CHELTENHAM RURAL DISTRICT COUNCIL.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1969.

To the Chairman and Members of the Cheltenham Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting the Annual Report for 1969 on the health and sanitary circumstances of the Rural District.

I am indebted to many officers of the Council for much of the material from which the Report is compiled and especially to Mr. F. H. Lewis, the Chief Public Health Inspector, for the section on the work of his department and to the Engineer and Surveyor, Mr. L. Grogan, for his comments on refuse and sewage disposal.

The Registrar-General's estimate of the population, 42,340 is 910 more than in the previous year but the growth in population is not quite as large as usual.

The Birth Rate, 14.8 per 1,000 population, continues the decline which has taken place since a peak in 1965 and is similar to the trend in the County and for the country as a whole.

The incidence of notifiable infectious disease was again extremely slight. The high level of immunisation and vaccination needs to be maintained and improvement made in the state of vaccination against measles.

In localities where general industrial development has been permitted complaints of nuisance from noise have been made in neighbouring residential areas. Negotiations with the firms concerned proved to be the most successful method of securing abatement of the nuisance.

Under the Imported Food Regulations 1968 food can now be transported directly from the docks to inland food storage depots where its examination becomes the responsibility of the inland local authority. There are two such depots in the Rural District and the Government make a financial grant towards the cost of this work.

I have held office for many years and throughout have enjoyed the support and encouragement of members of the Council and co-operation and loyalty of the staff.

I am, Mr. Chairman, Ladies and Gentlemen,
Your obedient servant,

STEPHEN KNIGHT

Medical Officer of Health.

CHELTENHAM RURAL DISTRICT COUNCIL.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA,

	Area Comparability Factors(Deaths) Ratio of local adjusted death rate	1.23		
	to National rate.	11.4		

POPULATION:

The Registrar-General's estimate of the population 42,340 shows an annual increase of 910 somewhat below that of recent years which has been more than 1,000.

BIRTH RATE:

There were 625 births as compared with 696 in the previous year. The Birth Rate 14.8 continuing the decline of the last four years.

DEATH RATE:

395 people died during the year as compared with 354 the previous year but the Death Rate, 9.3 deaths per 1,000 population, is lower than the national average of 11.9.

INFANT MORTALITY:

Fourteen infants died under one year of age, the infantile mortality being at the rate of 22 such deaths per 1,000 live births as against 18 for England and Wales. However if the still births are taken into account as in the perinatal mortality (still births and neo-natal deaths combined) the local average 16 compares favourably with that for the County and Country as a whole.

VITAL STATISTICS. (Continued)

CANCER:

Death Rates from Cancer per 1,000 population: -

	England	England & Wales		Cheltenha	m Rural D	istrict
	Male	Female	Persons	Male	Female	Persons
Cancer of the Lung Other Cancer	1.039 1.570	0.202	0.610	0.8	0.14	0.47

Sixteen men and three women died from cancer of the lung. Even so the local death rate from this cause and from other forms of cancer is lower than the national average.

CAUSES OF DEATH:

The causes of death in the following table are classified under the Abbreviated List (B List) of International Statistical Classifications:

Pruemonia Encephalitis, infectious Erysipelas Puerperal Pyrexia Infective Jaundice		 8 5					12 7

Scarlet Fever

As has been usual for many years, the incidence of Scarlet Fever was light and the cases mild in character.

Diphtheria

The District continues to be free from Diphtheria. The last case occurred in 1949.

Whooping Cough

Only two cases were notified.

Measles

25 cases were notified as compared with several hundred cases in previous years when vaccination against the disease was not available.

Policmyalitis

The District continued free from poliomyelitis.

Dysentery

No notifications were received.

Infective Jaundice

This disease has been made notifiable and mineteen cases were reported. Cases tend to occur in a particular locality but direct contact can seldom be traced.

