# ANNUAL REPORT

## *To the Rural District Council of Basford*

MR. CHAIRMAN, MADAM AND GENTLEMEN,

I have the honour to present to you my sixth Annual Report on the sanitary circumstances, health and vital statistics of your District throughout the year 1941.

The Report is again an Ordinary Report, and is written in conformity with the suggestions contained in the Ministry of Health Circular No. 2314, dealing with Annual Reports. Owing to the prevailing war conditions and in the interests of economy, the report has been abbreviated. The essential statistics necessary for maintaining continuity of records have been preserved.

During 1941 the Council in general and the Hospital Committee in particular, sustained a two-fold loss in the deaths of Mr. Henry Machin, for 30 years representing the parish of Lynby, and Mr. E. J. Cope, for 22 years representing Stoke Bardolph. Both had served for many years on the Hospital Committee, Mr. Machin was the Chairman of that Committee at the time of his death, and Mr. Cope, his successor in office held his chairmanship for only one month. To their many friends in the Council and to the Staff of the Isolation Hospital the loss was a grievous one but the memory of their long term of devoted public service remains a solace and an inspiration.

The report which follows is for the second complete year on a war footing. Your Health Department by its vigilance in maintaining the Public Health at a satisfactory level continues its valuable contribution to the war effort. To all the members of the Public Health Staff I desire to record and tender my gratitude.

I desire to thank my colleagues in the other Departments for their advice and expert opinion which has proved so valuable during the year, and also the Council, for its ever ready assistance and untiring interest in the work of the Health Department.

I am indebted to Dr. A. C. Tibbits, County Medical Officer of Health, Mr. J. J. G. Ellis, Engineer, Surveyor and Housing Architect, Mr. G. T. Belton, Rating and Valuation Officer, and Mr. V. V. Yates, Senior Sanitary Inspector and Cleansing Superintendent, for information and assistance in compiling the statistics in the preparation of this Report.

## GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

### Public Health Officers of the Authority.

A list giving their names and duties appears at the commencement of this Report.

### Laboratory Facilities.

The number of types of specimens dealt with by the County Laboratories was as follows :—

		Number submitted.	Number Positive.	Number Negative.
Throat swabs for Streptococci :				
Basford Infirmary	...	2	—	2
Other	... ..	—	—	—
Widal Test	... ..	8	1	7

Other	... ..	78	10	68
		<hr/>	<hr/>	<hr/>
Total	...	1,157	340	817
		<hr/>	<hr/>	<hr/>

### Ambulance Facilities.

An arrangement for the transport of emergency cases was made during 1935, with the Nottingham Corps of the St. John Ambulance Brigade, and is in operation.

The following is the record of service rendered by this Ambulance Service in the District during 1941 :—

Total number of cases removed	33
Road accidents	12
Cases of sudden illness	21

In addition to this Ambulance Service there is an Infectious Diseases Ambulance stationed at the Basford Sanatorium.

The work performed by the Infectious Diseases Ambulance during 1941, is as follows :—

Total cases removed	230
Cases from Basford Rural District	119
Cases from other Local Authorities	111

These ambulances are supplemented by the ambulances of the Colliery Companies which are reserved for the transport of victims of Colliery accidents. Poor Law Cases are removed in the Poor Law Ambulances of the Nottinghamshire County Council.

All these ambulances meet adequately the needs of this District.

### Nursing in the Home.

The general nursing of the sick in their houses is undertaken by district nurses provided by voluntary organisations. This Council does not pay or subsidise these nurses or associations. These nurses do not undertake the home nursing of notifiable infectious disease as provision for the treatment of these cases has been made at the Infectious Diseases Hospital of this Council.

### Midwives.

No. practising in the Basford Rural District during 1941 ...	30
No. residing in the Basford Rural District ...	19
No. residing outside the Basford Rural District ...	11

### Hospitals.

The facilities in the District remain the same as in 1940. Facilities are offered at your own Infectious Hospital for the isolation and treatment of all cases of scarlet fever, diphtheria and enteric fever occurring in the District, and agreements exist with most of the surrounding Districts for the reception of cases of these diseases, when accommodation is available.

Three hundred and eighteen cases were admitted into your Infectious Hospital during 1941, as compared with 277 last year, and 358, 353, 270, 276 and 253 in the preceeding five years. These were made up as follows :—

	From Basford District.	From Outside Districts.	Totals.
Scarlet Fever ...	67	101	168
Diphtheria ...	54	78	132
Enteric Fever ...	5	6	11
Cerebro-spinal Fever ...	2	—	2
T.B. Meningitis ...	2	—	2
Measles ...	3	—	3
	<u>133</u>	<u>185</u>	<u>318</u>

The number of cases admitted into hospital from outside areas emphasises the service being rendered by your hospital to your neighbours, and the desirability of the existing arrangements not being disturbed.

