6. Testamur of the Institute of Public Cleansing.
7. Associate Membership Examination of the Institution of Public Health Engineers.
8. Full Technological Certificate in Building.

To the Mayor, Aldermen and

Councillors of the Borough of Crewe

October, 1968.

I have the honour to present to you my report on the health of the Borough of Crewe for the year 1967.

#### VITAL STATISTICS

During 1967, 12 infants died before reaching the age of 1 year and the infantile mortality rate of 13.71 per 1,000 live births is the lowest ever recorded. 8 of these babies died during the first week of life. The total number of births (875) shows a further small fall on the 1966 figure (898). The illegitimate live birth rate is 8.8% of the total live births and after several years near the national average figure shows a return towards the 1964 rate of nearly 9%, although the total number of illegitimate births in 1967 at 77, was 13 less than in 1964. The corrected live birth rate (16.86) is again lower than the national figure for England and Wales (17.2).

The total number of deaths, 635 is higher than the ten year average figure which is about 600 and is comparable, as our population remains approximately static. The corrected death rate, 14.04 is high compared with the national figure for England and Wales 11.2. 219 of these deaths occurred to persons aged 75 years or over, 18 were attributed to accidents, 6 of these being motor vehicle accidents, and 5 persons committed suicide. Of the 128 deaths attributed to cancer, 25 were primary lung cancers.

#### INFECTIOUS DISEASES

Measles notifications, 199 in number shows a fall on the 1966 figure. No case of poliomyelitis, diphtheria or meningococcal infection was notified, and two persons were notified as suffering from dysentery.

I remain,

Your obedient servant,

D.G. CRAWSHAW.

No. of cases remaining on the Register on 31st December, 1967.	72	40	6	5

Of the 3 cases listed under (c) above, none died from tuberculosis. All 3 cases died from other primary causes.

## VACCINATION AND IMMUNISATION

### Vaccination Against Smallpox

The number of primary vaccinations of persons under 16 years of age reported to me during the year was 270, showing a decrease of 17 on the previous year.

		Age at date of vaccination						
		Months				Years		
		0-3	3-6	6-9	9-12	1	2-4	5-15
Vaccinated	2	18	25	5	110	93	17	270
Re-Vaccinated	-	-	-	-	-	-	1	1

### Diphtheria Immunisation

During the year notifications received from Medical Practitioners showed that 793 children were immunised against diphtheria. In addition, 432 children received a boosting dose to improve their immunity.

The corresponding figures for 1966 were 669 and 305.

No case of diphtheria was notified during 1967, and it is now 17 years since a case of diphtheria has been notified in the Borough.

Diphtheria, Whooping Cough, Tetanus and Poliomyelitis  
Vaccinations of Persons under 16 years of age

#### MEDICAL EXAMINATIONS

During the year 301 persons were medically examined. Of these 78 were examined in conjunction with the Corporation's Superannuation and Sickness Pay Scheme, 170 were County Staff or persons seeking entry into a Training College and 53 were of persons applying for a Taxi Driver's Licence.

#### MORTUARY FACILITIES

The Corporation Mortuary was closed on 1st January, 1962, and the arrangements made with the South Cheshire Hospital Management Committee have continued entirely satisfactorily. During the year the Corporation paid fees in respect of 81 bodies received at the Crewe Memorial Hospital Mortuary.

#### CREWE AND DISTRICT COMMITTEE FOR MORAL WELFARE WORK

The Reverend A.C. Gould has supplied the following information on the work of the Committee during 1967.

It must however, be borne in mind that the Committee's activities cover a larger area than the Borough of Crewe.

"There were 122 applications for help and advice. Of these, 75 were maternity cases. 38 of the babies born were adopted, whilst 29 mothers kept their babies. Six babies were taken into care and one baby died. Of 47 other enquiries for advice, most concerned adoption and family problems.

We have as usual to be grateful to the Local Authorities, Doctors, Nurses, Health Visitors, Health Department and others who have in many ways supported us so well."

#### FOOD POISONING

No case of food poisoning was notified during the year.