PREVALENCE OF , AND CONTROL OVER INFECTION AND OTHER DISEASES

INFECTIOUS DISEASES NOTIFIED DURING 1969 (Continued) (excluding Tuberculosis)

Number and percentage of children vaccinated	6 (1%)	104 (16%)	300 (48%)

TUBERCULOSIS

NEW CASES

	Childre 0 - 4	n years	5 - 14 ye	ars	All person	15
Respiratory Meninges and C.N.S. Other forms	00 to 00					
				TOTAL:	3	
		DEATH	18			
	Male		Female			
Respiratory Meninges and C.N.S.						
Other forms			238-			
		TUBERCULOS	IS REGISTER			

The number of cases on the register at 31st December, 1969 was as follows:-

	Pulmonary		Non-Pa	lmonary		All forms
Male	Female	Total	Male	Female	Total	All forms Total
42	15	_57_	1	12	13	70

Nowadays treatment of the disease is effective and patients are not ill for long periods. Three new cases occurred and every effort was made to find the source of the infection and to trace all the contacts. By such means together with full support of the Mass Radiography Service and B.C.G. Vaccination, tuberculosis could be eradicated.

PUBLIC HEALTH

FOOD & DRUGS ACT: 1955.

Clean Food and Food Hygiene.

Regulations are in force for securing hygienic methods in the handling, wrapping and delivery of food for sale. The Regulations require that clean food should be dealt with only by clean persons in clean premises, using clean equipment.

Food shops and similar establishments (including vehicles) are inspected regularly to ensure that food is wholesome and that the premises and vehicles comply with requirements.

NATIONAL ASSISTANCE ACT: 1948.

Section 47 - Removal to Suitable Premises of Persons in need of care and attention.

National Assistance (Amendment) Act, 1951 - Section 1.

These Acts give local authorities power to apply to the Courts for the compulsory removal of aged or sick persons who are living in insanitary conditions and are unable to provide for themselves and are not receiving from other people, proper care and attention. It was not necessary to make any application to the Court during the year.

The Home Help Service and Old People's Welfare Committee are of great assistance to many elderly people, enabling them to carry on in their own homes even though they have been left on their own.

Old People's Welfare Committee

An Old People's Welfare Committee operates in the area. The Committee helps to co-ordinate local Services, both voluntary and statutory, for the elderly. This Committee has proved most useful and members act as visitors in their own area. Mr. W. A. Acocks is the Hon. Secretary of the Cheltenham Rural District Old People's Welfare Committee.

A Day Centre and its transport service has been set up to help persons who would otherwise be housebound.

Meals on Wheels.

A meals on wheels scheme operates in the Rural District. The service is developing and it is expected to extend to supply all those in need of the meals.

The W.R.V.S. act as agents of County Welfare in promoting the Scheme through the local organiser, Miss J. Mann. The deficit on the service is met by equal contributions from the County Council and District Council.

Families at Risk

A "Prevention of Homelessness" Scheme has been agreed between the County Council and the District Council. The Council may refer families for inclusion in this scheme when the rent arrears amount to £10 or four weeks rent. In cases so referred the County Council agrees to guarantee 85% of the arrears and supervision of the family is undertaken by the County Council Social Welfare Officer.

If a family is in danger of loosing the home, the Divisional Medical Officer of Health calls a meeting of representatives of social agencies concerned, in order that the circumstances may be discussed and a co-ordinated effort made to help the family.

GENERAL PROVISIONS FOR HEALTH SERVICES.

Laboratory Facilities

Samples of water, milk and ice-cream and pathological specimens are sent for bacteriological analysis to the Public Health Laboratory, Gloucester. The Laboratory is part of the Public Health Laboratory Service of the Department of Health & Social Security, and no charge is made for making use of its services.

Specimens for chemical examinations are submitted to the City Analyst, Bristol or to the County and City Analyst, Worcester.

HOME HELP SERVICE

This service is organised by the County Council and a charge is made according to a scale of assessment.

The Home Help takes over the running of the home where the housewife is temporarily incapacitated through illness. As noted elsewhere, the Service is very useful to old people who can no longer manage because of infirmity.

