Councillor R. Foster.
Councillor F. C. Mannington.
Councillor F. L. Pay.
Councillor A. G. C. Brown.

Public Health Committee

This consists of the whole of the members of the Council.

CHAIRMAN : Councillor G. W. Rhodes

DEPUTY CHAIRMAN : Councillor D. Barker, M.B., B.Ch.

Public Health Officers

Medical Officer of Health :

J. O. Murray, M.D., D.P.H.

Deputy Medical Officer of Health :

P. Freeman, M.B., Ch.B., D.P.H. (to 3.9.49)

J. H. Whittles, M.D., B.Sc., D.P.H. (from 7.12.49)

Chief Sanitary Inspector :

Thomas Howard (a) (b)

Senior District Sanitary Inspector :

A. E. South (a) (b)

District Sanitary Inspectors :

H. Taylor (a) (b), R. W. Wright (a) (b)

Chief Clerk :

Miss J. F. Coffey

Clerks :

Miss S. Springate, O. Thomas

(a) Sanitary Inspector's Certificate.

(b) Meat Inspector's Certificate.

Borough of Chatham

To the Mayor, Aldermen and Councillors of the Borough of Chatham.

MR. MAYOR AND GENTLEMEN,

I have the honour to present my Annual Report for 1949.

BIRTHS

The total number of live births recorded was 857. The birth rate, which, in 1947, reached a peak of 25.5 per thousand living persons, has shown a decline in the past two years, being 21.2 in 1948 and 20.5 in 1949. The number of still births was 19, giving a still birth rate of 0.45 per thousand population.

DEATHS

There were 531 deaths, equal to a death rate of 12.7 per thousand living persons. In 1948, the corresponding figure was 11.2.

INFANTILE MORTALITY. (Deaths of infants under one year of age).

The Infant mortality rate is the lowest recorded in the Borough. It is 29.17 per thousand live births.

INFECTIOUS DISEASES, OTHER THAN TUBERCULOSIS

There were no serious epidemics during the year. As in 1948, there were no notifications of Diphtheria during 1949. Whooping Cough was the cause of the largest number of notifications, namely, 189 cases during 1949.

There were no infectious diseases deaths other than from Pneumonia, which was the cause of 22 deaths.

TUBERCULOSIS—ALL FORMS

The tables on page 23 show that, whilst the notification rate of Tuberculosis has risen since pre-war years, there has not been a proportionate increase in the death rate. The notification rate which was 1.27 per thousand persons living in the period 1935-1939, was 2.23 in 1949, whilst the death rate, which was 0.69 per thousand persons living in the period 1935-1939, was 0.72 in 1949.

Associated with this increased notification rate, the registered cases of Tuberculosis has risen from 180 in 1940 to 363 at the end of December, 1949.

These figures suggest that methods of diagnosis and treatment have improved, as indeed they have in recent years, mass radiography having detected many cases of early unsuspected infection.

It can be assumed, therefore, that part of the increase in notifications is due to earlier and more frequent diagnosis, but some of it must be attributed to greater infectivity among the community. The spread of infection is facilitated by the existing bad housing conditions and overcrowding and early isolation is more difficult on account of the serious shortage of sanatoria and hospital beds.

HOUSING

The number of houses erected by the Local Authority in 1949 was 218 and 26 houses were erected by other persons. Demolition orders were made on 24 houses.

The lack of adequate housing conditions still remains the confronting public health problem. In April 1949, there were 1,279 applicants for corporation houses.

SEWERAGE

Additional extensions to the foul sewer, totalling 5,951 yards, were carried out during the year. For details see page 25.

In the preparation of this report, I am indebted to my colleagues in this and other corporation departments for information and figures which they have supplied to me, and I would like to record my appreciation of this help and their co-operation during the year.

I would also like to take this opportunity to thank the Chairman and members of the Health Committee for the consideration and support they have given me on many occasions.

I have the honour to be,

Your obedient servant,

J. O. MURRAY,

Medical Officer of Health.

