Divisional Health Office,
School Clinic,
Oxford Street,
BRIDLINGTON.

To the Chairman, Alderman and Councillors,
Urban District of Driffield

Mr. Chairman and Gentlemen,

I have the honour to submit the Annual Report on the Health Services of the Urban District for the Year 1956.

There were no adverse factors affecting the health of the District during the year.

I take this opportunity of thanking the Health Committee of the Council and my fellow officials for their ready assistance at all times.

Yours faithfully,

E.T. COLVILLE

Medical Officer of Health

Medical Officer,
General District,
General District,
General District.

To the General, American and Canadian,
General District of California

Mr. Chairman and Gentlemen,

I have the honor to acknowledge the receipt of the
report of the General District for the year 1938.

There were no serious incidents affecting the health of the
District during the year.

I take this opportunity of thanking the Health Committee of the
General and my fellow officials for their ready assistance at all times.

Yours faithfully,

E. T. CHAPMAN

Medical Officer of Health

STATISTICAL MEMORANDUM

Urban District	Driffield
Area in acres	2,420
Population : 1956 Registrar General	6,910
Rateable Value	£76,689
Sum represented by a penny rate	£293
Estimated number of inhabited houses	1956
Birth-rate	14.0
Death-rate	11.7
Infant mortality rate	30.9

STATISTICAL RESULTS

24,210	Urban Districts
2,450	Area in acres
6,910	Population : 1955 Register General
24,000	Female 1955
1200	Sex represented by a party vote
1000	Estimated number of inhabited houses
14.0	Birth-rate
11.7	Death-rate
10.0	Infant mortality rate

VITAL STATISTICS

(a) Live Births :

	<u>Male</u>	<u>Female</u>	<u>Total</u>
Legitimate	46	48	94
Illegitimate	2	1	<u>3</u>
			<u>97</u>

Birth-rate 14.0 per 1,000
Percentage of illegitimate births3.1

(b) Still-births :

There were 3 still-births (legitimate) during the year, equivalent to a rate of 0.43 per 1,000 population.

(c) Deaths :

The number of deaths registered during the year as belonging to the Urban District was 81. This is equal to a death-rate of 11.7 per 1,000. The comparability factor to correct the crude death-rate for age and sex distribution in the Urban District is calculated by the Registrar General at 0.78, this on multiplication with the actual rate gives a comparative death-rate of 9.1 per 1,000.

The causes of death are given in Table 1.

(d) Infant Mortality Rate :

There were 3 deaths in infants under 1 year of age (legitimate). The infantile mortality rate based upon the number of live births registered during the year, i.e., 97 is equivalent to a rate of 30.9 per 1,000 births.

(e) Maternal Mortality :

There were no deaths from maternal causes.

YEAR END SUMMARY

(a) 1934 Births

This Year's Total		1933 Total	
1,000	1,000	1,000	1,000
1,000	1,000	1,000	1,000
1,000	1,000	1,000	1,000

Births in 1934 were 1,000, or 100% of the 1,000 births in 1933.

(b) 1934 Deaths

There were 2 deaths in 1934 (1933 total 2 deaths) equivalent to a rate of 0.2% per 1,000 population.

(c) 1934 Marriages

The number of deaths registered during the year as belonging to the State District was 2. This is equal to a death rate of 0.2% per 1,000. The responsibility factor to correct the death rate for age and sex distribution in the State District is calculated by the Registrar General at 0.95, this on multiplication with the actual rate gives a comparative death rate of 0.19% per 1,000.

The causes of death are given in Table 1.

(d) Infant Mortality Rate

There were 1 death in 1934 under 1 year of age (1933 total 1 death). The infant mortality rate based upon the number of live births registered during the year, 1,000, is equivalent to a rate of 0.1% per 1,000 births.

(e) 1934 Fertility Rate

There were no deaths from gonorrhoea in 1934.

TABLE 1

Causes of Death in Drifffield U.D., 1956 (R.G.)

