TO THE HON. MEMBERS OF THE HOUSE OF COMMONS

The Minister of Health has directed that the following report be submitted to the House of Commons on the progress of the research conducted by the Committee on the Health of the Nation during the year 1934. The report is divided into two parts, the first dealing with the general progress of the research and the second dealing with the results of the research.

There was no general provision of evidence or other documents during the year and the results of the research were not published.

General Progress of the Research

The following table shows the progress of the research during the year 1934, compared with the progress during the year 1933.

Year	Progress of Research			
	1934	1933	1932	1931
1 - 10 years	100	100	100	100
11 - 20 years	100	100	100	100

Results

The following table shows the results of the research during the year 1934, compared with the results during the year 1933. The results are given in terms of the number of cases of disease, the number of deaths, and the number of cases of disease which were not reported.

Year	Results of Research			
	1934	1933	1932	1931
Number of cases of disease	100	100	100	100
Number of deaths	100	100	100	100
Number of cases of disease which were not reported	100	100	100	100

L. A. Smith, M.A., F.R.S.

Minister of Health
