(b) *Meat and Food Inspector's Certificate, Royal Society of Health.*

(c) *Certificate of Meat Inspection, Royal Society of Health*

BOROUGH OF EASTLEIGH

To the Mayor, Aldermen and Councillors
of the Borough of Eastleigh

Mr. Mayor, Ladies and Gentlemen,

I have pleasure in presenting the statutorily required Annual Report on the health conditions pertaining to the Borough during the year 1969.

Population

The mid-year population during 1969, according to the estimate of the Registrar-General, was 45,100, an increase of 1,050 over the year since the previous estimate. Seventy-two per cent. of the increase was attributable to inward migration and the remaining twenty-eight per cent. to the natural excess of births over deaths.

Births

The number of live births was 734, a decrease of 15 from the previous year.

The crude birth rate showed a reduction to 16.27 per 1,000 population. The adjusted birth rate, i.e., corrected by the Registrar-General's comparability factor, was 15.94 as compared with the provisional figure for England and Wales of 16.3 per 1,000 population.

Illegitimate births increased in number to 49, representing 7 per cent. of the total births.

Deaths

Deaths totalled 442, a decrease of nine over 1968, and yielded a crude death rate of 9.8. The adjusted death rate of 11.47 per 1,000 population was lower than that of the provisional figure of 11.9 per 1,000 population for England and Wales.

The seventeen deaths of infants under one year of age resulted in an infant mortality rate of 23.0 per 1,000 live births; the national figure is provisionally 18.0 per 1,000 live births.

Still births were nine in number, yielding a still birth rate of 12.26 per 1,000 total births, as compared with the provisional national figure of 13.0 per 1,000 total births.

Infectious Disease

There were again no instances of either Diphtheria or Poliomyelitis.

Other notifiable infections were relatively few in number but the year ended with a considerable incidence of influenza and influenza-like illnesses.

Immunisation and Vaccination

A fully computerised scheme for infant immunisation operated throughout the Borough, while arrangements for immunisation during school life continued under the revised schedule recommended by the Ministry of Health at the end of 1968.

I am, Mr. Mayor, Ladies and Gentlemen,

Your obedient Servant,

W. ALASTAIR GLEN

Medical Officer of Health.

BOROUGH OF EASTLEIGH, 1945-1969

Principal Causes of Death

The principal causes of death in the population as a whole, including those domiciled within the Borough who died away from home, e.g., in hospital, are shown in the table below, together with the corresponding figures for the five-year period 1964-1968 :—

Ref. No.		1969		1964/68	
		No.	Percentage of Total	No.	Percentage of Total
B4 BE49	Total Deaths	442	100.0	1,974	100.0
B26 B29	Heart Disease	143	32.3	712	36.0
B19(1) B19(11)	Cancer	100	22.6	403	20.4
B30	Cerebrovascular Disease	63	14.3	266	13.5
B31 B46(6)	Respiratory Disease (other than Tuberculosis)	61	13.8	201	10.2
		367	83.0	1,582	80.1

These conditions accounted for a higher proportion of deaths in 1969, compared with the preceding five-year period, predominantly due to an increase in deaths from Cancer and Respiratory Disease.

No. of Deaths	1959	1960	1961	1962	1963	1964	1965	1966	1967	1968	1969
Ischaemic Heart Disease	55	87	85	83	82	79	100	89	81	120	102
Other Heart Conditions	41	65	54	54	63	41	46	48	54	54	31
Total Heart Conditions	96	152	139	137	145	110	146	137	135	174	142
Cancer, lung	14	14	19	17	18	11	22	20	27	27	20

The number of deaths attributable to Lung Cancer showed a decrease over the preceding year.

Population

Mid-Year	Increase/ Decrease in Population	Natural Increase	Balance of Population Movement	
			Inward	Outward
1956—57	980	264	716	
1957—58	620	233	387	
1958—59	2,020	237	1,783	
1959—60	1,240	264	976	
1960—61	—550	252		802
1951—61	6,760	1,294	4,566	
1961—62	910	227	633	
1962—63	1,040	297	743	
1963—64	850	333	517	
1964—65	1,000	363	637	
1965—66	850	295	555	
1966—67	1,250	398	852	
1967—68	1,080	298	782	
1968—69	1,050	292	758	

The Registrar-General's estimate of 45,100 as the mid-year population indicates an increase of 1,050 over that of the previous year.

On the basis of the above estimate, some 758 more people came to reside in the Borough than left.

SECTION II
**GENERAL PROVISION OF HEALTH SERVICES
 IN THE AREA**

Public Health Officers of the Local Authority

Full particulars of the Public Health Officers of the Council, Medical, Sanitary and Clerical, including in each case information as to their special diplomas or certificates of qualification as well as their offices and duties, have been incorporated on page 3 at the beginning of this Report.

Laboratory Facilities

The Public Health Laboratory, Royal Hampshire County Hospital, Winchester, continued to undertake the bacteriological examination of milk and other foodstuffs, pathological material, water and sewage ; serological examinations (other than that of Venereal Disease) ; and routine examinations of milk and ice-cream. These services were extensively used and appreciation is recorded of the co-operation and help received from the Laboratory.

The services of the Southampton City Analyst were available for chemical analyses of water, sewage, etc.

Ambulance Facilities

The Ambulance Service, organised by the County Council under the provisions of the National Health Service Act, 1946, continued to operate locally from a sub-station in Leigh Road, under the administration of the Main Station for the Central Ambulance Area of the County at Winchester. The effective deployment of ambulances within the area requires that movements be co-ordinated by the Main Station, to which all requests should be directed:—

- (a) *Advance Bookings* - Superintendent Driver, Winchester Ambulance Station, Queen's Road, Winchester.
- (b) *Ambulance Calls* - Telephone: Winchester 61644.
- (c) *Emergency Calls* - Dial 999, asking for 'Ambulance.' (Arrangements have been made with the telephone service to direct such calls from the Borough to Winchester Station).

Long distance journeys are arranged through the County Ambulance Officer, The Castle, Winchester (Telephone: Winchester 4411—Extension 300).

Hospital Car Service. — The transport to and from hospital of non-urgent, non-infectious cases, which do not require lifting or the services of an ambulance, may be arranged through the Hospital Car Service (administered jointly by the Order of St. John Ambulance Brigade, the British Red Cross Society and the Women's Royal Voluntary Service as agents of the County Council) on application to the hospital which the patient is to attend.