SECTION A

STATISTICS AND SOCIAL CONDITIONS OF THE AREA

Area (in acres)	4,356
Registrar-General's estimate of resident population (civilian)	41,750
(total)	54,420

Number of inhabited houses on the Rate Books:—

Dwellinghouses	11,758
Shops with living accommodation	726
Licensed Premises with living accommodation	123
Rateable Value	£293,676
Sum represented by a penny rate	£1,137

Extracts from Vital Statistics

	<i>Males</i>	<i>Females</i>	<i>Total</i>
Live Births—Legitimate	395	420	815
Illegitimate	25	17	42
Birth Rate per 1,000 of the estimated population	20.53
Stillbirths	19
Birth Rate per 1,000 (live and still) births	20.98
Deaths	278	253	531
Death Rate per 1,000 of the estimated resident population	12.72

Death Rate of Infants Under 1 Year of Age

All infants per 1,000 live births	29.17
--	-------

Births

The number of births recorded is 857 as compared to 886 in 1948.

Deaths

There were 531 deaths. During the previous seven years there were:—

1948	467
1947	562
1946	485
1945	501
1944	501
1943	513
1942	520

The following table shows the Birth, Death and Infant Mortality Rates during a period of 40 years:—

Period	Birth Rate per 1,000	Death Rate per 1,000	Infant Mortality per 1,000 births
1910 to 1914 (average)	25.1	13.4	105
1915 to 1919 do.	22	18	97
1920 to 1924 do.	22.1	12.3	73
1925	20.3	11.7	63
1926	20.2	13.2	83
1927	21.1	13.9	65
1928	18.01	11.8	60
1929	18.03	14.2	95
1930	18.5	10.8	43
1931	18	14.4	63
1932	17.5	12.4	60
1933	15.1	11.5	61
1934	15.2	11.4	63
1935	16.3	11.2	50
1936	15.5	11.9	51
1937	16.2	12.4	66
1938	15.95	12.2	64.1
1939	16.1	12.4	36.3
1940	19.55	15.58	38.1
1941	19.06	14.51	53.37
1942	19.03	14.5	80.76
1943	20.1	14.38	68.3
1944	23.7	14.23	87.3
1945	20.73	13.8	52.1
1946	24.7	12.3	32.1
1947	25.5	13.8	38.5
1948	21.28	11.21	29.34
1949	20.53	12.72	29.17

Section B

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA

Laboratory Facilities

The bacteriological examinations of throat swabs, sputum, blood, milk, water or other suspected material are carried out in the County Council Laboratory at Maidstone.

Chemical examinations are done by the County Analyst.

There is no delay in sending results.

Clinics and Treatment Centres

1. *Maternity and Child Welfare.*

(a) Ante-natal Clinics:

White Road	...	2nd & 4th Tuesdays	a.m.
King's Road	...	1st, 3rd & 5th Tuesdays	a.m.
Elm House	Mondays p.m. Thursdays p.m.

(b) Child Welfare Clinics:

White Road	Mondays p.m. Thursdays p.m.
Kings Road	Tuesdays p.m. Fridays p.m.
Elm House	Tuesdays p.m. Fridays p.m.

(c) Dental—by appointment.

(d) A Child Welfare Clinic is held at the Methodist Hall, Walderslade, on the first, third and fifth Friday of each month.

2. *Women's Welfare Clinic.*

St. William's Hospital	...	1st and 4th Wednesdays	at 1.30 p.m.
		2nd, 3rd and 5th Wednesdays	at 9.15 a.m.

3. *Diphtheria Immunisation and Vaccination.*

Elm House	3rd & 5th Wednesdays	p.m.
White Road	1st Wednesday	p.m.
King's Road	4th Wednesday	p.m.

4. *School Medical Service.*

(a) Minor Ailments and Minor Inspections.

SECTION D.

SANITARY CIRCUMSTANCES OF THE AREA

Rainfall during 1949.

