Wellcome Library
for the History
and Understanding
of Medicine

P R E F A C E.

THE "*Aberdeen Medico-Chirurgical Society*" was Instituted in the year 1789, by a few young men, Students of Medicine there, for the purpose of mutual instruction, by examining each other, and delivering and criticising discourses, on the different branches of Medical Science ; and, in the year 1791, a Library was commenced, by each member presenting some volumes.

The Society was divided into three Classes, Honorary, Extraordinary, and Ordinary Members ; and to the two first, composed of most of the resident Medical Practitioners, and of many gentlemen in different parts of Great Britain, illustrious for their scientific acquirements, Diplomas were granted.

The meetings of the Ordinary Members were held in the premises of Dr. WILLIAM LIVINGSTON, at that time one of the Physicians of the Infirmary, who had accepted the office of Honorary President, and who had always taken a deep interest in the welfare of the Society.

In consequence of the increase of the Library, by the purchase of books and numerous donations, it became an object to procure a proper building for the Institution ; and, with this view, a Subscription was commenced by the members and friends of the Society, which, along with the entrant fees of members, soon amounted to a considerable sum, and it became necessary to appoint some corporate body, as Trustees to manage the property. A Trust Deed was, therefore, in the year 1812, executed by the Honorary, Extraordinary, and Ordinary Members, at that time resident in Aberdeen, in favour of the Principal and Professors of the Marischal College and University of Aberdeen, under certain regulations.

It having been found that the regulations contained in this Deed were not sufficiently effective; and that, from the constant change taking place amongst the Ordinary Members, as they left Aberdeen, in the prosecution of their studies or their profession, the property of the Society was not sufficiently protected, nor its usefulness, in other respects, maintained; it became necessary to grant a new Trust Deed, with provisions more likely to uphold the permanency of the Institution. Accordingly, the Trust Deed of which a copy follows, was executed in 1817, in favour of the same parties; and, on this Deed, alterations have been made from time to time, as circumstances demanded.

By the original constitution of the Society, the Honorary Members were declared to be the custodians of its property, in the event of its dissolution, or any other matter requiring their interference. By the new Trust Deed thereof, the management of the property was vested in such of the resident Honorary or Extraordinary Members as might take an interest in the Institution, attend its meetings, and contribute regularly to its funds. And, to avoid the seeming anomaly of having the Society governed and represented, solely by Honorary and Extraordinary Members, those who thus took the management of its affairs, were erected into a distinct class, and called "*Ordinary Members of the First Class*," while the Students were denominated "*Ordinary Members of the Second Class*."

This arrangement having been likewise found inconvenient, and apt to occasion mistakes, a farther alteration was made, by which the Honorary and Extraordinary Members were united into one class, under the title of "*HONORARY MEMBERS*," and the Ordinary Members of the first class, as the representatives and governors of the Society, were denominated, simply, "*ORDINARY MEMBERS*," the Second, or Students' Class, being termed "*JUNIOR MEMBERS*." And, as by the wording of the Trust Deed, the Ordinary Members (there styled Ordinary Members of the First Class) could add to their own number only by the circuitous process of electing the Candidate an Honorary or Extraordinary Member of the Society, and thus

putting it in his power to join their Class on the conditions mentioned in the Deed, an alteration was at the same time made, empowering them to admit Members directly into their own Class.

The Ordinary Members, always bearing in mind the principal object of the Institution, have assisted, in every possible manner, the progress of the Junior Members; and, with that view, they have from time to time made such regulations as experience pointed out, as best adapted for conducting the professional business of the Junior Class, and affording to those composing it the full advantages of the Society.

The permanency and stability of the Society being insured by the Deed of 1817, liberal subscriptions were made by its friends; and the Ordinary Members were enabled, in 1820, to erect a handsome Building, at an expence of above £3,000, with ample accommodations for all the purposes of the Institution. Of the sum collected for this object, a large proportion was obtained by the liberality, zeal, and exertions of Sir James M'Grigor, Baronet, Director-General of the Army Medical Department, one of the Institutors of the Society, and who has unremittingly shown the warmest interest in all its concerns.

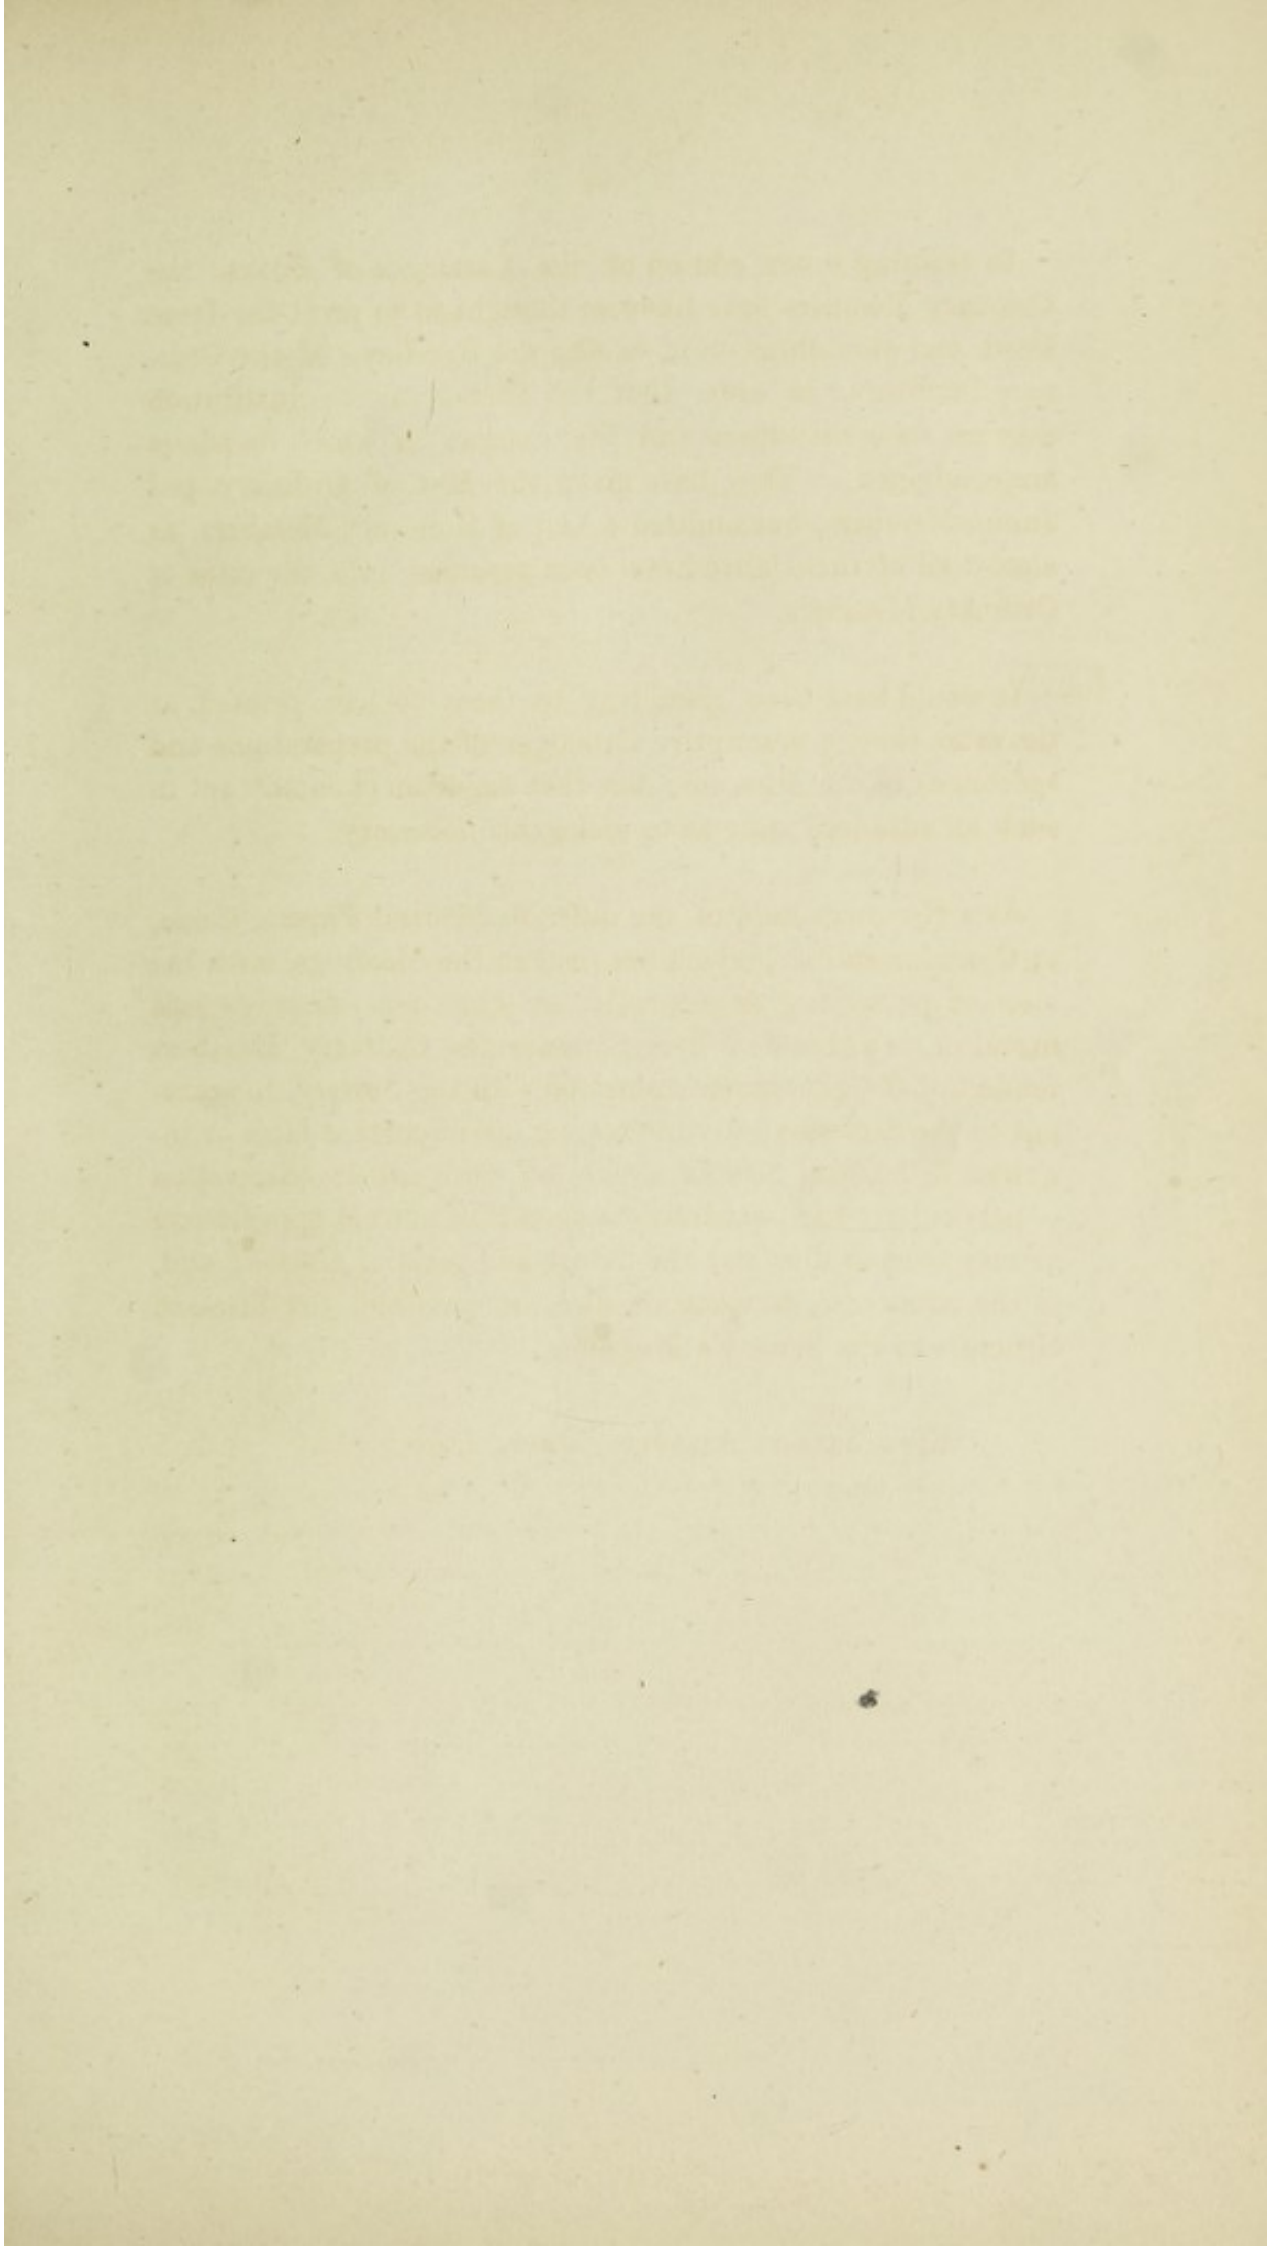

Two Funds have been specially set apart—one for keeping the Building in repair, and extending it as may be necessary, the other for the payment of a Librarian's salary; and the annual income, consisting of the Subscriptions and Admission Fees, is, after defraying the necessary household charges, expended on the Library and Museum. Numerous donations are likewise arriving yearly to both: and whilst the Members have to regret the death of many of their former associates, they have still the satisfaction to find, from the numerous *bequests* to the Institution, that the management of those residing in Aberdeen has been approved of, and that the same feeling of interest in the welfare of the Society has remained from the first of the Member's connection with it to the last days of his life.

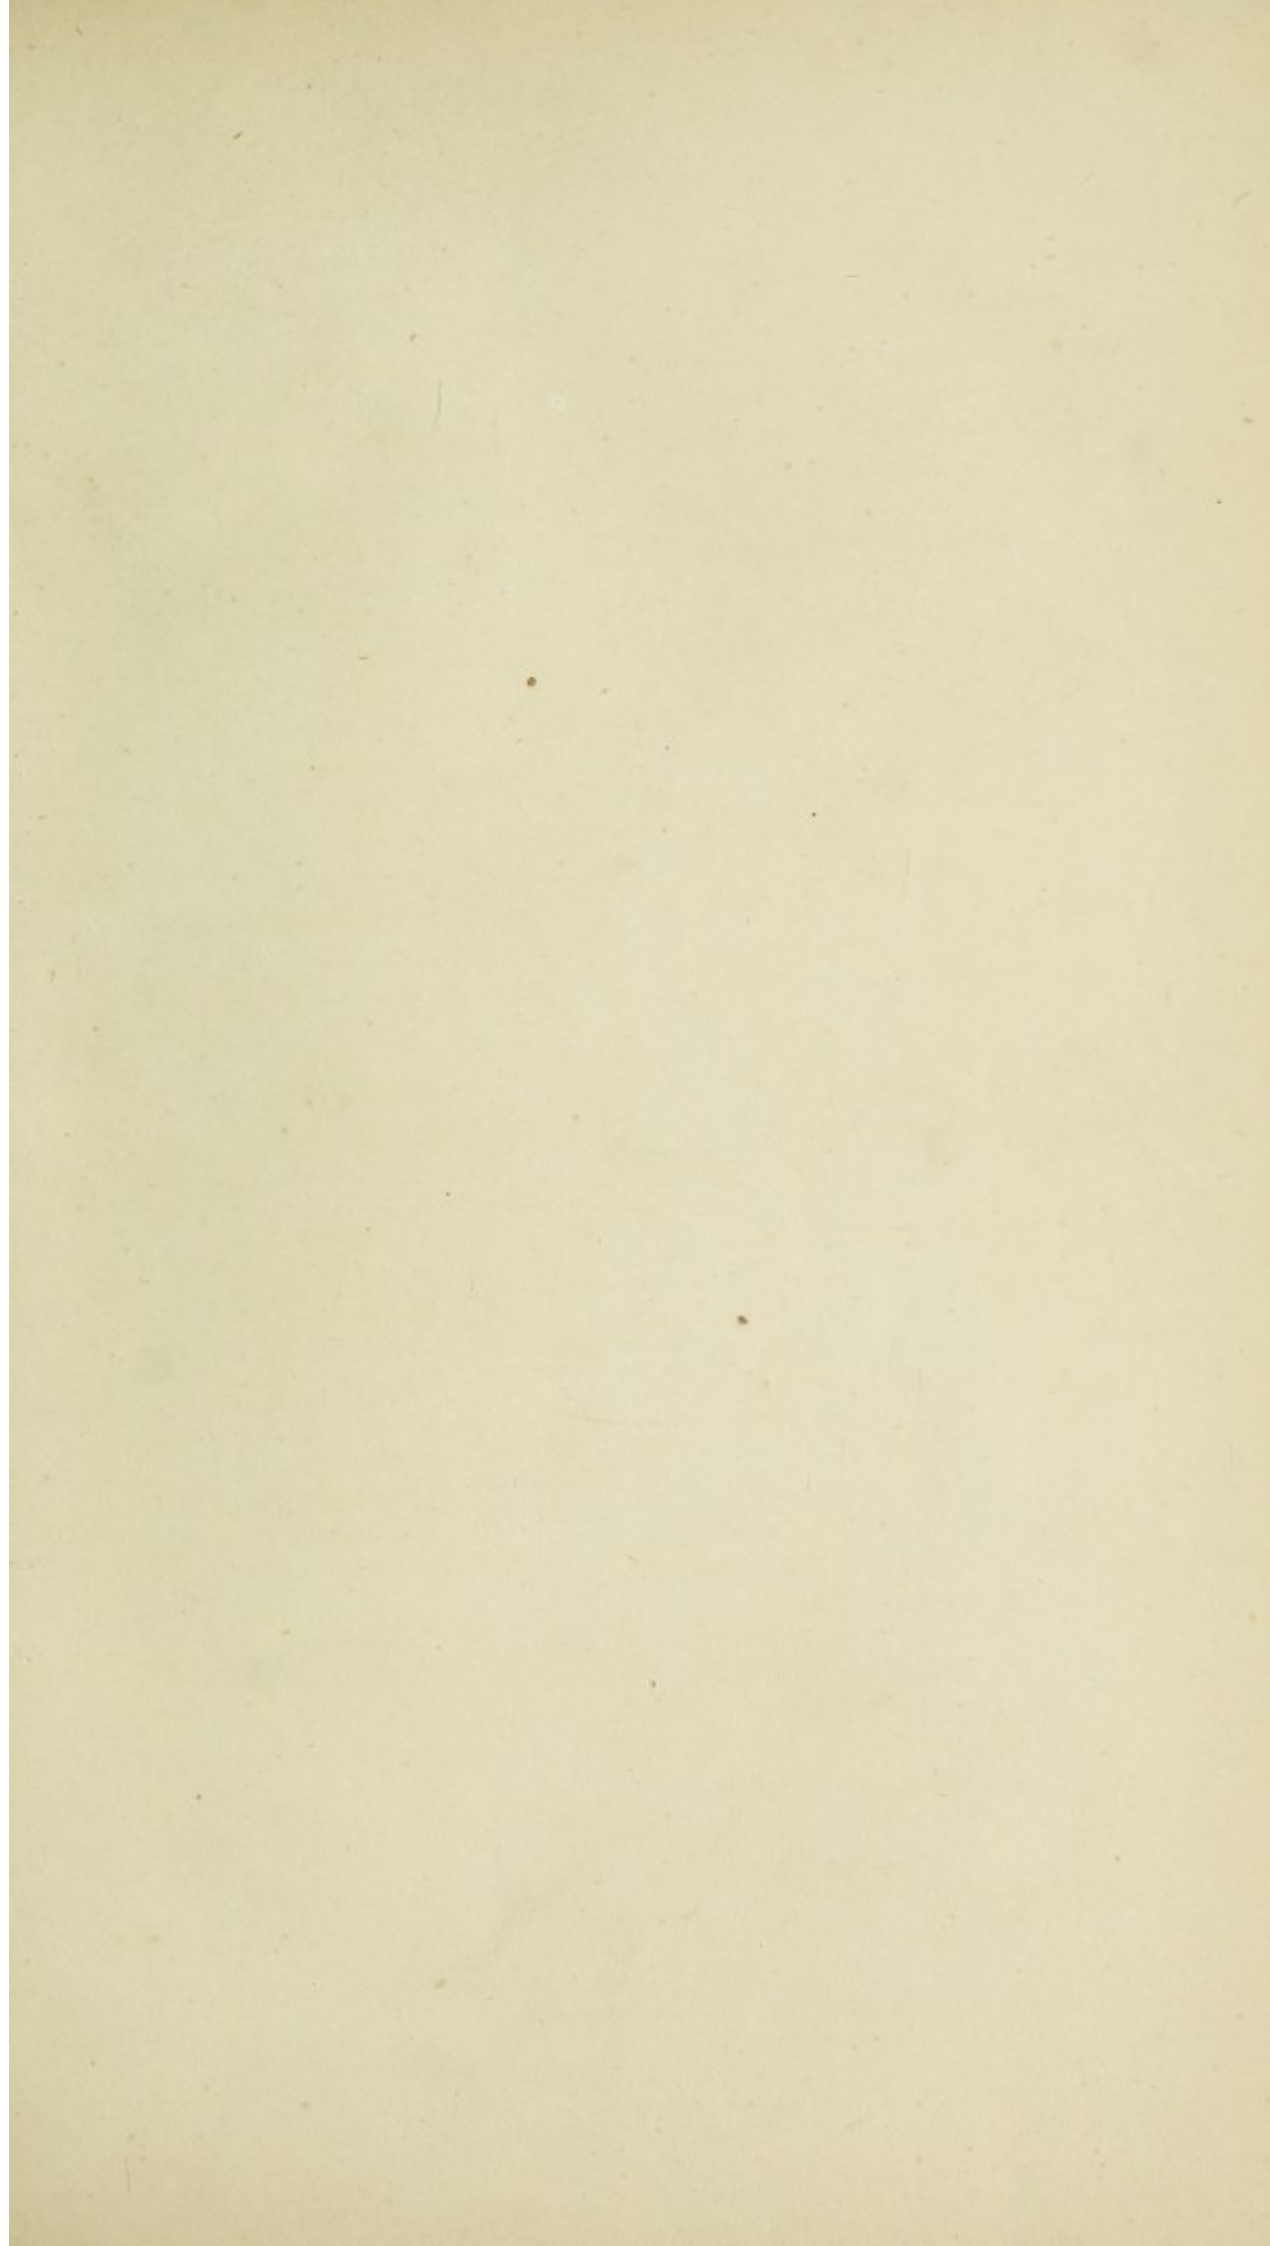

In printing a new edition of the Catalogue of Books, the Ordinary Members have likewise thought fit to print the Trust Deed, and alterations on it, as also the Bye-Laws of the Ordinary Members, in order that the friends of the Institution may see its constitution and the manner in which its affairs are conducted. They have given the List of Ordinary and Junior Members, but omitted a List of Honorary Members, as almost all of these alive have been assumed into the class of Ordinary Members.

