TOWN HALL, BOLTON,

16th November, 1896.

GENTLEMEN,

The protracted illness and subsequent death of Dr. F. E. Adams, the late Medical Officer of Health, has caused a delay in the publication of the Health Report for 1895.

This sad circumstance has made it my duty to prepare it for the press.

I have endeavoured to arrange it in conformity with Dr. Adams's previous reports, but cannot supply the comments on the work which would have been so valuable from my lamented predecessor.

I am indebted to Mr. Spencer, the Inspector of Nuisances, Mr. Thompson, Chief Sanitary Inspector, and the Senior Clerk, Mr. Morris, for the summary of the Sanitary Work and the compilation of the various tables.

#### I am,

#### Your obedient servant,

#### JOHN E. GOULD,

#### MEDICAL OFFICER OF HEALTH.

To the Chairman and Members, Santary Committee.

## HEALTH OF BOLTON, 1895.

**Population**.—Taking the rate of increase between 1882-1891 as a basis of calculation, the estimated population in the middle of 1895 was 119337, living on an area of 2361 acres, making 50.5 persons to an acre.

**Births.**—The births numbered 3960, of which 1999 were males, and 1961 females; the birth rate being 33<sup>.1</sup>. Of these 177 or 4<sup>.4</sup> per cent. were illegitimate. In 1894 the births were 3719, and the birth rate 31<sup>.4</sup> per 1,000 per annum.

**Deaths.**—The deaths numbered 2862, compared with 2215 in 1894, of whom 197 died in the Fishpool Workhouse. 1441 were males, and 1421 were females. The mortality is equivalent to a **death rate** of 23°96 per 1000 per annum. This is considerably higher than the death rate for 1894, viz. 18'7, which was the lowest on record, and also higher than the average for the last ten years, 1885-1894, which was 22'1. The death rate for the year in the 33 great towns was 19.45.

#### TABLE A.

Recorded and Corrected Death Rates per 1,000 Persons living in 33 Great Towns during the year, 1895, from factors by the Registrar-General.

As the Registrar General's Returns do not begin and terminate on the first and last days of the year respectively, the birth and death rates in the above table are not absolutely correct, but they are sufficiently approximate for comparative purposes.

	DEATH RATES	FOR 45 YEA	
YEAR	Death rate per 1000 per annum	YEAR	Death rate per 1000 per annum

TABLE C.DEATH RATES FOR 45 YEARS.

	Males.	Females.	Total.	Annual Rate per 1,000
First Quarter	392	384	776	26'0
Second "	350	333	683	22.9
Third "	395	363	758	25'4
Fourth "	304	341	645	21.6
Year	1441	1421	2862	23'9

The following table shows the deaths in each of the four quarters of the year :--

The wards with the highest death rates, were Derby Ward, 28.6; Exchange, 26.5; East Ward, 24.9, and the lowest Church Ward, 14.6. The position of Bolton with regard to the 33 great towns, is shown in Table A, the comparative mortality figure being exceeded only by three other towns, viz., Blackburn, Salford and Liverpool.

Infant and Infantile Mortality.—1,318 deaths of children under 5 years of age occurred, of whom 840 were under 1 year; that is 46 per cent. of the total deaths were those of children under 5 years of age, and 29 per cent. under 1 year; the average for the last 10 years being 41 and 14 per cent. respectively. The Infantile Mortality, *i.e.*, the number of deaths per 1,000 births, was 213, and was exceeded by five other towns, viz., Wolverhampton, Salford, Burnley, Blackburn and Preston.

**Chief Causes of Death.**—The total increase of deaths compared with 1894, was 647, and these are accounted for under the following headings, the largest increase being in miasmatic or zymotic, diarrhœal and digestive.

		1895.	1894.	Increase.
Masmatic )		 318	134	184
Diarrhœa )	Zymotic	 208	68	140
Dietetic		 38	13	25
Constitutional		 349	323	26
Developmental		 256	224	32
Nervous		 395	329	66
Respiratory .		 620	557	63
Digestive .		 217	138	79
Urinary .		 76	56	20
Ill-defined .		 101	89	12

TABLE D.

**Zymotic Deaths.**—324, or one half of the increase over 1894, was due to this cause, the largest being diarrhœa 140, measles 100 and fever 26 (see Table III). The death-rate from the seven chief zymotics was 4.45, as compared with 2.83 for the 33 great towns, and 3.16 the average for Bolton for the last ten years. Diarrhœa alone caused a death-rate of 1.74, and measles, 1.00.

**Smallpox.**—One death from smallpox occurred in the Borough Hospital, that of an unvaccinated infant, 8 months old. There were 10 cases during the year, the details being given below.

