I

BEAMINSTER
RURAL DISTRICT COUNCIL

ANNUAL REPORT

OF THE

Medical Officer of Health

AND THE

Public Health Inspector

for the Year

1966

Tel. No. Bridport 2385/6.

Health Centre,
North Allington,
Bridport.

May, 1968.

To the Chairman and Members of the
Beaminster Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present to you my Annual Report for the year 1966, which is prepared in accordance with the Public Health Officers Regulations, 1959.

The Report is set out in the following order :-

	<u>Page.</u>
Public Health Committee, Staff.....	1.
Vital Statistics.....	2 - 6.
Prevalence of, and Control over Infectious & Other Diseases.	7 - 9.
Housing.....	10 -12.
Water Supplies.....	13 -17.
Drainage and Sewerage.....	17 -19.
Atmospheric Pollution.....	19.
Inspection and Supervision of Food.....	19 -23.
Petroleum Spirit.....	24.
Rodent Control.....	24.
Public Cleansing.....	24.
Camping Sites.....	24.
Schools.....	24.
National Assistance Act 1948. Section 47.....	25.
Allocation of visits by the Public Health Inspector.....	25 -26.
Factories Act. 1961.....	27 -28.
Clinics - details of where they are held.....	29.

The difficulties experienced in previous years in fulfilling the statutory public health duties placed upon the Council have been overcome with the re-allocation of the Public Health Inspector's duties. In 1965 a total of 489 visits were made but in 1966 this number was increased to 1,395 visits.

I must express my thanks to the members and officers of the Council for the co-operation, consideration and help I have received and in particular to the Chairman, Admiral Sir V. Crutchley. The staff learnt with regret that the Chairman was resigning after many years of valuable service. I am also grateful to Mr. Rundle, the Public Health Inspector, for his assistance in preparing this report.

Your obedient servant,

J. G. Meadows

Medical Officer of Health.

1	Public Health Committee, Staff
2 - 6	Vital Statistics
7 - 8	Prevalence of, and Control over Infectious & Other Diseases
10 - 12	Food
13 - 17	Water Supply
17 - 19	Drainage and Sewerage
19	Atmospheric Pollution
19 - 23	Inspection and Regulation of Work
24	Industrial Hygiene
24	Public Control
24	Public Cleansing
24	Refuse Disposal
25	Schools
25	Maternal Assistance Act 1946, Section IV
25 - 26	Allocation of visits by the Public Health Inspector

PREVALENCE, AND CONTROL OVER INFECTIOUS AND OTHER DISEASES.

The number of cases of Infectious Diseases notified during 1966 was less than in 1965 and this is mainly accounted for by the reduction in the number of children with measles.

There was a fairly widespread outbreak of mumps during the latter part of the year although the exact numbers are not known as this is not a notifiable disease. The two cases of encephalitis both occurred as a complication of mumps.

Infectious Diseases notified during 1965.

(b) By Local Authority in default of owner.....		Nil.

Slum Clearance and Demolition State.

The following shows the position at the end of the year of the result of action taken regarding the 105 houses which were assessed in 1955 as unfit. It will be seen that all these houses have been dealt with and that in addition a further 67 houses have become unfit since 1955 and have been dealt with also.

Houses demolished following Demolition Orders or voluntarily by owners in anticipation of Demolition Orders.....	49.
Houses demolished following Clearance Areas or Clearance Orders.....	17.
Demolition Orders operative but houses not yet demolished (8 still occupied).....	8.
Houses made fit and Demolition Order revoked.....	6.
Houses closed following Closing Orders.....	13.
Closing Orders determined after houses having been made fit.....	3.
Houses closed following formal undertaking by owners.....	12.
Houses closed following informal undertakings by owners.....	7.
Closing Orders made or undertakings given but houses not yet vacated.	2.
Houses made fit following formal undertakings by owners.....	10.
Houses made fit informally (29 houses converted into 23).....	29.

Outstanding informal undertakings to make fit.....	Nil.
Outstanding formal undertakings to make fit.....	2.
Action postponed.....	7.
No action required.....	13.
Under consideration.....	Nil.

Housing (Financial Provisions) Act. 1958 and the house Purchase and Housing Act. 1959 (Improvement Grants).

