URBAN DISTRICT OF DRIFFIELD

ANNUAL REPORT

of the

MEDICAL OFFICER OF HEALTH

including

REPORT

of

PUBLIC HEALTH INSPECTOR

for the year 1965

10

UNITED STATES OF AMERICA

DEPARTMENT OF JUSTICE

OFFICE OF THE ATTORNEY GENERAL

REPORT OF THE ATTORNEY GENERAL

TO THE SENATE

AND HOUSE OF REPRESENTATIVES

IN

RESPONSE TO A RESOLUTION

PASSED BY THE SENATE

Health Office,
Oxford Street,
Bridlington.

August, 1966.

To the Chairman, Alderman and Councillors,
Urban District of Driffield.

Mr. Chairman, Lady and Gentlemen,

I have pleasure in presenting the Annual Report for 1965.

The Registrar General's figure for the population at mid year 1965 was 6,920, a rise of 20 compared with last year.

On births and deaths there were 125 births and 138 deaths during the year, compared with 126 births and 125 deaths last year. The Town's adjusted birth rate for the year of 18.78 compares favourably with the national birth rate of 18.0 per 1,000 population: likewise the Town's adjusted death rate of 10.97 also compares favourably with the national death rate of 11.5 per 1,000 population. The causes of death followed the usual pattern, namely diseases of the heart and circulatory system being the major cause and account for 51% of the total while cancer remained the second largest cause. Of the deaths due to cancer it is of interest to note that a third were due to cancer of the lung and bronchus.

There were two deaths of infants under one year of age.

For the second year in succession infectious diseases were few and call for no special comment.

The sanitary circumstances of the district again changed little during the year. 45 of the 46 samples of the Town's water supply administered by the East Yorkshire (Wolds Area) Water Board were satisfactory, the one unsatisfactory sample being satisfactory when repeated. Sewage continues to be treated at the Riverhead Sewage Works, and a further two pail closets were converted to the W.C. system.

On housing 47 new houses were built by private enterprise during the year, and a further 11 were in the course of construction. The total number of houses in the district rose to 2,321. Two areas, comprising 17 houses, remained represented under section 157 of the Housing Act, 1957.

One hundred per cent meat inspection continued to be carried out and again no meat from cattle or sheep was condemned because of Tuberculosis.

In presenting this report I would like to express my thanks to Mr. Marsh and the staff for their work and help during the year and also to the Chairman and Members of the Public Health Committee for their constant interest and support.

I am,

Yours faithfully,

J.H. MAUGHAN

Medical Officer of Health

Health Officer,
District of Columbia
Washington

August, 1952

To the President, Senators and Representatives,
United States of America.

Mr. Chairman, Lady and Gentlemen,

I have pleasure in presenting the Annual Report for 1952.

The National Center's figures for the population at mid year 1952 was 6,250, a rise of 10 compared with last year.

On birth and death there were 127 births and 128 deaths during the year, compared with 126 births and 125 deaths last year. The town's birth rate for the year of 18.75 compares favorably with the national birth rate of 18.0 per 1,000 population. Likewise the town's adjusted death rate of 10.25 also compares favorably with the national death rate of 11.7 per 1,000 population. The cause of death followed the usual pattern, namely diseases of the heart and circulatory system being the major cause and second for 21% of the total while cancer remained the second largest cause. Of the deaths due to cancer 11% of interest to note that a third were due to cancer of the lung and bronchus.

There were two deaths of infants under one year of age.

For the second year in succession infectious diseases were few and call for no special comment.

The sanitary conditions of the district again changed little during the year. Of the 16 houses of the town's water supply administered by the East Washington (White Area) Water Board were satisfactory, the one unsatisfactory being satisfactory when repeated. Sewage continues to be treated at the Hyattsville Sewage Works, and a further two full districts were converted to the W.C. system.