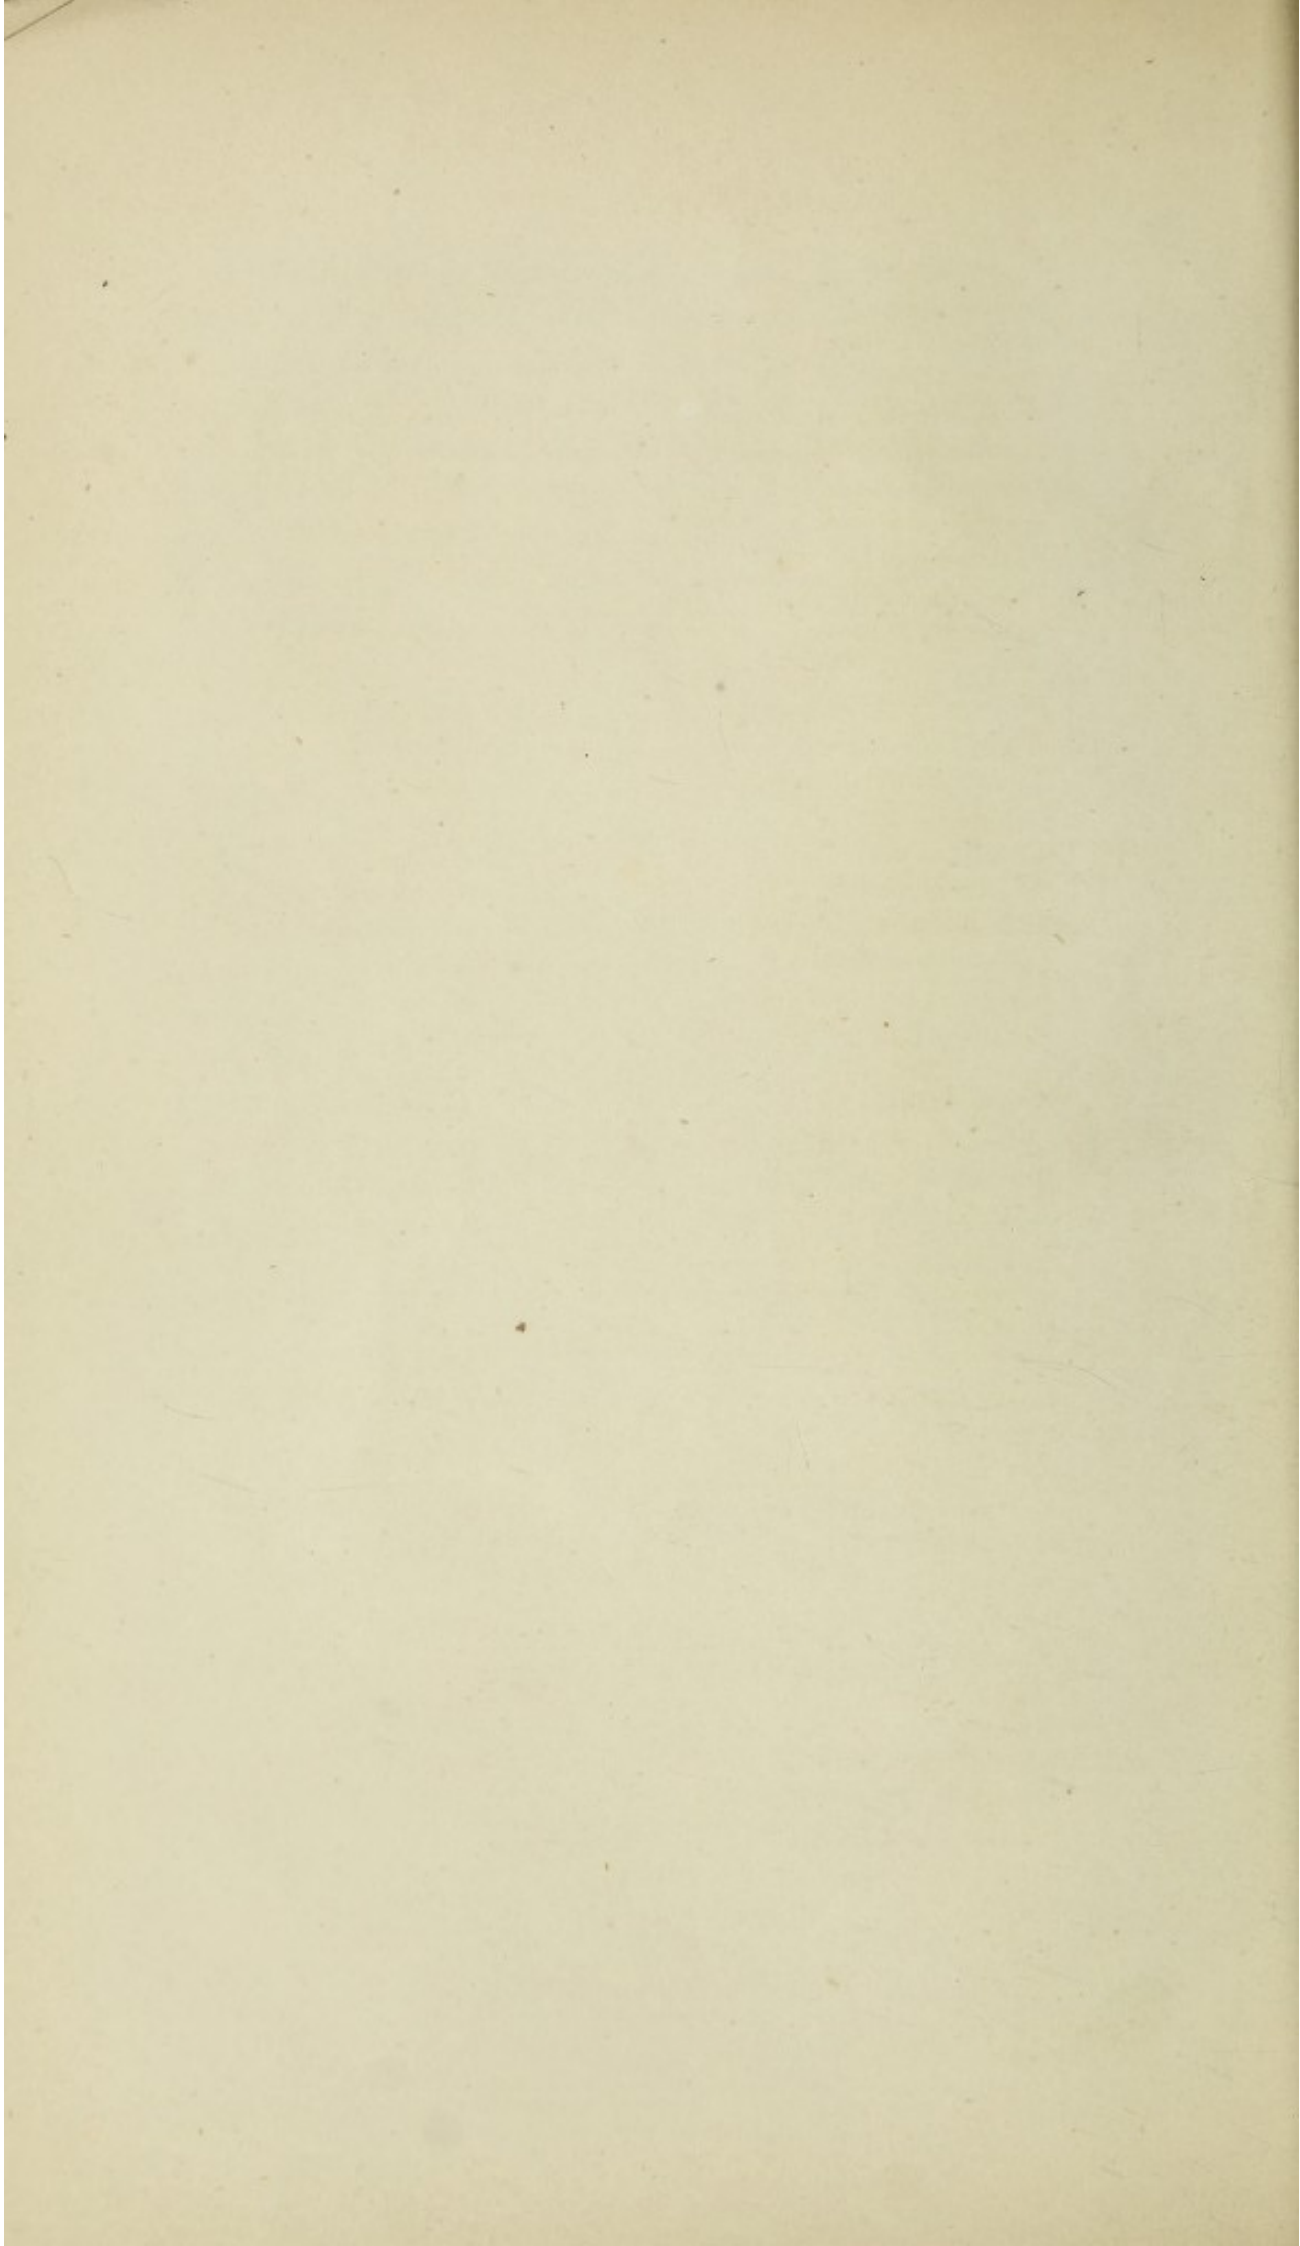

It would have been gratifying to them to have printed, at the same time, a descriptive Catalogue of the preparations and specimens in the Museum; but that department is not yet in such an advanced state as to make this necessary.

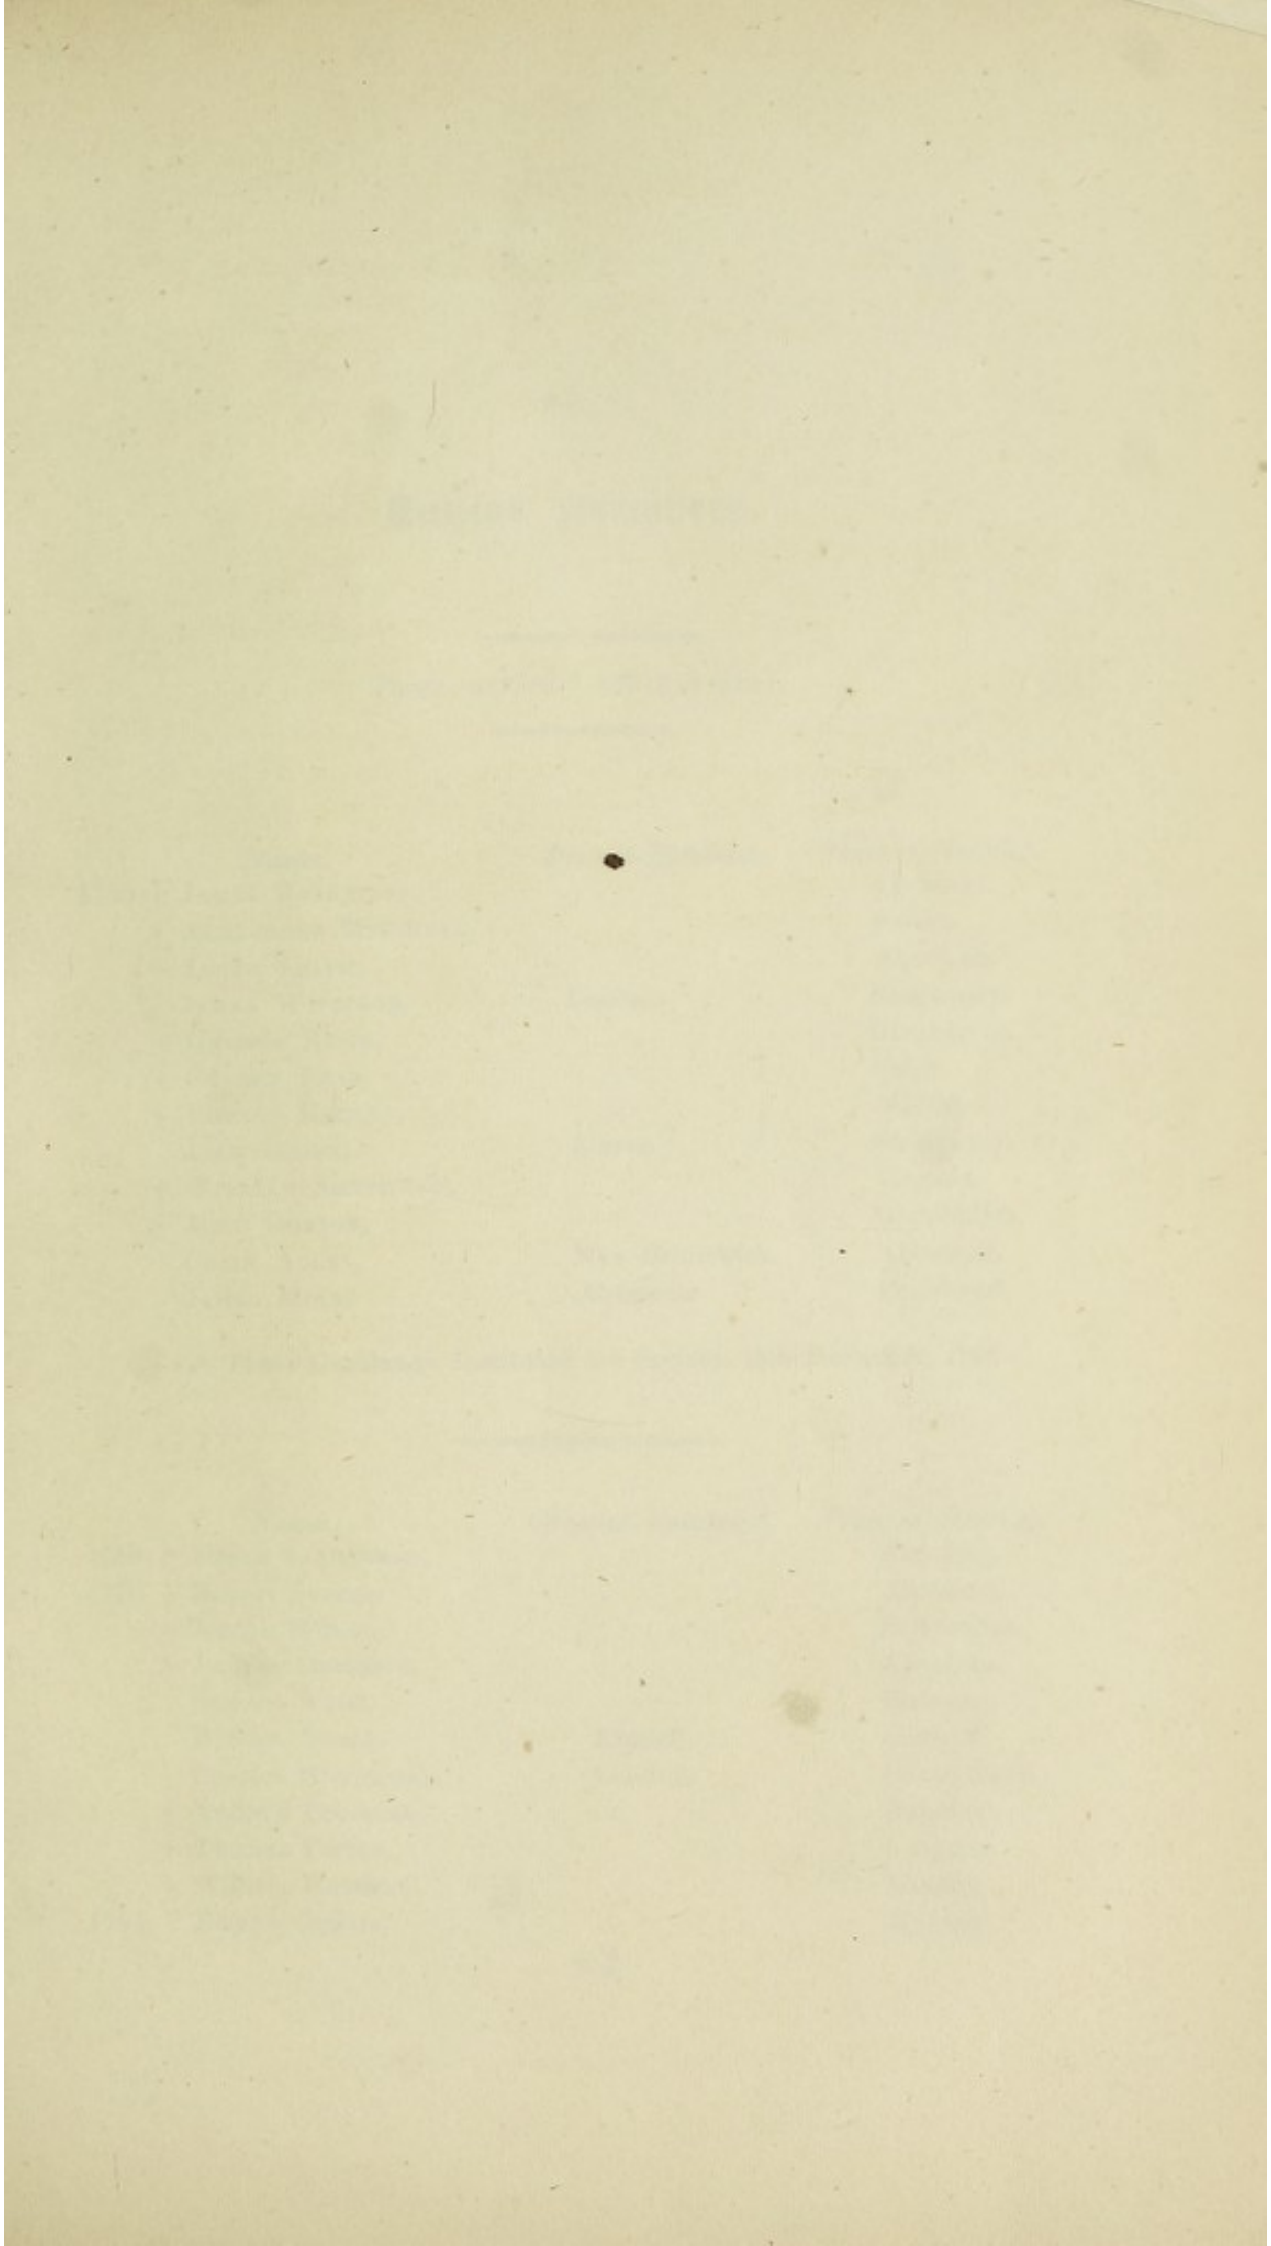

As a Record is kept of the different Medical Papers, Cases, or Communications, which are read at the Meetings, with the view of publishing occasionally, at some convenient periods hereafter, a Volume of Transactions, the Ordinary Members request of the gentlemen connected with the Society, to transmit to the Secretary, any interesting or important facts or inquiries in Medical Science which fall under their observation—particularly such accurate statements of morbid appearances as may tend to illustrate the nature and seats of disease; and, in the latter case, to transmit also, if possible, the diseased structure to the Society's Museum.