Details of both Discretionary and Standard grant applications received during the year are as follows :-

	<u>Discretionary</u> <u>Grants.</u>	<u>Standard</u> <u>Grants.</u>
No. of applications received.	10	33
No. of dwellings.	13	33
No. of applications approved.	8	26
No. of dwellings.	10	26
Value of grants approved.	£3,645.	£4,799

Housing for Elderly People.

The Council have built a further 5 bungalows for old people during the year making a total of 69 bungalows and 22 flats for elderly people in various villages, as shown in the following table :-

Fleet St., Beaminstor.... 6.	Denziloe, Netherbury.... 10	South Perrott.. 6.
Hogshill Mead "7.	North Bowood..... 2.	Mosterton..... 2.
Pilsdon Close "8.	Halstock..... 7.	Corscombe..... 3.
Gerrards Green "24.	Fullers, Broadwindsor...16.	

This makes a total of 91 flats and bungalows already occupied and plans are being prepared for the construction of 8 additional units of accommodation at Broadwindsor. However, no thought has been given recently to the advantages of the County Council scheme for financial assistance to district Councils providing a warden service. There is no doubt that the help of a warden for old people living in purpose built accommodation allows them to enjoy the independence of their own homes and avoid the possible necessity of their admission to an institution.

WATER SUPPLIES.West Dorset Water Board.

The Water Board have now completed the first six phases of their Regional Scheme in the following table. The village of Chideock is now on the Water Board's mains and in addition a large number of new supplies have been made in the Morcombelake and Ryall area and early in 1967 it is hoped to start laying on domestic supplies in Drimpton and Broadwindsor.

Re-Grouping of Water Undertakings.

The Order for re-grouping of the water undertakings for West and Mid Dorset was revoked by a select committee of the House of Commons in 1965 and discussions have taken place with a view to a wider amalgamation. These discussions have resulted in the draft Poole and Dorset Water Order on which a Public Enquiry will be held on 25th. January, 1967.

West Dorset Water Board Phasing of Regional Scheme.

Phase.		Proposed and completed date.
2.	Main from Reservoir No. 16 to Stoke Abbott. Construction of Reservoir No. 12 Bunkers Hill. Main from Reservoir No. 12 to Uploders. Construction of Reservoir No. 19 South Perrott. Mains to Reservoir No. 19 and to Chedington, Mosterton and South Perrott. Main from Bradpole to Loders. Main from Reservoir No. 6 to Broadoak. Mains from Bridport to Symondsburry. Main from Shipton Gorge to Burton Bradstock. Main from Hooke pumping station to Reservoir No. 25 and Hooke village. Construction of Reservoir No. 25. Provision of pumping equipment at Hooke pumping station.	1962 to 1964
3.	Trunk main from Litton Cheney to R.6 and site works at Litton Cheney.	Dec. 1963 - Dec. 1965.
4.	Development of Litton Cheney source with pumps and treatment.	Mar. 1964 - Dec. 1964
5.	Mains from R. 16 to R. 3 (Hardown Hill) Construction of R.3. Main from R.3 to Whitchurch Canonorum. Booster No. 3 at Whitchurch Canonorum. Construction of R.4 and R.8 (Morcombelake) Mains to Whitchurch Canonorum, Morcombelake, and Ryall. Main from R.3 to Chideock and Seatown. Main from Whitchurch Canonorum to Charmouth and Catherston Leweston. Construction of R.2 (Charmouth).	Mar. 1964 to Mar. 1966

West Dorset Water Board Phasing of Regional Scheme continued.

