BELFORD RURAL DISTRICT COUNCIL.

REPORT

OF THE

MEDICAL OFFICER of

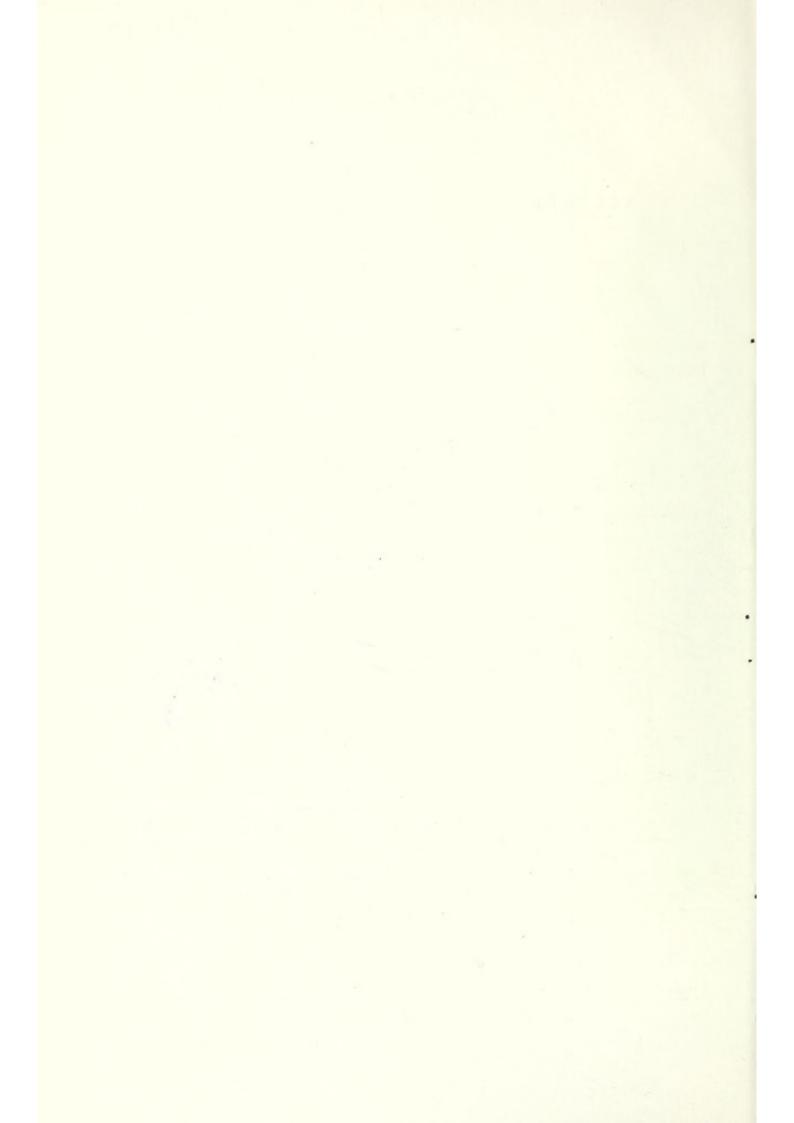

YEAR, 1958.

HEALTH.

Medical Officer of Health. (part time)
Dr.D.T. Mc.Donald, M.D., Ch.B(Edin),
South Bank, Belford.

Surveyor & Public Health Inspector.
Wm.R. Kirk, M.A.P.H.I., Sea Bank, Seahouses.

### GENERAL STATISTICS

The area of the district is 39,797 acres.

The number of inhabited houses is 2008 and the number of new houses completed during the year is 10.

The rateable value is £53,779 and the sum represented by a penny rate is £196.

The estimated mid-year population is 5010 and this figure is taken when calculating the Birth and Death rate.

### WATER SUPPLIES.

The position with regard to water supplies is substantially the same as last year.

The Seahouses supply from Brockdam was normal throughout the year which meant that the borehold pump had to be used throughout the summer season to supply the extra water needed to meet the increased demand created by the usual influx of summer visitors. The hardness of this borehole water causes much inconvenience and an additional source is needed to obviate its use and relegate it to purely standly or emergency use.

The Bamburgh/Seahouses Link Main of which much is expected and for which the contract is let should be in operation next year, when it comes into use it is hoped that much of the water which goes to waste either at the spring overflow or at the Mill Tank will be available to help Seahouses and remove the necessity for constant and careful adjustment of valves in the Village to maintain an equitable distribution.

Despite all efforts complaints have still been received of shortages in parts of Bamburgh. Those most affected are The Victoria Hotel and West House Hotel on the 'Village' system and The Lord Crewe Arms Hotel on the 'Mill' system, though some of these shortages are due to lack of sufficient storage in the buildings concerned.

Beadnell suffered fewer shortages in the Harbour Road area due to the coupling up of both mains throughout instead of isolating the new main through to Seahouses.

At Belford the Warenton supply was able to maintain the supply without recourse to the old Belford Moor Springs.

## SEWERAGE.

The effluent from the Belford Disposal Works continues to attract adverse reports. It is obvious that the works will have to be extended though it could not be claimed that this is sufficiently urgent to be a very pressing matter and the Belford Burn into which the effluent discharges is not really foul.

