Deputy Engineer & Surveyor.

J.D.HOPGOOD, M.R.S.H., Additional Public Health Inspector
and Technical Assistant.

ANNUAL REPORT FOR THE YEAR 1960.

Rural District Council Offices,
Ombersley Street,
Droitwich.

Telephone: Droitwich 2288.

October, 1961.

TO THE CHAIRMAN AND MEMBERS OF THE
PUBLIC HEALTH COMMITTEE.

Mr. Chairman, Ladies and Gentlemen,

I have the honour to present my Annual Report on the health of the Rural District for the year ended 31st. December, 1960.

There have been few changes, and most of the Vital Statistics show little variation from those for England and Wales. There were very few notifiable cases of infectious disease with the exception of Sonne Dysentery (15) most of which occurred in the parish of Ombersley. Also in this Parish there occurred forty-seven cases of Infective Hepatitis in the 15 months from November 59 - to February 61. Although at first sight this outbreak appeared to be centred around the two Primary schools in the area, in fact only 26 cases (55%) occurred in this age group and a considerable amount of infection must have taken place in the home. There is reason to believe that the virus is spread by faulty toilet habits in a similar manner to dysentery and for that reason alone I would recommend that wherever possible houses should be connected to the sewer. Thirty of the forty-seven houses visited were not so connected, although a number had septic tanks. Strangely enough no cases were reported among Caravan dwellers, despite a poor standard of hygiene on many of the sites.

The Caravan Sites and Control of Development Act 1960, which came into force on the 1st August, immediately involved the Public Health Inspectors in a considerable amount of work. A survey was carried out the results of which are published on page 14 of the Report. I have also added Table 4, which has been compiled from information supplied to me by the County Public Health Inspector. This shows that Droitwich Rural District has a very high percentage of permanent residential caravans and almost as many caravans as any other district in Worcestershire.

Holiday Caravans are important for they can easily spoil the countryside, unless adequately controlled, but residential caravans require more careful consideration for as homes they vitally affect the lives of the occupants.

The Survey revealed the following points which should not be lost sight of -

- (1) Well over half (312) of the vans were in the parish of Ombersley.
- (2) There were a considerable number of unauthorised sites and caravans (150) with unsatisfactory site conditions.
- (3) There were far too many isolated dwellings (100) with unsatisfactory site conditions.

Planning consents or refusals have now been issued in the majority of cases, but I am fairly certain the position has not materially altered. Refusals must be enforced and discussions must take place with Site owners concerning the standards which are to be applied to their sites if they have been given approval. This must involve a system of regular inspection and reporting to Committee. I also feel that a large number of important questions remain unanswered, viz -

(1) Where are the Caravans going from sites which have been issued with refusal notices?

(2) Should the Policy of the Council be to restrict the number of residential caravans (particularly in the Parish of Ombersley)?

(3) Should houses be built for Caravan dwellers? or

(4) Should the Council establish their own Caravan site?

These problems must be solved for directly, or indirectly, they affect the health of a considerable number of the inhabitants of the district. Also the excellent progress already made must not be lost due to a failure to keep the situation under review.

May I congratulate the Public Health Inspectors on the way they tackled this Survey. I fully appreciate the difficult problems which now face them.

I remain, Mr. Chairman,

Your obedient servant,

L. SPENCER STEPHENS.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area in acres				51,453
Number of inhabited houses (31st. March, 1960) according to Rate Books				4,273
Rateable Value (31st. March, 1960)				£181,950
Sum represented by one penny rate (31st. March 1960).. ..				£730
Registrar General's estimate of resident population.. ..				13,940
			(Census 1961	14,076)
Live Births	Males	Females	Total.

Maternal Mortality rate per 1,000 live and still-births				Nil

SECTION B.

GENERAL PROVISIONS OF HEALTH

SERVICES FOR THE AREA.

(a) Ambulance Service

This service is provided by the County Council. Ambulance stations which serve the Droitwich Rural District are situated at Worcester, Kidderminster, Bromsgrove and Redditch. The list below shows the parishes covered by each ambulance station for non-emergency cases. In all cases of emergency the ambulance should be summoned in the usual way - that is, by asking the telephone operator for "Ambulance" or by dialling "999".

Bromsgrove Ambulance Station.

Upton Warren

Northern part of Parish of
Dodderhill.

Kidderminster Ambulance Station

Hartlebury

Redditch Ambulance Station.

Stock & Bradley.

Worcester Ambulance Station.