Domiciliary Nursing and Midwifery

Combined midwifery and general nursing services were provided in the Chandler's Ford area by three nurses, two of whom were attached to individual practices, and in the Fair Oak area by one nurse.

The remainder of the Borough was covered by two whole-time, and one part-time, midwives and three whole-time general nurses.

The relevant addresses and telephone numbers are:—

<i>Name and Address</i>	<i>Telephone Number</i>	<i>Approximate area served</i>
Miss C. A. Somake 20a, Summerlands Road, Fair Oak	Fair Oak 582	Attached to practice of Dr. Gabb
Miss E. B. Rea 6, Craven Road, Chandler's Ford	Chandler's Ford 4167	Attached to practice of Dr. Brocket
Miss M. Hartup 11, Steele Close, Eastleigh	Eastleigh 3168	Attached to practice of Drs. Bovett and Charlwood
Mrs. H. M. Maslen 69, Falcon Square, Eastleigh	Eastleigh 3957	Unattached work in Chandler's Ford
Mrs. A. E. Brown 10, Craven Road, Chandler's Ford	Chandler's Ford 3427	Attached part-time to practices of Drs. Panton and Adlam, Drs. Boyle, Bond and Gibson; and Drs. Fuller and Hurley
Mrs. E. Emery 113, Spring Lane, Bishopstoke	Eastleigh 2540	Eastleigh and Allbrook. — Attached to practice of Drs. Crozier and Bradford
Mrs. S. Scarrott 281, Hursley Road, Chandler's Ford	Chandler's Ford 3710	Attached part-time to practice of Drs. Watson and Taylor
Mrs. M. P. Cave 3, Ford Avenue, Chandler's Ford	Chandler's Ford 3973	Attached part-time to practice of Drs. Crozier and Bradford, and part-time to practice of Drs. Fuller and Hurley
Miss E. M. Marshall 100, Fair Oak Road, Bishopstoke	Eastleigh 2184	Attached to practice of Drs. Boyle, Bond and Gibson. Unattached work in Bishopstoke and Allbrook
Miss M. E. Marshall 100, Fair Oak Road, Bishopstoke	Eastleigh 2184	Attached to practice of Drs. Panton and Adlam. Also unattached work in Eastleigh

Health Visiting

Eight full-time, and one part-time, Health Visitors acted as school nurses and provided the staff for clinics and immunisation sessions at schools, as well as being advisors on health matters to the family in the home environment.

The appropriate Health Visitor is indicated below:—

<i>Name and Address</i>	<i>Telephone Number</i>	<i>Approximate area served</i>
Miss E. Mitchell 13, Chalvington Road, Chandler's Ford	Chandler's Ford 2321	Attached to practice of Drs. Fuller and Hurley
Mrs. G. Evans 20, Belmont Road, Chandler's Ford	Chandler's Ford 4516	Attached to practice of Drs. Bovett and Charlwood
Mrs. E. N. Stanley 176, Athelstan Road, Bitterne Park, Southampton	Southampton 48384	Chest Clinic area. Part-time attachment to practice of Drs. Panton and Adlam
Mrs. P. Brewer 31, Kennett Road, Hill Lane, Southampton	Southampton 73530	Attached to practice of Drs. Watson and Taylor
Mrs. M. H. Angell 11, Laburnum Close, North Baddesley	Rownhams 2868	Unattached work in Chandler's Ford
Mrs. S. Wilson 10, Skintle Green, Colden Common	Twyford 3442	Unattached work in Eastleigh (Central and North) including Velmore Estate. Attached to practice of Dr. Williams
Miss M. Pardoe "Em-Mary," 69, Yardley Road, Hedge End, Southampton	Botley 3186	Unattached work in Bishop- stoke. Part-time attach- ment to practice of Drs. Boyle, Bond and Gibson
Mrs. D. V. Terry 64, Brownhill Road, Chandler's Ford	Chandler's Ford 5583	Part-time duties

The Scheme of Attachment of Nurse-Midwives and of Health Visitors to the practices of General Practitioners was introduced in 1962. During 1969, two Health Visitors were attached, part-time, to practices; while three Health Visitors were attached, full-time, to other practices.

Home Help Services

During the year there has been a continuing demand for help in the home, mainly from the aged and infirm and chronically sick, and mainly provided at modified charges or without charge.

Application for help should be made to the Divisional Organiser, Red House, Romsey Road, Eastleigh (Telephone: Eastleigh 2558).

Nurseries and Child Minders' Regulation Act, 1948

Registrations were operative during the year in respect of:—

(a) Nurseries:—

- Mrs. S. Gilbert, at Ritchie Hall, Chandler's Ford.
 Miss D. G. Dixon, at St. Nicolas Church Hall, North Stoneham.
 Mrs. Donovan, at The Hall, Eastleigh Hotel, Market Street, Eastleigh.
 Mrs. E. D. Oury, at The Congregational Church Hall, Kings Road, Chandler's Ford.
 Mrs. A. E. Follett, at The Chandler's Ford Boys' Club, Hiltingbury Road, Chandler's Ford.
 Mrs. B. Lee, at The St. Martins-in-the-Field Church Hall, Queens Road, Chandler's Ford.
 Mrs. B. I. Davies, at The Church Room, Stoke Park Road, Bishopstoke.
 Mrs. Davies, at "Centre 66," Grantham Road, Eastleigh.
 Mrs. D. M. Reed and Mrs. J. J. Clarke at The Methodist Youth Hall, Fryern Hill, Chandler's Ford.
 Mrs. F. Bryant, at The Masonic Hall, Cranbury Road, Eastleigh.
 Mrs. V. F. Bradley and Mrs. I. Happle, at the 2nd Chandler's Ford Scout Group H.Q., Ramalley, Hursley Road, Chandler's Ford.
 Mrs. K. Eagle, at The Church Room, 107, Belmont Road, Chandler's Ford.
 Mrs. E. Service, at The Eastleigh Youth Centre, Nightingale Avenue, Eastleigh.
 Mrs. C. M. Eades, at The Eastleigh Boys' Club, Bishopstoke.

