PUBLIC HEALTH DEPARTMENT  
CHANCERY LANE  
RETFORD

*January 1973*

TO THE CHAIRMAN AND MEMBERS OF THE  
EAST RETFORD RURAL DISTRICT COUNCIL:

Mr Chairman, Ladies and Gentlemen,

In 1971 the population of the Rural District is given as 23,700 which is 170 more than last year.

The number of live births increased by 58 to 377.

The natural increase of births over deaths is 126 compared with 89 in 1970.

The number of deaths in 1971 is 251 which is 21 more than last year. The death rate is below the average for England and Wales.

The number of deaths from cancer of the lung and bronchus was 11, which is less than in 1970.

There were fewer cases of notifiable infectious disease.

The number of cases of measles was 69 in contrast to 105 in 1970, which was the epidemic year for measles. There is a good routine response for vaccination against measles following other routine immunisation procedures. I hope we shall see the benefit of this in future years

### **Sewerage and Sewage Disposal Facilities**

Mr Roberts has kindly given me this report concerning progress in the sewerage and sewage disposal facilities during the year 1971.

At the beginning of the year work was in progress on the provision of mains drainage facilities for the villages of Gringley-on-the-Hill and Clayworth. The contract which had been awarded in July to Lindum Construction Co Ltd envisaged the construction of a sewage disposal works at Middlebridge Road, Gringley-on-the-Hill and the provision of three sewage pumping stations in Clayworth and one at Mill Hill, Gringley-on-the-Hill together with the installation of the necessary gravity sewers and pumping mains for the effective sewerage of these two villages; the total cost of the contract amounted to £221123.00 and work on this contract had commenced on 1st October 1970. During the year good progress was made by the contractors and it is pleasing to report that by the end of the year the sewage disposal works whilst not entirely completed, was in operation and in fact some 40 properties in Gringley-on-the-Hill had been connected to the new sewers.

At East Markham sewage disposal works – work had commenced in December 1970 on a contract valued at £10331.00 for the modification of the existing works so as to cater for additional flows; the work on this contract progressed slowly and it was not until October 1971 that the modifications were completed.

In January tenders were received for the provision of mains drainage facilities in the villages of Misson and Scrooby. At Misson the scheme envisaged the construction of a sewage disposal works and a sewage pumping station together with gravity sewers and pumping mains; at

Scrooby it was proposed to provide gravity sewers and a pumping station and pumping mains to discharge sewage to the existing Mattersey Thorpe disposal works, which was to be enlarged and modernised to accept the additional flow not only from Scrooby but also from the villages of Mattersey and Everton which already discharge their sewage to the works. The contract for this work was awarded to Broadmore Contractors Ltd, the value of the contract being £229281.00, and work on the contract was commenced on 1 September. Once the work had commenced very good progress was made and at the end of the year between 15% and 20% of the work had been completed. Sewer laying was being carried out in both villages and constructional work was proceeding at a good pace on the sewage treatment works at Misson.

Towards the end of the year work was commenced on the extension of the Sturton-le-Steeple sewerage system to serve the 11 properties on Wheatley Road; the contractors for this work were Welbourne Construction Ltd, and the value of the contract was £11842.00. Ground conditions at the commencement of the work were poor and as a result little progress was achieved before the end of the year.

In accordance with the programme adopted by the Public Health and Planning Committee for providing sewerage facilities in the remaining populated areas of the Rural District preparation work was commenced during the year for provision of mains drainage facilities in the village of West Stockwith and the Canal Lane area of Misterton together with the enlargement and upgrading of the existing partial treatment works at Walkeringham. Preliminary reports were also prepared on the feasibility of a comprehensive scheme to provide sewerage and sewage disposal facilities for the parishes of Grove, Hayton, Askham, Eaton, Gamston, West Drayton and West Markham; it was evident following the presentation of the initial report to the Committee that this scheme would be the most expensive that the Council had ever embarked upon. It was however considered essential that these villages should be provided with the appropriate facilities and more detailed reports were being prepared at the end of the year. Good progress was made during the year on the preparation of the Bothamsall Sewerage Scheme which entailed the provision of gravity sewers in this village together with one sewage pumping station and pumping mains which would discharge sewage to the existing Elkesley sewage disposal works, and it was anticipated that the Council would be able to invite tenders for this work in the early part of 1972

---

In conclusion I wish to thank you for your support during the year, and for the help and co-operation of Dr Redfern, and the Rural District Officers and Staff.

