DEPARTMENT OF HEALTH AND SOCIAL SERVICES
LIBRARY
MAY 1970

TO THE CHAIRMAN AND MEMBERS OF
GROFT RURAL DISTRICT COUNCIL

Gentlemen,

I have much pleasure in presenting the annual report on the health of the district for the year ended 31st December, 1969.

The population, as estimated mid-year by the Registrar General, was two thousand and sixty, and increase of twenty on 1968. There were forty three live births, giving a live birth rate of 21.10 and twenty four deaths with a death rate of 12.9. Thirteen were due to heart disease, two to vascular lesions of the nervous system, six cancer and one respiratory disease, not Tuberculosis. There were no maternal or infantile deaths.

The vital statistics can be regarded as satisfactory.

Two infection disease cases were notified during the year, one Measles, one Hepatitis. No tuberculosis cases were notified during 1969.

I would like to express my appreciation of the help and co-operation I have received from all the staff in the department.

H. R. MORRISON

PUBLIC HEALTH STAFF

<u>Medical Officer of Health</u>	H. R. Morrison, M.B., CH.B., D.P.H.
<u>Public Health Inspector</u>	J. D. Collins, M.A.P.H.I., C.R.S.H. (Qualified Meat and Food Inspector)
<u>Additional Public Health Inspectors (part-time)</u>	G. Blakey, M.R.S.H., M.A.P.H.I. (Qualified Meat and Food Inspector) resigned August, 1969
	D. G. Willson, A.R.S.H., M.A.P.H.I. (Qualified Meat and Food Inspector) from September, 1969

GENERAL STATISTICS

Area of the district in acres	19,731
Estimated residential population	2,060
Number of inhabited houses at 1st April, 1969	720
Rateable value at 1st April, 1969	£66,539
Sum represented by a penny rate	£271 19s. 10d.
Rate in pound levied at 1st April, 1969	12s. 3d.

VITAL STATISTICS

BIRTHS

The number of live births registered in 1968 was forty three against thirty six in 1968. The birth rate comparisons show that the rate for the district is higher than that for the rest of England and Wales.

No still births were registered in the district during the year.

Birth Rate Comparisons

Live births per 1,000 of the population

Still births per 1,000 total live and still births (live births adjusted by comparability factor).

	<u>Live Births</u>	<u>Still Births</u>
Croft Rural District, 1969	21.10	00.00
Croft Rural District, 1968	17.81	00.00
England and Wales, 1969	16.3	13.00

TUBERCULOSIS

No notifications of tuberculosis were received during the year, the same as in 1968.

NATIONAL HEALTH SERVICE ACT, 1946

- Section 22 - Care of Mothers and Young Children
- Section 23 - Domiciliary Midwifery
- Section 24 - Health visiting
- Section 25 - Home nursing

Three district nurses/midwives employed by the North Riding County Council carried out the duties required by the above Sections of the Act. There is no Infant Welfare Centre in the district but free transport is available to convey mothers and children to Eppleby Clinic once a month. The number of visits paid to patients by the district nurse/midwives during 1969 are as follows:-

Year	Health Visiting	Home Nursing	Domiciliary Midwifery
1968	767	617	617
1969	1398	2346	569

Section 27 - AMBULANCE SERVICE

This service is provided by the County Council from the Ambulance Service at Richmond which has a staff of one driver/foreman, one shift leader and six driver/attendants, and covers the districts of Richmond Borough, Rural Districts of Richmond, Croft, Reeth and Startforth.

Section 28 - PREVENTION OF ILLNESS, CARE AND AFTER-CARE

The work of vaccination and immunisation, together with the advice spread by those working in the Public Health Service, doctors, nurses, inspectors, etc., must have a beneficial affect on the general health of the community.

Section 29 - HOME HELP SERVICE

Six patients received home help during the year (1 sick housewife and 5 chronic sick) amounting to 1478 hours, as against 1182 in 1968.

1 sick Housewife 71 hours

5 Chronic sick 1407 hours

Section 51 - MENTAL HEALTH

No committee in the district and no cases arose during 1969 as in previous years.

Section 47 - NATIONAL ASSISTANCE ACT, 1948

No cases arose in the district during the year, as in previous years.

MEALS ON WHEELS

The Women's Royal Voluntary Service meals-on-wheels, in co-operation with the Council, has proved very satisfactory and greatly appreciated by the recipients. The meals are supplied by the St. Cuthbert's Hospital, and have been of a high quality. I would like to express my thanks to both the W.V.S. and the Hospital.

