To the Chairman and Members of the

BRADFORD AND MELKSHAM RURAL
DISTRICT COUNCIL

Mr Chairman, Ladies and Gentlemen,

I have the honour to present the Annual Report for 1960 on the health of Bradford and Melksham Rural District.

I have pleasure in recording that a good general standard of health was maintained throughout the year.

Some cases of dysentery occurred during the Spring and one or two of these cases had a persistent infection for several weeks. In view of the prevalence of this disease at that time, routine precautions were emphasised in the schools and much co-operation was received from the school staffs in the implementation of these measures. One village school in particular had a high proportion of cases, and thanks to the energetic co-operation of the Head Teacher, spread of the disease was restricted.

Three cases of pulmonary tuberculosis were notified in 1961, two of these cases occurring in Service personnel.

The immunisation statistics show an increase in the number of primary immunisations against diphtheria and whooping cough in 1960 and this year has seen the introduction of tetanus immunisation in welfare clinics and schools. Poliomyelitis vaccination continues and was extended to persons under 40 years of age.

Finally, I should like to take this opportunity of thanking the Members of the Council and the Health Committee for their encouragement, and my colleagues for their help during the year.

I am,

Your obedient servant,

P. J. SPELLER,

Medical Officer of Health.

PUBLIC HEALTH OFFICERS OF THE AUTHORITY

Medical Officer of Health:

P. J. SPELLER, M.B., Ch.B., D.P.H.,

who is also Medical Officer of Health to Melksham Urban District and Assistant County Medical Officer of Health.

Senior Public Health Inspector:

W. A. NOBLE, M.R.S.H., M.A.P.H.I.

Additional Public Health Inspector:

D. L. EVANS, M.A.P.H.I.

Offices:

The office of the Medical Officer of Health is 1 King Street, Melksham. Tel. Melksham 2307.

The office of the Senior Public Health Inspector is in Abbey House, Bradford on Avon. Tel. Bradford on Avon 2174.

GENERAL STATISTICS

Area of the District (Acres)	26,868
Number of Parishes	13
Estimated Population (including Service Personnel)	13,230
Number of Inhabited Houses	3,545
Rateable Value	£110,192
Sum represented by a penny rate	£447

EXTRACTS FROM VITAL STATISTICS

The following statistics have been compiled from information received from the Registrar General:—

Births

Live Births

<i>Births</i>	<i>Male</i>	<i>Female</i>	<i>Total</i>
Legitimate	79	92	171
Illegitimate	5	2	7
Total number of live births ...	84	94	178

Birth Rate for the District (i.e., per 1,000 population)	16.7
Comparative figure for England and Wales	17.1

Still Births

<i>Births</i>	<i>Male</i>	<i>Female</i>	<i>Total</i>
Legitimate	1	2	3
Illegitimate	1	—	1
Total number of still births ...	2	2	4

Still Birth Rate for the District per 1,000 total Live and Still Births	22.0
Comparative figure for England and Wales	19.7

Deaths

	<i>Male</i>	<i>Female</i>	<i>Total</i>
Number of Deaths in the Area ...	77	61	138
Local Death Rate (i.e., per 1,000 population) ...			10.4
Comparative figure for England and Wales ...			11.5

Infant Mortality

Deaths of Infants under 1 year

<i>Deaths</i>	<i>Male</i>	<i>Female</i>	<i>Total</i>
Legitimate	3	—	3
Illegitimate	—	—	—
Total number of deaths ...	3	—	3

Deaths of Infants under 4 weeks of age (included above)

<i>Deaths</i>	<i>Male</i>	<i>Female</i>	<i>Total</i>
Legitimate	3	—	3
Illegitimate	—	—	—
Total number of deaths ...	3	—	3

Infant Mortality Rates

Infant Mortality Rate per 1,000 live births—Total ...	16.8
Comparative figure for England and Wales ...	21.7
Neo-Natal Mortality Rate per 1,000 live births (1st four weeks)	16.8

