BEDFORD
RURAL DISTRICT COUNCIL

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

AND OF THE

SANITARY INSPECTOR & SURVEYOR

FOR THE YEAR

1946

To the Chairman and Members of the Bedford Rural District Council.

MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have the honour to submit my annual report upon the health, vital statistics and sanitary conditions of the Bedford Rural District for the year 1946.

Compared with that of the previous year the death rate showed a slight decrease, whilst there was a slight increase in the birth and infantile mortality rates. Infectious Diseases were of low incidence, and health, in so far as it can be measured by these rates, has been satisfactory.

The special survey ordered by the Ministry of Health to be made of working-class houses in the district has been continued, but is not yet complete.

I would like to accord my appreciation and thanks to my predecessor, Dr. W. K. Parbury, for his willing advice and the valuable information I have gained from him.

Also in conclusion I would like to take this opportunity of expressing my thanks to your Clerk, Mr. C. B. Townsend, your Surveyor and Sanitary Inspector, Mr. D. T. Matthews, and to other members of the staff for their ready help and co-operation in the carrying out of my work.

I have the honour to be,

Your obedient Servant,

H. E. C. SUTTON,
Medical Officer of Health.

October, 1947.

BEDFORD RURAL DISTRICT COUNCIL

ANNUAL REPORT

OF THE
 MEDICAL OFFICER OF HEALTH
 FOR 1946

SECTION A.

STATISTICS OF THE AREA.

Area in acres	112,590
Population—								
Census for 1931	22,204
Estimated for mid-year of 1946	25,660
Number of inhabited houses for 1946	8,120
Rateable value	£142,335
Sum represented by a Penny Rate	£550

SOCIAL CONDITIONS OF THE AREA.

Agriculture and Market Gardening are the chief occupations. Industries consist of brick making at Stewartby, Marston, Ridgmont and Kempston Hardwick; leather dressing at Harrold and Odell and flour milling along the River Ouse. Boot factories at Rushden give employment to a number of people living in Wymington and Podington.

During the year work commenced on the Aeronautical National Establishment, which is to cover an area extending from Clapham to Little Staughton. It is estimated that this establishment will have a personnel of 5,000, 50—60 per cent of whom will be housed in the district.

EXTRACTS FROM VITAL STATISTICS OF THE YEAR.

Live Births	{	Legitimate ...	<i>Total</i> 421	<i>M.</i> 205	<i>F.</i> 216	} Birth Rate 18·3 per 1,000 of the resident population
		Illegitimate ...	48	29	19	
		Total	<u>469</u>	<u>234</u>	<u>235</u>	
Still Births	{	Legitimate ...	10	6	4	} Birth Rate 24·9 per 1,000 births (live and still)
		Illegitimate ...	2	2	-	
		Total	<u>12</u>	<u>8</u>	<u>4</u>	
Deaths ...			<i>Total</i> 304	<i>M.</i> 164	<i>F.</i> 140	

giving a Death Rate of 11·5 per 1,000 of the resident population.

Birth Rate for England and Wales is 19·1

Death Rate for England and Wales is 11·5

DEATHS FROM PUERPERAL CAUSES.

SECTION B.
GENERAL PROVISION OF HEALTH SERVICES
FOR THE AREA.

(i) PUBLIC HEALTH OFFICERS TO THE LOCAL AUTHORITY.

- H. E. C. Sutton, M.B., Ch.B., D.P.H., Medical Officer of Health (part-time to your authority, but whole-time to the work of M.O.H.).
 D. T. Matthews, Cert. S.I.E.J.B., M.R.San.I., M.S.I.A., Sanitary Inspector, Surveyor and Water Engineer.
 R. J. Crewdson, Cert. S.I.E.J.B., Additional Sanitary Inspector and Assistant Surveyor.
 R. J. Minns, Assistant Water Engineer.
 R. H. Goodship, Housing and Building Inspector.
 C. G. Carlton, General Clerical Assistant.
 C. Kay, General Clerical Assistant.