ANNUAL REPORT OF  
THE CHIEF PUBLIC HEALTH INSPECTOR

FOR THE YEAR 1967  
-----

Chief Public Health Inspector's  
Department,  
Municipal Buildings,  
CREWE.

30th September, 1968.

To the Mayor, Aldermen and  
Councillors of the Borough  
of Crewe.

Mr. Mayor, Ladies and Gentlemen,

I have the honour to present my twentieth - and last - annual report on the work of the Crewe Public Health Inspector's Department.

The work of the department has again progressed satisfactorily throughout the year and as is shown in the following report, has been concerned with maintenance of good living conditions by virtue of the abatement of nuisances, progress towards the demolition of unfit houses and the improvement of others. Food hygiene and Clean air have also again received major attention.

It is pleasing to note that since 1955 satisfactory progress has been made with the clearance of unfit dwellings and work has commenced on the Council's fourth clearance programme, over 1,400 houses having been so far dealt with. On the other side of the picture, the number of applications approved by the Council for improvement grants has now reached 500. Much effort has been put recently into this part of the department's activities from which it is hoped future benefit will accrue.

The Council's fourth smoke control order was made on the 1st March, 1967. This brought the total of domestic premises in such orders to over 5,400 and represents some 30% of the houses in the Borough.

The department continued to co-operate with the Ministry of Technology (formerly the Department of Scientific and Industrial Research) in recording smoke and sulphur dioxide concentrations, and in this respect was fortunate in receiving the continued assistance of the staff of British Railways (Midland Region) Laboratory at Crewe.

In conclusion I would like to take the opportunity of thanking the elected representatives, officers and staff of the department for their encouragement and support during my term of office.

I have the honour to be,

Your obedient servant,

J. GASKELL,

Chief Public Health Inspector.

## SANITARY CIRCUMSTANCES OF THE AREA

### PUBLIC CLEANSING

The removal of household and trade refuse is based on a weekly collection service and with the exception of holiday periods, this frequency of collection was maintained generally throughout the Borough.

The Cleansing Department operates a Refuse Disposal Plant and has a separate Garage and Workshop.

Twelve vehicles (including two spare vehicles) are employed on the collection of household and trade refuse and nightsoil, in addition to one vehicle used in connection with refuse disposal.

Household refuse collected	...	...	...	12,341 tons
Trade refuse collected	...	...	...	2,128 tons
				<hr/>
Total refuse collected by the Department during the year				14,469 tons
				<hr/>

2,850 tons of shop and factory refuse were also brought to the Refuse Disposal Works for disposal, making a total of 17,319 tons of refuse dealt with during the year. 63.7% of the total refuse passed through the works while the remainder was disposed of by controlled tipping.

The estimated amount of nightsoil collected during the year was 156 tons.

A separate Annual Report is issued for the Public Cleansing service in the Borough.

### SANITARY ACCOMMODATION

There are still a number of privy pails in the Borough, situated in the present unsewered northern area of the town.

### WATER SUPPLY

The water supply to the district is provided by the Mid and South East Cheshire Water Board. The water is not plumbo-solvent and all dwelling houses are supplied direct from the mains.

Mr. Delwyn Davies, B.Sc.(Eng) M.I.C.E., M.I.W.E., A.M.B.I.M., Chief Officer of the Board has supplied the following information relating to the supply.

The water supplied to the Borough has been satisfactory both in quality and in quantity. Regular bacteriological examinations were made of the treated water, all of which were satisfactory.

It contains no fluoride and is not plumbo-solvent.