Causes of Deaths

The causes of deaths classified according to the Registrar General's system, are given in the following table:—

	<i>Male</i>	<i>Female</i>	<i>Total</i>
Tuberculosis (respiratory)	1	1	2
(other)	—	—	—
Syphilitic disease	—	—	—
Diphtheria	—	—	—
Whooping Cough	—	—	—
Meningococcal infections	—	—	—
Acute Poliomyelitis	—	—	—
Measles	—	—	—
Other Infective and Parasitic disease ...	—	—	—
Malignant Neoplasm (stomach) ...	1	1	2
(lung bronchus) ...	6	—	6
(breast) ...	—	4	4
(uterus) ...	—	1	1
Other malignant and lymphatic neoplasms	7	6	13
Leukaemia, aleukaemia	1	1	2
Diabetes	—	—	—
Vascular lesions of nervous system ...	10	10	20
Coronary disease, Angina	11	7	18
Hypertension with heart disease ...	1	—	1
Other heart disease	12	14	26
Other circulatory disease	4	4	8
Influenza	—	—	—
Pneumonia	6	3	9
Bronchitis	2	—	2
Other diseases of the respiratory system	—	1	1

Gastritis, Enteritis and Diarrhoea ...	—	—	—
Nephritis and Nephrosis	1	—	1
Hyperplasia of prostate	1	—	1
Pregnancy, childbirth, abortion ...	—	—	—
Congenital malformations	—	—	—
Other defined and ill defined diseases ...	7	7	14
Motor vehicle accidents	4	—	4
All other accidents	1	1	2
Suicide	—	—	—
Homicide and Operations of War ...	—	—	—
Totals	77	61	138

OUTLINE OF THE HEALTH SERVICES OPERATING IN THE AREA

Laboratory Facilities

The Public Health Laboratory, Manor Hospital, Bath, undertakes all necessary bacteriological and pathological examinations in the district.

The laboratory with its skilled staff, provides a most valuable service with regard to the examination of drinking water, food and milk samples, throat swabs, etc., and their willing co-operation and expert advice is much appreciated.

Hospital Facilities

The South-Western Regional Hospital Board is responsible for hospital facilities in this district.

The two hospitals in the area are a general hospital at Melksham, and a hospital for the chronic sick at Semington. Other general hospitals are situated in Devizes and Trowbridge, with larger ones in Bath and Bristol.

The nearest hospital for the treatment of common infectious disease is Bath Isolation Hospital. The nearest Smallpox Hospital is at Bristol.

County Health Facilities

The following health services operating in the district are provided by the County Health Committee:—

Care of expectant and nursing mothers and young children.

Domiciliary Midwifery.

Health Visiting.

Home Nursing.

Arrangements for vaccination and immunisation.

Ambulances and ambulance cars.

Domestic Helps.

Arrangements under Part III of the National Health Service

Act for the prevention of illness; care and after-care; and health education.

Mental Health Service.

PREVALENCE AND CONTROL OF INFECTIOUS DISEASES

Comparison with Previous Years

<i>Disease</i>	1955	1956	1957	1958	1959	1960
Scarlet Fever	4	6	2	1	4	5
Whooping Cough	40	24	52	4	7	7
Poliomyelitis—Paralytic	—	1	—	—	—	—
Non-paralytic	1	—	—	—	—	—

Age Groups	Pneumonia		Dysentery		Meningococcal Inf.		Puerperal Pyrexia		Tuberculosis	
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.
Under 5 years	—	—	3	1	—	—	—	—	1	—
5-14 years	—	—	8	4	—	—	—	—	1	—
15-44 years	1	—	2	5	—	—	—	1	3	—
45-64 years	—	—	1	—	—	—	—	—	—	—
65 and over	—	—	—	1	—	—	—	—	—	—
Not known	1	—	2	3	—	—	—	—	—	—
TOTAL	2	—	16	14	—	—	—	1	5	—