1969 - 1595 meals were served, an average no. of recipients per week was 16.

The remainder of this report has been compiled by the Public Health Inspector and his staff and I now thank him and them for their kind co-operation and their great assistance in the preparation of this report.

H. R. MORRISON

Medical Officer of Health

SECTION B

Water Supply, Sewerage and Sewage Disposal and General Sanitary Circumstances

Distribution of Water

The parishes included within the area of the various statutory undertakers are as follows:

Cleasby, Cliffe, part of Croft, Dalton, Stapleton, Manfield and Newton Morrell (part) - Tees Valley and Cleveland Water Board

Barton and part of Newton Morell - Northallerton and Dales Water Board

Some of the parishes included within the statutory water areas are:

(a) Eryholme

This parish has a mains supply from a deep bore provided by the Estate Company which in 1961 was extended to supply houses in the hamlet, including three Council Houses. The water is very hard (530 parts per million) and water softeners have been fixed in many of the houses on the supply.

(b) Girsby

This parish has only a very small hamlet and consists primarily of isolated farms and hinds houses. Part of it is supplied by the Northallerton and Dales Water Board and the rest by boreholes and wells.

The parish is adjacent to High Worsall which is in Northallerton and Dales Water Board statutory area of supply and can be supplied from that source.

(c) Part of Newton Morrell

This parish has no hamlet and comprises isolated farms and houses. The part referred to can be supplied by the Tees Valley and Cleveland Water Board from their mains at Cleasby.

Quantity and Purity of Water

516 samples were taken by the Tees Valley and Cleveland Water Board of which eight were found unsatisfactory.

48 samples were taken by the Northallerton and Dales Water Board of which four were found unsatisfactory.

5 samples were taken by the Public Health Department, all of which were reported satisfactory.

Average hardness in parts per million

	<u>Carbonate Hardness</u>	<u>Non-Carbonate Hardness</u>	<u>Total Hardness</u>
Tees Valley and Cleveland Water Board	26 p.p.m.	31 p.p.m.	57 p.p.m.
Northallerton and Dales Water Board		210 p.p.m.	
Eryholme Estate (private borehole supply)			
Over Dinsdale Estate.			

Flouride Content in parts per million

Tees Valley and Cleveland Water Board	:	Trace, 0.1 - 0.2 p.p.m.
Northallerton and Dales Water Board	:	0.10 p.p.m.
Eryholme Estate (private borehole supply)	:	Not known
Over Dinsdale Estate	:	Not known

The Council do not agree with the Ministry of Health's policy regarding fluoridation of water supplies (1963).

No water is known to have plumbo-solvent action.

In previous years insufficient details have been supplied by certain Water Undertakings supplying water to premises within the district and so variations with previous years figures have been corrected.

(a) Exchamps

This parish has a main supply from a deep bore provided by the Exchamps Company which in 1961 was extended to supply houses in the parish, including three Council Houses. The water is very hard (250 grains per gallon) and water softeners have been fitted in many of the houses on the supply. The water is very hard (250 grains per gallon) and water softeners have been fitted in many of the houses on the supply. The water is very hard (250 grains per gallon) and water softeners have been fitted in many of the houses on the supply.

(c) Part of Exchamps

This parish has no houses and comprises isolated farms and houses. The part referred to can be supplied by the Tees Valley and Cleveland Water Board from their mains at Exchamps.

Quantity and Quality of Water

The samples were taken by the Tees Valley and Cleveland Water Board of which eight were found unsatisfactory. 48 samples were taken by the Northallerton and Dalke Water Board of which four were found unsatisfactory. 5 samples were taken by the Public Health Department, all of which were reported satisfactory.

Exchamps Water in water for supply

Sewerage and Sewage Disposal

All villages in the rural district have satisfactory sewerage and sewage disposal arrangements, apart from the villages of Stapleton and Cleasby. At Cleasby there is a combined sewer which discharges without proper treatment to a ditch and at Stapleton there is a combined sewerage and sewage disposal system which is unsatisfactory. The remaining parishes of Newton Morrell, Cliffe and Over Dinsdale contain only a few scattered dwellinghouses and most of these have their own tank and filter arrangements, about which no complaints have been received.

During 1961 the question of annual cleansing of cesspools without charge was considered by the Council, but was declined on account of the cost. The Council periodically flush and clean sewers and tanks at Cleasby and Stapleton.

