ANNUAL REPORT

Mr. Chairman and Gentlemen,

I have the honour of presenting my First Annual Report respecting the health and sanitary conditions of your district for the year ending 31st. December, 1939.

In accordance with the suggestion of the Ministry of Health the Report has been made as brief and concise as possible.

Owing to the many additional and exceptional duties which have been imposed on the Staff as a result of the War, routine work has had to be somewhat curtailed, but essential and urgent matters which affect the public health are receiving careful attention.

I have the honour to be,

Your obedient Servant,

John Young, M.B., Ch.B., D.P.H., Camb.,

Medical Officer of Health.

ANNUAL REPORT

Mr. Chairman and Gentlemen:

I have the honor of presenting

my first annual report respecting the health and

sanitary condition of your district for the year

ending 31st December 1877.

In accordance with the suggestion

of the Committee of Health the report has been made in

brief and concise language.

owing to the want of statistics and

experience, I feel that it has been imposed on the State

as a record of the first venture which has had to be

submitted to the public, but I am confident that it will

which will be the first step towards the improvement of

the district.

I have the honor to be,

Yours obedient servant,

John Thomas, M.D., F.R.S., F.R.C.P.,

Medical Officer of Health.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area (in acres) 49,628

Registrar General's estimate of:-

(a) Resident population, mid-1939 6,295

(b) Average population appropriate to the
calculation of death rates 6,552

Number of inhabited houses (end of 1939) according
to Rate Book 2,046

Rateable Value £30,766

Sum represented by a penny rate £113

SOCIAL CONDITIONS

The District is essentially agricultural, most of the land
being grazed.

VITAL STATISTICS

GENERAL PROVISION OF HEALTH SERVICES FOR
THE AREA

1. (1) Public Health Officers of the Authority

The Medical Officer of Health acts for the Leicestershire and Rutland combined Districts in which this District is included.

The Sanitary Inspector is also Surveyor and is a whole-time Officer.

(11) Laboratory Facilities

The following examinations from your area were carried out during the year in the County Laboratory, Leicester:-

Throat Swab for Diphtheria	511
Sputa Swab for Tubercle Bacilli	22
Blood for Wassermann	7
Hair for Ringworm	1
Urine, General and Bacteriological	6
Milk examinations: Bacteriological	130
Urine for T.B.	4
Differential Blood Counts	1
Sewage and Water Analyses	17
Milk for fat content	1

700

SANITARY CIRCUMSTANCES OF THE AREA

1. (1) WATER

Number of samples taken for analysis:-

(a) from wells	Nil
(b) From pipe supply	Nil

Number of wells:-

(a) Closed	Nil
(b) Cleansed, repaired, etc.	Nil

Number of cases in which pipe supply was substituted for well water ... 113

UNITED STATES DEPARTMENT OF HEALTH, EDUCATION AND WELFARE
BUREAU OF PUBLIC HEALTH

123

(1) The purpose of this report is to provide information on the health status of the population of the United States. The data are based on the results of the National Health and Medical Examination Survey, which is a continuous, cross-sectional survey of the health of the civilian noninstitutionalized population of the United States. The survey is conducted by the National Center for Health Statistics, which is part of the Bureau of Public Health, United States Department of Health, Education and Welfare.

(2) The survey is conducted in two phases. The first phase is the household survey, in which a sample of households is selected and a list of all persons in the household is obtained. The second phase is the personal interview, in which a trained interviewer interviews a randomly selected person from the household. The interview covers a wide range of topics, including general health, chronic diseases, mental health, and health behaviors.

(3) The results of the survey are presented in this report. The data are presented in tables and graphs, and are accompanied by a detailed description of the survey methods and a discussion of the results. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(4) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(5) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(6) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(7) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(8) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(9) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

(10) The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors. The data are presented in two main sections: the first section presents data on the general health of the population, and the second section presents data on specific health conditions and health behaviors.

TABLE (1)

Number of Parishes without a piped
water supply 19

Number of Parishes with piped water supply:-

(a) from public mains 8

(b) From private Reservoirs 9

Particulars of the quality of existing Supplies:-

(a) Public Mains Good

(b) Private piped supplies Fair

In Billesdon all houses are not yet connected.

Stand taps were provided for water to be drawn for use
of evacuees. There was a shortage of water at Tilton,
also at Owston, shortage being by reason of bad
distribution.

Extensions have been made for the completion of
Leicester Corporation Mains to Billesdon and
Houghton.

(ii) DRAINAGE AND SEWERAGE

Number of Cesspools in District at end of
1939 399

Number of cesspools abolished
during 1939 Nil

Number of cesspools constructed during
1939 36

Particulars of any extension during the year:-

(a) Sewerage:-

Private enterprise extension, Scraftoft Lane.

(b) Sewage disposal - none.

(c) Particulars of any scheme which is at present under
consideration:-

Stoughton Sewers and Sewage Disposal Works.
Thurnby and Bushby, main drainage.

2. (i) CLOSET ACCOMMODATION

Total number in district at end of 1939:-

(1)	Privvies	120
(2)	Pail Closets	1,392
(3)	Water Closets... ..	547

Number of persons who have been
 a for nearly
 Number of persons who have been
 (a) from public water
 (b) from private water
 Particulars of the quality of existing supplies:-
 (a) Public water Good
 (b) Private water supplies Fair

In addition all persons who are not yet connected
 shall have been provided for water to be drawn from the
 of overboard. There was a shortage of water at times
 also at certain points being by reason of the
 distribution
 Extensions have been made for the completion of
 Extension Corporation Water to Billston and
 Houghton.

(11) WATER AND SEWERAGE

Number of persons in District at end of
 1930
 Number of persons supplied
 during 1930
 Number of persons connected during
 1930
 Particulars of any extension during the year:-
 (a) sewerage:-
 Private enterprise extension, Houghton Road,
 (b) sewage disposal - none.
 (c) Particulars of any scheme which is at present under
 consideration:-

Branch to Houghton and Houghton Road,
 Houghton and Houghton Road.

(12) WATER SUPPLY

Total number in District at end of 1930:-
 (a) Private
 (b) Public
 (c) Water Company

Number of Privvies and Pail Closets converted
to the water carriage system during the
year ... Nil

Number of Privvies converted to Pail Closets
during the year ... Nil

(ii) PUBLIC CLEANSING

House refuse is removed and disposed of as
follows:-

Contract, Great Glen and Burton Overy. Disposal
by crude dumping.

Direct labour, Thurnby, Houghton, Stoughton,
Scraptoft, Hungarton, Tilton. Disposal by
controlled tipping.

Means adopted for the cleansing of earth closets
Privvies, Ashpits and cesspools:-

Contract, Great Glen and Burton Overy.

Direct labour, Thurnby, Houghton, Stoughton, Tilton,
Scraptoft, Hungarton, Billesdon. Disposal by
trenching into arable land for night soil and
disposal on grass for cesspools.

(iii) SMOKE ABATEMENT

No observations were taken.

(iv) SANITARY INSPECTION OF THE AREA

The particulars given under this Heading are for all
purposes including particulars given elsewhere in this
Report.

Total number of complaints received ... 179

Total number of defects or nuisances
discovered ... 90

.....

Nature of inspections:-