The various parishes from which the Basford cases came are set out in Table 5.

The distribution of the outside cases was as follows :—

	Scarlet Fever.	Diphtheria.	Enteric Fever.	Total.
Arnold ...	6	7	—	13
Bingham ...	5	6	—	11
Carlton ...	28	11	2	41
Eastwood ...	3	6	1	10
Hucknall ...	1	2	1	4
Kirkby ...	1	1	—	2

West Bridgford ...	4	4	—	8
	<u>101</u>	<u>78</u>	<u>6</u>	<u>185</u>

The monthly admissions are indicated in the following table:—

10. Brinsley	„	„	„	„
11. Annesley	„	„	„	„

Throughout the year the water supply has been adequate in quality and quantity.

There have been no extensions to mains or other water supplies.

### Sewerage and Sewage Disposal.

The work of constructing Sewers and Sewage Disposal Works in the Parishes of East Leake and Costock was completed at the beginning of the year.

### Rivers and Streams.

The Nottinghamshire County Council carry out the duties under the Rivers, Prevention of Pollution Acts, and for this purpose retains the services of a special Rivers Inspector.

### **Public Cleansing and Salvage.**

The Annual Report of your Cleansing Superintendent is reproduced below :—

### **ANNUAL CLEANSING REPORT, 1941.**

18th February, 1942.

THE CHAIRMAN AND MEMBERS OF THE  
HEALTH AND SANITARY COMMITTEE.

Gentlemen,

I beg to present to you my twenty-first Annual Report upon House Refuse Removal and Disposal for the year ended the 31st December, 1941. The Cleansing throughout the Council's area is carried out by the Council's own Staff.

The Basford Rural District comprises 39 Parishes with approximately 13,000 houses and 47,000 population. At the beginning of the year, a population of 40,680 were having a weekly collection of refuse, and 6,320 a monthly collection, but later in the year it was necessary, owing to reduction in petrol supply and labour difficulties to institute a fortnightly collection in some of the residential districts previously having a weekly collection.

#### **Collection.** (Depots and Motor Vehicles).

Depots are situated at Selston, Nuthall and Ruddington, the one at Selston, together with a house occupied by the foreman, stands on 36 acres of land, all owned by the Council. The remaining depots are rented.

The five motor refuse collection vehicles in use are "Bedford" two ton short wheel-base chassis, on which are mounted low-loading dust-proof bodies built to specification and considered most suitable for the district and type of refuse to be removed.

Dustbin trucks are supplied to each vehicle and are found to be an advantage in the colliery districts, where the contents of the bins are very heavy, but in the residential and agricultural districts the workmen can and still prefer to shoulder the bins out.

#### **Arrangements for Storage of Household Refuse.**

No. of houses supplied with moveable receptacles (dustbins).	10,600
No. of houses supplied with fixed receptacles (dry ashpits, privy middens, and closet pails)      ...      ...      ...	2,138

During 1941 the closet accommodation at 15 houses was converted from privy middens or pail closets to water-closets and dustbins.

Three fixed dry ashpits were also replaced by dustbins.

**Disposal.**

Refuse is disposed of by controlled tipping on the undermentioned tips :—

<i>Parish.</i>	<i>Situation of Tip.</i>	
Annesley	... Byron Road, Annesley	} Loaned free of charge to the Council.
Trowell	... Adjoining Trowell Colliery	
Selston	... Sandhole, Underwood	
Sutton Bonington	... Adjoining Midland Agricultural College	
Selston	... Holly Farm, Selston	} The property of the Council.
"	... Main Road, Jacksdale	
Greasley	... Rear of "Hill Top Farm," Hill Top	
East Leake	... Rempstone Road, East Leake	
Cossall	... Adjoining sewage works, Ilkeston Junction	
Kimberley	... The Green	} Rented by the Council.
Bestwood	... Moor Lane	
Burton Joyce	... Crifftin Road	

During the year, the tip at Hill Top was let to the Eastwood Council at an annual rental, Underwood and Jacksdale were not used, the refuse from these districts being taken to the central tip at Selston. This was done to facilitate Salvage work.

**Salvage.**

The staff and equipment employed on Salvage at the end of the year were as follows :—

- 6 Workmen full time).
- 1 Lorry ( " ).
- 3 Crates (fixed on top of the cab of Refuse Collectors).
- 3 Trailers (30 cwt.) (attached to Three Refuse Collectors).