I am,

Your obedient servant,

G. TATTERSALL

*Medical Officer of Health*

## SOCIAL CONDITIONS AND VITAL STATISTICS OF THE AREA

|                                                                 |               |

## PREVALENCE & CONTROL OF INFECTIOUS DISEASES

The following diseases are notifiable to the Medical Officer of Health:

|                             |                       |
|-----------------------------|-----------------------|
| Acute Encephalitis          | Ophthalmia Neonatorum |
| Acute Meningitis            | Paratyphoid Fever     |
| Acute Poliomyelitis         | Plague                |
| Anthrax                     | Relapsing Fever       |
| Cholera                     | Scarlet Fever         |
| Diphtheria                  | Smallpox              |
| Food Poisoning or suspected | Tetanus               |
| Food Poisoning              | Tuberculosis          |
| Infective Jaundice          | Typhoid Fever         |
| Leprosy                     | Typhus                |
| Leptospirosis               | Whooping Cough        |
| Malaria                     | Yellow Fever          |
| Measles                     |                       |

The number of infectious diseases (excluding Tuberculosis) notified during 1971 was 107. Details of these are as follows:

| <i>Diseases</i>      | <i>No. of Cases</i> |
|----------------------|---------------------|
| Dysentery            | 11                  |
| Infective Jaundice   | 5                   |
| Measles              | 69                  |
| Salmonella Infection | 4                   |
| Scarlet Fever        | 7                   |
| Whooping Cough       | 11                  |

Tables showing various details about notifiable infectious diseases during 1971 are given on pages 9 and 10.

### Tuberculosis

There were 3 cases of Tuberculosis notified during the year, all of which were primary notifications, i.e. related to persons who had not previously been notified in the area of any authority.

A table giving details of new cases and deaths from Tuberculosis is given on page 11.

**Infectious Diseases (Excluding Tuberculosis) Notified Month by Month — 1971**

| DISEASES                          | Total      | Jan.     | Feb.     | Mar.     | Apr.     | May      | June      | July      | Aug.      | Sept.     | Oct.     | Nov.     | Dec.     |

## TUBERCULOSIS

### New Cases and Deaths — 1961–70 inclusive

|           | 1970 | 1969 | 1968 | 1967 | 1966 | 1965 | 1964 | 1963 | 1962 | 1961 |
|-----------|------|------|------|------|------|------|------|------|------|------|
| New cases | 3    | 4    | 9    | 5    | 4    | 2    | 8    | 7    | 7    | 8    |
| Deaths    | 0    | 0    | 0    | 0    | 0    | 0    | 3    | 1    | 1    | 1    |

### NEW CASES

| 1971 | Annual Average over previous ten years |
|------|----------------------------------------|
| 3    | 5.7                                    |

### DEATHS

| 1971 | Annual Average over previous ten years |
|------|----------------------------------------|
| 0    | 0.6                                    |

## Laboratory Facilities

Bacteriological examinations were carried out at the Public Health Laboratories at Lincoln and Sheffield. 60 medical specimens and 46 water samples were submitted for examination.

## Vaccination and Immunisation

This is a personal Health Service and is the responsibility of the County Council. This work is organised by the District Medical Officer of Health for the County Council. Protective injections are given against Smallpox, Diphtheria, Whooping Cough, Tetanus, Poliomyelitis, Measles and Rubella.

*P.P.*—Private Medical Practitioner

## Protection against Tuberculosis

A scheme for the protection of adolescents against Tuberculosis has been in progress since 1957.

The scheme involves the skin testing and B.C.G. Vaccination of all children of secondary school age, and of students.

The work is organised by the District Medical Officer of Health as agent for the County Council.