There is still talk of pollution of Beadnell Beach, which is attributed to the discharge from the Council sewer. Despite frequent visits during all weathers, including the time whon easterly winds are blowing and very careful scrutiny of the strand line no signs have been seen of any pollution from sewage, though cow dung and sheeps droppings have been observed which must have been washed along the beach from the Long Nanney.

### HOUSING.

During the year 10 houses were built by private persons, 7 with state assistance and 3 unaided. There were no houses built by the Council.

Negotiations for additional land at Seahouses have not progressed very far and will have to be pursued with greater urgency as the land is needed to provide sites to rehouse tenants of unfit houses, particularly at Seahouses. The number of applications for houses on the register is 68.

	Action with regard to Unfit Houses.	No. Houses.
1.	Houses demolished in Clearance Areas.	-
2.	Houses demolished not in Clearance Areas	
3.	Houses closed not demolished.	1
4.	Any other houses permanently discontinued as dwellings	
	and not included in above.	7
5.	Houses made fit by informal action.	28
	Improvement Grants.	No. of separate houses.
1.	Applications submitted to Local Authority.	7
2.	Applications rejected.	5
3.	Applications approved.	7
4.	Total number approved since inception of scheme.	134

### CAMPING SITES.

This created the usual problems. The older sites with their greater density and with many of the caravans let for short periods were difficult to control and despite reasonable co-operation by the site owners, they were some times dirty.

Unofficial camping on the open links was again prevelant particularly on fine week-ends and much litter is left lying about.

### FOOD & DRUGS.

The standards of hygiene in food premises were fairly satisfactory, but more time will have to be devoted to this work.

Food Inspection.

Ten visits were made to food premises for inspection of defective food and 12 tins of Meats, mostly Ham, were voluntarily surrendered and destroyed.

Milk & Dairies.

The number of licences issued in respect of Special Designated Milk are as follows:-

Pasteurised ... 6 T.T. ... 1

Ice-Cream.

Two premises are registered for the manufacture and sale of ice-cream, and 17 premises are registered for the sale of ice-cream, all of which is pre-packed.

Slaughterhouses.

The two private Salughterhouses continue to operate as before.

Over 90% of carcases slaughtered in the two licenced slaughterhouses were inspected, those uninspected were slaughtered during my annual leave.

### PUBLIC CLEANSING.

The collection of household refuse previously confined to the four main villages of Belford, Bamburgh, Seahouses and Belford, was extended to cover the whole of the district with effect from lst.April. This was made possible by the purchase of a Karrier Bantam of 7 c.yds. capacity.

The service has operated smoothly and satisfactorily and this is confirmed by the negligible number of complaints received. The service is somewhat hampered by lack of proper dustbins at many premises making emptying difficult and dirty.

The old Bedford vehicle is now almost 11 years old and its replacement with another diesel vehicle is desirable from economic reasons as well as operational

Associated with public cleansing is the problem of litter and the provision of additional containers in Seahouses and Bamburgh have been a great help there. Excellent work was done by the Seahouses and District Scouts in clearing a particularly bad area between Seahouses and Monkshouse.

#### FACTORIES & WORKSHOPS ACT.

Inspection for purposes of provisions as to health:-

Premises.	Number on Register.	inspections.	Written Notice.
<ol> <li>Factories in which Secs.</li> <li>1,2,3,4,5 &amp; 6 are to be enforced by Local Authy.</li> </ol>	8	6	-
(ii) Factories not included in (i) in which sec.7 is enforced by Local Authority.	25	14	
Cases in which defects	were found - Renedied -	5	

### PREVENTION OF DAMAGE BY PESTS ACT 1949.

Mr.Arris continues as Rodent Operator jointly with Norham & Islandshires and the control exercised is most satisfactory in the way of reduction of the rat population but more time than is really necessary is spent on survey. Some other form of employment will have to be found to relieve the cost of this service.

Meat Inspection.

The following tables show the number of animals slaughtered and the caracases and offal inspected and condemned in whole of in part.

	Cattle excludg. cows.	Cows.	Calves.	Sheep & Lambs.	Pigs.	Horses.
Number killed (if known)	233	Nil.	Nil	572	140	Nil
Number Inspected .	216	Nil.	Nil.	513	137	Nil.
All diseases except Tuberculosis & Cysticerci.						
Whole caraces condemned.	1	Nil.	Nil.	3	1	Nil.
Carcases of which some part or organ was condemned.	79	Nil.	Nil.	5	2	Nil.
Percentage of the number inspected affected with disease other than tuberculosis and cysticerci.	37,0	Nil.	Nil.	1.6	2.2	Nil.
Tuberculosis only: Whole carcases condemned.	Nil.	Nil.	Nil.	Nil.	Nil.	Nil.
Carcases of which some part or organ was condemned.	11	Nil	Nil.	Nil.	1	Nil.
Percentage of the number inspected affected with tuberculosis.	5.1.	Nil.	Nil.	Nil.	0.8	Nil.
