Urban District of Bedford

ANNUAL REPORT

of
The Medical Officer of Health

URBAN DISTRICT OF BEDWORTH.

Public Health Department,
Council Offices,
BEDWORTH.

October, 1945.

To The Chairman and Members of the Public Health Committee.

Mr. Chairman, Lady and Gentlemen,

I have the honour to submit statistical report for 1944.

There have been no outstanding epidemics during the year. The vital statistics compare favourably with the Country as a whole. The death rate of 9.970 per 1,000 population and the infantile mortality rate of 49.056 per 1,000 live births are satisfactory figures in comparison with other towns of a similar size, the infantile mortality rate being slightly lower than 49.89 per 1,000 live births reported for the year 1943. The birth rate for the Urban District was 24.025 which is high in comparison with 17.26 for the country as a whole.

The sanitary defects in the Urban District remain the same as last year, and should be remedied as early as possible. There are 226 pail closets, which in my opinion are a nuisance within the meaning of the Public Health Act. 57 of these pail closets are situated within reasonable distance from existing sewers, but it is hoped that it will soon be possible for the remaining 169 to be converted to the water carriage system.

The District of Bulkington leaves much to be desired as regards sewage disposal. There are, in Bulkington, 300 cesspools, 23 privy middens, and 430 pail closets. Owing to War conditions it has been impossible to carry out an extensive sewage disposal scheme for Bulkington, but now that hostilities have ended it is hoped that this will be given priority in our post War improvements.

The housing situation of the area is still very acute, although the arrival of 50 factory made houses will help to alleviate some

overcrowding. It is essential, however, that a scheme for permanent houses should be regarded as a measure of prime importance. The factory made house has been very much criticised, but those who are living in overcrowded conditions will much prefer to live in a factory made house rather than live in these conditions until permanent houses can be built. At the same time it must be remembered that they are definitely temporary houses, and it is essential that permanent houses are built as soon as possible, so that people need not live in the temporary houses any longer than is absolutely necessary.

The various Public Health measures to which I referred in my Annual Report of 1943 should now, in my opinion, be put in operation, and I strongly recommend to the Committee that an Assistant Sanitary Inspector be appointed.

I take this opportunity of expressing my gratitude to the Chairman and Members of the Public Health Committee for their interest in the Public Health services of the District, to my colleagues in the other Departments—Mr. Armson and Mr. Blenkinsop—for their co-operation, and to the members of my staff—Mr. Deakin and Miss Leach—for their willing assistance in carrying out the work of the Department.

I have the honour to remain,

Mr. Chairman, Lady and Gentlemen,

Your obedient Servant,

P. G. HORSBURGH,

Medical Officer of Health.

BEDWORTH URBAN DISTRICT COUNCIL.

PUBLIC HEALTH DEPARTMENT

Public Health Committee.

Chairman : Councillor E. W. RICHARDS.
 Councillor A. BUTLER. Councillor H. SHARRATT.

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

Infectious Diseases.—The Council are in agreement with the Corporations of Coventry and Nuneaton to receive into their Isolation Hospitals cases of infectious disease occurring in the Urban District of Bedworth.

Small-pox.—The Council are in agreement with the Corporation of Coventry to receive into their Pinley Small-pox Hospital cases of Small-pox occurring in the Urban District of Bedworth.

Tuberculosis.—The King Edward Memorial Hospital, Hertford Hill, is provided by the Coventry and Warwickshire Joint Committee, and is available to patients residing in the Bedworth Urban District.

Maternity.—No Hospital is provided, but private and urgent cases are taken into the Coventry and Warwickshire Hospital, Coventry, the Nuneaton E. M. S. Hospital, and the Nuneaton General Hospital.

General.—The Bedworth Urban District is served by the Coventry and Warwickshire Hospital, Coventry.

Orthopaedic.—Patients from the Bedworth Urban District can be sent for consultation and treatment to the Orthopaedic Clinic, "Dunsmore," Holyhead Road, Coventry.

Ambulance Facilities.

Infectious Diseases.—Infectious disease patients are now removed to hospital by ambulances provided by the Coventry and Nuneaton Corporation hospitals.

Accident.—The town motor ambulance is at present controlled by the County Council under Civil Defence arrangements.

LABORATORY WORK.

Specimens of sputum, throat and nasal discharge, etc., are forwarded to the University of Birmingham for examination, the result being communicated to the Medical Officer of Health and to the medical practitioner sending the specimen. Outfits for taking these specimens are supplied by the University Pathological Department. In urgent cases outfits can be supplied on application to the Medical Officer of Health.

CLINIC AND TREATMENT CENTRES.

Maternity and Child Welfare. The Maternity and Child Welfare Clinic is situated in Saunders Avenue, Bedworth. The work of this clinic is supervised by a voluntary committee and, in addition, services are provided by the County Council. A school clinic is also maintained at this centre by the County Council.

Tuberculosis. Patients attend dispensaries at Coventry and Nuneaton for treatment provided by the Coventry and Warwickshire Joint Committee for Tuberculosis.

Venereal Disease. Free treatment is provided by the County Council at the Coventry and Warwickshire Hospital, Coventry.

Professional Nursing in the Home.

(a) General. One voluntary Nursing Association.

(b) Infectious Diseases—Nil.

Midwives. There are 4 midwives practising in the Urban District, none of whom is subsidised by the Council.

CLINICS.

Service	Situation of Premises	Days Open	Authority Responsible
Maternity and Child Welfare :			
Welfare Centres	Child Welfare Centre Premises, Saunders Avenue, Bedworth.	Mondays and Thursdays, 2 to 4 p.m.	Warwickshire County Council
	Cricket Pavilion, Bulkington.	Wednesdays, 2 to 4 p.m.	Ditto.
Ante-Natal Clinic	Child Welfare Centre Premises, Saunders Avenue, Bedworth.	Alternate Wednesdays, 10a.m.to2p.m.	Ditto.
School Medical Service :			
Treatment and Inspection Clinic	Ditto.	Mondays and Thursdays, 10 to 12 noon.	Ditto.
	Ditto.		
Eye Clinic	Ditto.	Fridays, 9.30 to 12 noon when arranged.	Ditto.

WATER CONSUMPTION.

The average daily consumption of water in the District during 1944 was :—

Domestic	355,000 gallons.
Trade	29,000 gallons.
Bramcote	50,000 gallons.
Bulkington & Shilton for Rugby R. D. C. ..	1,000 gallons.
TOTAL	435,000 gallons.

The maximum consumption of water in any one day for all sources was 465,000 gallons.

The latest chemical and bacteriological analyses are as follows :—