Phase.		Proposed Date.
6.	Mains from Broadwindsor to :- Burstock, Seaborough, Drimpton, Birdsmoor Gate, Marshwood, Thorncombe and Holditch. Construction of R. 13 (Thorncombe). Construction of R. 15 (North of Burstock) Mains to Walditch.	Mar. 1965 to Mar. 1968
7.	Main from Broadoak to Bettiscombe and Piladon. Construction of R. 5 Bettiscombe. Main from R. 7 via Melplash to Mangerton. Main from R. 25 to R. 26 and Powerstock. West Milton and Mangerton. Construction of R. 26 (Powerstock)	Mar. 1967 to Mar. 1969
8.	Mains from R. 18 to Chelborough and Evershot. Mains from R. 18 to Rampisham and Wraxall. Mains from R. 18 to Melbury. Construction of R. 22 (Rampisham). Construction of R. 23 (Evershot) and R. 24 (East Chelborough).	Mar. 1969 to Mar. 1970.
9.	Mains from Whitchurch Canonieorum to High Level District of Charmouth. Construction of R. 1 (Charmouth). Mains and Boosters for Monkton Wylde and Fishponds. Main from Broadoak to Moorbath. Main from Sansons Cross to Whitchurch Canonieorum.	Mar. 1970 to Mar. 1971

Village Water Supplies.

The following table shows which villages in the Beaminster Rural District are still on a private supply and those which are supplied by the West Dorset Water Board.

Parish.	West Dorset Water Board Supply or Private Supply.	Remarks.
Beaminster.	W.D.W.B.	-
Bettiscombe.	Private.	-
Broadwindsor.	Partly W.D.W.B. Partly Private.	Scheme now in progress to take W.D.W.B.'s supply to remainder of parish.
Burstock.	Private.	Scheme now in progress to take W.D.W.B.'s supply to this parish.
Chedington.	W.D.W.B.	-
East Chelborough.	W.D.W.B.	-
West Chelborough.	Private.	-
Corscombe.	W.D.W.B.	-
Evershot.	Private.	-
Halstock.	W.D.W.B.	-
Hooke.	W.D.W.B.	-
Mapperton.	Private.	-
Marshwood.	Private.	Scheme now in progress to take W.D.W.B.'s supply to this parish.
Melbury Osmond.	Private.	-
Melbury Sampford.	Private.	-
Mosterton.	W.D.W.B.	-
Netherbury.	W.D.W.B.	-
South Perrott.	W.D.W.B.	-
Pilsdon.	Private.	-
North Poorton.	Private.	-
Powerstock.	Private.	-
Rampisham.	Private.	-
Seaborough.	Private.	Scheme now in progress to take W.D.W.B.'s supply to this parish.
Stoke Abbott.	W.D.W.B.	-
Thorncombe.	Partly W.D.W.B. (old supply) Partly Private.	Scheme now in progress to take W.D.W.B.'s supply to this parish.
Wraxall.	Private.	-

Fluoridation of Water Undertakings.

In 1965 a circular from the Ministry of Health expressed the Minister's hope that Local Authorities would take steps to add fluoride to public water supplies where these are naturally deficient. At the end of 1966 the number of Local Authorities who had come to a decision about fluoridation was as follows :-

	For.	Against.	No Decision.
County Councils.	34	17	8
County Borough Councils.	38	36	8
London Boroughs.	26	6	1
Delegated Councils.	14	12	3
Totals.	112	71	20

The Rural District Council were advised to support the County Council if they decided to undertake fluoridation but both Councils expressed themselves as opposed to this preventative measure.

Some doubt has been expressed as to the practicability of fluoridation in West Dorset. It is not easy to add chemicals to water when the flow is small and subject to fluctuation, there is no doubt that the use of a dry feeder would be impracticable, mainly because an increase in staff would be necessary for maintaining the equipment. However the use of fluoride in solution with automatic equipment has already been demonstrated in rural areas to be practical and economic.

Water Samples.

The following table shows the results of bacteriological analyses carried out by the Public Health Laboratory, Dorchester, during the year from various supplies taken by the Local Authority, and the West Dorset Water Board.

Supplies.	Total.	Satisfactory.	Suspect.	Unsatisfactory.
<u>Board's Mains.</u>				
Beaminster.	26	24	0	2
Corscombe and Halstock.	26	25	0	1
Thorncombe.	27	25	0	2
Hooke supply.	39	35	1	3
Miscellaneous samples taken from points on new mains and reservoirs.	0	0	0	0
<u>Private Supplies.</u>	21	11	2	8
Total.	139	120	3	16

Unsatisfactory Samples.