Distribution in Parishes

Parishes	Scarlet Fever	Whooping Cough	Poliomyelitis Paralytic	Non- Paralytic	Measles	Pneumonia	Dysentery	Erysipelas	Diphtheria	Meningo- coccal Infection	Salmon- ellosis	Tuber- culosis	Puerberal Pyrexia
Atworth					1								
Broughton Gifford					2							1	
Hilperton					3								
Holt	1				8							1	
Limpley Stoke	1				9							2	
Melksham Without	2	5			1	1							1
Monkton Farleigh													
Semington													
South Wraxall	1						2						
Staverton													
Westwood													
Wingfield		2										1	
Winsley						1	7						
TOTAL	5	7			9	2	30					5	1

Poliomyelitis

No cases of poliomyelitis were reported.

Tuberculosis

	New Cases				
1955	6
1956	2
1957	14
1958	3
1959	5
1960	5

Distribution of new cases according to age, sex, and localisation of disease, is as follows:—

Age Groups	New		Cases		Deaths	
	Pulmonary		Non-Pulmonary		M.	F.
	M.	F.	M.	F.		
Under 1 year	—	—	1	—	—	—
1-5 years	—	—	—	—	—	—
6-15 years	—	—	1	—	—	—
16-25 years	2	—	—	—	—	—
26-35 years	1	—	—	—	—	—
36-45 years	—	—	—	—	—	—
46-55 years	—	—	—	—	—	1
56-65 years	—	—	—	—	—	—
Over 65	—	—	—	—	1	—
Unknown	—	—	—	—	—	—
TOTAL	3	—	2	—	1	1

From the above table it will be seen that 3 cases of pulmonary tuberculosis were notified during 1960. Two deaths from tuberculosis were recorded.

Re-housing of Tuberculosis Patients

Cases are referred from time to time by the Chest Physician for consideration for re-housing. These cases are classified as follows:—

Certificate No. 1. Sputum-positive cases where re-housing is considered urgent for the prevention of infection.

Certificate No. 2. Where better housing would be desirable in order to improve and maintain the patient's health.

Certificate No. 3. Where improved housing would be beneficial but is not an urgent matter.

None of the above certificates was received during the year.

Diphtheria Immunisation

Diphtheria immunisation is carried out systematically throughout the district by General Practitioners and County Medical Officers, in homes, schools and clinics.

Immunisation Statistics, 1960

Age Group		Under 1	1	2	3	4	5-9	10-14
Primary imms. completed during 1960	Dip	129	20	18			12	—
	Wh/c	121	19	17			2	—
Re-inf. inj. administered during 1960	Dip.	—	6	41			109	1
	Wh/c	—	6	35			29	1
Total immunised child population at 31st Dec., 1960	Pre 1/1/56	—	—	—	—	—	193	644
	Post 1/1/56	37	113	96	85	98	462	67

Compared with 1959 the number of primary immunisations against diphtheria rose from 102 to 179. The number of reinforcing injections administered rose from 125 to 157.

The total immunised child population at the end of the year was 1,795 compared with 1,917 in 1959. The number of primary whooping cough immunisations rose from 90 to 159 and reinforcing rose from 52 to 71.

Smallpox Vaccination

Number of persons vaccinated (or re-vaccinated) during 1960:—

<i>Age Group</i>	<i>Under 1</i>	<i>1</i>	<i>2-4</i>	<i>5-14</i>	<i>15 or over</i>
Vaccinations	74	1	8	11	11
Re-vaccinations	—	—	2	13	23

105 primary vaccinations were undertaken compared with 76 in the previous year. Re-vaccinations rose from 9 to 38.

Vaccination is performed under the National Health Service by General Practitioners. Emergency clinics can be operated in the event of an outbreak of smallpox in County Health Clinics at Salisbury and Swindon. Vaccination propaganda is undertaken by the County Health Authority.

