URBAN DISTRICT COUNCIL OF FAREHAM.

To the Chairman and Members of the
Fareham Urban District Council.

Ladies and Gentlemen,

I have the honour to submit my fourth Annual Report upon the health of the District, and the work of the Public Health Department for the year 1941.

The Registrar General's estimate of the mid-year population is 37,130.

It is worthy of note that the Birth Rate is 20.3 per 1,000, compared with 14.2 for England and Wales. The crude Death Rate is 12.1 per 1,000, compared with 12.9 for England and Wales.

The Infant Mortality Rate is 31.7 per 1,000 live births compared with 59.0 for England and Wales.

The general health of the district continues to be satisfactory.

In conclusion, I would like to express my thanks to the members of the Council, and especially to the Chairman and Members of the Public Health Committee, for their helpful co-operation.

I have the honour to be
Ladies and Gentlemen,
Your obedient Servant,

A.R.GRAHAM.

Medical Officer of Health.

SECTION A. - STATISTICS FOR THE AREA.

Area in Acres, 18,352.

Population (Registrar General's Estimate mid 1941) 37,130. X

Number of inhabited houses (end of 1941) according to Rate

Books, Approx. 11,000. X

Rateable Value £251,362.

Sum represented by a penny rate, estimated for 1941-42, £964.

Natural and Social Conditions of the Area.

No appreciable change.

Vital Statistics.

SECTION B. - GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA.

Public Health Officers.- A.R.Graham, M.B., CH.B., D.P.H., Medical Officer of Health, R.J.Baker, M.R., SAN.I., Chief Sanitary Inspector and Meat Inspector, Miss L.A.Gardner, Clerk and Miss J.A.Reid, Typist. Mr.L.R.Campbell, Clerk, left for service in the Royal Air Force in October.

Laboratory Facilities.- The Hampshire County Council provide full facilities for Chemical and Bacteriological examinations.

Ambulance Facilities.- General and Accident Cases. A motor Ambulance is provided by the Order of St.John and the British Red Cross Society. It is maintained by the Council, Telephone Fareham 2285, (Police). In emergency A.R.P.Ambulances are also available.

Infectious Diseases.- The Fareham Urban District Council provide an Ambulance for removal of Infectious cases.

Nursing in the Home.- Training and provision of District Nurses and Midwives is supervised by the Hampshire County Nursing Association, 81, North Wall, Winchester, Tel. Winchester, 1502.

Hospitals.- Infectious Diseases.

The Infectious Diseases Hospital is situated in the Fareham West Ward and is the property of the Council. Cases are received from Fareham and part of the Droxford Rural District. As there is limited accommodation arrangements are made as required for treating surgical and other cases at other infectious diseases hospitals.

Tuberculosis.- Sanatorium treatment is provided by the County Council at Chandlers Ford and Bishopstoke.

Small Pox.- Accommodation for these cases is provided by the County Council.

General Hospitals.- There are none within the boundaries of the Urban District. The hospitals at Southampton, Portsmouth and Winchester are available. Necessitous cases are accommodated through the Public Assistance Committee.

Maternity.- At present, patients requiring hospital treatment go to St. Mary's Hospital, Portsmouth, or in necessitous cases through Public Assistance.

CLINICS AND TREATMENT CENTRES.

Tuberculosis.

Under County Medical Officer, The Castle, Winchester.
(Phone Winchester, 1004).

T.B.Clinics.	Mondays.	9-30 - 12 a.m.	4, Clarence Sq, Gosport.T.B.Dispen- sary.
" "	Wed.	9-30 - 12 a.m.	Methodist Hall, Fareham.
" "	Thurs.	9-30 - 12 a.m.	Park Way, Havant.

Maternity and Child Welfare.

Ante Natal Clinics.

Under County Medical Officer.

Fareham.	-	2.0.p.m. 2nd 3rd 4th Monday . Methodist Church Hall.
Portchester.	-	2.0.p.m. 1st 3rd Wednesday , Cormorant.

School Medical Inspection.

Under County Medical Officer.

Dental Clinics.	-	Appointment only.
Eye "	-	Once a month at Fareham.
Orthopaedic Clinic.	-	Appointment only.
Remedial Exercise Clinic	-	Appointment only. Friday mornings, Methodist Church Hall.

Health Visitors.

Under County Medical Officer.

Vaccination. District Medical Officers and Public Vaccinators.

Dr. T. Kirsopp.	-	Fareham and Portchester.
Dr. D.A.Windemer.	-	Titchfield, Sarisbury, Warsash and Crofton.

SECTION C. - SANITARY CIRCUMSTANCES OF THE AREA.