Date.	Initials.	Age.	Address,	Туре.	State of Vaccination.	Remarks.
2 May	M. P.	25	25, Frank-st.	Discrete	3 marks, infancy	light one in

# BOLTON Rural District Council.

# ANNUAL REPORT

BY

JAMES BARR, I..R.C.P., L.R.C.S., D.P.H., Medical Officer of Health.

1895.

Bolton :

THE DAILY CHRONICLE STEAM-PRINTING WORKS, KNOWSLEY STREET. 1896.

# Medical Officer's Report.

Estimated Population to middle of 1895, 34,927. Census, 1891, 31,665. Area of District in Acres, 25,026.

276, DEANE ROAD, BOLTON, JANUARY 26TH, 1896.

# To the Bolton Rural District Council.

# GENTLEMEN,

It is again my duty to present to you my Annual Report on the health and mortality of your District, with a record of the sanitary work done during the year.

Registration of Births.—During the year 1044 births were registered in the district; 529 were those of males, and 515 those of females, being at the rate of 29.8 per 1000 persons living per annum. The birth rate for 1894 was 30.6.

Illegitimate Births.—The number of children born out of wedlock was 15, or 1.4 per cent. of the total births.

Death Rate.—The number of deaths from all causes, and at all ages, was 523, of which 249 were males, and 274 females, This mortality gives a death rate of 14.9 per 1000 per annum upon an estimated population of 34,927, the rates for 1894 and 1893 being 12.6 and 17.5 per 1000 respectively.

Infant Mortality.—The mortality among infants, measured by the proportion of deaths under one year of age, to births registered, averaged 150 per 1000.

Zymotic Diseases.—The number of deaths from these diseases was 42, including five from Scarlet Fever, Diphtheria 6, Croup 5, Enteric Fever 6, Measles 4, and Whooping Cough 16.

The death rate from these diseases amounted to 8.0 per cent. of total deaths from all causes, and was equal to a rate of 1.2 per 1000 of the population. A reference to Form 3, appended hereto, will show death rate from Zymotic Disease in all townships for last five years. Small Pox.—A case of Small Pox was reported to me on the 29th of July from Darcy Lever (a woman aged 28 years), and was removed the same day to your hospital at Deane. It was of a very mild type. The patient had good vaccination marks, but had not been revaccinated. I could not trace the origin of the attack, but owing to the measures taken no further outbreak occurred. All other townships in the district have been free from this disease.

Scarlet Fever.—The total number of cases notified was 74, five of which died. Eight townships, viz., Belmont, Edgworth, Entwisle, Harwood, Middle Hulton, Over Hulton, Longworth, and Quarlton were entirely free from this malady. Most cases were reported during the last quarter of the year, Tong and Great Lever being the most populous townships contributed 48 of the whole number.

Thirty-two of these cases were removed to hospital. Particulars as to numbers removed from each township will be found in Table "B."

There is a marked diminution in the number of cases reported, compared with 1894, when 160 cases were reported, and 85 removed to hospital.

Diphtheria.—The number of cases reported was 29, six of which ended fatally. The township of Edgworth suffered considerably during the months of January and February from this disease, 14 cases being reported, and increasing to 19 for the year. The first notification was received on the 8th of January, from the house No. 1, Greengate, and up to the 7th day of February four cases had occurred at the same house, and three deaths taken place. At the time of the cutbreak the wall of this cottage formed one side of the closet, and the foundations of the house became sewage sodden. In what manner Diphtheria was introduced into this house it is difficult to state, but the conditions found there encouraged its growth and spread. Two of the children attended the public school at Edgworth, and by this means, as well as the Christmas gatherings and attending Sunday school, by the 11th of February six houses had become infected, and 14 persons ill. A noticeable fact in the outbreak was that where the disease spread to other inmates of the same house sanitary defects were found, and where the sanitary arrangements were good no spread took place. The milk and water supply were both particularly enquired into but were found good. There is no system of main

drainage at Edgworth, and the sewage does not get away from the houses as it should, but in most cases is taken by rubble drains into the fields or ditch. A many of the ashpits are badly built, and foul, allowing fluid to run into the back street. So long as matters remain as they are 1 am afraid you must expect these cases of Diphtheria cropping up.

Diarrhœa.—Twenty-eight deaths occurred from this cause and wore all with one exception in children under five years of age. The extreme heat during August and September had, I think, much to do with it, as 25 fatal cases were reported during those months.

Enteric Fever.—The number of cases notified was 44, and in six persons proved fatal. An outbreak of this disease occurred in October last at Tomlin Fold, Tonge. Four persons were ill at the same time but none proved fatal. The house is a very old one, damp, and generally insanitary. I attribute this outbreak to the foul smell arising from decayed vegetables placed in the back premises by the occupier, who is a greengrocer. Two patients were removed to hospital and steps taken to have the house closed. Two other cases at Smithills appeared to be due to the foul exhalations from sewer grids opposite their houses. I suggested extra ventilation by a shaft carried up the side of an adjoining building, and no complaints have since been made.

