### BILLESDON RURAL DISTRICT COUNCIL

## ANNUAL REPORTS

OF THE

Medical Officer of Health

Surveyor and Chief Public Health Inspector

JOHN YOUNG.
M.B., CH.B., D.P.H.CAMB.

JOHN W. STEPHENSON, B.E.M., A.M.S.E., F.F.S., F.A.P.H.L., M.R.S.H.

FOR THE YEAR

1958

COUNCIL OFFICES, THURNBY, LEICESTERSHIRE

### BILLESDON RURAL DISTRICT COUNCIL.

### REPORT OF THE MEDICAL OFFICER OF HEALTH FOR THE

### YEAR ENDED 31st. December. 1958.

# TO: THE CHAIRMAN AND MEMBERS OF THE BILLESDON RURAL DISTRICT COUNCIL.

Mr. Chairman, Ladies and Gentlemen,

I present to you my Annual Report on the health and sanitary circumstances of the Billesdon Rural District for the year 1958.

Again I am glad to be able to report that the health of the rural district continued to be good as is evidenced by the table on page 4.

Once again the maternal death rate has been 'NIL' but unfortunately, 8 infants under the age of one year died and there were 11 still births. The causes of the infant deaths can be regarded as non-preventable and the rates are still well below those for the whole of the Country.

Although there is a slight increase in the death rate it is still below that for Leicestershire and the Country as a whole.

It is a pleasure to be able to report that there were no cases of Poliomyelitis or Diphtheria notified during the year but it is still very necessary that parents should have their children immunised against these diseases.

### LABORATORY FACILITIES.

There has been no change in the arrangements during 1958 whereby the Public Health Laboratory Service at Groby Road, Leicester undertakes the bacteriological examination of specimens submitted.

In addition to the milk, ice cream and water examinations reported upon by the Chief Public Health Inspector, the following examinations were carried out during 1958:

Faeces and urine	****	 172
Sputa		 91
Miscellaneous		 5

Ambulance Facilities: Nursing in the Home: Maternity and Child Welfare: Child Life Protection: School Health Services.

The Leicester County Council is the responsible authority for the administration of these Services.

National Assistance Act, 1948. Section 47.

No cases came to notice during the year.

### PUBLIC HEALTH OFFICERS

OF THE

### BILLESDON RURAL DISTRICT.

### MEDICAL OFFICER OF HEALTH.

J. Young, M.B., Ch.B., D.P.H. Camb.

The Medical Officer of Health acts for the Leicestershire and Rutland Combined Districts in which this District is included.

### SURVEYOR AND CHIEF PUBLIC HEALTH INSPECTOR.

John W.Stephenson, B.E.M., A.M.S.E. (Civ.); F.F.S., F.A.P.H.I.,
M.R.S.H., Cert.S.I.B.
Certificated Inspector of Meat & Other Foods.
Incorporated Engineer.
Incorporated Municipal Surveyor.
Incorporated Building Surveyor.

### ADDITIONAL PUBLIC HEALTH INSPECTOR.

G.E.J.Potter, L.F.S., M.R.S.H., M.A.P.H.I., Cert.S.I.B.

Certificated Inspector of Meat & Other Foods.

Incorporated Building Surveyor.

### TECHNICAL ASSISTANT.

T. Gregg, L.F.S., Incorporated Building Surveyor.

### CLEANSING AND WORKS SUPERVISOR.

J.T. Johnson.

### ADMINISTRATIVE ASSISTANT.

Mrs.M.Allen.

### JUNIOR ASSISTANT.

B. Chapman.

### ANNUAL REPORT

of the

### SURVEYOR AND CHIEF PUBLIC HEALTH INSPECTOR.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting my Report for the year 1958, which once again indicates, by reference to the table on page 9 that most of the work in the field has been in connection with building supervision, drainage, sewage disposal, improvement grants and the maintenance of the Council's property. Some progress has been made in the improvement of housing conditions and the grants continue to provide for the improvement of many substandard houses. Four houses have been demolished, three following the service of demolition orders under the provisions of the Housing Act, and one pulled down voluntarily by the owner. Informal steps have continued to be used to secure the repair of insanitary houses.

A very brief but potent Act which came on to the Statute Book is the Litter Act, 1958. This states that if any person throws down, drops, or otherwise deposits, and leaves anything whatsoever in such circumstances as to cause, contribute to or tend to lead to the defacement by litter of any place in the open air, is guilty of an offence punishable by a fine of up to £10.

Included in the bodies which have power to institute proceedings are County Councils, District Councils and Parish Councils.