Food Poisoning

No cases of food poisoning were reported.

National Assistance Act, 1948

SECTION 47: REMOVAL TO SUITABLE PREMISES OF PERSONS IN NEED OF CARE AND ATTENTION

It was not found necessary to obtain compulsory removal of any persons against their will from their homes.

This step is one that should only be considered after all assistance that can be given by Home Helps, District Nurses, National Assistance Officers and Welfare Officers, etc., has failed to provide the care and attention needed.

R E P O R T
of the
S E N I O R P U B L I C H E A L T H I N S P E C T O R

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting my thirteenth Annual Report to this Council.

During 1960, routine inspections and improvements have continued. Special mention should be made of the progress obtained under the Clean Air Act, 1956, the work entailed by the Caravan Sites and Control of Development Act, 1960, and the Report (approved by the Ministry) on Slaughterhouse Facilities under the Slaughterhouses Act, 1958.

I would ask the Chairman and Members of the Council and Committees to accept this expression of gratitude for their guidance, also Dr. Speller for his co-operation and Mr. Evans, Miss Pile, Mrs. Godfrey and Miss Penny for their assistance so readily given. The Rodent Operator has continued his duties to the obvious satisfaction of the householders in the district.

I have the honour to be, Mr. Chairman, Ladies and Gentlemen,

Your Obedient Servant,

W. A. NOBLE,

Senior Public Health Inspector.

STAFF

Additional Public Health Inspector	Mr. D. L. Evans
Clerk/Typist	Miss V. A. Pile, (resigned on 20th June, 1960)
	Mrs. E. Godfrey, (from 13th June to 9th September, 1960)
	Miss J. Penny, (commenced duty on 7th September, 1960)
Rodent Operator	Mr. A. H. Hart
Refuse Collection	Mr. J. H. Goodenough, (Foreman/Driver)
	Mr. H. Genders, (Driver)
	Mr. P. Sutherland, (Loader/Relief Driver)
	Mr. R. C. Trott, (Loader/Relief Driver)
	Mr. R. G. Howe
	Mr. M. Stecak

Neither of our slaughterhouses have facilities for sterilisation and it has been agreed that condemned carcase meat shall be stained green and then conveyed to approved premises, outside the district for sterilisation.

The Council were very concerned about the poor conditions at a bakehouse in the district. The proprietor was interviewed and it is pleasing to report that the bakehouse is not now in use.

As mentioned in the Annual Report for 1959, we have commenced a modest routine of sampling pies, ham, fish cakes, etc., for bacteriological examination.

The results for the year are as follows:—

<i>Nature of Sample</i>	<i>No. of Samples</i>	<i>No. of Satisfactory Samples</i>
Pressed Tongue	1	—
Steak and Kidney Pie	2	2
Pork Pie	4	3
Fish Cakes	11	6
Fish Fingers	1	1

The unsatisfactory results are referred to the Local Authority of the place of manufacture and Dr. Mann is in close touch with the Manufacturers of the fish cakes.

ICE-CREAM

	<i>Number</i>	<i>Inspections</i>	<i>Notices Served</i>	<i>Notices complied with</i>
Retailers	36	262	—	—
Manufacturers	—	—	—	—

The popularity of this food is maintained and our sampling routine proves that the hygienic quality of the supplies is very good.

Total Number of Samples 218

Percentage of Samples

<i>Grade I</i>	<i>Grade I or II</i>	<i>Grade III</i>	<i>Grade IV</i>
97%	100%	—	—

The Public Health Laboratory Service suggests that 50% of a vendor's samples should fall into Grade I, 80% into Grade I or II, no more than 20% into Grade III and none into Grade IV.