On January 17 one house was built by private enterprise during the year, and a further 11 were in the course of construction. The total number of houses in the district rose to 2,121. Two more, comprising 17 houses, remained tenanted under section 151 of the Housing Act, 1952.

The district for two years past inspection continued to be certified and as such no more of these was considered because of tuberculosis.

In presenting this report I would like to express my thanks to Mr. Marsh and his staff for their work and help during the year and also to the Chairman and members of the Public Health Committee for their constant interest and support.

I am,

Yours faithfully,

J. H. JOHNSON

Medical Officer of Health

GENERAL PROVISION OF HEALTH SERVICES FOR THE DISTRICT

HOSPITAL SERVICES

The Hospitals serving the District are as follows: -

East Riding General Hospital

This hospital is under the East Riding Group Hospital Management Committee and admits acute general and geriatric patients. Out-patient facilities include clinics for medicine, surgery, orthopaedic surgery, gynaecology, paediatrics, otolaryngology, chest diseases, ophthalmology, psychiatry, dermatology, radiotherapy and diabetic.

Northfield Hospital

Under the East Riding Group Hospital Management Committee this hospital admits patients suffering from chest diseases.

Castle Hill Hospital, Cottingham

All cases of infectious diseases in the District requiring hospital care are admitted to this hospital which is in the Hull "B" Group Hospital Management Committee.

Miniature Mass Radiography

The Miniature Mass Radiography Unit of the Leeds Regional Hospital Board visited the District in April and held public and private sessions. A total of 763 persons were examined.

NURSING HOMES

There are no private nursing homes in the District.

NATIONAL ASSISTANCE ACT, 1948

Part 111 Accommodation

Accommodation is provided by the County Council at the Limes and Wold House. These two homes together have beds for 109 elderly persons.

Section 47

No cases were dealt with under this section during the year

LOCAL HEALTH AUTHORITY SERVICES .. NATIONAL HEALTH SERVICE ACT, 1946

Infant Welfare Clinic

An infant welfare clinic is held at the Victoria Road Clinic each Tuesday afternoon from 2 p.m. to 4 p.m. A Health Visitor is in attendance at each session of this clinic to advise mothers on the care of babies and young children, and a doctor is also in attendance on the first Tuesday of each month.

Three Nurse/Midwives serve the District. Two reside above the Victoria Road Clinic, and one is living in private residence.

Health Visitors

Two Health Visitors carry on work on the District. Their office is at the Victoria Road Clinic, Driffield (telephone number 3158).

Home Nursing Service

This service is run in conjunction with Domiciliary Midwifery Service as detailed above.

Ambulance Service

The County Council's Ambulance Station is situated on the Victoria Road, Driffield (telephone number 3109).

Domestic Help

Home Help Service which is rendered in the District is administered from County Hall, Beverley, and all applications for this service are dealt with by the Home Help Organisation (telephone number Beverley 881281).

LOCAL EDUCATION AUTHORITY - SCHOOL HEALTH SERVICES

Routine medical inspections are carried out of all children attending Local Education Authority Schools in the District. In addition the following facilities are provided at the Victoria Road Clinic, Driffield:-

Ophthalmic clinic	As required
Speech therapy clinic	Once per week

OTHER LOCAL AUTHORITY SERVICES

Buckrose Health Divisional Co-ordinating Committee

Once every two or three months a Co-ordinating Committee, under the aegis of the County Council, meets in Bridlington to co-ordinate the work of officers in the District who are concerned with the welfare of the children. The primary objects of the Committee are the prevention of cruelty to children in their own homes and the prevention of break-up of families.

On the Committee are representatives of the County Children's Department, the County Health Department, the School Welfare Department, the County Welfare Department, the Housing Managers of the District Councils, the National Assistance Board, the National Society for the Prevention of Cruelty to Children, the Women's Voluntary Service, Probation Officers and a Marriage Guidance Counsellor. Representatives of other organisations are co-opted from time to time as the need arises. Your Medical Officer of Health in his capacity as Divisional Medical Officer takes the Chair of the Committee.