(a) LABORATORY FACILITIES.

(ii) There are arrangements with the Bedford County Hospital for the pathological and bacteriological examination of any specimens required.

The following were examined:—

For Diphtheria	5
----------------	-----	-----	-----	-----	-----	-----	---

(b) AMBULANCE FACILITIES.

For Infectious Diseases. An Ambulance is kept at the Oakley Isolation Hospital.

For Non-Infectious Cases and Accidents.

As a part of the County Public Health Service, the Bedfordshire County Council has, in anticipation of its duties under the National Health Service Act, 1946, inaugurated a County Ambulance Service, which is free of charge, covers the full twenty-four hours, and operates from the following depots:—

NEWNHAM AVENUE, BEDFORD. *Telephone:* Bedford 4875.

CLARIDGES LANE, AMPHILL. *Telephone:* Ampthill 2187.

THE LAWNS, THE BAULK, BIGGLESWADE. *Telephone:* Biggleswade 2295

AMBULANCE DEPOT, HIGH STREET NORTH, DUNSTABLE. *Telephone:* Dunstable 76.

In addition to this Service there are arrangements for border parishes with voluntary bodies which have depots at:—

ST. JOHN AMBULANCE BRIGADE H.Q., 10 NEW STREET, LINSLADE.
Telephone: Leighton Buzzard 3332.

“HORSE GROVE”, WOBURN SANDS, BLETCHLEY, BUCKS. *Telephone:* Woburn Sands 3107.

This new Service promises to be highly satisfactory, both in the case of the transport of emergency and of ordinary hospital cases.

(c) PROFESSIONAL NURSING IN THE HOME.

The Bedfordshire County Nursing Association supplies 15 Nurses to 38 villages in the District. These nurses attend to Midwifery and Maternity cases and also to minor Medical and Surgical cases. They are not allowed to nurse any disease of an infectious nature.

Supervision is carried out by the Superintendent of the County Nursing Association.

The salary of these nurses is made up by a grant from the Beds. County Council, together with voluntary contributions and small fees which are charged to non-members.

The distribution is as follows:—

Sharnbrook, Souldrop and Knotting	Nurse Martin*†
Podington, Wymington and Hinwick	Nurse Paradise*†
Felmersham, Pavenham and Radwell	Nurse Bamford†‡
Stevington and Bromham	Nurse Cox
Milton Ernest, Bletsoe and Thurleigh	Nurse Cooper*†
Melchbourne, Yelden, Dean, Swineshead, Shelton and Riseley	Nurse Baines†‡
Wootton	Nurse Wardlaw*†
Kempston Rural... ..	Nurse Minards†‡ and Nurse Clark†‡
Harrold, Carlton, Chellington and Odell	Nurse Owen*†
Eaton Socon and Little Barford	Nurse Moore*†
Keysoe, Bolnhurst, Little Staughton, Pertenhall and Colmworth	Nurse Wyndham*†
Cardington and Cople	Nurse Miller *†
Clapham and Oakley	Nurse Wilson†‡
Stewartby	Nurse Gandy*†

* S.R.N. † Registered Assistant Nurse. ‡ S.C.M.

Infectious Diseases. There is no provision made for the treatment of infectious diseases in the patient's own home. An Isolation Hospital for the treatment of these diseases is provided free of charge.

MIDWIVES.

The employment and registration of Midwives is undertaken by the County Council.

The number of Midwives practising in your area is 18, inclusive of 15 employed by the Bedfordshire County Nursing Association.

(d) CLINIC AND TREATMENT CENTRES.

These are provided by the County Council.

Infant Welfare Clinics:—

Kempston Methodist Schoolroom (Foster Road)	Friday, 10 a.m. and 2 p.m.
Clapham British Legion Hall ...	Monday, 10 a.m.
Eaton Socon Institute ...	Alternate Thursdays, 2 p.m.
Harrold, The Chapel ...	Alternate Tuesdays, 2 p.m.
Sharnbrook Church Hall ...	Alternate Thursdays, 2 p.m.
Stewartby Church Hut ...	Alternate Mondays, 2 p.m.
Bromham, The School ...	Alternate Mondays, 2 p.m.
Turvey, The Old Schoolroom ...	Monthly, Wednesday, 2 p.m.
Wootton Methodist School ...	Alternate Thursdays, 10 a.m.