The village of Croft was completely sewered and provided a modern sewage disposal works in 1954 and sewers were laid to deal with the village of Dalton in 1963. Due to this and housing development in both places it may be necessary to consider works extension. At Barton a modern sewage disposal works was put in in 1961, and in the future some consideration will have to be given to relaying some of the sewers. The small village of Eryholme had existing sewerage facilities connected to a tank and land irrigation filter in 1961. During 1967 the irrigation filter was renewed. New sewers and sewage disposal works were provided at Manfield in 1962/3.

Cleasby and Stapleton Sewage Disposal Scheme

This scheme which included the laying of sewers in both villages, a pumping station at Cleasby with rising main to Stapleton, and from there to the Darlington Corporation sewer in Blackwell. The cost of the scheme was estimated to be £40,550 and was approved in 1968, when works commenced.

Towards the end of this year all main sewers had been laid, and the rising main and pumping station were complete and tested. All domestic connections had been made at Stapleton (48) and eleven out of a total of 32 at Cleasby. Minor works including reinstatement were also complete.

Charges for Treatment of Farm Waste

In connection with farm effluent, the following charges are in force although there are, at present, no farms discharging to the Council's sewers.

For each beast standing in a byre which is daily cleansed and washed down 30s. Od. (£1.50) per head per annum.

For each beast standing in a fold yard or loose box 7s. 6d. (£0.37½) per head per annum.

For each pig (breeding sow or boar) 10s. Od. (£0.50) per head per annum.

Scavenging

Public scavenging is carried out through the whole of the Council's area by contract. The occupiers of houses are instructed to bring their bins to the roadside and a fortnightly collection is made, the cost being £2,202 per annum. There are no public refuse tips belonging to the Council in the area.

During the year 1967, the Council rejected an application for a weekly collection of refuse to be made in the Rural District on the grounds that the present services meets the need of the community.

The Council have made arrangements for the collection of abandoned vehicles by a firm of car breakers and collection of bulky articles by the Council's Refuse Collectors and felt that this would satisfy the requirements of the Civic Amenities Act 1967, although to date no such action has been necessary.

Litter Baskets

Litter baskets are situated at Barton (3), Cleasby (1), Croft (2), Manfield (2), Dalton(1), and Stapleton (2) and are emptied by the Contractor every fortnight.

Litter baskets are emptied in laybys adjacent to trunk roads by the County Council on behalf of the Ministry of Transport.

Bus Shelters

There are six bus shelters in the area, one at Cleasby, one at Manfield, two at Barton, one at Dalton and one provided by the local residents at Stapleton.

Maintenance of Council Sewage Works

The Council employs one man who visits each Sewage Works for maintenance purposes; rodding of sewers and other minor cleansing duties and rodent control work on sewers. Since Manfield Sewage Works were brought into commission he has had less time to deal with choked sewers and some of the work had to be carried out on a rechargeable basis by Darlington Rural District Council.

Rivers and Streams, River Pollution Prevention

During the year, the Northumbrian River Board who are responsible for the prevention of pollution of the rivers and streams in the area have continued to work in close co-operation with the Department. Copies of analysis of effluents from the Council's works where they are likely to affect the rivers and streams are sent to us periodically. The Pollution Officer of the Board is kept advised as to the position regarding our new schemes for sewerage and sewage disposal and of any improvements carried out to our existing works.

Total number of houses on which orders were placed during the year was 3

SECTION D

INSPECTION AND SUPERVISION OF FOOD

Inspection of Meat and Other Foods

There are no licensed Slaughterhouses in the area. No meat inspection is carried out in the District. The only butcher resident in the area obtains his meat from Wholesale butchers in Darlington.

Food Premises

There are seven licensed houses, including two hotels; five general dealers and one sub-post office. The standard of hygiene in the shops is fairly satisfactory considering that they are village shops with dwelling houses at the rear. The table below indicates the situation of these premises.

List of Food Premises

Parish	Confectioners	Butchers	General Dealers	Licensed Premises
Barton	-	1	4	2
Cliffe and Manfield	-	-	1	2
Croft	-	-	-	1
Dalton	-	-	-	1
Stapleton	-	-	1	1
Totals	-	1	6	7

Condemnation of Food

No foodstuffs were found to be unfit for human consumption during the year and none were voluntarily surrendered.

Registration of Food Premises

Food and Drugs Act, 1955, Section 16

There were no applications for registration of food premises under Section 16 of the Food and Drugs Act 1955, and none are registered.