Five of the unsatisfactory samples and the two "suspect" samples were taken from three farm supplies. The occupiers of these farms were advised to boil the water and in one case the mains water was laid on. In another case the owner is proposing to lay on the mains supply, although this is quite a considerable distance away, and in the last case in consultation with the Divisional Milk Officer, the owner is carrying out works of improvement to the supply.

The remaining three unsatisfactory samples were from houses where the mains supply is close by, but the houses had not yet been connected to it. On the instructions of the Public Health Planning and Licensing Committee, the owners were advised to lay on the mains water by a specified date.

The samples from the Hooke source are taken before the water is made safe by chlorination.

I am grateful to Mr. R. Chapman, Engineer and Manager to the West Dorset Water Board, for his co-operation and his advice on this section of the report.

DRAINAGE AND SEWERAGE.

Joint Sewerage Scheme.

The outfall sewer to be constructed at West Bay has been, among other considerations, designed to avoid beach pollution. In order to achieve this it is necessary to locate the discharge point of the 26 in. diameter steel pipe 4500 ft. from the low water mark.

Work is scheduled to start on this scheme on the 5th. January, 1967 and it is hoped that the first stage will be completed by the end of May.

The outfall pipe which is made of steel will be protected by a concrete coating and also a lining of epoxy resin which will prevent corrosion and abrasion.

The pipe sections will be transported along the railway embankment to a position approximately 2300 ft. from the sea end of the station platform at West Bay. These sections will then be welded together into two main lengths, each length being 2300 ft. long, and laid on rubber tyred conveyors ready for pulling out to sea.

A temporary coffer-dam will be constructed in the surf area to enable the pipe to be launched to the sea bed. The launching route from the railway siding to the end of the coffer-dam will be excavated and rubber tyred rollers placed in position. Two areas of rock on the sea bed will need to be blasted out to enable the pipe to be laid in a trench.

At this stage a barge with a winch will be moored offshore and pulling wires laid from the barge to the first length of pipe on the rail embankment. Then the pipe will be pulled out to sea and trenched into the sea bed using a marine plough. The second length will be welded to the first and the completed pipe pulled to the required position.

Once the submarine outfall has been completed Bridport Borough, villages from Bridport R.D. and Beaminster R.D. and the town of Beaminster will be linked to the scheme in progressive stages.

The outfall of course cannot be used until the pumping station at West Bay is in operation and it is hoped that tenders for this will be approved early in the new year. It is anticipated that tenders for the pressure pipe line from Beaminster will be received in March 1967 and the main work on this scheme will be completed early in 1968.

Beaminster.

The network of main sewers for the new scheme was completed in July and the work of connecting existing individual drains from the town finished in the Autumn. Effluent is at present being discharged into the River Brit by gravity through the eventual storm water pumping main which has been extended for this temporary use 100 yards down stream from Southgate. It is expected that the storm water pump will be installed by March 1967, and until the submarine outfall and pressure pipeline is in operation a pumped discharge of effluent into the River Brit will take the place of the existing gravity discharge.

Broadwindsor.

The sewerage scheme for Broadwindsor and Hursey was completed at the end of July. With one exception all properties with water borne drainage have been connected to the sewer and the two samples of effluent tested since the Treatment Works was put into operation have both been well within the River Authority's required standard.

South Perrott, Mosterton and Chedington.

This scheme was submitted to the Ministry of Housing and Local Government and a local investigation will be held early in 1967; however no definite date has been set for the completion of this work.

Netherbury.

The Council's Consulting Engineers commenced the preparation of a sewerage scheme to serve the village of Netherbury, but this cannot be completed before the joint sewerage scheme comes into operation.

Stoke Abbott and Drimpton.

Work on the design of these schemes was suspended during the year due to shortage of staff in the Engineer and Surveyor's department.

Programme for other sewerage schemes.

West Milton) Summer 1969.
Melplash.)

Evershot.) Summer 1970.
Melbury Osmond.)

These dates will probably have to be revised.

ATMOSPHERIC POLLUTION.

During the year no nuisances were reported regarding smoke or grit emissions.

INSPECTION AND SUPERVISION OF FOOD.

(1) Food Premises by type.