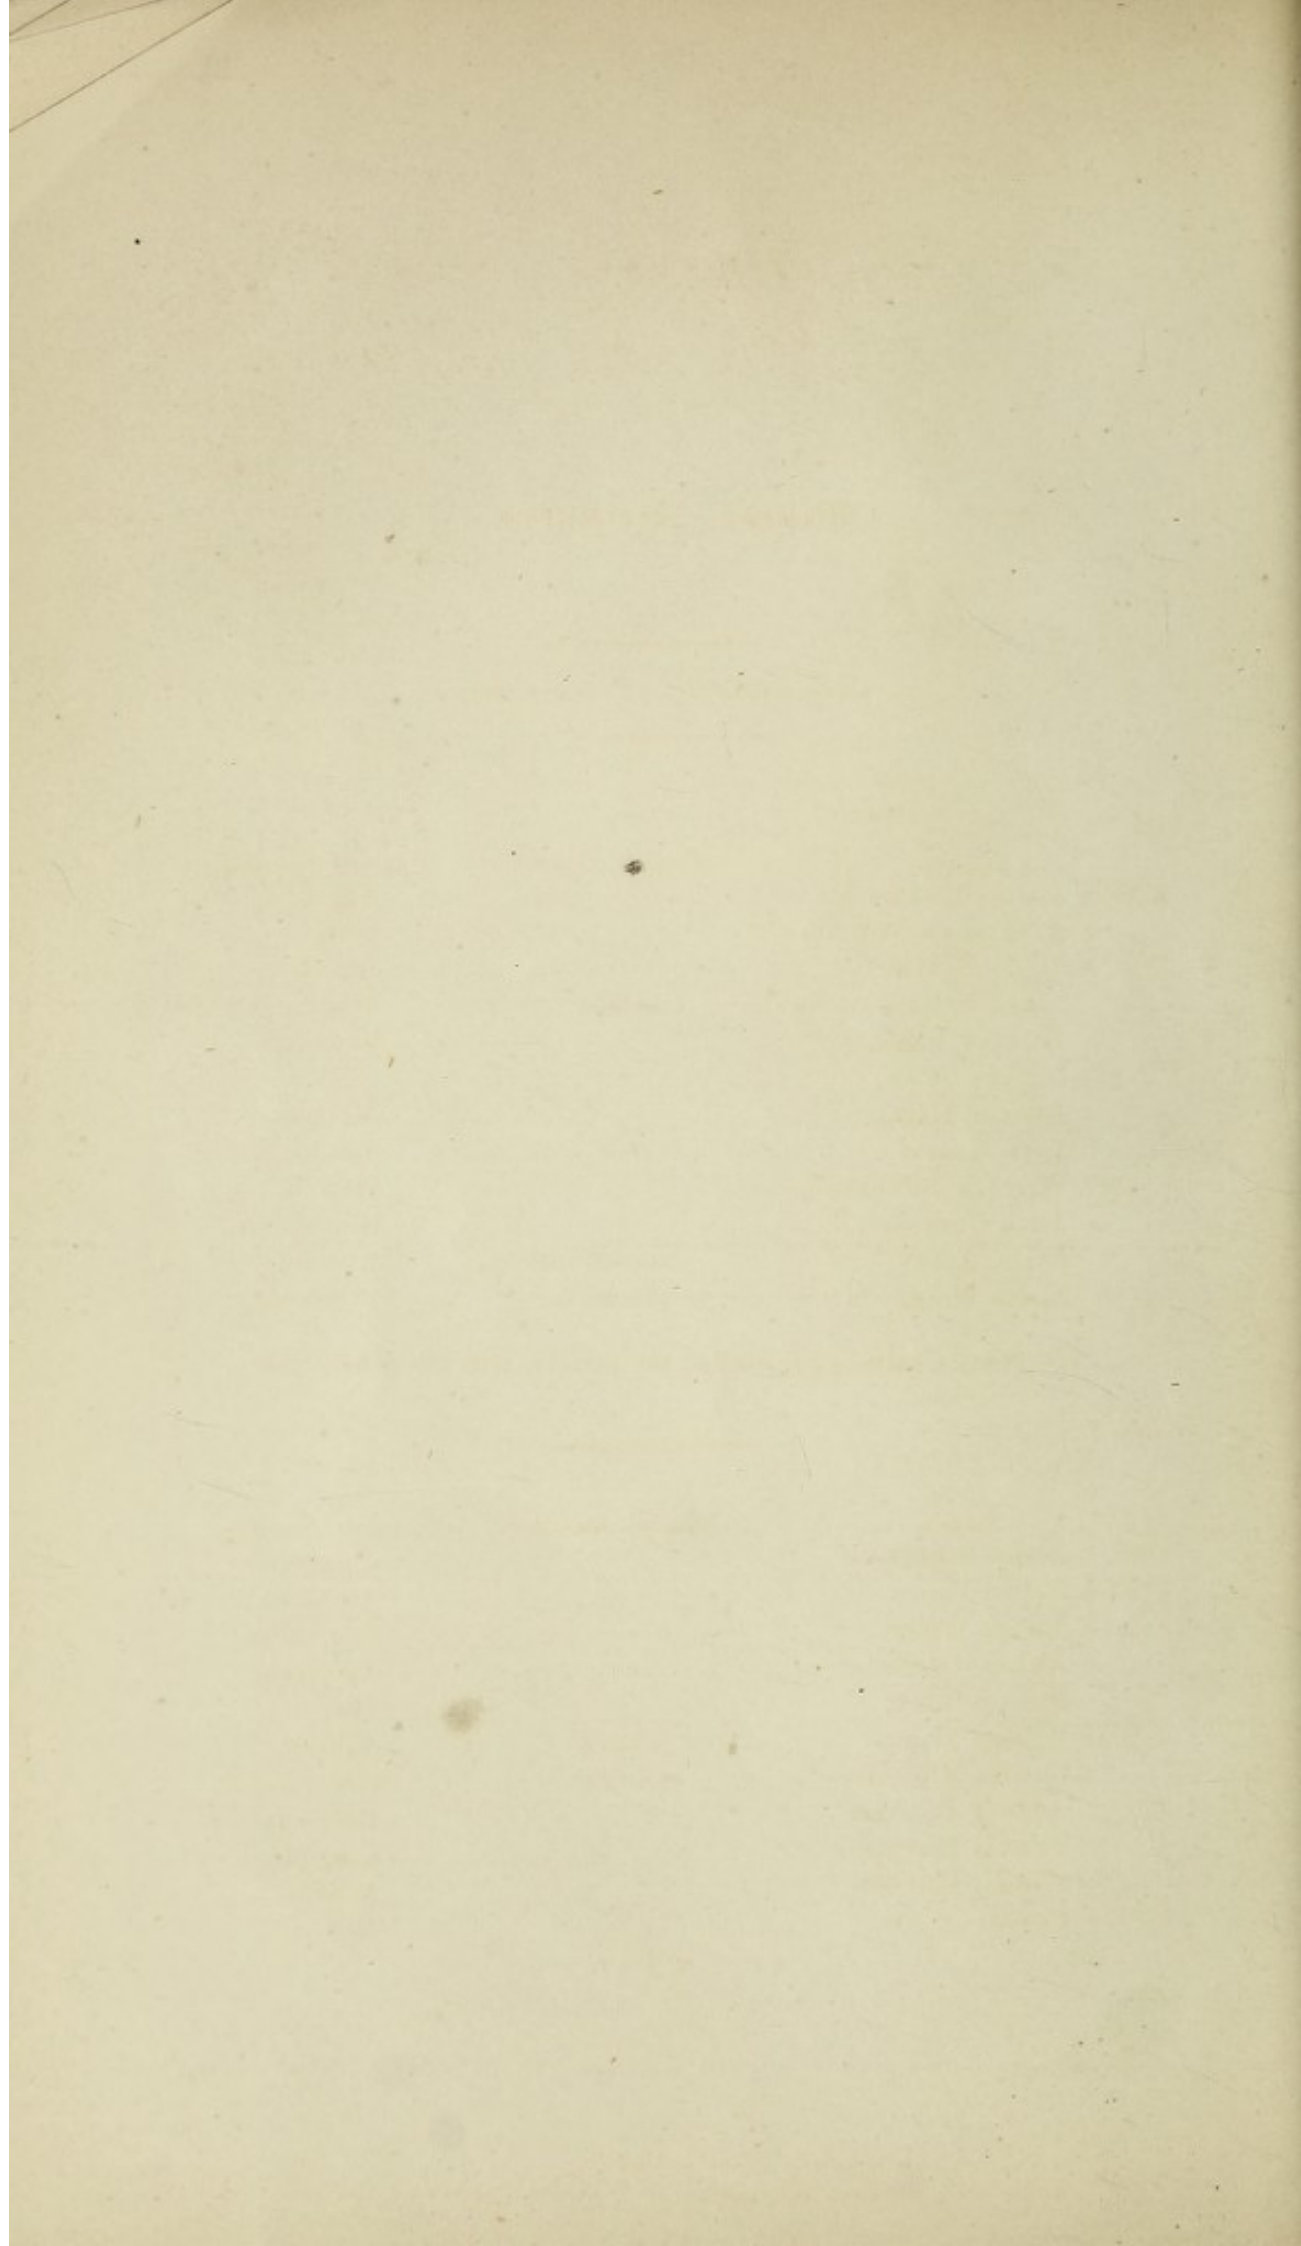

KING STREET, ABERDEEN, *June*, 1848.

II.

MEMORANDUM

1. The purpose of this memorandum is to provide a summary of the information received from the various sources regarding the activities of the group during the past year.

2. The information was obtained from the following sources:

- a. The report of the group's activities for the past year.
- b. The report of the group's activities for the past year.
- c. The report of the group's activities for the past year.
- d. The report of the group's activities for the past year.
- e. The report of the group's activities for the past year.
- f. The report of the group's activities for the past year.
- g. The report of the group's activities for the past year.
- h. The report of the group's activities for the past year.
- i. The report of the group's activities for the past year.
- j. The report of the group's activities for the past year.
- k. The report of the group's activities for the past year.
- l. The report of the group's activities for the past year.
- m. The report of the group's activities for the past year.
- n. The report of the group's activities for the past year.
- o. The report of the group's activities for the past year.
- p. The report of the group's activities for the past year.
- q. The report of the group's activities for the past year.
- r. The report of the group's activities for the past year.
- s. The report of the group's activities for the past year.
- t. The report of the group's activities for the past year.
- u. The report of the group's activities for the past year.
- v. The report of the group's activities for the past year.
- w. The report of the group's activities for the past year.
- x. The report of the group's activities for the past year.
- y. The report of the group's activities for the past year.
- z. The report of the group's activities for the past year.

3. The information received from the various sources is summarized as follows:

a. The group has been active in the past year.

b. The group has been active in the past year.

c. The group has been active in the past year.

d. The group has been active in the past year.

e. The group has been active in the past year.

f. The group has been active in the past year.

g. The group has been active in the past year.

h. The group has been active in the past year.

i. The group has been active in the past year.

j. The group has been active in the past year.

k. The group has been active in the past year.

l. The group has been active in the past year.

m. The group has been active in the past year.

n. The group has been active in the past year.

o. The group has been active in the past year.

p. The group has been active in the past year.

q. The group has been active in the past year.

r. The group has been active in the past year.

s. The group has been active in the past year.

t. The group has been active in the past year.

THE

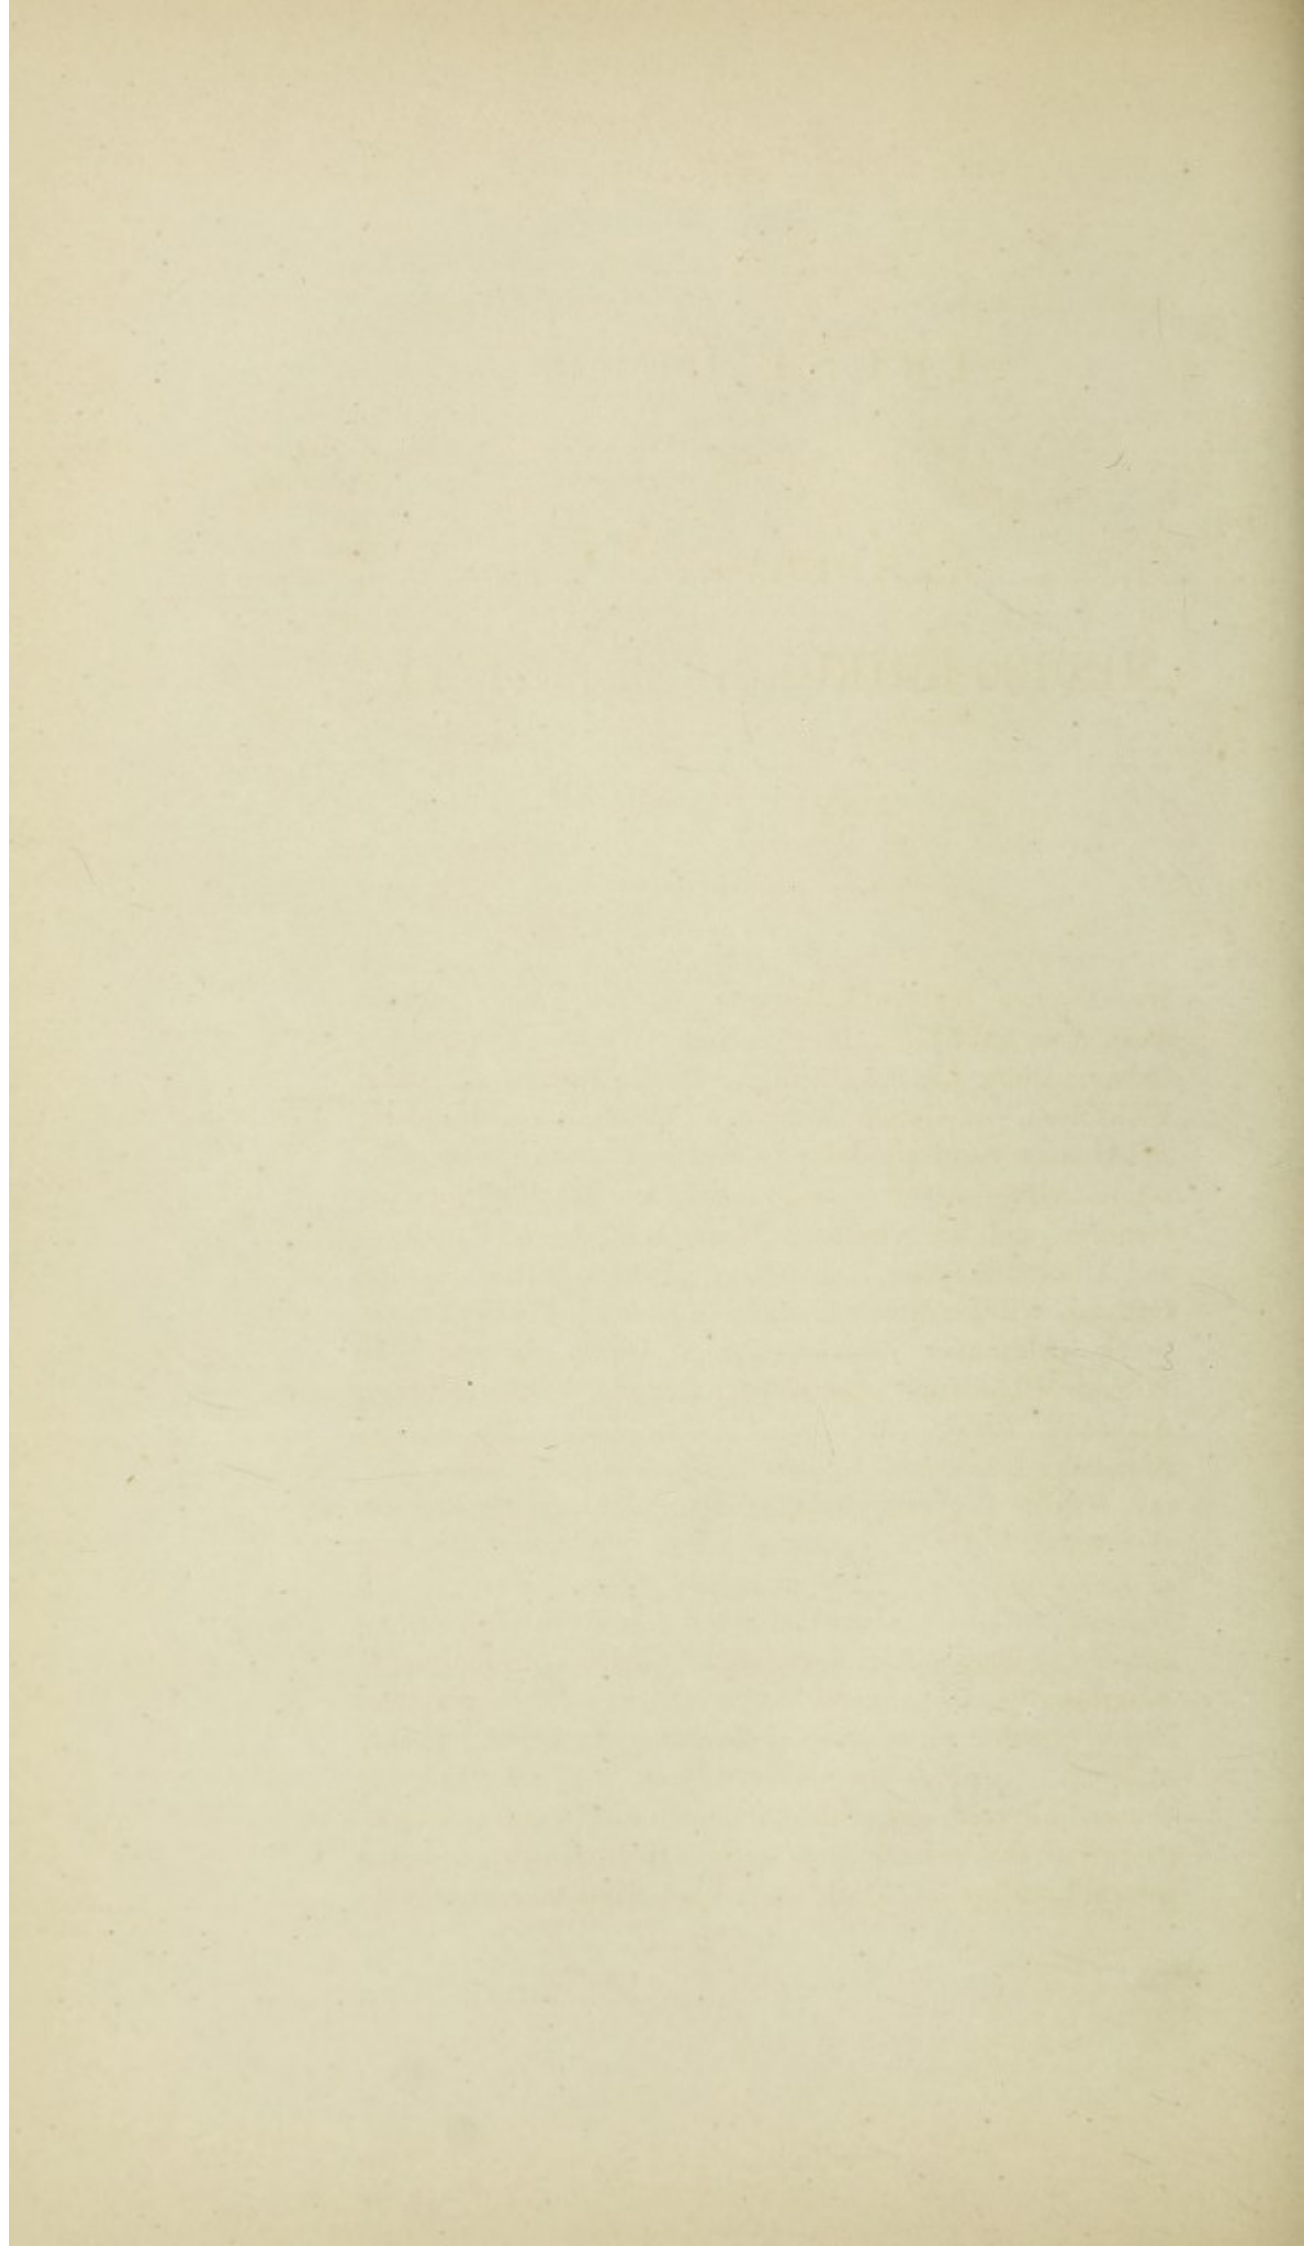

ANNALS

MEDICO-CHIRURGICAL SOCIETY

OF THE

CITY OF NEW YORK

The purpose of this Society is to promote the study and discussion of the principles and practice of medicine and surgery, and to publish the results of their researches and observations. The Society was organized in 1817, and has since that time been engaged in the most active and successful manner in the pursuit of its objects. It has published a large number of valuable papers, and has been the means of introducing many important improvements into the practice of medicine and surgery. The Society is composed of a large number of distinguished physicians and surgeons, and its proceedings are of great interest and value to the medical and surgical community. The Society is open to all who are interested in the study and practice of medicine and surgery, and its meetings are held at the City of New York.

TRUST DEED
OF THE
ABERDEEN
MEDICO-CHIRURGICAL SOCIETY.

1817.

WE, Doctors William Livingston, George French, James Moir, Charles Skene, George Kerr, William Dyce, John Brown, John Charles Ogilvie, James Brown, Benjamin Williamson, and George Barclay, all Physicians in Aberdeen, and Honorary or Extraordinary Members of the Society after-mentioned, for ourselves, and in name and behalf of the other Honorary and Extraordinary Members of the said Society; and Alexander Tytler, Robert Dyce, Patrick Morison, Robert Garland, William Mortimer, John Cadenhead, Charles Cruickshank, Alexander Murray, James Diack, George Will, William M'Gillivray, Alexander Edmund, William Murray, Alexander Imlay, Alexander Welsh, James Hutchinson, Alexander Livingston, Robert Martin, John Sim, John Murray, William Cockerill, John M'Kay, and Alexander Barrack, all Students of Medicine, and the whole constituent Members of the Society called "THE ABERDEEN MEDICO-CHIRURGICAL SOCIETY"—CONSIDERING, that in the year seventeen hundred and eighty-nine, a few young men, Students of Medicine in Aberdeen, formed themselves into a Society, for their mutual improvement in prosecuting their studies, by holding weekly meetings, at which professional subjects were discussed, discourses delivered, and criticised, along with frequent examinations of the several Members, on their proficiency in the several branches of Medicine. That these meetings were

Preamble.

found to be of so much benefit to the young men attending them, that they were soon patronised and encouraged by most of the medical gentlemen of Aberdeen, as well as by the Professors in the two Universities, who were afterwards admitted as Honorary Members. That, by this support, and the zeal and exertions of many of its earliest associates, the Society, in the course of a few years, became very flourishing, received as Honorary or Extraordinary Members many of the most illustrious medical and literary characters in the island, and acquired, either by purchase or donation, a very valuable and extensive library. That it being found that it was put to much inconvenience from the want of suitable apartments for holding their meetings, and containing their books, recourse was had to a subscription for enabling it to procure the necessary accommodation for these purposes, which has already proved so successful as to exceed the sum of twelve hundred pounds sterling, and it is expected will soon amount to much more. That in this situation, the Society, wishing to continue the advantages of the Institution in this part of Scotland, as well as to protect the property which they already possess, or may hereafter acquire, resolved to vest the same in Trustees for behoof of the present members, and those who may afterwards become members, of the Society.