PUBLIC HEALTH LABORATORY SERVICE

Specimens for bacteriological examination are sent to the Public Health Laboratory of the Medical Research Council at Hull.

VOLUNTARY ORGANISATIONS

British Red Cross

The British Red Cross Society, acting as agents for the County Council, provide a service for the loan of nursing requisites which may be needed for temporary periods for sick persons being nursed in their own homes. In the Urban District the Depot for these requisites is :-

Mrs. Buxton, 44 St. John's Road, Driffield.

Family Planning Association

The Family Planning Association hold a clinic on the second Thursday in each month from 7 p.m. to 8 p.m. at the Driffield Clinic, Victoria Road, Driffield.

How Britain Serves

This booklet is now in circulation with the Ministry of Health in an enlarged edition.

Cervical Cytology

Towards the end of the year fortnightly cervical cytology sessions were commenced at the Oxford Street Clinic, Bridlington by the County Council and have served the northern part of the County, including Drifffield.

National Society for the Prevention of Cruelty to Children

The Drifffield Urban District lies within the North East Yorkshire Branch of the National Society for the Prevention of Cruelty to Children and cases requiring the services of the Society are visited by Inspector White working from Scarborough. Inspector White's work is much appreciated by those of us in the area concerned with child welfare.

Through the end of the year 1904, the Central Division was organized as the Central Division, with the Central Division and have served the same purpose of the County, including the Central Division.

Central Division for the purpose of the Central Division

The Central Division for the purpose of the Central Division is organized as the Central Division for the purpose of the Central Division and have served the same purpose of the County, including the Central Division.

Sanitary Circumstances of the Area

Water

The town's water is supplied by the East Yorkshire (Wolds Area) Water Board. Water is extracted from two boreholes, one in Spellowgate, one at North Street, Driffield.

The results of samples of the town's water sent for bacteriological examination were as follows:-

Number examined	Number Satisfactory	Number Unsatisfactory
46	45	1

Sewage Disposal

The town's sewage is treated at the River Head Sewage Works, the effluent being discharged into the Canal.

Conversion of Pail Closets

During the year two pail closets have been converted to the water carriage system. At the end of the year 58 pail closets remained in use.

Refuse Collection

A weekly collection of household and trade refuse has been maintained during the year. Refuse is disposed of in the Foston tip where controlled tipping is carried out.

Salvage

The receipts from the sale of waste paper and scrap metal sold during the year was £35. 0. 3d.

Rodent Control

Disinfestation is carried out in accordance with the methods recommended by the Ministry of Agriculture, Fisheries and Food, Rodent Control Division.

During the year, the following premises have been disinfested:-

<u>Business Premises</u>	<u>Private Dwellings</u>	<u>Council Premises</u>	<u>Public Sewers</u>
17	24	5	1

Number of Block treatments:- 5

Swimming Pool .. Driffield County Secondary Modern School

Ten samples of swimming Pool water entering and leaving the pool were taken for bacteriological examination. All the samples were stated to be satisfactory.

Sanitary Conditions of the Area

Water

The town's water is supplied by the East Tennessee (Holston) Water Board. Water is extracted from two pipelines, one in Spillington and one in West Branch, Kentucky.

The condition of the town's water plant for bacteriological examination was as follows:-

Water examined: Sample Date: January Number Analyzed: 1

Garbage Disposal

The town's sewage is treated at the River View Sewage Works, the effluent being discharged into the river.

Conversion of Well Closures

During the year two well closures have been converted to the water supply system. At the end of the year 22 well closures remained in use.

Refuse Collection

A weekly collection of household and yards refuse has been maintained during the year. Refuse is disposed of in the Town tip where controlled tipping is practiced.

Salvage

The proceeds from the sale of waste paper and scrap metal sold during the year was £12.0.3d.