(b) Child Minders:—

- Mrs. C. Tumber, at 10, Church Road, Bishopstoke.
 Mrs. M. A. Watson, at 24, Valley Road, Chandler's Ford
 Mrs. B. I. Windridge, at 218, Desborough Road, Eastleigh.
 Mrs. F. Cross, at 9, Cumberland Close, Chandler's Ford.
 Mrs. I. Tillbrook, at 216, Desborough Road, Eastleigh.
 Mrs. J. Nineham, at 178, Hiltingbury Road, Chandler's Ford.
 Mrs. G. Fielding, at 366, Southampton Road, Eastleigh.
 Mrs. K. Jelfs, at 141, Park Road, Chandler's Ford.
 Mrs. G. Sibson, at 257, High Street, Eastleigh.
 Mrs. C. Minns, at 12, Woodlands Close, Chandler's Ford.
 Mrs. J. Russell, at 29, Randall Road, Chandler's Ford.
 Mrs. R. Murray, at 255, Hursley Road, Chandler's Ford.
 Mrs. V. Mitchell, at 18, Darwin Road, Eastleigh.
 Mrs. J. M. Bundy, at 9, Trevoise Crescent, Chandler's Ford.
 Mrs. S. Morant, at 3, Fordington Villas, Station Lane, Chandler's Ford.

Junior Training Centre

The Centre at Tankerville, Romsey Road, continued the daily care, from 9.30 a.m. to 3.30 p.m., Monday to Friday, of mentally sub-normal persons within the Borough and surrounding area. Transport to and from the Centre is provided. A charge is made of one shilling per day in respect of the mid-day meal.

Application for admission should be made to the County Medical Officer, The Castle, Winchester.

Welfare of the Elderly

County Council Services

1. *Welfare Officer.* — The appointment of a special visitor and advisor to the elderly was discontinued, with the retirement of Mrs. S. Abraham. The office at the Red House, Eastleigh (Telephone: Eastleigh 2558) continues to be visited from time to time by an officer from Winchester.

2. A purpose-built home for the residential accommodation of old people under Part III of the National Assistance Act, designated "Fleming House," is situated at Heron Square, within the Borough Council's first post-war housing estate. It has accommodation for 50 old persons.

Voluntary Services

These include :—

- (a) Old established organisations of the elderly for the elderly, holding regular meetings and undertaking a certain amount of social work among their members ;
- (b) Old People's Welfare Committees offering club facilities and some home visiting to the elderly in specific neighbourhoods ;
- (c) Assistance in specific matters from numerous organisations prepared to lend a special hand to the elderly ;
- (d) Eastleigh Old People's Welfare Committee, which maintains an All-Day Club providing meals on several days per week, as well as organising chiropody and transport services ;
- (e) Women's Royal Voluntary Service — operating on behalf of the Borough Council and County Council a meals-on-wheels service and providing a battery exchange and repairs collection depot for hearing aids on behalf of the Regional Hospital Board.

Treatment Centres and Clinics

The various clinic facilities available within the Borough are listed on pages 18 and 19.

Venereal Disease Clinics are available for advice and the diagnosis of infection, as well as treatment, at Winchester and Southampton as follows:—

		MALES	FEMALES
Winchester	Out-Patients Annexe, Royal Hampshire County Hospital (Tel.: Winchester 5151)	Mondays 2.30—4 Thursdays 3—4.30	Mondays 2.30—4 Thursdays 3—4.30
Southampton	44, Bullar Street (Tel.: Southampton 23021)	Monday to Saturday 9—12 noon Monday to Friday 5—7 p.m.	Mondays 12—1 Tuesdays 2—7 Wednesdays 2—4 Thursdays 2—7 Fridays 2—4

Mass Radiography

The Southampton Mass Radiography Unit is accessible during the year, sessions being held every Monday, 9.30 to 12.15 ; 1.30 to 4.30 ; 5.0 to 8.0 ; and Wednesday, 10.0 to 11.45 ; and 1.0 to 4.30 p.m.

Hospitals

General — General medical and surgical hospital services have, as in the past, been rendered by the Royal Hampshire County Hospital, Winchester ; the Royal South Hants Hospital ; Chest Hospital ; General Hospital ; Eye Hospital ; and Children's Hospital, Southampton ; and the Mount Hospital, Bishopstoke, Eastleigh.

Isolation — Cases requiring hospitalisation have in the main been accommodated at the Victoria Isolation Hospital, Winchester, and the Chest Hospital, Southampton. Special arrangements were continued in respect of cases of poliomyelitis at the Chest Hospital, Southampton.

Patients requiring hospitalisation of any description have been placed either by direct arrangements with the hospital, or via the Winchester Bed Service (Telephone No. : Winchester 5151 — extension 129) ; or Southampton Group Bed Bureau (Telephone No. : Southampton 25117).

TREATMENT CENTRES AND CLINICS

<i>Designation</i>	<i>Purpose</i>	<i>Place</i>	<i>Times</i>	<i>Held by</i>
Child Health Clinic -	Child Welfare -	Congregational Hall, King's Road, Chandler's Ford	Mondays, 2.0 p.m.	Hampshire County Council

Maternity and Nursing Homes

Hospital Service — Rookwood Maternity Home, Allbrook, operates as a subsidiary of the Maternity Unit of the General Hospital, Southampton.

Private — One private Nursing Home is registered under the Act, i.e., that at Manor House, Church Road, Bishopstoke, dealing with acute and chronic medical, convalescent and geriatric cases.

Section 47, National Assistance Act, 1947

No action was taken during the year under this heading.

Mortuary

Limited Mortuary accommodation is available in the out-buildings at the Town Hall.

SECTION III

**PREVALENCE OF AND CONTROL OVER
INFECTIOUS DISEASE****Measles**

There were eight notifications of measles during the year. Since similarly insignificant numbers, of three and ten cases, were notified in 1960 and 1962 respectively, it would be premature to attribute this year's low figure to measles immunisation.

Measles Immunisation

At the request of the Minister of Health, the County Council initiated, during 1968, a scheme for the protection of all susceptible children within the area of the Local Health Authority; local administration of the scheme being devolved upon the district Medical Officer of Health.

By the end of the first quarter of 1969, immunisation had been offered in respect of all susceptible school children, and immunisation effected at school sessions or clinics in respect of children whose parents expressed preference for it to be so carried out.

During 1969 some 1,171 children were immunised.

Scarlet Fever

No notifications of Scarlet Fever were received during the year.

Erysipelas

No notifications of Erysipelas were received during the year.

Ophthalmia Neonatorum

No notification of this disease was received during the year.

Jaundice

Two cases of Infective Jaundice were notified during the year.

Poliomyelitis

No notification was received of this disease for the tenth year in succession.

