DOVER PORT HEALTH AUTHORITY

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

for the Year 1959

C. F. LYNCH, M.B., B.Ch., B.A.O., D.P.H.

Medical Officer of Health

Health Department,
Brook House,
Dover.

DOVER PORT HEALTH AUTHORITY

HEALTH COMMITTEE

To 1st June, 1959.

His Worship the Mayor
(Alderman R. L. Eckhoff, J.P.)

Chairman

Alderman E. A. Bushell, M.B.E.

Members.

Alderman (Mrs.) D. Bushell	Alderman (Mrs.) E. M. S. Coatsworth
Councillor (Mrs.) A. F. Brazier	Councillor J. E. C. Bushell
Councillor J. T. Corry	Councillor (Mrs.) K. Edgington
Councillor (Mrs.) A. E. Galvin	Councillor G. E. Gasken
Councillor F. A. Holmes, J.P.	Councillor F. W. Marsh
Councillor A. H. Newland	

From 1st June, 1959.

His Worship the Mayor
(Alderman R. L. Eckhoff, J.P.)

Chairman

Alderman E. A. Bushell, M.B.E.

Members.

Alderman (Mrs.) D. Bushell	Alderman (Mrs.) E. M. S. Coatsworth
Councillor (Mrs.) A. F. Brazier	Councillor J. T. Corry
Councillor (Mrs.) K. Edgington	Councillor A. Francis
Councillor G. E. Gasken	Councillor F. A. Holmes, J.P.
Councillor F. W. Marsh	Councillor G. A. McGrath
Councillor E. A. Pittock

Health Department,
Brook House,
Dover.

To: The Mayor, Aldermen and Councillors of the Borough of Dover acting as the Port Health Authority of the Port of Dover.

Ladies and Gentlemen,

I have the honour to present the Annual Report on the work of the Port Health Authority for the year 1959.

Over six million tons of shipping entered the port during the year, an increase of over half a million tons on the figure for 1958.

An increase in the number of passengers landed is also recorded and includes an increase in the number of aliens landed and medically examined.

38 cases of infectious or suspected infectious disease involving 32 ships were dealt with on arrival. There were however, no cases of quarantinable disease. Inspection of ships during the year showed that in only one instance were sanitary conditions found prejudicial to health. This was a case of several major defects in a foreign vessel in harbour for emergency repairs following collision. All the defects could not be remedied before the vessel sailed and the owners undertook to remedy these at the earliest opportunity.

Smoke nuisance from vessels was of relatively infrequent occurrence following the issue of warnings in one or two instances for repeated infringement of the Dark Smoke (Permitted Periods) Regulations by ships regularly using the harbour.

Imports of various foodstuffs during the year amounted to over 40,000 tons; 60 tons llwt. were condemned as unfit, the bulk of which was derived from one consignment of potatoes. Irregularities concerning official certificates in respect of imported meat or meat products noted in previous years were not encountered during the year under review.

I have to thank H.M. Customs and Immigration Authorities and other Departments associated with the work of the Port Health Authority for their co-operation and assistance at all times throughout the year.

I have the honour to be,

Mr. Mayor, Ladies and Gentlemen,

Your obedient Servant,

C. F. LYNCH

Medical Officer of Health.

February, 1960.

SECTION I - STAFFTABLE A

Nature of Appointment	Remarks
Assistant Port Health Inspector	Mr. E. J. Hacker resigned with effect from 31st December, 1959.

The above change occurred during the year:

Address of Medical Officer of Health

Brock House,
DOVER.

Telephone number:- Dover 2184/7

SECTION II - AMOUNT OF SHIPPING ENTERING THE DISTRICT DURING THE YEAR.

TABLE B

Ships from	Number	Tonnage	Number inspected		Number of Ships reported as having, or having had during the voyage, infectious disease on board
			By the Medical Officer of Health	By the Public Health Inspector	
Foreign Ports	4872	5,858,410	38	66	34
Coastwise	455	231,232	-	68	-
Total	5327	6,089,642	38 *	134	34

* Excluding vessels from cross-channel ports.

SECTION III - CHARACTER OF SHIPPING AND TRADE DURING THE YEAR.

TABLE C

PASSENGER TRAFFIC	(Number of Passengers	INWARDS	1,235,805
	(Number of Passengers	OUTWARDS	1,222,552
CARGO TRAFFIC	(Principal IMPORTS	General merchandise, wines foodstuffs, coal and timber.	
	(Principal EXPORTS	Cars and general merchandise.	
PRINCIPAL PORTS from which Ships arrive:	South and West African; South American; European; Iberian; Scandinavian and Baltic.		