AND CONSIDERING, That the Principal and Professors of the Marischal College and University of Aberdeen having agreed to undertake the said trust, a Trust Deed was, on the twenty-eighth day of July, eighteen hundred and twelve, executed in their favour, by members of the Society then resident in Aberdeen, and has existed, and been acted upon ever since. But as the said Trust Deed contained certain rules and regulations, which were then deemed the most proper that could be formed for the government of the affairs of the Society, but which, from the change of circumstances that have taken place, have now been found to be ineffectual and inexpedient.

AND FURTHER CONSIDERING, That, at a General Meeting of the Society, called by advertisement in the Aberdeen newspapers, and held the thirtieth day of December, in the year eighteen hundred and fifteen, it was resolved and determined that a set of new rules and regulations for the government of the Society, then laid before the meeting, and deliberately considered, should be adopted and established, in place of those contained in the said Trust Deed, and that a new Trust Deed containing these new rules and regulations should

be executed. AND SEEING that the said Principal and Professors have, at our request, agreed to accept of the said new Trust, THEREFORE WE, the Members of said Society, at present resident in Aberdeen, and as such having right to the management and disposal of the Society's funds and property, Do hereby, for ourselves, and in name and behalf of the other Members of the said Society, DISPONE, ASSIGN, CONVEY, and MAKE OVER, to and in favour of Doctor William Laurence Brown, Principal and Professor of Divinity; Doctor Robert Hamilton, Doctor George Glennie, and Doctor James Davidson, Professors of Philosophy; Mr John Stuart, Professor of Greek; Mr. Patrick Copland, Professor of Mathematics; Doctor William Livingston, Professor of Medicine; Doctor George Franch, Professor of Chemistry; and Mr. James Kidd, Professor of Oriental Languages—all of the Marischal College and University of Aberdeen, and their successors in office in the said College, the WHOLE FUNDS and PROPERTY, of every kind, or wherever situated, at present belonging to, or which shall hereafter be acquired by, or pertain and belong to the said Society, called "THE ABERDEEN MEDICO-CHIRURGICAL SOCIETY," with the vouchers and instructions of such debts or sums of money as are due and owing thereto, and all that has followed or is competent to follow them. AND PARTICULARLY, without prejudice of the said generality, the whole of the Books pertaining to the said Society, conform to a Catalogue thereof, signed by the said Doctor John Charles Ogilvie, as President of the Society: WITH FULL POWER to the Trustees aforesaid, whom we hereby SURROGATE and SUBSTITUTE in our full right and place of the premises, to assume the possession of the whole of the Books, and other Property, hereby conveyed; and to call, sue for, uplift, and discharge the whole sums of money due and belonging, or that may hereafter become due, to the said Society, by the Members thereof, or any other person or persons whatever; and generally, every other thing in and concerning the premises to do, that we or either of us could have done before granting hereof. BUT DECLARING that these presents are granted merely in trust, and under the burdens, provisions, and conditions after-mentioned, viz. THAT the said Trustees shall be obliged to denude themselves of the trust hereby created in their favour, whenever they are required to do so by the ordinary members of the first class of the Society, after-described, at a meeting specially called for that purpose by public advertisements in

Conveyance to

Powers of Trustees.

Obliged to denude.

the Aberdeen newspapers, at least fourteen days previous to the meeting; PROVIDED ALWAYS, that such meeting shall consist of at least TEN Members. And the Trustees shall, in that case, convey and make over the whole funds and property belonging to the Society, to any person or persons whom three-fourths of the members present at the foresaid meeting shall name and authorise to hold the same, for the Society's behoof. It being understood, that the said requisition and authority shall be reduced into writing, and, after being signed by three-fourths of the members, as aforesaid, shall be delivered to the said Trustees; and that, upon their granting the said conveyance, and denuding themselves, as aforesaid, they shall receive a formal and valid discharge, from the members of the Society resident in Aberdeen, of all their intromissions with the funds and property that may have then fallen under their charge, in virtue hereof. SECUNDO, That, while the present trust continues, the funds of the Society shall be lent out at interest, or be laid out in the purchase of heritable property, as the Ordinary Members of the said first class, and such of the Trustees as are Honorary Members, shall direct. And the rights and securities for the same shall, in either case, be taken in the names of the said Trustees, and be held by them for the use and behoof of the Society. TERTIO, That the said Trustees shall have power to grant a factory and commission to the common Procurator for said College, to sue for, uplift, and discharge all debts or sums of money, due, or that may hereafter be owing, to the said Society; and to manage all the Society's pecuniary concerns, in the same manner he now does those of the College; and to allow him a suitable compensation for his trouble;—he being obliged to pay interest, at the rate of four per cent. for any sum in his hands beyond twenty pounds sterling. QUARTO, That the said Trustees, or their Procurator foresaid, shall pay out whatever sums may be ordered by the Committee of the aforesaid Ordinary Members of the first class, for the purchase of books, or any other necessary expense, to the extent of the ordinary annual revenue: But the principal or capital stock of the Society, and the interest thereof, shall not be encroached upon, without the consent and approbation of a meeting at which shall be present at least two-thirds of the Ordinary Members of the first class resident in Aberdeen, (ten being a quorum,) and such of the Trustees as are Honorary Members. And the said Trustees, or their common Procurator, shall keep regular accounts of their or his intro-

missions with the funds, and produce the same for examination, to the Committee after-mentioned, at such times as this Committee shall appoint. And, QUINTO, That neither the Trustees, nor their Procurator, shall be liable for omissions, or not doing exact diligence, nor *singuli in solidum*, but each only for his own actual intromissions. AND IN ORDER that the said Trustees may be enabled to carry this trust the more effectually into execution, We Hereby BIND and OBLIGE ourselves to observe and implement the following RULES, REGULATIONS, and CONDITIONS, viz. :—

Not liable for omissions.

PRIMO.—The Society shall consist of three classes, viz. :—
HONORARY, EXTRAORDINARY, and ORDINARY.—The Ordinary Members shall be divided into two classes, the first comprehending such of the present and future Honorary or Extraordinary Members, resident in Aberdeen, as shall at all times take an active concern in the business of the Society, and duly attend the meetings thereof.—DECLARING, That when any member of the first class retires from such active concern, he shall again be entitled to resume his place, as an Honorary or Extraordinary Member.

Classes of Society.

Members of first class retiring.

SECUNDO.—The Ordinary Members of the first class shall hold regular meetings for medical discussions, once a fortnight, between the first of November and first of May, and once a month, between May and November; and shall furnish discourses on subjects comprehended under the different branches of medicine, agreeably to the bye-laws and regulations to be afterwards established; it being understood that no member, excepting the President, shall be required to give more than one discourse yearly.

First class to hold meetings.

For discourses.

TERTIO.—The Ordinary Members of the first class shall, along with such of the Trustees as are Honorary Members, have the power of giving instructions as to the management and disposal of the property of the Society, for the purpose of promoting the objects of the Institution; the rooms, library, and museum, being under the direction of the Ordinary Members of the first class. And every Member of this class must sign an obligation, that he will faithfully and to the best of his judgment, discharge his duty, as a Manager of the Society's property, bearing always in mind the intention of the Institution.

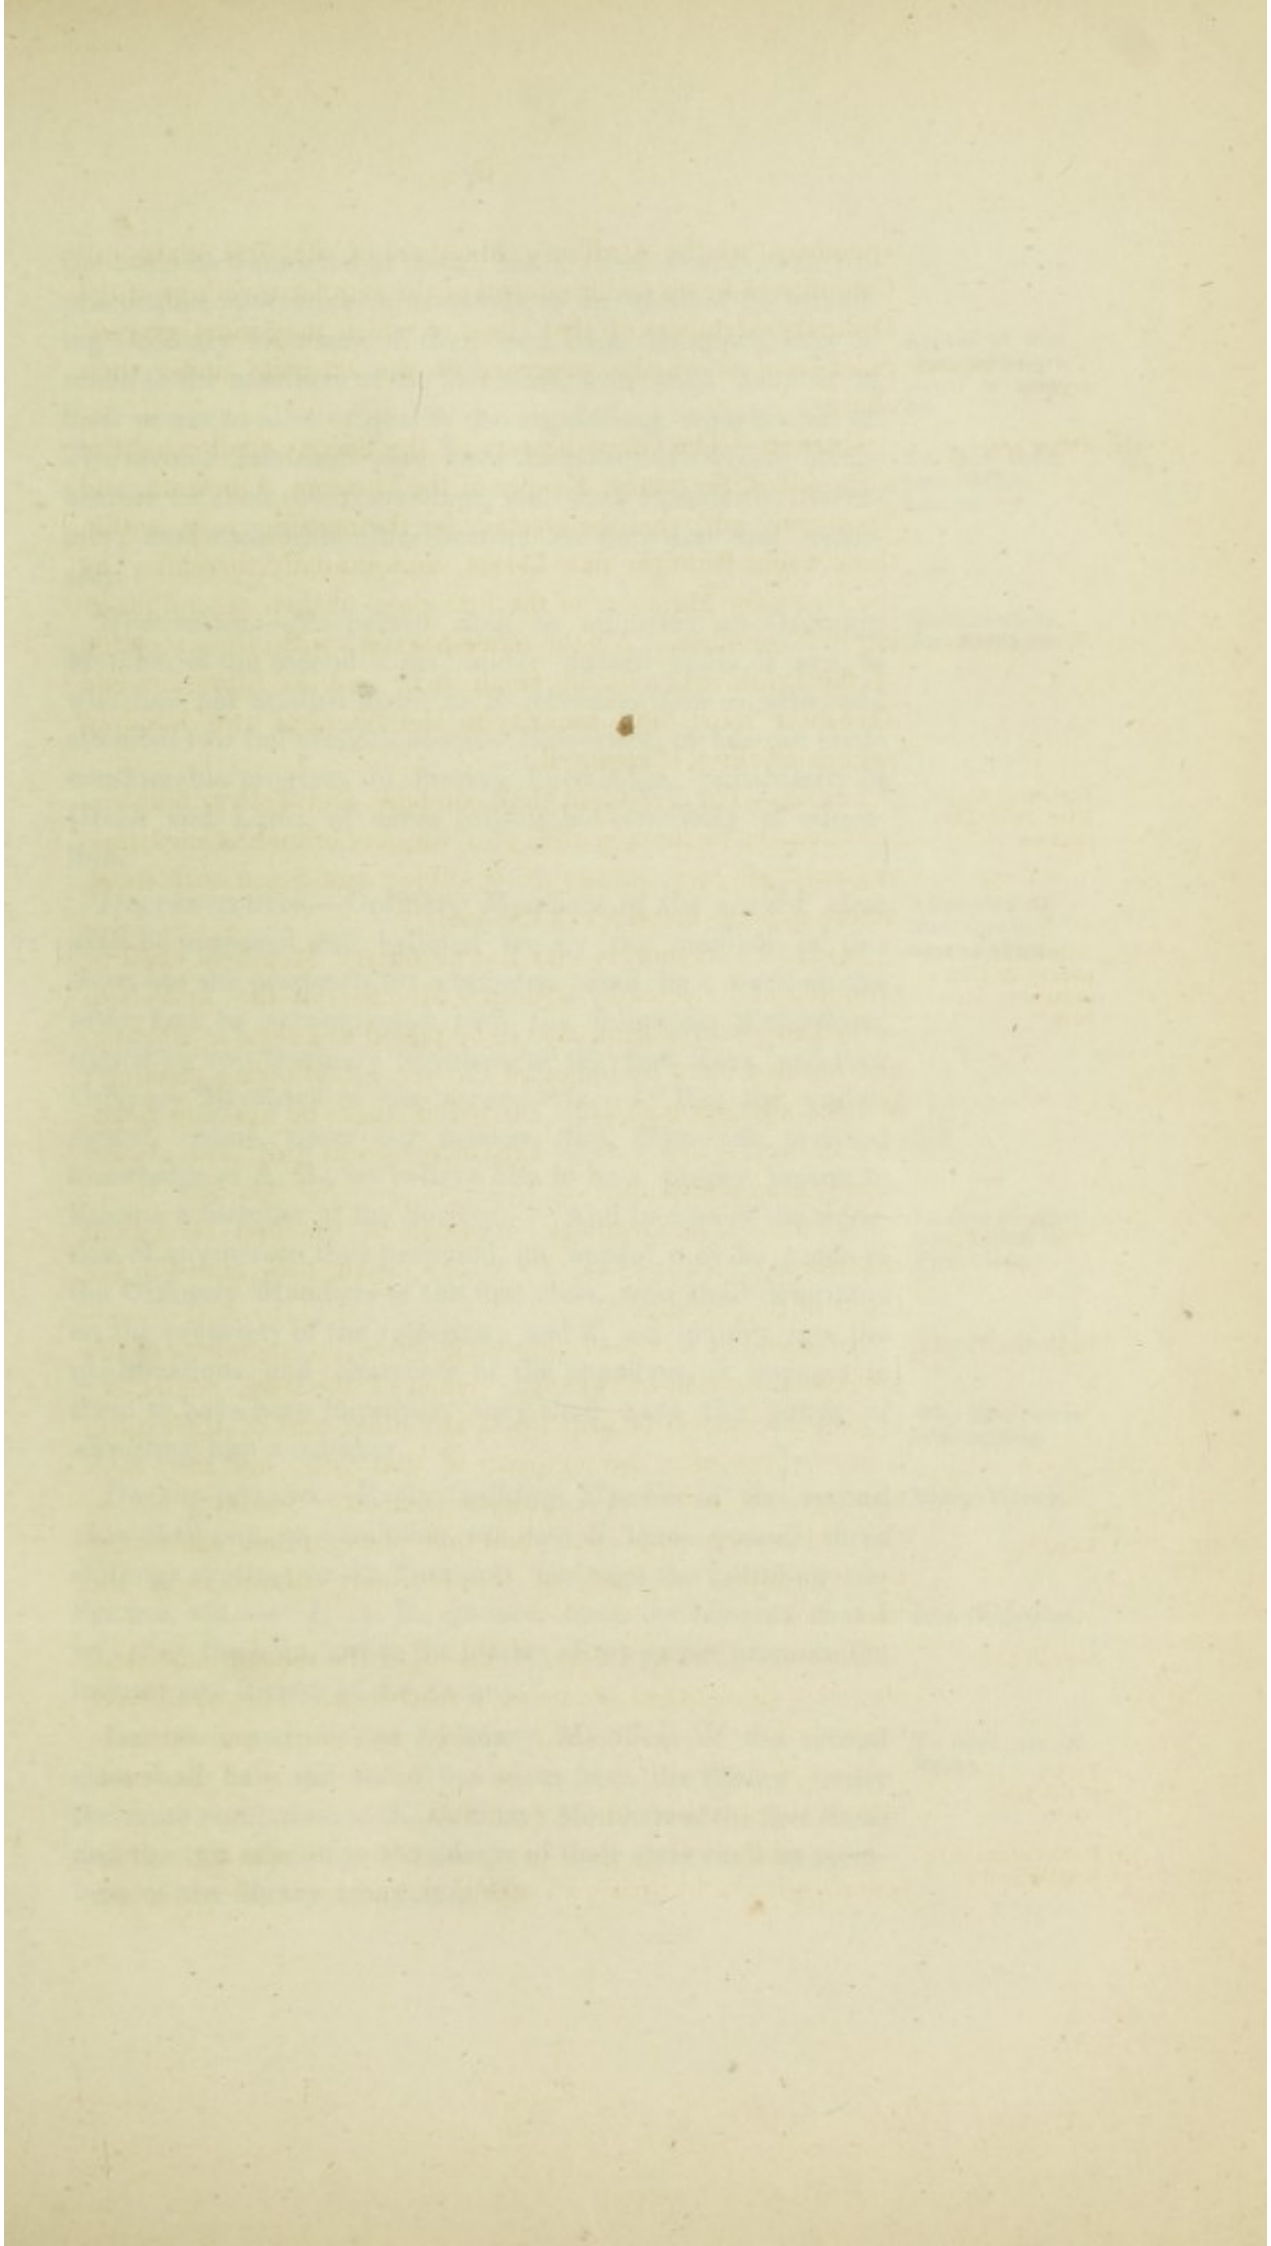

Power of giving instructions as to management.

Every member to sign an obligation.

QUARTO.—The business of the Society, with regard to the funds, purchase of books, arrangement of museum, and household establishment, shall be conducted by Committees

Business to be conducted by Committees.

To give regular reports.	appointed by the Ordinary Members of the first class—all Committees being under control of the regular meetings of the Ordinary Members of that class, to which they must give regular reports of the progress of the business under their charge.
Office-bearers.	QUINTO.—The Office-bearers of the Society shall consist of a President, Secretary, Keeper of the Museum, Librarian, and Treasurer, and shall be elected, for the ensuing year, within three weeks from the date hereof, and annually thereafter, by the Ordinary Members of the first class, at their second meeting in November. All the office-bearers, with the exception of the President, may be re-elected; and the Librarian and Treasurer must find security to the extent of two hundred pounds sterling, if required.
When chosen.	
President to deliver four Discourses.	SEXTO.—The President shall compose and deliver four dissertations or lectures in the year, on any branch of medicine, anatomy, surgery, or any other subject connected with these, before general meetings of the Society.
Admission of Honorary or Extraordinary Members.	SEPTIMO.—Honorary and Extraordinary Members shall be proposed and elected by Ordinary Members of the first class,—the proposal for admission to be tabled at a regular meeting, and decided upon by ballot at the second following meeting; and the admission shall be carried if there be not one negative in every five votes—Ten members in this case always constituting a quorum.
Contributions.	OCTAVO.—The Ordinary Members of the first class shall contribute annually each, to be added to the funds of the Society.
Imposing Fines.	NONO.—The power of imposing fines on members of the first class, for non-attendance, breach of the laws, neglecting to give discourses, or to perform any other part of their duty, is hereby vested in the members of that class, and they shall also have the power of expulsion from the Society; but, in this last case, no expulsion shall take place, unless sanctioned by four-fifths, at least, of the Ordinary Members of the first class.
Expulsion.	
Second Class.	DECIMO.—The Ordinary Members of the second class shall consist of Students of Medicine in Aberdeen. They shall have the use of the Hall for their weekly meetings, and business connected therewith, but so as not to interfere with the meetings of the members of the first class.
To have the use of the Hall.	
Power of making Regulations.	UNDECIMO.—They shall have the power of making regulations relative to their own meetings, and mode of conducting

the business transacted at them; but if these shall appear impracticable, oppressive, or vexatious, to one-third of the attending Ordinary Members of their own class, an appeal may be made to the members of the first class, who shall have it in their power to alter or qualify the regulations complained of. The second class shall also have the power of electing office-bearers for their own meetings, viz.—two Presidents, Secretary, and such other office-bearers as they may find necessary.

Appeal to first class, who have power to alter, &c.

To elect their own Office-bearers.

DUODECIMO.—No person shall be admitted an Ordinary Member of the second class, under sixteen years of age, or who has not studied medicine in Aberdeen four months, and attended two full sessions at some University, or has not made considerable progress in literary knowledge, particularly in Greek and Latin, at some respectable seminary of education.

Qualifications for Entrants.

DECIMO-TERTIO.—Ordinary Members of the second class shall be proposed and balloted for by the members of this class, but the proposals for admission shall lie a week on the table, and be accompanied with the following declaration, signed by two Ordinary Members of the first class, and four Ordinary Members of the second, viz.:—"We, the undersigned, attest, upon our honour, that, from our personal knowledge of A. B., we believe him to be a proper person to become a member of the Society." And in case of the rejection of any person thus proposed, an appeal may be made to the Ordinary Members of the first class, who shall determine on the propriety of the rejection; and if, on inquiry into the qualifications and character of the appellant, it appears to them to have been improper, they shall have the power of admitting him a member.

Admission of Members to Second Class.

In case of rejection, appeal to First Class.

Who have power of admitting.

DECIMO-QUARTO.—Every Ordinary Member of the second class shall pay, on admission, the sum of three pounds three shillings sterling, to the Treasurer, and sign the following obligation, viz.:—"I, A. B., declare, upon my honour, that I will obey the laws, and to the utmost of my power promote the interest and honour of the Society."

Entry Money.

Sign Obligation.

DECIMO-QUINTO.—The Ordinary Members of the second class shall have the use of the books from the library, under the same regulations as the Ordinary Members of the first class; and the two officiating Presidents of their class shall be members of the library committee.

To have use of Books.

Entitled to a Diploma,

After Examination.

Every person admitted after, taken bound to accede to Trust Deed.

Declared Fundamental.

Not alterable except by three-fourths of Ordinary Members of First Class.

Of number of First Class under ten.

Power to First Class to make Bye-laws.

DECIMO-SEXTO.—The Ordinary Members of the second class, after one year's regular attendance, shall be entitled to a diploma, signed by the President and four or more Ordinary Members of the first class, and by the office-bearers of the second class, provided they undergo an examination on their proficiency in professional subjects, in a satisfactory manner, before a Committee, composed of the President and five Ordinary Members of the first class, and the Presidents of the second class.