Poliomyelitis Vaccination

As with other immunisation procedures, the County Council are primarily responsible for arranging the availability of poliomyelitis vaccination with the local administration of the scheme devolved upon the district Medical Officer of Health.

Under these arrangements, poliomyelitis vaccination was made available to all persons in the priority groups designated by the Ministry of Health, i.e. :—

- (a) All those who had not reached the age of 40.
- (b) All persons in the following special groups :—
 1. General Practitioners.
 2. Ambulance Staff.
 3. Hospital Staff who come into contact with patients.
 4. Medical students.
 5. Practising dental surgeons, dental students, dental hygienists, student hygienists and dental surgeons' chairside assistants,
 6. Practising nurses not working in hospitals.
 7. Public Health Staff who may come into contact with poliomyelitis cases.
 8. The families of the above groups.
 9. Expectant mothers.
 10. Persons going to visit or reside in a country outside Europe, other than Canada or the United States of America.

Stocks of poliomyelitis vaccine were maintained at the Public Health Department, available for General Practitioners, Assistant County Medical Officers and Factory Doctors.

As from the 1st January, 1961, poliomyelitis vaccination with inactivated poliomyelitis vaccine was made available to anyone not included under these arrangements. This was not, however, an extension of the Local Health Authority scheme, but an extension of National Health Service facilities. Vaccination was to be carried out by the General Practitioner with vaccine obtained on prescription through the pharmaceutical service.

Oral poliomyelitis vaccine, which became available in February, 1962, progressively supplanted the use of inactivated vaccine. The oral vaccine was particularly suitable for sessional work and was used exclusively for fourth doses and for previously unimmunised children at school sessions.

The numbers immunised during the year are tabulated below :

ORAL IMMUNISATION

Born 1954 onwards.

<i>Number at</i>	<i>Primary Course of Three Doses</i>	<i>Reinforcing Doses</i>
31/12/65	762	786
31/12/66	702	1,023
31/12/67	979	1,663
31/12/68	616	2,210
31/12/69	591	1,488

As from the 1st April, 1965, record cards were only required in respect of children under 16 years of age.

Dysentery

Eleven cases of Dysentery were reported during the year.

Whooping Cough

The number of notifications of Whooping Cough decreased from 17 in the previous year to 12.

Whooping Cough Immunisation

A scheme for whooping cough immunisation was inaugurated in 1955 by the County Council, which, as the Local Health Authority, undertakes the supply of vaccines and financial responsibility for the operation of the scheme. The local administration of the scheme is devolved upon the district Medical Officer of Health.

The majority of children in the area receive their whooping cough immunisation in the form of Triple Antigen, which affords simultaneous immunisation against Diphtheria and Tetanus. A stock of this vaccine is available to medical practitioners in the area at the Public Health Department, 49, Leigh Road.

Diphtheria

The area continued to be free of Diphtheria for the twenty-third consecutive year.

Diphtheria Immunisation

This is the original immunisation scheme, on to which were grafted those offering immunisation against Whooping Cough and Tetanus.

Thus the infant is now afforded simultaneous immunisation against all three, while at school the immunity against Diphtheria and Tetanus is reinforced by a single vaccine.

Childhood Immunisation and Vaccination

The County Council computer scheme became fully operative in the area in relation to children born 1st July, 1967, onwards: Consequently no records are held locally in respect of these children.

The revised schedule of infant immunisation now runs:—

<i>Immunisation</i>	<i>Age</i>
Triple and Polio (1)	26 weeks
Triple and Polio (2)	32 weeks
Triple and Polio (3)	60 weeks
Measles	64 weeks
Smallpox	70 weeks

During School life the main alterations are the elimination of the Diphtheria/Tetanus Booster after the age of five years, and the introduction of Poliomyelitis and Tetanus Boosters at school leaving.

With the co-operation of Head Teachers, arrangements are made to hold periodic immunisation sessions at school, so that any child not previously immunised may be immunised, and so that previously immunised children may have their immunity against Diphtheria, Tetanus and Poliomyelitis reinforced. Cards are issued to parents from the school to acquaint them of these facilities and of the desirability of the reinforcement of any previous immunisation, and so that written consent is obtained before any child is injected. Cards are only issued to those known to be due for reinforcement or in respect of whom no record of primary immunisation is held.

The following table shows the number of children recorded as having received a course of primary immunisation or of having had a reinforcing injection during the year.

Year	Primary Immunisation			Re-inforcing Injections
	Under 5	5-14	Total	
1950	299	118	417	568
1951	336	47	383	587

As from the 1st April, 1965, Record Cards were only required in respect of children under 16 years of age.

B.C.G. Vaccination

The B.C.G. vaccination of secondary school children against Tuberculosis continued during the year, and a further 158 were vaccinated.

Tuberculosis

During the year seven new cases of pulmonary tuberculosis in males, and two in females, were notified in respect of persons normally resident in the Borough.

The age and sex of new cases within the Borough is shown in the second table.

BOROUGH OF EASTLEIGH

**To the Mayor, Aldermen and Councillors
of the Borough of Eastleigh**

Mr. Mayor, Ladies and Gentlemen,

I have pleasure in submitting my third Annual Report as Chief Public Health Inspector.

At the Public Health Committee held on the 9th January, 1969, fourteen houses, viz., Nos. 158—168, 178—182, 186—188 and 192—196, Desborough Road, were formally represented as unfit, and were recommended for clearance.

Upon the declaration of the Clearance Areas, and the making of necessary Compulsory Purchase Orders for both the unfit and the intervening fit properties, objections were received from various property owners, as a result of which the Minister arranged a Local Inquiry, which took place on 9th September, 1969.

The Clearance and Compulsory Purchase Orders were confirmed, without modification, on 20th October, 1969.

Action regarding older houses was further extended — albeit complicated — by the Housing Act, 1969, which came into force on 25th August, 1969. This latest addition to the housing legislation amplifies the Improvement Grant administrative structure, and encourages the environmental improvement of sub-standard residential areas.

The Act also provides for a revision of Rent Control, whereby a landlord may, by bringing his property up to a good state of repair with all modern amenities, qualify for a re-assessment of the fair rent upon production of a Qualification Certificate issued by the Local Authority.

Despite the ever-increasing demand placed upon the staff by activity on the housing front, work has proceeded satisfactorily in the fields of Food Control, Factories, Offices, Shops, Petroleum and Explosives, and Pest Control.