SECTION IV - INLAND BARGE TRAFFIC

Nil

SECTION V - WATER SUPPLY

NO CHANGE

SECTION VI

PUBLIC HEALTH (SHIPS) REGULATIONS, 1952

NO CHANGE

SECTION VII - SMALLPOX

1. Name of Isolation Hospital to which smallpox cases are sent from the district:

The River Hospitals,
(Long Reach),
DARTFORD,
KENT.

2. Arrangements for transport of such cases to that hospital by ambulance, giving the name of the authority responsible for the ambulance and the vaccinal state of the ambulance crews:

Ambulance of Canterbury City Council available on request.

Special ambulance crew provided by the same Authority.

3. Name of smallpox consultant available:

Medical Officer,
The River Hospitals,
(Long Reach),
DARTFORD,
Kent.

4. Facilities for laboratory diagnosis for smallpox:

Central Public Health Laboratory,
Colindale Avenue,
Colindale,
LONDON N.W.9.

SECTION VIII - VENEREAL DISEASE

NO CHANGE

SECTION IX - CASES OF NOTIFIABLE AND INFECTIOUS DISEASES ON SHIPS 1959TABLE D

Category	Disease	Number of cases during the year		Number of ships concerned
		Passengers	Crew	
Cases landed from ships from Foreign Ports	Pneumonia	1	2	3
	Gastro-enteritis (Observation)	2	-	2
	German Measles	1	-	1
	Measles	7	-	6
	Tonsillitis	6	-	6
	Chicken Pox	7	-	3
	Dysentery	1	-	1
	Pyrexia Unknown Origin	2	-	2
	Mumps	1	-	1
	Ac. Impetigo	1	-	1
	Pulmonary Tuberculosis	2	-	1
	Bubo (Climatic)	-	1	1
	Observation Dysentery	2	-	2
	Observation Influenza	1	-	1
Hepatitis (Observation)	1	-	1	
Cases which have occurred on ships from Foreign Ports but have been disposed of before arrival.	Chicken Pox	1	-	1
	Measles	1	-	1
Cases landed from other ships	Nil	Nil	Nil	Nil

SECTION X - OBSERVATIONS ON THE OCCURRENCE OFMALARIA IN SHIPS

No cases of malaria occurred in vessels arriving during the year.

SECTION XI - MEASURES TAKEN AGAINST SHIPSINFECTED WITH OR SUSPECTED FOR PLAGUE

No measures were necessary during 1959.

In the event of finding plague-infected rats, vessels would be boomed off and fumigation of all compartments carried out with H.C.N.

SECTION XIII - MEASURES AGAINST RODENTS IN SHIPS
FROM FOREIGN PORTS

1. Procedure for inspection of ships for rats:

Trade of port consists chiefly of cross-channel traffic, vessels of which are subjected to half-yearly routine inspections in connection with the issue of the necessary certificates under Regulation 19 of the Public Health (Ships) Regulations, 1952.

Additionally, any evidence of the presence of rodents on board occurring in the interval would be immediately reported by the British Railways Authority.

Other vessels entering the port are subjected to routine inspection by the Port Health Inspectors.

Port of Dover approved and designated for the issue of both Deratting and Deratting Exemption Certificates under Regulation 19 of the Public Health (Ships) Regulations, 1952.

2. Arrangements for the bacteriological or pathological examination of rodents, with special reference to rodent plague, including the number of rodents sent for examination during the year:

Although no action was necessary during 1959, any rats found on ships would be sent for necessary examination to the Public Health Laboratory at Maidstone.

3. Arrangements in the district for deratting ships, the methods used, and, if done by a commercial contractor, the name of the contractor:

Deratting carried out by contractors, viz. Fumigation Services, Limited, Barking, Essex, using Hydrogen Cyanide gas under direction of Port Health Inspectors.

Minor infestations are dealt with by the Local Authority's Rodent Operator using Warfarin mainly.

4. Progress in the rat-proofing of ships:

No actual measures requested during 1959. With regard to the cross-channel vessels, rat proofing of store-rooms effectively maintained. Any deficiencies found in these or other vessels would be brought to the attention of masters and owners.