There are 99 food premises in the district, as follows :-

General shops.....	6.
General and ice cream.....	29.
Bakehouses.....	3.
Cafes and ice cream.....	2.
Licenced premises.....	28.
Licenced premises and ice cream.....	14.
Butchers shops.....	4.
Fish and chips, fruit etc.....	1.
Dried milk factory.....	1.
Butchers shop, greengrocery and fruit etc.....	1.
General, ice cream, and T.T. bottled milk.....	1.
Bakehouse, bakery shops and ice cream.....	1.
Bakehouses, general shops and ice cream.....	1.
Slaughterhouse.....	1.
Fresh fruit, greengrocery and fish.....	1.
Factory canteen.....	1.
Butchers shops and ice cream.....	1.
Poultry processing.....	2.
Cheese making.....	1.

(2) Food Premises registered under Section 16 of Food and Drugs Act. 1955.

A total of 57 as follows :-

Ice cream.....	49.
Preparation or manufacture of sausages, or potted pressed, pickled, or preserved food intended for sale.....	6.
Cooked fish.....	1.
Manufacture of meat pies.....	1.

442 inspections of food premises were made, of which 167 were of the registered premises set out in group (2) above. The premises are considered to comply reasonably with the Food Hygiene (General) Regulations, 1960.

Byelaws under Section 15 of the Food and Drugs Act. 1955.

Handling, Wrapping and Delivery of Food and Sale of Food in the open Air.

No notices were served under the above Byelaws for infringement.

Poultry Inspection.

During the year a letter from the Ministry of Health drew attention to the need for frequent and regular visits to be made to all poultry processing establishments to ensure that the requirements of the Food and Drugs Act 1955, the Food Hygiene (General) Regulations 1960 and the recommendations of the Code of Practice on Poultry Dressing and Packing were being observed, and that all carcasses and viscera intended for human consumption were in a fit condition.

There are now two poultry processing premises in the district and both are under the same management; killing and plucking of the birds is carried on at one of these premises, and some eviscerating is done at the other.

About 400,000 birds mostly hens but also some turkeys and geese at Christmas time, were killed at these premises during the year. Visits of inspection, however, were only commenced at the latter part of October. 13 visits were made and 174 hens (0.29 of the total) were condemned.

Condemnation of Food.

Apart from meat condemned at the slaughterhouse, the following foodstuffs were condemned.

3 tins of foodstuffs.
17 lbs. of cooked ham.
174 hens (approximately 433 lbs)

Food Hygiene (Markets, Stalls and Delivery Vehicles) Regulations, 1966.

The Regulations apply to covered and uncovered markets, delivery vehicles, mobile shops, stalls and trading in the open generally. They strengthen the present food hygiene requirements for these forms of trading and revoke or supersede the corresponding requirements in the Food Hygiene (General) Regulations 1960. The Regulations come into operation on 1st. January, 1967 and the Food Hygiene (General) Regulations 1960 will not apply after that date to food businesses subject to the provisions of the new Regulations.

Milk Supply.

Since 1961, the responsibility for the issue of licences for the use of special designation in connection with milk was transferred from the Council to the Dorset County Council under the Milk (Special Designations) 1960. The County Council however, have continued to inform this Council where milk samples have failed to pass the prescribed test, and during the year notified that of 56 samples taken, 50 passed the prescribed test and 6 failed. 5 Dealers' licences to sell pre-packed milk, and 1 to sell untreated milk were issued.

Brucellosis.

Milk samples are also tested for brucellosis and as a result of this four herds in the district were found to be infected. In three of these cases no formal action was necessary as the milk was being pasteurised before it was sold to the general public. In one case the farmer concerned had a retail milk round and sold unpasteurised milk but as soon as the brucellosis infection was discovered amongst his cows he agreed to give up this round and again no formal action was necessary.

Ice Cream.

No. of premises on the register for the :-

- | | |
|--|------|
| (a) Manufacture of ice cream..... | Nil. |
| (b) Storage and sale of ice cream..... | 49. |

No. of ice cream premises inspected..... 49.

No. of inspections..... 142.

No. of notices served (Ice Cream Heat Treatment Regulations)..... Nil.

39 samples of ice cream were taken during the year, that is, from all premises where ice cream was actually sold, the results of the samples were :- Grade 1, 37 and Grade 2, 2.