Public Health

Inspection of the town's water supply and its connection with the mains is recommended by the Ministry of Health, and the Public Health Department.

During the year, the following positions have been maintained:-

<u>Positions</u>	<u>Private</u>	<u>Public</u>	<u>Private</u>	<u>Public</u>
1	2	3	4	5

Number of Public Health:- 2

Public Health - Public Health Officer: Robert Brown

The number of drinking food water, including and leaving the pool was found for bacteriological examination. All the water was tested to be satisfactory.

Sanitary Inspection of the Area

<u>Nature of visits of inspection</u>	<u>No. of Visits</u>
Under Public Health Acts	187
Re Rodent Control	190
Drains and sewers	133
Slaughterhouses	9
Factory Premises	41
Petroleum Regulations	5
Public Conveniences	42
Offices, Shops and Railway Premises Act, 1963	64
Caravans	4
Conversion of pail closets	31

Housing

Total number of houses in the district	2321
Number of new houses built during the year by the Local Authority	-
Number of houses built during the year by other owners	47
Number of houses dealt with under Sections 9 and 10 of the Housing Act, 1957	-
Number of houses in course of erection at the end of the year:-	
(a) By the Authority	-
(b) By private owners	11
Number of houses improved during the year under the Housing Acts	
(a) By Standard Grants	21
(b) By Discretionary Grants	-
Number of inspections carried out during the year under the Housing Acts	63

Food Premises

(a)	<u>Number</u>	<u>Number fitted to comply with Reg. 16 re: Washbasins etc.</u>	<u>Number to which Reg. 19 applies - facilities for washing food and equipment</u>	<u>Number of Premises fitted to comply with Reg. 19</u>
Meat Shops	8	8	8	8
Grocery and General Provisions	10	7	10	10
Mixed Grocery and Confectionery	15	5	-	-

Cooked Meat Products	2	2	2	2
Bakers and Confectioners	5	5	5	5
Food Preparing Premises	7	3	7	7
Fish Shops	2	2	2	2
Fried Fish Shops	7	2	7	7

(b) The number of food premises registered under Section 16, Food and Drugs Act, 1955.

Premises registered for the manufacture of ice cream	1
Premises registered for the storage of ice cream	38
Premises registered for the preparation or manufacture of sausages, potted, pressed, pickled or preserved foods	25

(c) Number of inspections of food premises

89

(d) Method of disposal of condemned foods:-

Carcases, organs and offal are collected by persons authorised by the Council. Other foods are collected by the Cleansing Staff and buried on the refuse tip or returned to the manufacturer.

(e) The Ice Cream (Heat Treatment) Regulations 1947 - 1952

One manufacturer is registered, the plant complies with the requirements of the regulations.

Six samples of ice cream were submitted for bacteriological examination and were classified Grade 1.

(f) The following articles were found to be unfit for human consumption and were destroyed:-

	No.	Lbs.
Tins of meat	487	1355
Tins of fruit	697	1407
Tins of vegetables and soups	1103	980
Tins of milk	112	101
Tins of rice and sago	42	44
Tins of fish	97	61

Number of inspections of food premises

(c)

Method of disposal of condemned foodstuffs

(d)

Licenses, permits and other documents collected by persons authorized by the Council. Other foodstuffs are collected by the Council staff and stored in the various shops or returned to the manufacturer.

The two groups (Heat Treatment) Regulations 1947 - 1952

(e)

The regulations are contained in the plant section with the regulations of the regulations.

The samples of the food were submitted for bacteriological examination and were classified Grade 1.

The following articles were found to be unfit for human consumption and were destroyed:-

(f)

No.	lbs.	
157	155	Time of meat
607	150	Time of fruit
1103	200	Time of vegetables and soups
112	101	Time of milk
12	15	Time of rice and cereals
17	61	Time of fish

Carcases and Offal Inspected in whole or part