I am indebted to Avon E. Crisp, Esq., M.A., M.Inst.C.E., for the following figures taken at the Luton Pumping Station :—

Month	Total depth in inches	
January	0.93	
February	0.96	
March	0.81	
April	1.52	
May	1.71	
June	0.61	
July	1.70	
August	1.17	
September	0.79	
October	7.32	
November	2.49	
December	1.39	
Total	21.40	

Water

Supply is by the Chatham and District Water Co. and has been satisfactory both in quality and quantity. 36 samples of water were taken for bacteriological examination, each of which showed a good result. Chlorination is still carried out.

The following number of houses are supplied by public water mains :—

(a) Direct to houses	12569
(b) By means of stand-pipes	12

The following number of houses are supplied other than by public water mains 38

Drainage and Sewerage

The number of new houses connected to the public sewer during the year was :—

Corporation Property	218
Private	23
Total	241

Number of existing houses so connected ... 40

The following extensions were made to the foul sewers giving a total length of 5,591 yds. lineal.

Luton Second Relief	400 yds. lineal
Dargetts Road	730 ,, ,,
King Edward Road	290 ,, ,,
Churchill Avenue	720 ,, ,,
Chestnut Avenue	1,096 ,, ,,
York Avenue	378 ,, ,,
Alexandra Road	360 ,, ,,
Boxley Road	360 ,, ,,
Langdown Road	1,017 ,, ,,
Walderslade Road	600 ,, ,,

Public Cleansing

General public cleansing of street gullies, household and trade refuse is carried out by the Borough Engineer's Department and disposal is by controlled tipping.

House refuse is collected once per week except in the High Street, Military Road and Railway Street area where it is collected three times per week. Trade refuse is collected at the same time as the house refuse except where large quantities need special collection.

In accordance with the decision of the Council, all rubbish tipped must be covered the same night.

Cesspool Work

1,068 complaints of choked drains and cesspool overflows were received, and it was found possible to clear 921 drains from obstruction. Overflowing cesspools made up the remainder of the complaints. The number of cesspools emptied was 147.

CHIEF SANITARY INSPECTOR'S REPORT FOR 1949

*To the Mayor, Aldermen and Councillors of the Borough
of Chatham*

MR. MAYOR AND GENTLEMEN,

I beg to submit my report for the year ending 31st December, 1949, and the work of the sanitary inspectors and the sanitary depot.

New houses are still being built but in too small a number as to affect the position of slum clearance and substandard houses.

I have the honour to be,

Your obedient servant,

T. HOWARD,

Chief Sanitary Inspector.

SECTION E.**HOUSING****1. Inspection of Dwelling-Houses during the Year**

1. (a) Total number of dwelling houses inspected for housing defects (under Public Health or Housing Acts)	1072
(b) Number of inspections made for the purpose ...	2759
2. Number of dwelling houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932	78
3. Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation	78
4. Number of dwelling houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	625

2. Remedy of Defects During the Year without Service of Formal Notices

Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their Officers	286
--	-----

3. Action Under Statutory Powers During the Year

(a) Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936:—	
1. Number of dwelling houses in respect of which notices were served requiring repairs	Nil.
2. Number of dwelling houses which were rendered fit after service of formal notices:—	
(a) by owners	Nil.
(b) By Local Authority in default of owners ...	Nil.
(b) Proceedings under Public Health Acts:—	
1. Number of dwelling houses in respect of which notices were served requiring defects to be remedied	349
2. Number of dwelling houses in which defects were remedied after service of formal notices:—	
(a) By owners	338
(b) By Local Authority in default of owners ...	Nil.

(c)	Proceedings under Sections 11 and 13 of the Housing Act, 1936:—	
1.	Number of dwelling houses in respect of which Demolition Orders were made	24
2.	Number of dwelling houses demolished in pursuance of Demolition Orders	4
(d)	Proceedings under Section 12 of the Housing Act, 1936:—	
1.	Number of separate tenements or underground rooms in respect of which Closing Orders were made	Nil.
2.	Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit	Nil.

New Houses During 1947

(a)	The total number of dwelling houses on plans submitted during 1949 was 46.	
(b)	The total number of houses erected during 1949	244
(1)	Houses erected by Local Authority	218
(2)	Houses erected by other Persons	26

Re-Housing of Council House Applicants

During the year, 20 removals were undertaken by this Department. In each case fumigation was carried out to the household effects.