A copy of a typical chemical analysis of the water delivered to Crewe from Hurleston is given below:

Source of supply to consumers	R. Dee Hurleston Works
Daily volume in million gallons	6 to 7
No. of samples and period over which they have been collected	43 in 12 months (3.1.67. - 11.12.67 inclusive)
Colour	not more than 5 Hazen
Reaction pH	from 7.4 to 8.5
Electrical conductivity at 25°	from 190 to 466 umhos
Hardness as cCa CO <sub>3</sub>	
Total	from 71 to 205 ppm.
Non-carbonate	from 29 to 100 ppm.
Alkalinity as Ca CO <sub>3</sub>	from 40 to 114 ppm.
Chlorides expressed as chlorine	from 16.0 to 35.0 ppm.
Ammoniacal nitrogen	up to 0.01 ppm.
Albuminoid nitrogen	from 0.05 to 0.18 ppm.
Nitrate nitrogen	from <0.1 to 2.7 ppm.
Oxygen absorbed from permanganate in 4 hrs. at 27°C	from 0.54 to 2.11 ppm.
Iron	from 0.01 to 0.04 ppm.
Manganese	less than 0.01 ppm.
Aluminium	from 0.01 to 0.3 ppm.
Residual chlorine	from 0.1 to 0.35 ppm.

33 samples of water taken from premises throughout the Borough were also submitted by my department for bacteriological and chemical examination and all proved satisfactory.

# NUMBER AND NATURE OF COMPLAINTS

The Department received 1,503 complaints during the year from householders, shopkeepers and others relating to numerous matters, as set out in the table below.

## NATURE OF COMPLAINT

Disrepair - General	...	...	...	...	...	...	117

# INFECTIOUS DISEASE AND DISINFECTION

Number of premises visited where a notifiable  
disease has occurred ... .. 21

Number of Library Books disinfected -

(a) from Public Library ... .. 25  
(b) from Private Libraries ... .. - ... 25

## DISINFESTATION

The following table shows the number of premises treated during 1967.

	Number found to be infested		Number of Premises Disinfested
	Premises	Rooms	
Council Houses ... ..	7	25	7
Other Houses ... ..	6	24	6
Cases confirmed after complaint of infestation ... ..	11	-	-
Cases found by Public Health Inspectors ... ..	2	-	-
Houses disinfested by Corporation ... ..	-	-	13
Houses disinfested by Contractors ... ..	-	-	-

The work of disinfestation was carried out by the use of D.D.T. and patent fumigant solutions.

In addition to the premises listed above, 125 houses were treated for infestations of beetles, ants, etc.

### SWIMMING BATHS

The only Public Swimming Baths in the Borough are owned by the Corporation and contain two swimming pools, slipper and private wash baths and various other amenities.

During the year, 92 samples of bath water were submitted for bacteriological and chemical examination and 14 samples proved unsatisfactory, but subsequent samples proved satisfactory.

### OFFENSIVE TRADES

The following offensive trades are carried on in the Borough.

Rag and Bone Dealers	...	...	...	...	2
Gut Scrapers	...	...	...	...	1
Bone Boiler and Fat Extractor...	...	...	...	...	1

In addition to the above, 42 persons are registered under the Scrap Metal Dealers Act 1964.

### RAG FLOCK

Number of licensed premises used for the manufacture of, or storage of Rag Flock	...	...	-
Number of registered premises where filling materials are used	...	...	1

### COMMON LODGING HOUSES

There are no common Lodging Houses in the Borough.

# HOUSING STATISTICS

Number of New Houses erected during the year:

(1)	By the Local Authority	...	...	...	...	111
(2)	By other Authorities	...	...	...	...	Nil
(3)	By other bodies or persons	...	...	...	...	45

## 1. Inspection of Dwelling Houses during the year:

(1)	(a)	Total number of houses inspected for housing defects (under Public Health Act or Housing Act) -				
	(i)	On General Inspection	...	...	256	
	(ii)	Slum Clearance	...	...	227	
		Total	...	...		483
	(b)	Number of inspections made for the purpose -				
	(i)	General Inspections	...	...	485	
	(ii)	Slum Clearance	...	...	657	
		Total	...	...		1142
(2)	(a)	Number of dwelling houses (included under the sub-heading (1) above) which were inspected and recorded under the Housing Consolidation Regulations, 1925 -				
	(i)	General Inspections	...	...	12	
	(ii)	Slum Clearance	...	...	215	
		Total	...	...		227
	(b)	Number of inspections made for the purpose -				
	(i)	General Inspections	...	...	22	
	(ii)	Slum Clearance	...	...	635	
		Total	...	...		657
(3)		Number of dwelling houses found to be in a state so dangerous or injurious to health as to be unfit for habitation -				
	(i)	General Inspections	...	...	12	
	(ii)	Slum Clearance	...	...	215	
		Total	...	...		227

Housing Statistics, cont.

