HEALTH DEPARTMENT CLEETHORPES.

*August, 1946.*

**To the Mayor, Aldermen and Councillors of the Borough  
of Cleethorpes.**

GENTLEMEN,

I have the honour to present my Annual Report on the Health and Sanitary Conditions of the Borough for the year 1946.

The health of the community as reflected in the vital statistics continues to be satisfactory. The Birth Rate was 23.0 per thousand of the population which is an increase of 2.7 on the rate for 1945. The corresponding rate for England and Wales was 19.1 and for the smaller towns 21.3.

The Death rate was 11.6 per thousand a decrease of 1.8 on the rate for the previous year and compares favourably with the rates for England and Wales and smaller towns which were 11.5 and 11.7 respectively.

The Infantile Mortality Rate showed a decline from 44.7 per thousand live births in 1945 to 41.2 for the year under review. The corresponding rate for England and Wales was 43 and for the smaller towns 37. There were 2 maternal deaths during the year.

The incidence of notifiable infectious disease showed a decrease compared with the previous year. There was also a decrease in the number of deaths from tuberculosis.

The Sanitary conditions of the Borough continued to be generally satisfactory, the environmental health services being well maintained, while progress was made with schemes for improved drainage and housing. 478 dwelling houses were rendered fit by informal action and 64 after Statutory Notice. 65 new houses were completed during the year and 61 were in the course of erection at the end of the year.

I wish to record my appreciation of the support afforded me throughout the year by the Chairman, Ald. E. Houghton, J.P., C.C., and the members of the Health Committee. I have to thank also the County Medical Officer, Lindsey County Council, the Borough Surveyor of Cleethorpes and my Chief Sanitary Inspector for the information they have supplied for inclusion in this report.

I have the honour to be, Gentlemen,

Your obedient servant,

C. F. LYNCH,

Medical Officer of Health.

SECTION A.  
STATISTICS  
AND  
SOCIAL CONDITONS

## SECTION A. Statistics and Social Conditions of the Area.

### General Statistics.

Area of Borough in acres (above high water mark) ... ..	2250
Registrar-General's estimate of Resident population (mid-1946)	28,400
Number of inhabited houses (end of 1946) ... ..	8149
Rateable Value, 1st April, 1947 ... ..	£153,226
Sum represented by a penny rate ... ..	£585

### Unemployment.

1. Average weekly number of persons in receipt of ordinary relief during the year ended 31st December, 1946 was ... .. 354  
(as compared with 330 for the previous year)
2. Average weekly number of persons in receipt of relief on account of unemployment was ... Nil  
(as compared with Nil the previous year.)
3. The total amount of relief granted in the Borough during the year ended 31st Dec., 1946, was ... £13,127

### Vital Statistics.

SECTION B.  
GENERAL PROVISION  
OF  
HEALTH SERVICES.

## Section B.—General Provision of Health Services of the Area.

### (a) Laboratory facilities.

These are available for the examination of throat and nose swabs, sputum, etc., at the Public Health Department, Council Offices, Cleethorpes, to which address specimens should be sent.

### (b) Ambulance facilities.

For infectious cases removal by ambulance is an inclusive charge of the Infectious Disease Hospital receiving the case. Non-infectious or accident cases may be removed by the Borough Council's Ambulance, when a charge is made according to mileage.

### (c) Nursing at Home.

Three District Nurses are stationed in Cleethorpes and are members of the Lindsey Nursing Association. The Lindsey County Council also provide the services of a nurse for cases of Ophthalmia Neonatorum to be nursed at home, when requested by General Medical Practitioners.

### (d) Clinics.

The Lindsey County Council from the Clinic, St. Hugh's Avenue, Cleethorpes, provide the following specialist and consultant services :—

#### Clinics, St. Hugh's Avenue, Cleethorpes.

CLINIC	DAY	HOUR
Tuberculosis	Friday	2 p.m.
School	Wednesday	9-30 a.m.
School Nurse attends for treatments	{ Monday, Wednesday and Thursday Tuesday and Friday	{ 9-30 a.m. 2 p.m.
Eye	Friday (by appointment)	10 a.m.
Infant Welfare	Monday and Thursday	2 p.m.
Toddlers	Monday	9-30 a.m.
Ante-Natal	Tuesday	9-30 a.m.
Special treatment (Female)	Thursday	10-30 a.m.
Orthopædic	3rd Tuesday of Month by appointment	2-30 p.m.
Massage	Monday and Thursday	10 a.m.
U.V.R.	Monday and Thursday	9-30 a.m.
Dental	Daily	9-30 a.m.
Rheumatism and Heart	Monthly (by appointment)	2 p.m.