Water Supply.- The District is supplied with water from various sources, namely:-

1. FAREHAM.- Fareham Waterworks.
2. PORTCHESTER.- The Portsmouth Waterworks Company.
3. CROFTON.- The Gosport Waterworks Company.
4. SARISBURY, TITCHFIELD and WARSASH.- The Southampton Waterworks Company.

Fareham.- The Fareham Waterworks are the property of the Fareham Urban District Council and supply all the Fareham East and West Wards except for a few houses, which for convenience are supplied by the Gosport water mains.

The consumption of water from the Fareham Waterworks for the year was 262,294,000 an increase of 17,047,000 galls.

The Portsmouth Water Company promoted a bill during the year seeking powers to construct new works. At first it was felt that the construction of these works might reduce the yield of the well and headings of the Council's supply. Expert geological opinion was obtained, and the report indicated that any interference with the Council supply was remote. Any opposition to the Bill was therefore, withdrawn.

Samples of water were taken for analysis at least once a month, the results being consistently satisfactory.

CROFTON, PORTCHESTER, SARISBURY, TITCHFIELD and WARSASH.

Reports on samples are periodically received and have been consistently satisfactory.

Other Supplies. There are still a number of shallow wells existing in the District.

Drainage and Sewerage.

FAREHAM.- The Sewage Disposal Works are still in the process of being enlarged - the work has been delayed owing to the war.

CROFTON AND PORTCHESTER.- Most of the residential portions of the area of these two wards have now been provided with sewers. There is still some portions of the Portchester Ward requiring sewers, but this work has been postponed owing to the War. The sewage from these two wards is brought to Fareham for treatment.

SARISBURY.- The Sewerage System for the Housing Site at Addison Road is working satisfactorily.

TITCHFIELD.- The question of the method of dealing with the sewerage from this area is still under the consideration of the Council. The existing works are unable to deal adequately with the sewage now discharging there, and it is proposed if possible, to scrap the existing work and deliver the sewage into the Fareham Works.

RIVERS AND STREAMS.

No complaints of pollution of rivers and streams have arisen. Public Cleansing:- House refuse is collected once weekly in the whole of the District, with the exception of outlying areas.

In the Fareham and Crofton Wards the work is done by direct labour, - two S.D.Freighters being used for the purpose.

In the other Wards the work is done by contract, lorries being employed.

Cesspit emptying.- One mechanical vehicle was converted into a refuse collecting vehicle during the year, and the Council have now five freighters for cesspit emptying. There is insufficient labour to man all these, so that many complaints are received owing to delay in emptying.

Since the laying of sewers in the Portchester and Crofton wards, 1551 premises have been connected to the sewers.

SANITARY INSPECTION OF THE AREA.

Summary of Inspections and Work done.

Total Inspections carried out:- 1283.

Inspection of Food.

Carcases Examined. Pigs 6, Calves 2. 1 Pig condemned.

Foodstuffs examined in shops:-- The following articles were condemned:- Butter 1 cwt.72 lbs. Margarine 1 cwt.1 lb. Bacon 55½ lbs. Fishcakes 28 dozen. Beef 3 cwt.72 lbs. Brawn 60 lbs. Fish 2 cwt. Salad Cream 54 jars. Carrots 6 tins. Meat Past 2 bottles. Lemon Curd 10 jars. Chicken & Ham Roll 3 lbs. Tongue 24 lbs. Brisket of Beef 11 lbs. Plums 6 tins. Milk 24 tins. Picnic Roll 1 tin. Fish Cake Roll 1 tin. Stewed Steak 1 tin.

In addition a quantity of salvaged tinned and bottled food was examined.

Rats and Mice Destruction Act.

The scheme for the issue of rat poison free of charge was continued during the year and was very successful. Although it is impossible to state how many rats and mice were destroyed, from reports received the poison was very effective.

Great publicity was given to this important matter which included, the press, cinemas and distribution of circulars to all farmers and those dealing with large amounts of foodstuffs.

Signed,

R.J.BAKER, Cert. S.I.B., M.R.San.I.

(2)	Number of dwelling-houses in which defects were remedied after service of formal notices.	
	(a) By owners.	10
	(b) By local authority in default of owners.	0
	C.-Proceedings under Sections 11 and 13 of the Housing Act, 1936.	
(1)	Number of dwelling-houses in respect of which Demolition Orders were made.	0
(2)	Number of dwelling-houses demolished in pursuance of Demolition Orders.	0
(3)	Number of dwelling-houses demolished after informal action.	0
(4)	Number of dwelling-houses demolished (Clearance Areas).	0

D.-Proceedings under Section 12 of the Housing Act, 1936.

- | | |
|----------------------------------------------------------------------------------------------------------------------------------------------------------|---|
| (1) Number of separate tenements or underground rooms in respect of which Closing Orders were made. | 0 |
| (2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit. | 0 |

Housing Act, 1936 - Part IV - Overcrowding.