DECIMO-SEPTIMO.—Every person who shall hereafter be admitted an Ordinary Member of this Society shall be taken bound to accede to this Trust Deed, and to abide by and observe the whole rules and regulations herein contained, which are hereby declared to be fundamental, and shall not be alterable, except by three-fourths of the Ordinary Members of the first class, at a meeting called by advertisement in the Aberdeen newspapers, at least three weeks before it is held, and which advertisement shall give notice of the day and purpose of the meeting. Declaring, that TEN members, at least, of said class, shall be present at said meeting; and that if

Ordinary Members of the first class should at any time be under ten in number, then and in that case the Honorary Members shall be entitled to vote in every question concerning the interest or permanency of the Society, and its funds; but reserving always to Ordinary Members of the first class full power, at the meetings before-mentioned, to make and form such bye-laws and more minute regulations for their own government and direction, as to them may appear necessary, provided they are not inconsistent with, or contradictory of, any of the present fundamental rules of the Society. And as it is impossible that the whole of us can subscribe the joining of the several sheets on which this trust deed is written, we have therefore empowered, and do hereby empower, the saids John Charles Ogilvie and George Will, two of our number, to sign the joining of the said several sheets, which we hereby declare to be as valid and sufficient as if the same had been subscribed by all and every one of us, hereby dispensing with every objection on that head. WE consent to the registration hereof in the Books of Council and Session, Sheriff or Baillie Court Books of Aberdeen, or other competent Registers therein; and, if needful, that letters of horning on six days'

charge, and all other execution necessary, may pass hereon in
form as effairs, and thereunto WE CONSTITUTE

OUR PROCURATORS, &c.

In witness whereof, these presents, all written by Alexander Chivas, Apprentice to David Hutcheon, Advocate in Aberdeen, upon this and the two preceding sheets of stamped paper, are subscribed by us, the above-named Honorary and Extraordinary Members of the said Society, and also by us, the above-named Students of Medicine, at Aberdeen, the eighth and tenth days of September, in the year One Thousand Eight Hundred and Seventeen, before Witnesses—George Pirie, Sacrist of the said College; and James M'Petrie, Student of Medicine in Aberdeen.

*Alterations made on the Trust Deed, in terms of
Article 17.—5th May, 1825.*

Classes of Honorary and Extraordinary Members conjoined.

IMO.—That the two classes of HONORARY and EXTRAORDINARY MEMBERS be conjoined, under the title HONORARY MEMBERS.

Designations of Members.

IIDO.—That the Ordinary Members of the first class, be called simply ORDINARY MEMBERS, and those of the second class, JUNIOR MEMBERS.

Ordinary Members to admit Members into their own Class. Ordinary Members, how admitted.

IIITIO.—That the Ordinary Members be empowered to admit Members directly into their own class.

IVTO.—That every proposal, for the election of an Ordinary Member, be signed by at least Three Ordinary Members; that it be tabled One Month before it be decided upon, and that the Candidate be admitted, if there be not one negative in every four votes—six Members being in this case a quorum.

To sign an Obligation.

VTO.—That every person, so admitted, be required to sign a declaration—that he will adhere to the Trust Deed, obey all Rules and Regulations of the Society, and pay regularly the accustomed Annual Contribution while resident at Aberdeen.

To pay an admission fee of £3 3s. if they have not previously been Junior Members.

VITO.—That every person so admitted, who has not previously been a Member of the Junior Class, be required to pay, at entrance, the sum of Three Guineas; those who have been Members of the Junior Class being admitted without entrance fee.

9th August, 1827.

Proposal for an Ordinary Member to be accompanied with a Diploma.

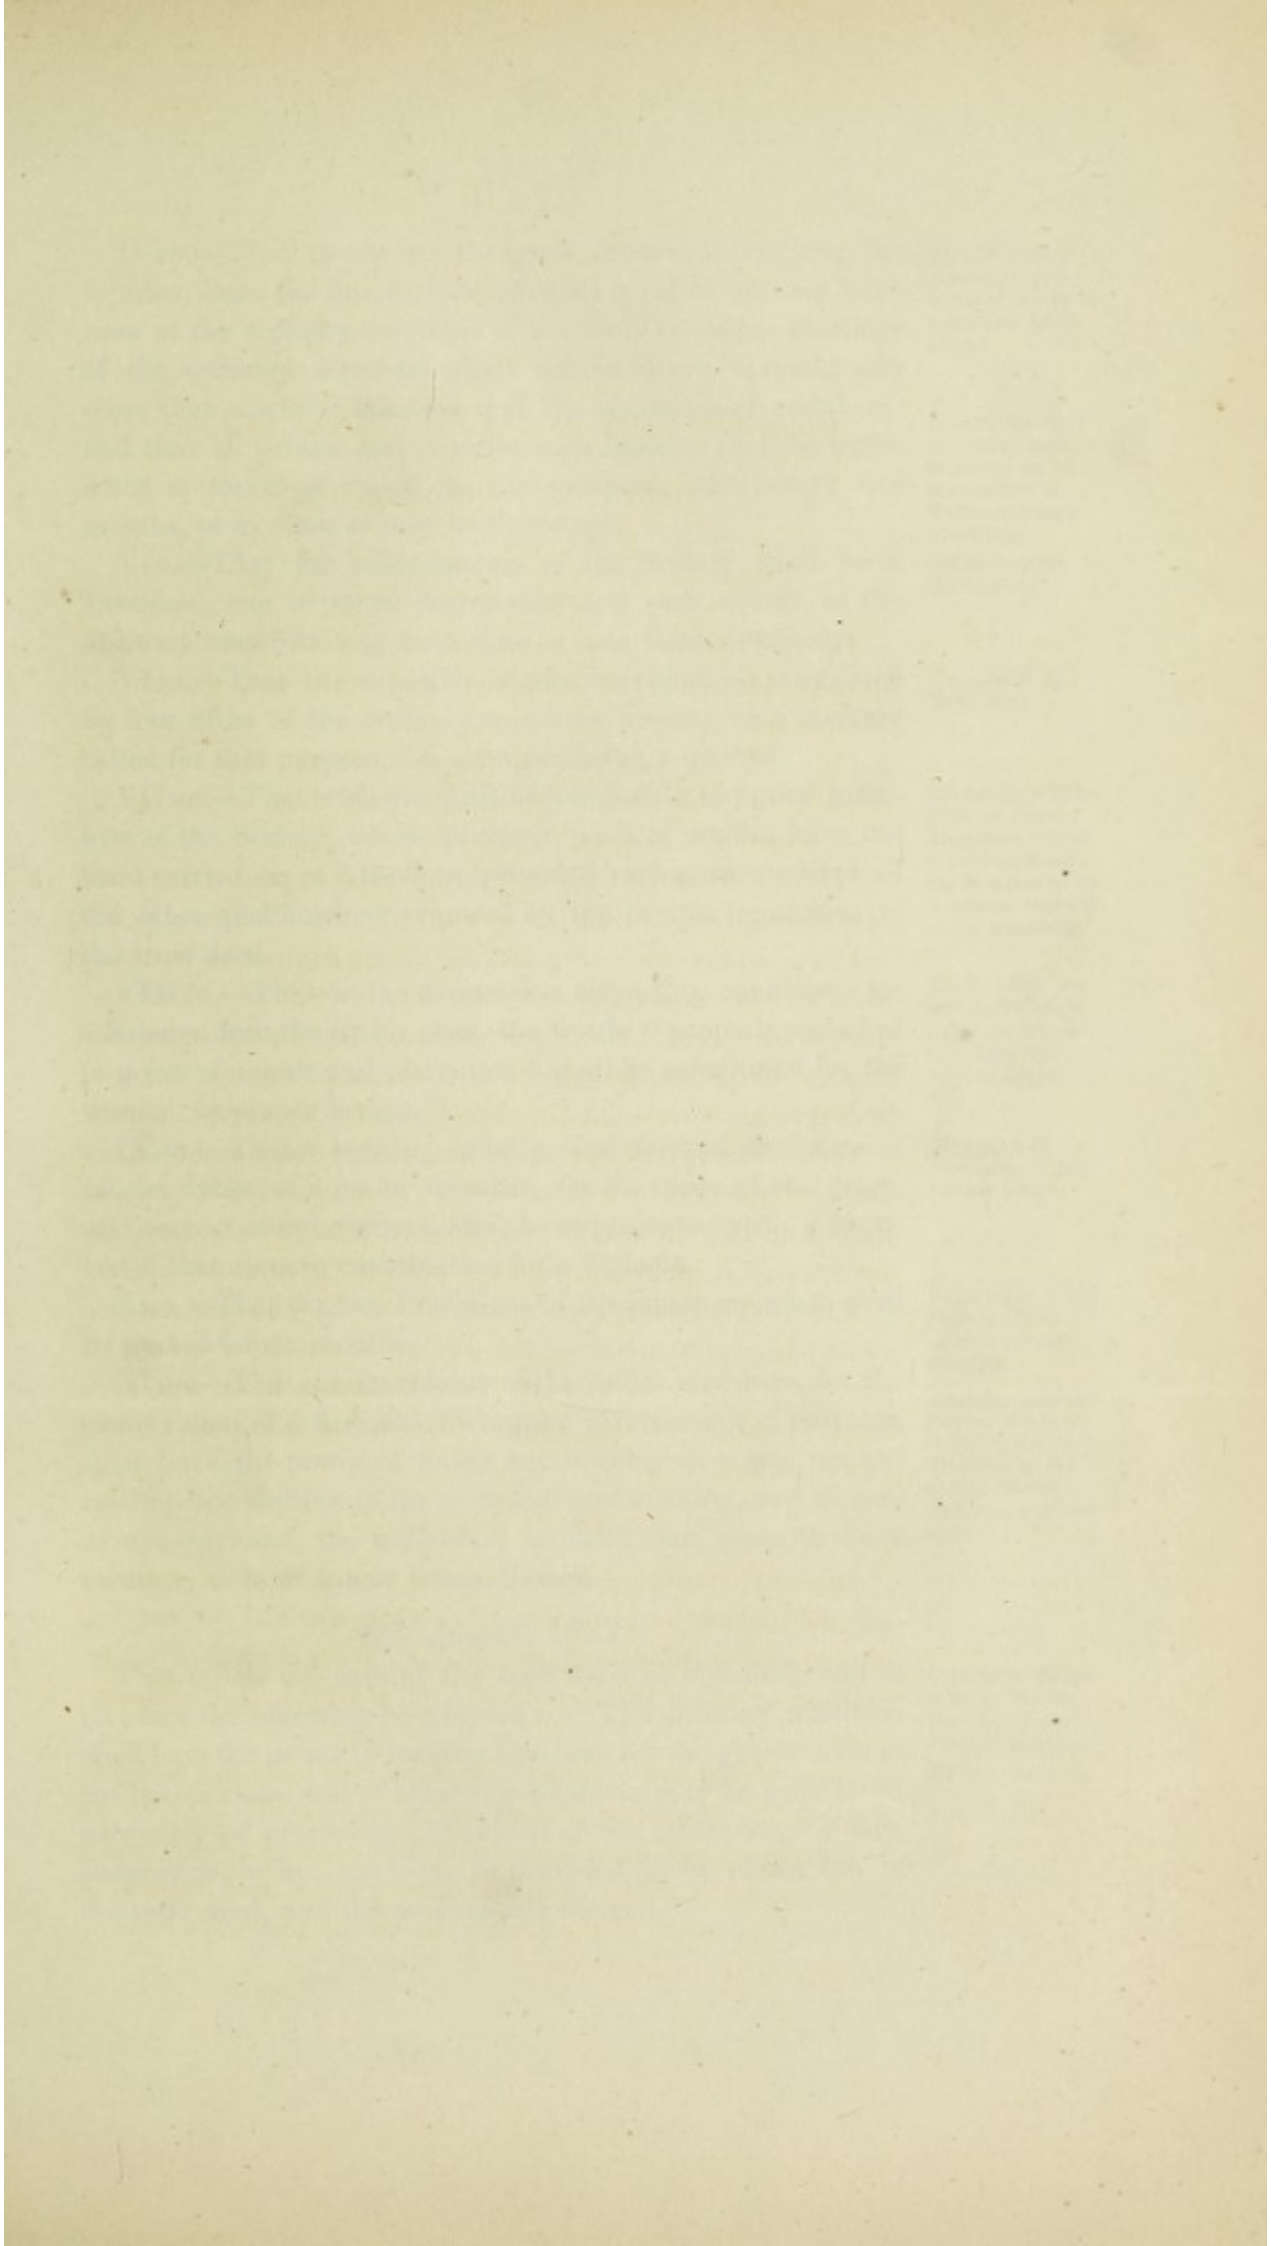

IMO.—That every proposal, for the admission of an ordinary member, shall be accompanied with a medical or surgical diploma, or certificate of qualification, from some University, College, or other Chartered body, of acknowledged respectability.

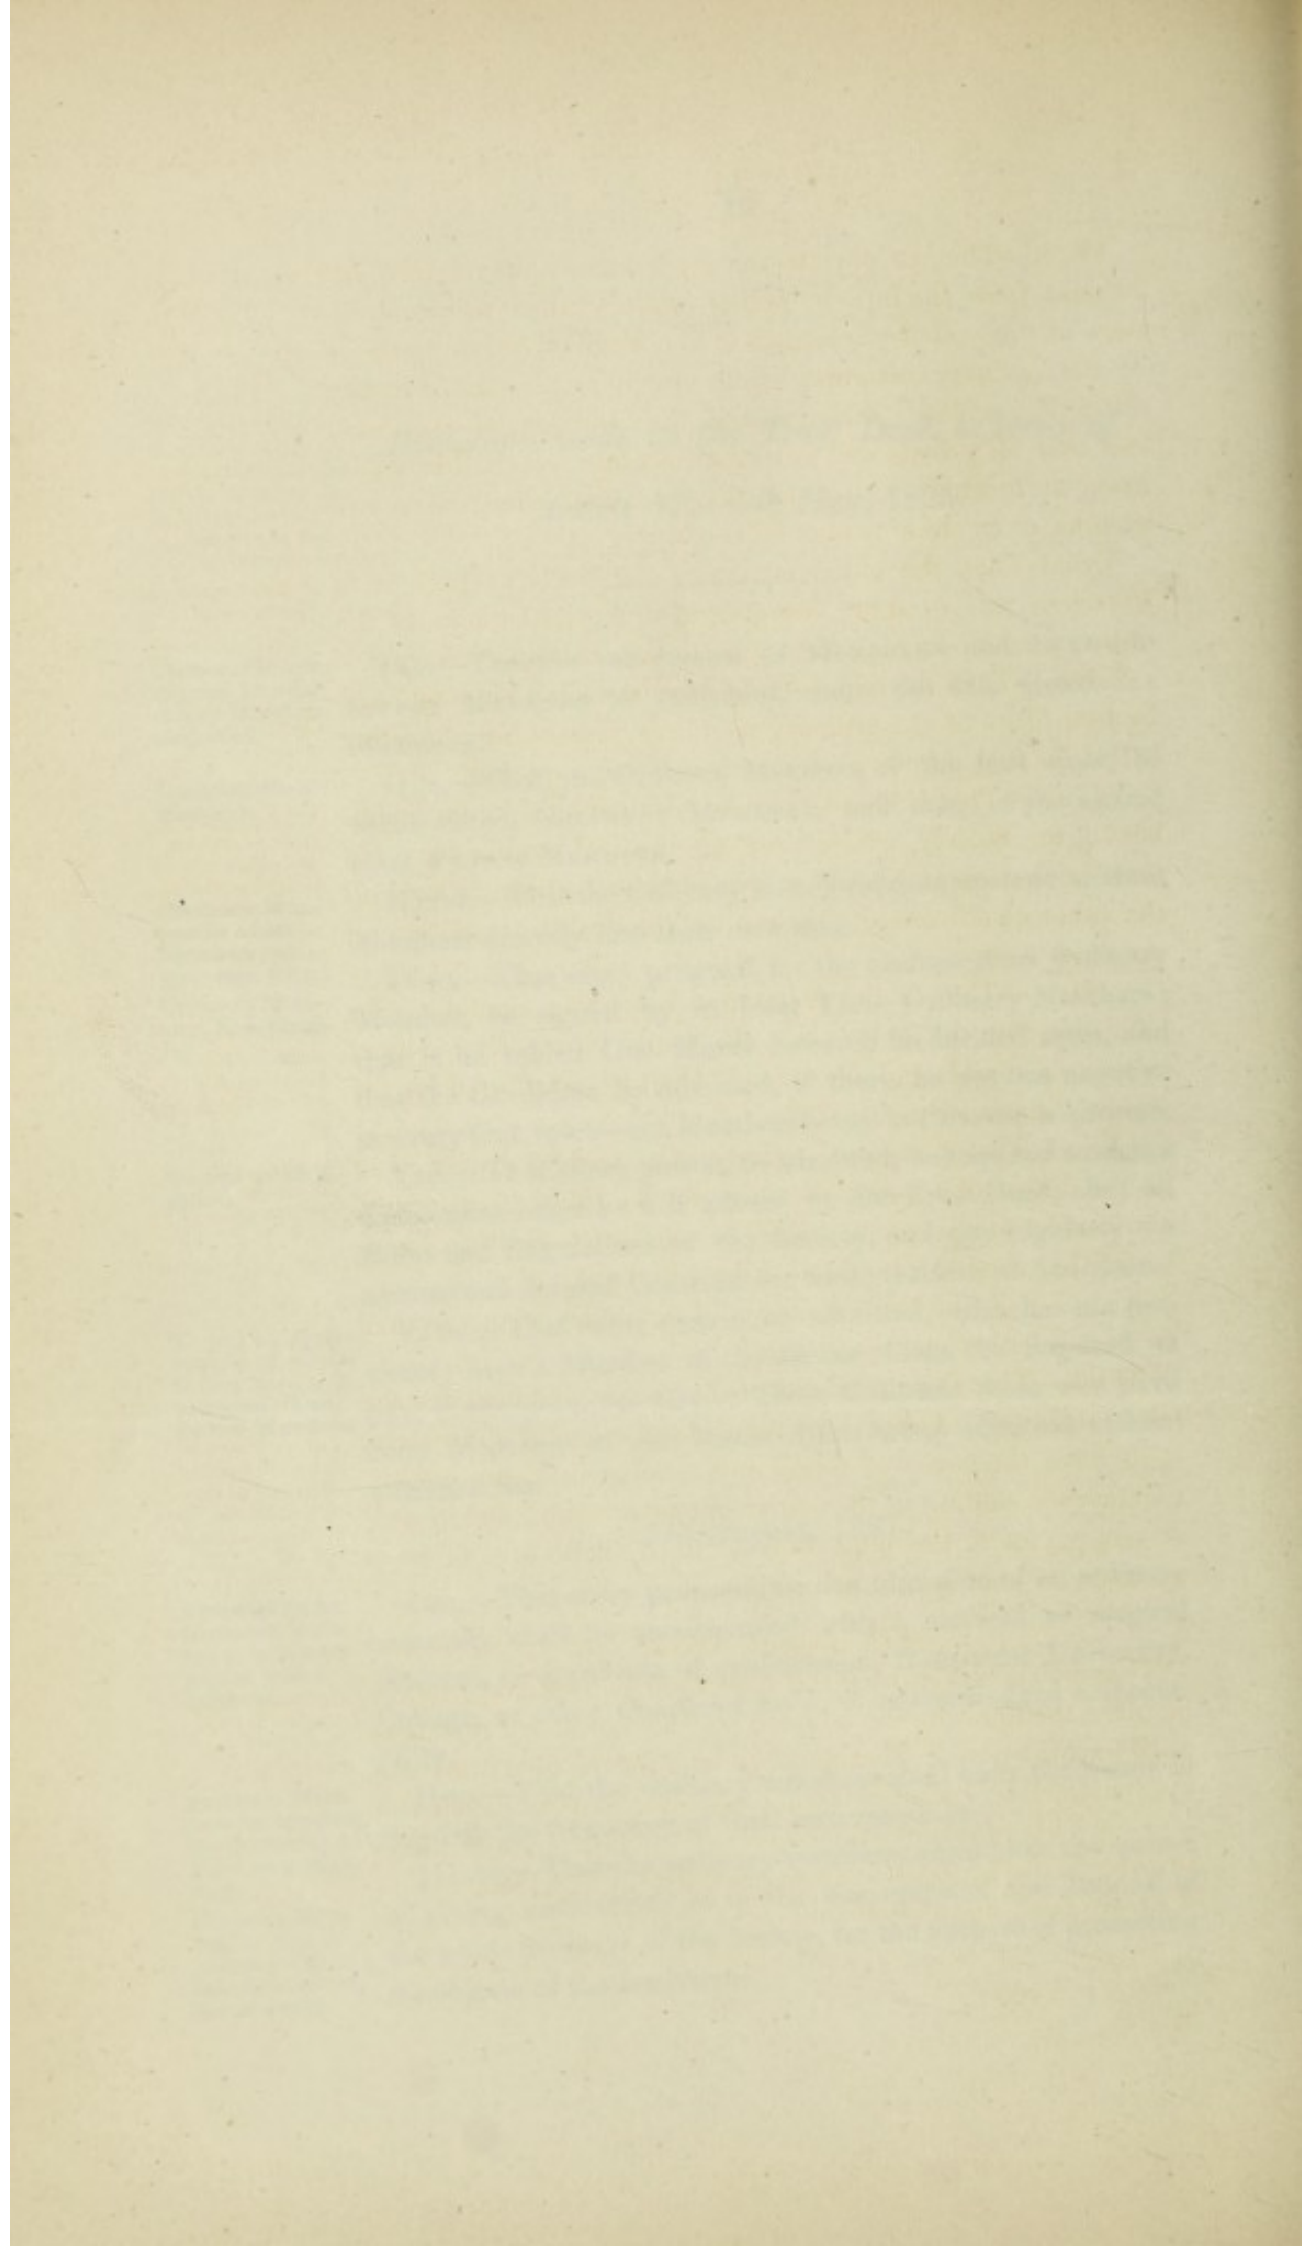

Ordinary Members to regulate the frequency of their own meetings.