Diphtheria Immunisation Sessions are held at the School and Infant Welfare Clinics on the appropriate days.

By arrangement with the County Borough of Grimsby facilities for the diagnosis and treatment of venereal disease are available at the V.D. Clinic, 38 Queen Street, Grimsby.

### (e) Hospitals.

Facilities exist for the treatment of Infectious Disease at the Isolation Hospital, Osgodby. The Hospital is administered by a Joint Board on which the Cleethorpes Corporation is represented. These facilities are at present inadequate and most cases requiring urgent or specialised treatment are admitted to Grimsby Isolation Hospital.

#### Maternity Home, Cleethorpes.

This Home is administered by the Lindsey County Council.

The following report on the Home is included by the courtesy of the County Medical Officer of Health.

1.	Name and address of the Institution.	County Maternity Home, Mill Road, Cleethorpes, Lincs.
2.	Number of Maternity beds in the Institution (exclusive of isolation and labour beds) at 31/12/46.	28
3.	Number of Maternity cases admitted during the year	628
4.	Average duration of stay of cases in the lying-in wards	14 days
5.	Number of cases delivered by	
	(a) Midwives ... ..	388
	(b) Doctors ... ..	192
6.	Number of cases in which medical assistance was sought by a midwife in emergency....	46
7.	Number of cases admitted after delivery	3
8.	Number of cases notified as	
	(a) puerperal fever ... ..	Nil
	(b) puerperal pyrexia ... ..	1
9.	Number of cases of pemphigus neonatorum	Nil
10.	(a) Number of infants not entirely breast fed while in the Institution ... ..	—
	(b) Number of infants wholly breast fed on leaving the Institution ... ..	100
11.	(a) Number of cases notified as ophthalmia neonatorum	Nil
	(b) Result of treatment in each case.	—
12.	(a) Number of maternal deaths ... ..	2
	(b) Cause of death in each case :	
	1 Ruptured Uterus. 1 Antepartum Hæmorrhage.	
13.	(a) Number of stillbirths ... ..	11
	(b) Cause in each case and results of post-mortem (if available)	
	3 Macerated. 2 Anoxæmia. 3 Premature.	
	1 Prolapsed Cord. 2 Delayed Labour.	

14. Number of infant deaths within 10 days of birth ... .. 8

(b) Cause of death :

4 Premature.                      1 Congenital Abnormality.  
2 Inter-cranial hæmorrhage.      1 Transverselie.

General Hospital facilities are available at the Grimsby and District (Voluntary) Hospital and at the Lindsey County Council Infirmary, Louth.

### A. School Medical Services.

These services are provided by the County Council and I am indebted to the County Medical Officer for permission to include the following details of work carried out during the year in my capacity as School Medical Inspector.

---

ROUTINE MEDICAL INSPECTION  
(exclusive of special and supervisory examinations).

---

SECTION C.

SANIT~~ARY~~ARY.

CIRCUMSTANCES

## Section C.—Sanitary Circumstances of the Area.

### 1. (1) Water Supply.

The water supply has been satisfactory both as regards quality and quantity. The supply is by pipe from the Grimsby, Cleethorpes and District Joint Water Board's undertaking and is constant.

Bacteriological and chemical examination of samples from the source of supply are carried out monthly and results of these examinations are supplied to the Medical Officer of Health.

Samples are also taken periodically by the Health Department from the supply as delivered to the public and submitted for bacteriological examination.

The following is a copy of a report on a sample taken by the Water Board on the 26th August, 1946 :

The Counties Public Health Laboratories,  
66 Victoria Street, London, S.W.1.