I am, Mr. Mayor, Ladies and Gentlemen,

Your obedient Servant,

R. N. CHIVERS

Chief Public Health Inspector.

SECTION IV

SANITARY CIRCUMSTANCES OF THE AREA**(a) Water**

Eastleigh is supplied with water by the Southampton Corporation Waterworks, and I am indebted to Mr. W. G. H. Tripp, M.A., C.Eng., A.M.I.C.E., A.M.I.W.E. (Waterworks Engineer and Manager), for the following information:—

- (i) The water supply to the Borough of Eastleigh during the year 1969 has been satisfactory (a) in quantity; and (b) in quality.
- (ii) Regular bacteriological examinations were made of both the raw and treated water. All water from the Corporation's sources of supply is treated before distribution.

The supply of water to the Borough of Eastleigh may be afforded from any one or more of the following sources:—

Wells and boreholes in the chalk at Otterbourne.

Wells and boreholes in the chalk at Twyford.

Wells in the chalk at Timsbury.

The River Itchen at Otterbourne.

The River Test at Testwood.

After treatment, the waters from the above sources are pumped, as required, to the various areas supplied, and separate zones of supply for the distribution of water from each source are not normally maintained. Samples of the treated water for bacteriological examination are taken at various points, and the following groups of samples are submitted as covering the whole of the supply to Eastleigh, which must pass through one or the other of the following service reservoirs:—

Otterbourne Reservoir.

Twyford Reservoir.

Yew Hill Reservoir.

Bacteriological Analyses —**Treated Water**

Source of Samples	Total number of Samples during 1969	Number of Samples showing probable numbers of B. Coli present in 100 ml.			
		None present	1 to 2 present	3 to 10 present	11 or more present
Otterbourne Wells Supply	119	117	2	Nil	Nil
Twyford Wells Supply	149	149	Nil	Nil	Nil
Timsbury Wells Supply	101	101	Nil	Nil	Nil
River Itchen Supply	203	202	1	Nil	Nil
River Test supply	155	146	3	6	Nil

Typical chemical analyses of the treated water from the five sources of supply are given in the attached table.

Bacteriological Analyses—**Raw Water**

Source of Samples	Number of Samples	Number of samples showing probable numbers of B. Coli present in 100 ml.					
		None present	1 to 2 present	3 to 10 present	11 to 100 present	101-1000 present	1000+ present

(iii) The water supplied to the Borough of Eastleigh is free from plumbo-solven action.

(iv) Partial softening of the water from underground sources was stopped in the Spring of 1969, but it is still in use for water derived from the rivers. Water from both rivers was subject to a process of sedimentation (with the addition of suitable

coagulents) followed by filtration through rapid gravity filters. All the waters are sterilised with chlorine, except the River Test supply for which chlorine dioxide is used. These treatment processes remove all forms of contamination from the water.

- (v) The number of dwelling houses supplied as at 31st December, 1969, was 14,837. There were no supplies by standpipe.

(b) **Water Supply**

All inhabited houses within the Borough were provided with a supply of main water.

(c) **Drainage and Sewerage**

The drainage system of the district is of the "Partly Combined" and "Separate" systems.

In the centre of the town all the older houses are on the "Partly Combined" system, the storm water from the front part of the house being discharged into the surface water sewers via pavement channels and street gullies: the storm water from the backs of the properties being discharged into the foul water sewers via the sink waste gullies.

In the older portion of Chandler's Ford the whole of the storm water is discharged into the foul water sewers, a large amount being discharged at times of heavy rainfall.

During the year 1969 the following drainage work was carried out under the supervision of the department:—

Drains tested	3
Drains cleansed	57
Drains repaired or reconstructed.....	5

(d) **Closet Accommodation**

The majority of the premises within the Borough Boundary are on the water carriage system, but a number of houses in the unsewered area of Stoke Common still use the conservancy system.

In addition, many of the waterclosets which were formerly entered from the yard or garden have been converted into indoor waterclosets in conjunction with bathrooms, with or without the aid of Standard Grants from the Council. The number of such conversions made with the aid of a Standard Grant during the year 1969 was 36.

The following work was carried out under the supervision of the department during the year:—

New waterclosets provided complete	3
W.C. compartments repaired	1
W.C. compartments cleansed	10
W.C. compartments rebuilt	1

(e) **Public Cleansing**

There was no change during the year in the method of scavenging. Dry house refuse was removed weekly in mechanical vehicles and deposited at the Colden Common Tip of the Winchester Rural District Council, in accordance with an agreement entered into between that Council and the Eastleigh Borough Council whereby the Winchester Rural District Council accept responsibility for the disposal of all the refuse from the Borough.

The contents of pail closets are collected and disposed of at the Sewage Works for treatment, and the contents of cesspools are collected by mechanical cesspool emptiers and disposed of at the Sewage Disposal Works or in a public foul sewer.

(f) **Sanitary Inspection of the Area**

During the year 1969, the following visits and inspections were made by the staff of the Public Health Department in respect of:—

Drainage	440
Water supply	10
Refuse collection and disposal	280
Closet accommodation	42
Tents, vans and sheds	60
Swimming pools	23
Pet Shops Act	1
Prospective tenants for Council houses	1
Insect pests	226
Filthy or verminous premises	25
Infectious diseases	61
Offensive trades	27
Smoke observations and Clean Air Act	54
Petroleum installations	216
Noise abatement	217
Public Health nuisances	152
Radioactive Substances Act	1
			1,836

(g) **Notices Served**

To secure the abatement of nuisances and the removal of conditions prejudicial to health, the following action was taken:—

Number of Informal Notices served	6
Number of Informal Notices complied with	6
Number of Statutory Notices served	13
Number of Statutory Notices complied with	11

(h) Complaints received

During the year, the following complaints were received and attended to by the staff of the Public Health Department.