	<u>Males</u>	<u>Females</u>
All causes	43	38
Syphilitic disease	1	-
Cancer, stomach	2	-
Cancer, lung, bronchus	3	-
Cancer, breast	-	1
Cancer, other sites	3	4

Motor vehicle accidents	1	-
All other accidents	1	2

TABLE 11

1956 Provisional Statistics - England and Wales

Births

Live births	15.7 per 1,000 population
Still-births	23.0 per 1,000 total live and still-births

Deaths

Death-rate	11.7 per 1,000 population
Infant mortality	23.8 per 1,000 related live births

TABLE 1

Causes of death in Britain 1951-1955 (A.S.)

Rank	Number	Percentage	Causes of death
1	30	18.5	All causes
2	1	0.6	Septic diseases
3	1	0.6	Cancer, stomach
4	1	0.6	Cancer, lung, bronchus
5	1	0.6	Cancer, breast
6	1	0.6	Cancer, other sites
7	1	0.6	Heart disease
8	1	0.6	Stroke
9	1	0.6	Diabetes mellitus
10	1	0.6	Other diseases, specific
11	1	0.6	Respiratory and heart diseases
12	1	0.6	Other heart diseases
13	1	0.6	Other respiratory diseases
14	1	0.6	Leukaemia
15	1	0.6	Other diseases of respiratory system
16	1	0.6	Leukaemia, myeloid and chronic
17	1	0.6	Leukaemia and myeloid
18	1	0.6	Respiratory diseases
19	1	0.6	Constitutional diseases
20	1	0.6	Other diseases and ill-defined diseases
21	1	0.6	Other specific diseases
22	1	0.6	All other diseases

TABLE 2

1955: Mortality statistics - England and Wales

Rate	Rate
11.7 per 1,000 population	11.7 per 1,000 population
11.7 per 1,000 population	11.7 per 1,000 population
11.7 per 1,000 population	11.7 per 1,000 population

Prevalence of, and Control over, Infectious
and Other Diseases

The undermentioned infectious diseases were notified during the year :

Measles	23
Pneumonia	4
Scarlet Fever	3
Whooping Cough	32

There were no deaths from Measles or Whooping Cough

Diphtheria Immunisation

The number of children who completed the full course of immunisation in the Authority's area between 1st January and 31st December, 1956, is as follows :

<u>Under 5 years</u>	<u>5 - 14 years</u>
52	3

In addition 16 children received boosting doses.

The estimated number of children immunised at any time who were born between 1942 and 1956 is as follows :

<u>Under 5 years</u>	<u>5 - 14 years</u>
231	807

Tuberculosis 1956

The Register of Tuberculosis for the District for the year was as follows :

	<u>Pulmonary</u>		<u>Non- Pulmonary</u>		<u>Total</u>
	<u>Males</u>	<u>Females</u>	<u>Males</u>	<u>Females</u>	
Number of cases on the Register at 31st December, 1955	16	7	5	4	32
Added to the Register :					
(a) cases notified for the first time during year	-	1	-	-	1
(b) un-notified cases brought to notice otherwise than by formal notification	-	-	-	-	-
(c) inward transfers	1	1	-	-	2
Removed from the Register on account of death, change of address, etc.....	-	-	-	-	-
Number of cases on the Register at 31st December, 1956	17	9	5	4	35

Inventory of the National Archives
and Records Administration

The information on this page was obtained from the records of the National Archives and Records Administration.

Number of copies of the report
Number of copies of the report
Number of copies of the report
Number of copies of the report

There were no copies of this report or report series.

Inventory of the National Archives

The number of copies of this report and report series is indicated in the following table for the years 1941 and 1942.

Number of copies
Number of copies

In addition to the above mentioned reports.

The estimated number of copies remaining at the end of the year 1941 and 1942 is as follows:

Number of copies
Number of copies

Inventory of the National Archives

The number of copies of this report for the year 1941 is as follows:

General Provision of Health Services for the Area

Laboratory Facilities

Specimens for bacteriological and pathological examinations are sent to the Public Health Laboratory of the Medical Research Council at Hull or to the Pathological Laboratory at Beverley Hospital.

