CLACTON URBAN DISTRICT COUNCIL

Public Health Department,
Town Hall,
Clacton-on-Sea,
Essex.

Telephone:
Clacton 681.

June 1960.

To the Chairman and Members of the
Clacton Urban District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in presenting the Annual Report on the state of Public Health in the Urban District of Clacton for 1959. The excellent summer of 1959 will long be remembered; in Clacton the amount of sunshine recorded was 2055.1 hours which is the highest since recording started in 1900. The rainfall of 15.21 inches was the lowest since 1933.

Examination of the tables appearing elsewhere in the report will indicate the low incidence of Poliomyelitis, although in other parts of the country outbreaks of this disease were manifest. There can be little doubt that immunisation against Poliomyelitis is playing its part in the limitation of outbreaks, but there is much yet to be learnt about the behaviour of the Polio virus.

The tragic death from Poliomyelitis of a professional footballer during the early part of the year stimulated the polio immunisation campaign to a surprising extent. The death of this young man caused many thousands of young men and women to take advantage of the facilities Local Health Authorities had made available for immunisation against Poliomyelitis. It is difficult to reconcile the fact that it is necessary for an event of this nature to occur before many sections of the Community become aware of their own vulnerability.

In each of my districts there has been a greater number of children immunised against diphtheria and whooping cough and vaccinated against smallpox. This is most encouraging and it is to be hoped that parents will continue to take advantage of the facilities offered by their Family Doctors and also by the clinics in the area.

The housing project which was commenced during the year, in converting an orphanage the Council has acquired into flats, has gone ahead well and many are now occupied. There

are few houses that require demolition in the town, but at present the lack of new houses, available for rehousing the people displaced from houses, on which demolition orders have already been placed, causes me a certain amount of concern. The Housing Committee are now giving consideration to this problem.

We have continued to conduct the classes in Food Hygiene which we commenced three years ago. The classes are always well attended by an enthusiastic audience. I think the benefit derived from these classes has been manifest by the improvement in the standard of cleanliness and food handling in many catering establishments and food shops in the town.

During the year much attention was drawn in the National Press to the pollution of the sea by sewage. It was thought by many that there might be a health danger to sea bathers. This possible source of disease had not escaped notice and for several years many of us have been investigating the problems associated with bathing in sea water into which sewage effluent had been discharged. The report of the Medical Research Council has now been published on sewage contamination of bathing beaches. There is no evidence that bathing in the sea is a risk to health. However the report recommends, as indeed I have advocated to this Council for several years, that beaches which are aesthetically revolting should receive attention.

The population of the district is increasing, and the Registrar General's estimate of the population in mid 1959 was 380 greater than in 1958. There is little doubt that the electrification of the railway to London will cause this increase in population to continue, probably at a greater rate than has been evident previously. The birth rate is lower by 1.4 than in 1958, but the death rate remains the same. The infant mortality rate is lower but .3 above the National average, and the stillbirth rate of 14.7 is lower than the previous year and also lower than the National rate.

It is a pleasure to record my thanks to the Public Health Committee and the Council for their co-operation during the year. To the staff of the Public Health Department I express my appreciation for the loyal work during the year.

I am,

Your obedient Servant,

R.D.PEARCE,

Medical Officer of Health.

STATISTICAL MEMORANDUM

Urban District	...	Urban District of Clacton	
Area in acres	6,807
Population:			
1951 Census	...		24,065
1959 Registrar General's estimate			25,480

Total Cases: 173.

NATIONAL ASSISTANCE ACT, 1948.

NATIONAL ASSISTANCE (AMENDMENT) ACT, 1951.

Under the provisions of these Acts the Council, through its Medical Officer, is empowered to seek the removal of necessitous cases to a hospital or institution.

No action required during 1959.

Arrangements were made informally for the following:-

Two aged persons - Health Visitor to call regularly.

Three aged persons - Home Helps provided.

Two aged persons - Names placed on waiting list for admission to a Home.

Two aged persons - Admitted to Hospital.