Owing to the increase of homeless people, evacuees, and others, overcrowding unavoidably existed.

As conditions varied considerably from week to week it was not possible to keep records of this overcrowding.

It was alleviated as soon as other accommodation was available, and drastic action was not taken under the circumstances.

General Remarks.

No houses were erected during the year.

The total number of houses that have been erected by the Council under the Housing Acts 1919-35 are:-

Crofton 46: Fareham East 46: Fareham West 12: Portchester 80:
Salisbury 70: Titchfield 94: Warsash 54: Total 402.

SECTION E.- INSPECTION AND SUPERVISION OF FOOD.

Milk Supply.- There are 40 dairy farms, 1 milk shop and 9 milk stores in the District, also 38 retail purveyors of milk, 10 of whom supply milk from premises outside the District. The majority of the cowsheds are satisfactory.

Tuberculous Milk.- Examination of specimens for Tuberculous Milk is now carried out by the County Council.

Supplementary Licences - Tuberculin Tested.	5
Pasteurized.	2

Meat and other Foods.- Shops were visited as required. As the Slaughtering of animals is now carried out centrally the local slaughter houses were no longer in use. Where occasional slaughter under licence occurred the animals were inspected.

Bakehouses.- Bakehouses continue to be kept in a clean and satisfactory condition.

SECTION F. - PREVALENCE OF AND CONTROL OVER
INFECTIOUS AND OTHER DISEASES.

Diphtheria.- Seven cases of Diphtheria occurred during the year, one of which was fatal.

Free supply of Diphtheria Antitoxin is available to general practitioners for early treatment of cases.

Scarlet Fever.- 64 cases of Scarlet Fever occurred of which 53 went to hospital. Few complications arose.

Cerebro Spinal Meningitis.- Twelve cases occurred during the year when the disease was to some extent epidemic throughout the Country.

Enteric Fever.- One case of Para B was notified, but the disease was contracted in a neighbouring district as it only came into the district on the night of notification.

Typhoid Immunisation.- A scheme for free inoculation against the typhoid group of organisms commenced in February. Only 187 people took advantage of inoculation.

Immunisation against Diphtheria.- There were 7 cases of Diphtheria during the year, one of which had been immunised in 1937 with T.A.F. The case was of medium severity. Immunity begins to lessen after about 4 years.

The material now used for immunisation is Alum Precipitated Toxoid (A.P.T.) which is supplied free of charge from the Emergency Laboratory, Winchester.

Resume of Diphtheria Immunisation since the scheme commenced.

Since the scheme commenced in 1936, the Medical Officer of Health has given 9,752 injections of which 5,151 were first, 4,562 second injections, 14 third injections, and 25 reinoculations, set out in the following tables.

Injections given by Medical Officer of Health.

		<u>Under 5 years.</u>	<u>Over 5 years.</u>
<u>No. of</u>	1936.	232	207
<u>1sts.</u>	1937.	512	706
	1938.	128	440
	1939.	68	379
	1940.	154	367
	1941.	660	1,298
		<u>1,754</u>	<u>3,397</u>

Total 1st injections: 5151.

		<u>Under 5 years.</u>	<u>Over 5 years.</u>
<u>No. of</u>	1936.	166	11
<u>2nds.</u>	1937.	523	881
	1938.	103	404
	1939.	78	349
	1940.	118	286
	1941.	492	1,151
		<u>1,480</u>	<u>3,082</u>

Total 2nd injections: 4562.

No. of Reinoculations. 1941:- 25. No. of 3rd Doses:- 14.
Injections given by Private Doctors: say 500 1st and 500 2nd.

Number of Completed Immunisations:- 5,062. (4,562 by Medical Officer of Health. 500 by Doctors). (Course of 2 or 3 injections)

In addition to these injections, a group of immunised children have come into the area, but this is offset by those who leave.

I would estimate that about 50% of children under 5 years, and 70% over 5 years are inoculated in this area.

According to our population, and the average number of cases of Diphtheria over the country, we might expect about 50 cases per annum.

The following table shows the remarkable drop in cases in spite of increasing and changing population.

	<u>Confirmed cases of</u> <u>Diphtheria.Fareham</u>	<u>Confirmed cases of</u> <u>Diphtheria in England and</u> <u>Wales.</u>
1934.	28	
1935.	18	
1936.	32	
1937.	49	61,870
1938.	11	65,720
1939.	5	47,910
1940.	1	46,683
1941.	7	50,056

Since the scheme commenced only 3 children who were immunised contracted the disease, all of whom were mild cases.

It is recommended that injections be repeated after 5 years, owing to the immunity lessening, and an increasing number of reinoculations are now being done.
