ANNUAL REPORT

To the Rural District Council of Basford

MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have the honour to present to you my eleventh Annual Report on the sanitary circumstances, health and vital statistics of your District throughout the year 1946.

The Report is again an Ordinary Report, and is written in conformity with the suggestions contained in the Ministry of Health Circular No. 13/1947, dated 13th March, 1947, dealing with Annual Reports. Owing to the prevailing conditions and in the interests of economy, the report has been abbreviated. The essential statistics necessary for maintaining continuity of records have been preserved.

The year under review is the first complete year of peace and although all the high hopes, which the cessation of hostilities brought, were not entirely fulfilled yet the year 1946 must be written down as a year of awakening and advance. In the field of hygiene and sanitation the quickening of the momentum was evident in the increasing number of houses under repair, small sewer extensions and the improvement in sanitary accommodation at rural cottages and the extension of the public cleansing service. The rural housing survey progressed during the year and showed that the years of inactivity brought about by the war had taken toll of many neglected dwellings. The replacing of these unhealthy dwellings together with the urgent need for houses presents the biggest problem facing rural authorities today. Toward the close of the year a growing scarcity of building materials was evident and presented a very real and serious threat to housing progress. One of the most important factors in the maintenance of a satisfactory rural community is good housing, and a satisfactory rural population is essential to the national economy. Therefore I would urge the Ministry of Health to permit rural authorities to proceed with the removal of unfit houses by demolition and clearance.

I desire to thank my colleagues in the other departments for their advice and expert opinion which has proved so valuable during the year, and to the Council for its ever ready assistance and untiring interest in the work of the Health Department. To all the members of the Public Health Staff I record and tender my gratitude.

I am indebted to Dr. A. C. Tibbits, County Medical Officer of Health, Mr. J. J. G. Ellis, Engineer, Surveyor and Housing Architect, and Mr. G. T. Belton, Rating and Valuation Officer, for information and assistance in compiling the statistics in the preparation of this report.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

During the year the area remained as constituted on 1st April, 1935, when the Nottinghamshire County Review Order, 1934, came into force.

Ambulance Facilities.

An arrangement for the transport of emergency cases was made during 1935, with the Nottingham Corps of the St. John Ambulance Brigade, and is in operation.

The following is the record of service rendered by this Ambulance Service in the District during 1946 :—

Total cases removed	...	59
Accidents	11
Maternity	18
Public Assistance	4
Treatments	25
Surgical cases	1

The record of service of the Ruddington Corps of the St. John Ambulance Brigade is as follows :—

Total cases removed	...	404
Accidents	57
Maternity	31
Public Assistance	54
Treatments	78
Surgical cases	102
Conveyed from hospital after treatment	82

The record of service of the Nuthall Corps of the St. John Ambulance Brigade is as follows :—

Total cases removed	...	305
Emergency	128
Accidents	12
Illness	120
Maternity	45

In addition to this Ambulance Service there is an Infectious Diseases Ambulance stationed at the Basford Sanatorium.

The work performed by the Infectious Diseases Ambulance during 1946, is as follows :—

Total cases removed	100
Cases from Basford Rural District	93
Cases from other Local Authorities	7

These ambulances are supplemented by the ambulances of the Colliery Companies which are reserved for the transport of victims of Colliery accidents. Poor Law Cases are removed in the Poor Law Ambulances of the Nottinghamshire County Council.

Insulin.

Under the provisions of Section 177 of the Public Health Act, 1936, and the Ministry of Health Circular 2634 of 1943, 12,000 units of Insulin were supplied free of charge to a diabetic person resident in your district.

Nursing in the Home.

The general nursing of the sick in their houses is undertaken by district nurses provided by voluntary organisations. This Council does not pay or subsidise these nurses or associations. These nurses do not undertake the home nursing of notifiable infectious disease as provision for the treatment of these cases has been made at the Infectious Diseases Hospital of this Council.

Midwives.

No. practising and residing in the Basford Rural District during 1946	24
No residing outside the Basford Rural District	7

Hospitals.

The facilities in the District remain the same as in 1945. Facilities are offered at your own Infectious Hospital for the isolation and treatment of all cases of scarlet fever, diphtheria and enteric fever occurring in the District, and agreements exist with most of the surrounding Districts for the reception of cases of these diseases, when accommodation is available.

One hundred and twenty-five cases were admitted into your Infectious Hospital during 1946, as compared with 218 last year, and 223, 245, 237, 318 and 277 in the preceding five years. These were made up as follows :—

	From Basford District.	From Outside Districts.	Totals.
Scarlet Fever	64	23	87
Diphtheria	21	6	27
Cerebro-Spinal Meningitis ...	2	—	2
Dysentery	3	—	3

Whooping Cough	1	—	1
Enteric Fever	—	2	2
Infantile Paralysis	1	—	1
	<hr/> 93	<hr/> 32	<hr/> 125

The number of cases admitted into hospital from outside areas emphasizes the service being rendered by your hospital to your neighbours.