The figures for 1971 are given below:

|                                                 |    |    |    |       |
|-------------------------------------------------|----|----|----|-------|
| No. of children offered vaccination             | .. | .. | .. | 199   |
| No. of children whose parents accepted          | .. | .. | .. | 173   |
| Rate of acceptance                              | .. | .. | .. | 86.88 |
| No. of children skin-tested                     | .. | .. | .. | 161   |
| No. found to be positive and referred for X-ray | .. | .. | .. | 20    |
| No. found to be negative                        | .. | .. | .. | 134   |
| No. of children vaccinated                      | .. | .. | .. | 131   |
| No. re-tested after previous vaccination        | .. | .. | .. | —     |
| No. re-vaccinated                               | .. | .. | .. | —     |

## SERVICES PROVIDED BY OTHER AUTHORITIES

### NATIONAL HEALTH SERVICE

#### [a] Hospital and Specialist Services [Part II National Health Service Act 1946]

The Sheffield Regional Hospital Board is responsible for the hospitals serving East Retford Borough and Rural Districts through a Hospital Management Committee. There are four hospitals:

Victoria Hospital, Worksop  
Kilton Hospital, Worksop  
Carlton Hospital, near Worksop  
Retford and District Hospital, Retford

The Worksop and Retford Hospital Management Committee carries out the day-to-day administration of these hospitals.

#### [b] Health Services provided by Local Health Authorities

The Nottinghamshire County Council provides the following services under Part III of the National Health Service Act 1946 (Dr H.I. Lockett County Medical Officer and Principal School Medical Officer).

- 1 Care of mothers and young children
- 2 Domiciliary Midwifery
- 3 Home Nursing
- 4 Health Visiting
- 5 Vaccination and Immunisation
- 6 Ambulance Service
- 7 Prevention of illness, care and after-care of persons suffering from illness

#### *Care of Mothers and Young Children*

(a) There are nine villages in which Ante-natal and Child Welfare Clinics are held. A list of these clinics can be seen on page 18. The Medical Officer of Health attends some of these clinics.

The Maternity and Child Welfare Centre at the Notts. County Council Clinic and Offices, Chancery Lane, Retford, is available to those parents living in nearby villages.

#### (b) *Cervical Cytology*

A Cervical Cytology Clinic is held at the County Council Health Centre, Chancery Lane, Retford. All women are invited to attend. This clinic, which takes place every other Wednesday afternoon from 2.0 to 4.0 pm, is intended to provide early diagnosis of cervical cancer, and is therefore a most important preventive measure.

I give below numbers of attendances for 1971 :

| Borough | Rural | Other Parts | Total |
|---------|-------|-------------|-------|
| 278     | 223   | 31          | 532   |

### *Domiciliary Midwifery*

Mothers may have their babies at home or in hospital, this depending on various factors, medical and social. If the mother has her baby at home, then she is attended by a midwife who will call in a doctor if required, this usually being the family doctor.

### *Home Nursing*

This is a service which provides for the nursing at home of chronic patients, and of less serious forms of acute illness where the family doctor requests it.

### *Health Visiting*

Health Visitors are State Registered Nurses with knowledge of midwifery, who have attended a whole-time course in Public Health work and received the Health Visitor's Certificate. Their duties are in respect of the Personal Health Services. They work in the Maternity and Child Welfare Clinics and do routine visiting of their districts, advising on prevention of illness and maintenance of health.

### *Vaccination and Immunisation*

The Vaccination and Immunisation Service is administered for the County Council by the District Medical Officer of Health, acting as the agent for the County Council.

### *Ambulance Service*

The main Ambulance Station is situated in the Retford Borough and the vehicles comprise four ambulances and three dual-purpose vehicles which will carry either sitting or stretcher cases.

Ambulances are normally only available on the request of doctors and other authorised persons however, members of the public should use the emergency telephone system in the event of an emergency arising in the home or public place necessitating ambulance provision.

## **[c] Welfare Services provided by Local Authorities**

### *Home Help*

The office is situated in the Nottinghamshire County Council Clinic and Offices, Chancery Lane, Retford. This most useful service provides domestic help, where, on account of illness, age or other domestic reasons, it is required. The home Help Supervisor is Miss Turner; telephone Retford 2681.