Most of the cases were distributed sparsely over the district. The milk supply was very varied and played no part in the outbreaks. In all cases of Enteric Fever the milk supply is enquired into carefully, and in all the cases the water supply was obtained from the Bolton Corporation mains. The privy midden system in populous townships like Great Lever and Tonge are very objectionable, and all new houses should have closets built on the waste water system.

Measles and Whooping Cough.—Both these complaints existed in some degree, and proved together fatal to 20 children, showing there is some merit in classing them as dangerous infectious diseases.

Diseases of Chest.—The total number of deaths from these causes was 161, being 16 more than the mortality from these diseases during 1894, and include 105 from Bronchitis, Pleurisy, and Pneumonia, 26 from Heart Disease, and 30 from Pulmonary Phthisis. Notification of Infectious Diseases.—The following table shows the number of cases reported by Medical Men practising in the Rural District, and the number of deaths resulting :—

an a line we			Total Number				
QUARTERS.	Small Pox,	Scarlet Fever,		Enteric Fever.	Puer- peral Fever.	Ery- sipelas.	of Infectious Cases.
First Quarter	0	6	22	8	0	2	38
Second Quarter	0	12	2	4	o	2	20
Third Quarter	I	13	0	13	I	4	32
Fourth Quarter	0	43	5	19	o	2	69
For Year	I	74	29	44	I	IO	159
Deaths	0	5	6	6	I	0	18

The total number of cases being 73 less than for 1894.

The Infectious Hospital.—The number of patients removed to hospital for isolation was 41, being less by 47 as compared with 1894. Table below gives particulars as to diseases admitted, as well as ages and number of deaths :—

	AI	LL ISES.	SMAL	LPOX.	SCAR FEV		ENTE		DIP	
AGE—YEARS.	Patients Admitted.	Deaths.	Patients Admitted.	Deaths,	Patients Admitted.	Deaths.	Patients Admitted.	Deaths.	Patients Admitted.	Deaths.

,, 30 ,, 40	I	-	-	-	-	-	I	-	-	-
Total	41	2	I	-	31	-	6	-	3	-

The average stay of patients at the Hospital was for Scarlet Fever 42 days, Enteric Fever 49 days, Diphtheria 28 days, and the case of Smallpox 56 days. The Hospital was closed for six weeks during April and May.

**Disinfection**.—Fifty-six houses have been disinfected after the recovery or removal of infectious disease, and the steam disinfector at the Hospital has been in requisition as usual for the disinfection of bedding, wearing apparel, carpets, &c.

Visits.—In conformity with the Local Government Board's Order regular inspections are made of the district, and after such visits I have recommended the closing of a number of houses as unfit for habitation, viz.:—14 houses at Darcy Lever, six houses at Ellis Fold, Tonge, five houses at Lostock, two houses at Smithills, nine houses at Deane. Most of these are still receiving the attention of your Council.

**Prosecutions**.—I was called in one case only during the year to give evidence before the Magistrates in the matter between yourselves and Lord Bradford, to supply Bolton Corporation water to houses in Great Lever, instead of water supplied by his Lordship from the Holme reservoir, which from its polluted condition was not fit for domestic purposes. An order was made to put in the Corporation supply.

Dairies and Cowsheds.—I have visited a number of farms in the district during the year, and paid particular attention to ventilation and cubic space, also as to the storage of the milk and cleaning of utensils. The custom of stuffing the air holes in shippons with hay, to raise the temperature of the place, with the supposed idea of encouraging the increased supply of milk, is still in practice at a few places, but which only tends to encourage tuberculosis in the cattle. The practice of slaughtering cattle at farms appears to me most objectionable, because there is no inspection, and there is a great risk of diseased meat finding its way to the public, besides the floor of the outhouse or barn where the killing is usually conducted is soft, which allows soakage, and tends to become a nuisance.

The Removal of Refuse.—The usual system of contract has been followed during the year for the emptying of ashpits in Great Lever, Darcy Lever, Tonge, Breightmet, Middle Hulton, Over Hulton, Deane, Heaton, Lostock, and Smithills, and gives satisfaction.

Reviewing the work of the year I may state that considerable progress has been made in carrying out useful sanitary work, such as the laying of sewers in Deane, Captain's Clough, Smithills, and other places.

Appended are the reports of the Sanitary Inspectors.

I am, Gentlemen,

Your obedient Servant,

Medical Officer of Health.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | 88                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | -                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 11                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | 11                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 01                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       | 01                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 4                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 11   

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | 11                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | 11                                                                                                                                                                                                                                                                                                                                                 |