Elmley Lovett
Elmbridge
Hampton Lovett
Doverdale
North Claines
Crowle
Hadzor

Hanbury
Himbleton
Hindlip
Huddington
Martin Hussingtree
Oddingley
Ombersley

Salwarpe
Tibberton
Warndon
Westwood

Patients suffering from infectious diseases are conveyed to hospitals in special ambulances which are stationed at the isolation hospitals. The hospital car service, manned in most cases by volunteers is used to supplement the Ambulance Service.

(b) Hospitals.

The district is served by general hospitals situated in Worcester, Bromsgrove, Kidderminster, and Birmingham.

The isolation hospital, which serves the area is situated at Newtown, Worcester.

Maternity hospitals which serve the district are situated at Stourport, Bromsgrove and Worcester.

Sanatoria for the treatment of cases of Tuberculosis are situated at Malvern, Knightwick and Worcester.

(c) Home Nursing & Health Visiting.

This service is provided by the County Council, and in most instances in the Rural District this work is done by the District Nurse/Midwife, who is also the Health Visitor. The following nurses are working in the Rural District.

Nurse Nash, Nurse's Cottage, Fernhill Heath, -
Telephone No. Fernhill Heath 304.

Nurse Coles, The Bungalow, Courts Close, Hanbury.
Telephone No. Hanbury 209.

Nurse Cracklow, Old Turnpike Road, Crowle.
Telephone Upton Snodsbury 259.

Nurse Adler, Rose Cottage, Cutnall Green.
Telephone No. Cutnall Green 233.

Nurse C.R.Mills, 14, Appletree Walk, Ombersley.
Telephone No. Ombersley 341.

Nurse Dudley, 27, Waresley Court Road, Hartlebury.
Telephone No. Hartlebury 200.

(d) Care of Expectant and Nursing Mothers and Young Children.

The district is served by the following Clinics:-

Ante-Natal Clinics.

Cases near Droitwich are now expected to attend their own Doctor for ante-natal Care.

Recreation Road, Bromsgrove. Open every Monday at 2.0 p.m.

Lucy Baldwin Maternity Hospital, Stourport. Open every Tuesday at 1.30 p.m.

Coventry Street, Kidderminster. Open every Monday at 2.0 p.m.

Infant Welfare Clinics.

Baptist Church Hall, Droitwich. Open every Tuesday at 2.0 p.m.

Memorial Hall, Ombersley. Open on 1st and 3rd Fridays in the month at 2.30 p.m.

Lucy Baldwin Maternity Hospital, Stourport. Open on 1st and 3rd. Fridays in the month at 2.0 p.m.

Parish Hall, Hanbury. Open on 3rd Thursday in the month at 2.0 p.m.

Village Hall, Crowle. Open on 4th Wednesday in the month at 2.30 p.m.

The Memorial Hall, Fernhill Heath. Open on 2nd and 4th Fridays in the month at 2.0 p.m.

Village Hall, Wychbold. Open on 2nd and 4th Mondays in the month at 2.30 p.m.

Parish Hall, Hartlebury. Open on 1st and 3rd. Wednesday in the month at 2.30 p.m.

(e) Vaccination and Immunisation.

Vaccination against smallpox and immunisation against diphtheria and whooping cough is carried out free of charge at any of the County Council's Clinics or by the patient's own doctor.

During 1960 the following inoculations were completed:-

Diphtheria Immunisation (including Whooping Cough)

Number of children who received the full course of immunisation during the year - 203 (200)

Number of children who received reinforcing doses during the year - 123 (113)

Immunity Index

Number of children on 31st. December, 1960 who have completed a course of Diphtheria immunisation between 1st. January 1946 and 31st. December 1960.

Age on 31/12/60.	Under 1 year.	1 - 4 1956 -1959	5 - 9 1951- 1955	10 - 14 1946 - 1950	Under 15 TOTAL
A. Number of Children whose last course (primary or booster) was completed in the period 1955 - 1959	56	614	710	98	1478
B. Number of children whose last course (primary or booster) was completed in the period 1954 or earlier		477	1117		1594
C. Estimated mid-year child population	3292				
Immunity Index 100 A/C		100 x $\frac{1478}{3292}$		=	45%

Vaccination against Smallpox

Number of persons who received a primary vaccination during the year - 220 (161)

Number of persons who were re-vaccinated during the year 3 (11)

X Figures in brackets relate to previous year.

(f) Public Health Laboratory Service.

The Public Health Laboratory Service situated at Worcester Royal Infirmary is under the general direction of Lieut. Col. R. J. Henderson. Specimens for any type of bacteriological or virological examination are accepted. Samples of Water and sewage are however normally submitted to the County Analyst for chemical examination as well.

(g) Care of the Aged.