Appeals for assistance from the Home Help Service should be made to Mrs. J. Williams, the Area Home Help Organiser at the Divisional Health Office, Copt Elm Road, Charlton Kings, Cheltenham. (Telephone No. Cheltenham 25746 and 25747).

Nursing in the Home

The area is under the control of the County Council. Information is available from the Divisional Health Office, Charlton Kings.

CHILD HEALTH CLINICS

Apperley	Last Thursday	Stanway	2nd Friday

Shurdington	1st., 3rd. and 5th. Wednesday (Toddlers)	,	Zime w quie iloimajo

Dumbleton and Stanway now served by the Mobile Unit on the 3rd Friday.

These Clinics are under the administration of the County Council. Nearly all mothers and babies attend. The bulk of the work falls upon the ladies of the local Voluntary Committee and the thanks of the community are due to them for their devotion to this work.

PUBLIC SWIMMING BATHS.

Stanton Open Air Pool.

This concrete lined pool has a capacity of 70,000 gallons and is situated a few hundred yards to the east of the village. Puring the summer months it is in constant use, not only by bathers from Stanton and the surrounding villages, but also by visitors to the Gloucestershire Education Authority's Summer Youth Camp, close by.

While the pool is maintained and adminstered by the Parish Council, the water is supplied by the Water Undertaking. Chlorination is carried out by means of sulphate of ammonia and chloros and the pool is emptied, thoroughly cleansed and re-filled at approximately fortnightly intervals. Samples for bacteriological examination are taken periodically.

WATER SUPPLY.

The supply in the district was satisfactory in quantity and quality throughout the year. All the supplies are chlorinated.

Samples were taken for bacteriological analysis from public and private supplies.

None of the waters are liable to have plumbo-solvent action.

REFUSE COLLECTION

The Surveyor reports that the Council employ seven vehicles on this service. Built-up areas which house approximately two-thirds of the population, receive a weekly collection, and the remainder a fortnightly collection. The volume of household refuse continued to increase and the question of disposal was constantly under consideration. Refuse from the north of the district was tipped at Winchcombe, and refuse from the south of the district at the Cheltenham Corporation Tip, by arrangement. Consultations took place with adjoining authorities regarding future tipping sites.

The County Council were approached regarding Work Study and they produced a feasibility report on this service. After consideration the Council agreed that the County Council Management Services should prepare a traditional measured work incentive bonus scheme.

SEWAGE DISPOSAL

The Surveyor reports that during the year preparatory work continued on the following proposed schemes.

Provisions of sewers - Uckington and Hayden.

Provision of main sewerage at Apperley, Deerhurst.

Enlargement of Sewage Works - Brockhampton.

Enlargement of Sewage Works at Alderton.

Provision of sewers and Works at Stoke Orchard(including the hamlet Hardwicke).

Provision of sewers to part of Ashchurch.

CHELTENHAM RURAL DISTRICT COUNCIL.

Report by the Chief Public Health Inspector on the work of the Department for the year 1969

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting the Annual Report on the work of my department and would like to take this opportunity of thanking the Chairman and Members of the Council for the consideration and support extended to me during the year.

In the field of housing the emphasis in the national housing policy tends towards the preservation and conservation of older houses and the raising of standards by the provision of amenities. The Council's programme for the improvement of the older Council houses being virtually complete it was decided that a survey should be made in the private sector; accordingly provision was made for an Inspector to be employed to survey approximately 700 houses which had been placed in Category 111 in the Rural Housing Survey in order to ascertain what improvements or deterioration had taken place. This work will be carried out in 1970.

The activities of the department have continued to increase due to the growth of the district, the need for increased and improved services and new legislation. The following report deals with the principal sections of the works of the department.

I would like to thank all members of the Council's staff for the friendly and close co-operation which has prevailed throughout the year.