Three Paper Baling Presses are in use, one at each Depot.

Salvaged material sold to the 31st December, 1941, was :—

	<i>Tons.</i>	<i>Cwts.</i>			
Waste Paper ...	213	9 $\frac{3}{4}$			
Iron ...	181	18			
Non-ferrous Metals ...	1	5			
Textiles ...	21	7			
Cullet ...	23	1			
Fuel ...	20	—			
Bones ...	9	10			
Bottles and Jars ...	24	9			
Manure ...	27	—			
Total ...	521	19 $\frac{3}{4}$	Income	£	s. d.
Sales 1940 ...	427	—		1,654	0 10
				1,139	16 3
Increase ...	94	19 $\frac{3}{4}$		£514	4 7

In addition the following was collected and disposed of by voluntary organisations :—

72 tons	...	Paper.
8 "	...	Iron.
2 "	...	Rags.
1½ "	...	Bottles.

### **Army Contracts.**

Seven contracts for the removal of Refuse and Privy Soil were in operation at the end of the year.

The total cost of Public Cleansing for the year ended the 31st March, 1941, was £7,172 13s. 6d. After deducting £1,915 11s. 4d., income from sales of waste recovered, and Army Contracts, a sum of £5,257 2s. 2d. was the net rate cost. This net rate cost is £53 17s. 11d. less than the same period 1940, and is due to increased income from Salvage.

### **Scavenging Powder.**

The quantity of scavenging powder manufactured during the year amounted to 2 tons, and this is done at the Kimberley and Selston Depots, at a cost of approximately £1 per ton.

### **Workmen.**

All the workmen are supplied with oilskin outfits and sets of overalls.

### **National Safety First Association.**

At the beginning of 1936 your Council entered five lorry drivers in the National "Safe Driving" Competition held under the auspices of the Association, and four of them have qualified for a bar to the Silver Medals given by the Association for six years "safe driving" in succession. The other driver has left your Council's employ.

I am glad to say that the work of Cleansing and Salvage was carried out satisfactorily and with little complaint throughout the year.

In conclusion, I wish to again express my thanks to the Chairman and Members of the Health and Sanitary Committee for their uniform courtesy and help that they have at all times accorded to me.

I am, Gentlemen,

Your obedient Servant,

V. V. YATES.

*Cleansing Superintendent.*

### **Sanitary Inspection of the Area.**

The Sanitary Officers Order, 1935, requires the Sanitary Inspectors, as soon as practicable after the 31st December in each year to furnish the Medical Officer of Health with reports upon their work during the year. These are reproduced herewith.

**PETROLEUM INSPECTORS' ANNUAL REPORT**  
for 1941.

8th January, 1942.

TO THE CHAIRMAN AND MEMBERS OF THE  
HEALTH AND SANITARY COMMITTEE.

Gentlemen,

**Petroleum Acts, 1871 to 1928.**

We beg to submit our Annual Report under the above Acts :—

Number of licences issued to store Petroleum during 1941 ...	...	92
Number of licences issued to store Carbide of Calcium during 1941 ...	...	5
Total storage capacity for Petroleum Spirit	86,210 galls.

All new underground tanks are subjected to a pressure test of 5lbs. per square inch before approval.

Inspections of all the licensed premises have been made from time to time, and all were found to be kept in accordance with the conditions of the licence.

We are, Gentlemen,

Your obedient servants,

V. V. YATES,  
T. ALLWOOD,  
B. P. GARROD,

*Petroleum Inspectors.*

11th January, 1942.

TO THE CHAIRMAN AND MEMBERS OF THE  
HEALTH AND SANITARY COMMITTEE.

Gentlemen,

**Annual Report on Canal Boats, 1941.**

We beg to submit to you our report under the above for the year ended 31st December, 1941.

Canals and waterways in the Council's area are now situate in the Parishes of Awsworth, Barton-in-Fabis, Brinsley, Burton Joyce, Clifton, Cossall, Greasley, Kimberley, Normanton-on-Soar, Stoke Bardolph and Sutton Bonington.

As in former years, numerous visits have been made to the canals, towpaths, locks and river banks, but the number of boats inspected was nil.

Several boats were stopped but were found to have no living accommodation, so were outside the scope of the Act. It is difficult in this area to contact canal boats which are soon through the small locks, and unless you happen to be there at the time the boats are soon out of sight.

We are, Gentlemen,

Yours obediently,

V. V. YATES,  
T. ALLWOOD,  
B. P. GARROD,

*Canal Boats Inspectors.*
