A. A. MAXWELL, M.A.P.H.I.

Public Health Inspector

Surveyor's Office

BROMFORD

(Telephone: Bromford 2147)

To the Chairman and Members of the Bromyard Urban  
District Council.

Mrs. Powell, Gentlemen,

I have pleasure in presenting my Annual Report  
for the year 1960.

#### Statistical Section

Owing to the small population of the area described, figures, particularly percentages, have little meaning and no deductions should be drawn from them in the field of vital statistics. I notice, however, that of the five deaths from cancer, three were from lung cancer.

#### Infectious Diseases

It is interesting to note that Bromyard did not suffer the outbreak of dysentery which was widespread in the rest of North Herefordshire during the Spring and Summer.

#### Health Inspector's Report

Since Mr. Maxwell wrote his report I am glad to note that progress has been made with a new sewerage scheme which will not only improve the general drainage of the area but also help to clean the river. It is true that these schemes cost money, but one must count as a gain the general improvement in sanitation. It must also be realised that without this scheme the possibility of expansion of the town by new building and new industries would be seriously if not completely impeded.

The coming into existence of the Water Board has been an advance, for their greater resources in manpower and money will in future prevent the type of breakdown which occurred in 1959.

I wish to thank Mr. Maxwell for completing much of this report, and for his help in the past year.

G.D.K. NEEDHAM

Medical Officer of Health

NATIONAL HEALTH SERVICE ACT, 1946, Section 26Vaccination and Immunisation

Vaccination and Immunisation are a County Council responsibility, and the figures given below have been kindly supplied by the County Medical Officer of Health.

Numbers of children in the district who were immunised during the year:

Immunisation against	Age of child			Total	Reinforcing Injections
	Under 1	1 - 4	5 - 14		
Diphtheria	12	7	9	28	47
Whooping Cough	15	1	-	16	-
Diphtheria/Tetanus/Whooping Cough	10	1	-	11	-

Numbers of children in the district who were vaccinated against Smallpox during the year:

Vaccination against Smallpox	Age of child					Total	Revaccinations
	Under 1 yr.	1 yr.	2-4	5-14	15 & over		
	23	2	2	-	-	27	-

NATIONAL ASSISTANCE ACT, 1948, Section 47NATIONAL ASSISTANCE (AMENDMENT) ACT, 1951

No action needed to be taken under this section during the year.

SANITARY CIRCUMSTANCES AND INSPECTIONWATER SUPPLY

Number of houses connected to supply under the control of the Herefordshire Water Board ... 603

The supply during the first three months of the year came under the control of the Local Authority, but on the 1st April the newly formed Herefordshire Water Board took over the undertaking. The supply gave little cause for concern as regards quality and quantity during the year and with the advent of the Water Board, the personnel employed on looking after the supply was increased, and equipment was installed which has modernised the pumping facilities.

WATER SUPPLY (Continued)

It has been pleasing to note that since the Water Board took over the supply any major defects have been speedily dealt with by a mobile squad from the Central Depot.

Number of water samples taken during the year for bacteriological examination .. 8. All of these proved to be satisfactory.

SEWERAGE AND SEWAGE DISPOSAL

Number of houses			
Connected to public sewers	Connected to private disposal works	Using pail or earth closets	Without satisfactory means of disposal
584	9	5	5

Approval is still awaited for the plans of the new sewage disposal plant, and the Council are very keen to start this work, but delay at Ministry level has caused the estimated cost of the work to be increased: with the greater cost of borrowing the capital, the scheme estimate has risen by 5%. This extra burden of our essential project will therefore fall on the ratepayers.

In view of the increase of rates in other sections, and of the Rivers Pollution Act which gives River Boards power to prosecute local authorities for pollution, is it not time for some Government assistance towards such schemes? Or is the solution of the problem of dealing with sewage disposal - which may be satisfactory in one area and entirely inadequate in another - a national one being chargeable to the general taxation of the country as a whole?

HOUSING

The general housing in the area compared with the rest of the country is satisfactory, but the problem of retaining the youth of the area is indeed a serious one, and the majority of the householders are in the age group of over 50 years. The prospect of speculative building in the area is remote, as the size of the district does not allow for extensive development.

Improvement Grants

During the year there were a number of inquiries made for Statutory Grants to improve the conditions of houses.

Slum Clearance Programme

No action was taken during the year.

HOUSING (Continued)The Rent Act, 1957

Although this Act did not cause any considerable amount of work there were many inquiries to be dealt with, and interviews with owners.