I am, Mr. Chairman, Ladies and Gentlemen, Your obedient servant,

F. H. LEWIS

Chief Public Health Inspector.

HOUSING

The number of new dwellings completed in the district during the year totalled 245, of these 241 were erected by private enterprise. The Council completed 4 dwellings at Winchcombe.

Taking a figure of 3.2 persons per dwelling, it is estimated that accommodation was provided for a population of approximately 784, with consequent increase in the demand for services, such as sewerage and refuse collection.

The Council has continued its activities regarding improvement grants and owners of property are encouraged to make applications and every assistance is given to applicants. There are still many properties in need of improvement and it is hoped that in course of time, the majority, if not all, will take advantage of the benefits of the scheme.

Reduced Standard Grants Dwellings		3	

Improvement Grants

The results have in all instances been very satisfactory and there is no doubt that improvement grants have enabled accommodation to be retained and thus avoided the Council having to provide more houses.

PUBLIC HEALTH

Under this heading has been included the work in connection with milk supply, infectious diseases, water supply, nuisances, disinfestations, tents, vans and sheds, factories and workshops, pollution of streams, inspection of food premises, public conveniences and sewage disposal, etc.

The following figures show the activities during the year:-	Year E 31.12.68.	nding: 31.12.69
Number of complaints received or nuisances discovered	87	86
Nuisances abated	59	56
Complaints not justified	35	26
Informal notices sent	41	18
Statutory Notices served	2	-
Number of premises disinfested	2	3
Number of visits in connection with the above items	283	362
Number of visits to public conveniences	24	4
Infectious disease visits	6	49
Number of visits in connection with sewerage survey		302
Other Public Health Visits, i.e. Farm drainage, flooding, etc.	469	350

Food & Drugs Act, 1955.

Informal Notices sent

13

During the year 24 visits were made in the course of investigating 9 complaints which were received as to the condition and quality of food purchased by the Public.

In four cases it was considered that no action could be taken, one of which was referred to the Gloucestershire County Weights and Measures Department.

Warning letters were sent to offending firms in 5 cases and no prosecutions were instituted during the year.

Section 16 (1)

Number of premises registered for the sale and storage of icecream:	102
Number of applications considered and licences issued during	
the year:	0
Number of premises registered for the preparation of preserved	
foods intended for sale:	5
Total number of visits in connection with the Food and Drugs Acts:	239

Offices, Shops & Railway Premises Act, 1963.

No new premises were registered during the year, and the total number of premises registered is as follows:-

Offices Retail Shops Wholesale Shops, Warehouses Catering establishments open to the public, canteens Fuel storage depots	25 77 6 20 1
TOTAL	129

General inspections were continued during the year throught the Rural District and premises were found to generally comply with the Act.

Minor infringements were dealt with by verbal notice and followed up by letters where found to be necessary, and covered such matters as

(a) Provision of abstract of Act.

(b) Provision of thermometers.

(c) Provision of wash hand basins with hot water.

(d) Ventilation.

(e) General defects and cleanliness.

Two accidents were reported during the year and in one case a cleaner slipped on a satisfactory floor and no action was found to be necessary. In the second case repairs were carried out following a fall by a drayman whilst delivering barrels to a public house.

It was not found necessary to institute any legal proceedings during the year.

No. of informal notices sent No. of visits 234

The Carayan Sites & Control of Development Act, 1960.

At the end of the year the number of licenced sites in use totalled 99, covering 809 (including 248 seasonal and holiday) caravans.

Inspections of all sites were carried out during the year and contraventions were dealt with by a letter to the site owners concerned.

Proceedings were taken against the occupier of land under the provisions of the Act for permitting caravans to be stationed whilst not the holder of a site licence. The case was proven and the magistrates imposed a fine of £30 with costs of £10. 10. 0.

Six other cases of unauthorised caravans were dealt with and were subsequently removed.

Applications were dealt with as follows:

New Sites New Sites(seasonal) Additions to existing sites Additions to existing sites(seasonal) Renewal of site licences