The various parishes from which the Basford cases came are set out in Table 6.

The distribution of the outside cases was as follows :—

	Scarlet Fever.	Diphtheria.	Measles.	Enteric Fever.

SANITARY CIRCUMSTANCES OF THE AREA.

Water.

During the year 6 samples of water were submitted for Chemical and Bacteriological analysis, and the results of these analyses are as follows:—

Parish.	Source.	Chemical.	Bacteriological.	Action taken.
1. Sutton Bonington ...	Well ...	Unsatisfactory ...	Unsatisfactory ...	Main water supply provided.
2. Willoughby-on-the Wolds	" ...	" ...	" ...	Well cleaned out.

4. Sutton Bonington ...	" ...	" ...	" ...	" "
5. Selston ...	" ...	" ...	" ...	Main water installed.
6. Newstead ...	" ...	Satisfactory ...	Satisfactory ...	—

There are 39 parishes in the District and of these, 8 parishes, viz., Costock, Kingston-on-Soar, Ratcliffe-on-Soar, Rempstone, West Leake, Wysall, Thorpe-in-the-Glebe and Willoughby-on-the-Wolds, have not a main water supply and depend entirely upon shallow wells. At Costock, Rempstone and Willoughby-on-the-Wolds, the water supply is most inadequate and at Wysall, although water is abundant, some of the wells are contaminated. In all 870 houses are dependent on wells.

In the parishes with a piped water supply the Nottingham Corporation supplies 26 parishes. Loughborough Corporation supplies 4 parishes, and the remaining parish is supplied in part by the

Nottingham Corporation and private water suppliers. In all of these parishes the water supply was adequate in quantity and satisfactory in quality throughout the year. There are 12,592 houses supplied with piped water supply and except for the 169 houses supplied by stand-pipes all have water supplied by a tap over the sink. The following table shows the distribution throughout the District of the houses supplied by stand-pipes.

Parish.	No. of stand-pipes.	No. of houses.

The eight parishes which have not piped water supplies have been included in the Nottingham Corporation Act, 1938, and the Minister of Health has approved a scheme for these parishes with the exception of Willoughby-on-the-Wolds.

There have been no extensions to mains or other water supplies during the year.

Flooding of Houses.

During the period 9th to 11th February, 1946, a rapid and abnormal rise in the level of the Rivers Trent and Soar resulted in widespread floods in the Parishes through which these rivers normally flow. The extent of the involvement of houses, farms, schools and roads was as follows :—

Parish.	No. of Premises.	Remarks.
Barton-in-Fabis ...	55	... Very severe flooding.
Bunny ...	—	... Road flooding only.
Burton Joyce ...	17	... Considerable road flooding.
East Leake ...	1	... Costock Road flooded.
Normanton-on-Soar ...	—	... Road flooding only.
Ratcliffe-on-Soar ...	8	... Road flooding severe.
Stanford-on-Soar ...	—	... Road flooding severe.
Stoke Bardolph ...	—	... Road flooding severe.
Sutton Bonington ...	—	... Road flooding in parts.
Thrumpton ...	4	... Only bottom end of village affected.

Disinfectant, soap and coal were distributed to the affected houses. Where necessary, the tenants were advised to boil all water used for household purposes.

Sewerage and Sewage Disposal.

At the end of the year the sewer extension in the Parish of East Leake was proceeding.

Sewerage schemes for the parishes of Bestwood Park and Trowell were submitted to the Minister of Health for approval.

Rivers and Streams.

The Nottinghamshire County Council carry out the duties under the Rivers, Prevention of Pollution Acts, and for this purpose retain the services of a special Rivers Inspector.

Public Cleansing and Salvage.

The Cleansing throughout the Council's area is carried out by the Council's own staff.

The Basford Rural District comprises 39 Parishes with 13,462 houses and 46,522 population. At the beginning of the year, a population of 43,221 was having a full weekly collection of refuse, and the remainder a partial collection.

Collection. (Depots and Motor Vehicles).

Depots are situated at Selston, Nuthall and Ruddington, the one at Selston, together with a house occupied by the foreman, stands on 36 acres of land, all owned by the Council. The remaining depots are rented.

Seven motor refuse collection vehicles are in use (six Bedfords and one Karrier Bantam). A 30 cwt. Bedford lorry is also in use.

Dustbin trucks are supplied to each vehicle and are found to be an advantage in the colliery districts, where the contents of the bins are very heavy, but in the residential and agricultural districts the workmen can and still prefer to shoulder the bins out.