The Supervision of aged persons living alone, in need, is the responsibility of the County Welfare Officer who is able to provide Residential Accomodation. On occasions it is necessary for the Council to use their special powers under Section 47 of the National Assistance Act 1948, to ensure admission. This was not necessary during 1960.

SECTION C.

Sanitary Circumstances of the Area.

1. Water Supply.

The East Worcestershire (Droitwich Rural) Water Order 1960, came into operation on 1st. April. This transferred the water undertaking to the East Worcestershire Waterworks Co., with the exception of the parish of Hartlebury which is to be included in the proposed North West Worcestershire Joint Water Board's area.

The Company's Chief Engineer has supplied me with the following report on the progress of the Southern Parishes Scheme. The scheme was commenced in June 1960 and completed (apart from final re-instatement) in April 1961.

Parishes Supplied.

Himbleton	Tibberton
Hadzor	Oddingley
Crowle	Hindlip (in part)
Huddington.	

Lengths of Main Laid.

3,668 yards of 6" Asbestos Cement Main.
14,937 " " 4" " " "
9,938 " " 3" " " "

Number of Connections (to 30th June 1961)

Metered 33	Domestic 142.
------------	---------------

The construction of the new Water Tower at Yew Tree Hill, Droitwich, is almost completed. The water tower, which is constructed of re-inforced concrete is approximately 100 ft. high and will have a capacity of 150,000 gallons. This constitutes about one days supply for the anticipated demand in the Southern Parishes and North Claines areas which are the particular zones to be connected to the tower supply.

The water will be pumped by means of duplicate electrically driven submersible pumps from the adjacent Yew Tree Hill Reservoir into the tower. The rate of pumping will be automatically controlled by float units located in the tower. The top water level is 351 O.D., and the depth of water when full is 15 ft.

The water supplied by the East Worcestershire Waterworks Co., is drawn from four bore holes close to the Lickey Hills. Bacteriological Samples are taken weekly and the results for 21st. November, 1960 are submitted below -

Water as Delivered into Service

Sample	Number of colonies developing on Agar:		Presumptive coli-aerogenes Count per 100 ml.	Faecal coli-Count per 100 ml.
	In 2 days per one ml.	In 3 days		
Wildmoor - "No.1 Borehole Pump	Nil	2	Nil	Nil
Washingtlocks - "Harward"	Nil	1	Nil	Nil
Brockhill No.1 and "No.2 Borehole Pump"	Nil	10	Nil	Nil
Burcot "Earl of Plymouth"	1	Nil	Nil	Nil

Bacteriologically the above samples are satisfactory.

2. Sewerage & Sewage Disposal.

Little progress was made in this field during 1960.

A small scheme for the extension of sewers to the villages of Uphampton and Oldfield in the parish of Ombersley was completed.

The provision of a scheme for Station Road and Moors Avenue in the parish of Hartlebury is held up while negotiations take place with Kidderminster Rural District concerning the reception of Sewage.

A scheme has been prepared for the village of Tibberton, but it is held up while consideration is being given to suitable access to the new site for the works.

The site for the proposed Hanbury Sewage Works has also had to be re-sited due to difficulties from flooding and this has been delayed due to the necessity to divert a Public footpath. A Ministerial Enquiry has just been held on this scheme and the outcome is awaited, but the issue is clouded by the doubt as to whether Hanbury Parish will be released from Green Belt restrictions or not. Whether new development is to be allowed there or not, it is essential that the drainage problems in the central village area be remedied.

3. Public Health Inspections

The following routine inspections were carried out by the Public Health Inspectors during the year.

<u>Housing Act 1957.</u>	
Section 9 (Repairs)	26
Section 16 (Unfit Premises)	36
Section 42 (Clearance Areas)	Nil
Section 76 (Overcrowding)	2
	<hr/>
	64
<u>Public Health Acts 1936</u>

<u>Drainage Problems (Sewage & Water.)</u>	
Obstructions	14
Cesspools and Septic Tanks	11
Ditches	17
Drainage Tests	37
Inspection of Wells & Water Samples	15
	<hr/>
	94
<u>Food & Drugs Act 1955.</u>	
Slaughter House	145
Other Food Premises	17
Bakehouses	1
Shops	-
Cafes	7
Daires	2
Vans	3
	<hr/>
	175
Other Public Health Inspections	21
	<hr/>
TOTAL.	443

(4) Refuse Collection and Disposal.

There has been some improvement in this service during the last twelve months. A weekly collection service is operated in the larger villages and a fortnightly service in the more outlying parts of the district. A central Refuse Tip at Westwood Coppice is still used for the disposal of most of the refuse, but a smaller one has also been used at Hadley.