#### Chemical Results in Parts per 100,000.

Appearance	Clear and bright.	Colour	... ..	Normal
Odour	... .. Nil.	Reaction pH	Neutral :	7.3
Free Carbonic Acid	1.6	Electric Conductivity at 20° C.		590
Total Solids		Alkalinity as		
dried at 180° C.	39.5	Calcium Carbonate		22.0
Chlorine in Chlorides	6.4	Temporary	22.0	Permanent 4.0
Nitrogen in Nitrates	0.14	Nitrogen in Nitrites		Absent
Hardness Total :	26.0	Free Ammonia		0.0000
Ammoniacal Nitrogen	—	Albuminoid Ammonia		0.0000
Albuminoid Nitrogen	—	Oxygen Absorbed in 4 hrs.		
		at 27° C.		0.000
Metals	Absent.	Free chlorine reaction		Absent

#### Bacteriological Results.

	1 day at 37° C.	2 day at 37° C	3 day at 37° C
Number of "Bacteria" growing on Agar per cc. or ml. in	1	1	1
Presumptive Coliform Reaction	Present	Absent	100 c. c.
Bact. coli.	Present	Absent	100 c. c.
Cl. welchii Reaction	Present	Absent	100 c. c.

This sample is clear and bright in appearance, neutral in reaction and free from Iron and other metals. The water is hard in character but not to an abnormal degree, contains no excess of salinity or mineral constituents in solution and is of the highest standard of organic and bacterial purity.

These results are consistent with a pure and wholesome water suitable for the purposes of a public supply.

(Signed) GORDON MILES, B.Sc., F.R.I.C.

Number of covered ashpits ... ..	...	Nil
Number of uncovered ashpits ... ..	...	Nil
Number of bins substituted for ashpits	...	Nil
Refuse is removed by Local Authority.		
Number of houses using bins ... ..	...	8,161
Refuse is removed from each house every 7-14 days.		
Number of complaints for non-removal	...	17
Method of final disposal—Refuse Destructor, Salvage and Controlled Tip at Thrunscoe Recreation Ground (Marine Embankment).		

## CLEANSING SERVICE.

The following particulars of operations in the Cleansing Department relate to the year ended 31st March, 1947.

### Refuse Collection.

Loads and estimated weight of house and trade refuse collected during the year :—

By Motor Vehicle	...	5,721 loads	7,080 tons
By Horse-drawn Vehicle		50 loads	25 tons

3,545 loads of the collected refuse were weighed.

The refuse collected was estimated at 313 tons increase on the previous year.

Estimated gross expenditure on refuse collection for the year was £6,145. Gross income for the year was £5.

### Refuse Disposal.

The house and trade refuse dealt with was disposed of as follows :—

4,444 tons to Disposal Works.

1,601 tons to Humberston Land Reclamation Scheme.

25 tons to Farmland.

Estimated gross expenditure of refuse disposal for the year £3,552.  
Gross Income £1,518.

### Salvage.

Total receipts of salvage sales during the year £1,518 15s. 0d.  
Increased receipts on the previous year £308 11s. 0d.

Total weight of materials sold 555½ tons.

Materials Sold.	Tons. Cwts. Qrs.			Receipts.		
	£	s.	d.			
Mixed waste paper	152	17	1	974	16	4
Baled scrap tins	97	18	2	146	17	9
Mixed textiles	11	15	1	144	2	1
Bottles and Jars	20	0	0	127	15	7

Bones	4	8	1	24	3	0
Screened ash and clinker	229	5	0	12	14	9
Scrap lead		8	1	12	15	6
Scrap copper		7	1	9	15	0
Scrap Brass		6	3	7	8	0
Scrap Aluminium		9	1	9	5	0
Kitchen waste	12	0	0	6	0	0
Old rubber		4	3	3	16	0

### Gully Cleansing.

The number of gullies cleansed was :—

19,053 Street Gullies.      6,763 Passage Gullies.

419 cart-loads of refuse removed from gullies.

Cost of work for the year :—£502.

### Passage Cleansing.

220 barrow-loads of refuse were removed from back passages.

The cost of this work for the year was £140.