MILK AND DAIRIES

Milk and Dairies Regulations

	<i>Number</i>	<i>Inspections</i>	<i>Notices Served</i>	<i>Notices complied with</i>
Dairies	1	} 286	1	1
Distributors	5			
Dairymen operating from outside district ...	17			
Producer/Retailer ...	7			

Milk (Special Designation) Regulations

“Tuberculin Tested” Dealers Licences	7
“Pasteurised” Dealers Licences	7
Supplementary “Tuberculin Tested” Licences	15
Supplementary “Pasteurised” Licences	14
Supplementary “Sterilised” Licence	1

Set out below are the sample results of “designated” milk.

Number of “Tuberculin Tested” Milk Samples	...	109
Number of Satisfactory “Tuberculin Tested” Milk Samples	...	103
Number of “Pasteurised” Milk Samples	...	88
Number of Satisfactory “Pasteurised” Milk Samples	...	88
Number of “Tuberculin Tested (Pasteurised)” Milk Samples	...	72
Number of Satisfactory “Tuberculin Tested (Pasteurised)” Milk Samples	...	72
Number of “Sterilised” Milk Samples	...	6
Number of Satisfactory “Sterilised” Milk Samples	...	6
Number of Biological Samples for Tubercle Bacillus and Brucella Abortus	...	44
Number of Satisfactory Biological Samples for Tubercle Bacillus	...	44
Number of Satisfactory Biological Samples for Brucella Abortus	...	42

Our sampling routine has involved considerable time and travelling. By virtue of the Milk (Special Designation) Regulations, 1960, the duty of licensing and sampling is transferred to the County Council as from 1st January, 1961. At the end of the year, the County Council had made enquiry as to whether District Councils were prepared to undertake these duties as a delegated power.

Biological samples have been satisfactory except for two biological samples giving positive results for Brucellosis. The dairyman's supply was discontinued from the farm concerned,

WATER

Number of Public Water Supplies in the District	...	5
Number of Bacteriological Samples obtained during 1960		38
Number of samples taken for chemical analysis during 1960		—

Appendix "B" of this report sets out the sample results for the year.

I am not in a position to give, with any degree of accuracy, the number of houses and the population in each parish supplied from public water mains direct to houses or by means of standpipes. None of the water supplies appear to be liable to plumbo-solvent action.

The number of public supplies has decreased considerably in the 13 years I have been in office with the Council.

A special series of samples was taken in December following severe flooding in this area. The results were excellent.

FACTORIES

	<i>Number</i>	<i>Inspections</i>	<i>Notices Served</i>	<i>Notices complied with</i>
Factories with power	... 27	36	4	3
Factories without power	... 2	2	—	—
Outworkers	... 5	—	—	—

The requirements of the Factories Act, 1937, appear to be complied with and full details, as required by the Ministry, are mentioned in Appendix "C."

SHOPS

	<i>Number</i>	<i>Inspections</i>	<i>Notices Served</i>	<i>Notices complied with</i>
Shops	... 42	26	—	—

The requirements of the Shops Act, are fulfilled and conditions are generally satisfactory.

MOVEABLE DWELLINGS

	<i>Number</i>	<i>Inspections</i>		<i>Notices Served</i>	<i>Notices complied with</i>
Licences Refused	—		}	2	2
Individual Licences	—				
Site Licences	11	108			

It is pleasing to report that no complaints have been received during the year regarding gypsies at Norrington Common.

All sites, licensed by the Council, have been inspected to ensure compliance with the licence conditions.

A special report was submitted to the Public Health Committee in November on the implications of the Caravan Sites and Control of Development Act, 1960. All our sites are small (the largest having 9 caravans) and the Council agreed seven standard conditions relating to number of caravans on site, water supply, sanitary accomodation, disposal of waste water, paths, fire extinguisher and refuse bin.

RODENT CONTROL

Details, in the form required by the Ministry of Agriculture, Fisheries and Food, are given in Appendix "D."

The Rodent Operator has continued with his routine inspections, including farm inspections. We now have 15 farm contracts for which a fixed charge is made, each farm is visited every 4 months and the necessary treatments carried out.