FOOD POISONING OUTBREAKS

Total number of out-breaks	Number of cases	Number of deaths	Organisms or other agents responsible with number of outbreaks attributable to each.	Food involved with number of outbreaks associated with each food.

SANITARY CIRCUMSTANCES OF THE AREA

WATER SUPPLY

471,362,000 gallons were supplied, all of which was of a satisfactory quality.

The supply is chlorinated and no plumbo-solvent action is evident.

11,800 premises in the Urban District receive a supply of piped water. 20 properties, excluding Jaywick, are supplied by means of standpipes.

The summer population is approximately 80,000.

SANITARY ADMINISTRATION

The following is a synopsis of the principal work carried out by the Public Health Inspectors during 1959:-

Inspections (Public Health and Housing Acts)	2073
Other Inspections ...	2868
Informal Notices served ...	256
Informal Notices complied with ...	230
Formal Notices served ...	5
Formal Notices complied with ...	2

The following are the principal improvements obtained:-

HOUSES

Overcrowded ...	1
Verminous ...	3
Damp ...	2
Defective pointing of external walls	3

Defective brickwork of external walls	3
Defective roofs ...	7
Defective plaster of walls and ceilings	12
Defective floors ...	2
Defective windows and frames	12
Want of ventilation ...	1
Defective fireplaces ...	3
Defective doors or door frames	5
Want of or defective skirting boards	1
Water supply cut off or insufficient	4
Other defects ...	4
DRAINAGE	
Defective drainage ...	6
Stopped drains ...	54
Defective sink, wast pipe, etc.	6
Cesspools abolished ...	29
Properties drained to sewer	29
Other defects ...	35
CLOSETS	
Structure defective ...	3
Broken closet pedestal and pan	4
Defective flushing apparatus	7
Other defects ...	3
PAVING	
Yard, passage or path defective	1
OTHER NUISANCES	
Accumulations ...	11
Other outside defects ...	8
DUSTBINS	
Defective or insufficient ...	48
FOOD PREMISES	
Want of washing facilities ...	3
Want of cleanliness ...	2
Condition of floors ...	1
Condition of ceilings ...	2

Unsuitable fittings and equipment	2
Want of hot water	5
Sanitary Accommodation	5
Other defects	19
Defects in drainage	2

MISCELLANEOUS	14
---------------	----

DRAINAGE AND SEWERAGE

- (a) Work carried out by the Council during 1959.
- (i) Thorpe Road - 9" dia. foul sewer - 710 lin. yds.
Craigfield Avenue to Burrs Road - 12" dia. s.w. sewer - 90 lin. yds.
- (b) Work carried out by Private Developers.
- (i) Prince Phillip Avenue - 9" dia. foul sewer - 97 lin. yds.
- (ii) Wyndham Crescent - 6" dia foul sewer - 192 lin. yds
- (iii) Hill Road - 9" dia. foul sewer - 290 lin. yds.
- (iv) Hill Road - 6" dia.foul sewer - 280 lin. yds.
- (v) Service Road - Holland Road opposite Holland Road Schools - 9" foul sewer - 143 lin. yds.
- (vi) Norwood Avenue - 9" foul sewer - 121 lin. yds.
- (vii) Chaucer Close - 6" foul sewer - 93 lin. yds.
- (viii) Tudor Green - 6" foul sewer - 70 lin. yds.
- (c) No new sewage disposal works have been erected nor have any important additions been made to existing works.

DRAINAGE - BURRSVILLE PARK ESTATE

Premises redrained and connected to the sewer	5
Cesspools abolished	5

CHILBURN, LONDON AND THORPE ROAD AREAS

Premises redrained and connected to the sewer	24
Cesspools abolished	24

ERADICATION OF BED BUGS

Number of infested Houses	4
Number of infested Caravans	3

DISINFECTION

11 rooms, bedding, etc., disinfected
5 quantities of bedding, etc., steam disinfected.
83 library books disinfected.

VERMIN, etc.

