BIRMINGHAM

December, 1931.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH
TO THE SANITARY COMMITTEE OF THE CORPORATION OF BIRMINGHAM
FOR THE YEAR 1931.

GENERAL STATEMENT

The following figures are taken from the annual returns of the Medical Officer of Health for the year 1931, and are subject to correction in the event of any error being discovered.

STATISTICAL TABLES

Area in acres	1,100.00
Population at end of year	411,117
No. of inhabited houses (according to the 1921 Census)	8,553
Rate per 1,000	438.500
Rate per 1,000	410.0

STATISTICAL TABLES

Births	1,100
Deaths	1,100
Marriages	1,100
Divorces	1,100
Adoptions	1,100
Stillbirths	1,100
Infants under 5 years of age	1,100
Infants under 1 year of age	1,100
Infants under 6 months of age	1,100
Infants under 3 months of age	1,100
Infants under 1 month of age	1,100
Infants under 1 week of age	1,100
Infants under 3 days of age	1,100
Infants under 24 hours of age	1,100
Infants under 12 hours of age	1,100
Infants under 6 hours of age	1,100
Infants under 3 hours of age	1,100
Infants under 1 hour of age	1,100
Infants under 30 minutes of age	1,100
Infants under 15 minutes of age	1,100
Infants under 5 minutes of age	1,100
Infants under 1 minute of age	1,100
Infants under 30 seconds of age	1,100
Infants under 15 seconds of age	1,100
Infants under 5 seconds of age	1,100
Infants under 1 second of age	1,100
Infants under 30 milliseconds of age	1,100
Infants under 15 milliseconds of age	1,100
Infants under 5 milliseconds of age	1,100
Infants under 1 millisecond of age	1,100
Infants under 300 microseconds of age	1,100
Infants under 150 microseconds of age	1,100
Infants under 50 microseconds of age	1,100
Infants under 10 microseconds of age	1,100
Infants under 1 microsecond of age	1,100
Infants under 300 nanoseconds of age	1,100
Infants under 150 nanoseconds of age	1,100
Infants under 50 nanoseconds of age	1,100
Infants under 10 nanoseconds of age	1,100
Infants under 1 nanosecond of age	1,100
Infants under 300 picoseconds of age	1,100
Infants under 150 picoseconds of age	1,100
Infants under 50 picoseconds of age	1,100
Infants under 10 picoseconds of age	1,100
Infants under 1 picosecond of age	1,100
Infants under 300 femtoseconds of age	1,100
Infants under 150 femtoseconds of age	1,100
Infants under 50 femtoseconds of age	1,100
Infants under 10 femtoseconds of age	1,100
Infants under 1 femtosecond of age	1,100
Infants under 300 attoseconds of age	1,100
Infants under 150 attoseconds of age	1,100
Infants under 50 attoseconds of age	1,100
Infants under 10 attoseconds of age	1,100
Infants under 1 attosecond of age	1,100
Infants under 300 zeptoseconds of age	1,100
Infants under 150 zeptoseconds of age	1,100
Infants under 50 zeptoseconds of age	1,100
Infants under 10 zeptoseconds of age	1,100
Infants under 1 zeptosecond of age	1,100
Infants under 300 yoctoseconds of age	1,100
Infants under 150 yoctoseconds of age	1,100
Infants under 50 yoctoseconds of age	1,100
Infants under 10 yoctoseconds of age	1,100
Infants under 1 yoctosecond of age	1,100

SANITARY CIRCUMSTANCES OF THE AREA.

WATER SUPPLIES.

Hooke Source.

As the Toller Whelme Bore-hole was found to yield only 2,250 g.p.h. as against 30,000 g.p.h. the quantity estimated for a Regional Scheme, the Consultant Engineers were asked to investigate the proposal to take water from the Hooke springs below the cressbeds and also to advise on the possibility of purchasing water from the springs before it passes through the cressbeds and to submit a Report and revised estimate of the cost of their 1944 scheme. In June, the Council considered the Report on the above and decided to negotiate a provisional agreement for the acquisition of the watercress beds. Following a meeting with the owner of the cressbeds, the Council instructed their Engineers to gauge the flow of water from the individual springs to which the owner had agreed. In December, the Council were informed that the Ministry were prepared to consider the scheme as soon as a provisional agreement had been reached for the acquisition of the source.

Corscombe and Halstock Scheme.

In January, the Ministry held a Local Enquiry concerning the Council's application for the issue of an Order regarding the above scheme. It is envisaged that the ultimate demand will be 53,000 gallons per day reached in 25 years time, the scheme being estimated to cost £31,578. In August, the Order known as the "Beaminster Water Order, 1950" was made. It was resolved to negotiate with the owners for the purchase of land and water rights, and in November, the Consultant Engineers stated that an order for pipes and castings had been placed.