(4) Number of dwelling houses (exclusive of those referred to under the preceding sub-heading) found not to be in all respects reasonably fit for human habitation ... ..		258
2. <u>Remedy of Defects during the year without service of Formal Notices</u>		
Number of defective dwelling houses rendered fit in consequence of informal action by the Local Authority or their officers ... ..		182
3. <u>Action under Statutory Powers during the Year</u>		
(a) Proceedings under Section 9 and 10 of the Housing Act 1957 -		
(1) Number of dwelling houses in respect of which notices were served requiring repairs ... ..		Nil
(2) Number of dwelling houses which were rendered fit after service of formal notices -		
(a) By owners... ..		Nil
(b) By Local Authority in default of owners... ..		Nil
(b) Proceedings under Public Health Acts -		
(1) Number of dwelling houses in respect of which notices were served requiring defects to be remedied... ..		103
(2) Number of dwelling houses in which defects were remedied after service of formal notices -		
(a) By owners... ..		75
(b) By Local Authority in default of owners... ..		2
(c) Proceedings under Sections 16 and 17 of the Housing Act, 1957 -		
(1) Number of dwelling houses in respect of which demolition orders were made ... ..		9
(2) Number of dwelling houses demolished in pursuance of demolition orders ... ..		2

Housing Statistics, cont.

3.	(c)	(3)	Number of undertaking to carry out works in lieu of demolition accepted by the Council ... .. Nil
		(4)	Number of dwelling houses in respect of which closing orders were made... .. 3
4.	<u>Housing Act 1957 - Part IV - Overcrowding</u>		
	(a)	(1)	Number of dwellings overcrowded at end of year ... .. 2
		(2)	Number of families dwelling therein ... .. 2
		(3)	Number of persons dwelling therein ... .. 20
	(b)	Number of new cases of overcrowding reported during the year ... .. 1	
	(c)	(1)	Number of cases of overcrowding relieved during the year ... .. 2
		(2)	Number of persons concerned in such cases ... .. 21
	(d)	Particulars of any cases in which dwelling houses have again become overcrowded after the local authority have taken steps for the abatement of overcrowding ... .. -	

# HOUSING CLEARANCE PROGRAMME

3. OUTWORKERS. Lists required by Section 110 were received relating to 62 outworkers all engaged in making wearing apparel.

Offices, Shops and Railway Premises Act, 1963

The above mentioned Act which came into force during 1964 contained provisions relating to the health, safety and welfare of employees in offices, shops and certain other premises. The following tables, have been abstracted from the annual report submitted to the Ministry of Labour.

Registration and General Inspections

Class of premises	Number of premises registered during the year	Total number of Registered premises at end of year	Number of registered premises receiving a general inspection during the year
Offices	8	131	31
Retail shops	16	386	101
Wholesale shops, warehouses	3	21	13
Catering establishments open to the public, canteens	4	59	17
Fuel storage depots	-	2	-
TOTALS	31	599	162

NUMBER OF VISITS OF ALL KINDS BY INSPECTORS TO REGISTERED PREMISES - 377

Analysis of persons employed in Registered Premises

Class of workplace	Number of persons employed
Offices	963
Retail shops	2,040
Wholesale departments, warehouses	255
Catering establishments open to the public	452
Canteens	20
Fuel storage depots	18
Total	3,748
Total Males	1,345
Total Females	2,403

Exemptions and Prosecutions

No exemptions were applied for during the year, nor prosecution instituted.