During the year, the Holt Sewerage System was test baited twice and the new Atworth Sewerage System on one occasion. I am pleased to say there were "no takes."

REFUSE COLLECTION AND DISPOSAL

A weekly collection throughout the District is maintained with a limited service for some trade refuse. A collection, under contract, at the R.A.F. Station, Melksham Without, is in operation with very satisfactory results. The Council have two 10 cu. yd. refuse collection vehicles—one Bedford and one Ford. Apart from normal running troubles, these give very good service.

The tip at Westwood is nearing completion and a supply of top soil has been obtained for final cover. Planning permission has been granted for the use of an alternative site nearby.

SALVAGE

During the year, the following items of salvage have been sold:—

	<i>Weight</i>				<i>Approx. Value</i>		
	<i>tons</i>	<i>cwts.</i>	<i>qrs.</i>	<i>lbs.</i>	<i>£</i>	<i>s.</i>	<i>d.</i>
Wools	—	2	3	2	12	0	4
Rags	3	4	0	14	27	16	3
Waste Paper	22	6	3	0	156	7	3
Scrap Metal	4	6	2	8	70	10	3
Total					£266	14	1

CESSPOOL EMPTYING SERVICE

This service, brought into operation in 1948, has been utilised to clear 459 cesspools and septic tanks during 1960.

The Contractors, employed by the Council, visit the District every three months and it has been useful to many householders to have a standing order for such clearances with the Council.

The service has grown from 75 clearances in 1948 to 459 clearances in 1960.

HOUSING

Number of houses inspected and recorded	29
Number of houses suitable for action under Section 16 of the Housing Act, 1957	29
Number of houses suitable for action under Section 9 of the Housing Act, 1957	—
Number of Demolition Orders issued	14
Number of Closing Orders issued	10
Number of undertakings accepted under Section 16 of the Housing Act, 1957	8
Number of notices under Section 9 of the Housing Act, 1957	—

The Council's policy is to formally deal with dwellings which were placed in Category IV in the Housing Survey and similarly to deal with properties becoming vacant where re-letting might provide a "stepping stone" to Council re-housing. The policy has been pursued through the year and 29 cottages have been so formally reported to the Housing Committee as suitable for action under Section 16 of the Housing Act, 1957. Every endeavour is

made to persuade owners to undertake re-conditioning schemes and to take advantage of Improvement Grants.

During the year, 3 cottages were demolished and 6 re-conditioned.

47 Discretionary Grants (total £16,777 10s. 0d.) and 17 Standard Grants under the House Purchase and Housing Act, 1959, have been made during 1960. Some considerable discussion and inspections are a preliminary to such applications but the work is well justified by the results.

No applications have been made during the year for Certificates of Disrepair under the Rent Act, 1957.

PUBLIC HEALTH ACT, 1936

Number of inspections	213
Number of informal notices served	6
Number of statutory notices served	—
Number of informal notices complied with	11
Number of statutory notices complied with	—

RIVERS, STREAMS AND SEWERAGE

Four of the thirteen parishes (Atworth, Hilperton, Holt and Winsley) now have sewerage systems and further schemes are envisaged by the Council. Throughout the District, informal action has been taken to prevent pollution of streams and water courses, but sewer ditches continue to be a problem.

SWIMMING BATHS

There are no swimming baths or pools open to the public in this area. Various samples and some advisory work was undertaken for private pools at schools in the District.

CLEAN AIR ACT, 1956

Following the last two years' preliminary work, I am glad to say that co-operation with the Managements of various firms has been very well sustained and the following condensed results of smoke observations taken with Ringlemann Charts show the improvement which has been obtained. (The percentage of observations showing non-compliance is, for the respective quarters, 21%, 7%, 25% and 20%).