Consideration was given to the possibility of changing over to the Paper Sack system of refuse collection, but it was decided that it would not be an economic proposition.

(5) Rodent Control.

One Rodent Operator is employed full time on this work. A report on his work during the year ended 31st. December, 1960, follows -

Public Health Inspectors

The following routine inspections were carried out by the Public Health Inspectors during the year.

Category	Number

Other offences against the Act (not including offences relating to Outwork)	12					
TOTAL		2	2	-	-	-

SECTION D.

Housing.

- (a) Number of new dwellings completed by the Council during 1960. - NIL.
 (b) Number of Private dwellings completed in the district during 1960 - 47.
 (c) Number of new dwellings under construction by the Council at 31st. December, 1960 - 12.

N.B. Twelve houses are under construction at Cutnall Green and plans are being prepared for Old Peoples Flats at Ombersley, Wychbold and Fernhill Heath. Eight houses and four bungalows will soon be under construction at Himbleton and two at Salwarpe. Sixteen houses are also being built for sale by the Council at Ombersley.

- (d) Improvement Grants:- to 31st. December, 1960.

Discretionary Grants

Applications pending from last year	1	(3)
Applications received	53	(48)
Applications Approved	47	(47)
No. of dwellings involved	58	(54)
Applications withdrawn or refused	6	(3)

Standard Grants

Applications received and approved	2	(4)
Maximum Grants payable	£310	

X Figures in brackets are for the previous year.

Slum Clearance.

The Council's Slum Clearance programme has virtually been completed in the following parishes:-
 Crowle, Dodderhill (except Causeway Meadows) Doverdale, Elmbridge, Elmley Lovett, Hampton Lovett, Hindlip, Huddington, Martin Hussingtree, Oddingley, Ombersley, Stock and Bradley, Tibberton, Upton Warren and Warndon.

Work remains to be done in the parishes of Hanbury, Hartlebury, Himbleton, North Claines and Salwarpe.

It was estimated in 1956 that 197 houses were classified as unfit, of which 126 needed to be replaced. The following table shows that substantial progress has been made towards this end. It is obvious that a number of scattered dwellings will have become substandard since that date, and further proposals will have to be submitted to the Minister on completion of the present programme.

The only difficulty encountered is the reluctance of owners to demolish empty properties and this is eventually being done in default by the Surveyor.

Slum Clearance Position at 31st. Dec. 1960.

S E C T I O N E.

Inspection & Supervision of Food.

Meat Inspection.

There is only one licenced slaughter house in the District. Subject to minor alterations these premises have been recommended for approval in the Report submitted to the Minister under the Slaughter Houses Act, 1958. The amount of meat inspected during 1960 is shown below -

Carcases Inspected and Condemned.

	Cattle including cows	Calves	Sheep and Lambs	Pigs.
Number killed (if known)	89	19	768	217
Number inspected	89	19	768	217
All diseases except Tuberculosis. Whole carcasses condemned	NIL	NIL	NIL	NIL
Carcases of which some part or organ was condemned	4	NIL	5	1
Percentage of the number inspected affected with disease other than Tuberculosis	4.5%	NIL	0.6%	0.4%
<u>Tuberculosis only</u> Whole carcasses condemned	NIL	NIL	NIL	NIL
Carcases of which some part or organ was condemned	NIL	NIL	NIL	NIL
Percentage of the number inspected affected with Tuberculosis	NIL	NIL	NIL	NIL
Cysticercosis	NIL	NIL	NIL	NIL

Milk and Ice Cream Premises

There are three Pasteurisation Plants in the District. These are inspected by the County Council. Retailers licences were issued by this Authority as shown below -

		<u>1960.</u>
Number of Retailers	-	22
<u>Designation</u>	Pasteurised	14
	Sterilised	7
	Tuberculin Tested Pasteurised	3
	Tuberculin Tested Raw Milk	15.

Forty-two premises were registered for the sale of Ice-Cream under Section 16 of the Food and Drugs Act, 1955. All premises sell the pre-packed product only.

Other Food Premises. Periodic inspection of shops, cafes, hotels & bakehouses have been carried out as regularly as possible.

SECTION F.

Incidence of Infectious Disease.

The following two tables show the incidence of Infectious disease in relation to Age and distribution in the parishes of the Rural District.

The Incidence of Cases of Notifiable Disease during 1960.

Age Groups	Under one year													Total.
	1	2	3	4	5	10	15	20	35	45	65			
1. Scarletina	-	-	1	-	-	2	-	-	-	-	-	-	-	3