Veneral Disease Clinic:—

	<i>Men</i>	<i>Women</i>
Bedford County Hospital ... (Amphill Road Entrance)	Monday to Friday (inclusive) 4—8 p.m.	Monday, Tuesday, 5.30 p.m. Wednesday, 5—7 p.m. Thursday 5.30 p.m. Friday, 3—5 p.m.

Medical Officer in attendance: Wednesday 5—7 p.m., Friday, 3—5 p.m.

Tuberculosis Clinic:—

Dents Road, off Ivy Road, Bedford:

Monday (Women and Children), 2—4 p.m.; Thursday (Men), 2—4 p.m.

Consultant Physician in attendance: Alternate Wednesdays, 2—5 p.m.

(e) HOSPITALS.

<i>Hospital.</i>	<i>Situation.</i>	<i>Purpose.</i>	<i>No. of Beds.</i>	<i>Management.</i>

I wish to express my thanks to Mr. Arnold Whitchurch of Great Barford, and to Mr. R. Kilby of Wellingborough for supplying me with the information about the rainfalls of these districts.

SECTION C.

1 (i) WATER SUPPLY.

There is a piped mains supply to every parish within the district, available everywhere, with the exception of certain outlying farms.

The Council is not responsible for any source of supply, but purchases water in bulk from neighbouring undertakings, viz.:—Bedford Corporation, Biggleswade Water Board, Ampthill R.D.C., St. Neots U.D.C., Rushden and Higham Ferrers Water Board and Kempston U.D.C.

The supply throughout the area has been satisfactory both in quantity and quality during the year.

I append reports received on the three chief supplies to the district:—

BEDFORD BOROUGH SUPPLY.

Report from the Medical Officer of Health.—A routine bacteriological examination and chemical analysis indicates a hard water of good organic and bacterial purity, suitable for all dietetic purposes.

For a period during the summer the water as delivered showed a very dark colour, and complaints of taste were received. The matter was investigated and found to be due to the presence of manganese compounds resulting from the treatment of the water with potassium permanganate to check algal growths. Steps were taken to avoid a repetition of this trouble.

BIGGLESWADE SUPPLY.

Apart from one sample found to be of slight bacterial impurity, including coliform organisms, not however of faecal type, and present only in very small number, results of routine bacteriological examination and chemical analysis showed a water which was clear and bright in appearance, neutral in reaction and free from metals, apart from a negligible trace of iron. It is hard in character, but not unduly so, contains no excess of salinity or mineral constituents in solution, and is of the highest standard of organic and bacterial purity. These results are consistent with a pure and wholesome water, suitable for public purposes.

BIRCHMOOR SUPPLY.

Routine bacteriological examination and chemical analysis showed a water which is practically clear and bright in appearance, and free from metals, apart from a very minute trace of iron. It is faintly acid in reaction, has a low content of alkalinity and a corrosive tendency towards metals would be anticipated. It is soft in character, contains no excess of

salinity or mineral constituents in solution, and is of the highest standard of organic and bacterial purity. Apart from corrosive characteristics, these results are consistent with a pure and wholesome water, suitable for purposes of a public supply.

Details of regular routine bacteriological and chemical examinations made of the other supplies will appear in the annual reports of the supplying authorities.

Routine bacteriological examinations have been obtained by this Council of water samples from various domestic taps in the district. The following report on a sample taken from a kitchen tap at Wyboston, Eaton Socon, being a typical result:—

“This sample is clear and bright in appearance and conforms to the high standard of bacterial purity.

This result is indicative of a wholesome water suitable for drinking and domestic purposes.”

As the parish of Wootton receives water from Birchmoor, which is liable to have a plumbo-solvent action, the use of lead service pipes and fittings is prohibited under the Council's Water Byelaws in this parish.