Netherbury Scheme.

The extension of the main from the Beaminster supply at Parnham to Netherbury was completed in May, and in November, it was decided to investigate the possibility of extending the main to the White Cross Area.

Broadwindsor Scheme.

Investigations were carried out regarding the possibility of supplying Broadwindsor from a source at Burstock, but because of opposition from the owner of the proposed source, it was decided in October, that no further action be taken with regard to the Burstock source, but that a new source at Hanging Banks Coppice in the parish of Stoke Abbott be investigated.

Thorncombe Scheme.

It was decided to install a chlorinator in this supply.

Water Samples.

97 samples were taken for analyses, with the following results.

	Mains.	Springs.	Wells.	Bore-holes.	Streams.
Satisfactory.	13	22	10	3	10
Unsatisfactory.	-	3	17	-	10
Suspicious.	-	3	6	-	-

Sewerage.

No major change has taken place in the sewerage of the district during the year. On its passage through Beaminster, the river Brit is grossly polluted by the effluents from a Milk Factory, a Gas Works, a Process Engravers and Printers Works, and practically all the crude domestic sewage from the town. In 1949, the Council instructed their Consultant Engineers to prepare a scheme and Report on the sewerage and sewage disposal of Beaminster Town and the village of Netherbury. This Report was received in February 1950, and the Council, after long and careful consideration including consultation with the Dorset County Council, decided to ask the Consultant Engineers to reconsider the scheme so as to cover Beaminster Town only including an alternative site for the sewage disposal works. A Report on this second scheme was issued, but because of objections by the owner of land on which it was proposed to erect the works, the Council, in October, decided that further consideration be given to the use of a site below the village of Netherbury to which a gravity sewer could be laid.

Public Cleansing.

All household refuse and salvage is collected weekly from Beaminster parish. In the remaining parishes, indestructible household refuse only and salvage is collected monthly, the work being carried out with a 2/3 ton 28 H.P. lorry purchased by the Council during the year. Two men are employed in the collection. The refuse is tipped on the Council's dump a mile north of Beaminster Town. This dump is kept in a satisfactory condition.

Sanitary Inspections of the Area.

No. of Inspections.....	961.	(including all inspections).....	
No. of Informal Notices.....	57.	No. Complied with.....	51.
No. of Statutory Notices.....	15.	No. Complied with.....	3.

Allocation of Inspections.

Factories.....	5.	Food Shops.....	27.
Drains.....	138.	Housing.....	80.
Milk Shops.....	-	Infectious Disease.....	7.
Refuse and Salvage.....	27.	Petrol Storage.....	2.
Water Supplies.....	145.	Slaughter Houses & Knackers yards.....	8.
Building Bye-laws.....	463.	Nuisances - General.....	59.

Petroleum, Spirit and Carbide.

No. of Licences.....	29.		
No. of Inspections.....	2.	No. of Notices served.....	Nil.

Rodent Control.

The County Council act as agents for the District Council for the area over which the latter is responsible, but the Council have been informed by the Regional Pests' Officer that under the 1949 Act, the responsibility for Rodent Control rests solely on the Council, and that the work involves a survey of the whole district, and the appointment of a Pests' Officer.

Eradication of Vermin.

No action was necessary.

Smoke Abatement.

Complaints were received regarding the emission of grit from a factory chimney in Beaminster. The Council wrote to the Firm asking for their observations on the installation of a grit chamber.

Camping Sites.

Licences were granted for a few sites on which to keep a caravan on each site. There is no wide-spread camping in the district.

Schools.

The 18 schools in the area have been inspected regularly. 6 have their water supply from wells, 9 have piped supplies, and 3 have no water on the premises. As regards lavatory accommodation, 5 have water closets, and 13 bucket or vault closets. Tuberculin Tested milk is supplied to 16 schools, Pasteurised milk to 1, and Accredited milk to 1. Hooke school was permanently closed during the year.

INSPECTION AND SUPERVISION OF FOOD.

Meat Inspection.

All the slaughtering for West Dorset takes place at a Slaughter House in the Rural District of Bridport. A Veterinary Surgeon, appointed by the Bridport R.D.C., is responsible for the inspection of carcasses on every day that slaughtering takes place. No Report has been received concerning condemnations of meat at the Slaughter House during the year.

Milk Supply.

As a result of the Food and Drugs (Milk and Dairies) Act, 1944, which came into operation on the 1st October, 1949, the Local Authority are only responsible for registering persons carrying on the trade of milk distributors, and all premises used as Dairies not being Dairy Farms.

No. of persons registered as distributors of milk at end of 1950.... 1.
No. of premises registered as a Dairy not being a Dairy Farm..... 1.
No. of Dealer's licences granted to use the designation
"Tuberculin Tested" under the milk (S.D. Raw Milk) Regs. 1949.... 3.

