Mr. Mayor, Aldermen and Councillors,

I have the honour to present my Annual Report for 1965.

It will be seen that the health of the Borough has been most satisfactory during the year under consideration. In particular the fact that there have been no stillbirths and no deaths of infants under the age of one year is one of which we have cause to be very proud. There have, in fact, been no deaths in persons under the age of 15 years and the records show that of the total of 40 deaths occurring in people of all ages, 25 were of persons over the age of 75.

ANNUAL REPORT
of the
MEDICAL OFFICER OF HEALTH
as to the
SANITARY CONDITIONS
of the
BOROUGH OF WYKE.

Mr. Mayor, Aldermen and Councilors,

I have the honor to present my Annual Report for 1907.

It will be seen that the health of the Borough has been most satisfactory during the year under consideration. In particular the fact that there have been no epidemics and no deaths of infants under the age of one year is of great importance. There have, in fact, been no deaths of persons under the age of 15 years and the records show that of the total 40 deaths occurring in people of all ages, 35 were of persons over the age of 15.

GENERAL STATISTICS

450 acres.	
1800	Population
304	Number of inhabited houses
47,000	Rateable Value
480.12.6d.	Product of Poor Rate

VITAL STATISTICS

12.5				Rate per 1,000 population
10.00				Rate per 1,000 population
10.1				Rate per 1,000 population
11.1				Rate per 1,000 population
12.7				Rate per 1,000 population

VITAL STATISTICS. (Cont.)

Deaths of Infants Under 1 year.

Legitimate	Nil.
Illegitimate	Nil.
Infant Mortality Rate	Nil.
Infant Mortality Rate England and Wales	19.0 per 1,000 live births.

<u>Deaths</u>	<u>Males.</u>	<u>Females.</u>	<u>Total.</u>
All causes	17	23	40
Crude death rate per 1,000 population		25.00	
Comparability Factor		39.00	
Standardised Death Rate per 1,000 population		9.75	
Death Rate England and Wales per 1,000 population		11.5	

The Registrar General supplies a comparability factor 0.39 by which the Crude Death Rate must be adjusted for comparison with others areas of the country. As this factor is less than unity, the Standardised, or corrected Death Rate is less than the Crude Death Rate. This indicates that Eye has a greater "weighting" of elderly persons than the average for the rest of the country.