### Public Conveniences.

Eleven of the public conveniences provided by the Corporation are under the control of the Cleansing Department. Toilet accommodation is provided at seven of the conveniences, Total number of W.Cs. provided 58.

### Depot Weighbridge.

The weighbridge was used as follows :—

Departmental weighings during the year	...	...	5,927
Public Weighings	...	...	203

### Refuse Receptacles.

350 Dust Bins were provided by owners of properties in replacement of defective receptacles following informal or formal notices.

## Sanitary Inspection of the Area.

### Movable Dwellings, Tents, Vans, etc.

Number inspected during the year	...	...	5
Number of nuisances abated therefrom	...	...	Nil
Number removed from the district...	...	...	3
Vans in district at end of year	...	...	Nil

There are no Bye-laws in operation.

### Closet Accommodation.

No conversions were carried out during the year.

### Swimming Baths and Pools.

There is one open air swimming pool of some 2,000,000 gallons capacity. A continuous filtration and chlorination plant is installed.

The working of the plant is satisfactory and efficient as shown by the results of periodical bacteriological and chemical examination of the water.

### Eradication of Bed Bugs.

Seven houses received attention during the year for infestation with bed bugs. Preliminary stripping of walls is undertaken by owner or occupier on the advice of the Health Department.

The actual disinfection by spraying and fumigation is carried out by the Health Department. Zaldecide with D.D.T. being used.

No infestations were found in Council houses.

#### MILK (SPECIAL DESIGNATIONS) ORDER, 1936.

Number of Accredited Producers	...	...	...	4
Number of Accredited Premises	...	...	...	4

Ten samples of Accredited milk were taken by the County Authority during the year and all proved to be satisfactory. In addition, twelve samples were taken by the Health Department and were, in the majority of cases, up to the required standard,

The Food and Drugs Act and Milk and Cream Regulations are administered by the County Council.

There are two premises licensed for the pasteurization of milk and are under regular inspection and supervision. Of 31 samples of pasteurised milk taken during the year 24 were satisfactory. In the remaining cases the unsatisfactory results were attributed mainly to faults in equipment which were promptly remedied.

### Ice Cream.

Careful supervision and control over conditions of manufacture and sale of ice cream was maintained during the year. Regular sampling was carried out and close attention given to those cases with unsatisfactory results. In one case with persistently unsatisfactory results, the license was suspended.

SECTION F.  
PREVALENCE OF, AND CONTROL  
OVER  
INFECTIOUS AND OTHER DISEASES.

## Section F.—Prevalence of, and Control over, Infectious and other Diseases.

Notifiable Diseases (other than Tuberculosis) during the year 1946.

## Prevention of Blindness.

The Lindsey County Council provides for the medical treatment of necessitous blind persons through their Public Health Committee. This includes specialist treatment in connection with blindness or the prevention of blindness.

Other services are provided through the Lindsey Society for the Blind in connection with the education, training, employment and general welfare of blind persons.

## TUBERCULOSIS.

\* From local records.

No action has been required under the Public Health (Prevention of Tuberculosis) Regulations, 1925, (relating to persons employed in the milk trade) nor under Section 172 of the Public Health Act, 1936. Ratio of non-notified Tuberculosis deaths to total Tuberculosis deaths is 1-9. The facilities available at the Tuberculosis Dispensary are being increasingly utilised by private Medical Practitioners for diagnosis in cases of suspected Tuberculosis.

### Tuberculosis Deaths according to Occupation.

### Cleethorpes Tuberculosis Dispensary.

During the year 1946, 83 new cases including 23 transfers from other areas were added to the Dispensary Register. 34 cases were removed as having transferred to other areas or having been lost sight of, or died, leaving 336 cases on the Dispensary Register at the end of the year.

The total individual attendances numbered 354.

The total attendances were ... .. 808.

### Tuberculosis After Care Committee.

This Committee renders valuable service in the after-care of cases of Tuberculosis. Special attention is paid to necessitous cases and their families, assistance being given in obtaining extra nourishment, clothing, etc., and in the form of holiday grants.

An Occupational Centre with a Workshop in St. Hugh's Avenue, is maintained by the Committee and provides a means to utilise the lessened working capabilities of selected cases.