SANITARY INSPECTOR'S ANNUAL REPORT

(Mr. D. T. Matthews).

SECTION C (contd.).

1. (i) WATER SUPPLY.

The main water scheme comprises two pumping stations, two water towers and 190 miles of water main. Supplies have been ample during the year.

Details of the main water supplies are as follows:—

<i>PARISH</i>	<i>Population estimated for 1946</i>	<i>Length of Mains Miles</i>	<i>Mains Yards</i>	<i>Premises supplied</i>	<i>No. of Services</i>	<i>No. of Standposts</i>

(ii) DRAINAGE AND SEWERAGE.

In the Rural District 7,436 yards of open sewers were thoroughly cleansed and repaired in various Parishes.

2. RIVERS AND STREAMS.

During the year, no complaints were notified of the pollution of watercourses.

3. (i) CLOSET ACCOMMODATION.

A water carriage system is in operation in the Parishes of Clapham, Wymington and Stewartby, and in parts of the Parishes of Eaton Socon, Eastcotts, Stevington and Sharnbrook. The rest of the district has Water Closets (to cesspools) and Earth Closets.

(ii) PUBLIC CLEANSING.

During the year the following materials have been salvaged by your Contractors and by voluntary organisations.

	<i>Contractors</i>	
	<i>tons</i>	<i>cwts.</i>
Paper	18	7
Black Scrap	3	14
Textiles	1	3

DISINFECTION.

After all cases of notifiable infectious disease the rooms occupied by the patient are sealed off and disinfected with a dilute spray of formalin or by formaldehyde gas. 30 rooms were so treated in 1946. An inspection of the house and sanitary arrangements is made in each case, and where necessary, informal notices are served requiring any defects found to be remedied. The amount of bedding, clothing and other articles likely to retain infection, removed to the Isolation Hospital for steam disinfection, was:—

Camp Beds	1	Eiderdowns	13
Towels	8	Pillows	24
Mattresses	24	Pillow Cases... ..	10
Sheets	20	Blankets	71
		Miscellaneous	227

PETROL AND CARBIDE LICENCES.

Number of Licences to store petrol and carbide granted during the year	75
--	----

(iv) SHOPS AND OFFICES.

During the year 15 inspections were made under the Shops Act, 1934, and in every case the provisions of the Act were complied with. With regard to Circular 1600, dealing with offices, no action has been found to be necessary.

(v) CAMPING SITES.

1. Number of sites used for camping purposes	5
2. Number of sites licensed by Local Authority	5
3. Estimated maximum number of campers resident during the summer season	28

(vi) SMOKE ABATEMENT.

No action was found necessary during the year.

(vii) SWIMMING BATHS AND POOLS.

(a) There are no public baths in the area.

(b) In Stewartby there is a privately owned swimming bath.

The River Ouse runs through the district and bathing takes place along the banks in many Parishes.

(viii) ERADICATION OF BED BUGS.

1. No. of Council Houses infested	0
No. of other houses infested	9
No. of houses disinfested	9

2. Methods employed:

Skirting, picture rails, etc., loosened and sprayed with Zaldecide or rooms sealed and fumigated with Thermatox Fumigators. The above operations are repeated after several days.

3. Careful inspection of belongings of prospective tenants is made prior to occupation of new house.

4. Disinfestation carried out by Local Authority free.

5. Visits are made to ensure that the premises are being kept in a clean condition.

SECTION D.—HOUSING.

Under the various Housing Acts, 496 Houses have been erected by this Council and the late Eaton Socon Rural District Council.

HOUSING CONDITIONS.

Bearing in mind the unsatisfactory state of housing conditions in Rural Districts throughout the country and following upon the publication of the Third Report of the Rural Housing Sub-Committee of the Central Housing Advisory Committee, instructions were issued in Ministry of Health Circular 64/44 requiring all Rural District Councils to make a comprehensive survey of all the dwellings within their areas.

