Public Health Inspector,

Sanitary Office,

STOW VASS.

(Telephone: Stow Vass 215)

To the Chairman and Members,
Bromyard Urban District Council.

Mr. Chairman, Mrs. Powell, Gentlemen,

I have pleasure in presenting my Annual
report for the year 1961.

I wish to thank Mr. Maxwell for completing
much of this report, and for his help in the past year.

G.D.K. NEEDHAM

Medical Officer of Health

North Herefordshire Public Health Office,
Westfield Walk,
LEOMINSTER,
Herefordshire.

NATIONAL ASSISTANCE ACT, 1948, Section 47NATIONAL ASSISTANCE (AMENDMENT) ACT, 1951

No action needed to be taken under this section during the year.

PUBLIC HEALTH INSPECTOR'S SECTION OF REPORTWATER SUPPLY

The taking over by the Herefordshire Water Board of the supplies in the area has taken from the Urban Council the headaches and complaints. When the Council were the authority for water supply, many petty complaints that were received had to be investigated, and the Authority was always the subject of attack: now the undertaking is centralised the complaints have ceased, even though the problems that existed during the Council's control still exist.

Number of houses connected to supply under the control of the Herefordshire Water Board 603

Number of water samples taken during the year for bacteriological examination 8
All of these proved to be satisfactory.

SEWERAGE AND SEWAGE DISPOSAL

Number of houses			
Connected to public sewers	Connected to private disposal works	Using pail or earth closets	Without satisfactory means of disposal
584	9	5	5

SEWERAGE AND SEWAGE DISPOSAL (Continued)Sewage Disposal Plant

This hardy annual must again be mentioned in the report, but, with the Inquiry having been held by the Ministry, progress is now on the way and perhaps by the end of 1962 we may see the fruition of a dream that has existed since 1894, of a proper disposal plant for the Urban district. The design of the works takes into consideration the future development of the area, and with this, one of the major problems of increased population can be faced.

It is hoped that once the works have been constructed that the complaints of river pollution will cease. The maintenance of the works will be another problem, and the engagement of an employee to supervise and maintain the disposal plant in a satisfactory manner will be essential.

HOUSING

The general housing conditions in the area could well be better. Many derelict houses have in the past been repaired and modernised to bring them up to the present day standard. The Ministry, realising these facts, have introduced Discretionary Grants, but these are subject to the sanction and approval of the local councils. In some areas, like our Urban authority, discretionary grants are not viewed with favour, and grants made under the Standard Grant system are grudgingly approved. If the general standard of housing is to be raised, is it not time for statutory legislation to be introduced to cover both types of grants, especially if the dwelling is for letting?

Improvement Grants

Eight applications under this scheme were approved.

Council houses

The erection of houses is an expensive venture, and it is sometimes found that once tenants from sub-standard dwellings become Council tenants, they find all faults possible with the houses and are continually asking for repairs, which, in privately owned houses they would never dream of requesting. Do they treat the houses in the same careful manner as they look after the family motor car?

Rent Act, 1957

No action needed to be taken during the year.

Housing Statistics

1 (a)	Total number of dwelling-houses inspected for defects under the Public Health and Housing Acts	48
(b)	Number of inspections	131
2 (a)	Number considered to be in a state so dangerous or injurious to health as to be unfit for human habitation	1
(b)	Number of inspections	5
Remedy of defects during the year without service of Formal Notice:		
1 (a)	Number of houses rendered fit through informal action	7
(b)	Number of defective houses (excluding those in (a)) in which defects were remedied as a result of informal action	14
Action under Statutory Powers during the year:		
1	Proceedings under Sec. 9, 10, and 16, Housing Act, 1936.	
(a)	Number of dwelling-houses in respect of which formal notices were served requiring repairs	Nil
(b)	Number of dwelling-houses which were rendered fit after service of formal notice	Nil
2	Proceedings under the Public Health Acts.	
(a)	Number of dwelling-houses in respect of which notices were served requiring defects to be remedied	Nil
(b)	Number of houses where defects were remedied after service of formal notice	Nil
3	Proceedings under Sec. 11 and 13 of the Housing Act, 1936.	
(a)	Number of representations made in respect of dwelling-houses unfit for human habitation	3
(b)	Number of houses in respect of which Demolition Orders were made	Nil
(c)	Number of dwelling-houses demolished in pursuance of Demolition Orders	Nil
(d)	Action under Sec. 10 and 11 of the Local Government (Misc. Provisions) Act, 1953, dwelling-houses closed	Nil

Housing Statistics (Continued)

(e) Undertaking not to use for human habitation accepted and houses demolished voluntarily	3
4 Proceedings under Sec. 12 of the Housing Act, 1936.	
(a) Number of Clearance Areas represented during the year	Nil
(b) Number of houses included in these areas	Nil
(c) Number of displaced persons	Nil
(d) Action taken during the year in respect of Clearance Areas:	
(1) by Clearance Order, number made ..	Nil
(2) by Compulsory Purchase Order ..	Nil
(e) Number of houses in Clearance Areas demolished during the year	Nil
(f) Number of houses vacated during the year	Nil
(g) Number of persons rehoused from houses demolished during the year	Nil
(h) Number of families rehoused from Clearance Areas	Nil
5 Housing Act, 1936 (Part IV) Overcrowding.	
(a) Number of new cases of overcrowding reported during the year	Nil
(b) Number of cases relieved during the year	1
(c) Number of persons concerned	4

PUBLIC CLEANSING

As mentioned in previous reports, the amount of refuse collected from the houses in this area far exceeds the normal of towns of a similar size, and either through the good-will of the collectors or the wastage of the householders the amount of refuse collected seems to be increasing every year.

RODENT CONTROL

The rodent infestations in the district have declined due to the efficient work of the Operator. Strict attention is paid to the refuse tip and the outfall of the sewers. The infestations where animal carcasses and offal are stored still cause some concern, also the action of some ratepayers in dumping food refuse in open containers.

SWIMMING BATHS

There is no public swimming bath in the district.

FOOD INSPECTION AND SUPERVISIONMeat Inspection

The two slaughterhouses in the town have been approved by the Ministry.

The strict routine inspection of the carcasses slaughtered in both of these premises is indeed a problem, and in my opinion the time has come for limitation of slaughtering hours to enable adequate supervision and inspection of the meat.

Six persons are licensed to slaughter animals under the Slaughter of Animals Acts, 1933-54. No licences extend to the slaughter of horses.

Carcases and Offal found unfit in whole or in part and surrendered:-

	Cattle excluding cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed	506	41	119	1991	518
Number inspected	506	41	119	1991	518