IIDO.—That the ordinary members shall have the power to regulate the frequency of their own meetings.

Ordinary Members to give instructions as to management of the property.

IIITIO.—That the ordinary members shall have the power of giving instructions as to the management and disposal of the whole property of the Society, for the purpose of promoting the objects of the institution.

IVto.—That, to obviate the great inconvenience long felt to arise from the introduction of what is called private business at the ordinary meetings of the Society, these meetings of the ordinary members shall not, in future, transact any other than scientific business, and the admission of members; and that all private and miscellaneous business shall be transacted at meetings called for that purpose, once every two months, or as often as may be necessary.

The Ordinary meetings to be devoted solely to scientific business.

All private and miscellaneous business to be transacted at Extraordinary Meetings.

Office-bearers of the Society.

Vto.—That the office-bearers of the Society shall be a President, one or more Secretaries, and such others as the ordinary members may from time to time think necessary.

VIto.—That the expulsion of members shall be sanctioned by four-fifths of the ordinary members present, at a meeting called for that purpose, *ten* members being a quorum.

Expulsion of Members.

VIIto.—That students shall be admissible as junior members of the Society, whose previous medical studies have not been carried on at Aberdeen, provided such students have all the other qualifications required by the twelfth regulation of the trust deed.

Students admissible as Junior Members whose previous Medical Studies have not been carried on in Aberdeen.

VIIIto.—That, in the declaration respecting candidates for admission into the junior class, the words "properly qualified in point of morals and education," shall be substituted for the words, "a proper person."

Declaration respecting Candidates for admission into the Junior Class.

IXto.—That a regular, orderly, and faithful discharge of all the duties of a junior member, for the space of two years, and correct moral conduct, shall be requisite to entitle a member of that class to examination for a diploma.

Diplomas to Members of the Junior Class.

Xto.—That the two Presidents of the junior members shall be elected for six months.

Presidents of the Junior Class elected for six months.

XIto.—That the Presidents of the junior members, for the preservation of order, and the regular enforcement of business, shall have the power of fining any member in a sum not exceeding one shilling in the course of one meeting, and in case of non-payment, the individual so fined shall cease to be a member, without appeal being allowed.

Presidents of the Junior Class allowed to fine any Member to the extent of one shilling, without appeal.

8th August, 1833.

That article eleventh of the trust deed be repealed, and in its place the following be adopted:—"The ordinary members shall have the power of making bye-laws for the government of the junior class, and of enforcing whatever may be considered necessary for promoting the objects of the institution, by fine, suspension, or by expulsion, as provided for by clause 9th of the trust deed, and the amendment thereon."

Ordinary Members to make Bye-Laws for Junior Members.

B Y E - L A W S
OF THE
ORDINARY MEMBERS
OF THE
ABERDEEN
MEDICO-CHIRURGICAL SOCIETY.

I.—OF ADMISSION OF MEMBERS.

Proposal for admission of Member to be signed by three Ordinary Members, and accompanied with Diploma.

1st.—EVERY proposal, for the admission of an ordinary member, shall be signed by at least three ordinary members, and be accompanied with the candidate's medical or surgical diploma, or certificate of qualification from some University, College, or other chartered medical body.

Proposal to lie a month on the table.

2d.—The proposal shall lie one month on the table, and the candidate shall be admitted if there be not one negative in every four votes.

Admission Fee.

3d.—Members, at their admission, shall pay a fee of *Three Guineas*, unless they shall have been formerly junior members of the Society. They shall sign the following obligation:—

Declaration to be signed.

“ We hereby declare, that we accede to the trust deed executed by the Medico-Chirurgical Society of Aberdeen, in favour of the Principal and Professors of the Marischal College, on the eighth and tenth days of September, one thousand eight hundred and seventeen; that we will abide by and observe the whole rules and regulations therein contained, and all the other rules and regulations of the Society engrossed in their sederunt book; that we will faithfully, and to the best of our judgment, discharge our duty as managers of the Society's property, bearing always in mind the objects of the institution; and that we will pay regularly the accustomed annual contribution whilst resident at Aberdeen.”

Annual Contribution to be paid.

4th.—Every member shall pay regularly, whilst resident in Aberdeen, the sum of *One Guinea*, yearly; and any member who shall not pay the same within twelve months after it has become due, shall, after intimation from the Secretary, cease to be a member of the Society.

ANNALS OF THE

AMERICAN

PHYSICAL SOCIETY

II.—OF OFFICE-BEARERS.

1st.—The office-bearers of the Society shall be a President, a Secretary, a Treasurer, a Librarian, and a Curator of the Museum. They shall be elected annually, and, with the exception of the President, may be re-elected.

Number of Office-bearers.

2d.—The PRESIDENT shall deliver at least four lectures in the course of the year in which he is in office, on some branch of Medical Science, at general meetings of the Society.

President to deliver Lectures.

3d.—The SECRETARY shall enter the proceedings of every meeting into a scroll minute-book previous to the next meeting, and if approved of at that meeting, into the minute-book, which shall be signed by the President at the meeting following. He shall keep a correct copy of the laws, and a list of the members. He shall send an intimation in writing of every meeting to resident ordinary members, at least twenty-four hours before such meeting. He shall keep the seals of the Society, which he shall affix to all official documents as required, and he shall carefully preserve the records and all valuable papers belonging to the Society.

Duties of Secretary.

4th.—The TREASURER shall present a statement of accounts, annually, at the second meeting in November.

Duties of Treasurer.

5th.—The LIBRARIAN shall attend at the Library personally, and, in case of unavoidable absence, he shall appoint one of the ordinary members to officiate for him. He shall receive for his salary the interest of the sum set apart for that purpose; and he shall be liable to the Society for such books as are damaged or shall be amissing from the Library.

Duties of Librarian, and Salary.

6th.—The CURATOR of the Museum shall explain the preparations in the Museum, in the course of the year in which he is in office, at general meetings of the Society. He shall keep a descriptive catalogue of the preparations, specimens, &c.; and, as regards the preparations of Morbid Anatomy, a history of each case, if possible. This catalogue shall lie on the table for reference.

Duties of Curator of Museum.

7th.—In casual vacancies in any of these offices, the Society at the first ordinary meeting shall fill them up *pro tempore*.

Casual vacancies to be filled up.

III.—OF COMMITTEES.

1st.—A committee of five ordinary members shall be elected annually, which committee, along with the President and Secretary of the Society, shall form a COUNCIL for the examination of candidates for certificates of their professional acquirements, and for deciding all appeals or complaints from the junior class.

Council to examine Candidates for Certificates, and to decide appeals from Junior Class.

To have charge of the Apparatus, of the Household Establishment, and to purchase Books and Preparations.

To examine the state of Library and Museum.

To keep Minutes of proceedings open to the Society, and to give an Annual Report on the state of the Institution.

To attest all Accounts before payment.

Special Committees.

Number to form a quorum in Committees.

2d.—The Council shall have the charge of the apparatus, and shall have the management of the household establishment, as also the purchasing of such books and preparations as shall have been approved of by the Society.

3d.—They shall examine the state of the Libraries and Museum at least once a-year, *viz.*, previous to the second meeting in November, and shall cause all the books, plates, &c. to be marked as the property of the Society.

4th.—They shall enter their proceedings in a sederunt book, which shall be laid on the table at every ordinary meeting, and examined along with all accounts and vouchers at the second meeting in November, at which meeting they shall also produce a full report of the state of all the matters under their charge, and the Treasurer's statement of the funds.

5th.—All accounts must be attested by the President, Secretary, Librarian, or Curator of the Museum, and one of the Council, before they shall be paid by the Treasurer.

6th.—Special committees may be appointed for other purposes; the President and Secretary being *ex officio* members. They shall report their proceedings as may be required.

7th.—In all meetings of Committees, three members shall constitute a quorum.

IV.—OF MEETINGS.

Time of Meetings.

1st.—The ordinary members shall meet on the first Thursday of every month for transacting business, and on the third Thursday of November for the examining the accounts of the Treasurer, the sederunt book and report of the Council, and for the election of office-bearers.

Council to call Extraordinary Meetings, but business to be intimated in notices.

2d.—The Council may, at any time, call an extraordinary meeting, the special purpose of which shall be intimated to every resident ordinary member.

President to call Extraordinary Meeting, when required by six Members.

3d.—The President shall be bound to call an extraordinary meeting on a requisition presented to him by six ordinary members, under the same condition as in Art. 2d.

Discussions at Extraordinary Meetings restricted.

4th.—Extraordinary meetings shall be restricted from holding discussions on any subjects whatever, but on those for which they are convened.

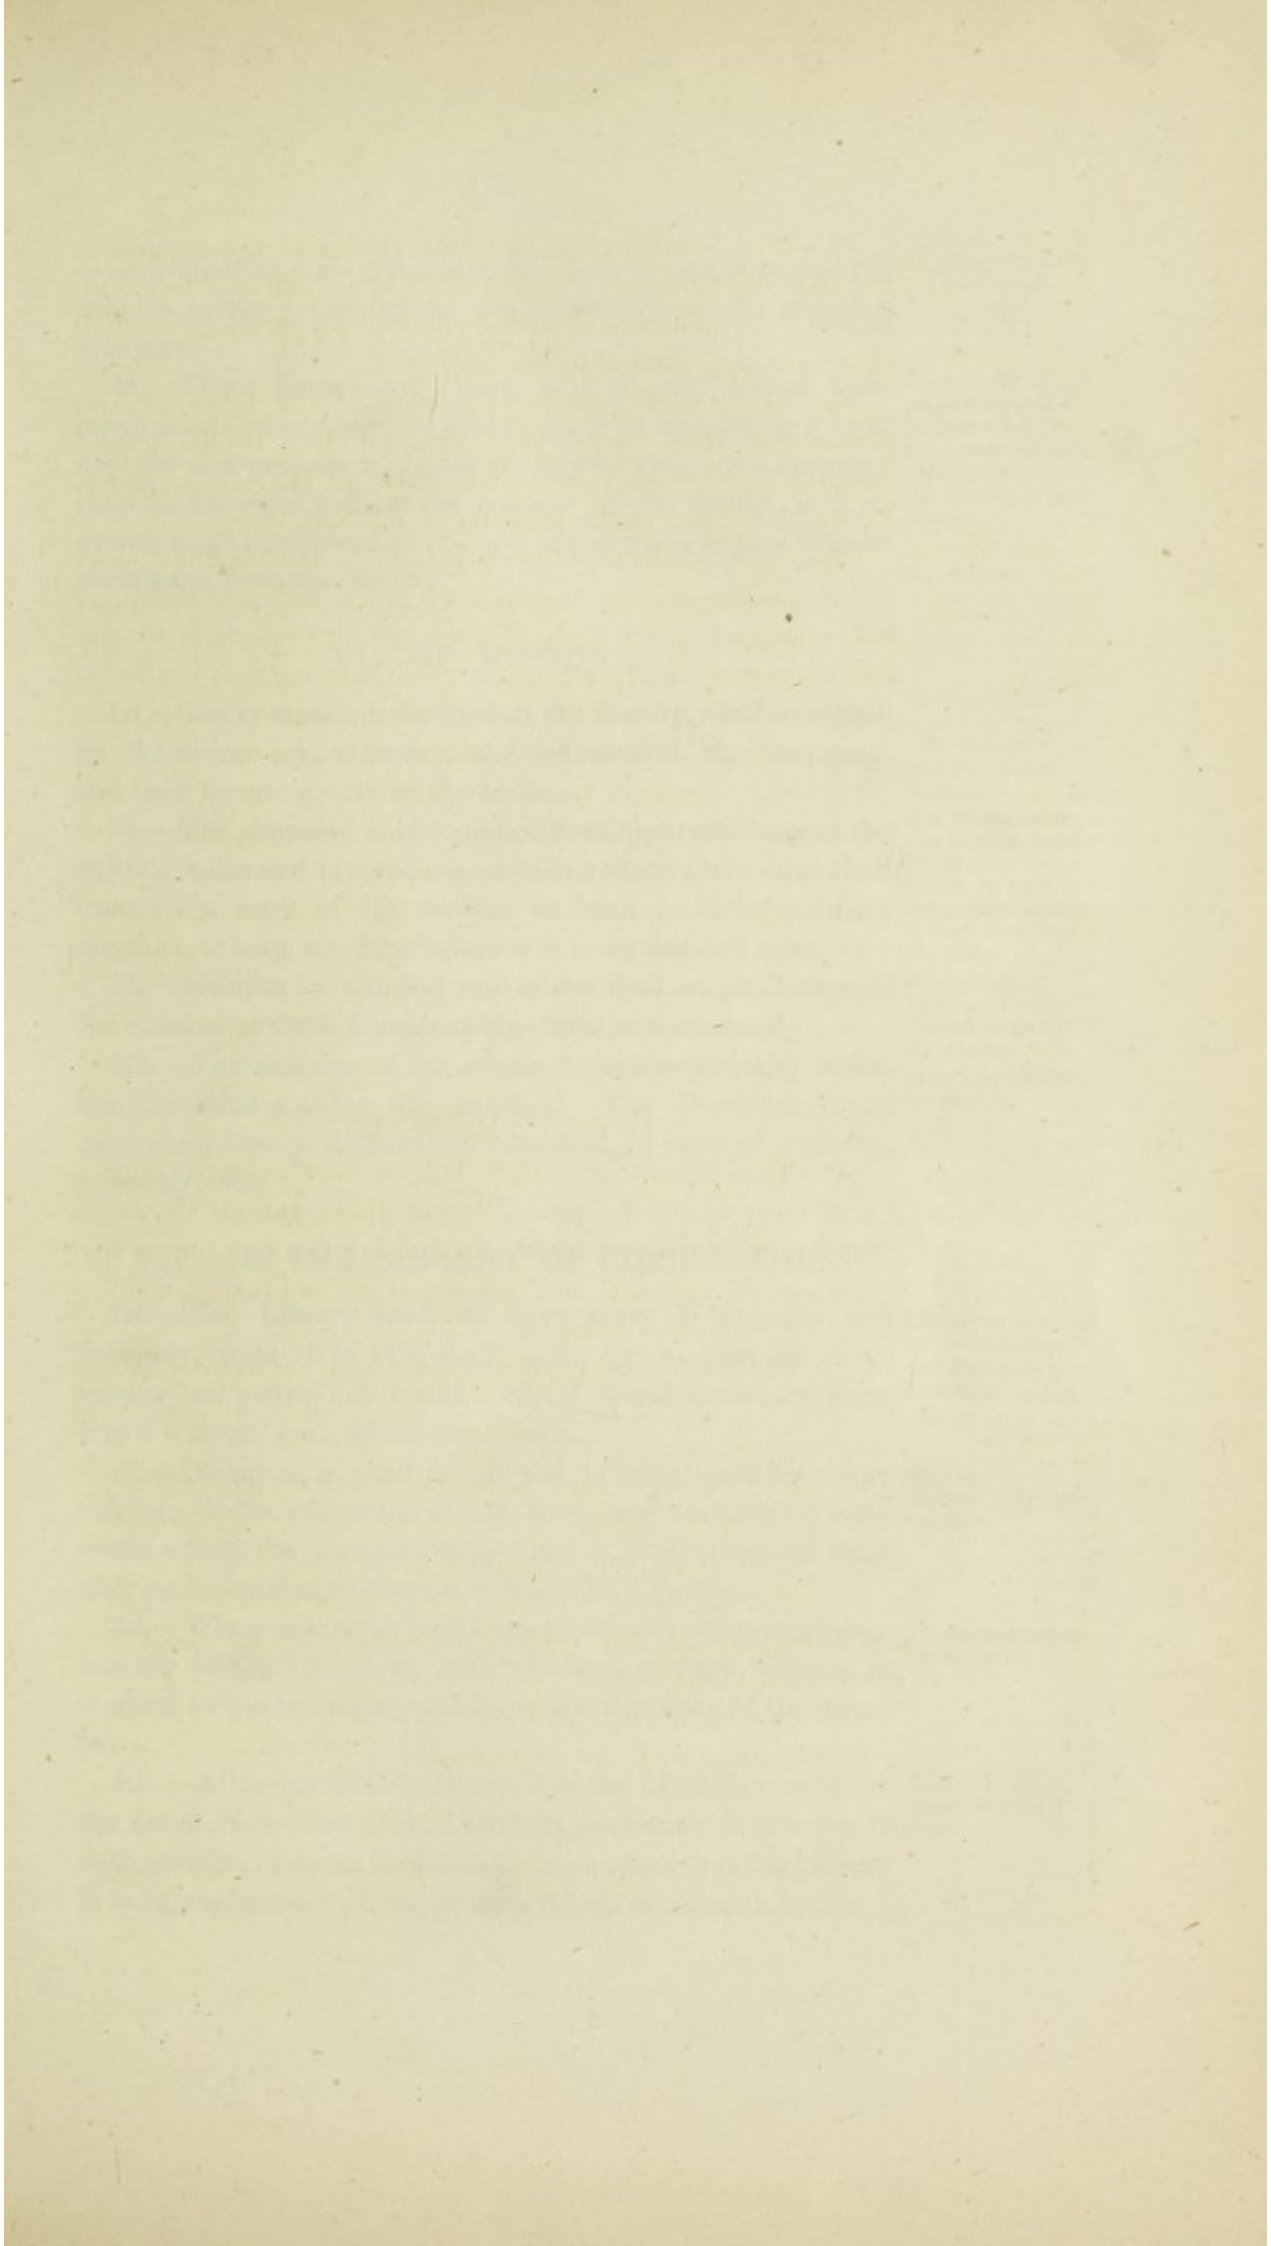

Number to constitute a quorum at Meetings.