Maternity and Child Welfare

Weekly sessions are held at the East Riding County Council Clinic established at Victoria Road, Driffield.

Ante-Natal

Fortnightly sessions are held at the East Riding County Council Clinic established at Victoria Road, Driffield.

Maternity Services

Domiciliary births in the Urban District during the year totalled 22.

Nursing in the Home

2 District Nurse/Midwives are resident in the town.

Hospitals - Regional Hospital Board

All cases of infectious diseases are admitted to Cottingham Infectious Diseases Hospital when necessary.

Maternity cases are admitted to the special wings of the East Riding General Hospital, Driffield, and the Avenue Hospital, Bridlington.

Ambulance Service

This is maintained by the County Council, the whole of the East Riding being adequately covered.

General Practice of Public Health in the Army

General Practice

Specialist for bacteriological and pathological examinations
are sent to the Public Health Laboratory of the Medical Research Council
as well as to the Pathological Laboratory at University Hospital.

Public Health Laboratory

Public Health Laboratory and Public Health Laboratory Council
Office established at Victoria Road, Brighton.

Public Health

Public Health Laboratory and Public Health Laboratory Council
Office established at Victoria Road, Brighton.

Public Health

Public Health Laboratory in the Metropolitan during the year
ended 1911.

Public Health

A Public Health Laboratory is established in the town.

Public Health - Public Health Laboratory

All cases of infectious diseases are referred to the
Public Health Laboratory when necessary.

Public Health Laboratory are referred to the Public Health
Laboratory Council Hospital, Brighton, and the Public Health
Laboratory.

Public Health

This is related to the Public Health Laboratory, the Public Health
Laboratory being established.

Sanitary Circumstances of the Area

Water

Water is supplied to the District by the Driffield Water Company. In accordance with the instructions of the Ministry of Health, the water is chlorinated.

There are two bores, at the North End and Spellowgate Pumping Stations.

Bacteriological examination of the crude supply, at the bores, shows that the water is free from pollution and equivalent to Class 1 of the Ministry of Health Classification for piped water supply.

The results of samples of piped water supplies were as follows :

<u>Raw Water</u>			<u>Treated Water</u>		
<u>Bacter. Exam.</u>			<u>Bacter. Exam.</u>		
<u>No.</u>	<u>Satis.</u>	<u>Un-</u>	<u>No.</u>	<u>Satis.</u>	<u>Un-</u>
<u>Exam.</u>		<u>Satis.</u>	<u>Exam.</u>		<u>Satis.</u>
6	6	-	3	3	-

Private Supply Untreated

<u>No.</u>	<u>Satis.</u>	<u>Un-</u>
<u>Exam.</u>		<u>Satis.</u>
2	1	1

Sewage Disposal

Construction of a new sewage disposal works is in progress. Part of the district is being re-sewered to provide the two pipe system.

Closet Accommodation

During the year 29 earth closets have been converted to the water carriage system. At the end of the year 319 earth closets remain in use.

Refuse and Night Soil Collection

A weekly collection of household refuse is carried out; an efficient service has been maintained during the year. Night soil is disposed of on land at the sewage disposal works. Dry refuse is disposed of at the Wold Hill Tip where there is tipping space for at least five years.

Salvage

During the year the following amount of baled waste paper has been sold :

Tons	Cwts	Qrs	£.	s.	d.
15	8	0	107	2	0

Waste paper collected during the last six months of the year has been baled and placed in stock.

Section 1: Introduction

Date:

Water is essential to the health of the human body. It is necessary for the maintenance of the body's temperature and for the transport of nutrients. The water in the body is constantly being replaced.

There are two main sources of water for the body: the food we eat and the water we drink.

The body's water balance is maintained by the intake of water and the loss of water through sweating, breathing, and excretion. It is important to maintain a balance between these two processes.

The amount of water needed by the body varies depending on several factors, including age, sex, and activity level.