TABLE E
RODENTS DESTROYED DURING THE YEAR IN
SHIPS FROM FOREIGN PORTS

Category	Number
Black rats	-
Brown rats	-
Species not known	-
Sent for examination	-
Infected with Plague	-

In one instance only, in a British vessel, rats were reported to have been seen; inspection showed no definite evidence but a Warfarin treatment was instituted; the results of such treatment were inconclusive.

TABLE F

DERATTING CERTIFICATES AND DERATTING EXEMPTION CERTIFICATES ISSUED
DURING THE YEAR FOR SHIPS FROM FOREIGN PORTS

No. of Deratting Certificates issued					No. of Deratting Exemption Certificates issued	Total Certificates issued

SECTION XIVPUBLIC HEALTH (SHELL-FISH) REGULATIONS,1934 and 1948.

NO CHANGE

SECTION XV - MEDICAL INSPECTION OF ALIENS.

(Applicable only to ports approved for the landing of aliens)

1. List of Medical Inspectors holding Warrants of Appointment:

Medical Officer of Health:
 Deputy Medical Officer of Health:
 Drs. C. P. K. Toland and P. H. Garrard:
 Drs. D. W. J. Radcliffe, D. W. Hall and R. J. L. Davis:
 Dr. T. J. Cobble:
 Drs. M. Koettlitz and A. K. Thomas:
 Dr. E. Blake:

2. List of other staff engaged on this work:

Mrs. V. . . Craft.. Aliens Nurse
 Miss E. Joy.. Relief Nurse
 Miss A. E. Knott.. Relief Nurse
 Mrs. C. L. Whitehorn... Relief Nurse

3. Organisation of work:

No change.

4. Nature and amount of Aliens Traffic:

Number of aliens arriving at the port and dealt with by the Medical Inspector:-

<u>Year:</u>	<u>Total Aliens:</u>	<u>Medically Examined:</u>	<u>Percentage of Total Medically Examined:</u>
1957	273,577	8,501	3.11
1958	292,535	9,043	3.10
1959	312,403	9,179	2.94

Categories in which aliens were examined:-

1. Holding Ministry of Labour Permits	8,019
2. Intending to make their home in the United Kingdom	911
3. Visitors	242
4. Business Visitors	-
5. Returning Residents	6
6. Aliens in transit	1
7. Others	-

 9,179

The certificates issued to the Immigration Officer numbered 124, 23 of the aliens concerned being refused permission to land.

The rate of certificates issued in respect of aliens examined was 1.35% compared with 1.81% for the year 1958.

Foodstuffs condemned during the year totalled 60 tons 11 cwts. 3 qtrs. 8 lbs., the highest amount since 1947; the total was principally accounted for by the condemnation of 53 tons of one cargo of potatoes comprising 230 tons from Greece. Individual items of unsound food dealt with were as follows:-

	<u>Tons:</u>	<u>cwts:</u>	<u>qtrs:</u>	<u>lbs:</u>
Grapes (Spain)... ..	-	2	3	0
Peaches (Turkey).. ..	5	9	0	0
Melons (Israel).. ..	-	3	0	0
Peaches (Italy).. ..	-	4	0	0
Tinned Fruit (Spain).. ..	-	14	3	8
Potatoes (Greece)	<u>53</u>	<u>18</u>	<u>1</u>	<u>0</u>
	60	11	3	8

2. Public Health (Imported Food) Regulations, 1937: Articles 11 and 12:

Oversea Meat and Meat Products:

No action was necessary during 1959.

3. Number of Samples of Food examined by:-

(a) Bacteriologist: 4

Dried Milk Powder: Satisfactory: (Consignment ultimately utilised for animal feeding purposes).

Tinned Apricots (sound): No bacterial growth.

Tinned Apricots (blown): No bacteria seen. Large numbers of yeast cells.

Tinned Peaches (sound): No bacterial growth.

(b) Analyst: 7.

Dried Milk Powder: Free from sulphite preservative. (As stated, consignment ultimately used for animal feeding purposes, imported food standards therefore rendered inapplicable).

Tinned Soup: Free from preservatives and toxic metals; can in satisfactory condition, free from corrosion and gas.

Tinned Lobster: Can satisfactory; contents free from toxic metals and preservatives.

Drained Cherries: Free from sulphite preservative, toxic metals and arsenic.

(Tinned Apricots: Samples free from toxic metals and arsenic. Fruit
(Tinned Peaches: in satisfactory condition and cans clean and free from corrosion.

Crystallised Fruit: Sample virtually free from sulphite preservative; free from arsenic and toxic metals.