Smoke Observations, 1960

Premises	1959		Jan.-Mar.		Apr.-Jun.		Jul.-Sep.		Oct.-Dec.	
	C	N	C	N	C	N	C	N	C	N
A ...	15	9	6	-	4	-	2	-	3	-
B ...	20	4	6	-	4	-	2	-	3	-
C ...	17	2	6	-	4	-	2	-	2	1
D ...	16	5	5	2	5	-	2	-	3	-
E ...	19	-	4	3	4	1	1	1	1	3
F ...	12	7	4	3	4	1	-	2	4	-
Total	99	27	31	8	25	2	9	3	16	4

“C” indicates compliance with the Clean Air Act and the Dark Smoke (Permitted Periods) Regulations, 1958.

“N” indicates non-compliance.

It should be mentioned that as regards premises “E,” I have a written assurance that some old hand fired Lancashire boilers will be replaced with a modern type boiler. Considerable structural work will be entailed and the installation will commence by the end of 1961.

In the case of premises “F,” different types of fuel are being tried and the matter is actively before the Regional Board who control the premises.

RAG FLOCK AND OTHER FILLING MATERIALS ACT, 1951

Number of Premises Registered	2
Number of Visits	7
Number of Samples obtained	8

Three samples of rag flock, two of feathers, two of hair and one of cotton felt were obtained during the year. To save expense, these samples were taken informally.

I am pleased to report that all the samples proved satisfactory.

PET ANIMALS ACT, 1951

Number of Premises Licensed	1
Number of Visits	1

Before renewal of the licence, the premises are visited by me and the Local Inspector of the R.S.P.C.A., to whom my thanks are due for co-operation and advice.

AGRICULTURE (SAFETY, HEALTH AND WELFARE PROVISIONS) ACT, 1956

The Rodent Operator has continued with the inspection of farms under this Act in conjunction with his rodent control farm

inspections. The necessary details of 9 farms have been officially recorded.

So far, we have not found it necessary to serve any notices under the Act and it seems to me that, as far as the provisions enforceable by local authorities are concerned, the type of farm in this area does not provide difficulties.

DISEASES OF ANIMALS (WASTE FOODS) ORDER, 1957

One of the premises licensed by the Council under the above Order has been discontinued and the licence cancelled. The remaining six premises have been visited and conditions appear quite reasonable.

OFFICES ACT, 1960

This Act comes into force on the 1st January, 1962. When the regulations regarding health, safety and welfare are issued, a preliminary survey appears desirable.

NOISE ABATEMENT ACT, 1960

The terms of this new Act were discussed by the Public Health Committee. Obviously, a rural district such as this does not provide serious noise problems, but the provisions of the Act would be employed when the occasion arises.

PUBLIC HEALTH LABORATORY SERVICE

I would like to make special mention of the very good service given to this Council by Dr. Mann and the Public Health Laboratory at Manor Hospital, Bath. All our milk, ice-cream and water samples are given prompt attention and it is of very great assistance to have Dr. Mann's advice so readily available.

GENERAL

The following visits have been made in connection with miscellaneous items requiring attention:—

Drainage	732
Water Supply	75
Salvage	7
Miscellaneous Housing Visits and Small Dwellings Acquisition Act enquiries	915
Refuse Collection and Disposal	348
Rodent Control	18

APPENDIX "A"

CARCASES AND OFFAL INSPECTED AND CONDEMNED
IN WHOLE OR IN PART

	<i>Cattle excluding Cows</i>	<i>Cows</i>	<i>Calves</i>	<i>Sheep and Lambs</i>	<i>Pigs</i>	<i>Horses</i>
Number killed ...	690	1,442	809	74	21	—
Number inspected ...	690	1,442	809	74	21	—
<i>All diseases except Tuberculosis & Cysticerci</i> Whole carcasses condemned ...	1	17	9	5	—	—
Carcases of which some part or organ was condemned ...	110	638	12	3	—	—
Percentage of the number inspected affected with diseases other than Tuberculosis and Cysticerci ...	16.1	45.4	2.6	10.8	—	—