## NATIONAL ASSISTANCE ACT 1948

The County Council provides a welfare service for the aged and physically and mentally handicapped persons. The Welfare Office is at the Retford County Council Offices, Chancery Lane; telephone Retford 2681.

## THE SCHOOL HEALTH SERVICE

The School Health Service (known as the School Medical Service until 1945) started officially in 1908, but its growth was greatly increased by the Education Act of 1944 and the National Health Service Act of 1946.

The County Council as the Local Authority is responsible for the School Health Service

### Details of Attendance at the Maternity & Child Welfare Centres during 1971

| Village              | Attendances |                   |                  | Medical Consultations |

| Woodbeck             | 680         | —                 | —                | 197                   |

## INSPECTION & SUPERVISION OF FOOD & FOOD PREMISES

### Food & Drugs Act 1955

Details of work carried out by the Public Health Department during the year are given in the Report of the Chief Public Health Inspector.

The Food and Drugs Act 1955, provides for the sampling of food and drugs for analysis or for bacteriological examinations. The Notts. County Council is the authority responsible for these duties, and I am grateful to Mr Gregory, Chief Inspector, Food and Drugs, for a report of the Public Analyst upon articles analysed during the year.

### NATIONAL ASSISTANCE ACT [1948] AND NATIONAL ASSISTANCE [AMENDMENT] ACT 1951

These Acts provide for the removal to suitable premises of persons in need of care and attention. No action was necessary under the Acts during the year though assistance in getting persons into hospital on a voluntary basis was given.

### THE MILK [SPECIAL DESIGNATIONS] [PASTEURISED & STERILISED] MILK REGULATIONS

## CHIEF PUBLIC HEALTH INSPECTOR'S REPORT

Dear Dr Tattersall,

I beg to submit this my eleventh annual report for the year 1971, somewhat belated for which my sincere apologies.

The year saw the complete change over to a sack system of refuse collection, an end to the majority of complaints about the service, and an established, unchanged staff with little absenteeism.

Mr Swingle who had been with the Council a number of years (10) left in October to take up an appointment as Director of Cleansing with the City of Northampton, and I would wish him well, and offer my thanks for the valuable aid and assistance he gave me over the years.

In conclusion my thanks are due to your good self for continued guidance and help during the year, to my colleagues on the staff of the East Retford Rural District Council for help and assistance in all matters, and finally my appreciation of the support and interest in the work of the Department from the Chairman and members of the Health Committee.

Yours sincerely,

F. E. STORR

*Chief Public Health Inspector*

## WATER SAMPLES

The water supply of the area and its several parts has on the whole been satisfactory in quality and quantity.

Regular sampling of water was undertaken as follows:

## BACTERIOLOGICAL EXAMINATION

| <i>No. of Samples Taken</i> | <i>Mains Supply</i> | <i>Private Supply</i> |
|-----------------------------|---------------------|-----------------------|
| 46                          | 45                  | 1                     |
| Satisfactory:               | 45                  | 1                     |
| Unsatisfactory:             | Nil                 | Nil                   |

The forty-five samples taken from mains supply were from twenty-six parishes.

There are no public standpipes in the Rural District, and the following tables give an estimation of houses and populations supplied or not from the public water supply:

|   |                                                                                            |       |        |
|---|--------------------------------------------------------------------------------------------|-------|--------|
| 1 | Estimated population of East Retford Rural District                                        | ..    | 25,570 |
| 2 | Estimated number of dwellinghouses                                                         | .. .. | 8,113  |
| 3 | Estimated number of houses and population already supplied with piped water supply:        |       |        |
|   | Number of houses                                                                           | .. .. | 8,038  |
|   | Population                                                                                 | .. .. | 25,370 |
| 4 | Estimated number of houses and population not at present supplied with piped water supply: |       |        |
|   | Number of houses                                                                           | .. .. | 75     |
|   | Population                                                                                 | .. .. | 200    |

## PUBLIC CLEANSING

The improvement in the service was continued during the year when in mid-summer the remainder of the District was converted to tub/polythene sack collection of refuse. This meant that all parts were now served in like manner, and a clean efficient and weekly collection maintained.