6 rooms fumigated.
14 houses fumigated.
3 caravans fumigated.

PET ANIMALS ACT, 1951.

Premises registered	...	6
Inspections at premises	...	15

SHOPS ACT, 1950

367 Inspections were made and the requirements of the Act were explained where necessary. Four defects were dealt with.

Six contraventions of Section 1 of the Shops Act 1950 dealing with the closing of shops on the weekly half holiday were reported to the Council, and resulted in warning letters being sent to the six shopkeepers.

RAG FLOCK ACT, 1951

There are no manufacturers of Rag Flock within the Urban District.

BATHING POOLS

Bathing pools are provided by two of the private companies catering for holiday visitors.

(a) Here there are two pools, an indoor one (180,000 gallons) and an outdoor one (250,000 gallons) which are interconnected. These pools are fed by the town mains, and the main purification treatment is by chlorination. Provision is made for heating the water. There is a complete change of water every ten hours.

(b) Here there is one pool, an open-air one fed by filtered sea-water, the main purification treatment being by means of chlorination. It holds 315,000 gallons, and there is a complete change of water every ten hours.

10 samples of water were submitted from the three bathing pools in the District for bacteriological examination; all were satisfactory.

15 Residual Chlorine Tests were carried out; all were satisfactory.

DISEASE OF ANIMALS ACT, 1950

The Diseases of Animals (Waste Foods) Order, 1957.

Operators licensed	8
Inspections at premises	16

CARAVANS AND CAMPING SITES

There are 16 licensed camping grounds in the District. In addition licences were issued in respect of three individual moveable dwellings.

128 inspections were made of camping sites and moveable dwellings.

PREVENTION OF DAMAGE BY PESTS ACT, 1949.

1548 Visits by Public Health Inspectors.

2267 Visits by Rodent Operators.

FACTORIES ACTS, 1937 & 1948.

PART I OF THE ACT

1. Inspections for purposes of provisions as to health.

Premises (1)	Number on Reg- ister (2)	Number of Inspec- tions (3)	Written Notices (4)	Occupiers prosecuted (5)
(i) Factories in which Sections 1, 2, 3, 4 and 6 are to be enforced by Local Authorities	20	20	-	-
(ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority	132	73	1	-

Premises (1)	Number on Reg- ister (2)	Number of Inspec- tions (3)	Written Notices (4)	Occupiers prosecuted (5)
(iii) Other premises in which Section 7 is enforced by the Local Authority (excluding outworkers' premises)	4	4	-	-
TOTALS:	156	97	1	-

2. Cases in which defects were found.

(If defects are discovered at the premises on two, three or more separate occasions they should be reckoned as two, three or more "cases".)

Particulars (1)	No. of cases in which defects were found.				Number of cases in which prosecutions were instituted (6)
	Found (2)	Remedied (3)	Referred To H.M. Inspector (4)	By H.M. Inspector. (5)	
Want of Cleanliness (S.1)	-	1	-	-	-
Overcrowding (S.2)	-	-	-	-	-
Unreasonable temperature (S.3)	-	-	-	-	-
Inadequate ventilation (S.4)	-	-	-	-	-
Ineffective drainage of floors (S.6)	-	-	-	-	-
Sanitary Conveniences (S.7)					
(a) Insufficient	1	1	-	1	-
(b) Unsuitable or Defective	-	2	-	-	-
(c) Not separate for sexes	-	-	-	-	-
Other offences against the Act (not including offences relating to Outwork)	7	17	-	5	-
Totals:	8	21	-	6	-

PART VIII OF THE ACT

OUTWORK (Section 110)

Nature of work	No of Out-workers in August list required by Section 110 (1)(c)	Section 110		Section 111
		No of cases of default in sending lists to the Council	Number of prosecutions for failure to supply lists	Number of instances of work in unwholesome premises
(1)	(2)	(3)	(4)	(5)
Wearing Apparel, Making etc.	42	-	-	-