The following tables give details of the number of Planning and Byelaw Applications which have been received and dealt with during the year. In this respect, no account has been taken of the re-submission of amended plans received in connection with some of the larger proposals.

<sup>9</sup> Refusals were issued under the Planning Acts and 9 plans were rejected under the Building Byelaws.

### WATER SUPPLY.

The River Dove water main is well on its way to the Whatborough reservoir which is also nearing completion at the end of the year and the target of having a supply available from this source by the end of 1959 is likely to be achieved.

The whole of this Council's statutory area of supply was taken over by the City of Leicester Water Department in October, 1958, and this Council will no longer be responsible for the day to day administration of the water undertaking in those villages previously supplied from the Council's mains.

A total of 25 samples were submitted for examination with the following results:

### Chemical Analysis

Type of Water	No. of Samples.	Results Unsatisfactory.		
Main	-	-		
Raw	-	- 1000	-	

It has not been necessary to take any action in regard to water liable to plumbo solvent action.

The following table indicates particulars of water supply in relation to households:

Internal Mater Supp		Mains water standp	from external ipes.	Supplies from Springs, wells, etc.		
	Population. (approx)		Population. (approx)	No. of Dwgs.	Population. (aaprox)	
44.39	15927	27	2424	642	1389	

In 12 instances main water was substituted for well or spring water.

### RAINFALL.

Comparative rainfall figures for recent years will be of interest and though may not be absolutely accurate as far as the Billesdon district is concerned, have been kindly supplied by Gordon J.Wootton Esq., M.I.Mun.E., M.R.S.H., Engineer and Surveyor, Wigston U.D.C.

They are as follows:

Month	1953	1954	1955	1956	1957	1958
January	1.05	1.05	1.69	4.05	1.45	2,60
February	1.28	2,42	1,61	0.77	3.56	3.23
March	1.64	1.93	2.39	0.98	2.24	1.50
April	2,18	0,40	0.95	0.95	0.21	•59
May	1.58	2.06	3.53	0.58	2.27	2,08
June	2.64	2.42	3.24	2.96	1.79	4.69
July	2.11	2.76	1.09	3.55	3.57	3.13
August	2,80	3.69	1.34	5.50	3.01	2.74
September	1.38	2.17	1.13	1.86	4.08	2.43
October	2.50	2,85	1.48	1.46	1.04	2,27
November	1.86	4.98	1.15	0,83	1.87	1.87
December	.80	2.45	2.51	3.32	2.46	2.32
Total Inches	21,82	29.18	22,11	26.81	27.55	29•45

### DRAINAGE AND SEWAGE DISPOSAL.

There is a steady reduction in the number of cesspools and pail closets in the district which follows the construction of new sewage disposal works to serve the larger villages.

During the year research into the treatment of farm waste was being carried out at the Stoughton Disposal Works, and a re-circulation pump installed. Although a great measure of purification is being carried out by this works, the final effluent is still not to the desired standard, and the behaviour of this plant is being very carefully observed.

The scheme to serve Keyham has been discussed with Ministry officials in view of the rather large proportion of farm waste to be dealt with, but it is hoped during 1959 that a start may be made on this scheme.

Details of the Newton Harcourt Scheme, which is the first to be prepared wholly by your own staff, have been submitted to the Ministry of Housing and Local Government and it is expected that early in 1959 there will be a local inquiry conducted by an Engineering Inspector of the Ministry.

Main water was taken to Tugby in 1954 and in view of the gross pollution of the stream which now accepts most of the sewage from this village, the land has been surveyed and a scheme for providing a new sewerage system and a new disposal works are being prepared. This village also presents some interesting technical problems, as in addition to the farm waste already discharging into the sewers, there is a long established slaughterhouse, the wastes from which are expected to be extremely strong.

### CONSERVANCY

The following figure again shows a reduction in the number of houses dependent upon pail closets and cesspools, although the true picture of sanitation is not shown as so many properties are drained into ditches in the villages not yet provided with a modern sewage disposal system.

No.	of privies in the district	4
No.	of pail closets in the district	389
No.	of W.Cs. in the district	4719
No.	of pails abolished during the year	103
No.	of cesspools constructed during the year	-
No.	of cesspools abolished during the year	73
No.	of cesspools in district	197
	(These are the cesspools and other tanks regularly serviced by the department.)	

Pail closets continue to be emptied weekly and cesspools as regularly as possible with a six-weekly service as a target.