The survey in this District commenced in June, 1945, and as a result 1,642 houses had been fully inspected and recorded by the end of this year. Of these 487 were inspected during the year under review and were classified as recommended in the Sub-Committee's Report as follows:—

<i>Category</i>	<i>Condition of Dwelling</i>	<i>No of Houses</i>
1	Satisfactory in all respects	66
2	Minor Defects	206
3	Requiring repair, structural alteration or improvement	178
4	Appropriate for reconditioning under the Housing (Rural Workers) Acts ...	24
5	Unfit for habitation and beyond repair at a reasonable expense	13
	Total	487

Except in a few cases where certain repairs were essential no action has been possible owing to the prevailing shortage of building labour and materials.

1. INSPECTION OF DWELLING HOUSES DURING THE YEAR.

- (1) (a) Total number of Dwelling Houses inspected for housing defects (under Public Health or Housing Acts) ... 1193
- (b) Number of inspections for the purpose 1779
- (2) (a) Number of Dwelling Houses (included under sub-head (1) above) which were inspected and recorded under the Housing consolidated Regulations, 1925, and Circular 64/44 Rural Housing 967
- (b) Number of inspections for the purpose 1022
- (3) Number of Dwelling Houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation 13
- (4) Number of Dwelling Houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation ... 810

2. REMEDY OF DEFECTS DURING THE YEAR WITHOUT SERVICE OF FORMAL NOTICES.

(1)	Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their Officers	25
-----	--	----

3. ACTION UNDER STATUTORY POWERS DURING THE YEAR.

(a) Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936:—

(1)	Number of dwelling houses in respect of which notices were served requiring repairs	5
-----	--	---

(2) Number of dwelling houses which were rendered fit after service of formal notice:

(a)	By Owners	4
-----	------------------	---

(b)	By Local Authority in default of Owners	0
-----	---	---

(b)	Proceedings under Public Health Acts	0
-----	---	---

(c) Proceedings under Sections 11 and 13 of the Housing Act, 1936:—

(1)	Number of dwelling houses in respect of which Demolition Orders were made	0
-----	--	---

(2)	Number of dwelling houses demolished in pursuance of Demolition Orders	0
-----	---	---

(d)	Proceedings under Section 12 of the Housing Act, 1936 ...	0
-----	---	---

4. HOUSING ACT, 1935—OVERCROWDING.

Owing to war conditions and to the acute housing shortage temporary overcrowding exists in some houses.

5. GENERAL SCHEME FOR THE REPAIR OF HOUSES. (Circular 2871).

Number of Certificates of Essentiality issued	42
„ „ Houses concerned	64
Estimated Total Cost	£9919

(b) MEAT INSPECTION.

Conditions of Slaughter-houses	Good
Number of Slaughter-houses	18

Eighteen Slaughter-houses were licensed under the Food and Drugs Act, 1938, and of these, 16 have retail shops attached. There is also one separate retail shop in the Parish of Wilstead.

Since the 15th January, 1940, the slaughter of animals and distribution of meat has been under the direct control of the Ministry of Food. As a result, no regular slaughtering is done in the 18 Slaughter-houses within the District.

Inspection of all meat distributed in the District is carried out at the central Slaughter-houses in the Borough of Bedford.

The following foodstuffs have been condemned as unfit for human food:—

4 lbs. Meat in tins.	19 lbs. Suet.
30 ,, Bacon.	112 ,, Oatmeal.
28 ,, Fish.	21 ,, Cake.
9 tins Fish.	31 ,, Biscuits.
12 ,, Beans.	123 ,, Tea
1 ,, Fruit.	2 ,, Sweets.
25 ,, Vegetables.	28 ,, Butter.
804 lbs. Vegetables.	126 tins Milk.
103 ,, Fruit.	

The above were not destroyed but used for animal feeding stuffs.

OTHER FOODS.

SMALL POX.

I am glad to report that no cases were notified.

SCARLET FEVER.