Housing Statistics

- |       |  |     |
|-------|--|-----|
| 1 (a) | Total number of dwelling-houses inspected for defects under the Public Health and Housing Acts .. .. .             | 51  |
| (b)   | Number of inspections made .. .. .   | 129 |
| 2 (a) | Number considered to be in a state so dangerous or injurious to health as to be unfit for human habitation .. .. . | 2   |
| (b)   | Number of inspections made .. .. .   | 8   |

Remedy of defects during the year without service of Formal Notice:

- |     |   |    |
|-----|---|----|
| (a) | Number of houses rendered fit through informal action .. .. .   | 8  |
| (b) | Number of defective houses (excluding those in (a)) in which defects were remedied as a result of informal action .. .. . | 12 |

Action under Statutory Powers during the year:

- |     |  |     |
|-----|--|-----|
| 1   | Proceedings under Sec. 9, 10 and 16, Housing Act, 1936.  |     |
| (a) | number of dwelling-houses in respect of which formal notices were served requiring repairs .. .. .         | Nil |
| (b) | Number of dwelling-houses which were rendered fit after service of formal notice .. .. .                   | Nil |
| 2   | Proceedings under the Public Health Acts.  |     |
| (a) | Number of dwelling-houses in respect of which notices were served requiring defects to be remedied .. .. . | Nil |
| (b) | Number of houses where defects were remedied after service of formal notice .. .. .                        | Nil |

HOUSING (Continued)

## 3 Proceedings under Sec. 11 and 13 of the Housing Act, 1936.

- (a) Number of representations made in respect of dwelling-houses unfit for human habitation .. .. . 1
- (b) Number of houses in respect of which Demolition Orders were made .. .. . Nil
- (c) Number of dwelling-houses demolished in pursuance of Demolition Orders .. Nil
- (d) Action under Sec. 10 and 11 of the Local Government (Misc. Provisions) Act, 1953, dwelling-houses closed .. .. . Nil
- (e) Undertaking not to use for human habitation accepted and houses demolished voluntarily .. .. . 1

## 4 Proceedings under Sec. 12 of the Housing Act, 1936.

- (a) Number of Clearance Areas represented during the year .. .. . Nil
- (b) Number of houses included in these areas Nil
- (c) Number of displaced persons .. .. . Nil
- (d) Action taken during the year in respect of Clearance Areas:
  - (1) by Clearance Order, number made .. Nil
  - (2) by Compulsory Purchase Order .. Nil
- (e) Number of houses in Clearance Areas demolished during the year .. .. . Nil
- (f) Number of houses vacated during the year Nil
- (g) Number of persons rehoused from houses demolished during the year .. .. . Nil
- (h) Number of families rehoused from Clearance Areas .. .. . Nil

## 6 Housing Act, 1936 (Part IV) Overcrowding.

- (a) Number of new cases of overcrowding reported during the year .. .. . Nil
- (b) Number of cases relieved during the year 1
- (c) Number of persons concerned .. .. . 4

PUBLIC CLEANSING

Weekly collections are made from every occupied house in the district, but the amount of refuse collected far exceeds the normal average of other places of greater population. The dustbin is the resting place not only of tins and ashes, but of tea leaves, garden refuse, etc., despite repeated requests to "Burn refuse and save costs".

The streets are cleansed weekly in the residential areas, and daily in the main streets. During hot weather disinfectant is poured into the street gulleys.

Daily cleansing of the public conveniences is carried out, apart from the summer season when they are cleansed sometimes 3 times a day.

RODENT CONTROL

The rodent infestations in the district have declined due to the efficient work of the Operator. Strict attention is paid to the refuse tip and the outfall of the sewers. The infestations where animal carcasses and offal are stored still cause some concern, also the action of some ratepayers in dumping food refuse in open containers.

SWIMMING BATHS

There is no public bath in the district.

FOOD INSPECTION AND SUPERVISIONMilk Registration and Licensing

Three dealers are registered in the urban district. No complaints were received or action taken during the year.

Meat Inspection

Two slaughterhouses exist in the district, one being used regularly and the other for occasional slaughtering. Both are licensed under the Food and Drugs Act, 1955, but are requiring extensive alteration to comply with the new Slaughterhouses Act. The position of the two premises are far from ideal, one being situated at the foot of the butcher's garden and the entrance is from a common path 30 yards away from the highway. In the case of the other premises, it is situated in a street. When the doors are open the general public can see all the operations without encroaching on private property. The final decision of whether these slaughterhouses should remain has not yet been made, but in my opinion in both cases the situations are unsuitable and the Ministry should support any move the Local Authority may make to resite these premises.

Meat Inspection (Continued)

The strict routine inspection of the carcasses slaughtered in both of these premises is indeed a problem, and in my opinion the time has now come for limitation of slaughtering hours, to enable adequate supervision and inspection of the meat. The method of inspection is that laid down in the Ministry of Food Memo. 3/Meat as far as is reasonably practicable.

Six persons are licensed to slaughter animals under the Slaughter of Animals Acts 1933-54. No licenses extend to the slaughter of horses.

Carcases and Offal found unfit in whole or in part and surrendered:-