Contraventions found

Premises requiring cleansing in some form	...	...	...	...	13

RODENT CONTROL

The Corporation employ two full-time rodent operators and the extermination methods employed are poisoning, gassing and trapping. The following table summarises the work carried out:-

	Type of Property			Total
	Local Auth.	Dwell. Hses.	Bus. Prem.	
<u>NUMBER OF PROPERTIES INSPECTED:</u>				
(1) Primary Inspections:				
(a) as a result of notification	19	260	49	328
(b) otherwise ... ..	-	225	-	225
(2) Re-inspections:				
(a) as a result of notification	6	18	7	31
(b) otherwise ... ..	-	11	-	11
Total Properties inspected ... ..	25	514	56	595
<u>Number of Properties found to be infested by RATS:</u>				
(1) Primary Inspections:				
(a) Major ... ..	-	-	-	-
(b) Minor ... ..	17	362	25	404
(2) Re-infestations:				
(a) Major ... ..	-	-	-	-
(b) Minor ... ..	4	24	2	30
<u>Number of Properties found to be infested by MICE:</u>				
(1) Primary Inspections ... ..	3	115	24	142
(2) Re-inspections ... ..	1	5	5	11
Total infestations found ... ..	25	506	56	587
<u>Number of infested Properties treated by Local Authority:</u>				
(1) Primary Treatments:				
(a) for RATS ... ..	17	313	21	351
(b) for MICE ... ..	3	111	24	138
(2) Treatments for re-infestation				
(a) for RATS ... ..	5	34	2	41
(b) for MICE ... ..	-	5	4	9
Total Treatments... ..	25	463	51	539

NOTE: A treatment means a complete treatment for the destruction of rats and mice and includes not only the initial treatment, but when necessary, post-baiting and follow-up treatment.

### RODENT CONTROL, Cont.

Following the treatments carried out, 618 rats and 372 mice were picked up, whilst the estimated kill was 1,971 rats and 893 mice.

During the year the rodent operators paid 5,482 visits in connection with the inspection and treatment of premises.

Two maintenance treatments of the sewers were also carried out. 690 manholes were baited and 493 takes of poison bait were recorded, showing an estimated kill of 1,600 rats.

### PET ANIMALS ACT 1951

There are seven premises in the Borough licensed for the sale of pet animals. All these premises comply with the recommended conditions of the Royal Society for the Prevention of Cruelty to Animals, which were adopted by the Council.

# INSPECTION AND SUPERVISION OF FOOD

## FOOD HYGIENE

Food hygiene has continued to receive the attention of the public health inspectorate and 964 visits have been made for this purpose.

All plans of food premises submitted to the Borough Engineer are scrutinised for compliance with the various Acts and Regulations and where amendments are necessary the owner or architect is advised and corrections made before submission to the appropriate Committees. This system has worked very well indeed and architects and other have co-operated fully with the Department.

The following is a list of the various types of food premises in the Borough.

### Number and type of food premises

#### Premises requiring registration

For the manufacture of Ice Cream	...	...	...	3
For the storage and sale of Ice Cream	...	...	...	251
For the preparation and manufacture of sausages or pressed, potted or preserved meat, etc.	...	...	...	20

### FOOD HYGIENE REGULATIONS 1960

Type of premises	Number	Premises complying with Reg- ulation 16	Premises complying with Regu- lation 19
Fried Fish Shops	38	37	38
Wet Fish Shops	3	3	3
Bakehouses	9	9	9
Butchers	45	44	45
Restaurants and Cafes	30	30	30
School Canteens	9	9	9
Factory Canteens	20	20	20
Licensed Premises	111	111	111
Grocery and Provisions	123	117	121
Cakes and Confectionery	16	16	16
Sweets	29	29	29
Green Grocery	29	29	29
TOTALS	462	454	460

## FOOD INSPECTION

There are no slaughterhouses in the Borough.

The following table shows the foods condemned during the year on account of decomposition, etc.

### TINNED FOODS

						lbs	
Meat	...	...	...	...	...	649	
Fruit	...	...	...	...	...	20	
Vegetables	...	...	...	...	...	40	
Miscellaneous...	...	...	...	...	...	34	743 lbs

### OTHER FOODS

Meat	...	...	...	...	...	1088	
Fish	...	...	...	...	...	330	
Fruit	...	...	...	...	...	465	
Vegetables	...	...	...	...	...	177	
Miscellaneous...	...	...	...	...	...	673	
Poultry...	...	...	...	...	...	450	3183 lbs
						TOTAL	3926 lbs

## POULTRY INSPECTION

There is 1 poultry processing establishment within the Borough.