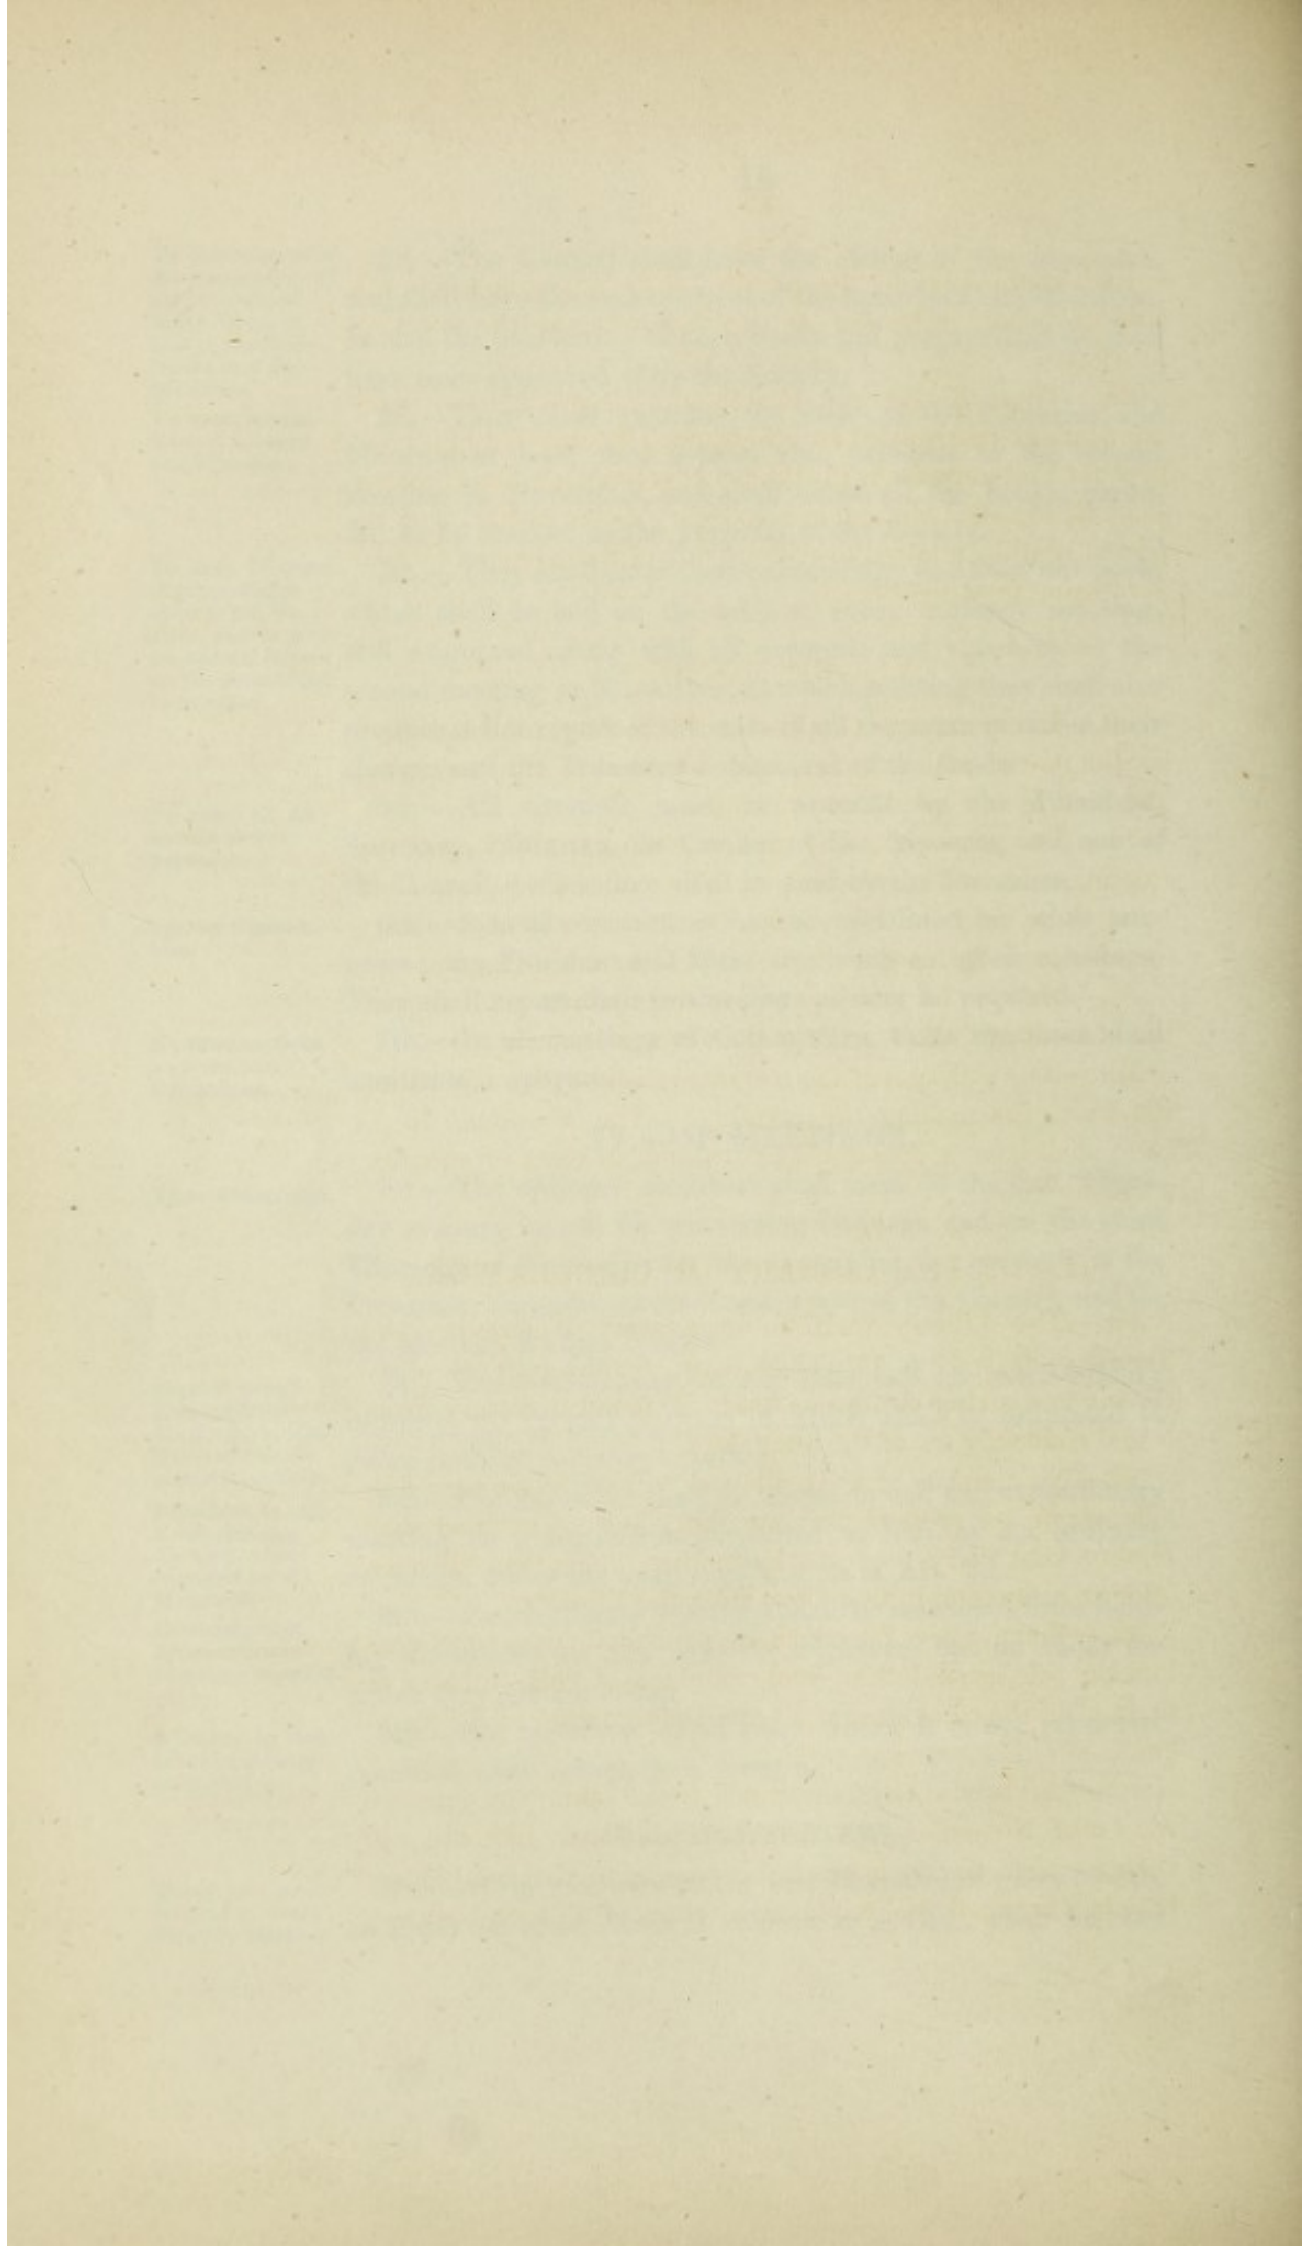

5th.—Six members, in all cases where it is not otherwise specified, shall constitute a quorum.

V.—OF BUSINESS.

Essay or Case to be read at every monthly Meeting.

1st.—At the meetings on the first Thursday of every month, an Essay on some Medical subject, or a Case, shall be read

—each member taking this monthly duty by rotation, and the subject being intimated to the Secretary at the meeting previous.

2d.—These Essays and Cases, and all professional communications transmitted by others, shall be inserted in a book kept for that purpose in the library of reference; but no paper shall be recorded without the consent of the author, and no person shall be allowed to re-copy any of these papers without permission from the Society.

Essays, &c. to be preserved, if the Author consent, but not to be re-copied without the Society's permission.

VI.—OF MOTIONS.

1st.—Every motion submitted to the Society, shall be signed by the mover and seconder, and delivered to the Secretary, and shall lie one month on the table.

Motions to be signed by the persons proposing and seconding them.

2d.—The proposer of any motion tending to alter any of the existing rules and regulations, or to introduce a new law, shall transmit a copy of his motion to each resident ordinary member, at least ten days before it is to be decided upon.

The proposer of any motion tending to alter these Rules, to send a copy of his motion to each Resident Member.

3d.—Motions for altering any of the by-laws shall require the consent of three-fourths of the votes at the meeting.

Alterations of Laws to require three-fourths of the votes.

4th.—The suffrages of the members shall be given by ballot, the President making the scrutiny. The President in all cases shall have a deliberative vote, and, in cases of equality, a casting vote.

Members to vote by Ballot.

VII.—OF THE LIBRARY OF CIRCULATION.

1st.—The Library shall be open every Wednesday and Saturday, from 10 to 11 o'clock, A.M., for the purpose of receiving and giving out books, and, if found necessary, from 5 to 6 o'clock, P.M., of the same days.

Library to be open on Wednesdays and Saturdays, from 10 to 11, A.M.

2d.—No member shall be allowed to have more than four volumes in his possession at one time, and no member shall retain a book that is requested by another, longer than one week after an intimation to that effect from the Librarian.

Members to be allowed only four volumes.

3d.—When orders for books are presented, they must contain the title, press-letters, and numbers of each volume, as marked in the catalogue, and have the signature of the member.

Presenting orders for Books.

4th.—All books shall be returned to the Library on or before the 1st of November; the Librarian previously intimating to each member, having books in his possession, that the Library is to be examined, and requiring a return of all such books.

All Books to be called in once a year.

Compensation to be made for Books lost or damaged.

5th.—The Librarian shall examine the books that are returned, and if any member shall damage or lose a book, he shall make compensation according to the estimate of the Librarian and Council.

Librarian to keep a Library Ledger.

6th.—The Librarian shall keep a Library Ledger, open to the inspection of the Council at any time.

VIII.—OF THE LIBRARY OF REFERENCE.

None of the Books to be taken out.

1st.—None of the books, belonging to this Library, shall, on any account, be removed from the Society's premises.

Periodicals and new Books to lie on the Table.

2d.—The Periodicals shall lie on the table of this Library, for the period between the arrival of one set and that of the next; and all new books shall lie a month on the table. When in sufficient number to form a volume, the Periodicals and Pamphlets shall be bound up, entered in the Library Catalogue, and given out under the usual regulations.

Library to be open every lawful day.

3d.—This Library shall be open to the members every lawful day.

Reading Room for Junior Class.

4th.—A room shall be appropriated in connection with it, as a Reading-room, for the members of the junior class, under such regulations as the ordinary members may see fit.

Book for entering Names of Books and Apparatus to be purchased.

5th.—A book shall lie on the table, in which any member may insert the title of such books, or the description of such apparatus as he thinks ought to be purchased.

IX.—OF THE APPARATUS AND MUSEUM.

Members to have the use of the Apparatus.

1st.—Members shall have the use of the apparatus belonging to the Society, on granting a receipt to the Porter for the same, and becoming bound to restore it in equally good condition.

When returned, to be examined by a Member of the Council.

2d.—They shall not be allowed to retain any part of it above a fortnight, and when returned, it shall be examined by at least one member of the Council before the receipt shall be cancelled by the Porter.

Admission of Ordinary and Junior Members to Museum.

3d.—Ordinary Members shall have access to the Museum every lawful day, but members of the junior class shall be accompanied by the Curator, or any one he may depute.

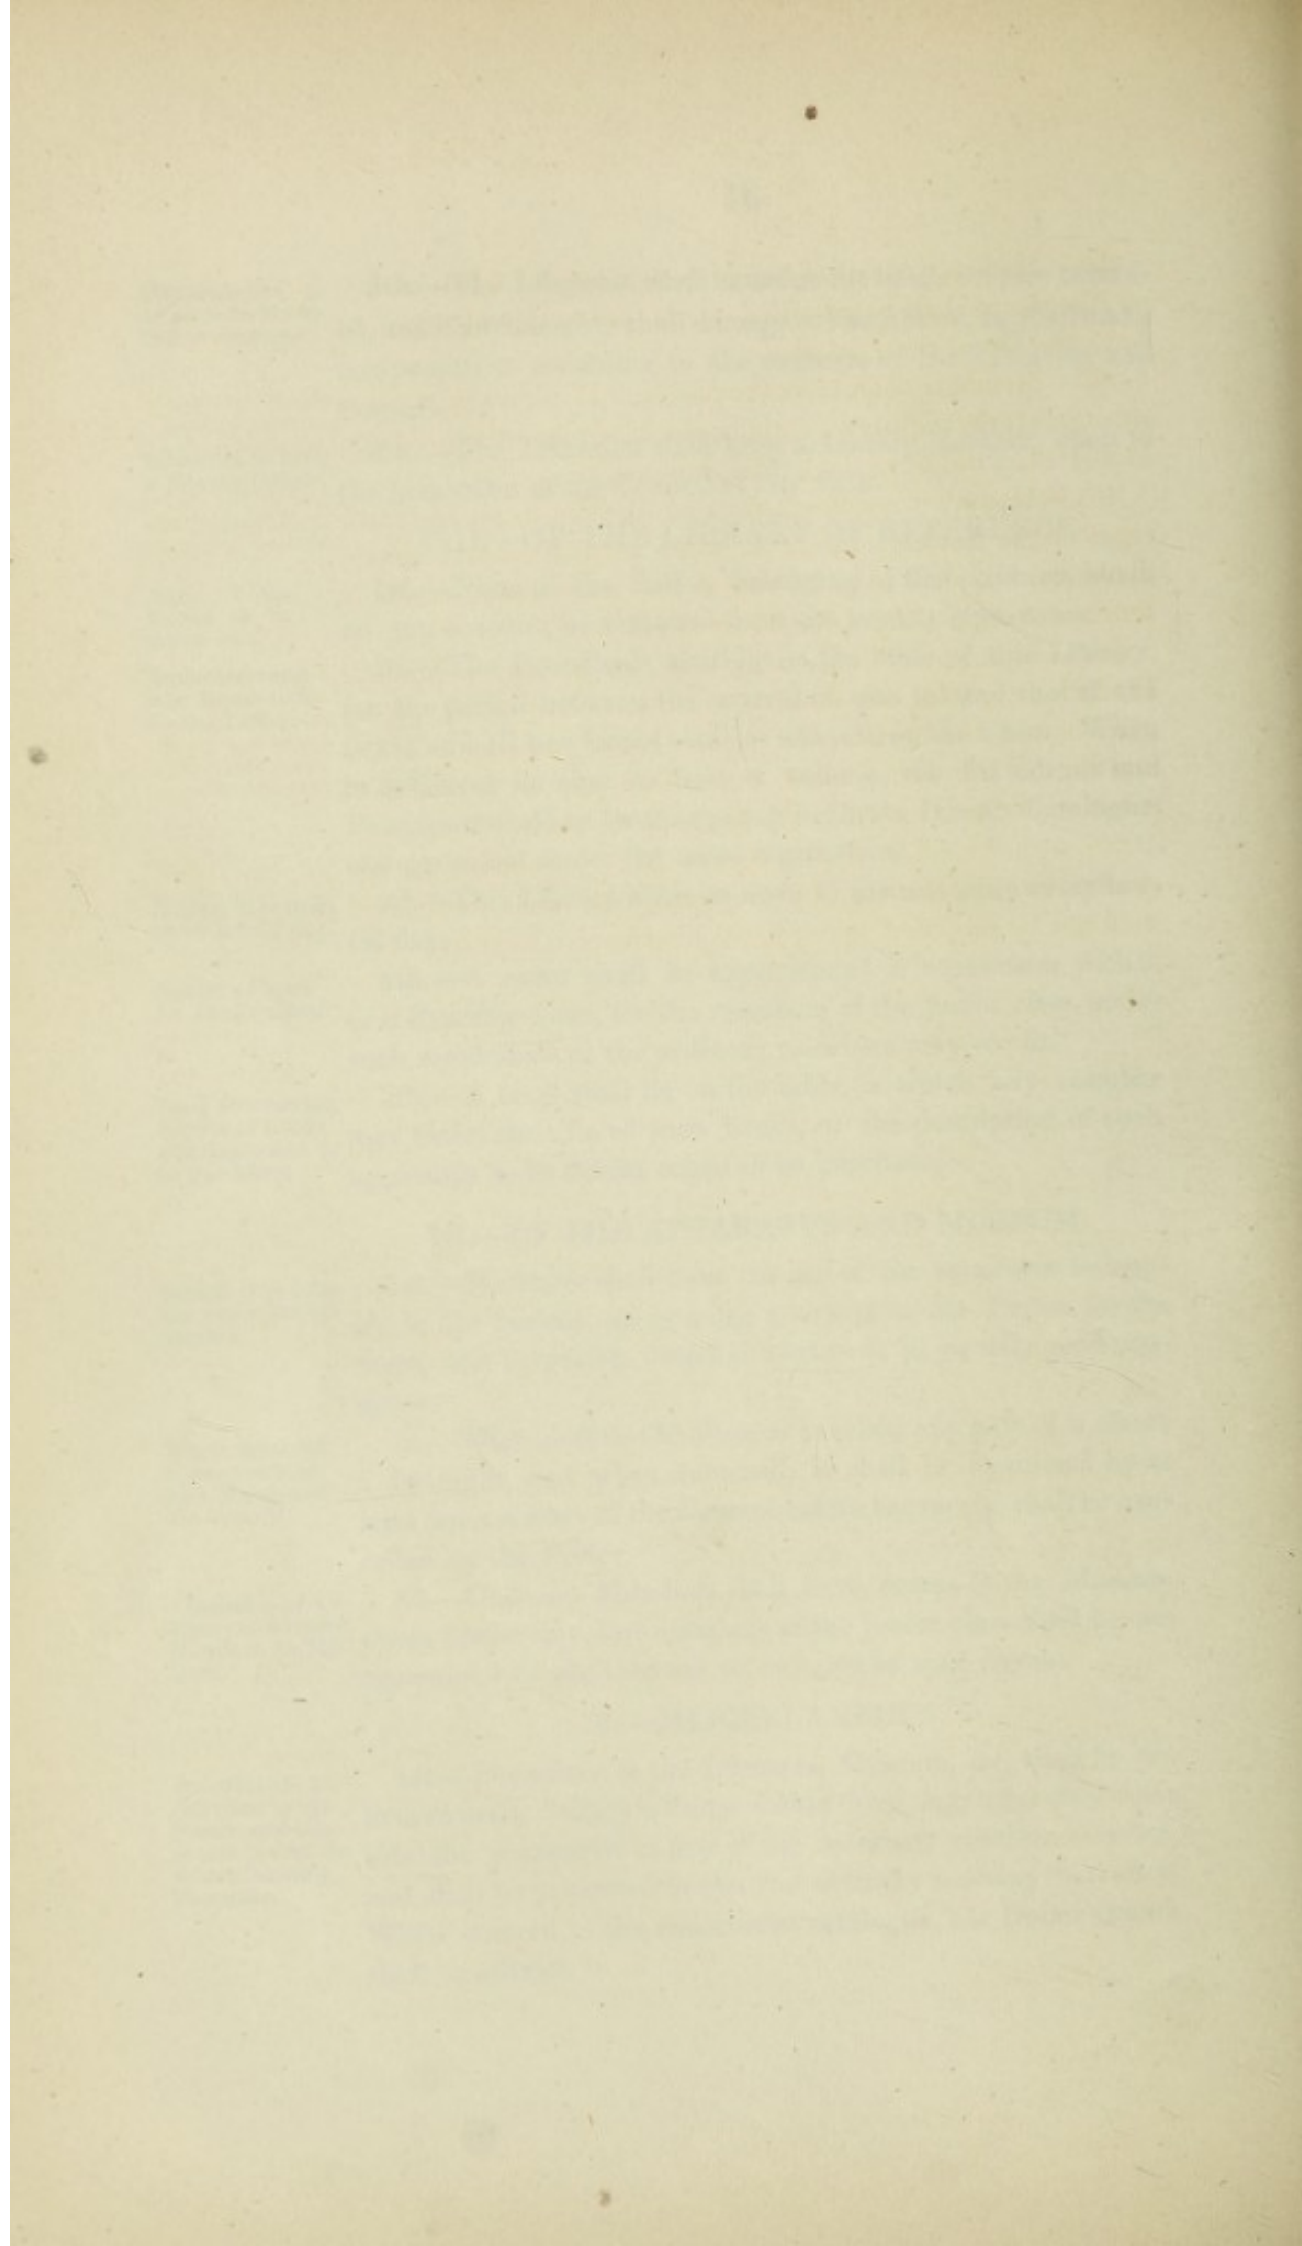

X.—MISCELLANEOUS.

Donations to be delivered to the Porter, and presented at first Ordinary Meeting thereafter.

1st.—Donations to the Libraries, Museum, &c. shall be delivered to the Society's Porter within three days after they come into the possession of any of the members residing in town, and shall be presented at the first ordinary meeting thereafter. When entered in the manuscript catalogue, the Donor's name shall be affixed.

1

The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, and that the laws of quantum mechanics are determined by the laws of the special theory of relativity. The second part of the paper is devoted to a discussion of the application of the theory of the structure of the atom to the study of the properties of matter. It is shown that the theory of the structure of the atom can be used to study the properties of matter, and that the properties of matter can be used to study the theory of the structure of the atom.

2d.—Medical officers of her Majesty's service when on duty at Aberdeen, shall be admitted to the ordinary meetings, and have the use of the Libraries.

Medical Officers of her Majesty's service admitted to the Society.

3d.—Members shall have the privilege of admitting medical strangers to the ordinary meetings, and Libraries—this privilege, in any case, not exceeding three months.

Members allowed to introduce Strangers.

4th.—Honorary members shall be entitled to all the privileges of the Society, under the same regulations as ordinary members, but shall have no vote in the proceedings, except in terms of Article 17th of the Trust Deed.

Privileges of Honorary Members.

5th.—Members of the Junior class, on becoming Medical Practitioners, shall not continue entitled to any other of the privileges of the Society, excepting that of attendance at the meetings of the Junior class, unless they pay an annual contribution of One Guinea to the funds of the Society.

Junior Members, on becoming Medical Practitioners, to pay an Annual Contribution of One Guinea.

6th.—In the event of any person being proposed for admission into the Society, and rejected, the same individual shall not be proposed again, for at least twelve months.

No person rejected, to be proposed again, for twelve months.

