**BOROUGH OF BEVERLEY  
ANNUAL REPORT  
OF THE MEDICAL OFFICER OF HEALTH FOR 1972**

---

Divisional Health Office,  
Manor Road,  
Beverley.  
August 1973.

*To the Mayor, Aldermen and Councillors of the Borough of Beverley*  
Mr. Mayor, Ladies and Gentlemen,

I have pleasure in presenting my Annual Report for the year 1972.

The Registrar General's figures for the year 1972 indicates a mid-year population of 17,050 a decrease of 80 compared with last year.

During the year there were 275 live births and 213 deaths compared with 304 live births and 171 deaths last year. The adjusted birth rate for the Borough of 16.3 compares with the national birth rate of 14.8 per 1,000 population and an adjusted death rate for the Borough of 12.3 compares with a national death rate of 12.1 per 1000 population.

Diseases of the heart and circulatory system and malignant neoplasms continued to be the major causes of death. Ischaemic heart disease remained the greatest single cause, and of the deaths due to cancer, the lung and bronchus were the commonest site of origin.

There were two deaths of infants under one year of age, both due to congenital anomalies.

There was an increase during the year in the infectious diseases notified which was almost entirely due to an increased incidence of measles.

Few changes occurred in the sanitary circumstances during the year. Water continued to be supplied by Hull Corporation and 29 samples of the Towns water supply taken by the Public Health Inspector proved satisfactory. Thirteen samples were taken from 3 private bores and all but one were satisfactory. This one proved satisfactory when repeated.

Routine work continued on housing, as did routine inspection of food premises and inspection of 100% of meat killed in the Borough.

In presenting this report, may I express my thanks to the staff of the Department for their work during the year and to the Chairman and Members of the Health Committee for their constant interest and support.

I am,

Yours faithfully,

J. H. MAUGHAN,

*Medical Officer of Health.*