This with the combined use of the bonus incentive scheme gave a trouble free service, a minimum number of complaints, and absenteeism became a thing of the past.

Collection of litter from lay-bys continued as before with the Authority acting as agents of the County Council. At the end of the year 1032 single bins and 605 double bins had been emptied.

Three vehicles were abandoned on the highways in the District and towed away for disposal. In no case was the owner traced.

Bulky refuse was collected on request wherever possible or alternatively tipping facilities were provided.

## **INFECTIOUS DISEASES**

All houses at which cases of notifiable infectious diseases requiring investigation have been visited and advice re disinfection given in appropriate cases.

A number of cases of Salmonella in calves were investigated at various farms during the year, with advice given re personal hygiene and human protection.

## **CLEAN AIR — SMOKE ABATEMENT**

The ring of volumetric stations and deposit gauges designed and so placed to monitor fall-out from all three power stations remained operational throughout the year, and results from them were forthcoming via the good offices of the County Health Inspector.

The situation of these control stations and deposit gauges, along with those operated by local authorities were given six years ago. They are so dispersed as to give a good idea of fall-out over a wide area and covering all points of the compass. In addition to SO<sub>2</sub> and grit fall-out figures, the Central Electricity Generating Board also supply charts giving wind directions and velocity day by day.

Comparison figures with Staythorpe and Radcliffe Power Stations were also provided and would tend to show that results from the three power stations in this District are beginning to show an upward trend. This is also suggested by the increase in the number of complaints received. A review of the situation was undertaken between interested parties in September at a meeting arranged between representatives of the Central Electricity Generating Board and the Public Health Inspectors from surrounding Districts. Details of works of improvement already undertaken, or proposed were given, upon completion of which it was hoped the situation would improve. Figures for the latter end of the year tended to support these hopes.

## **POULTRY INSPECTION**

There are two poultry dressing and packing plants in the District, one at Misterton and the other at East Markham.

Numbers of poultry vary according to season but on average the following is the normal output:

Misterton: 800-1,000 per week;

East Markham: 10,000-12,000 per week.

Rejects and/or condemned birds also vary according to supply source but average 1.0-1.50%.

Regular visits were made to these premises, particularly that at Misterton which required constant supervision. This is still necessary to keep the premises in order, the occupier does not seem to have much idea of food hygiene and clean food handling.

## HOUSING

### Housing Act 1957 — Section 16

|    |                                                                                                                  |    |
|----|------------------------------------------------------------------------------------------------------------------|----|
| 1  | No. of dwellings represented prior to 1st January 1971 upon which no formal action had been concluded .....      | 16 |
| 2  | No. of Demolition Orders made in respect of dwellings included in (1) above.....                                 | 16 |
| 3  | No. of Undertakings to reconstruct accepted in respect of dwellings included in (1) above .....                  | —  |
| 4  | No. of Undertakings included in (3) above complied with (conversion of two dwellings into one) .....             | —  |
| 5  | No. of Undertakings not to use for human habitation accepted in respect of dwellings included in (1) above.....  | —  |
| 6  | No. of dwellings included in (1) above which the Council are negotiating to purchase .....                       | —  |
| 7  | No. of dwellings included in (1) above which formal action has not been concluded .....                          | —  |
| 8  | No. of dwellings represented as unfit to Council between 1st January 1971 and 31st December 1971 .....           | 7  |
| 9  | No. of Demolition Orders made in respect of dwellings included in (8) above.....                                 | 7  |
| 10 | No. of undertakings to reconstruct accepted in respect of dwellings included in (8) above .....                  | —  |
| 11 | No. of undertakings not to use for human habitation accepted in respect of dwellings included in (8) above ..... | —  |
| 12 | No. of dwellings included in (8) above which the Council are negotiating to purchase .....                       | —  |
| 13 | No. of dwellings included in (8) above upon which consideration has been deferred .....                          | —  |
| 14 | No. of houses demolished as a result of Demolition Orders and representations.....                               | 9  |

### Slum Clearance Summary

#### Estimate of Number of Unfit Dwellings

#### Proposals submitted to Minister in 1969

|   |                                                                     | 1970 | 1971 | 1972 | 1973 |
|---|---------------------------------------------------------------------|------|------|------|------|
| 1 | Part III a) Houses in areas to be declared                          | Nil  | Nil  | Nil  | Nil  |
|   | b) Houses to be cleared                                             | Nil  | Nil  | Nil  | Nil  |
| 2 | Part II Houses likely to be subject to demolition or closing orders | 80   | 75   | 75   | 74   |

- 3 This four year programme will bring slum clearance work up to date in this District.