Wherever possible, owners are now persuaded to install a larger septic tank than in the past in addition to a calculated amount of sub-surface irrigation sufficient to ensure that the tank will only require to be emptied at six-monthly intervals and that new pollution to ditches and streams will be avoided.

### REFUSE COLLECTION.

The increased population has again put a strain upon the refuse collection service, particularly as the labour position continues to be difficult, but only in very few instances has the period between emptying a dustbin exceeded seven days. This happening is usually associated with holiday periods and the majority of people affected are most patient, in the knowledge that everything will be done to get collection days back to normal as soon as possible.

Last year I mentioned some of the qualities expected of a dustman, and the following lists some of the difficulties with which they had to contend during 1958:

Dogs attacking collectors 12 Contents of bins such as to make them obnoxious 45 to handle. Articles that have been left on collection days that 22 collectors have thought to be too valuable to take away. Articles placed on dustbins which have been moved and 25 subsequently required back by the householder. Bins on fire at the time 29 of collection.

In addition to the normal refuse collection it is occasionally necessary to remove the carcase of a cat or dog found on the highway and this has been done on 16 occasions during the year.

The Warden of the Billesdon Hostel has continued his invaluable help with regard to the provision of labour, and I am indeed grateful to him for his co-operation.

Looking back through 1958, I see that no less than 48 different individuals were employed to maintain an establishment of 18. This means that during the year the labour force has been replaced  $2\frac{1}{2}$  times. Very rarely does a week go by with the full complement on duty for in addition to periods when there are vacancies, there were during 1958 117days absence due to sickness and 81 days absenceeism.

The burden of the work build up occasioned by vacancies and absenteeism invariably falls on the nucleous of reliable employees who do their utmost to maintain this service to the public.

### 3.Outwork.

Nature of Work.	No. of Outworkers in August list required by Sec.110(1)(c)
Wearing Apparel (making etc.)	123

### HOUSING.

No further villages have been completely surveyed during the year, but the defects discovered during the survey of Burton Overy have been receiving attention, and the owners are proceeding with the necessary repairs. In all, 31 houses which were in some respects unfit for human habitation have been repaired during the year.

The following table summarises some of the principal defects which have been remedied following informal action:

New drains provided or drains reconstructed	 28
House drains cleansed or repaired	 6
Dampness remedied	 100
Roofs repaired	
Gutters and rainwater pipes repaired	
Floors and staircases repaired	
Walls and ceilings repaired	 1 1 1 1 1 1 1
Windows and doors repaired	
Yards paved	 11 15 15 15 15
Grates and ranges repaired or renewed	
Sash lines repaired

year.

### IMPROVEMENT GRANTS.

It was not until 1954 that the Council commenced making Improvement Grants but during the five years up to the end of 195%, there has been a steady interest on the part of the property owners with a desire to rejuvenate old but structurally sound property as is shown by the following table:

Year	No. of Appns.	Approved.	Disapproved.	Total amount of Grant approved.	Average Grant. £
1954	11	11	-	2143	195
1955	27	24	3	5967	248
1956	35	34	1	9573	281
1957	31	31	-	7868	241
1958	20	19	1	4459	235
Totals	124	119	5	30,010	-

The high percentage of approvals is accounted for by the careful investigation of each scheme before the application is submitted for Grant.

The 20 applications during 1958 have related to properties in the undermentioned parishes:

Parish	No. of Appns.	Approved.	Disapproved.	Amount of Grants Approved.
Billesdon	3	3	-	358
Carlton Curlieu	2	2	-	472
Galby	1	1	-	400
Goadby	1	1	-	400
Great Glen	2	2	-	351
Houghton	4	4	-	736
Illston	3	3	-	660
Loddington	2	2	-	682
Thurnby	1	-	1*	-
Wistow	1	1	-	400
Totals	20	19	1*	4459

<sup>\*</sup> Scheme considered to be inadequate.

There has been much national comment that the scheme for Improvement Grants has not benefited the right type of property. However, in this district the majority of houses accorded an Improvement Grant have been let to tenants, usually engaged in agriculture.

No. of	Grants.	Type of Property to which Grant Relates.  Owner/Occupier. Let on Tenancy		
1954	11	2	9	
1955	24	4	20	
1956	34	10	24	
1957	31	8	23	
1958	19	6	13	
Totals	119	30	89	

### COUNCIL HOUSES.

The Council now own 270 houses, including old properties purchased and improved and every attempt to make the properties a credit to this authority is pursued by way of maintaining the estates, regular repainting and careful attention to essential repairs, particularly as the saying "a stitch in time saves nine "is very true where repairs are concerned.