78 samples were taken for analyses, with the following results:-

Results.	Pasteurised.	T.T.	Accredited	Non-Designated.	Total.
Passed.	-	28	7	34	69
Failed.	-	1	3	5	9

There are no Pasteurising Plants in the district. The Milk Factory in Beaminster Town manufactures dried milk powder, and despatches by tanker, liquid milk for sale by wholesale, and also supplies a small amount to retailers in the district.

Ice Cream.

No. of premises on the Register at the end of 1950 for the :-
(a) Manufacture of Ice Cream..... 1.
(b) Storage and sale of Ice Cream..... 13.
No. of Ice Cream premises inspected during 1950..... 6.
No. of Inspections of Ice Cream premises..... 6.
No. of Notices (I.C.H.T.R.) served..... Nil.

No samples were taken for analyses during the year.

Knackers Yard.

This is situated about 3 miles N.W. of Beaminster Town.

Condemnation of Food.

The following foodstuffs were condemned as being unfit for human consumption.

Various Foodstuffs.....	224 tins.	Cheese.....	7 lbs.
Oranges.....	48 lbs.	Flour.....	84 lbs.
Sweets.....	2 lbs.	Raisins.....	56 lbs.
Dried Egg.....	12 lbs.	Beef.....	188 lbs.

HOUSING.

Inspection of Dwelling Houses.

No. of Dwelling Houses inspected.....	51.
No. of Inspections.....	80.
No. unfit for human habitation.....	13.
No. not reasonably fit.....	10.

Action under Statutory Powers. Housing Act 1936. Secs. 9, 10, & 16.

No. of Houses in respect of which Formal Notices served.....	Nil.
No. of Houses rendered fit after Formal Notice.....	Nil.

Public Health Act, 1936.

No. of Notices served - Informal 9, Formal Nil, Total.....	9.
No. of Houses in which defects were remedied -	
(a) By Owners - Informal 7, Formal 2, Total.....	9.
(b) By Local Authority in default of Owner.....	Nil.

Housing Act, 1936. Secs. 11 & 12.

No. of Houses in respect of which Demolition Orders were made.....	Nil.
No. of Houses demolished in pursuance of Demolition Orders.....	Nil.
No. of Closing Orders.....	Nil.

Re-Housing.

No. of additional units of accommodation provided by conversions and adaptations.....	Nil.
No. of New Houses completed -	
(a) By Local Authority.....	45.
(b) By Other Bodies.....	11.
No. of families in New Houses.....	56. No. of persons (approx).....
No. of New Houses completed since the War -	200.
(a) By Local Authority.....	95.
(b) By Other Bodies.....	43.
No. of New Houses in course of construction at 31.12.50. -	
(a) By Local Authority.....	37.
(b) By Other Bodies.....	3.
No. of Houses owned by Local Authority.....	187.
Approximate No. of working class houses in the district.....	2270.

The 45 houses completed by the Local Authority during 1950 were sited in the following places - Peaminster 6, Broadwindsor 14, Burstock 4, Netherbury village 2, North Bowood 2, Salway Ash 3, West Milton 4, Stoke Abbott 2, Thorncombe 8.

29 houses are in course of construction in the following places - Stoke Abbott 2, Marshwood 8, Halstock 2, Melplash 4, Salway Ash 5, Masterton 6, Netherbury 2.

At the end of the year there were 181 applicants for housing accommodation in the district.

INFECTIOUS DISEASES.

There were 6 cases of Acute Poliomyelitis notified, all occurring during the months of September, October, and November, and the following parishes were involved; Beaminster, Halstock, Netherbury (Salway Ash), Powerstock, Broadwindsor (2 cases). A man, aged 50 years, died from the disease.

A case of Malaria was notified. This had been contracted abroad.

Measles, of which 121 cases were notified, was wide-spread over the whole district, as were also 33 cases of Whooping Cough.

3 cases of Food Poisoning were notified and these occurred in single members of three separate households, in three different parishes.

Close co-operation is maintained between the Head Teachers in schools, the School Nurse and the Medical Officer of Health regarding the control of Infectious Disease. The following cases were notified from the schools - Conjunctivitis 8, Measles 16, Scarlet Fever 3, Septic Sores 1, Jaundice 1, Chicken Pox 4, Mumps 9, Whooping Cough 6.

Diphtheria Immunisation.

This is the responsibility of the County Council. When not performed by the child's own Doctor, immunisation is given at the schools and Child Welfare Centres. The following table shows the number of children who have been immunised during the year.

Children under 5 years of age at 31.12.50.

Under 1 yr.	1 yr.	2 yrs.	3 yrs.	4 yrs.	Total.
-	71	18	8	1	98