A large number of these properties are however likely to be occupied by old people and it is certain that a fair percentage of them will have no desire to be re-housed, particularly if this means moving from their respective villages.

It is reasonable to assume that a number of houses will remain occupied for a long time after 1974.

#### Number of houses already dealt with up to December 1971

|                                                                                | <i>Confirmed</i> | <i>Awaiting Confirmation</i> |
|--------------------------------------------------------------------------------|------------------|------------------------------|
| (a) As Clearance Areas . . . . .                                               | Nil              | Nil                          |
| (b) As individual unfit houses . . . .                                         | 575              | Nil                          |
| No. of families re-housed during 1970 from Slum-Clearance properties . . . . . |                  | 16                           |

#### Housing Act 1957 — Section 9

|                                                       |    |
|-------------------------------------------------------|----|
| No. of houses dealt with by informal action . . . . . | 12 |
|-------------------------------------------------------|----|

#### DISCRETIONARY GRANTS

|                                                                                 |            |
|---------------------------------------------------------------------------------|------------|
| 1 No. of applications for Grants received . . . . .                             | 115        |
| 2 No. of applications approved on original submission . . . . .                 | 82         |
| 3 No. of applications rejected . . . . .                                        | 9          |
| 4 No. of applications referred for revision . . . . .                           | 12         |
| 5 No. of applications approved after re-submission extra to (2) above . . . . . | 12         |
| 6 Total value of Grants approved . . . . .<br>(£37,420. 0. 0 in 1970)           | £80,775.00 |
| 7 Average Grant per dwelling . . . . .<br>(£613. 11. 9 in 1970)                 | £859.30    |
| 8 No of schemes certified complete . . . . .                                    | 47         |
| 9 Average Grant in respect of schemes completed<br>(£306.15.2 in 1970)          | £749.91    |

Of the 94 grants approved during the year 34 (36.17%) were in respect of dwellings which were let or intended to be let.

Of the 47 schemes which were certified as complete during the year 16 (34.05%) were in respect of dwellings which were let or intended to be let.

## STANDARD GRANTS

|   |                                                                                           |         |
|---|-------------------------------------------------------------------------------------------|---------|
| 1 | No. of applications for grant received .. .. .                                            | 45      |
| 2 | No. of applications approved .. .. .                                                      | 41      |
| 3 | No. of applications rejected .. .. .                                                      | 2       |
| 4 | No. of applications referred back for revision .. .. .                                    | 2       |
| 5 | No. of Schemes certified complete .. .. .                                                 | 36      |
| 6 | Average grant in respect of Schemes completed in (5) above .. .. .<br>(£136.9.11 in 1970) | £125.69 |

Of the 41 grants approved during the year 11 (26.83%) were in respect of dwellings which were let or intended to be let.

Of the 36 Schemes which were completed during the year, 8 (22.22%) were in respect of dwellings which were let or intended to be let.

## The Caravan Sites & Control of Development Act, 1960

The Council had up to the end of the year issued the following licences subject to compliance with the required standards:

|                        |                                                 |
|------------------------|-------------------------------------------------|
| Permanent residential: | 21 providing accommodation for<br>292 caravans  |
| Holiday:               | 5 – providing accommodation for<br>225 caravans |
| Individual:            | 70                                              |

Licensed sites are for the most part well maintained and kept in good order by the respective licensees. One site, sub-standard to the others, houses a number of families, who are not in themselves all they might be. The condition of the site continues to cause concern to this Department, and the conditions of the occupiers concern to the Health Visitor, and various Welfare Departments. The application of the Owner for renewal of his site licence was refused by the Planning Authority towards the end of 1970, and enforcement action taken to close down the site. This action continued throughout the year.