There were thirty-seven as compared with thirty-eight cases notified in the previous year. All but four were removed to the Isolation Hospital. Eight of the cases were members of the Services, causing the rather high average incidence of 17 years. No deaths occurred.

DIPHTHERIA.

Two cases were notified and were removed to the Isolation Hospital. Their ages were 34 and 10. Neither had been immunised. Both recovered.

PNEUMONIA.

Nineteen cases were notified and three deaths were registered.

ERYSIPELAS.

Two cases were notified, one of which was admitted to the Isolation Hospital. Both recovered.

PUERPERAL PYREXIA.

No cases notified.

PARATYPHOID FEVER.

No cases notified.

CEREBRO-SPINAL MENINGITIS.

No cases notified.

WHOOPIING COUGH.

Fourteen cases have been reported.

MEASLES.

It was an inter-epidemic year, only nineteen cases being notified.

OPHTHALMIA NEONATORUM.

One case was notified. There was complete recovery without impairment to sight.

JAUNDICE.

Fourteen cases were notified.

NON-NOTIFIABLE DISEASES.

There were no outbreaks of note.

TUBERCULOSIS.
New Cases and Mortality.

Villages.	New Cases.				Deaths.

ARTIFICIAL IMMUNISATION AGAINST DIPHTHERIA.

A number of children have been immunised against Diphtheria during the year under review and during previous years.

I give details below:—

I. NUMBER OF CHILDREN WHO HAD COMPLETED A FULL COURSE OF IMMUNISATION AT ANY TIME TO DECEMBER 31ST, 1946:—

Age at 31.12.46 Born in years	Under 1 1946	1 1945	2 1944	3 1943	4 1942	5-9 1937-1941	10-14 1932-1936	Total under 15
Number Immunised	2	202	257	278	277	1764	1390	4170
Estimated mid-year Population 1946	2060					3700		

Owing to the fact that the degree of immunity becomes less with the lapse of time, the Ministry of Health has advised that "re-inforcement" or "booster" inoculations should be given after a period of four years to maintain the protection at a sufficiently high level. This means that a child first immunised at about the time of the first birthday should have a second inoculation at the age of five, on its entry into school.

The number of children who received a re-inoculation during the year was 583.

II. DIPHTHERIA NOTIFICATION AND DEATHS IN RELATION TO IMMUNISATION:—

Age at date of notification	Number of cases notified	Number of cases included in preceding column in which child had completed full course of Immunisation	Age at date of Death	Number of Deaths	Number of cases included in preceding column in which child had completed full course of Immunisation

SCABIES ORDER, 1941.

By arrangements with the Borough of Bedford, infected persons are treated at the Borough Treatment Centre, Commercial Road, Bedford, at the cost of 2s. per treatment.

Where possible, arrangements are made for the other members of the household to attend for treatment as contacts at the same time as the infected person or persons.

During the year under review 54 persons have received treatment.

CANCER.

There have been 37 deaths out of 304 from all causes, of these 19 were males and 18 females.

The various systems affected and the ages of each sex at death are as follows:—

Distribution of Males.

0	Cancer cases of œsophagus and Buccal Cavity	
4	„ „ „ Stomach and Duodenum	... ages 79, 66, 58, 72
15	„ „ „ other sites	ages 78, 57, 60, 56, 74, 72, 77, 62, 67 65, 76, 73, 40, 90, 61

Distribution of Females.

2	Cancer cases of Uterus and Buccal cavity	... ages 68, 58
3	„ „ „ Stomach and Duodenum	... ages 78, 67, 73
5	„ „ „ Breast ages 61, 68, 75, 52, 64
8	„ „ „ other sites	... ages 68, 80, 71, 57, 82, 82, 74, 73

PREVENTION OF BLINDNESS.

No action was necessary under Section 176 of the Public Health Act, 1936.

PUBLIC HEALTH (PREVENTION OF TUBERCULOSIS)

REGULATIONS 1925, AND SECTION 172 OF THE PUBLIC HEALTH ACT, 1936.

No necessity for any action under these regulations arose during the year under review.
