1,255	1,335	110	8,661	3,584
Number inspected	1,218	1,260	105	8,050	3,406
<i>All diseases except Tuberculosis.</i>					
Whole carcases condemned ...	Nil	2	1	2	3
Carcases of which some part or organ was condemned ...	35	27	Nil	5	4
Percentage of the number in- spected affected with disease other than Tuberculosis ...	2.87	2.30	0.95	0.086	0.205
<i>Tuberculosis only.</i>					
Whole carcases condemned ...	2	2	Nil	1	1
Carcases of which some part or organ was condemned ...	57	57	Nil	Nil	109
Percentage of the number in- spected affected with Tuber- culosis	4.84	4.68	0.00	0.012	3.22

Other Foods.

All premises where food is stored or prepared for sale are regularly visited by members of your Staff. They are being conducted in a proper manner, and no infringements of Regulations were discovered.

There are no underground bakehouses in the District.

SECTION F.—PREVALENCE OF AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

General.

The total number of cases of Infectious Disease notified during the year was 441—as compared with 384, 261, 243, 248 and 292 in the five years immediately preceding.

These cases are classified parochially in Table 6 and according to age groups in Table 7.

The total number of each disease notified was as follows :—

Scarlet Fever	189
Diphtheria	130
Pneumonia	43
Tuberculosis	36
Erysipelas	18
Ophthalmia Neonatorum			2
Puerperal Pyrexia	7
Cerebro-Spinal-Meningitis			2
Polio-Myelitis	3
Enteric Fever	1
Whooping Cough	10
					<hr/>
					441
					<hr/> <hr/>

Scarlet Fever.

The cases of this disease were again of a mild type, and no deaths were attributable to this cause. 189 cases were notified during the year, as compared with 156, 100, 113, 123 and 92 in the five years immediately preceding.

The number of cases occurring in each parish and the number removed to hospital is as follows :—

			<i>Cases.</i>		<i>Removals.</i>
Annesley	5	...	2
Awsorth	3	...	3
Bestwood Park	5	...	4
Brinsley	7	...	3
Clifton	2	...	2

			<hr/>		<hr/>
			189		158
			<hr/> <hr/>		<hr/> <hr/>

Serum treatment continues to be used in selected cases at the Sanatorium, but no requests have been received from doctors for supplies for use at home.

Diphtheria.

One hundred and thirty cases of this disease were notified during the year as compared with 101, 36, 31, 28 and 15 in the preceding five years.

There were 124 admissions of cases of this disease into the Sanatorium from your District during the year as follows :—

			<i>Cases.</i>		<i>Removals.</i>
Awsorth	1	...	1
Barton	1	...	1
Bestwood Park	1	...	1
Brinsley	10	...	10
Costock	16	...	17

Trowell	1	...	1
			130		124
			130		124

Antitoxin is supplied free to all medical practitioners in your Area for home treatment of cases actually occurring within your district. The County Council scheme for the examination of throat swabs from cases of suspected diphtheria was freely used, 334 specimens being received from private practitioners, and 477 from your Isolation Hospital during the year.

Throughout the year there was a widespread incidence of Scarlet Fever and Diphtheria which resulted in an increase of 29 cases of Scarlet Fever and 24 cases of Diphtheria over the numbers for the previous year. These increases accounted for practically the whole of the increase in the incidence of Infectious Disease.

Three hundred and sixty-four infected premises were disinfected and disinfectants were supplied to infected households. In co-operation with the School Medical Service of the Nottinghamshire County Council, the contacts of school age were rigidly excluded and four schools disinfected.

Enteric Fever.

One case of this disease was notified during the year.

Pneumonia.

Forty-three cases of pneumonia were notified during the year, as compared with 49, 47, 38, 42 and 58 in the preceding five years.

Twenty-two deaths were due to this cause; the corresponding figures for the preceding years being 23, 23, 18, 31 and 20,

Cerebro-Spinal-Meningitis.

Two cases were notified during the year, resulting in one death.

Acute Polio-Myelitis.

Three cases of this disease were notified during the year. All three cases recovered.

Puerperal Pyrexia.

During the year seven cases of this disease were notified, and on one of these cases it was necessary to consult the County Consultant. Five of the cases were removed to hospital, and all made good recoveries.

Ophthalmia Neonatorum.

Two cases of Ophthalmia Neonatorum were notified during the year, both making good recoveries.

Tuberculosis.

Thirty-six cases of all forms of this disease were notified during the year, as compared with 44, 43, 37, 55 and 52 during the previous five years.

The following table shows the age and sex distribution of the notified cases and deaths from tuberculosis during the year.

TUBERCULOSIS. 1939.

Age Periods.	New Cases.				Deaths.			
	Pulmonary.		Non-pulmonary		Pulmonary		Non-pulmonary

Children's Hospital ...	2	—	—
Harlow Wood Orthopædic Hospital ...	1	2	—

No occasion arose during the year to take advantage of the powers afforded by the Public Health (Prevention of Tuberculosis) Regulations relating to persons suffering from pulmonary tuberculosis employed in the milk trade, nor under Section 172 of the Public Health Act, 1936, which provides for the compulsory removal to hospital of persons suffering from tuberculosis.

Prevention of Blindness.

No action was taken during the year under the Public Health Act, 1925, Section 66, or the Public Health Act, 1936, Section 176.

In the following pages will be found statistical tables relating to births, deaths, incidence and distribution of infectious disease, and other matter of general interest.

I have the honour to be,

Gentlemen,

Your obedient servant,

J. S. DRUMMOND,
Medical Officer of Health.

STATISTICAL
TABLES

STATISTICAL
TABLES.

TABLE 1.

The following table shows the parishes, areas, inhabited houses, and populations of the Parishes according to the Census of 1931, and estimated population for 1940.

Parishes.	Acres.	Inhabited Houses 1921.	Population Census 1921.	Inhabited Houses 1931.	Population Census 1931.	Estimated Population 1940.
Annesley	3,110	248	1,061	259	1,159	1,156