Gypsies and other itinerant travellers come into the District occasionally, leaving behind them the usual mess to be cleaned up. On the whole however the problem is only a minor one to date. It may be that some time in the future a site will have to be provided onto which this class of caravan dweller can be directed.

Two Owners had their sites registered by the British Travel Association, and in due time signs directing touring caravanners and campers were erected on the various highways relative to the sites. Many tourists both from the Home Countries and Overseas used the sites during the summer months.

## Prevention of Damage by Pests Act, 1949

|   |                                                                                                         | <i>Types of Property</i> |                     |
|---|---------------------------------------------------------------------------------------------------------|--------------------------|---------------------|
|   |                                                                                                         | <i>Non-Agricultural</i>  | <i>Agricultural</i> |
| 1 | No. of properties in the District . . . . .                                                             | 7930                     | 676                 |
| 2 | (a) Total number of properties (including nearby farms) inspected following notifications               | 154                      | —                   |
|   | (b) Number infested by: (i) rats . . . . .                                                              | 112                      | —                   |
|   | (ii) mice . . . . .                                                                                     | 35                       | —                   |
| 3 | Total number of properties inspected for rats and/or mice for reasons other than notification . . . . . | 35                       | —                   |
|   | Number infested by: (i) rats . . . . .                                                                  | 22                       | —                   |
|   | (ii) mice . . . . .                                                                                     | —                        | —                   |

Test baiting of sewers was carried out during March/April and apart from short lengths at Ranskill and Misterton were found to be clear. The sewers at Ranskill and Misterton were baited and quickly cleared of infestation.

## FOOD HYGIENE REGULATIONS

The following is a summary of the various food premises in the Rural District:

|                                        |    |
|----------------------------------------|----|
| Grocers and General Shops . . . . .    | 71 |
| Bakehouses . . . . .                   | 1  |
| Butchers . . . . .                     | 14 |
| Fried Fish and Chips . . . . .         | 6  |
| Greengrocers and Fruiterers . . . . .  | 4  |
| Sweets and Minerals etc . . . . .      | 8  |
| Private Hotels, Guest Houses . . . . . | 1  |
| Clubs and Institutes . . . . .         | 4  |
| Cafes, Tearooms . . . . .              | 9  |
| Works Canteens . . . . .               | 11 |
| H.M. Canteens . . . . .                | 1  |
| School Meals Service . . . . .         | 25 |
| Private Schools . . . . .              | 3  |
| Hotels, Public Houses, Inns . . . . .  | 70 |

TOTAL 228

Of these premises 81 were registered for the retail sale of wrapped ice cream.

172 inspections and/or re-inspections were made of food premises.

The following table summarises the progress with this work and also indicates an overall picture of the improvements affected:

| <b>Informal Notices requiring attention to:</b>                              | <i>Outstanding<br/>from last<br/>year</i> | <i>Served<br/>during<br/>year</i> | <i>Complied<br/>with</i> |

| Canteens .....                    | —                             | 2             | 2            |
| Fuel storage depots .....         | —                             | —             | —            |
| <b>TOTAL</b>                      | <b>129</b>                    | <b>140</b>    | <b>269</b>   |

No accident was reported during the year.

## ANIMAL BOARDING ESTABLISHMENTS ACT, 1963

This Act which came into force on the 1st January 1964 aimed at ensuring that suitable accommodation is provided and proper care given to pets whilst in the care of boarding establishments.

Such premises are licensed annually, and twenty visits were made during the year to the nine licensed premises.

## PET ANIMALS ACT, 1951

Two licences were issued under the Act, and the premises visited to ensure suitability.

## PETROLEUM [REGULATIONS] ACT 1928-1936

All new tank installations are tested under pressure (10lb per square inch for 24 hours) in liaison with a representative of the company concerned.

|                                     |     |
|-------------------------------------|-----|
| Number of renewal licences .....    | 152 |
| Number of new licences issued ..... | 5   |

## SUMMARY

### Inspection and Visits

|                                                    |             |