The number of birds processed during the year was as follows:

Broilers	...	...	...	...	...	72,795
Capons etc	...	...	...	...	...	11,662
Hens	...	...	...	...	...	123,892
Turkeys	...	...	...	...	...	2,688
Ducks...	...	...	...	...	...	1,535
Geese...	...	...	...	...	...	180

Regular inspections are made of the premises to maintain a general oversight of production conditions and the methods of inspection of suspect poultry.

Approximately 0.4% of the birds, principally hens, were rejected as unfit for human consumption and the approximate weight was 2,544 lbs.

### ICE CREAM

Ice cream was manufactured at three premises in the Borough in 1967 while 251 premises were registered for the storage and sale of ice cream. A complete cold mix is used at two of the manufacturing premises in the Borough and pasteurisation at the other.

20 samples of ice cream were submitted for bacteriological examination and the results of the examinations are shown below.

Ice Cream	Methylene Blue Test Grading				TOTAL
	Grade I	Grade 2	Grade 3	Grade 4	
Samples taken at manufacturing premises	6	4	2	3	15
Samples taken from retailers in the Borough	2	3	-	-	5
TOTALS	8	7	2	3	20

### SLAUGHTER OF ANIMALS ACT 1958

The number of slaughtermen's licences issued in 1967 was 9.

### KNACKER'S YARD

There is one Knacker's Yard in the Borough. These premises are not licensed for the slaughter of horses.

### MILK

#### Designated Milk

Dealer's pre-packed licences    ...    ...    ...    ...    ...    122

#### Pasteurised Milk

Establishments at which milk is pasteurised    ...    Nil

### MILK SAMPLING

During the year, 162 samples of designated milks were taken for bacteriological examination and the following table provides details of the results.

No. of Samples	Description of Milk	Methylene Blue Test		Phosphatase Test		Turbidity Test	
		Passed	Failed	Passed	Failed	Passed	Failed
8	Untreated	8	-	-	-	-	-
132	Pasteurised	119	6	132	-	-	-
22	Sterilised	-	-	-	-	22	-
162	Totals	127	6	132	-	22	-

### Brucella Abortus

2 samples of untreated milk were submitted to the Ring Test and both proved negative.

### FOOD SAMPLES TAKEN FOR BACTERIOLOGICAL EXAMINATION

72 samples were taken during the year as follows:

48 of hot coffee, chocolate or tea - 6 of which were unsatisfactory due to the presence of faecal coli

17 of hot soup - 3 of which were also unsatisfactory due to the presence of faecal coli

4 of cream cakes, 1 of which showed the presence of faecal coli

1 of corned beef and 2 buns which were satisfactory.

FOOD AND DRUGS ACT 1955

During the year 20 formal and 146 informal samples were submitted to the Public Analyst for analysis.

Nature of Samples	No. of Samples		Number of samples adulterated or not genuine
	Informal	Formal	
Milk	8	8	1
Meat and Meat Products	34	-	3
Fish and Fish Products	12	-	-
General Groceries	60	-	3
Preserves	6	-	-
Flour Confectionery	7	-	2
Sugar Confectionery	8	-	-
Ice Cream	2	-	-
Cordials	2	-	-
Vegetables	2	-	-
Medicines etc	2	-	-
Beer and Spirits	3	12	-
	146	20	9
	166		

In addition to the above samples which were submitted to the Public Analyst 15 additional samples were brought to the office.

As part of the National Survey for the detection of pesticidal residues in food, 2 samples were also submitted to the Public Analyst both proving negative.

FOOD AND DRUGS ACT 1955

The table below shows details of the samples found not to be genuine or otherwise unsatisfactory and of the relative action taken.