During the year 1946, approximately £140 was expended by the Committee in the provision of extra nourishment on the recommendation of the Tuberculosis Officer.

An annual grant of £50 is made by the Lindsey County Council to augment the funds of the Committee whose work is voluntary.

REPORT  
ON THE  
METEOROLOGICAL CONDITIONS  
PREVAILING AT CLEETHORPES  
DURING 1946.

---

ALAN B. COOPER, A.M. Inst. C.E.,  
Borough Engineer and Surveyor.

# Report on the Meteorological Conditions prevailing at Cleethorpes during 1946.

ALAN B. COOPER, A.M. Inst. C.E.,  
Borough Engineer, Cleethorpes.

The weather conditions prevailing during 1946, although generally very similar to those of 1945, provided one striking exception, in that 28.48 inches of rain fell during the year, an increase of 8.17 inches over the previous year. This being the wettest year since 1930, when 31.44 inches of rain fell during the year.

## SUNSHINE.

From 1st January to 31st December, 1946, (inclusive), 1516.7 hours of bright sunshine were recorded. This total includes estimated hours of bright sunshine on data supplied by the Air Ministry for the months of May and June ; owing to the fact that the sunshine recorder crystal ball was stolen early in May from the Bathing Pool roof.

The total of sunshine in 1946 was 1516.7 hours. This gives a daily average of 4.16 hours, as compared with 4.00 hours for the previous year.

Regarding 1946 sunshine, the month of July was brilliant—sunshine being recorded on each day of the month. The maximum amount of sunshine recorded in one day was 14.4 hours on the 21st June, 1946. The greatest number of hours of sunshine in one month was 218.9 hours in July.

## RAINFALL.

28.48 inches of rainfall were recorded during the year. This is an increase of 8.17 inches in 1945.

The driest month of the year was April with 0.93 inches (about one inch) of rain falling in 13 days, and the wettest month was November with 4.57 inches of rain, which is the highest ever recorded for November since the Station was opened in 1910. This amount was distributed over a period of 25 days.

The greatest rainfall in any one day was 1.50 inches on the 8th February.

## TEMPERATURE OF THE AIR.

The average maximum shade temperature of 42.7° F. for December 1946, is the lowest average for the year ; while 69.4° F. maximum shade temperature in July is the highest average. The average minimum shade temperature of 33.9° F. for December 1946, is the lowest.

The lowest air temperature recorded during the year was 24° F. on 28th February. The highest maximum temperature during the same period was 80° F. on the 2nd July.

The lowest ground minimum temperature was 18° F. on the 26th February, 1946.

Towards the latter end of April and for a considerable part of May, there was a period of temperatures lower than usual. In the beginning of April a maximum of 76° F. was recorded on the 3rd April, but the lowest maximum for the month was 45° F. on the 28th April.

Temperatures came back to normal for the time of the year towards the end of May.

Around Easter the weather was abnormally good.

#### RELATIVE HUMIDITY.

The average relative humidity for the year was 83.5%.

#### MISCELLANEOUS PHENOMENA.

During the year frosts were recorded on 36 occasions as follows :—

11 occasions during January	6 occasions during February
7 „ „ March	1 „ „ October
11 „ „ December.	

The wind reached gale force (or above) on 8 occasions as compared with twice during 1945, and the prevailing wind was S.W.

---

The average amount of sky covered (in tenths) by cloud was 6.98.

The Cleethorpes Meteorological Station No. 2574 is officially recognised by the Air Ministry Meteorological Office as an Auxiliary Climatological Station, and a First Class Health Resort Station.

Nightly reports to the Air Ministry in the form of a Weather Telegram were re-commenced on 1st September, 1946.

The Station is under control of the Borough Engineer and Surveyor (Alan B. Cooper, A.M., Inst. C.E.) and the Observers during 1946 were C. A. Gloyn and T. Gray, who are members of the Engineer's staff.

A summarised statement is attached to this report.

## Summary of Meteorological Observations taken at Cleethorpes during 1946.

1946	Average Temperature		Total Sunshine in hours	No. of Sunless Days	Total Rainfall Inches	Days with Rain	Average Relative Humidity	Av. Cloud Amount in 10ths.