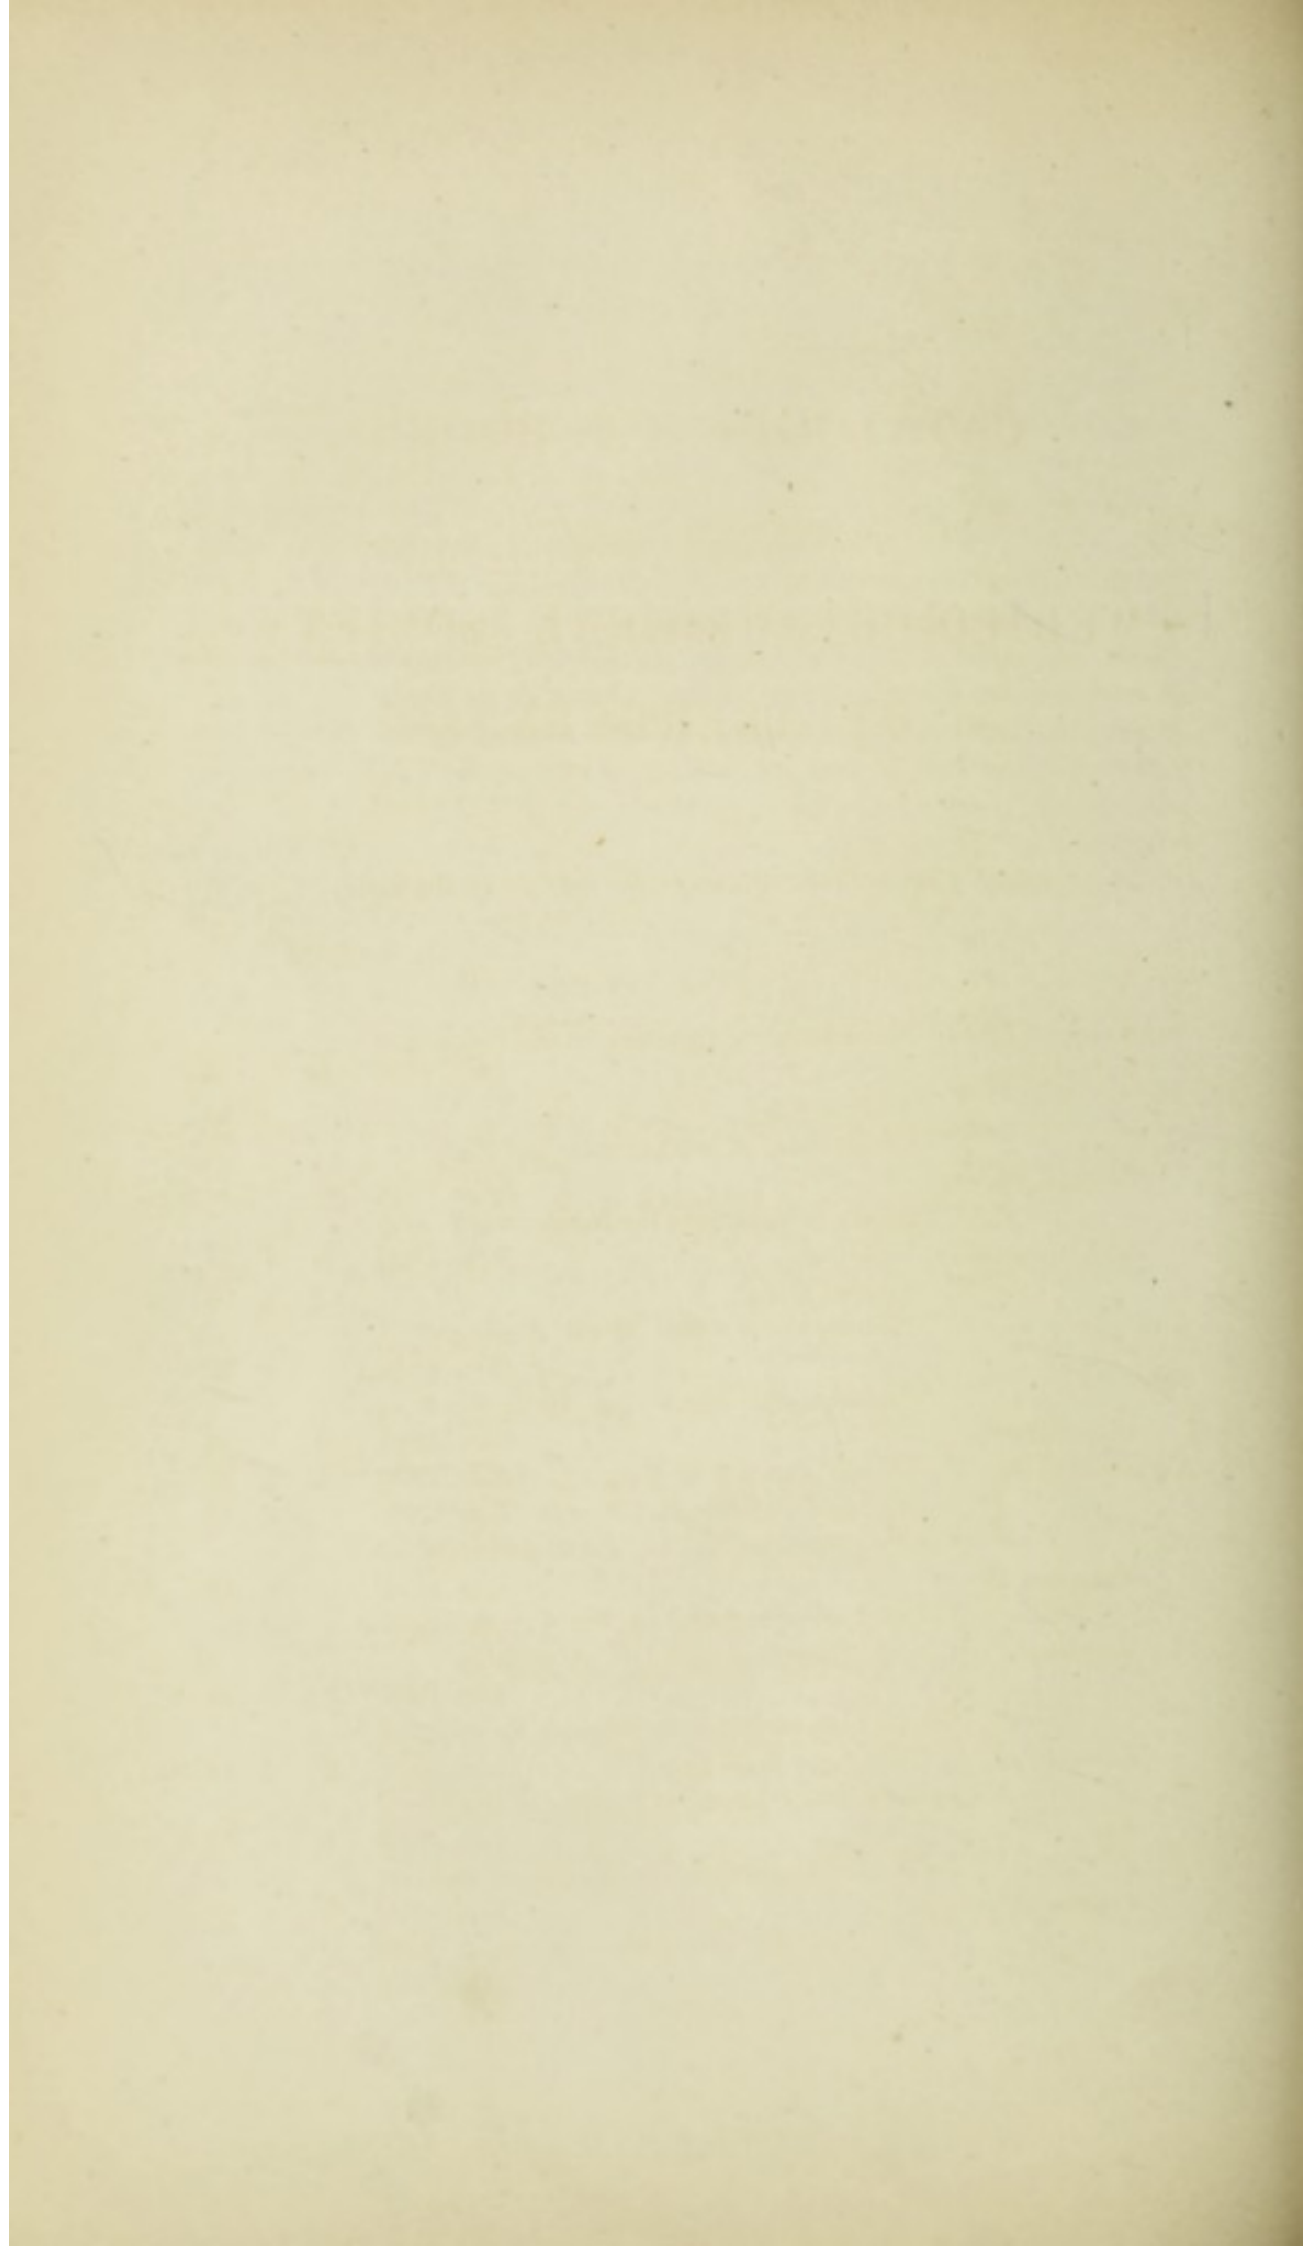

24.—Medical officers of her Majesty's service when on duty at Ayrshall be admitted to the ordinary meetings, and have the use of the Librarian.

25.—Members shall have the privilege of admitting medical students to the ordinary meetings, and Librarians—this privilege, however, in any case, not extending more than one month.

26.—Honorary members shall be entitled to all the privileges of the Society, under the same regulations as ordinary members, but shall have no vote in the proceedings, except in cases of Article 17th of the First Book.

27.—Members of the Junior class, on becoming Medical Librarians, shall not continue entitled to any other of the privileges of the Society, excepting that of attendance at the meetings of the Junior class, when they pay an annual sum of One Guinea to the funds of the Society.

28.—In the event of any person being proposed for admission into the Society, and rejected, the same individual shall not be proposed again, for at least twelve months.

CATALOGUE OF BOOKS

BELONGING TO THE

MEDICO-CHIRURGICAL SOCIETY OF ABERDEEN.

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The second part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The third part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The fourth part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The fifth part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The sixth part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The seventh part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The eighth part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The ninth part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter. The tenth part is devoted to a detailed analysis of the problem. It is shown that the problem is of great importance in the theory of the structure of matter.

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of the differential equations of the second order. The second part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The third part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The fourth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The fifth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The sixth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The seventh part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The eighth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The ninth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The tenth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order.

1. The first part of the document is a list of names and dates, arranged in two columns. The names are written in a cursive script, and the dates are in a simpler, more legible hand. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

2. The second part of the document is a series of paragraphs, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

3. The third part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a simpler, more legible hand. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

4. The fourth part of the document is a series of paragraphs, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

5. The fifth part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a simpler, more legible hand. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

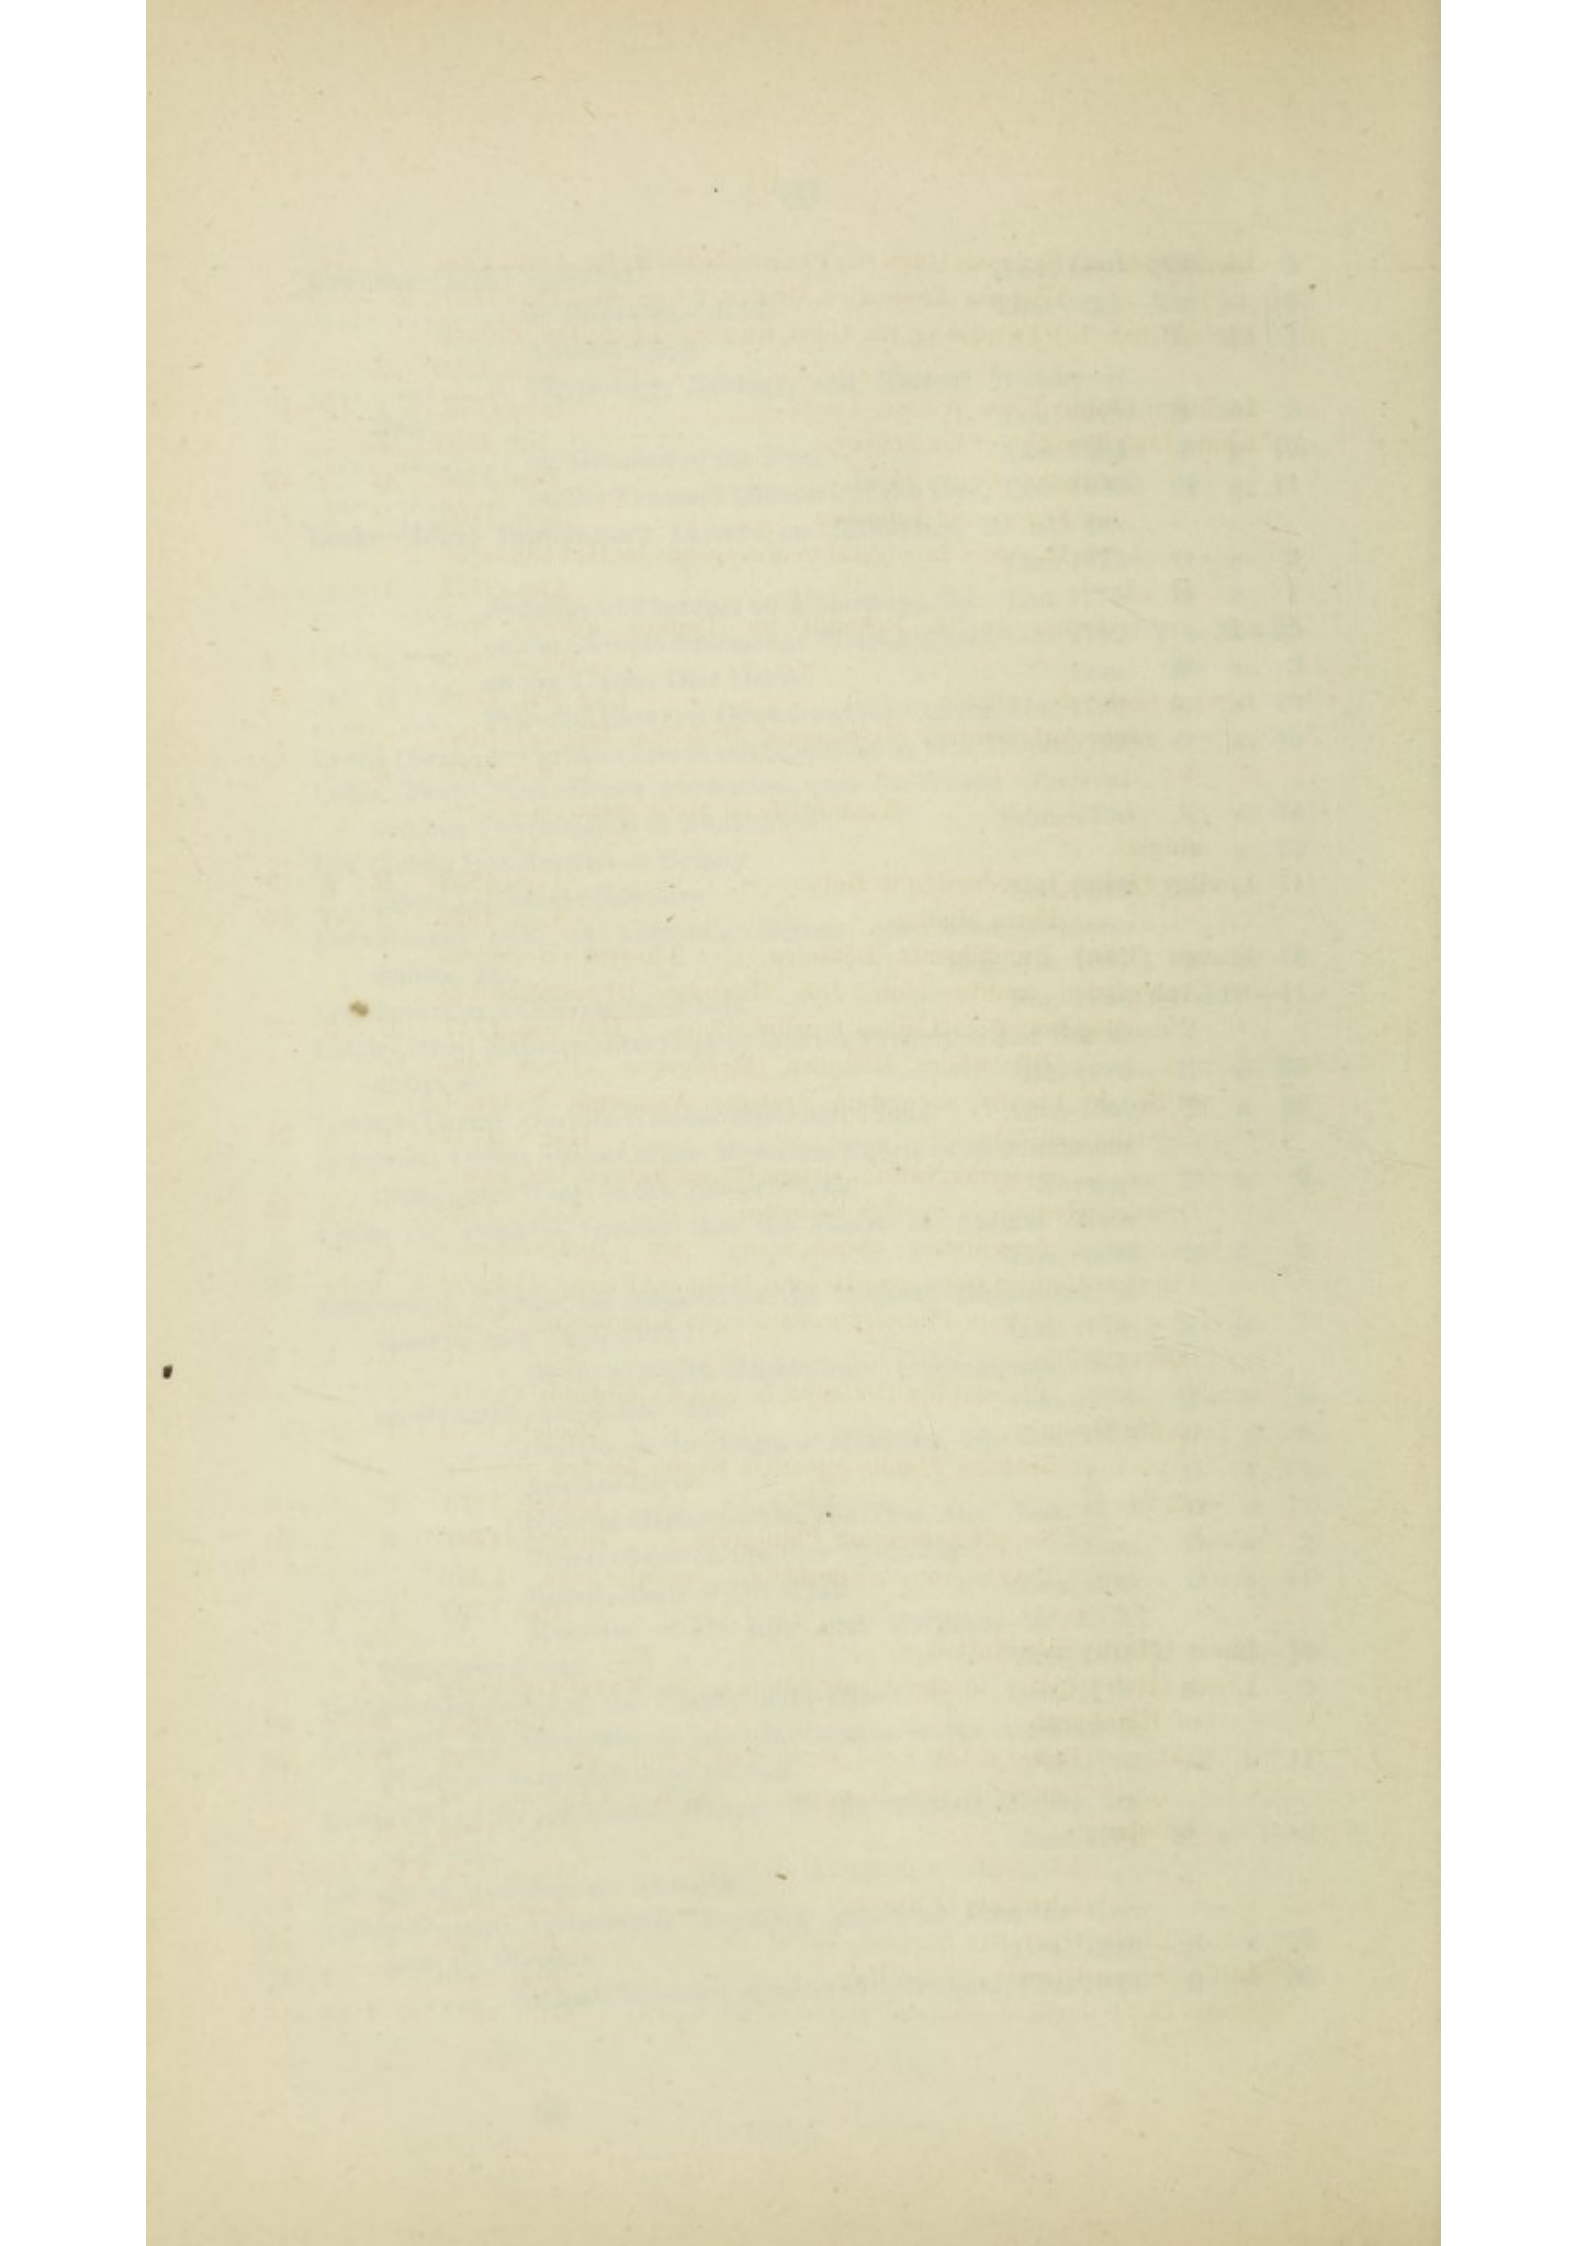

6. The sixth part of the document is a series of paragraphs, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

7. The seventh part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a simpler, more legible hand. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

8. The eighth part of the document is a series of paragraphs, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

9. The ninth part of the document is a list of names and dates, similar to the first part. The names are written in a cursive script, and the dates are in a simpler, more legible hand. The list appears to be a record of some kind, possibly a ledger or a list of transactions.

10. The tenth part of the document is a series of paragraphs, also written in cursive. The text is somewhat faded and difficult to read, but it appears to be a narrative or a report of some kind. The paragraphs are separated by small gaps, and the overall layout is somewhat irregular.

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is of great importance in the theory of the differential equations of the second order. The second part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The third part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The fourth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The fifth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The sixth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The seventh part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The eighth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The ninth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order. The tenth part of the paper is devoted to the study of the properties of the solutions of the differential equations of the second order. It is shown that the solutions of the differential equations of the second order are of great importance in the theory of the differential equations of the second order.