47 Inspections at Outworkers' premises.

HOUSING

INSPECTION

Total number of houses inspected for housing defects under Housing or Public Health Acts 260

HOUSING ACTS

Number of Houses in respect of which demolition orders were made	Nil
Houses demolished	5
Number of Houses in respect of which closing orders were made	Nil
Houses closed	1
Houses closed now demolished	4
Houses inspected for overcrowding or permitted numbers	6

RENT ACT, 1957

Application for certificates of disrepair	1
Number of decisions not to issue certificates	-
Number of decisions to issue certificates	1
Number of undertakings given by landlords to remedy defects	2
Number of undertakings refused	-
Number of Certificates issued	2

Applications for cancellation of certificates	3
Certificates cancelled	3

REPAIRS

Unfit houses rendered fit and houses in which defects were remedied during the year as a result of INFORMAL ACTION under the Housing or Public Health Acts.	157
---	-----

Public Health Acts - action after service of Formal Notice:

Houses in which defects were remedied:-

By Owners	2
By Local Authority	Nil

NEW HOUSES AND FLATS ERECTED DURING 1959

By Private Enterprise	298
By the Council	--
Conversion by the Council	23
	<hr/>
	321
	<hr/>

Total Houses erected since 1946 2,028

Applicants for Council Houses

8 Applications were supported with medical certificates.

FOOD

The following list shows the number of premises at which food for human consumption is sold or prepared and the number of visits paid to them:-

86 Cafes and Restaurants	201
7 School Canteens	8
26 Butchers' Shops	103
12 Fish Friers	42
15 Wet Fish Shops	22
17 Bread and Cake Shops	32
91 General Grocers	97
24 Greengrocers	51
1 Slaughterhouse	23
36 Hawkers	12
3 Ice Cream Manufacturers	14
234 Ice Cream Vendors	87

12 Bakehouses	32
5 Dairies	17
66 Milkshops	102
Total Visits:	<u>843</u>

LEGAL PROCEEDINGS

A local trader was successfully prosecuted under the provisions of Section 8 of the Food and Drugs Act, 1955, for selling a steak and kidney pie which was unfit for human consumption, being seriously affected with mould.

The trader, in turn, summoned the manufacturer for supplying the pie in a mouldy condition, but the magistrates dismissed this case.

The magistrates awarded £30 costs to the Council, £100 costs to the manufacturer, and imposed a £10 fine on the trader.

REGISTRATION OF FOOD PREPARING PREMISES

The number of premises registered pursuant to Section 16 of the Food and Drugs Act is as follows:-

Sausage Meat, Pressed, Pickled and Preserved Meat	...	26
Sale of Ice Cream	...	232
Manufacture of Ice Cream		3
Storage of Ice Cream	...	2

INSPECTION OF MEAT AND OTHER FOODS

There is one licensed Slaughterhouse which is privately owned and used to a limited extent only. There is one licensed slaughterman in the district.

The following list gives details of the diseased or unsound meat and other foods found unfit for human consumption. They were surrendered voluntarily and destroyed or used for animal feeding.

Unsound food dealt with by the Council is disposed of at the Controlled Tip.

		lbs
219 Tins of Meat	...	986
27 Tins of Fish	...	30
48 Tins of Milk	...	

	lbs
464 Tins of Fruit and Vegetables	983
58 Tins of Other Goods	82
56 lbs of Bacon	
106 lbs of Ham	
78 lbs of Beef	
575 lbs of Fish	
13 lbs of Lamb	
7 lbs of Kidney	
1 lb of Liver	
318 lbs of Fruit and Vegetables	
116 cases of oranges	
25 jars of Horseradish	
5 gallons of Winkles	
1 Turkey	
3 Pork Pies	
2 gallons of Ice Cream.	

CARCASES INSPECTED AND CONDEMNED

	Cattle exclud- ing Cows	Cows	Calves	Sheep and Lambs	Pigs
Number killed (if known)	15	-	1	70	51
Number inspected	15	-	1	70	51
Diseases except Tuberculosis and Cysticerci:

Tomato Ketchup	1	2
Redcurrant	1	-
Vinegar	-	1
Spirits	6	-
	<hr/> 86	<hr/> 73

All the above samples proved to be genuine.