Choked or defective drains	133
General housing defects	40
Dampness	5
Overcrowding	10
Dirty premises	1
Premises infested with rats or mice	482
Insect pests	93
Keeping of animals	4
Nuisances from accumulations of refuse	16
Smoke nuisances	11
Noise nuisances	11
Effluvia nuisances	29
Miscellaneous	23
	858

(i) Factories

The following tables show the inspection of factories and other premises :—

1. Inspection of Factories and Other Premises

Premises	Number on Register	Number of		
		Inspections	Written Notices	Occupiers Prosecuted
Factories in which Sections 1, 2, 3, 4 and 6 are to be enforced by Local Authorities - -	161	93	-	-
Factories not included in above in which Section 7 is enforced by the Local Authority -	1	1	-	-
Other premises in which Section 7 is enforced by the Local Authority (excluding out-workers' premises) - -	-	-	-	-
Total -	162	94	-	-

2. Cases in which defects were found

Particulars	Number of cases in which defects were found				Number of cases in which prosecution instituted
	Found	Remedied	Referred		
			To H.M. Inspector	By H.M. Inspector	
Want of Cleanliness	-	-	-	-	-
Overcrowding	-	-	-	-	-
Unreasonable temperature	-	-	-	-	-
Inadequate ventilation	-	-	-	-	-
Ineffective drainage of floors	-	-	-	-	-
Sanitary Conveniences :					
(a) Insufficient	-	-	-	-	-
(b) Unsuitable or defective	-	-	-	-	-
(c) Not suitable for sexes	-	-	-	-	-
Other offences	-	-	-	-	-
Total	-	-	-	-	-

3. Outwork

(Sections 110 and 111)

Nature of Work	Section 110			Section 111		
	No. of Out-workers in August list required by Section 110(1)(c)	No. of cases of default in sending lists to the Council	No. of prosecutions for failure to supply lists	No. of instances of work in unwholesome premises	Notices served	Prosecutions
Wearing Apparel: Making, etc.	6	-	-	-	-	-
Total	6	-	-	-	-	-

(j) Offices, Shops and Railway Premises Act, 1963

During the year eight new properties were registered under the above Act, bringing the number registered at the end of the year to 296.

Routine visits to premises registered under the Act totalled 214, and I give below an analysis of work carried out in respect of contraventions of the Act following such visits:—

	Remedied following	
	Informal Action	Statutory Action
Cleanliness	—	—
Temperature	—	—
Ventilation	—	—
Lighting	1	—
Sanitation	—	—
Washing facilities	1	—
Clothing accommodation	—	—
Floors, passages and stairs	—	—
First Aid Equipment	—	—
Other items	1	—

During the year under review, four accidents were reported to the Local Authority under Section 48 of the Act. The accidents did not prove, upon investigation, to be of a serious or fatal nature, and no statutory action was called for under the Act.

(k) Smoke Abatement

During the year 54 visits were carried out under the provisions of the Clean Air Act, of which a large proportion were in relation to complaints received regarding the burning of bonfires and garden refuse.

(l) Noise Abatement Act, 1960.

Complaints of noise nuisance called for 217 visits of inspection and observation.

In no case was resort to prosecution found necessary. In the main, offenders were co-operative. Advice from the Department's Inspectors was freely available as to modifications in plant or working routine.

(m) Rats and Mice

The Rodent Control section of the Department continued with its work under the Prevention of Damage by Pests Act, 1949.

The normal quarterly surveys and treatments were carried out at Council establishments, three hospitals, two timber yards, the British Road Services Depot, two Agricultural Plant Depots and various schools and industrial premises.

The co-operation with the Railway Authorities was maintained, and, as in previous years, the Council's services were available for survey and treatment. 64 treatments were given to various sections of railway premises during the year.

The following is a summary of the work carried out during the year :—

(a) Number of complaints received regarding infestation with rats or mice	482
(b) Number of premises inspected for the detection of rats or mice	1,264
(c) Number of premises on which signs of rats or mice were detected	588
(d) Number of premises treated for rats	537
(e) Number of premises treated for mice	51
(f) Number of visits made for this purpose	2,983

(n) Caravan Sites

There are now three sites in the Borough for which planning consent for permanent establishment has been granted. The permitted capacities are 27, six and two caravans, respectively.

There remain two sites only which are the subject of temporary licences due to expire in 1970. The sites contain five and three caravans respectively, and the licence conditions include a "run-down" clause.

(o) Bathing Pools

- (a) *Public.* — An open-air bathing pool has been provided by the Council for the use of the public.

The pool has a capacity of approximately 200,000 gallons, providing in its length a water depth of from three to seven feet. The pool is filled with chlorinated water from the Southampton Corporation's main.

The water is circulated at the rate of 37,500 gallons per hour, being drawn from the deep end of the pool through a strainer box to remove grosser impurities, and thence through a horizontal pressure filter for final filtration. Chlorine is injected into the water on the suction side of the circulating pump, the circulation being completed by the delivery of the filtrated and sterilised water to the shallow end of the pool. A suction sweeper is provided for the cleansing of the floor of the pool.

During the year regular visits were paid, and eight samples of the pool water were, upon bacteriological examination, found to be satisfactory.

- (b) *Other Pools.* — Bathing pools in schools and in a private Sports Field used by school children are the subject of periodical scrutiny, and 23 samples of pool water submitted for analysis during the year proved satisfactory.

In addition to the submission of the above samples for bacteriological examination to the Public Health Laboratory, specimens of pool waters are tested regularly by District Inspectors to ensure the maintenance of a safe and effective chlorine dosage.

(p) **Offensive Trades**

There are three offensive trades carried on within the Borough, namely :—

Blood Drying - Fat Extraction - Rag and Bone Dealing.

The trades of Blood Drying and Fat Extraction are established on the premises of Messrs. Harris (Eastleigh) Ltd., and are carried on ancillary to the trade of bacon curing. The factory is modern, and is regularly inspected by the Public Health staff. The work is carried on without nuisance, and no complaints have been received.

(q) **Common Lodging Houses**

There are no common lodging houses registered within the Borough.

(r) **Rag Flock**

There are no premises in the Borough licensed for the manufacture or storage of Rag Flock, but there is one firm who use and sell Rag Flock and are registered by the Local Authority under Section 2 of the Rag Flock and other Filling Materials Act, 1951.

(s) **Petroleum (Regulation) Acts, 1928 and 1936**

During the year 52 licences were issued for the storage of Petroleum, involving the storage of 214,600 gallons of Petroleum, and 1,565 gallons of Petroleum Mixtures.

The pressure testing of new petroleum storage tanks and pipe-lines continued in accordance with the Home Office Code of Practice.

The ullage testing of older installations is carried out as a periodic check on possible age defects, and is made a condition of licence renewal.

A new aspect of Petroleum Act administration which has demanded special study is that of the fast growing changeover to Self Service. Special conditions of Licence are imposed in such cases.