Arrangements for Storage of Household Refuse.

No. of houses supplied with moveable receptacles (dustbins). 11,380

No. of houses supplied with fixed receptacles (dry ashpits,
 privy middens, and closet pails) 2,082

During 1946 the closet accommodation at 55 houses was converted from privy middens or pail closets to water-closets and dustbins.

Disposal.

Refuse is disposed of by controlled tipping on the undermentioned tips :—

<i>Parish.</i>	<i>Situation of Tip.</i>	
Annesley	... Annesley Lane	} Loaned free of charge to the Council.
"	... Byron Road, Annesley	
Selston	... Sandhole, Underwood

Cossall	... Adjoining sewage works, Ilkeston Junction	
Kimberley	... The Green	} Rented by the Council.
Bestwood	... Moor Lane	
Burton Joyce	... Crifftin Road	

Salvage.

The staff and equipment employed on Salvage at the end of the year were as follows :—

2 Workpeople (part time).

1 Lorry (").

3 Trailers (30 cwt.) (attached to Three Refuse Collectors).

Also each lorry carries a sufficient number of bags to hold waste paper collected.

Three Paper Baling Presses (hand operated) are in use, one at each Depot.

Salvaged material sold to the 31st December, 1946, was :—

	<i>Tons.</i>	<i>Cwts.</i>

In addition the following was collected and disposed of by voluntary and industrial organisations :—

5 tons 16 cwts. ... Paper

Workmen.

All the workmen are supplied with sets of overalls.

Dustbins.

Owing to the number of sanitary dustbins which became unusable, application was made to the Ministry of Health for Form M authorising the use of the necessary steel, and 656 sanitary dustbins were supplied to replace bins which became unfit for use.

Sanitary Inspection of the Area.

The Sanitary Officers Order, 1935, requires the Sanitary Inspectors, as soon as practicable after the 31st December in each year to furnish the Medical Officer of Health with reports upon their work during the year. These are reproduced herewith.

PETROLEUM INSPECTORS' ANNUAL REPORT for 1946.

TO THE CHAIRMAN AND MEMBERS OF THE
PUBLIC HEALTH COMMITTEE

Gentlemen,

Petroleum Acts, 1871 to 1928.

We beg to submit to you our Annual Report under the above Acts :—

Number of licences issued to store Petroleum during 1946	85
Number of licences issued to store Carbide of Calcium during 1946	8
Total storage capacity for Petroleum Spirit						94,400 galls.
Total storage capacity for Carbide of Calcium						9,484 lbs.
Total fees collected	£58 10s. 0d.

All new underground tanks are subjected to a pressure test of 5 lbs. per square inch before approval

One hundred and ninety three inspections of the licenced premises have been made during the year, and all were found to be kept in accordance with the conditions of the licence.

We are, Gentlemen,

Yours obediently,

V. V. YATES,
B. P. GARROD,
T. ALLWOOD,

Petroleum Inspectors.

TO THE CHAIRMAN AND MEMBERS OF THE
PUBLIC HEALTH COMMITTEE.

Gentlemen,

Annual Report on Canal Boats, 1946.

We beg to submit to you our report under the above for the year ended 31st December, 1946.

Canals and waterways in the Council's area are situate in the Parishes of Awworth, Barton-in-Fabis, Brinsley, Burton Joyce, Clifton, Cossall, Greasley, Kimberley, Normanton-on-Soar, Stoke Bardolph and Sutton Bonington.

Numberous visits have been made to the canals, towpaths, locks, and river banks, but the number of boats inspected was nil.

It is difficult in this area to contact canal boats which are quickly through the small locks, and unless one happens to be there at the time, the boats are soon out of reach.

We are, Gentlemen,

Yours obediently,

V. V. YATES,
B. P. GARROD,
T. ALLWOOD,
Canal Boats Inspectors.

Shops Act, 1934.

Action was taken during the year under the provisions of the Shops Act, 1934, relating to ventilation and temperature of shops and to sanitary conveniences under the following headings :—

No. of complaints received	Nil

The duty of taking samples of milk for the purposes of determining the bacterial purity and the presence of tubercle bacilli is performed by the County Council.

There are 416 cowkeepers and purveyors of milk on the Register ; these are classified as follows :—

Cowkeepers and Milk Purveyors	389
Milk Purveyors only	27

Licences under the Milk (Special Designations) Order, 1936, were issued as follows :—

Licences to sell “Pasteurised Milk”	16
„ „ „ Tuberculin Tested Milk	3
„ „ produce and sell “Pasteurised Milk”	2

Accredited Milk Producers.