Section 2: Water Balance

Section 5: Water Balance

Consumption of water is essential for the maintenance of the body's temperature and for the transport of nutrients. The water in the body is constantly being replaced.

Section 6: Water Balance

During the year 2000, the total amount of water consumed in the United States was approximately 100 billion gallons. This amount is expected to increase in the future.

Section 7: Water Balance

A study conducted by the National Academy of Sciences found that the average person in the United States consumes approximately 2.5 liters of water per day. This amount is expected to increase in the future.

Section 8: Water Balance

During the year 2000, the total amount of water consumed in the United States was approximately 100 billion gallons. This amount is expected to increase in the future.

Year	Consumption (billion gallons)
2000	100
2001	105
2002	110

Rodent Control

Disinfestation is carried out in accordance with the methods recommended by the Ministry of Agriculture and Fisheries, Rodent Control Division. During the year the following premises have been disinfested :

<u>Business Premises</u>	<u>Private Dwellings</u>	<u>Council Premises</u>	<u>Public Sewers</u>
3	41	9	2

Sanitary Inspection of the Area

<u>Nature of Visits of Inspection</u>	<u>No. of Visits</u>
Rodent Control	151
Premises under Public Health Acts	71
Public conveniences	23
Conversions of pail closets	50

	<u>638</u>

Housing

Total number of houses in district	1,957
Number of new houses built during the year	
by Local Authority	-
Number of new houses built during the year	
by other owners	35
Number of houses dealt with under Section 11, Housing Act, 1936	-
Number of houses demolished during the year	1
Number of new houses in course of erection at end of year :	
(a) by Local Authority	-
(b) by Private Owners	9
Number of houses improved during the year under Housing Act, 1949	3
Number of houses in course of improvement under Housing Act, 1949, at end of year	-
Number of inspections carried out under Housing Acts	93
Number of houses in which defects were remedied during year	22

Inspection and Supervision of Food

- (a) Number of food premises in the area :
- | | |
|--|----|
| Meat Shops | 9 |
| Grocers and General Provisions | 10 |
| Mixed - Grocery, Confectionery | 15 |
| Confectionery (sweets, etc.)..... | 8 |
| Greengrocers | 8 |
| Cooked Meats and Meat Products | 1 |
| Bakers and Confectioners | 6 |
| Food Preparing Premises (Cafes and Hotels) | 6 |
| Fish Shops | 2 |
| Fried Fish Shops | 7 |
- (b) Number of food premises registered under Section 16, Food and Drugs Act, 1955 :
- | | |
|---|----|
| Ice Cream Premises registered for manufacture of Ice Cream | 1 |
| Ice Cream Premises registered for storage and sale of Ice Cream | 21 |
| Premises registered for preparation or manufacture of sausages, potted, pressed, pickled or preserved foods | 21 |
| Number of dairies registered under Milk and Dairies Regulations, 1949 - 1954 | 2 |
| Number of shops licensed for sale of milk | 8 |
- (c) Number of inspections of registered food premises 165
- (d) Educational Activity on Food Hygiene
- The occupiers of food premises have been supplied with a booklet containing a summary of the Food Hygiene Regulations, 1955, asked to read and take steps to comply with the requirements.
- (e) Method of disposal of condemned foods
- Carcases, organs and offal collected by persons authorised by the Council.
- Other foods, collected by cleansing staff and either burned or buried in the refuse tip.
- (f) The Ice Cream (Heat Treatment, etc.) Regulations, 1947 - 1952
- One manufacturer is registered. The plant complies with the requirements of the regulations.
- (g) Food Hygiene Regulations, 1955 - 1956
- As a result of interviews and information supplied occupiers of food premises are taking steps to comply with the regulations.

Ice Cream Samples

During the year 4 samples of ice cream were submitted for examination, the results showed that 2 samples were Provisional Grade I and 2 samples were Provisional Grade II.

Milk Samples

7 samples of milk were submitted for examination, 6 samples were found to be satisfactory and 1 sample failed to pass the test.

Inspection and Supervision of Food

Number of food premises in the area:

1	Food shops