### COUNCIL HOUSE REPAIRS UNDERTAKEN DURING 1958.

Renewing draining boards		10
" flushing cisterns		3
Maintenance of outside fixtures		10
Total items of repair carried out		538
Average no. of repair items per house		2.

### MEAT INSPECTION.

There has been an increase in the number of animals slaughtered in the district during the year under review. Of the 1007 animals processed only 1 beast, 2 pigs and 3 sheep were not inspected, these animals having been slaughtered at one slaughterhouse in February when drifting snow on the roads prevented a visit being made.

	Beasts inc. Calves.	Sheep & Lambs.	Pigs.
Number killed	123	720	164
Number Inspected	122	717	162
All disease except tuberculosis			
(a) Whole carcases condemned .		7	-
(b) Carcases of which some part or organ was condemned	3	13	2
(c) Percentage of number inspected affected with disease other than T.B.	2.5	2,8	1.2
Tuberculosis Only			
(a) Whole carcases condemned	-	-	1
(b). Carcases of which some part or organ was condemned	2	-	2
(c) Percentage of number inspected affected with T.B.	1.6	-	1.8
Cysticercus			
(a) Carcases of which some part or organ was condemned	-	-	-
(b) Carcases submitted to treatment by refrigeration	-	-	-
(c) Generalised & totally condemned	-	-	-

The low incidence of disease found in the processed meat is indicative of the high quality of animals slaughtered.

The weight of meat and offal found to be unfit for human consumption surrendered to the department was 829 lbs., built up as follows:

(a) 90 lbs. from 9 animals out of the 972 processed by the two butchers concerned:

(b) 519 lbs. from 20 of the 34 animals accepted for emergency slaughter by way of farm and road accidents and ailments;

(c) 220 lbs. comprising the entire carcase and organs of a smallholder's pig affected with generalised tuberculosis.

The remaining sound meat from emergency slaughtered animals was taken to a firm in Leicester who manufacture made up meat stuffs.

### MILK AND DAIRIES.

Particulars of the results of biological samples taken are shown below :

I	Number of Bulk	Results of Biological Examination			Results of Biological Exami	
Samples taken. Satisfactory. Evidence tuberch		Evidence of living tubercle bacilli	Evidence of Brucella Abortus			
	14	14	-	-		

### Bacteriological Milk Sampling

Class	No. of Samples	Satisfactory	Unsatisfactory
Tuberculin Tested	11	7	4 (inc.3 void)
Pasteurised	4	4	-
Sterilised	2	2	-
Undesignated	2	1	1

### Milk(Special Designation) (Pasteurised & Sterilised Milk) Regulations, 1949.

Number of licences issued during the year :

(a) Dealers: Pasteurised

Sterilised -

(b) Supplementary Licences : Pasteurised

Sterilised 5

### Milk(Special Designation) (Raw Milk) Regulations, 1949.

Number of licences issued during the year :

(a) Dealers :

-

(b) Supplementary: 4

### ICE CREAM.

### Number of Premises on Register -

(a) Manufacture and retail

(b) Manufacture only -

(c) Retail only

During the year 22 samples were taken and all were found to be satisfactory. The laboratory gradings were as follows:

Grade 1 - 17 Grade 2 - 5 Grade 3 - -Grade 4 - -

In addition 3 iced lollys were also submitted for laboratory examination and received a satisfactory report.

13.

### ERADICATION OF PESTS.

Very little organised survey work has been possible under the Prevention of Damage by Pests Act, 1949. Complaints have been investigated and treatments carried out whenever the Refuse Tip, sewage dykes, gave any evidence of infestation. In addition, sewers in Houghton-on-the-Hill, Scraptoft, Thurnby, Bushby, Billesdon, Burton Overy, Great Glen and Tilton were tested and slight infestations were discovered at Houghton, Thurnby and Scraptoft. These were treated successfully.

### CAMP SITES AND MOVABLE DWELLINGS.

No licences for camping sites were issued during the year. A number of applications were, however, received from individuals to station and use caravans within the district, as follows:

No. of applications received - 6
No. of licences issued - 5
No. of applications withdrawn - No. of applications refused - 1
No of appeals to Justices - No. of prosecutions for using a caravan without a licence - -

### SMOKE ABATEMENT.

No action has been necessary during the year.

\_\_\_\_\_\_

I wish to acknowledge the wholehearted effort and support by the staff of my department and appreciate the continued confidence and backing of the Council.

I am, Ladies and Gentlemen,

Your obedient Servant,

John W.Stephenson.

Surveyor & Chief Public Health Inspector.