PUBLIC CLEANSING

REFUSE COLLECTION

There has been no change in the fleet of refuse collection vehicles during the year. The large number of new properties and conversions of existing properties into flats over the last few years has provided the department with a considerable increase in the quantity of refuse to be removed. The time is rapidly approaching when the present fleet of vehicles will be unable to cope with this increase.

The Bedford 30 cwt lorry which was originally purchased for emptying the hopper of the now dismantled incinerator and which is now mainly used for salvage collection is eleven years old. Serious consideration will have to be given to replacing it in the near future with a larger and more suitable vehicle.

REFUSE DISPOSAL

During most of the year, controlled tipping was carried out at Rush Green, but in October the department started tipping at the newly acquired sandpits at the western end of St. John's Road. It is intended to use these pits for controlled tipping during the winter months only, because of the traffic problem and the additional time spent in

journeying to the tip during the busy holiday season. During the summer, the refuse will be disposed of by controlled tipping at Rush Green.

The St. John's Road sandpits and Rush Green have only a limited life as sites for refuse disposal and the search for alternative sites continues.

GULLY CLEANSING

The Gully Cleansing and Cesspool Emptying Machine continues to give satisfactory service, and has been hired out for gully and cesspool emptying by neighbouring authorities.

STREET CLEANSING

In the last Report, mention was made of the need for a mechanical sweeper to cope with the ever-increasing lengths of road which require to be cleansed. It is a pleasure to report that such a sweeper was purchased and despite some early teething troubles, it has given some excellent service. The continuing development of the town demands an expanding cleansing service, and full advantage must be taken of mechanical aids.

Despite recent legislation dealing with litter, the problem last year was greater than ever. The long fine summer brought increased numbers of holiday makers and day visitors, together with a record amount of litter. The provision of yet more litter baskets and the employment of a larger number of men collecting the litter should reduce the nuisance this year. This litter problem remains a national one, requiring a long-term policy of education in civic pride.

PUBLIC CONVENIENCES

There are 23 public conveniences in the district. During the year the alterations and improvements to the Garden Road, Jaywick convenience were completed; the provision of washing facilities here was greatly appreciated by the public.

The development of the district, particularly at Holland-on-Sea, will require the provision of additional conveniences, and there is still a pressing need for the enlargement of certain of the existing conveniences.

It will be necessary in the coming year to decide upon the whole matter of the future policy, including an order of priorities, regarding public conveniences in the district.

ATMOSPHERIC POLLUTION

During the year two sites dealing with the measurement of Atmospheric Pollution were opened.

One is situated in the grounds of the Ogilvie School of Recovery, Holland Road, Clacton, consisting of an Atmospheric Deposit Gauge for measuring deposited matter, and a Lead Peroxide Instrument for measuring sulphur dioxide. These are changed each month and sent away for examination.

The other site in the Public Health Department, Clacton consists of a combined smoke filter and volumetric sulphur dioxide bubbler. Air is drawn in from outside, measured, and passed through a smoke filter and then through the sulphur dioxide bubbler. The filter paper and bubbler solution are changed daily, and examined in the Public Health Department to find the amount of smoke trapped by the filter paper and sulphur dioxide found in the solution.

The results so far show that Clacton as was expected has a remarkably clean air.

ATTESTED AND SUBSCRIBED:
Notary Public for the State of New York
In presence of the undersigned witnesses, I have signed and sealed this certificate of the foregoing facts and circumstances.

Witness my hand and seal of office at the City of New York, this 1st day of January, 1901.
Notary Public for the State of New York

For what else is the State of New York
Witness my hand and seal of office at the City of New York, this 1st day of January, 1901.
Notary Public for the State of New York

Witness my hand and seal of office at the City of New York, this 1st day of January, 1901.