At the end of the year there were in your area 54 accredited milk producers and 5 producers of Tuberculin Tested milk.

During the year no accredited licences were revoked for failure to maintain the required standard.

Slaughterhouses.

The number of slaughterhouses licensed in your district is now 3. 944 visits were paid to these and meat allocation centres and butchers' shops during the year by your Inspectors.

There are no knackers yards or public slaughterhouses in the District.

Slaughter of Animals Act, 1933.

Seven persons were licensed as slaughterers under the provisions of the Act.

Meat and Food Inspection.

During the year, the following foods were surrendered as being unfit for human consumption :—

Other Foods.

All premises where food is stored or prepared for sale are regularly visited by members of your Staff. They are being conducted in a proper manner, and no infringements of Regulations were discovered.

There are no underground bakehouses in the District.

SECTION F.—PREVALENCE OF AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

General.

The total number of cases of Infectious Disease notified during the year was 330, as compared with 1,019, 509, 865, 570 and 946 in the five years immediately preceding.

These cases are classified parochially in Table 6 and according to age groups in Table 5.

The total number of each disease notified was as follows —

Scarlet Fever	76
Diphtheria	8
Pneumonia	16
Erysipelas	12
Puerperal Pyrexia	2
Ophthalmia Neonatorum	2
Acute Polio-Myelitis	1
Whooping Cough	58
Measles	117
Tuberculosis	37
Cerebro-spinal Meningitis	1
					<hr/>
					330
					<hr/>

One hundred and six infected premises were disinfected and disinfectants were supplied to infected households. In co-operation with the School Medical Service of the Nottinghamshire County Council, the contacts of school age were rigidly excluded.

Scarlet Fever.

Seventy-six cases were notified during the year, as compared with 162, 215, 90, 55 and 90 in the five years immediately preceding.

The number of cases occurring in each parish and the number removed to hospital is as follows :—

				Cases.	Removals.
Annesley	2	2
Bestwood Park	1	—
Brinsley	2	2
Burton Joyce	4	—
Cossall	8	2

Sutton Bonington	5	5
Trowell	1	—
				<hr/>	<hr/>
				76	64
				<hr/>	<hr/>

The disease was mild in type and no deaths resulted.

Diphtheria.

Eight cases of this disease were confirmed during the year as compared with 13, 8, 29, 19 and 50 in the preceding five years.

There were 21 admissions of suspected cases of this disease into the Sanatorium from your district during the year as follows :—

			<i>Cases.</i>		<i>Removals.</i>
Annesley	—	...	1
Bradmore	—	...	1
Brinsley	1	...	2

Of the 8 cases one was a child under school age, and no cases in age group 5 to 15 years ; the remainder (7) were in the higher age groups which appears to bear out a former observation that the incidence has tended to move away from the former susceptible but now protected aged groups.

No deaths from Diphtheria occurred during the year.

Antitoxin is supplied free to all medical practitioners in your Area for home treatment of cases actually occurring within your district. The County Council scheme for the examination of throat swabs from cases of suspected diphtheria was freely used, 282 specimens being received during the year.

This case had not been immunised.

Pneumonia.

Sixteen cases of Pneumonia were notified during the year, as compared with 18, 32, 47, 48 and 41 in the preceding five years.

Thirteen deaths were due to this cause ; the corresponding figures for the preceding years being 13, 13, 25, 17 and 32.

Cerebro-Spinal-Meningitis.

One case was notified during the year.

Acute Polio-Myelitis.

One case of this disease was notified during the year.

Puerperal Pyrexia.

During the year two cases of this disease were notified.

Ophthalmia Neonatorum.

Two cases of Ophthalmia Neonatorum were notified during the year.

Scabies.

All cases notified to the Health Department are visited and examined by your Medical Officer of Health, and given advice on disinfection and treatment with benzyl benzoate. Contacts are ascertained, followed up and brought under treatment. No difficulty was experienced in obtaining the co-operation of parents and patients. Arrangements have been made, if necessary, to carry out treatment at the Sanatorium.

No occasion arose during the year to take advantage of the powers afforded by the Public Health (Prevention of Tuberculosis) Regulations relating to persons suffering from pulmonary tuberculosis employed in the milk trade, nor under Section 172 of the Public Health Act, 1936, which provides for the compulsory removal to hospital of persons suffering from tuberculosis.

Prevention of Blindness.

No action was taken during the year under the Public Health Act, 1925, Section 66, or the Public Health Act, 1936, Section 176.

In the following pages will be found statistical tables relating to births, deaths, incidence and distribution of infectious disease, and other matter of general interest.

I have the honour to be, Ladies and Gentlemen,

Your obedient servant,

J. S. DRUMMOND,

Medical Officer of Health