All ice cream retailed is pre-packed.

Offices, Shops and Railway Premises Act, 1963.

There are 45 registered premises in the Rural District and the Public Health Inspector has made 67 inspections.

The standards are generally reasonable and no prosecutions have resulted from inspections.

Registrations and General Inspections.

Class of premises.	No. of premises registered during the year.	Total No. of registered premises at end of year.	No. of registered premises receiving a general inspection during the year.
Offices.	1	17	18
Retail shops.	0	25	25
Wholesale shops, warehouses.	0	0	0
Catering establishments open to the public, canteens.	0	2	2
Fuel storage depots.	0	1	1
Totals.	1	45	46

Number of visits of all kinds by inspectors to registered premises 67.

Meat Inspection.

There is only one licenced slaughterhouse in the district. This is sited at Broadwindsor and is privately owned. Inspection of meat at this slaughterhouse which involves Sunday inspections, was from 1/11/63 - 31/1/66 carried out by a local Veterinary Surgeon but on 1/2/66 the Public Health Inspector resumed responsibility for this work as a result of the reallocation of his duties.

147 visits were made to the slaughterhouse by the Veterinary Surgeon and the Public Health Inspector.

The slaughterhouse is a new one and was first licenced on 1/7/62, the date when the construction Regulations of the Slaughterhouse (hygiene) Regulations, 1958, and the Slaughter of Animals (Prevention of Cruelty) Regulations, 1958, came into operation in this district.

Carcases and Offal inspected and condemned in whole or in part.					
	Cattle including cows.	Calves.	Sheep & Lambs.	Pigs.	Horses.
Number killed.	78	16	395	771	-

Carcases of which some part or organ was condemned.	-	-	-	-	-

Knackers Yard.

There is one licenced Knacker's Yard which is sited about three miles north of Beaminster town. 5 visits were paid to this. The premises comply reasonably with the Regulations.

All meat at Knackers Yards must be sterilised or stained green.

PETROLEUM SPIRIT.

Petroleum (Consolidation) Act. 1928.

Petroleum (Regulation) Act. 1928 and 1936.

No of licences..... 43. No. of inspections..... 115.
No. of notices served..... 16. No. complied with..... 15.

RODENT CONTROL AND ERADICATION OF VERMIN.

The North Dorset control scheme of which this Council is a member is functioning satisfactorily in the district.

Disinfestation.

No action was taken during the year.

PUBLIC CLEANSING.

There is a fortnightly collection of all household refuse for the whole of the district except Beaminster parish which has a weekly collection.

Revisions to the vehicle routing were made in April to accommodate householders in the areas taken over by the Council as a result of the boundary review. The number of bins collected has continued to rise over the year due to the construction of new properties and the trend towards bulkier refuse resulting from modern packing methods. This increases the strain of the existing organisation of the service.

The refuse is tipped on the Council's dump a mile north of Beaminster town.

Litter bins provided by the Dorset County Council, who also contribute towards the cost of collection at official laybys on trunk and classified roads, are emptied fortnightly in the course of the rural collection rounds.

CAMPING SITES.

There is no widespread camping in the district. Licences were granted for a few single sites on which to keep a caravan.

SCHOOLS.

The 14 schools in the area have been inspected regularly; 8 have water supplies from public mains, 2 from private estate supplies, 3 from wells and 1 school obtains water from a spring which is rammed to a storage tank. 53 samples were taken for analyses by the County Council staff, 48 were satisfactory and 5 unsatisfactory. 12 schools have water closets and 2 pail closets. All the schools, except four, are supplied with pasteurised milk.

12 samples were also taken from the water of the swimming pools in two schools. Only 1 sample failed to meet the required standard.

NATIONAL ASSISTANCE ACT. 1948. Section 47.

This Act makes provision for compulsory removal of persons in need of care and attention from their own home to hospital or other suitable accommodation. Such persons have to be suffering from grave chronic illness or, being aged, infirm or physically incapacitated, are living in insanitary conditions and are unable to devote to themselves, or receive from others proper care and attention.

Several old persons living in the district were brought to my attention and therefore visited but statutory action was not found to be necessary.