Sample Number	Article	Adulteration or other irregularity	Action Taken
3196	Oats	Contained insect	Manufacturer cautioned
3197	Chicken Pie	Contained foreign object	Manufacturer cautioned
3225	Tin of Tomatoes	Contained insect larva	Manufacturer cautioned
3236	Vichysoise Soup	Slightly deficient in butter fat	Manufacturer cautioned
3241	Milk	Contained piece of cement	Vendor cautioned
3242	Milk	Contained portion of slug	Vendor cautioned
3243	Bread	Contained pieces of iron scale	Manufacturer cautioned
3264	Meat and Potato Pie	Contained insect	Manufacturer cautioned
3265	Milk	Dirty bottle	Vendor cautioned
3281	Sausage Rolls	Mouldy	Vendor cautioned
3282	Milk	Dirty bottle	Vendor cautioned
3283	Milk cob	Contained spider beetle	Manufacturer cautioned
3284	Black Pudding	Mouldy	Vendor cautioned
3285	Bacon	Contained maggot	Vendor cautioned
3286	Sausage	Contained piece of rubber	Manufacturer cautioned
3287	Doughnut	Contained piece of bacon rind	Manufacturer cautioned
3306	Spam Spread	Contained pieces of iron scale	Manufacturer cautioned
3328	Tin of Pineapple Slices	Contained moth	Manufacturer cautioned

Sample Number	Article	Adulteration or other irregularity	Action Taken
3329	Baby food cereal	Contained insects	Manufacturer fined £25
3330	Milk	Dirty bottle	Vendor fined £25
3331	Sausage	Contained piece of metal	Manufacturer cautioned
3332	Tin of Peas	Contained insect	Manufacturer cautioned
3349	Apricot Custard	Mouldy	Manufacturer cautioned
3350	Bacon	Unsound	Vendor cautioned

### ATMOSPHERIC POLLUTION

The implementation of the provisions of the Clean Air Act, 1956 once again occupied a proportion of the time of the public health inspectorate and 2,993 inspections were made under the Act.

3 notifications were received of 'intention to install' furnaces under Section 3 of the Act and 2 applications were received for 'prior approval'.

The Borough of Crewe No. 1 (Marshfield Bank and Wistaston Green) Smoke Control Order, 1960 covering some 270 acres on the westerly side of the borough, and affecting some 1,085 properties came into operation on the 1st October, 1962.

A second order, known as the Borough of Crewe No. 2 (Wistaston Green and The Valley) Smoke Control Order, 1964, which covers 208 acres and 1,028 properties in an area adjacent to and to the east of the first area, became operative on the 1st July, 1966.

The Borough of Crewe No. 3 (Ruskin Park) Smoke Control Order, 1966 became operative on the 1st July, 1967. This Order covers 224 acres and 1,670 properties in an area adjacent to and to the south east of No. 2 area.

On the 1st March, 1967 the Council made the Borough of Crewe No. 4 (Nantwich Road South) Smoke Control Order, 1967. This order covered 235 acres and 1,793 properties. A Public Inquiry was held in respect of this Order on the 24th August, 1967 and it was eventually confirmed in 1968, to become operative on the 1st July, 1969.

The department has, since 1949, in co-operation with the Ministry of Technology, made regular monthly recordings of the degree of air pollution throughout the borough. The analyses of the readings of the various stations are shown in the appended tables and graphs.

In 1961, Crewe was selected as one of 120 towns to take part in a National Survey of Atmospheric Pollution and five additional sets of instruments have been installed at particular sites in the district.

The sites selected cover five types of district in accordance with the recommendations of the Ministry of Technology as follows:

#### Crewe Site

- |                                                     |                                       |
|-----------------------------------------------------|---------------------------------------|
| (a) Residential area with a high population density | Stalbridge Road Clinic                |
| (b) Residential area with a low population density  | College Annexe, Railton Avenue        |
| (c) Industrial area                                 | Railway Works                         |
| (d) Commercial area                                 | British Railway Laboratory, Town Hall |
| (e) Smoke Control area                              | Sewage Works                          |

The results obtained are collated by the Warren Spring Laboratory of the Ministry of Technology.