Food Complaint

During the year one complaint was received from a resident within the District concerning a tin of corned beef the contents of which were mouldy. Since the tin was purchased from a Supermarket in Thornaby, the Public Health Inspectors' Department of Teesside County Borough Council investigated and a letter of warning was sent to the manufacturers.

Slaughter of Poultry Act, 1967

There are no premises in the District to which the Act applies.

Food and Drugs Act 1965, Section 31

Brucella Abortus

No samples of milk were taken during the year within the District.

Ice Cream

There are no manufacturers of ice cream in the area and no applications were received for registration of premises for the storage and sale of ice cream. No samples of ice cream were taken during the year.

The total number of premises registered for storage and sale of ice cream is two.

Education Activity

Visits to food premises and discussions with food handlers in their place of work continue to form the basis of our education activity.

These methods seem to be efficacious than large scale lectures which are invariably only attended by those persons already fully conscious of their responsibilities with regard to food hygiene.

Informal notices were served in connection with two shops and four licensed premises within the area.

The Food Hygiene
(Markets, Stalls and Retail Delivery Vehicles) Regulations 1966

One inspection of a retail delivery vehicle based outside the district was carried out during the year when the owner was advised of certain defects relating to washing facilities and construction and marking of the vehicle. These defects were later complied.

SECTION E

PREScribed PARTICULARS ON THE ADMINISTRATION
OF THE FACTORIES ACT 1937
TO 1961

PART 1 OF THE ACT

1. Inspections for purposes of provisions as to health
(including inspections made by Public Health Inspectors)

	Number on Register (2)	Number of		
		Inspection tions (3)	Written Notices (4)	Occu's Pres. (5)
(i) Factories in which Sections 1,2,3,4 and 6 are to be enforced by Local Authority	6	0	-	-
(ii) Factories not included in (i) in which Section 7 is enforced by the Local Authority	4	3	-	-
(iii) Other Premises in which Section 7 is enforced by the Local Authority (excluding out-workers' premises)	1	0	-	-
Totals	11	3	-	-

No complaints were received during the year regarding any of the above premises within the district.

2. Cases in which defects were found

Particulars	Found (2)	Remedied (3)	Found by Inspector (4)	Referred by H.M. (5)	No. cases in which pros. were instit. (6)
Want of Cleanliness (S1)	-	-	-	-	-
Overcrowding (S2)	-	-	-	-	-
Unreasonable Temperature (S3)	-	-	-	-	-
Inadequate drainage of Floors (S6)	-	-	-	-	-
Sanitary conveniences (S	-	-	-	-	-
(a) Insufficient	-	-	-	-	-
(b) Unsuitable or defective	1	-	-	-	-
(c) Not separate for sexes	-	-	-	-	-
Other offences against the Act (not including offences relating to Outwork)	-	-	-	-	-

PREVENTION OF DAMAGE BY PESTS ACT 1949

COPY OF ANNUAL REPORT ON RATS AND MICE

	<u>Type of Property</u>	
	<u>Non-Agricultural</u>	<u>Agricultural</u>
1. Properties other than sewers	668	197
2. (a) Total number of properties (including nearby premises) inspected following notification	7	-
(b) Number infested by (i) Rats (ii) Mice	7 -	-
3. (a) Total number of properties inspected for rates and/or mice for reasons other than notification	3	-
(b) Number infested by (i) Rats (ii) Mice	3 -	-

Although advice is frequently given occupants of agricultural premises usually carry out their own treatments.

Sewers

Sewer treatments during the year were carried out at Eryholme, Croft, Manfield, Dalton and Barton where a total of 39 manholes were treated, showing very little evidence of rodent infestation. Subsequent treatments resulted in eradication of all pockets of infestation.

Caravan Sites and Control of Development Act 1960

There are two caravan sites in the area each licensed for a maximum of five overnight caravans. Both sites have been operated in a satisfactory manner.

Clean Air Act 1956

There are no factories or other premises in the area where furnaces are installed for industrial purposes. In connection with the erection of Council Houses and the making of Improvement Grants, the Council ensure that approved appliances are fitted.

Agricultural (Safety, Health and Welfare Provisions) Act 1956

Generally, conditions are satisfactory and there were no complaints received during the year 1969.

Offices, Shops and Railway Premises Act 1963

There are five registered premises which include two offices where the required standards were maintained and three catering establishments.