SECTION V

HOUSING

Report by the Chief Public Health Inspector

STATISTICS

Number of new houses erected during the year 1969 :—

(1) By the Local Authority :—		<i>Total</i>
(a) New permanent houses		—
(b) Temporary buildings		—
(2) By other Local Authorities		—
(3) By other bodies and persons		323

1. Inspection of Dwelling-houses during the year :—

(1) (a) Total number of dwelling-houses inspected for housing defects (under Public Health or Housing Acts)	287
(b) Number of inspections made for the purpose.....	846
(2) Number of dwelling-houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932	52
(3) Number of dwelling-houses found not to be in all respects reasonably fit for human habitation	63

2. Remedy of defects during the year without the service of formal Notices :—

Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their officers	39
---	----

3. Action under Statutory Powers during the year :—

A. Proceedings under Section 9, 10 and 16 of the Housing Act, 1957 :

(1) Number of dwelling-houses in respect of which notices were served requiring repairs	10
(2) Number of dwelling-houses which were rendered fit after service of formal notices :—	
(a) By owners	5
(b) By Local Authority in default of owners	2
(c) Outstanding at 31st December, 1969	3

B. Proceedings under Public Health Acts:—

(1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied	6
(2) Number of dwelling-houses in which defects were remedied after service of formal notices:—	
(a) By owners	3
(b) By occupiers	—
(c) By Local Authority in default of owners	—
(d) Outstanding at 31st December, 1969	1

C. Proceedings under Sections 16 (4), 17 (1) and 24 of the Housing Act, 1957:—

(1) Number of dwelling-houses in respect of which Demolition Orders were made	1
(2) Number of dwelling-houses demolished in pursuance of Demolition Orders	Nil
(3) Number of dwelling-houses in respect of which Closing Orders were made	3
(4) Number of dwelling-houses in respect of which an Undertaking was accepted from the owners	1
(5) Number of dwelling-houses in respect of which Undertakings were determined, the dwelling-houses having been made fit	—

D. Proceedings under Section 18 of the Housing Act, 1957:—

(1) Number of parts of buildings or underground rooms in respect of which Closing Orders were made	Nil
(2) Number of parts of buildings or underground rooms in respect of which Closing Orders were determined, the parts of buildings or underground rooms having been rendered fit	Nil

4. Housing Act, 1957 — Part IV. :—

(1) (a) Number of dwellings overcrowded at the end of the year	Nil
(b) Number of families dwelling therein	Nil
(c) Number of persons dwelling therein	Nil
(2) Number of new cases of overcrowding reported during the year	Nil
(3) (a) Number of cases of overcrowding relieved during the year	Nil
(b) Number of persons concerned in such cases	Nil
(4) Particulars of any cases in which dwelling-houses have again become overcrowded after the local authority have taken steps for the abatement of overcrowding	Nil
(5) Any other particulars with respect to overcrowding conditions	Nil

HOUSING REPAIRS

Forty complaints in respect of housing defects and dampness were received in the Public Health Department during the year 1969. As in former years, all these complaints were investigated by the Public Health Officers and where action was found to be necessary the owners were first dealt with informally.

Every effort is made to encourage owners to carry out essential repair work to their property, and 33 informal notices were served during the year under review.

It was found necessary in ten cases to resort to formal action under Section 9 of the Housing Act, 1957.

A summary of the Housing repairs and improvements carried out during 1969 is as follows:—

Nature of Work	Number completed after	
	Informal Notice	Statutory Notice
Roofs repaired or renewed	19	2
Chimney stacks repaired or renewed	6	2
Gutters, rainwater pipes, etc., repaired or renewed	14	4
External walls repaired or renewed	11	3
Dampness remedied	11	2
Miscellaneous housing defects repaired or renewed	44	7
New W.C. provided	3	—
New sinks provided	1	—
Drains cleansed	51	6
Drains repaired or reconstructed	5	—
W.C. compartment repaired	—	1
W.C. compartment rebuilt	—	1
Yard or Passage surfaces repaired or renewed	2	—
	167	28

Certificates of Disrepair

During the year 1969, two visits were made by the Public Health Staff in carrying out duties under the Rent Act, 1957, the summary of which is shown below.

PART I — Applications for Certificates of Disrepair

- | | |
|--|-----|
| (1) Number of applications for certificates | Nil |
| (2) Number of decisions not to issue certificates | Nil |
| (3) Number of decisions to issue certificates: | |
| (a) In respect of some but not all defects | Nil |
| (b) In respect of all defects | Nil |
| (4) Number of Undertakings given by landlords under paragraph 5 of the First Schedule | Nil |
| (5) Number of Undertakings refused by Local Authority under proviso to paragraph 5 of the First Schedule | Nil |
| (6) Number of certificates issued | Nil |

PART II — Application for Cancellation of Certificates

(7) Application by landlords to Local Authority for cancellation of certificates	Nil
(8) Objections by tenants to cancellation of certificates.....	Nil
(9) Notices by Local Authority to landlord of refusal to cancel certificate of disrepair	1
(10) Decisions by Local Authority to cancel in spite of tenants' objections	Nil
(11) Certificates cancelled by Local Authority	Nil

HOUSING ACT, 1969

The new Housing Act came into force on the 25th August, 1969, putting into effect the proposals of the White Paper "Old Houses into New Houses," published in 1968.

A far greater emphasis is now placed on the desirability of reconditioning and improving sub-standard houses, as a more economical alternative to wholesale clearance.

To this end, the improvement grant structure has been considerably extended, and the utmost financial incentive given to both owner/occupiers and to landlords of tenanted property to rehabilitate houses which will, unless timely action is taken, lapse into decay and become fit for demolition.

During the year the Public Health Staff made 245 visits in connection with applications for improvement grants, which were dealt with as follows:—

(1) Number of applications for Standard Grant received	79
(2) Number of Standard Grants approved	69
(3) Number of applications refused	3
(4) Number of applications deferred	Nil
(5) Number of applications changed to applications for Discretionary Grant	Nil
(6) Number of applications withdrawn	Nil
(7) Number of applications outstanding at 31st December, 1969	7

VERMINOUS PREMISES AND ARTICLES

The disinfection of verminous articles and premises is carried out by the Local Authority, and during the year 1969 the following work was carried out by the Public Health Department:—

(1) Number of houses inspected for vermin	19
(2) Number of houses found to be verminous	13
(3) Number of rooms treated for vermin	29

(c) Untreated Milk

Dairies receive this milk already bottled from the farm, but the consumption of raw designated milk is now considerably diminished ; the bulk of the milk from Tuberculin Tested herds being consigned to the dairies in bulk for pasteurisation. The primary responsibility for the standard of raw milk rests with the Ministry of Agriculture, Fisheries and Food, but the Local Authority has power to take samples.