Requisitioning of Vacant Houses

During the year, enquiries were made into 4 vacant houses, with a view to requisitioning. In all cases the houses were occupied. The main cause of delay was the time lag in transferring the deeds of houses to new purchasers, and redecoration.

Slaughter of Animals Act, 1933

The number of licensed slaughtermen on the register at the 31st December, 1949, was 25.

Rat Destruction

No. of rats caught in dwellinghouses	441
No. of rats caught in business premises	323
No. of rats caught at farms	129
No. of rats caught on corporation property	502
	1395

Poison treatment, according to the Ministry of Agriculture and Fisheries instructions was carried out, and the number of rats destroyed was 1,038. Of this figure, 156 carcasses were found and included in the total of 1,395.

SECTION F.

INSPECTION AND SUPERVISION OF FOOD

Food and Drugs Act, 1938.

Analysis by the County Analyst by arrangement with the Kent County Council.

	No. of Samples		Result of Analysis		Genuine Good Quality	Adulterated Informal

Totals	66	58	2	7	114	1

Inferior and adulterated samples of sausages and sausage meat were reported to the Food Control Committee for possible action under the Meat Products and Canned Meat (Control and Maximum Prices) Order, 1948, as amended. Statutory Instrument No. 1509, 1948. Prosecutions are pending.

Samples for Bacteriological Analysis.—County Laboratory, Maidstone

The following samples were collected for analysis :—

WATER

36 Water Samples were found to be “ Good Water.”

MILK

240 samples of milk were taken with the following result :—

Class of Milk	Number of Samples	Appropriate Tests	Number of Tests	
			Passed	Failed
Pasteurised	43	Phosphatase Methylene Blue	42 42	1 1
Heat Treated	76	Phosphatase Methylene Blue	75 71	1 5
Sterilised	14	Turbidity	14	—
Tuberculin Tested (Pasteurised)	78	Phosphatase Methylene Blue	75 76	3 2
Tuberculin Tested	*22	Methylene Blue Coliform	15 9	7 7
Accredited	*7	Methylene Blue Coliform	3 1	4 4
Totals			423	35

* No Coliform Test was carried out on 8 of these samples.

Ice Cream

88 Ice Cream Samples were taken and the result was as follows :—

	GRADE				Total
	1	2	3	4	
Manufactured in the Borough	14	15	7	8	44
Manufactured outside the Borough... ..	19	8	9	8	44

Fish Offal

Fish Offal collected was 18 tons 17 cwts., and the amount received was £43 9s. od. (This amount includes a small collecting fee).

Bakehouses

There are 14 Bakehouses in the Borough.

Ice Cream

6 premises are registered for the manufacture of Ice Cream and 52 for the sale and storage of ice cream.

Disinfestation of Bedding, etc.

Bedding from Council House Applicants fumigated	28
Furniture from Council House Applicants disinfected	23
Council house rooms fumigated for vermin ...	40
Rooms of other houses fumigated for vermin ...	114
Bedding disinfected for vermin	17
Parcels of Bedding destroyed	9
Infectious diseases—bedding fumigated	72
Infectious diseases—rooms disinfected	77
Wasps Nests destroyed	7
Loads of Rubbish destroyed	9
Library Books fumigated	2

Fish Fryers

There are 24 Fish Fryers on the register.

Contagious Diseases of Animals Acts

No cases were reported during the year.

Notices Served

During the year the following Notices were served:—

No. of Informal Notices	625
No. of Statutory Notices served on 1949 Informal Notices	317
No. of Statutory Notices served on 1948 Informal Notices	32
Total No. of Statutory Notices served during the year	349

Of these, the following were completed:—

No. of Informal Notices completed without a Statutory Notice having been served	286
* No. of Statutory Notices completed	338
Total No. of Notices completed in year 1949	*624

* This figure includes notices completed during the year, but served prior to 1949.