The consumption of this type of milk has become somewhat of an idiosyncrasy, and supplies are only available to consumers on a 'Special Order' basis.

No samples of this milk were taken during the year.

(d) Ultra-Heat Treated Milk

Five samples of milk under this designation were taken, and all complied with the sterility test.

(b) MEAT AND OTHER FOODS**(1) Slaughterhouses**

The Council is a constituent member of the Wessex Slaughterhouse Board, which carries out the duties of the local authority in relation to the provision of public slaughterhouses and slaughtermen and ancillary matters in conjunction with other local authorities in Southern Hampshire. The Board licensed one private slaughterhouse in the Borough during the year, namely, that situated at the bacon factory of Messrs. Harris (Eastleigh) Ltd., a subsidiary of Messrs. Harris (Calne) Ltd.

In addition to the daily slaughtering and processing of a large number of home-bred pigs at Messrs. Harris' factory, there is also a considerable trade in the smoking of imported bacon.

The vacuum packing of bacon joints, sliced bacon, cheese and hams has been further developed.

The number of visits to slaughterhouses and the numbers of animals inspected are shown below:—

Number of visits to slaughterhouses, etc.	1,458
Number of carcasses examined:—			
Pigs 62,285

(2) Visits to Food Premises

The structural condition of food trade premises, the maintenance of equipment and the conduct of traders and employed staff are all matters controlled by powers granted under the Food and Drugs Act 1955 ; the Byelaws made under Section 15 of that Act ; and the Food Hygiene Regulations, 1960. Constant supervision of such premises is maintained, and 766 visits were paid to food shops and premises within the Borough during 1969.

Formal proceedings were instituted against one food manufacturer in respect of offences under the Regulations as regards the structure and equipment of his factory.

Fines totalling £75, plus costs, were imposed by the Magistrates. As a result of the action considerable work of repair and renewal was carried out by the offender.

Compliance with informal notices resulted in the carrying out of the following works :—

Details of Work completed	Number completed after	
	Informal Action	Statutory Action
Structural repairs carried out	1	—
Sinks provided	1	—
Wash-hand basins provided	1	—
Hot water supply provided	2	—
Ventilation provided	1	—
	6	—

(3) Diseased or Unsound Meat and Food

Both traders and the public seek advice regarding suspected food, and during the year forty-one such requests were made by traders, whilst complaints from the public numbered fifty-five.

In the case of such complaints, a full investigation is carried out, and useful results have been achieved in relation to the turnover of stock in traders' premises. The drastic changes which have come about in recent years in the pre-packing and deep freezing of foodstuffs have made stock turnover of prime importance, and in this connection retailers have been found to be in need of advice and scrutiny which does not appear to be forthcoming from manufacturers.

In six cases of complaint from members of the public, resort was made to formal action in the Magistrates' Court under the Food and Drugs Act, 1955, with the following results :—

<i>Subject</i>	<i>Result</i>
Case 1. Glass in Jar Beetroot	Conviction : Fine £20, plus costs.
Case 2. Washer in Jar Chutney	Conviction : Fine £10, plus costs.
Case 3. Unsound Steak and Kidney Pies	Conviction : Fine £20, plus costs.
Case 4. Unsound Sausages	Conviction : Fine £15, plus costs.
Case 5. Unsound Steak and Kidney Pie	Conviction : Fine £15, plus costs.
Case 6. Mouldy Fresh Cream Dessert	Conviction : Fine £30, plus costs.

In addition, judgement was given and surrender accepted in respect of the animals examined in the course of the daily work at the Bacon Factory. The various diseased or unsound conditions are detailed in the following tables. All surrendered foodstuffs were disposed of under the supervision of the Department.

TABLE I
TUBERCULOSIS IN FOOD ANIMALS

Portion dealt with	Bovines		Pigs		Totals Bovines and Pigs	
	No.	Weight lbs.	No.	Weight lbs.	No.	Weight lbs.
Whole Carcases	-	-	-	-	-	-

OTHER UNSOUND CONDITIONS OF MEAT AND OTHER FOODS

Description	Reason for Surrender	Weight in lbs.
Meat	Unsound or Unwholesome	2,101½
Canned Meats	„ „	121½
Other Canned Foods	„ „	1,891
Other Foods	„ „	19,911¾
		23,925¾

(4) Adulteration

The County Council are the Foods and Drugs Authority within the Borough and, as such, take routine samples of food and drugs for the purpose of detecting adulteration.

(5) Registered Premises

The number of premises registered under Section 16 of the Food and Drugs Act, 1955, is as follows:—

For manufacture and sale of ice-cream	3
For sale only of ice-cream	136
For storage only of ice-cream	7
For preparation or manufacture of sausages, or potted, pressed, pickled or preserved food intended for sale	74
	220

At only one of the premises registered for manufacture was ice-cream, in fact, made.

In all cases, the premises are inspected and any necessary improvements effected before registration is granted by the Council.

The bulk of the ice-cream sold in the district is pre-packed ice-cream obtained from the large national and provincial manufacturers.

Routine samples were taken during the year, with the following results:—

WITHIN DISTRICT

	Number of Manufacturers				-	1
Number Taken	Provisional Grading				Percentage	
	1	2	3	4		
39	19	10	8	2		
						Grade 1 — 48.8
						Grade 2 — 25.6
						Grade 3 — 20.5
						Grade 4 — 5.1

OUTSIDE DISTRICT

Number of Manufacturers - 2

Number Taken	Provisional Grading				Percentage
	1	2	3	4	
16	10	4	2	-	

Grade 1 — 62.5

Grade 2 — 25.0

Grade 3 — 12.5

Grade 4 — -

NOTE — Owing to the numerous factors governing the hygienic quality of ice-cream and to the experimental error of the laboratory itself, it is unwise to pay too much attention to the bacteriological results on any given sample. Judgement should be based rather on a series of samples. It is suggested that, over a six-monthly period, 50% of a vendor's samples should fall into Grade 1; 80% into Grades 1 or 2; not more than 20% into Grade 3; and none in Grade 4.

It is further suggested that if, out of the four grades recommended, ice-cream consistently fails to reach Grades 1 or 2, it would be reasonable to regard this as indicating defects of manufacture or of handling which calls for further investigation.
